Docket Number: 76–00212–33–46040. Applicant: University Hospitals of Cleveland, Institute of Pathology, 2085 Adelbert Road, Cleveland, Ohio 44106. Article: Electron Microscope, Model EM 201C. Manufacturer: Philips Electronics Instruments NVD, The Netherlands. Intended Use of Article: The article is intended to be used for research involving specimens obtained during operations and autopsies as well as for studies of material which may not be human but are connected with clinical situations which will include:

(1) Study of endometrioid and papillary serous cystadenocarcinoma of the ovary,

(2) Study of mixed carcinoma of the endometrium,

(3) Electron microscope evaluation of early invasive breast carcinoma,

(4) Study of erythrocyte changes induced by malaria infection. The article will also be used for educational purposes in the following courses open to physicians, resident physicians, postdoctoral fellows, graduate students, undergraduate medical students, and undergraduate science majors who are interested in electronic microscopy: Introduction to Electron Microscopy, Ultrastructural Aspects of Pathology, and Renal Pathology.

Application Received by Commissioner of Customs: November 17, 1975.

Maritime Administration

[Docket No. S–479]

SUN TRANSPORT, INC.

Notice of Application

Notice is hereby given that application has been filed under the Merchant Marine Act, 1936, as amended (the Act), for operating-differential subsidy with respect to bulk cargo carrying service in the U.S. foreign trade, principally between the United States and the Union of Soviet Socialist Republics, to expire on December 31, 1975, unless further extended, or until completion of voyages in progress on that date.

Inasmuch as the applicant, and/or related persons or firms, employ or may employ ships in the domestic intercoastal

V40238 DEC 10 75 XUM

or coastwise service, written permission of the Maritime Administration under section 805(a) of the Act will be required if its application for operating-differential subsidy is granted.

Applicant states that it has been operating seventeen vessels in the domestic intercoastal and coastwise trades of the United States and in its application for operating-differential subsidy has requested that the AMERICA SUN, PENNSYLVANIA SUN, and TEXAS SUN be permitted to enter the U.S./U.S.S.R. grain trade. Sun Transport, Inc. has also requested written permission to maintain its domestic intercoastal and coastwise operations. The following vessels are chartered to and operated by applicant:

Albany Sun	Newark Sun
America Sun	Pennsylvania Sun
Chesapeake Sun	Providence Sun
Corpus Christi Sun	Revere Sun
Delaware Sun	Seminole Sun
Eastern Sun	Texas Sun
Hartford Sun	Western Sun
New England Sun	Toledo Sun
New Jersey Sun	

Such written permission is now required under section 805(a) notwithstanding the fact that a voyage in the proposed service on which the vessel engaged in domestic intercoastal or coastwise trade would not be eligible for subsidy.

Any person, firm, or corporation having any interest (within the meaning of section 805(a)) in such application and desiring to be heard on issues pertinent to section 805(a) and desiring to submit comments or views concerning the applications must, by close of business on December 17, 1975, file same with the Secretary, Maritime Administration, in writing, in triplicate, together with petition for leave to intervene which shall state clearly and concisely the grounds of interest, and the alleged facts relied on for relief.

If no petitions for leave to intervene are received within the specified time or if it is determined that petitions filed do not demonstrate sufficient interest to warrant a hearing, the Maritime Administration will take such action as may be deemed appropriate.

In the event petitions regarding the relevant section 805(a) issues are received from parties with standing to be heard, a hearing will be held, the purpose of which will be to receive evidence under section 805(a) relative to whether the proposed operation (a) could result in unfair competition to any person, firm, or corporation operating exclusively in the coastwise or intercoastal service, or (b) would be prejudicial to the objects and policy of the Act relative to domestic trade operations.

(Catalog of Federal Domestic Assistance Program No. 11.504 Operating-Differential Subsidies (ODS))

By Order of the Assistant Secretary for Maritime Affairs.

Dated: December 5, 1975.

[Docket No. S-478]

AMERICA SUN ET AL.

Notice of Application

Notice is hereby given that Sun Transport, Inc., 1200 Philadelphia Pike, Claymont, Delaware 19703, has filed an application dated November 14, 1975, with the Maritime Subsidy Board (the Board) pursuant to Title VI of the Merchant Marine Act, 1936, as amended (the Act), for an operating-differential subsidy contract, to expire December 31, 1975, unless further extended, to operate the S/Ts AMERICA SUN, 80,735 deadweight tons; PENNSYLVANIA SUN, 53,463 deadweight tons; and TEXAS SUN, 53,453 deadweight tons, in the carriage of export bulk raw and processed agricultural commodities in the foreign commerce of the United States (U.S.) from ports in the U.S. to ports in the Union of Soviet Socialist Republics (U.S.S.R.). Dry and liquid bulk cargoes may be carried from U.S.S.R. and other foreign ports inbound to U.S. ports during voyages subsidized for carriage of export bulk raw and processed agricultural commodities to the U.S.S.R.

Full details concerning the U.S.-U.S.S.R. export bulk raw and processed agricultural commodities subsidy program, including terms, conditions and restrictions upon both the subsidized operators and vessels, appear in Title 46 of the Code of Federal Regulations, Part 294.

For purposes of section 605(c) of the Act, it should be assumed that, should the Board grant the requested approval, the vessels named above will engaged in the described trade, on a full-time basis; during the indicated time period. Under such approval each voyage must be approved for subsidy assistance prior to its commencement and the Board will act on such request(s) as an administrative matter for which there is no requirement for further section 605(c) notice(s).

Any person having an interest in the granting of the application and who would contest a finding of the Board that the service is now provided by vessels of U.S. registry for the carriage of cargoes previously specified is inadequate, must on or before December 17, 1975, notify the Board's Secretary, in writing, of his interest and of his position, and file a petition for leave to intervene in accordance with the Board's Rules of Practice and Procedure (46 CFR Part 201). Each such statement of interest and petition to intervene shall state whether a hearing is requested under section 605(c) of the Act and, with as much specificity as possible, the facts that the intervenor would undertake to prove at such hearing.

In the event a hearing under section 605(c) of the Act is ordered to be held with respect to the subject application, the purpose of such hearing will be to receive evidence relevant to (1) whether the application herein described, with respect to the vessels to be operated in an essential service and served by citizens of the U.S., would be in addition to the existing service, or services, and if so, whether the service already provided by vessels of U.S. registry is inadequate, and (2) whether in the accomplishment of the purposes and policy of the Act additional vessels should be operated thereon.

If no request for hearing and petition for leave to intervene is received within the specified time, or if the Board determines that petitions for leave to intervene filed within the specified time do not demonstrate sufficient interest to warrant a hearing, the Board will take such action as may be deemed appropriate.

(Catalog of Federal Domestic Assistance Program No. 11.504 Operating-Differential Subsidies (ODS))

So ordered by the Maritime Subsidy Board/Maritime Administration.

Dated: December 5, 1975.

JAMES S. DAWSON, JR.,
Secretary.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[NADA No. 12-287V]

BURNS-BIOTEC LABORATORIES

Kymar Ointment; Withdrawal of Approval of New Animal Drug Application

The Commissioner of Food and Drugs is withdrawing approval of a new animal drug application (NADA) for Kymar Ointment, effective December 10, 1975.

Under the Federal Food, Drug, and Cosmetic Act (sec. 512(e), 82 Stat. 345-347 (21 U.S.C. 360b(ee))) and under authority delegated to the Commissioner (21 CFR 2.120), the following notice is issued:

Burns-Biotec Laboratories, Div. of Chromalloy Pharmaceutical, Inc., 7711 Oakport St., Oakland, CA 94621, holder of approved NADA No. 12-287V for Kymar Ointment, which contains proteolytic enzymes, neomycin palmitate, and hydrocortamate hydrochloride, has requested by letter dated May 30, 1975, that approval of the NADA be withdrawn and has waived the opportunity for a hearing. The NADA, which was originally approved September 6, 1960, provides for use of the drug for aiding wound healing and superficial dermatosis in horses, cattle, dogs and cats. The firm has requested that the NADA be withdrawn in accordance with § 514.115(d) (21 CFR 514.115(d)) because the drug is no longer being marketed. Therefore, notice is given that approval of NADA 12-287V and all supplements and amendments thereto for Kymar Ointment is hereby withdrawn, effective December 10, 1975.

Dated: December 3, 1975.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner for Compliance.

Office of Education

NATIONAL ADVISORY COUNCIL ON EXTENSION AND CONTINUING EDUCATION

Public Meeting

Notice is hereby given, pursuant to the Federal Advisory Committee Act, Pub. L. 92-463 that a meeting of the Council will be held on January 8 and 9, 1976 in the Continental Room at the Statler Hilton Hotel, 16th and K Streets, NW., Washington, D.C. The meetings will begin at 9:00 a.m. on both days, and adjourn at 12:00 noon on January 9.

The National Advisory Council on Extension and Continuing Education is authorized under Public Law 89-329. The Council is directed to advise the Commissioner of Education in the preparation of general regulations and with respect to policy matters arising in the administration of Title I, and to report annually to the President on the administration and effectiveness of all federally supported extension and continuing education programs, including community service programs.

The meeting of the Council will be open to the public. The purpose of the meeting is to discuss and formulate updated operating procedures and guidelines governing the activities of the Council. All records of Council proceedings are available for public inspection at the Council's staff office, located in Suite 529, 425 13th Street NW., Washington, D.C.

RICHARD F. MCCARTHY,
Associate Director.

Public Health Service

HEALTH RESOURCES ADMINISTRATION

Application Announcement for Traineeships for Advanced Training of Allied Health Professions Personnel (Long-Term) and Allied Health Professions Grants for Training Institutes (Short-Term)

Notice is hereby given that the Division of Associated Health Professions, Bureau of Health Manpower, Health Resources Administration, is now accepting applications for grants in fiscal year 1976 under authority of the Continuing Resolution (P.L. 94-41) for Traineeships for Advanced Training of Allied Health Profession Personal (Long-Term) and Grants for Training Institutes (Short-Term) authorized under section 793 of the Public Health Service Act. Section 793 provides for grants to public and nonprofit private agencies, organizations, and institutions to cover the cost of traineeships of allied health professions personnel to teach health services technicians or to teach in any of the allied health professions, to serve in any of these professions in administrative or supervisory capacities, or to serve in allied health professions specialties requiring advanced training.

Application materials are being mailed to current grantees. Other eligible applicants may request application materials by contacting immediately the Education Development Branch, Division of Associated Health Profesions, Bureau of Health Manpower, Health Resources Administration, Building 31, Rm. 3B-19, 9000 Rockville Pike, Bethesda, Maryland 20014, (301-496-5697).

To be considered for fiscal year 1976 funding: (1) Applications for grants for Traineeships for Advanced Training of Allied Health Professions Personnel (Long-Term) must be received in the Education Development Branch at the above address no later than January 12, 1976 and (2) Applications for Allied Health Professions Grants for Training Institutes (Short-Term) must be received in the Education Development Branch no later than March 2, 1976.

Dated: December 3, 1975.

KENNETH M. ENDICOTT,
Administrator, Health Resources Administration.

ADMINISTRATIVE CONFERENCE OF THE UNITED STATES

COMMITTEE ON INFORMAL ACTION

Meeting

Pursuant to the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given of a meeting of the Committee on Informal Action of the Administrative Conference of the United States, to be held at 10:00, January 6 in the offices of Shea & Gardner, 734 15th Street NW., Washington, D.C. 20005.

The Committee will meet to consider Professor Paul Verkuil's study no procedures for informal adjudicatory hearings.

Attendance is open to the interested public, but limited to the space available. Persons wishing to attend should notify this office at least one day in advance. The Committee Chairman may, if he deems it appropriate, permit members of the public to present oral statements at the meeting; any member of the public may file a written statement with the Committee before, during or after the meeting.

For further information concerning this Committee meeting contact June Katz (phone 202-254-7065). Minutes of the meeting will be aavilable on request.

RICHARD K. BERG,
Executive Secretary.

CIVIL AERONAUTICS BOARD

[Docket Nos. 28462, etc.; Order No. 75-12-28]

CONTINENTAL AIR LINES, INC.

Order of Suspension Regarding Rates Investigation

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 5th day of December, 1975.

By tariff revisions [1] posted October 23 and marked to become effective December 7, 1975, Continental Air Lines, Inc., (Continental) Docket No. 28462, proposes, with limited exceptions, to increase bulk and container general and specific commodity rates and charges, and all priority reserved air freight rates and charges, typically by 7 percent. Bulk general commodity minimum charges per shipment are to be increased by $1.00 to $12.00 per shipment. In addition, certain daylight container charges will be increased by 10 percent in markets where such rates have purportedly been successful in generating traffic to the point where demand exceeds available supply, and rates on papaya from Hawaii to Los Angeles are being increased as much as 52 percent.

A joint complaint requesting rejection, or in the alternative, suspension, pending investigation, has been filed by the State of Hawaii and the County of Hawaii against the increases between Honolulu/Hilo and the Mainland. The complaint alleges, *inter alia*, that Hawaii is vitally dependent upon air freight service to and from the Mainland; that many producers in Hawaii look to the Mainland as the only export market of any size offering a hope of sales sufficient to support a sizable industry; that growers of papaya, pineapple, and cut flowers in particular rely upon air freight as the only means of transportation capable of getting their highly perishable fresh agricultural products to market; that certain of Continental's increases in Hawaiian markets are 48 percent greater than the proposed Mainland increase; and that, as to the increase in papaya rates, the Hawaiian papaya shippers have no surface transportation alternative for their highly perishable commodity. Furthermore, the complainant alleges that Continental has failed to supply specific data such as traffic, revenues, costs, or return on investment for the Hawaiian market.

In support of its proposal and in answer to the complaint, Continental asserts, *inter alia*, that the proposed rate increases are justified on a cost basis, in that they will do no more than enable the carrier to keep a reasonable pace with continuing increases in noncapacity costs; that noncapacity costs have been increasing on the average of 7 percent per year for bulk shipments and 12 percent per year for containers; that the proposed increase is less than the increase permitted by the Board last July for certain other carriers; that the last freight rate increase for Continental was in March 1974; and that it is anticipated that the proposal will produce $3.2 million in additional revenue in 1976, or about 8.1 percent of forecasted freight revenues.

Furthermore, in its answer to the complaint, Continental states that it has been a leader in maintaining reduced Mainland-Hawaii rates; that it has maintained the 6.5-pound cube rule for the floral industry, and, where capacity exists, in recent months it has established weekend rates 45 percent lower than prevailing rates; that papaya traffic will continue to move under the proposed

[1] Revisions to Airline Tariff Publishing Company, Agent, Tariffs C.A.B. Nos. 169 and 227.

V40238 DEC 10 75 XUM

rates: that the ratio of transport cost to wholesale value for papaya is still in line with that for comparable commodities; and that the proposed rates on papaya are far below the level of all-cargo costs plus a 12 percent profit since the proposed level will only cover noncapacity costs with a contribution to capacity costs.

The proposed rates and charges come within the scope of either the *Domestic Air Freight Rate Investigation* (DAFRI), Docket 22859, or the *Priority Reserved Air Freight Rates Investigation* (PRAFRI), Docket 26838, and their lawfulness will be determined in those proceedings. The issue now before the Board is whether to suspend the proposal or to permit it to become effective pending investigation.

The Board has reviewed these rates in the light of recent industry-average costs (including return on investment) of carrying air freight. Based on these and other criteria, we believe that a number of the proposed rates and charges, typically in the Hawaiian markets, should be suspended. The following is a summary of the rates and charges to be suspended:

GCR's—A limited number of bulk rates, particularly in the Hawaiian markets, are excessive in relation to costs.

SCR's—A limited number of specifics in various markets would exceed the general commodity rates in the same market.

Priority—A number of priority-reserved freight rates exceed 130 percent of the otherwise applicable regular service general or specific commodity rates or charges. Although the Board permitted Continental (as well as Western Air Lines, Inc.) to establish such priority general commodity rates including minimum charges reflecting the 100-pound weight-break priority rate, the Board subsequently found that a 30 percent premium over the applicable rates (whether GCR or SCR) was the highest that should be permitted, pending final decision in PRAFRI.[2]

Premium-rated priority—Proposed increases in exception-rated commodities where the carrier imposes a priority premium on top of an already premium-rated commodity.

In regard to premium-rated priority traffic, the Board most recently has suspended proposals by carriers to impose a priority premium on top of the rates for exception-rated commodities. For example, by Orders 75–11–8, 75–3–116, and 75–1–80, the Board suspended such proposals by United Air Lines, Inc. and Wien Air Alaska, Inc., criticizing the application of premium ratings on top of a priority rate that is at least 30 percent above the applicable general commodity rate. The Board also stated, "Thus, the rating for live animals would, in effect, be determined by applying the exception rating of 10 percent to the priority premium of 30 percent, arriving at a rate of almost 140 percent of the current general commodity rate. But to a certain extent, the current exception ratings reflect the cost of a priority handling." Consequently, Continental's increases in premium-rated priority traffic will also be suspended.

Upon consideration of all relevant factors, the Board finds that these increases, to the extent that they apply to rates and charges set forth in detail in Appendix A, should be suspended.[3] The remaining portions of the proposal, including the increased bulk general commodity minimum charges per shipment, the remaining increased bulk and container general and specific commodity rates and charges, and the remaining increased priority reserved rates and charges, appear sufficiently related to costs or other criteria that the Board will permit them to become effective.

With respect to the increases proposed for papayas, the new rates would remain significantly below general commodity rates and are in fact below fully allocated industry-average costs. Over the years, the Board has followed a policy of according the carriers considerable flexibility in adjusting discount rates,[4] and we have never viewed the shipper as having any vested interest in the maintenance of such rates. The Board has, however, given serious consideration to the allegations by the complainants herein that a rate increase would result in shipper hardship and sharp declines in traffic volume. However, the complaint does not make a persuasive showing in this respect. We note, for example, that the ratio of transportation costs to wholesale selling prices does not appear out of line with the relationship in prior periods or out of line with that for other fruits. Also, the Board, by Order 75–2–44, dated February 11, 1975, dismissed a complaint and permitted United to increase papaya rates to levels higher than herein proposed by Continental. Thus, United's bulk rate for 15,000-pound shipments was $11.75 per 100 pounds as compared with $9.95 in Continental's proposal. Finally, we note that the State of Hawaii has represented to the Board in the *Domestic Air Freight Rate Investigation*, that a rate of $10.22 per 100 pounds is acceptable. As indicated above, Continental's proposal at 15,000 pounds is less, $9.95 per 100 pounds. In these circumstances, we conclude that the proposed increases are justified and that the complaint should be dismissed.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly Sections 204(a), 403, 404, and 1002 thereof,

It Is Ordered That:

1. Pending hearing and decision by the Board, the increased rates, charges, and provisions described in Appendix A hereto are suspended and their use deferred to and including March 5, 1976, unless otherwise ordered by the Board, and that no change be made therein during the period of suspension, except by order or special permission of the Board;

2. Except to the extent granted herein, the joint complaint of the State of Hawaii and the County of Hawaii in Docket 28462 is hereby dismissed; and

3. Copies of this order shall be filed with the tariffs and served upon Continental Air Lines, Inc., the State of Hawaii, and the County of Hawaii.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

APPENDIX A

TARIFF C.A.B. NO. 169, ISSUED BY AIRLINE TARIFF PUBLISHING COMPANY, AGENT

1. The increased general commodity (GEN) rates *from* the point(s) in Column A *to* the point(s) in Column B, subject to the minimum weight(s) shown in Column C on the pages listed in Paragraph 7.

Column A	Column B	Column C
ABQ, AMA, AUS, COS	HNL	100, 250
CHI, DFW, ELP	HNL	100, 250, 500
DEN	HNL	100
HNL	ABQ, AMA, CHI, HOU, LBB, MIA, SFO, TUS.	100, 250
HNL	AUS, DFW, ELP, MKC, LAW, MAF, MSY, OKC, SAT, TUL, ICT, SPS	100, 250, 500
HNL	COS, DEN, LAX, PHX, PDX, SEA	100
HOU, MKC, LAW, MAF, MSY, OKC, SAT, TUL, ICT, SPS	HNL	100, 250, 500
LAX, PHX, SEA	HNL	100
LBB, MIA, PDX, SFO, TUS	HNL	100, 250

[2] Due to the technicalities of tariff publication, in the cases of increases in priority minimum charges resulting in premiums in excess of 30 percent over regular minimum charges, the Board will also suspend the proposed 100-pound weight-break rate. The Board believes that Continental should publish an under-100-pound rate applicable to its priority freight service to help eliminate what it believes to be inequities in the current minimum-charge structure.

Further, the Board believes that the existing premium over general commodity rates for priority service is too great when applied to traffic that would otherwise move on discounted specific commodity rates, inasmuch as such premium will be significantly greater than 30 percent. In short, where Continental maintains a specific commodity rate on a particular commodity, when moving in priority service the commodity takes 130 percent of the general commodity rate rather than the specific commodity rate.

[3] The Board has considered the request for rejection by the complainants but does not consider such action to be warranted.

[4] In its decision in *United Air Lines, Inc., Specific Commodity Rates on Periodicals, Floral Products, and Seafood*, the Board stated, "Because of their inherently preferential nature, the Board does not normally require carriers to publish SCR's, but leaves the offering and justification of SCR's to the carriers' initiative. Once a carrier institutes a particular SCR it is still afforded a fairly broad area of discretion in revising such rates between the parameters of fully allocated and incremental costs, subject to the Board's review" (Order 72–11–78, November 20, 1972).

2. The increased rates stated to apply *from* the point in Column A *to* the point in Column B on the "SCR" number shown in Column C subject to the minimum weight(s) shown in Column D on the pages in Paragraph 7.

Column A	Column B	Column C	Column D
HNL	LAX	0072	100

[Docket Nos. 22859, 26838; Order No. 75–12–29]

UNITED AIR LINES, INC.

Order of Suspension Regarding Rates Investigation

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 5th day of December, 1975.

By tariff revisions[1] marked to become effective December 7, and 11, 1975, United Air Lines, Inc. (United) proposes, *inter alia*, to increase by 7 percent numerous regular service bulk and container general and specific commodity rates and charges, and priority general and specific commodity air freight rates in markets in which United competes with Continental Air Lines, Inc. (Continental). The proposed increases essentially match those filed by Continental for the same effective date. Bulk general commodity and priority air freight minimum charges per shipment are not increased.

In support of its proposal, United asserts, *inter alia*, that the proposed increases raise rates in markets in which it competes with Continental by lesser amounts than those which were fully justified in previous United filings; that the proposed rates are well below the level of the Bureau of Economic's fully allocated costs submitted in DAFRI; that United has been forced to exempt these markets from previous increases since Continental has not raised its rates since March 1974; that United's operating loss from all-cargo operations was $11.6 million for the year ended June 30, 1975; that it estimates that the proposed increases will raise its annual total freight revenues by $975,000, and freighter-only revenues by $340,000; and, should this increase be denied, the continued deficit will encourage the airline industry to continue to shift its resources away from unprofitable all-cargo operations, resulting in a loss of service much needed by the shipping public.

The proposed rates and charges come within the scope of either the *Domestic Air Freight Rate Investigation* (DAFRI), Docket 22859, or the *Priority Reserved Air Freight Rates Investigation* (PRA FRI), Docket 26838, and their lawfulness will be determined in those proceedings. The issue now before the Board is whether to suspend the proposed increases or to permit them to become effective pending investigation.

The Board has reviewed these rates in the light of recent industry-average costs (including return on investment) of carrying air freight.[2] Based on these criteria, we believe that a number of the proposed general commodity regular and priority rates, all in the Hawaiian markets, should be suspended.

Upon consideration of all relevant factors, the Board finds that the increased rates set forth in detail in the Appendix, should be suspended. The remaining portions of the proposal, including the remaining general and specific commodity standard and priority bulk and container rates and charges, appear sufficiently related to costs that the Board will permit them to become effective.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 403, 404, and 1002 thereof,

It is ordered that:

1. Pending hearing and decision by the Board, the increased rates, charges, and provisions described in Appendix A hereto are suspended and their use deferred to and including March 5, 1976, unless otherwise ordered by the Board, and that no change be made therein during the period of suspension except by order or special permission of the Board; and

2. Copies of this order will be filed with the tariffs and served upon United Air Lines, Inc.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[Docket No. 25474; Order No. 75–12–27]

WESTERN AIR LINES, INC.

Order of Investigation and Suspension Regarding Discount Fares

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 5th day of December, 1975.

By tariff revisions[1] marked to become effective December 7, 1975, Western Air Lines, Inc. (Western) proposes to extend all of its mainland-Hawaii promotional fares for one year to December 31, 1976.

Northwest Airlines, Inc. (Northwest) has complained against the extension insofar as it includes the off-peak application of the group inclusive tour basing (GIT) fares for groups of 154 or more passengers on Sundays between Minneapolis/St. Paul and Honolulu.[3] Northwest alleges, *inter alia*, that data provided by Western when the above-described provision was first proposed, data the Board relied upon in dismissing a Northwest complaint,[3] was irrelevant and misleading. Among other things, Northwest claims that virtually all GIT passengers from Minneapolis/St. Paul use the assembly fare and are consolidated with passengers from other cities over a predesignated assembly point, and that, therefore, Western's supporting data was seriously deficient in that it did not include the passenger traffic distribution from the assembly cities in its GIT program. Northwest also alleges that the provision at issue discriminates against other GIT passengers who, despite originating at points intermediate to Minneapolis/St. Paul and departing the assembly point to Hawaii as members of the same group, must pay a higher fare because they would pay shoulder-level rather than off-peak fares. Northwest further alleges that the higher intermediate-point fares, coupled with free stopover provisions at those points, could lead to tariff abuse.

Western answered on December 4, 1975, alleging that the exception Northwest complains of expires on April 30, 1976, and that Northwest's complaint is therefore misplaced. No attempt is made to rebut any of the allegations made by Northwest. We construe the complaint as being directed at the extension of the off-peak *fare* beyond December 31, 1975 because of a separate tariff exception which provides that the fare will apply on Sundays in the Minneapolis/St. Paul-Honolulu market.

Upon consideration of all relevant matters the Board concludes that, in view of the tariff exception which provides that Sunday is an off-peak day, the proposal to extend the off-peak Minneapolis/St. Paul-Honolulu group inclusive tour basing fares for 154 or more passengers may be unjust, unreasonable, unjustly discriminatory, unduly prejudicial, unduly preferential, or otherwise unlawful, and should be suspended. These provisions are already under investigation in the *Hawaii Fares Investigation*. (Docket 25474).

The information provided by Northwest in its complaint, as well as further consideration of the matter, leads us to alter our finding in Order 75–11–52. Substantially all of Western's traffic from interior points is apparently funneled through the west coast gateway. Since application of the fares (peak, off-peak (or shoulder) depends not on the date the passenger departs his point of origin, but rather on the date he departs on the last leg of the trip, Western's showing of traffic distribution out of Minneapolis/St. Paul is inconclusive.[4] Fare differentials by day of the week were established in an effort to smooth out traffic demand on west coast-Hawaii flights. Interior flight segments to these gateway points may or may not have similar peaking problems—this has not been established one way or the other. However, in its proposed extension of mainland-Hawaii GIT fares Western proposes to retain Sunday as a shoulder day in all but this one market (including west coast-Hawaii) which tends to argue against the one exception at Minneapolis/St. Paul.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 403, 404, and 1002 thereof,

It is ordered that:

1. Pending hearings and decision by the Board, the fares and provisions described in Appendix A hereto are suspended and their use deferred to and including March 5, 1976, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board;

2. Except to the extent granted herein, the complaint in Docket 28556 is dismissed; and

3. Copies of this order will be filed in the aforesaid tariff and served upon Northwest Airlines, Inc. and Western Air Lines, Inc.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

APPENDIX A

TARIFF C.A.B. NO. 247, ISSUED BY AIRLINE TARIFF PUBLISHING COMPANY, AGENT

On 9th and 10th Revised Pages 55 the explanation of reference mark "e" insofar as it applies to the YOV5, YOV11, YXV5 and YXV11 class fares between Honolulu/Hilo on the one hand and Minneapolis/St. Paul on the other.

[FR Doc.75–33233 Filed 12–9–75;8:45 am]

[1] Revisions to Airline Tariff Publishing Company, Agent, Tariffs C.A.B. Nos. 169 and 227.

[2] For present purposes the costs utilized are the same as those presented in the Bureau of Economics' brief to the Board which are essentially consistent in methodology with the Initial Decision in the *Domestic Air Freight Rate Investigation*, Docket 22859. Further, these calendar year 1974 costs have been updated to reflect the levels prevailing during the nine-month period ended September 30, 1975.

[1] Revisions to Airline Tariff Publishers Company, Agent, Tariff C.A.B. No. 247.

[3] The complaint, which was filed seven days late, was accompanied by a motion for leave to file an untimely document. We have concluded to grant the motion.

[3] Order 75–11–52.

[4] The fact that Western's traffic flows through a west coast gateway is of particular significance if, as alleged by Northwest, virtually all GIT passengers between Minneapolis/St. Paul and Hawaii use the assembly fare and are consolidated on the west coast with passengers from other cities. We see no reason for offering off-peak fares to passengers departing one point while passengers from intermediate points, consolidated into the same group must pay higher shoulder-level fares.

COMMISSION ON CIVIL RIGHTS

INDIANA ADVISORY COMMITTEE

Open Meeting and Agenda

Notice is hereby given, pursuant to the provisions of the Rules and Regulations of the U.S. Commission on Civil Rights, that a planning meeting of the Indiana Advisory Committee (SAC) to this Commission will convene at 9:00 a.m. and end at 3:00 p.m. on January 10, 1976, Holiday Inn, 800 E 81st Street, Merriville, Indiana.

Persons wishing to attend this meeting should contact the Committee Chairperson, or the Midwestern Regional Office of the Commission, Room 1428, 230 South Dearborn Street, 32nd Floor, Chicago, Illinois 60604.

The purpose of this meeting is to discuss Lake County project and plan for hearing on February 13–14, 1976.

This meeting will be conducted pursuant to the Rules and Regulations of the Commission.

Dated at Washington, D.C., December 5, 1975.

ISAIAH T. CRESWELL, JR.,
Advisory Committee Management Officer.

[FR Doc.75–33273 Filed 12–9–75;8:45 am]

LOUISIANA ADVISORY COMMITTEE

Rescheduled Meeting

Notice is hereby given, pursuant to the provisions of the Rules and Regulations of the U.S. Commission on Civil Rights, that a planning meeting of the Louisiana Advisory Committee (SAC) originally scheduled for December 14, 1975, has been changed to December 12, 1975, at the same place and time.

Dated at Washington, D.C., December 5, 1975.

ISAIAH T. CRESWELL, JR.,
Advisory Committee Management Officer.

[FR Doc.75–33274 Filed 12–9–75;8:45 am]

MASSACHUSETTS ADVISORY COMMITTEE

Open Meeting and Agenda

Notice is hereby given, pursuant to the provisions of the Rules and Regulations of the U.S. Commission on Civil Rights, that a planning meeting of the Massachusetts Advisory Committee (SAC) to this Commission will convene at 12 noon and end at 4:00 p. m. on January 8, 1976, at the Jewish Labor Committee, 27 School Street, Boston, Massachusetts 02108.

Persons wishing to attend this meeting should contact the Committee Chairperson or the Northeastern Regional Office of the Commission, Room 1639, 26 Federal Plaza, New York, New York 10007.

The purpose of this meeting is to discuss planning on conference for religious leaders.

This meeting will be conducted pursuant to the Rules and Regulations of the Commission.

Dated at Washington, D.C., December 5, 1975.

ISAIAH T. CRESWELL, JR.,
Advisory Committee Management Officer.

[Docket No. 337–TA–4]

EXPANDED, UNSINTERED POLYTETRAFLUOROETHYLENE IN TAPE FORM

Notice of Prehearing Conference

Notice is hereby given that the United States International Trade Commission will hold a prehearing conference in connection with investigation No. 337–TA–4, Expanded, Unsintered Polytetrafluoroethylene in Tape Form, on Friday, December 12, 1975, at 10 a.m., E.S.T., in Room 336 of the United States International Trade Commission Building, 701 E Street, NW., Washington, D.C. 20436.

The proposed agenda for the prehearing conference is:

1. Stipulation to proposed Commission rules (40 FR 40173, September 2, 1975) for this investigation, and to evidence of record.
2. The scope of a proposed additional hearing.
3. A proposed protective order (to be furnished prior to the prehearing conference) and distribution of material submitted in confidence to the parties.
4. Collection of additional economic data.
5. Discussion as to proposed witnesses.
6. Discussion of dates relevant to the hearing.
7. Any other matters mentioned in documents served in accordance with the immediately following paragraph.

To include additional items on the prehearing conference agenda, each participant should serve written proposals on the presiding officer and all parties before December 5, 1975.

Parties with like interests will be grouped and a spokesman appointed for their common interests at the prehearing conference.

At the conference the participants should be prepared to discuss problems involved in the proceeding, procedural and substantive, and should be authorized to make commitments with respect thereto. Among the specific items to be discussed within the framework of the agenda listed above are: Stipulations as to facts, authentication of documents, future procedural dates, including dates for the service of direct and rebuttal evidence, dates for briefs and dates for the hearing.

Failure to attend the prehearing conference may result in waiver of your right to receive data or to object to rules, dates, or procedure ordered at such conference, or object to stpulations entered into by the parties.

Issued: December 3, 1975.

MYRON R. RENICK,
Administrative Law Judge.

[337–TA–18]

MONOLITHIC CATALYTIC CONVERTERS

Stay of Hearing and Suspension of Investigation

Notice is hereby given that the United States International Trade Commission pursuant to the order of the United States Court of Customs and Patent Appeals dated December 3, 1975, has stayed the public hearing scheduled to begin December 8, 1975, under section 337(e) of the Tariff Act of 1930, as amended (88 Stat. 2053), in connection with investigation No. 337–TA–18, monolithic catalytic converters.

Also, under the authority of section 337(b)(1) of the statute, the investigation is suspended because of proceedings in the United States Court of Customs and Patent Appeals until further notice. Notice of institution of the investigation was published in the FEDERAL REGISTER on July 23, 1975 (40 F.R. 30879).

By order of the Commission.

Issued: December 4, 1975.

Secretary.

[FR Doc.75–33120 Filed 12–9–75;8:45 am]

[337–TA–18]

MONOLITHIC CATALYTIC CONVERTERS

Order

The United States International Trade Commission in a notice published in the FEDERAL REGISTER on October 31, 1975 (40 F.R. 50752) in the Monolithic Catalytic Converters Investigation No. 337–TA–18 ordered full Commission review of the order of Presiding Commissioner Abondi dated October 17, 1975, which granted the application of Volkswagen Mid-America, Inc., to withdraw as a party, and discontinued Midvo, Inc., World-Wide Volkswagen Corp., Volkswagen Atlantic, Inc., Import Motors Limited, Inc., Riviera Motors, Inc., and Porsche Audi Northwest, Inc., as parties without prejudice to their intervening at a later stage of this proceeding.

Volkswagen Mid-America, Inc., Midvo, Inc., World-Wide Volkswagen Corp., Volkswagen Atlantic, Inc., Import Motors Limited, Inc., Riviera Motors, Inc. and Porsche Audi Northwest, Inc., which are independent distributors of imported automobiles incorporating monolithic catalytic converters, purchase the units from the importer Volkswagen of America, Inc.

Upon consideration of written and oral submissions and the legal arguments of counsel at the public hearing on November, 6, 1975, the Commission concurred with the reasons set forth in Presiding Commissioner Ablondi's opinion dated October 21, 1975,[1] and, for the additional reasons that (1) the aforementioned distributors have made no showing that they can assist the Commission at this stage of the proceeding under section 337(a) and (2) the inclusion of the aforesaid distributors would only burden and delay this complicated proceeding, the Commission on November 18, 1975—

Ordered that the application of Volkswagen Mid-America, Inc., to withdraw as a party to this proceeding is granted; and

Further ordered that Midvo, Inc., World-Wide Volkswagen Corp., Volkswagen Atlantic, Inc., Import Motors Limited, Inc., Riviera Motors, Inc., and Porsche Audi Northwest, Inc., are discontinued as parties to this proceeding without prejudice to the right of the aforesaid independent distributors to intervene at a later stage of this proceeding.

By order of the Commission:

Issued: December 3, 1975.

KENNETH R. MASON,
Secretary.

[FR Doc.75–33122 Filed 12–9–75;8:45 am]

[337–TA–18]

MONOLITHIC CATALYTIC CONVERTERS

Order

The United States International Trade Commission in a notice published in the FEDERAL REGISTER on October 31, 1975 (40 FR 50752), in the Monolithic Catalytic Converters Investigation No. 337–TA–18 ordered full Commission review of the order of Presiding Commissioner Abondi dated October 20, 1975, which made Johnson, Matthey & Co., Ltd., of London, England, and Degussa of Frankfurt, Germany, both of which are manufacturers of monolithic catalytic elements, parties to this proceeding.

Johnson, Matthey & Co., Ltd., has moved for leave to intervene and participate in this proceeding and has consented to submit to the jurisdiction of the Commission. Degussa has declined to submit to the jurisdiction of the Commission.

Upon consideration of written and oral submissions and the legal arguments of counsel at the public hearing on November 6, 1975, the Commission on November 18, 1975:

Ordered that Johnson, Matthey & Co., Ltd., is made a party to this proceeding; and

Further ordered that Degussa is not made a party to this proceeding.

By order of the Commission:

Issued: December 3, 1975.

KENNETH R. MASON,
Secretary.

[AA1921–149]

CERTAIN NONPOWERED HAND TOOLS FROM JAPAN

Determination of No Injury or Likelihood Thereof

DECEMBER 2, 1975.

On September 2, 1975, the United States International Trade Commission received advice from the Department of the Treasury that certain nonpowered hand tools from Japan, that is, chisels, punches, hammers and sledges (with or without handles), vices, c-clamps, and battery service tools, other than hammers from Imoto Hamono Co., Ltd., and Kyoto Tool Co., Ltd., sledges from Hirota Tekko K.K., and battery service tools from Tashiro Seisakusho and Japan Export Brush Co., Ltd., are being, or are likely to be, sold in the United States at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)). Accordingly, on September 10, 1975, the Commission instituted investigation No. AA1921–149 under section 201(a) of said act to determine whether an industry in the United States is being or is likely to be injured, or is prevented from being established, by reason of the importation of such nonpowered hand tools into the United States. Subsequently, on October 15, 1975, the Department of the Treasury amended its determination so that the only battery service tools covered thereby are battery terminal lifters. The Commission, therefore, on October 23, 1975, amended the scope of its investigation to make it correspond with the advice received.

Notices of the institution of the investigation and of a public hearing, of the hearing rescheduling, and of amendment of the notice of investigation were published in the FEDERAL REGISTER (40 FR 42607, 43956, and 50320). The hearing was held on October 22 and 23, 1975.

In arriving at its determination, the Commission gave due consideration to written submissions from interested parties, evidence adduced at the hearing, and all factual information obtained by the Commission's staff from questionnaires, personal interviews, and other sources.

The United States International Trade Commission has unanimously determined that an industry in the United States is not being injured or is not likely to be injured, or is not prevented from being established, by reason of the importation of chisels, punches, hammers and sledges (with or without handles), vises, c-clamps, and battery terminal lifters from Japan that are being, or are likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended.

STATEMENT OF REASONS OF CHAIRMAN WILL E. LEONARD, VICE CHAIRMAN DANIEL MINCHEW, AND COMMISSIONERS GEORGE M. MOORE, CATHERINE BEDELL, JOSEPH O. PARKER, AND ITALIO H. ABLONDI

The Antidumping Act, 1921, as amended, requires that the U.S. International Trade Commission find two conditions satisfied before an affirmative determination shall be made. The first condition is that an industry in the United States is being or is likely to be injured, or is prevented from being established. Second, the requisite injury must be "by reason of" the importation into the United States of the merchandise which the Department of the Treasury (Treasury) has determined is being, or is likely to be, sold at less than fair value (LTFV) within the meaning of the Antidumping Act, 1921, as amended.

On the basis of the subject investigation (investigation No. AA1921–149), we have determined that an industry in the United States is not being injured or is not likely to be injured, or is not prevented from being established, by reason of the importation of chisels, punches, hammers and sledges (with or without handles), vises, c-clamps, and battery terminal lifters from Japan being sold or likely to be sold at LTFV.[1]

U.S. industry—The U.S. industry most likely to be adversely affected by imports sold at LTFV consists of the facilities in the United States devoted to the production of chisels, punches, hammers and sledges (with or without handles), vises, c-clamps, and battery terminal lifters. These articles are produced at plants located throughout the United States, and are sold primarily to industrial-commercial distributors, hardware wholesalers and cooperatives, automotive-service-market wholesalers, and several mass-merchandise retail chains.

The imported articles—The tools imported from Japan are generally limited to the hardware wholesale and mass-merchandise retail markets. The evidence developed during the investigation indicates that imports, overall, are of somewhat lower quality and sell at commensurately lower prices, making such imports generally more suitable for sale in retail outlets primarily serving the occasional user. By contrast, the tools produced by domestic manufacturers are sold primarily for use in industry, by professional tradespeople, and by skilled craftsmen.

Import penetration and lost sales—Import market penetration remained at about 6 percent during 1972–74, a period which includes Treasury's investigation, April 1–September 30, 1974. Although

[1] Filed as part of the original document.

[1] Prevention of the establishment of an industry is not an issue in the instant investigation, and will not be discussed further.

V40238 DEC 10 75 D XUM

imports from Japan increased more rapidly in the first 8 months of 1975 than in the preceding 3 years, the increase can be largely attributed to imports of vises which were the result of orders placed in Japan because of the inability of the domestic producers to meet increased demand on time.

It was established during the investigation that some domestic distributors of the tools under consideration have either turned to Japanese imports or increased such imports because of the difficulties experienced by domestic producers in making shipments during recent raw materials shortages. Other alleged losses of sales by domestic producers to imports were not substantiated; the firms involved have, in fact, been importing or purchasing imported Japanese tools for more than a decade and have not significantly increased such purchases during the period of the investigation. Several distributors indicated that their reason for accepting imported tools was to widen the selection to their dealers in terms of range of quality and price. The Commission could not corroborate allegations that the domestic industry had lost sales of the subject articles because of LTFV sales of certain Japanese imports.

Shipments, exports, orders—Despite the LTFV import sales, domestic shipments of the tools under consideration rose in line with increased domestic demand during 1971–74, and exports of such tools by domestic producers increased during the same period. Further, the increased demand for domestic tools resulted in higher unfilled orders during 1972–74, reflecting the domestic producers' difficulty in meeting the increased demand.

The decline in U.S. shipments in the first 8 months of 1975 slightly exceeded the decline in apparent domestic consumption, reflecting the greater sensitivity of the generally higher quality, higher priced domestic tools to the reduced industrial activity in the United States. The decline in exports in the first 8 months of 1975 appears to reflect the economic recession in industrial countries abroad.

Prices—There is no evidence of price depression during the period of LTFV sales, nor is there evidence of suppression of intended price increases because of LTFV sales. The data obtained in the investigation show that prices for domestic and imported tools have increased consistently in recent years.

Profitability and employment—The financial data of the domestic industry, as reported to the Commission, indicate increased net sales of chisels, punches, hammers, sledges, vises, and c-clamps during 1972–74. The ratio of net operating profit to net sales of these tools remained at about 9 percent in 1972 and 1973. The rise in production costs during 1974 occurred faster than the domestic producers could raise their prices, creating a temporary deline in profits during that period. However, this situation reversed during 1975, when the profits were higher than in previous years. Employment and man-hours in the domestic industry increased throughout the period 1971–74. Although employment declined slightly in the first 8 months of 1975, total man-hours worked continued to increase.

No likelihood of injury—The evidence obtained for the period of the investigation also indicates that there is no likelihood of injury to the domestic industry within the meaning of the Antidumping Act, 1921, as amended. In 1974, U.S. shipments increased at a greater rate than imports from Japan. With the exception of vises, imports of the tools under consideration declined in the first 8 months of 1975. It is reasonable to expect that U.S. shipments will increase with improvement in overall economic activity. The latest data on the profitability of the domestic industry show no evidence of future injury.

Conclusion—The Commission concludes that an industry is not being injured or is not likely to be injured by reason of the imports of chisels, punches, hammers and sledges (with or without handles), vises, c-clamps, and battery terminal lifters from Japan that are being, or are likely to be, sold at LTFV within the meaning of the Antidumping Act, 1921, as amended.

By order of the Commission.

Issued: DECEMBER 5, 1975.

[SEAL] KENNETH R. MASON, *Secretary.*

NUCLEAR REGULATORY COMMISSION

[DOCKET NO. P-636-A]

FLORIDA POWER & LIGHT CO.

Notice of Receipt of Partial Application for Construction Permits and Facility Licenses: Time for Submission of Views on Antitrust Matters

Florida Power & Light Company (the applicant), pursuant to Section 103 of the Atomic Energy Act of 1954, as amended, has filed one part of an application, dated July 14, 1975, in connection with its plans to construct and operate two nuclear power reactors. At this time, final decisions have not been reached with respect to site selection, and it is possible that more than one site will be utilized. The portion of the application filed contains the information requested by the Attorney General for the purpose of an antitrust review of the application as set forth in 10 CFR Part 50, Appendix L.

The remaining portion of the application, consisting of a Preliminary Safety Analysis Report accompanied by an Environmental Report, pursuant to § 2.101 of Part 2, is expected to be filed during 1976. Upon receipt of the remaining portions of the application dealing with radiological health and safety and environmental matters, separate notices of receipt will be published by the Commission including an appropriate notice of hearing.

A copy of the partial application is available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C., 20555. As soon as a site is selected, a Local Public Document Room will be established where related documents will be made available for public inspection. Docket No. P-636-A has been assigned to the application and it should be referenced in any correspondence relating to it.

Any person who wishes to have his views on the antitrust matters of the application presented to the Attorney General for consideration should submit such views to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Chief, Office of Antitrust and Indemnity, Office of Nuclear Reactor Regulation on or before January 26, 1976.

Dated at Bethesda, Maryland this 20th day of November 1975.

For the Nuclear Regulatory Commission.

OLAN D. PARR,
Chief, Light Water Reactors, Project Branch 1-3, Division of Reactor Licensing.

[FR Doc.75-31859 Filed 11-25-75;8:45 am]

[Docket No. P-499-A]

LOS ANGELES DEPARTMENT OF WATER AND POWER, ET AL.

Notice of Receipt of Attorney General's Advice and Time for Filing of Petitions to Intervene on Antitrust Matters

The Commission has received, pursuant to section 105c. of the Atomic Energy Act of 1954, as amended, a letter of advice from the Attorney General of the United States, dated November 24, 1975, a copy of which is attached as Appendix A.

Any person whose interest may be affected by this proceeding may, pursuant to § 2.714 of the Commission's "Rules of Practice," 10 CFR Part 2, file a petition for leave to intervene and request a hearing on the antitrust aspects of the application. Petitions for leave to intervene and requests for hearing shall be filed by January 9, 1976, either (1) by delivery to the NRC Public Docketing and Service Section at 1717 H Street, N.W., Washington, D.C., or (2) by mail or telegram addressed to the Secretary, Nuclear Regulatory Commission, Washington, D.C. 20555, Attn: Docketing and Service Section.

For the Nuclear Regulatory Commission.

JEROME SALTZMAN,
Acting Chief, Office of Antitrust and Indemnity, Nuclear Reactor Regulation.

APPENDIX "A"

[NRC Docket No. P-499-A]

SAN JOAQUIN NUCLEAR PROJECT

LOS ANGELES DEPARTMENT OF WATER AND POWER, ET AL.

NOVEMBER 24, 1975.

You have requested our advice pursuant to the provisions of Section 105c of the Atomic Energy Act of 1954, as amended, in connection with the above-captioned application.

San Joaquin Nuclear Project (SJNP) is a proposed four-unit nuclear power plant to be located in the southern San Joaquin Valley of California. Each unit will have the capacity to provide 1300 megawatts of electric power. The project will be jointly owned by a number of public and private California utilities. The Los Angeles Department of Water and Power (LADWP) will construct and operate the plant and will have a 35.5 percent share of the plant's output. The following is a list of the other utilities who are participants in the project and their respective shares of the project:

(1) Southern California Edison Company (22 percent);
(2) Pacific Gas and Electric Company (23 percent);
(3) State of California Department of Water Resources (10 percent);
(4) City of Anaheim (2 percent);
(5) City of Glendale (2 percent);
(6) City of Riverside (2 percent);
(7) Northern California Power Agency (2 percent);
(8) City of Pasadena (1.5 percent).

THE APPLICANTS

LOS ANGELES DEPARTMENT OF WATER AND POWER

LADWP is the largest municipally-owned electric system in the Nation with over one million retail customers and with a system peak in excess of 3,500 megawatts. LADWP has installed generating capacity in excess of 4,000 megawatts and operates an extensive transmission and subtransmission network. LADWP does not sell wholesale bulk power to any electric system.

SOUTHERN CALIFORNIA EDISON (EDISON)

Edison is a privately-owned electric utility which serves over 2.5 million customers in a 50,000 square-mile service area in southern California. Its most recent peak load was in excess of 10,000 megawatts which it meets with installed generating capacity in excess of 13,000 megawatts. Edison operates a 10,000 mile transmission and subtransmission network through which it is interconnected with Pacific Gas and Electric Company to the north, Arizona Public Service Company to the east, San Diego Electric and Gas Company to the south, and with LADWP which it surrounds.

PACIFIC GAS AND ELECTRIC COMPANY (PG&E)

PG&E is a privately-owned electric utility which serves 47 counties in northern and central California. Its most recent system peak load was in excess of 11,000 megawatts which it meets with a system capability in excess of 13,000 megawatts. PG&E operates a 17,000 mile transmission network through which it is interconnected to Pacific Power & Light, the U.S. Bureau of Reclamation's Central Valley Project, Sierra Pacific Power Company, Sacramento Municipal Utility District and Edison. Through the Pacific Northwest-Southwest Intertie, it is interconnected to all the major utilities in the Pacific Northwest. PG&E sells power at wholesale to 11 municipally-owned electric distribution systems and one cooperatively-owned distribution system. PG&E also provides wheeling services for the Central Valley Project and several other public agencies.

THE STATE OF CALIFORNIA, DEPARTMENT OF WATER RESOURCES (DWR)

The Department of Water Resources operates the California State Water Project (CSWP) which provides reservoir storage, water transportation, pumping and power facilities by which water which is surplus in northern California is delivered to water deficient areas in other parts of California. The CSWP requires large amounts of electric energy to meet project pumping requirements. While the hydroelectric resources of the project will eventually produce 5.4 billion kwh annually, this will meet only 40 percent of CSWP's total electric needs. DWR is participating in SJNP as part of its plan to provide for that part of its electrical requirements which are not met by its own hydroelectric facilities.

CITY OF ANAHEIM

The City of Anaheim, with a population of almost 200,000, operates its own electric distribution system which has a peak load of over 300 megawatts. Anaheim currently purchases all of its power requirements from Southern California Edison. It has no generating capacity of its own. In addition to SJNP, the City is currently studying a number of other generation projects, including participating in the San Onofre Nuclear Units.

CITY OF RIVERSIDE

The City of Riverside, with a population of over 200,000, operates its own electric distribution system, however it owns no generating capacity. It meets its 200 megawatts peak load entirely through wholesale power purchases from Southern California Edison. In addition to its particiaption in SJNP, Riverside is studying participation in several other generating projects including the San Onofre Nuclear Units and the Intermountain Power Project, a large coal-fired plant to be located in southern Utah.

CITY OF GLENDALE

The City of Glendale, with a population of 130,000, operates its own electric generation and distribution system. Glendale meets its 175 megawatts system peak load through a mix of self-generation, power from federal hydroelectric projects and, in the future, power from participation in a number of joint venture power generation projects.

NORTHERN CALIFORNIA POWER AGENCY (NCPA)

NCPA is an organization of 12 public entities which operate electric distribution systems in northern California. The members of NCPA are the Cities of Healdsburg, Ukiah, Lodi, Lompoc, Alameda, Redding, Roseville, Biggs, Palo Alto, Santa Clara, Gridley, and the Plumas Sierra Rural Electrical Cooperative. None of these systems currently generate any electric power, nor do they own transmission outside of their service areas. These systems together have a peak load in excess of 500 megawatts which is currently met through purchases of wholesale power from PG&E or the USBR's Central Valley Project, or through purchase of part of their requirements from CVP and part from PG&E.

In addition to its participation in SJNP, NCPA is considering the construction of or participation in a variety of other generation facilities.

CITY OF PASADENA

The City of Pasadena, with a population of 110,000, operates its own electric generation and distribution system. Pasadena meets its 180 megawatt peak load through a mix of self-generation, power from federal hydroelectric projects and, in the future, power from participation in a number of joint venture power generation projects.

RESULTS OF ANTITRUST REVIEW

In our review of the activities of LADWP, State of California, Anaheim, Glendale, Riverside, NCPA and Pasadena, no evidence of anticompetitive conduct has come to our attention. No allegations have been made that a situation inconsistent with the antitrust laws exists in these utilities' service areas. Consequently, we believe no hearing need be held in connection with these systems' participation in SJNP.

In regard to Edison, the Department initially advised, in a July 12, 1971, letter to your predecessor Commission, that a hearing be held in connection with Edison's application to construct the San Onofre Nuclear Generating Units 2 and 3. Thereafter, following extended discussions, the Department and Edison reached agreement on a set of procompetitive license conditions. Consequently, on June 27, 1974, the Department advised the Commission that a hearing would no longer be necessary if these conditions were attached to the San Onofre license. In light of the license conditions agreed to by Edison, we recommend that no hearing be held in connection with its application to be an SJNP participant.

In regard to PG&E, the Department recommended to your predecessor Commission, in an August 2, 1972 letter, that a hearing be held in connection with PG&E's application to construct the then-proposed Mendocino Nuclear Units. Subsequent to the rendering of that advice, PG&E withdrew its application to construct the Mendocino facility because of environmental and safety problems. Thereafter, the Department commenced a comprehensive investigation under the antitrust laws to determine whether PG&E was monopolizing the relevant markets for electric power, natural gas, and geothermal steam, and whether it was a party to certain contractual restraints of trade. From this investigation, it appears that since our 1972 antitrust advice was rendered PG&E may have modified certain of the restrictive practices which were the basis for our earlier recommendation that a hearing be held. Whether these actions by PG&E have been such that a situation inconsistent with the antitrust laws no longer exists and/or whether an antitrust proceeding in United States District Court should be instituted are matters which are currently being considered and which will shortly be resolved.

In this context and in the course of our review of the SJNP application, PG&E indicated a desire to facilitate the licensing of SJNP and a willingness to provide certain antitrust safeguards as to its participation in SJNP. Thus, PG&E has offered to enter into a set of license conditions which make available SJNP access to competing electric systems in PG&E's service area. These policy commitments are contained in the attached letter from PG&E's President, S. L. Sibley, to the Department. In light of these commitments, as well as several other important factors, the Department believes it is appropriate to recommend that no antitrust hearing be held in connection with PG&E's participation in SJNP.

To begin with, on February 21, 1976, the Department will be required to render antitrust advice on PG&E's application to construct the Stanislaus Nuclear Project. By that time, the Department will have completed its analysis of PG&E's current activities and, therefore, will be in a better position to advise the Commission as to whether a situation inconsistent with the antitrust laws exists in central and northern California. It is to be noted that any additional relief which the Department might seek beyond that already agreed upon as to SJNP, in order to meet the requirements of Section 105c, would be of such a nature as to involve more than merely access to SJNP. Such additional relief could just as readily be imposed in connection with the pending Stanislaus application as in connection with the instant SJNP application.

Secondly, in contrast to the situation in SJNP, where PG&E is not project manager and is only one of nine participants in a unit located outside its service area, in the case of the Stanislaus application, PG&E is the

V40238 DEC 10 75 XUM

project manager of a unit located inside its service area and is currently the only participant in the facility. Thus, deferring consideration of the remaining antitrust questions as to PG&E for a short period until our advice on Stanislaus is formulated will permit the SJNP project, all of whose other participants present no antitrust problems, to proceed. Since PG&E is agreeable to the imposition of conditions on the SJNP license which insure others access and supporting services with respect to that facility, and since other possible antitrust problems raised by PG&E's activities will be dealt with in our advice on the Stanislaus application, we consider this to be an appropriate accommodation under Section 105c of antitrust policy and California's power needs.

We stress, however, that it is because of the particular circumstances involved here that we are able to reach the foregoing conclusion.

ENCLOSURE

NOVEMBER 24, 1975.

Pacific Gas and Electric Company (PG and E) is informed that the United States Department of Justice will soon render antitrust advice to the Nuclear Regulatory Commision (NRC) on the San Joaquin Nuclear Project (SJNP) pursuant to Section 105(c) of the Atomic Energy Act. The SJNP will be a nuclear electric generating project, to be constructed and operated under the management of the Los Angeles Department of Water and Power, in which PG and E will have a twenty-three percent ownership share.

PG and E desires to facilitate the licensing of SJNP. To that end, this will confirm that PG and E is agreeable to the grant of ownership access to SJNP to all electric distribution systems in PG and E's service area which have requested such an interest (Participating Systems). In addition, PG and E in agreeable to having the following conditions placed on the SJNP license if the Department recommends to NRC that there be no antitrust hearing on the SJNP application and if it will not seek to have any other conditions imposed on the SJNP license:

1. PG and E will wheel, on reasonable terms and conditions, to Participating Systems their shares of SJNP power. In the event that SJNP power of the Participating Systems is surplus to their needs, PG and E will wheel, on reasonable terms and conditions, such power over any portion of PG and E's transmission system where capacity exceeds PG and E's requirements and is not committed to other systems.

2. PG and E will provide reserve support, on reasonable terms and conditions, to firm Participating Systems' shares of SJNP power.

3. PG and E will purchase, on reasonable terms and conditions, SJNP energy which is surplus to the needs of Participating Systems if they desire to sell such energy to PG and E.

[Docket No. STN 50-437]

OFFSHORE POWER SYSTEMS

Notice of Availability of NRC Draft Environmental Statement for the Siting and Operating of Floating Nuclear Power Plants

Pursuant to the National Environmental Policy Act of 1969 and the United States Nuclear Regulatory Commission's regulations in Appendix M of 10 CFR Part 50 and 10 CFR Part 51, notice is hereby given that a Draft Environmental Statement directed to the generic considerations of siting and operating Floating Nuclear Power Plants in the coastal waters of the Atlantic Ocean and the Gulf of Mexico and in certain riverine and estuarine locations has been prepared by the Commission's Office of Nuclear Reactor Regulation. This statement is Part II of the environmental review related to the issuance of a manufacturing license to Offshore Power Systems (an unincorporated joint venture of Westinghouse Electric Corporation and Westinghouse International Power Systems Company, Incorporated). The statement is available for inspection by the public in the Commission's Public Document Room at 1717 H Street, NW., Washington, D.C.; the Jacksonville Public Library, 122 North Ocean Street, Jacksonville, Florida 32204; the Stockton State College Library, Pomona, New Jersey 08240; and the New Orleans Public Library, Business and Science Division, 219 Loyola Avenue, New Orleans, Louisiana 70140. The Draft Statement is also being made available at the Bureau of Intergovernmental Relations, Division of State Planning, Department of Administration, 660 Apalachee Parkway, Tallahassee, Florida 32304 and at the Jacksonville Area Planning Board, 330 East Bay Street, Jacksonville, Florida 32202. Copies of the Commission's Draft Environmental Statement may be obtained by request addressed to the U.S. Nuclear Regulatory Commission, Office of Nuclear Reactor Regulation, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Offshore Power System's Environmental Report, as supplemented, and the Commission's Final Environmental Statement (Part I) of October 1975 which pertained exclusively to the NEPA considerations associated with the manufacture of the eight floating nuclear plants in Jacksonville, Florida, are also available for public inspection at the above-designated locations. Notice of availability of the Applicant's Environmental Report was published in the FEDERAL REGISTER on December 10, 1973 (38 FR 34008) and the notice of availability of the Commission's Final Environmental Statement (Part I) was published in the FEDERAL REGISTER on October 7, 1975 (40 FR 46364).

Pursuant to 10 CFR Part 51, interested persons may submit comments on the Applicant's Environmental Report, as supplemented, and on the Draft Environmental Statement for the Commission's consideration. Federal and State agencies are being provided with copies of the Applicant's Environmental Report and the Draft Environmental Statement (local agencies may obtain these documents upon request). Comments are due by January 26, 1976. Comments by Federal, State, and local officials, or other persons received by the Commission will be made available for public inspection at the Commission's Public Document Room in Washington, D.C.; the Jacksonville Public Library, 122 North Ocean Street, Jacksonville, Florida; the Stockton State College Library, Pomona, New Jersey; and the New Orleans Public Library, Business and Science Division, 219 Loyola Avenue, New Orleans, Louisiana.

Upon consideration of comments submitted with respect to this Draft Environmental Statement, the Commission's staff will prepare a final environmental statement, the availability of which will be published in the FEDERAL REGISTER.

Comments on the Draft Environmental Statement from interested members of the public should be addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Rockville, Maryland, this 24th day of November 1975.

For the Nuclear Regulatory Commission.

GORDON K. DICKER,
Chief, Environmental Projects Branch 2, Division of Reactor Licensing.

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS WORKING GROUP ON ANTICIPATED TRANSIENTS WITHOUT SCRAM

Relocation of Meeting

The meeting of the ACRS Working Group on Anticipated Transients Without Scram (ATWS), scheduled for December 11 and 12, 1975, and originally to be held at the Sheraton Inn, Denver Airport, Denver, CO (notice of which was published in Federal Register Vol. 40, page 54629, November 25, 1975) has been relocated as follows:

The meeting will be held in room 1046, 1717 H St., N.W., Wash., DC 20555 on the same dates, Dec. 11-12, 1975. All other matters pertaining to the meeting remain unchanged.

The relocation was necessitated by the current airline strike and is expected to permit the greatest number of participants to attend. In view of the fact that members of the public have not submitted written statements and have not requested an opportunity to make oral statements at the meeting, there is no indication that it will inconvenience members of the public.

Further information regarding this meeting can be obtained by a prepaid telephone call to the Office of the Executive Director of the Committee (telephone 202/634-1374, Attn: Mr. T. G. McCreless) between 8:15 a.m. and 5 p.m. EST.

Dated: December 9, 1975.

SAMUEL J. CHILK,
Secretary of the Commission.

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on December 3, 1975 (44 U.S.C. 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number(s), if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

Requests for extension which appear to raise no significant issues are to be approved after brief notice through this release.

Further information about the items on this daily list may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503, (202–395–4529), or from the reviewer listed.

NEW FORMS

DEPARTMENT OF AGRICULTURE

SECURITIES AND EXCHANGE COMMISSION

[File No. 7–4475]

BOSTON STOCK EXCHANGE

Applications for Unlisted Trading Privileges and of Opportunity for Hearing

DECEMBER 3, 1975.

The above named national securities exchange has filed an application with the Securities and Exchange Commission pursuant to Section 12(f)(1)(B) of the Securities Exchange Act of 1934 and Rule 12f–1 thereunder, for unlisted trading privileges in the common stock of the following company, which security is

listed and registered on one or more other national securities exchanges:

American Science and Engineering, Inc.

Upon receipt of a request, on or before December 19, 1975 from any interested person, the Commission will determine whether the application shall be set down for hearing. Any such request should state briefly the nature of the interest of the person making the request and the position he proposes to take at the hearing, if ordered. In addition, any interested person may submit his views or any additional facts bearing on the said application by means of a letter addressed to the Secretary, Securities and Exchange Commission, Washington, D.C., 20549 not later than the date specified. If no one requests a hearing, this application will be determined by order of the Commission on the basis of the facts stated therein and other information contained in the official files of the Commission pertaining thereto.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[(811–2437) Rel. No. 9062]

CHANNING SECURITIES, INC.

Notice of Filing of Application

DECEMBER 3, 1975.

Notice is hereby given that on October 6, 1975, Channing Securities, Inc., 2777 Allen Parkway, Houston, Texas 77019. ("Applicant"), registered under the Investment Company Act of 1940 (the "Act") as an open-end, diversified management investment company, filed an application pursuant to Section 8(f) of the Act for an order of the Commission declaring that it has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein which are summarized below.

Applicant was incorporated under the laws of the state of Maryland on October 25, 1946 and registered under the Act on December 3, 1946. On August 25, 1975, Applicant's shareholders approved a Plan and Articles of Merger merging Applicant into American General Shares, Inc. The merger became effective on September 2, 1975, and the separate existence and corporate organization of Applicant thereupon ceased.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and, upon the effectiveness of such order, the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than December 29, 1975, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address above. Proof of such service (by affidavit or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0–5 of the Rules and Regulations promulgated under the Act, an order disposing of the application herein will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[(811–614) Rel. No. 9064]

CHANNING INCOME FUND, INC.

Notice of Filing of Application

DECEMBER 3, 1975.

Notice is hereby given that on October 6, 1975, Channing Income Fund, Inc., 2777 Allen Parkway, Houston, Texas 77019. ("Income"), registered under the Investment Company Act of 1940 (the "Act") as an open-end, diversified management investment company, filed an application pursuant to Section 8(f) of the Act for an order of the Commission declaring that it has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations continued therein, which are summarized below.

Applicant was incorporated under the laws of Maryland on September 17, 1952 and registered under the Act on September 26, 1952. On August 25, 1975, Applicant's shareholders approved a Plan and Articles of Merger merging Applicant into American General Shares, Inc. The merger became effective on September 2, 1975 and the separate existence and corporate organization of Applicant thereupon ceased.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and, upon the effectiveness of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than December 29, 1975, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address above. Proof of such service (by affidavit or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0–5 of the Rules and Regulations promulgated under the Act, an order disposing of the application herein will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[(811–1791) Rel. No. 9063]

DF FUND, INC.

Notice of Filing of Application

DECEMBER 3, 1975.

Notice is hereby given that on October 10, 1975, DF Fund, Inc., 30 Wall Street, New York, New York 10005, ("Applicant"), registered as an open-end, non-diversified management investment company under the Investment Company Act of 1940 ("Act") filed application pursuant to Section 8(f) of the Act for an order of the Commission declaring that it has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which is summarized below.

Applicant was incorporated under the laws of Delaware on December 23, 1968, and registered under the Act on December 27, 1968. On or about August 13, 1975, notice was given to Applicant's shareholders of a Special Meeting in Lieu of an Annual Meeting to consider and vote upon a proposal to transfer substantially all of the assets of Applicant to Tudor Hedge Fund ("Tudor"), an open-end, non-diversified management investment company, in exchange for shares of Tudor, at their respective net asset val-

V40238 DEC 10 75 XUM

ues, to distribute the shares of Tudor to Applicant's shareholders in liquidation and dissolution of Applicant, and to terminate Applicant as a registered investment company under the Act. The proposal was duly approved by Applicant's shareholders on September 24, 1975.

All of the assets of Applicant other than $40,451.30 in cash (the "retained sum"), representing a reserve to cover its accrued liabilities plus $10,000, have been transferred to Tudor and any part of the retained sum not utilized to pay liabilities and expenses of Applicant will be paid over to Tudor. The Transfer Agent of Tudor has credited an appropriate number of shares of Tudor on the books of Tudor to each shareholder of Applicant. Applicant states that it has filed a Certificate of Dissolution with the Secretary of State of Delaware and that it no longer has any shares issued or outstanding and will not issue additional shares in the future.

Section 8(f) of the Act provides, that whenever the Commission, on its own motion or upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and, upon the taking effect of such order, the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than December 29, 1975, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request as provided by Rule O-5 of the Rules and Regulations promulgated under the Act. An order disposing of the application herein will be issued as of course following December 29, 1975, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc.75-33161 Filed 12-9-75;8:45 am]

[(70-5765) Rel. No. 19279]

EASTERN UTILITIES ASSOCIATES, ET AL.

Holding Company and Subsidiary Companies To Issue and Sell Notes to Banks and Proposed Open Account Advances by Holding Company to One Subsidiary Company

DECEMBER 2, 1975.

In the matter of EASTERN UTILITIES ASSOCIATES, P.O. Box 2333, Boston, Massachusetts 02107. BLACKSTONE VALLEY ELECTRIC COMPANY, P.O. Box 1111, Lincoln, Rhode Island 02865. BROCKTON EDISON COMPANY, 36 Main Street, Brockton, Massachusetts 02403. FALL RIVER ELECTRIC LIGHT COMPANY, 85 North Main Street, Fall River, Massachusetts 02722. MONTAUP ELECTRIC COMPANY, P.O. Box 391, Fall River, Massachusetts 02722.

Notice is hereby given that Eastern Utilities Associates ("EUA"), a registered holding company, and its four electric utility subsidiary companies, Blackstone Valley Electric Company ("Blackstone"), Brockton Edison Company ("Brockton"), Fall River Electric Light Company ("Fall River") and Montaup Electric Company ("Montaup") have filed an amendment to their declaration previously filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating Sections 6(a), 7, 12(b), 12(c) and 12(f) of the Act and Rule 45(a) promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the declaration, as amended, which is summarized below, for a complete statement of the proposed transactions.

During the period ending December 28, 1976, EUA, Blackstone, Brockton, Fall River, and Montaup propose to issue and sell short-term, unsecured promissory notes to banks, and in the case of Fall River to also receive open account advances from EUA, in the maximum aggregate amounts to be outstanding at any one time as shown below:

[In thousands]

Company	From banks	From EUA	Aggregate from banks and EUA
EUA	$23,400	----------	$23,400
Blackstone	3,200	----------	3,200
Brockton	9,700	----------	9,700
Fall River	5,500	$1,700	7,300
Montaup	27,800	----------	27,800

The notes to banks will be dated as of the date of issuance, will mature no later than December 28, 1976, and will be prepayable in whole or in part without penalty. It is represented that some of the lending banks will require compensating balances and that others will not. With respect to notes for which a 20% compensating balance is required, the notes will bear interest at not in excess of the prime or base rate in effect on the date of issuance plus ¼ of 1% multiplied by 101.2%; if the compensating balance is 15%, the notes will bear interest at up to the prime or base rate plus ¼ of 1% multiplied by 107.5%; if the compensating balance is 10%, the notes bear interest at up to the prime or base rate plus ¼ of 1% multiplied by 113.8%. With respect to such notes for which no compensating balance is required, the notes will bear interest at varying rates up to a maximum effective rate derived from the prime or base rate plus ¼ of 1% multiplied by 101.2% together with an assumed compensating balance of 20%. Assuming a prime or base rate of 7¼%, the maximum effective rate of interest would be 9.3%.

With respect to open account advances by EUA to Fall River, the advances will be made at not in excess of the prime or base rate at The First National Bank of Boston in effect on the date of the advance. A compensating balance of not in excess of 20% of such advance will be maintained at the bank by Fall River. Assuming a prime or base rate of 7¼%, the maximum effective rate of interest on the advances to Fall River would be approximately 9.06%.

It is stated that the proceeds from the proposed notes and advances will be used to meet cash requirements for construction, to provide funds for investment in subsidiaries and for compensating balances with lending banks through December 28, 1976, and to pay outstanding short-term loans. On December 30, 1975, Blackstone, Brockton, Fall River and Montaup expect to have outstanding short-term loans of $2,200,000, $6,300,000, $7,200,000 and $20,000,000, respectively. EUA expects to have outstanding short-term notes of $20,000,000 on December 30, 1975.

It is proposed that Fall River may prepay an advance from EUA with the proceeds of notes issued to banks. If the interest rate on a note issued to a bank for the purpose of obtaining funds to repay an advance from EUA shall exceed the rate on the advance being repaid, EUA shall reimburse or credit Fall River for the added interest required for the term of the note so issued.

It is stated that no state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transactions. The fees and expenses to be incurred in connection with the proposed transactions are to be supplied by amendment.

Notice is further given that any interested person may, not later than December 26, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the declarants at the above-stated addresses, and proof of service (by affidavit or, in case of an attorney-at-law, by certificate) should be filed with the request. At any time after said date, the declaration, as amended, or as it may be further amended, may be granted as provided in Rule 23 of the General Rules and Regulations promulgated under the Act or the Commission may grant exemption from rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc.75-33162 Filed 12-9-75;8:45 am]

[70-5729; Rel No. 19280]

MIDDLE SOUTH UTILITIES INC. ET AL.

Sale-Leaseback of Oil Storage Facilities; Guaranty by Holding Company of Lease Obligations; and Ground Lease by Electric Utility Subsidiary

DECEMBER 3, 1975.

In the Matter of MIDDLE SOUTH UTILITIES, INC., 225 Baronne Street, New Orleans, Louisiana 70112. SYSTEM FUELS, INC., P.O. Box 61532, New Orleans, Louisiana 70161. MISSISSIPPI POWER & LIGHT COMPANY, P.O. Box 1640, Jackson, Mississippi 39205.

Notice is hereby given that Middle South Utilities, Inc. ("Middle South"), a registered holding company, System Fuels, Inc. ("SFI"), its fuel procurement subsidiary, and Mississippi Power & Light Company ("MP&L"), an electric utility subsidiary, have filed a post-effective amendment to a previously amended application-declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating Section 12(b) and 12(f) of the Act as applicable thereto. All interested persons are referred to the post-effective amendment, which is summarized below, for a complete description of the proposed transactions.

SFI is currently completing construction on storage tanks and related facilities ("Equipment") located at MP&L's Baxter Wilson Steam Electric Station near Vicksburg, Mississippi. SFI is financing the construction of the Equipment by borrowings from banks, with the obligations of SFI guaranteed by Middle South. (See HCAR No. 19188, September 24, 1975). Borrowings to date under that loan arrangement are in the aggregate amount of $19.5 million.

SFI now proposes to retire the bank borrowings and permanently finance the Equipment by means of a sale and lease-back arrangement to be entered into with General Electric Credit Corporation ("Owner"). SFI will sell its interest in the Equipment to a trustee ("Owner Trustee"), designated as such by the Owner in a trust agreement between the Owner and the Owner Trustee, for an amount equal to SFI's book cost on the closing date. Assuming a closing date on or about December 31, 1975, SFI's book cost (including interest during construction) would equal approximately $20.2 million. The Owner Trustee will provide for the completion of construction of the Equipment through SFI, as its agent, at a presently estimated cost of $2.9 million.

Simultaneously with the sale of the Equipment, SFI will enter into a lease ("Lease") with the Owner Trustee, which will provide for an interim term to end not later than December 31, 1976, and a basic term of 25 years thereafter, with two optional renewal periods of five years each. Under the Lease, SFI will operate and maintain the Equipment and bear the cost for other related expenses. The Lease will be non-cancellable and the rent thereunder shall not abate, except upon specified occurrences, in which case there will be a partial termination and proportionate abatement. The rent during the interim period will equal 9% of the sum of the lessor's cost ("Lessor's Cost"), which includes all direct and indirect costs of the Equipment capitalizable by the SFI, plus amounts to be borrowed from institutional lenders ("Lenders") and not expended on the cost of constructing the Equipment. In addition, SFI will pay as supplemental rent during the interim term a fee at the rate of ½ of 1% on the average unfunded balance of the Owner's maximum equity commitment of $8,250,000. The rent during the basic term will be payable semi-annually at a rate of 4.138% of the Lessor's Cost, but that rate may be adjusted at the end of the interim term of the Lease to account for economic and tax circumstances then existing.

SFI will also enter into a sublease ("Sublease") with the Owner Trustee to acquire the land upon which portions of the Equipment are located together. The land constitutes a part of a larger tract of land now owned by MP&L and leased to SFI. Accordingly, as a preliminary step to the Sublease between SFI and the Owner Trustee, MP&L will transfer its interest in the land rights to the Owner Trustee under the terms of a ground lease, and SFI will subordinate and release its existing leasehold interest in the land rights for a term equal to the term of the ground lease. Semi-annual rent under the Sublease payable by SFI to the Owner Trustee will not exceed $1,500.

In connection with the foregoing transactions, Middle South proposes to execute and deliver an agreement ("Guaranty Agreement") whereby it will guarantee to the Owner and Owner Trustee all of SFI's obligations under the Lease and certain related documents.

The Owner Trustee will finance the acquisition of the Equipment under construction and, through SFI, arrange for its completion with funds (representing 30% of Lessor's Cost) to be advanced to the Owner Trustee by the Owner and with funds (representing the remaining 70%) to be obtained from the sale of non-recourse secured notes ("Notes") by the Owner Trustee to the Lenders. It is estimated that the principal amount of the Notes will be $17.5 million. Any amount of the proceeds of the Notes in excess of the amount applied to the capitalized cost of the Equipment on the closing date will be held in escrow. The Notes will be secured by the Equipment, subject only to permitted liens and exceptions, by an assignment of the Owner Trustee's interest in the Lease, and by the Guaranty Agreement executed by Middle South. Rent payable under the Lease will be applied to pay principal and interest on the Notes.

It is stated that the fees and commissions incurred by the applicants-declarants in connection with the proposed transactions will not exceed $10,000 in estimated legal fees. It is further stated that no State or Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than December 29, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said post-effective amendment which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicants-declarants at the above-stated addresses, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the post-effective amendment, as filed or as it may be amended, may be granted and permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices or orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

AMPAC NATIONAL CORP.

Suspension of Trading

NOVEMBER 26, 1975.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock of Ampac National Corporation being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

Therefore, pursuant to Section 12(k) of the Securities Exchange Act of 1934, trading in such securities otherwise than on a national securities exchange is suspended, for the period from 3:40 p.m. (EST) on November 26, 1975 through midnight (EST) on December 5, 1975.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc.75–33242 Filed 12–9–75;8:45 am]

[Rel. No. 9066; (811–2099)]

ANNUITY FUND

Application for an Order Declaring That Applicant has Ceased to be an Investment Company

DECEMBER 4, 1975.

Notice is hereby given that The Annuity Fund, c/o William A. Kurtz, Continental Assurance Company, CNA Plaza, Chicago, Illinois 60685 ("Applicant"), a separate account of Continental Assurance Company, an Illinois insurance company, registered as a diversified open-end management company under the Investment Company Act of 1940 ("Act"), filed an application on November 3, 1975 pursuant to Section 8(f) of the Act for an order of the Commission declaring that Applicant has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein which are summarized below.

Applicant states that it registered under the Act on August 7, 1970, by filing both a Notification of Registration on Form N–8A, and a Registration Statement on Form N–8B–1. On the same date a registration statement on Form S–5 was filed with the Commission under the Securities Act of 1933 ("1933 Act"); that registration statement has not been made effective.

Applicant represents that it has no assets or investment units, and that no offering or sale of its investment units has been or is intended to be made. Applicant's registration statement under the 1933 Act has been withdrawn pursuant to Rule 477 under the 1933 Act.

Section 3(c)(1) of the Act excludes from the definition of investment company any issuer whose outstanding securities are beneficially owned by not more than 100 persons, and which is not making and does not presently propose to make a public offering of its securities.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than December 29, 1975, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit or in the case of an attorney at law by certificate) shall be filed contemporaneously with the request. As provided by Rule 0–5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following December 29, 1975, unless the Commission orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter including the date of the hearing (if ordered) and any postponements hereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc.75–33241 Filed 12–9–75;8:45 am]

[Rel. No. 9068; (812–3874)]

CHECCHI-PACIFIC CORP. AND CHECCHI AND CO.

Filing of Application

DECEMBER 4, 1975.

Notice is hereby given that Checchi and Company, 1730 Rhode Island Avenue, N.W., Washington, D.C. 20036 ("Checchi"), a Delaware corporation engaged directly and through wholly-owned and majority-owned subsidiaries in the consulting and management business, and a wholly-owned subsidiary, Checchi-Pacific Corporation ("Checchi-Pacific"), a closed-end, non-diversified, management investment company registered under the Investment Company Act of 1940 (the "Act") (collectively referred to as "Applicants"), filed an application on October 31, 1975 and amendments thereto on November 18, 1975 and November 24, 1975, pursuant to Section 17(b) of the Act, for an order of the Commission exempting from the provisions of Section 17(a) of the Act the proposed purchase by Trans-Philippine Investment Corporation ("TPIC"), an affiliated person of Checchi-Pacific, of 4,488 shares of its common stock presently held by Checchi-Pacific, and for and order of the Commission, pursuant to Section 17(d) of the Act and Rule 17d–1 thereunder, permitting Checchi to join with Checchi-Pacific in the sale to TPIC of certain assets of Checchi and the stock of TPIC held by Checchi-Pacific. All interested persons are refered to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Checchi-Pacific owns 4,488 shares of common stock of TPIC, a Philippine corporation engaged in investment in and management of sugar milling and heavy construction subsidiaries. These securities represent approximately 14.2% of TPIC's total outstanding voting securities. Checchi-Pacific's interest in TPIC, as reported in the footnotes to its financial statements of December 31, 1974, was valued, on the basis of Checchi-Pacific's equity interest in the underlying book value of TPIC's assets, at $2,126,000. On such a valuation basis, Checchi-Pacific's interest in TPIC represents approximately 84% of the value of its total assets.

Mr. Roberto Villanueva, a director of Checchi, owns or controls approximately 47% of the common stock of TPIC. Mr. Villanueva is also a controlling person of Sugar Brokers, Inc. ("Sugar Brokers"), a New York corporation which owns approximately 54.1% of the outstanding common stock of Checchi. Mr. Villanueva, consequently, is a controlling person of TPIC, Checchi and Checchi-Pacific.

Because of mounting financial pressures, the Board of Directors of Checchi has determined that it is in the best interests of Checchi and Checchi's wholly-owned subsidiary, Checchi-Pacific, to effect a substantial liquidation of assets which would result in the retention by Checchi of its consulting division and other miscellaneous assets and the liquidation of its other subsidiaries, including Checchi-Pacific. The proceeds from the proposed liquidation of assets would be primarily used to pay obligations of Checchi.

Checchi, therefore, has entered into an agreement with TPIC, subject to the entry of the order requested herein, pursuant to which (1) Checchi would sell to TPIC (a) its interest of 5,075,881.5 shares of common stock of Filmag (Philippines), Inc. ("Filmag") and any stock dividends that may be declared thereon up to the time of closing for 2.67 Philippine pesos per share or an aggregate of approximately $1.59 million, and (b) its interest of 100,000 subscribed and partially paid shares of common stock of AGP Investment Corporation ("AGPI") for 14.55 Philippine pesos per share and the assumption by TPIC of the unpaid subscription liability of 4.45 pesos per share, a total of 19 Philippine pesos per share, or an aggregate of approximately $210 thousand, and (2) Checchi would cause Checchi-Pacific to sell to TPIC its interest of 4,488 shares of common stock of TPIC for 3,500 Philippine pesos per share or an aggregate of approximately $1.85 million.

Section 17(a) of the Act provides, in pertinent part, that it shall be unlawful for any affiliated person of a registered investment company, acting as principal, knowingly to purchase from such registered company any security or other property. Section 17(b) of the Act provides that the Commission, upon application, may exempt a proposed transaction from the provisions of Section 17(a) of the Act if evidence establishes that the terms of the proposed transaction, including the consideration to be paid or received, are reasonable and fair and do not involve overreaching on the part of any person concerned and the proposed transaction is consistent with the policy of each investment company concerned and with the general purposes of the Act.

Under Section 17(d) of the Act and Rule 17d–1, it is unlawful for any affiliated person of a registered investment company or any affiliated person of such a person, acting as principal, to participate in, or effect any transaction in connection with, any joint enterprise or other joint arrangement or profit sharing plan in which any such registered company, or a company controlled by such registered company, is a participant unless an application regarding such arrangement has been granted by an order of the Commission. In passing upon such an application, the Commission considers whether the participation of such registered or controlled company in such arrangement is consistent with the provisions, policies, and purposes of the Act and the extent to which such participation is on a basis different from or less advantageous than that of other participants.

Section 2(a)(3) of the Act defines an affiliated person of another person to include any person owing 5% or more of the outstanding voting securities of such other person, any person 5% or more of whose outstanding voting securities are owned by such other person, or any person directly or indirectly controlling, controlled by, or under common control with, such other person. Checchi-Pacific and TPIC, by virtue of Checchi-Pacific's ownership of 14.2% of TPIC's outstanding voting securities, are affiliated persons of each other. Because Checchi-Pacific is a wholly-owned subsidiary of Checchi, Checchi-Pacific and Checchi are affiliated persons of each other. Moreover, Mr. Villanueva controls TPIC, Checchi and Checchi-Pacific and each may therefore be deemed an affiliated person of the other. Consequently, TPIC, as an affiliated person of Checchi-Pacific, is prohibited by Section 17(a) of the Act from repurchasing its stock from Checchi-Pacific. In addition, the proposed sale by Checchi of its interests in Filmag and AGPI to TPIC, together with Checchi-Pacific's proposed sale of its TPIC stock to TPIC, may be deemed to constitute a joint enterprise or arrangement subject to the provisions of Section 17(d) of the Act and Rule 17d–1 thereunder.

Applicants assert that the terms of TPIC's proposed repurchase of its stock from Checchi-Pacific are fair and reasonable and do not involve overreaching with respect to any party and that the proposed transaction is consistent with the policy of Checchi-Pacific and with the general purposes of the Act. Applicants represent that Checchi-Pacific purchased its TPIC shares from TPIC in a private transaction for $1,625 in 1963. TPIC is owned or controlled by only six shareholders and 47% of the outstanding shares are owned by Mr. Villanueva or members of his family. Applicants represent that since there is no trading market in TPIC shares, it is extremely difficult to find buyers, other than TPIC itself or other entities controlled by Mr. Villanueva, for minority interests in TPIC. Applicants assert that TPIC is the only buyer Applicants have found for Checchi-Pacific's TPIC shares.

Applicants have been informed by TPIC that there were only two transactions in TPIC shares in 1975. Both transactions involved sales to TPIC or Mr. Villaneuva and were negotiated at arm's length by the sellers. The sales price in both transactions was 3,500 Philippine pesos per share. Applicants further assert that they have obtained an independent appraisal by Philippine Investments Systems Organization of the fair value of TPIC shares which shows that the proposed purchase price is within the range of prices found to be fair and reasonable.

TPIC and Applicants have agreed that TPIC will pay the total purchase price in Philippine pesos by cashier's check. Applicants have been informed that conversion of such proceeds into dollars through the Central Bank of the Philippines (the "Central Bank") at the official exchange rate would involve substantial delays for official approval and would require the proceeds to be remitted in nine equal annual installments. Because of Checchis' immediate need for such proceeds, Applicants propose to convert the Philippine pesos into dollars at the lower unofficial or "floating rate" pursuant to Circular 343 of the Central Bank. At the October 9, 1975 unofficial exchange rate, the purchase price in United States dollars for the TPIC shares would be approximately $1,848,000.

Applicants further assert that the participation of Checchi-Pacific in the proposed sale to TPIC by Applicants of securities of Filmag, AGPI and TPIC is consistent with the provisions, policies and purposes of the Act and that Checchi-Pacific's participation, as a wholly-owned subsidiary of Checchi, is no less advantageous than that of Checchi.

Notice is further given that any interested person may, not later than December 26, 1975, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0–5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following December 26, 1975, unless the Commission thereafter ordres a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[Rel. No. 19281; (70–5317)]

CONSOLIDATED NATURAL GAS CO., ET AL.

Notice of Proposals To Transfer Lease Interests to Gas Production Subsidiary and To Issue and Sell Common Stock to Parent Holding Company; Exception From Competitive Bidding

DECEMBER 4, 1975.

In the matter of Consolidated Natural Gas Co., 30 Rockefeller Plaza, New York, New York 10020; and Consolidated Gas Supply Corp. and CNG Producing Co., 445 West Main Street, Clarksburg, West Virginia 26301.

Notice is hereby given that Consolidated Natural Gas Company ("Consolidated"), a registered holding company, and CNG Producing Company ("CNG Producing") and Consolidated Gas Supply Corporation ("Supply Corp"), nonutility subsidiaries of Consolidated, have filed a post-effective amendment to a previously amended application-declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating Sections 6, 7, 9, 10 and 12 of the Act and Rules 43, 45 and 50(a)(3) promulgated thereunder as applicable to the following proposed transactions. All interested parties are referred to said post-effective amendment, which is summarized below, for a complete statement of the proposed transactions.

By order dated January 31, 1975 (HCAR No. 18792), the Commission, among other matters, approved the transfer of undeveloped and developed gas production properties in Louisiana, Mississippi, Alabama, Arkansas, Ken-

V40238 DEC 10 75 XUM

tucky, Tennessee and the Gulf of Mexico from Supply Corp to Consolidated and simultaneously therewith from Consolidated to CNG Producing. That authorization, however, did not apply to certain production properties in Louisiana and the Gulf of Mexico, the transfer of which had not been approved by the Federal Power Commission. The present filing concerns the transfer of these properties, which are now developed.

The proposed transfers will be consummated by the acquisition of the properties by Consolidated from Supply Corp followed simultaneously by their transfer to CNG Producing. The transfer of the properties, together with miscellaneous equipment and inventories, will be made on the basis of net book cost to Supply Corp at November 30, 1975. At September 30, 1975, such cost was as follows:

Developed properties	$9,963,000
Miscellaneous equipment and inventories	664,000
Sub-total	10,627,000
Deferred taxes	(675,000)
	9,952,000

In exchange for the properties to be transferred to Consolidated, a portion (to be fixed pursuant to a formula) of the long-term undebtedness of Supply Corp to Consolidated will be cancelled. The balance of the net book cost over the amount of the cancelled indebtedness will be treated as the payment of a dividend in kind to Consolidated. In turn, CNG Producing, in consideration for the properties transferred to it by Consolidated, will issue and deliver shares of its common stock, par value $100 per share. Based on the net book cost of the properties at September 30, 1975, 99,520 shares, aggregating $9,952,000 par value, would have been issued.

It is stated that, as of September 30, 1975, Supply Corp had estimated proven gas reserves of 29,195,520 Mcf underlying the production properties. After the transfer to CNG Producing, all of these gas reserves will be dedicated to Supply Corp. Of the total proven reserves, 21,452,300 Mcf have already been dedicated to Supply Corp under presently existing contracts; and it is anticipated that the balance, 7,743,220 Mcf, will be so dedicated by early 1977.

It is stated that the fees and expenses incurred in connection with the proposed transactions will not exceed $1,700. The Federal Power Commission has jurisdiction over the proposed transfer of the production properties and will have issued its order approving the transfer prior to the consummation thereof. It is stated, however, that no other State or Federal commission, other than this Commission, has jurisdiction over any of the proposed transactions.

Notice is further given that any interested person may, not later than December 29, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said post-effective amendment to the previously amended application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicants-declarants at the above-stated addresses and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the post-effective amendment to the previously amended application-declaration may be granted and permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20 (a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS, *Secretary.*

[Rel. No. 9067 (811-2100)]

CONTINENTAL ASSURANCE ANNUITY PLAN ACCOUNT

Notice of Application

DECEMBER 4, 1975.

Notice is hereby given that Continental Assurance Annuity Plan Account, c/o William A. Kurtz, Continental Assurance Company, CNA Plaza, Chicago, Illinois 60685; ("Applicant"), a separate account of Continental Assurance Company, an Illinois insurance company, registered as a unit investment trust under the Investment Company Act of 1940 ("Act"), filed an application on November 3, 1975 pursuant to Section 8(f) of the Act for an order of the Commission declaring that Applicant has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Applicant states that it registered under the Act on August 7, 1970, by filing both a Notification of Registration on Form N-8A, and a Registration Statement on Form N-8B-2. On the same date a registration statement on Form S-6 was filed with the Commission under the Securities Act of 1933 ("1933 Act"); that registration statement has not been made effective.

Applicant represents that it has no assets or variable annuity contract holders, and that no offering or sale of its variable annuity contracts has been or is intended to be made. Applicant's registration statement under the 1933 Act has been withdrawn pursuant to Rule 477 under the 1933 Act.

Section 3(c)(1) of the Act excludes from the definition of an investment company any issuer whose outstanding securities are beneficially owned by not more than 100 persons and which is not making and does not presently propose to make a public offering of its securities.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the taking effect of such order the registration of such company shall cease to be in effect.

NOTICE IS FURTHER GIVEN that any interested person may, not later than December 29, 1975, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following December 29, 1975, unless the Commission orders a hearing upon request or upon the Commission own motion. Persons who request a hearing or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter including the date of the hearing (if ordered) and any postponements hereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS, *Secretary.*

HIGHLAND CAPITAL CORP. AND INFICON, INC.

Filing of Application for an Order Permitting Affiliated Persons of an Affiliated Person of an Investment Company To Join With the Investment Company in a Sale, to a Non-Affiliated Person of a Company in Which Each Applicant has an Interest

DECEMBER 4, 1975.

In the matter of Highland Capital Corp., 20 Exchange Place, New York, New York 10005, ATTN: Mr. Edwin Robbins, President; Inficon, Inc., 5 Adler Drive, Syracuse, New York 13057, ATTN: Gerard T. Roome, President, Wilbert Beebe, Michale Cahill, Donald DiRenzo, John E. Dobbertin, Nathan Ginsburg, Robert J. Harris, Melvin Hetzel, Gary Lanpher, Chih-Shun Lu, William Parfitt, William Pettit, Robert Pipher, David Robertson, Gerald T. Roome, Robert Sheldon, John Skapiak, Joseph Spector, John Stratakos, Edwin L. Wilson, Jerome M. Wilson; c/o James McVety, Esq., Hancock, Estabrook, Ryan, Shove & Hust, One Mony Plaza, 100 Madison Street, Syracuse, New York 13202; (812-3873).

Notice is hereby given that Highland Capital Corporation ("Fund"), a non-diversified, closed-end management investment company registered under the Investment Company Act of 1940 ("Act"), Inficon, Inc., a New York corporation ("Inficon"), and certain shareholders of Inficon or holders of options to purchase Inficon shares, i.e., Wilbert Beebe, Michale Cahill, Donald DiRenzo, John E. Dobbertin, Nathan Ginsburg, Robert J. Harris, Melvin Hetzel, Gary Lanpher, Chih-Shun Lu, William Parfitt, William Pettit, Robert Pipher, David Robertson, Gerard T. Roome, Robert Sheldon, John Skapiak, Joseph Spector, John Stratakos, Edwin L. Wilson, and Jerome M. Wilson (collectively, "Applicants") have filed an application ("Application") on October 29, 1975, and an amendment thereto on November 4, 1975, for an order pursuant to Rule 17d-1 under the Act, permitting (i) a proposed agreement between Applicants and Leybold-Heraeus GmbH & Co., KG, a German limited partnership (the "Purchaser"), providing for the sale to Purchaser of either all of the outstanding shares of common stock or all or substantially all of the assets of Inficon and (ii) the consummation of the transactions contemplated by the proposed agreement. All interested persons are referred to the Application and amendment thereto on file with the Commission for a statement of the representations contained therein, which are summarized below.

The Fund, organized in 1969 as a Delaware corporation under the name "Price Capital Corporation" and registered under the Act as a close-end, non-diversified management investment company, adopted its present name on June 1, 1973.

Inficon was incorporated under the laws of the State of New York on December 23, 1969. The founders of Inficon, including Roome, and Lu, and certain persons who assisted in arranging the January 1970 financing for Inficon, including Harris and Dobbertin, purchased substantially all of their holdings of Inficon common stock at a price of $.01 per share.

Pursuant to an investment agreement dated January 23, 1970, (the "Investment Agreement"), the Fund purchased from Inficon, in a private placement transaction, 18,750 shares of common stock of Inficon at an aggregate purchase price of $150,000 (or $8.00 per share). In the same month, Ginsburg, Spector, E. Wilson and J. Wilson (collectively the "Wilsons") entered into agreements with Inficon which were substantially identical to the Investment Agreement. Pursuant to these investment agreements they also purchased, in private placement transactions, shares of Inficon common stock at a purchase price of $8.00 per share.

To induce the Fund and the Wilsons to enter into and consummate investment agreements with it, Inficon agreed to grant them, at the time Inficon files a registration statement under the Securities Act of 1933 as contemplated by the investment agreements, warrants to purchase a certain number of additional shares of Inficon common stock. The contemplated registration statement has never been filed.

At present, there are 87,093 shares of common stock of Inficon outstanding. In addition, there are stock options outstanding to purchase an aggregate of 9,060 shares of Inficon's common stock, all of which are held by employees or former employees of Inficon. There are an aggregate of 31 holders of Inficon's common stock.

John E. Dobbertin, Nathan Ginsburg, Robert J. Harris, Chih-Shun Lu, Gerard T. Roome, Edwin L. Wilson, and Jerome M. Wilson are all directors and stockholders of Inficon. In addition to being shareholders and serving as directors, Roome is the President and Chief Executive Officer of Inficon, Lu is a Vice President of Inficon, and Dobbertin is the Secretary of Inficon. John Stratakos is an employee and stockholder of Inficon. Joseph Spector owns 5% of the stock of Inficon. Wilbert Beebe, Michale Cahill, Donald Di Renzo, Melvin Hetzel, Gary Lanpher, William Parfitt, William Pettit, Robert Pipher, David Robertson, Robert Sheldon and John Skapiak are all employees of Inficon who hold stock options to purchase shares of Inficon common stock. However, none of these individuals owns any shares of Inficon common stock. Two officers of the Fund, neither of whom is a stockholder of Inficon, serve as directors of Inficon.

The number of shares of Inficon common stock and employee stock options presently held by the Applicants (other than Inficon) are as follows:

	Number of shares	Percentage of outstanding shares of common stock	Number of shares covered by stock options and exercise price
		Percent	
The Fund	18,750	21.5	None.
Chi-shun Lu	11,783	13.5	None.
Gerard T. Roome	11,783	13.5	None.
Joseph Spector	4,375	5.0	None.
John E. Dobbertin	1,270	1.5	None.
Nathan Ginsburg	1,500	1.7	None.
Robert J. Harris	2,000	2.3	None.
John Stratakos	402	.5	1,000 shs. at $8 per sh. and 400 shs. at $10 per sh.
Edwin L. Wilson	3,525	4.0	None.
Jerome M. Wilson	3,125	3.6	None.
Wilbert Beebe	None	None	900 shs. at $10 per sh.
Michale Cahill	None	None	300 shs. at $16 per sh. and 650 shs. at $15 per sh.
Donald Di Renzo	None	None	800 shs. at $16 per sh.
Melvin Hetzel	None	None	400 shs. at $10 per sh.
Gary Lanpher	None	None	400 shs. at $8 per sh. and 200 shs. at $10 per sh.
William Parfitt	None	None	700 shs. at $8 per sh.
William Pettit	None	None	800 shs. at $12 per sh.
Robert Pipher	None	None	400 shs. at $8 per sh. and 200 shs. at $10 per sh.
David Robertson	None	None	800 shs. at $16 per sh.
Robert Sheldon	None	None	400 shs. at $16 per sh.
John Skapiak	None	None	800 shs. at $10 per sh.

None of the Applicants is affiliated or associated with the Purchaser.

Certain of the Applicants, including Inficon, have had discussions with the Purchaser about an acquisition by the Purchaser of either all of the outstanding shares of common stock or all or substantially all of the assets (subject to all of the liabilities) of Inficon. As a result of such discussions, it has been agreed, in principle, that the purchaser will purchase from the stockholders of Inficon or Inficon either all of the 87,093 issued and outstanding shares of common stock of Inficon or all or substantially all of the assets (subject to all of the liabilities) of Inficon. If the proposed transaction involves the sale of all of the outstanding common stock of Inficon, the aggregate purchase price would be $2,612,790 (which is equivalent to $30 per share for each outstanding share of Inficon common stock). If the proposed transaction involves the sale of all or substantially all of Inficon's assets (subject to all of Inficon's liabilities), the aggregate purchase price would be $2,612,790 plus an amount equal to the amount of any tax liability that would be incurred by Inficon as a result of the tax provisions relating to "recapture" of depreciation. The purchase is to be consummated at a closing (the "Closing") to be held before December 31, 1975.

With the exception, described below, regarding the portion of the purchase price attributable to the Fund's interest in Inficon, the purchase price is to be paid by the Purchaser in cash or by check in installments as follows: 25% at the Closing, 25% on January 16, 1976, 25% on June 1, 1976 and 25% on January 16, 1977. Of the purchase price attributable to the Fund's 21.5% interest in Inficon, 25% is to be paid in cash or by check at the Closing and 75% on June 1, 1976. The 75% portion of the purchase price not paid in cash or by check at the Closing to the Fund and the other Inficon shareholders

V40238 DEC 10 75 XUM

is to be evidenced by non-interest bearing notes of the Purchaser. Such notes will be secured either by the shares of stock or assets being purchased or by a letter of credit issued by a bank.

It has also been agreed that payments will be made to the holders of outstanding stock options to purchase shares of Inficon common stock so that such stock options will be surrendered and canceled. The amount to be paid with respect to each share of Inficon common stock covered by a stock option will be the difference between $30 and the exercise price at which such share could be purchased upon exercise of such option. There are outstanding stock options to purchase 9,060 shares and the aggregate amount which is to be paid with respect to such options is $167,490. Furthermore, Inficon has agreed to pay approximately $4,500 to the Fund and an aggregate of approximately $7,170 to the Wilsons in consideration of their surrendering and canceling their rights to receive future warrants to purchase shares of Inficon common stock. These sums bear the same ratio to each other as the number of warrants promised to the Fund bears to the number of warrants promised the Wilsons.

If the transaction is a sale of all the outstanding shares of common stock of Inficon, the purchase price installments will be paid directly to the Applicants (other than Inficon) and all other stockholders of Inficon (or possibly to an agent or agents representing some or all of the Applicants other than Inficon). If the transaction is a sale of all or substantially all of the assets (subject to all of the liabilities) of Inficon, the purchase price installments will be paid to Inficon and then distributed by Inficon as liquidating distributions to the applicants (other than Inficon) and the other stock holders of Inficon.

The Applicants represent that the difference in the payment schedule with respect to the portion of the purchase price attributable to the Fund's interest in Inficon is primarily due to the fact that the Applicants (other than Inficon) are individuals who are concerned for certain tax reasons, with receiving their purchase price payments over a longer period of time than the Fund desired. The Fund is not concerned about the tax benefit which might be derived from having installment payments of the purchase price paid over a longer period of time since the Fund has substantial tax loss carry-forwards which will be available to offset any capital gains realized by the Fund as a result of the proposed transaction. The Fund expects to realize a capital gain of approximately $412,000 (before expenses) as a result of the proposed transaction.

Section 17(d) of the Act provides, in relevant part, that it shall be unlawful for any affiliated person of a registered investment company or any affiliated person of such a person, acting as principal to effect any transaction in which such registered investment company is a participant, in contravention of such rules and regulations as the Commission may prescribe.

Rule 17d–1, adopted by the Commission pursuant to Section 17(d) of the Act, provides, in pertinent part, that no affiliated person of any registered investment company, and no affiliated person of such a person, acting as principal, shall participate in, or effect any transaction in connection with any joint enterprise or other joint arrangement in which any such registered company is a participant unless an application regarding such joint enterprise or arrangement has been filed with the Commission and has been granted by an order of the Commission. A joint enterprise or other joint arrangement as used in this rule is any written or oral plan, contract, authorization or arrangement, or any practice or understanding concerning an enterprise, or undertaking whereby a registered investment company and any affiliated person of such registered investment company, or any affiliated person of such a person, have a joint or a joint and several participation, or share in the profits of such enterprise or undertaking. In passing upon such application, the Commission will consider whether the participation of such registered company in such joint enterprise or joint arrangement on the basis proposed is consistent with the provisions, policies and purposes of the Act and the extent to which such participation is on a basis different from or less advantageous than that of other participants.

Section 2(a)(3) of the Act defines an affiliated person of another person to include any person owning 5% or more of the outstanding voting securities of such other person, any person 5% or more of whose outstanding voting securities are owned by such other person, or any officer, director or employee of such other person.

Because the Fund owns more than 5% of the outstanding voting securities of Inficon, both the Fund and Inficon are affiliated persons of one another. Each of the Applicants other than the Fund and Inficon is an affiliated person of Inficon by reason of being either an officer, director, employee and/or holder of 5% or more of the outstanding voting securities of Inficon.

The Applicants assert that the proposed agreement is fair and reasonable and does not involve overreaching on the part of any person concerned with or involved in the transactions contemplated thereby. The Applicants further submit that the proposed agreement and the consummation of the transactions contemplated thereby are consistent with the general purposes of the Act, the public interest and the protection of investors. In addition, Highland submits that the proposed agreement and transactions contemplated thereby are not inconsistent with its investment policies, are consistent with the policies and purposes of the Act, and are desirable and in the best interests of Highland and its stockholders.

Based on the foregoing, the Applicants have requested that the Commission grant an Order pursuant to Section 17(d) of the Act and the rules and regulations thereunder permitting the proposed agreement and the consummation of the transactions contemplated thereby.

Notice is further given that any interested person may, not later than December 24, 1975, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the addresses stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule O–5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following December 26, 1975, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponement thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–11885; File No. SR–Amex–75–10]

AMERICAN STOCK EXCHANGE, INC.

Self-Regulatory Organization

In the matter of American Stock Exchange, Inc., 86 Trinity Place, New York, New York 10006.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78(s)(b)(1) (the "Act") as amended by Pub. L. No. 94–29, section 16 (June 4, 1975), notice is hereby given that on November 17, 1975, the American Stock Exchange, Inc. ("Amex"), a national securities exchange registered with the Commission pursuant to Section 6 of the Act, filed with the Commission a proposed rule change. The proposed rule change is to amend the Commentary to Amex Rule 940 so as to lower, under certain circumstances, the margin maintenance requirements established under such Rule for registered traders in options. The amendment would permit the account of a registered trader containing only Exchange option transactions effected by him in his capacity as a registered trader to be carried on a margin basis satisfactory to the registered trader and the member organization carrying the account. The amendment further provides that any difference between the minimum margin required under Rule 940 and the margin deposited in the account will be considered by the Exchange as a debit item in the computation of the net capital of the carrying member organization under Amex Rule 470.

Interested persons are invited to submit written data, views and arguments concerning the proposed rule change. Persons desiring to make written submissions should file six copies thereof with the Secretary of the Commission, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Reference should be made to File No. SR–Amex–75–10.

The Commission is directed under Section 19(b)(2) of the Act to approve a proposed rule change of a self-regulatory organization if it finds, and it hereby does find, such proposed rule change to be consistent with the requirements of the Act and the rules and regulations thereunder applicable to national securities exchanges including the requirements of Section 6 and the rules and regulations thereunder. In particular, Section 6(b)(5) of the Act, which will become effective on December 1, 1975, requires that the rules of a national securities exchange be designed to "[facilitate] transactions in securities, . . . remove impediments to and perfect the mechanism of a free and open market . . ., and, in general, . . . protect investors and the public interest . . . ." According to the Exchange, lowering margin requirements applicable to the option accounts of registered traders would facilitate increased participation of such registered traders in the options market, thus provide additional depth and liquidity to such market, and thereby protect investors and serve the public interest.

Further, the Commission finds good cause for approving the proposed rule change prior to the thirtieth day after the date of publication of notice of the filing thereof. The Amex has made several revisions in its rules applicable to registered traders engaging in options transactions. These revisions impose responsibilities on registered traders similar to the responsibilities of specialists, *viz.*, the obligation to deal for their own accounts in a manner calculated to contribute to the maintenance of a fair and orderly market, and the obligation to help maintain a fair and orderly market when called upon by floor officials or floor brokers.

To facilitate the fulfillment of these responsibilities by registered traders, the Commission deems it necessary and desirable to approve immediately the proposed rule change which has the effect of affording to registered traders in options the same treatment presently afforded to specialists with respect to margin requirements.

For the foregoing reasons, the Commission finds good cause for approving the proposed rule change prior to the thirtieth day after publication of notice of filing thereof.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the proposed rule change referenced above be, and it hereby is, approved.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

NOVEMBER 28, 1975.

[Release No. 34–11894; File No. SR–PSE–75–9]

PACIFIC STOCK EXCHANGE, INC.

Self-Regulatory Organizations; Proposed Rule Change

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94–29, 16 (June 4, 1975), notice is hereby given that on November 24, 1975, the above-mentioned self-regulatory organization filed under the Securities and Exchange Commission a proposed rule change as follows:

STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

The proposed rule change amends portions of Section 3(a) of Rule XX of the Pacific Stock Exchange Incorporated (the "Exchange") and adds additional subsections thereto. The rule change permits members and member firms, member corporations and the Pacific Securities Depository Trust Company to effect assignments of securities and executions of powers of substitution by means of mechanically reproduced facsimile signatures. The present rule permits the use of such facsimile signatures by the Pacific Clearing Corporation ("PCC") only. The rule change also increases the charges that may be levied by the Exchange in defraying the expenses it incurs in connection with the operation of the rule.

STATEMENT OF BASIS AND PURPOSE

Under the existing rule, members, member firms, and member corporations of the Exchange are permitted to assign securities by executing and filing with the Exchange a power of attorney for persons authorized to make such assignments. The proposed rule change permits member and member firms, member corporations and the Pacific Securities and Depository Trust Company ("PSD") to assign securities and execute powers of substitution by means of mechanically reproduced facsimile signatures. The existing rule permits the use of such facsimile signatures by PCC only.

The proposed rule change also increases the charges that may be levied by the Exchange in preparing signature cards and notifying transfer agents. The rule change also increases the charge for maintaining files relating to the assignments and adds a charge of Seventy-Five Dollars ($75.00) in connection with processing resolutions and filing them with transfer agents for the use of mechanically reproduced facsimile signatures.

The proposed rule change, by permitting member and member firms, member corporations and PSD to assign securities and execute powers of substitution by means of mechanically reproduced facsimile signatures, will facilitate such assignments and executions. Without such provisions, assignments of securities or executions of powers of substitution might be delayed because of the absence or other unavailability of persons authorized to make such assignments or executions. The rule change thereby facilitates the prompt and accurate clearance and settlement of securities transactions and removes impediments to the mechanism of a national system for the prompt and accurate clearance and settlement of securities transactions. Also, the rule change, by amending the charges that may be levied under the Section to cover those expenses incurred by the Exchange in connection with the operation of the Section, constitutes an equitable allocation of reasonable dues, fees and other charges among its participants.

The foregoing are the principal bases under the Act for the proposed rule change.

Comments on the proposed rule change have not been solicited from Exchange members or from PCC participants.

The proposed rule change would not impose any burden on competition.

The foregoing rule change has become effective, pursuant to Section 19(b)(3) of the Securities Exchange Act of 1934. At any time within sixty days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Securities Exchange Act of 1934.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection in the Public Reference Room, 1000 L Street, Washington, D.C. Copies of such filing will also be available for inspection at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before January 9, 1976.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

DECEMBER 3, 1975.

V40238 DEC 10 75 XUM

[Release No. 34-11895; File No. SR-PSE-75-10]

PACIFIC STOCK EXCHANGE, INC.

Self-Regulatory Organizations; Proposed Rule Change

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94-29, 16 (June 4, 1975), notice is hereby given that on November 24, 1975, the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

TEXT OF PROPOSED RULE CHANGE

The text of the proposed rule change is as follows:

Sec. 1(k). Fines not to exceed $250.00 may be imposed by the Clearing House for errors, delays, or failure to make money settlements prior to the deadline set by the Clearing House or other conduct on the part of a member or member firm which interferes with the orderly operation of the Clearing House. Failure to make money settlements prior to the deadline set forth by the Clearing House will result in the member or member firm concerned being responsible to reimburse the Clearing House for any expenses involved in addition to the fines imposed.

Fines or other charges imposed under this provision are subject to appeal to the Governing Board.

STATEMENT OF BASIS AND PURPOSE

The basis and purpose of the foregoing proposed rule change is as follows:

The proposed rule change increases the amount that can be imposed by way of fines by Pacific Clearing Corporation ("PCC") on participants and further delineates the circumstances under which a fine or other charge may be imposed. The fines or charges are intended to discourage action of the sort described in the proposed rule change and to place the monetary burden for such action upon the participant in question rather than upon other participants or upon PCC. The expenses referred to in the proposed rule change refer to any costs incurred by PCC in obtaining funds necessary to cover money settlements that have not been timely made by participants.

The proposed rule change, by imposing fines and other charges upon participants for conduct which interferes with the orderly operation of PCC, (a) relates to PCC's capacity to enforce compliance by its participants with its rules, and (b) provides for its participants to be appropriately disciplined for violation of its rules. These are the principal bases under the Act for the proposed change.

Comments on the proposed rule change have not been solicited from Exchange members or from PCC participants.

The proposed rule change would not impose any burden on competition.

The foregoing rule change has become effective, pursuant to Section 19(b)(3) of the Securities Exchange Act of 1934. At any time within sixty days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Securities Exchange Act of 1934.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection in the Public Reference Room, 1100 L Street, N.W., Washington, D.C. Copies of such filing will also be available for inspection at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before January 9, 1976.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS, *Secretary.*

DECEMBER 3, 1975.

[FR Doc.75-33166 Filed 12-9-75;8:45 am]

[Release No. 34-11896; File No. SR-PSE-75-8]

PACIFIC STOCK EXCHANGE, INC.

Self-Regulatory Organizations; Proposed Rule Change

Pursuant to Section 19(b) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94-29, 16 (June 4, 1975), notice is hereby given that on November 24, 1975, the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

TEXT OF PROPOSED RULE CHANGE

The text of the proposed rule change is as follows:

Sec. 4(a). The signature to an assignment of a certificate which is not in the name of a member or member organization, or in the name of the Clearing House or a nominee thereof, or in the name of the Securities Depository or a nominee thereof, shall be guaranteed by a member or member organization of the Exchange, or by a member or member organization of the New York Stock Exchange, or by a member or member organization of the Midwest Stock Exchange, or by a commercial bank or trust company acceptable to the transfer agent. Each signature to a power of substitution executed by other than a member or member organization of the Exchange, or the Clearing House or a nominee thereof, or the Securities Depository or a nominee thereof, shall be guaranteed in like manner.

STATEMENT OF BASIS AND PURPOSE

The basis and purpose of the foregoing proposed rule change is as follows:

The proposed rule change adds the Pacific Securities Depository Trust Company or its nominee to the list of those Exchange entities whose signature to an assignment of a certificate or a power of substitution need not be guaranteed in accordance with the terms of the section. The proposed rule change also adds members and member organizations of the Midwest Stock Exchange to the list of entities whose signature is acceptable as a guarantee.

The proposed rule change, by adding the Pacific Securities Depository Trust Company or its nominee to the list of those Exchange entities whose signature to an assignment of a certificate or a power of substitution need not be guaranteed in accordance with the terms of the section, and by adding members or member organizations of the Midwest Stock Exchange to the list of entities whose signature is acceptable as a guarantee, (a) provides additional assurance as to the safeguarding of securities and funds which are in the custody or control of the clearing agency or for which it is responsible, (b) further aids in the prompt and accurate clearance and settlement of securities transactions, and (c) provides additional protection to investors and the public interest.

Comments on the proposed rule change have not been solicited from Exchange members or from PCC participants.

The proposed rule change would not impose any burden on competition.

The foregoing rule change has become effective, pursuant to Section 19(b)(3) of the Securities Exchange Act of 1934. At any time within sixty days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Securities Exchange Act of 1934.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection in the Public Reference Room, 1100 L Street, N.W., Washington, D.C. Copies of such filing will also be available for inspection at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before January 9, 1976.

For the Commission, by the Division of Market Regulations, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS, *Secretary.*

DECEMBER 3, 1975.

[FR Doc.75-33167 Filed 12-9-75;8:45 am]

[Rel. No. 19274; (70-5766)]

YANKEE ATOMIC ELECTRIC CO.

Notice of Proposed Issue and Sale of Short-Term Promissory Notes to a Bank and a Dealer in Commercial Paper and Request for Exemption From Competitive Bidding

DECEMBER 1, 1975.

Notice is hereby given that Yankee Atomic Electric Company, 20 Turnpike Road, Westborough, Massachusetts, 01581, ("Yankee Atomic"), an electric utility subsidiary company of New England Electric System and Northeast Utilities, registered holding companies, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating Sections 6(a) and 7 of the Act and Rule 50(a)(5) promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transactions.

Yankee Atomic proposes to issue and sell from time to time, but not later than December 31, 1976, short-term promissory notes, in order to finance its nuclear fuel requirement, and for other corporate purposes. The notes are expected to be sold to The First National Bank of Boston, Massachusetts, or to A. G. Becker & Company, Incorporated ("Becker"), a dealer in commercial paper, or both, up to a maximum aggregate principal amount of $20,600,000 to be outstanding at any one time.

The proposed short-term borrowing will be repaid from time to time in part from internally generated funds and the balance will be refinanced either through additional short-term borrowings or permanent financing.

The proposed borrowings from The First National Bank of Boston will be evidenced by notes payable maturing in less than one year from the date of issuance and will provide for prior payment in whole or in part without premium. The notes will bear interest at not in excess of the prime rate at such bank in effect at the time borrowings are made. If balances were maintained to solely fulfill prevailing compensating balance requirements of 20%, the effective interest cost to Yankee Atomic would be about 9.38% per annum based on the current prime rate of 7.5%.

Yankee Atomic also proposes to issue and sell its commercial paper during the period through December 31, 1976, directly to Becker, a dealer in commercial paper. Becker, as a principal, will reoffer such commercial paper to not more than 200 of its customers whose names appear on a nonpublic list prepared by Becker in advance. No additions will be made to such list of customers. The commercial paper so issued and sold will be in the form of unsecured promissory notes having varying maturities of not in excess of 270 days. Actual maturities will be determined by market conditions, the effective interest cost to Yankee Atomic, and Yankee Atomic's cash requirements at the time of issuance. The commercial paper will be in denominations of not less than $50,000 and not more than $1,000,000, and will not by its terms be prepayable prior to maturity. The commercial paper will be purchased by Becker from Yankee Atomic at a discount which will not be in excess of the discount rate per annum prevailing at the date of issuance for the particular maturity at which prime commercial paper of comparable quality is sold by public utility issuers to commercial paper dealers. Becker will initially reoffer the commercial paper at a discount rate not more than ⅛ of 1% per annum less than the prevailing discount rate to Yankee Atomic. It is expected that such commercial paper will be held to maturity by the purchasers, but, if any such purchaser wishes to resell prior to maturity, Becker, pursuant to an oral repurchase agreement, will repurchase the paper for resale to others on said list of customers. The effective interest cost to Yankee Atomic on such paper will not exceed the effective interest cost at the time of issue for borrowings from The First National Bank of Boston, except that, in order to obtain maximum flexibility, commercial paper with a maturity of not more than 90 days may be issued with an effective cost in excess of the effective interest cost from The First National Bank of Boston.

Yankee Atomic requests exception from the competitive bidding requirements of Rule 50 with respect to the proposed issuance and sale of commercial paper pursuant to paragraph (a)(5) thereof on the grounds that the commercial paper to be issued will have maturities of not more than nine months, the current rates for commercial paper for prime borrowers such as Yankee Atomic are readily ascertained by reference to daily financial publications and it is not practical to publish invitations for bids for commercial paper.

The fees and expenses to be incurred by Yankee Atomic in connection with the proposed transactions will be approximately $3,000. It is stated that no state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than December 26, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the declarant at the above-stated address, and proof of service (by affidavit or, in the case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from its rules under the Act as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS, *Secretary.*

[Release No. 34-11889; File No. SR-NASD-75-6]

NATIONAL ASSOCIATION OF SECURITIES DEALERS, INC.

Self-Regulatory Organizations

Pursuant to Section 19(B)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s (b)(1), as amended by Pub. L. No. 94-29, 16 (June 4, 1975) notice is hereby given on December 1, 1975 the abovementioned self regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

1.(a) *Text of Proposed Rule Change.* The following is the full text of the proposed substitution for Schedule C of Article I, Section 2 of the By-Laws of the National Association of Securities Dealers, Inc.

The entire text of Schedule C appearing at Paragraph 1102A pages 1047-52 of the Association's Manual will be deleted. In its place will be substituted the following new language:

SCHEDULE C

This Schedule C has been prepared pursuant to the provisions of Section 2(d) of Article I of these By-Laws and contains qualification standards for membership in the Corporation and the requirements for registration with the Corporation of persons associated with a member, including requirements for qualification examinations to be given. Where applicable, compliance with the provisions of both Parts I and II of this Schedule must be satisfied before registration with, admission to or continuance in membership in the Corporation will be approved.

Part I—Qualification for Membership

Section 1—Principals; Requirements for Applicants for Membership and Existing Members.

(a) Effective (6 months after the active effective date of the Schedule), every member of the Corporation having ten (10) or less persons associated with it shall have at least one such person, and

V 4 0 1 2 3 8
DEC 10 75
XUM

every member of the Corporation having more than ten (10) persons associated with it shall have at least two such persons, who are qualified and registered as principals pursuant to the provisions of Part II, Section 2 hereof. As of the effective date hereof, an applicant for membership in the Corporation shall not be admitted thereto until this requirement is fulfilled.

(b) In the event the registration of a person associated with a member as a principal for purposes of meeting the minimum requirements specified in subsection (a) above is terminated, the member shall no later than six (6) months following the date of termination, cause to be registered with the Corporation at least one (1) person as a Principal in order to remain in compliance with the provisions of subsection (a), provided however, that at all times the member must have one (1) person registered with the Corporation as a Principal.

(c) In the case of an applicant for membership, except an applicant which is subject to the provisions of SEC Rule 15c3–1(a) (2) or (3), each principal required by subsection (a) hereof shall have at least two (2) years' prior experience in either a registered capacity or nonregistered supervisory capacity with a broker-dealer within the preceding five (5) year period from the date of application for membership. With respect to applicants for membership planning to engage in specialized segments of the securities industry such as insurance, real estate or oil and gas direct participation programs, the two (2) year experience requirement for principals registered pursuant to subsection (a) hereof will be satisfied if experience in the industry related to the specialized segment of the securities industry can be demonstrated.

(d) In exceptional cases, where good cause is shown and where such would not be contrary to the public interest, the President of the Corporation or his delegate, upon written request by a member or an applicant for membership, may waive the requirements of subsections (a) or (b) above. The President of the Corporation, or his delegate, upon written request by an applicant for membership, may waive the experience requirements of subsection (c) in exceptional cases where the business background and experience of an individual justify a determination that such an action would not be contrary to the public interest.

Section 2—Financial and Operations Principal; Requirements for Applicants for Membership and Existing Members.

(a) Every applicant for membership who has not been granted an exemption, pursuant to the provisions of subsection (d) hereof, shall register with the Corporation one or more persons associated with it, at least one of whom shall be the firm's chief financial officer, as a Financial and Operations Principal pursuant to the provisions of Part II, Section 2(b) hereof before it may be admitted to membership in the Corporation.

(b) After an applicant has been admitted to membership, it must continue to have at least one registered Financial and Operations Principal, including the firm's chief financial officer, performing the duties of such who has satisfied the requirements of Part II, Section 2(b) hereof.

(c) Every member of the Corporation who has not been granted an exemption pursuant to the provisions of subsection (d) hereof, shall, by (90 days after the effective date of the Schedule), designate as a Financial and Operations Principal those persons associated with it, at least one of whom shall be the firm's chief financial officer, who perform the functions of such as specified in Part II, Section 2(b)(2) hereof. They shall be registered pursuant to the provisions of Part II, Section 2(b) hereof.

(d) A member, or an applicant for membership in the Corporation, may upon written request, be exempted by the President of the Corporation, or his delegate, from the requirement to have a Financial and Operations Principal if:

(1) It has been expressly exempted by the Securities and Exchange Commission from SEC Rule 15c3–1 pursuant to the provisions of paragraph (b)(2) thereof; or,

(2) It is subject to the provisions of SEC Rule 15c3–1(a) (2) or (3).

Section 3—Underwriter Principal; Requirements for New Members and Existing Members. (a) Effective (on a date to be set by the President of the Corporation) every member of the Corporation who participates in underwriting syndications, including the origination or syndication of underwritings, shall register with the Corporation at least one (1) person as an Underwriter Principal pursuant to the provisions of Part II, Section 2(c) of this Schedule.[1]

(b) The provisions of subsection (a) above, do not apply to members who participate as selling group members or as distributors or underwriters of securities of companies registered pursuant to the Investment Company Act of 1940, variable contracts or insurance premium funding programs registered pursuant to the Securities Act of 1933.

Section 4—Pre-Membership Requirements.

(a) Each applicant for membership in the Corporation shall at the time application for membership is made furnish to the District Office of the Corporation in which the applicant has or intends to have its principal place of business:

(1) A copy of the report filed with the Securities And Exchange Commission pursuant to Rule 15b1–2(c) under the Securities Exchange Act of 1934 and any amendment thereto;

(2) A copy of the applicant's written supervisory procedures;

(3) A list of all officers, directors, general partners, employees and any other person who will be associated with the applicant; and,

(4) Such other information and documents as may be deemed necessary by the Corporation in view of the nature of the business activities in which the applicant intends to engage.

(b) Before a broker or dealer shall be admitted to membership in the Corporation the principals of the applicant required by Section 1, 2, and 3 hereof shall personally appear at the District Office of the District in which the applicant has or intends to have its principal place of business for a pre-membership interview in accordance with procedures established by the Corporation. At such interview, the applicant shall demonstrate in accordance with procedures established by the Corporation, and the criteria listed in Section 5(b) hereof, that it is appropriate in the public interest and not inconsistent with the protection of investors for it to be admitted to membership in the Corporation and to conduct the type of business intended. All documentation submitted in connection with the applicant's application and pre-membership interview shall be made part of the applicant's file for subsequent use on appeal if such occurs.

(c) Within thirty (30) days after such pre-membership interview, the applicant shall be notified by the Corporation whether, consistent with the standards of qualification for membership contained in this Schedule C, including those contained in Section 5(b) hereof, its application has been granted, denied, or granted subject to restrictions on its business activities. Such determination shall be in writing and shall set forth the specific grounds upon which the determination is based.

(d) In all cases where restrictions are placed on the business activities of an applicant, the applicant shall, prior to approval of membership by the Corporation, execute an agreement with it accepting and agreeing to abide by the restrictions specified, which with the reasons therefor shall be clearly delineated therein, and agreeing further not to modify or change its business activities in any way inconsistent with such agreement without first notifying and receiving the approval of the Corporation.

(e) Any applicant whose application for membership has been denied, or upon whose business activities restrictions have been imposed, may appeal such to the District Committee for the District in which it has or will have its principal place of business within fifteen (15) days after the Corporation's action. During the pendency of such an appeal (or a review pursuant to subsection (f) hereof) an applicant upon whose business activities restrictions have been imposed may engage in business in a manner consistent with those restrictions without prejudicing its rights on appeal provided it has executed the agreement required by paragraph (d) hereof.

[1] The effective date of this section shall be established by the President of the Corporation on a date not earlier than six (6) months following the publication of an appropriate study outline which shall be prepared as an aid to candidates in their preparation for the Qualification Examination for Underwriter Principal.

(f) The District Committee for the District in which the applicant has or will have its principal place of business shall have the right within twenty (20) days after notification to the applicant of the action taken by the Corporation to call the matter before it for review. In such cases, the Committee shall have the authority to stay any prior determination by the Corporation if it deems such necessary or appropriate.

Section 5—District Committees and Board of Governors; Authority and Criteria for Determining Qualifications for Membership; Hearing Procedures.

(a) In connection with those applicants before it pursuant to Section 4(e) or (f) hereof, each District Committee shall have the authority to determine whether an applicant for membership in the Corporation whose principal place of business is or will be within the District over which that District Committee has jurisdiction, is qualified for membership in the Corporation, whether it is qualified for membership pursuant to restrictions on its business activities, either those previously imposed by the Corporation or others, and whether in any event it is in the public interest to admit the applicant to membership in the Corporation.

(b) A District Committee in reaching its determination as to the qualifications of an applicant for membership in the Corporation, or whether it is qualified with restrictions placed upon its business activities, shall review and consider each of, but not necessarily only, the following aspects of the applicant's business plans to determine as to each, in view of the type of business to be engaged in, their adequacy; their consistency with law and the rules of the Corporation; their consistency with good business practices and business operations based upon the Committee's experience in the investment banking or securities business; their consistency with the applicant's fiduciary obligation to its future customers; and, their consistency with the public interest and the protection of investors:

(1) The nature, source and permanence of the capital of the applicant and the sources of and arrangements for additional capital in case a business need arises;

(2) The applicant's proposed record keeping system;

(3) The applicant's proposed internal procedures, including compliance procedures, from the standpoint of insuring to the extent possible adherence to all applicable laws, rules and regulations; and

(4) The capability of the applicant to properly conduct the type of business intended in view of the:

a. Number, experience and qualifications of the persons associated with or to be associated with the applicant;

b. Facilities which the applicant contemplates having;

c. Arrangements, if any, with banks and clearing corporations, or others, to assist the applicant in the conduct of its securities business; and,

d. Personnel methods and procedures intended for the supervision of persons associated with the applicant and the conduct of the various business activities planned by it.

(c) In connection with an application before a District Committee pursuant to the provisions of Section 4 (e) or (f) hereof, an applicant for membership in the Corporation shall have the right to appear personally before the District Committee to demonstrate its qualifications for membership and to be represented by counsel. A record shall be kept of the proceedings and a transcript shall be taken.

(d) The District Committee, after appearance of the applicant and consideration of its qualifications for membership shall, notwithstanding action previously taken by the Corporation, accept or deny admission of the applicant for membership in the Corporation, or accept the applicant for admission to membership with restrictions on its business activities as deemed appropriate by the Committee, or defer its determination until after submission to it of additional information or documentation demed by it to be necessary to its determination.

(e) The applicant, or a member, shall be notified by mail of the determination of the District Committee. The District Committee's determination shall be in writing and shall set forth, in the case of a denial of membership or an acceptance of membership with restrictions, the specific grounds upon which its determination is made.

(f) All actions of a District Committee in respect to applicants for membership in the Corporation shall be subject to review by the Board of Governors upon application by the applicant for membership filed within fifteen (15) days after the date of notice required by subsection (e) hereof. Upon application to the Board of Governors for review in a case where the District Committee has denied an applicant membership in the Corporation, the applicant shall not be admitted to membership during the pendency of proceedings before the Board of Governors. When admission has been granted subject to restrictions upon an applicant's business activities, the applicant shall be admitted to membership pursuant thereto and will be permitted to engage in business in a manner not inconsistent therewith during the pendency of the appeal without prejudice to any of his rights of appeal if it agrees first to and does execute an agreement with the Corporation in accordance with the provisions of subsection (1) hereof.

(g) In an application for review pursuant to subsection (f) hereof, the applicant may request a hearing before a subcommittee of the Board of Governors. In the absence of such request for hearing, the Board of Governors may require a hearing on its own motion if it deems such action necessary or appropriate. At such hearing the applicant may submit such other relevant evidence, in addition to that already part of the record, which it desires and it shall be entitled to be represented by counsel. A record shall be kept of the proceedings and a transcript shall be taken.

(h) The recommendation of the subcommittee of the Board shall then be submitted to the National Business Conduct Committee at its next meeting which, after review of the matter, will decide upon a recommendation to be made to the Board of Governors. The recommendation of the National Business Conduct Committee will then be submitted to the Board of Governors for action at its next meeting. The hearing subcommittee of the Board (or the National Business Conduct Committee or the Board itself, as the case may be) shall have the right to supplement the record if such is deemed necessary provided the applicant is given the opportunity to comment on such supplementary material prior to a final determination by the Board.

(i) In any proceeding to review any action taken by a District Committee, the Board of Governors, upon consideration of the record before it, may modify such action as it deems necessary or appropriate considering the criteria stated in subsection (b) hereof which criteria shall also govern determinations of the Board of Governors.

(j) An applicant shall be notified of any determination of the Board of Governors on an application for review of any action taken by a District Committee. Such determination shall be in writing and shall set forth the specific grounds upon which its determination is based.

(k) In any case where the applicant feels aggrieved by any action taken by the Board of Governors, it may make application for review to the Securities and Exchange Commission in accordance with Section 19 of the Securities Exchange Act of 1934, as amended.

(l) In any case where restrictions have been placed upon the business activities of an applicant by the Board of Governors or a District Committee, the applicant shall, prior to approval of membership, be required to execute an agreement with the Corporation acquiescing in and agreeing to the restrictions so imposed and agreeing further not to change its business activities in a manner inconsistent therewith without first notifying the Corporation and receiving its approval before admission to and continuance in membership will be declared effective.

Section 6—Removal of Restrictions Imposed.

(a) Any restrictions on the business activities of an applicant may subsequently be removed by the District Committee for the District in which the member currently has its principal place of business, upon an appropriate showing by the member that the factors which gave rise to the imposition of the restrictions have been sufficiently corrected so as to no longer require the continuance of the restrictions for the reasons stated. In doing so, a District Committee shall consider the record which gave rise to the imposition of the restrictions and the criteria governing its determinations contained in Section 5(b) hereof as well as any supplement thereto submitted in

V 40 238 DEC 10 75 XUM

connection with the request for removal of the restrictions.

(b) A member who has requested the removal of restrictions pursuant to Section 6(a) hereof shall be entitled to all of the procedural rights specified in Section 5 (c) through (k) hereof.

Part II—Registration Requirements

Section 1—Registration of Principals.

(a) *Registration Requirements*—All persons associated with a member who are to function as principals shall be registered as such with the Corporation in the category of registration appropriate to the function to be performed as specified in Section 2 hereof. Before their registration can become effective, they shall pass a Qualification Examination for Principals appropriate to the category of registration as specified by the Board of Governors.

(b) *Definition of Principal*—The term "principal" shall mean a person associated with a member who is actively engaged in the management, direction or supervision of the day-to-day activities of the member's investment banking or securities business. Such shall include, but not necessarily be limited to:

(1) Sole proprietors;

(2) Corporate officers and directors who manage, direct or supervise the day-to-day investment banking or securities business of the member;

(3) Partners; and,

(4) Managers of Offices of Supervisory Jurisdiction.

(c) *Requirements for Examination on Lapse of Registration*—Any person whose most recent registration as a principal has been terminated for a period of three (3) or more years immediately preceding the date of receipt by the Corporation of a new application shall be required to pass a Qualification Examination for Principals appropriate to the category of registration as specified in Section 2 hereof.

(d) *Waiver of Requirement to Take Qualification Examination*—In exceptional cases and where good cause is shown the President of the Corporation, or his delegate, upon request by the member, may waive the requirement to take a Qualification Examination. All such requests shall be in writing and signed by a registered principal of the requesting firm. Advanced age, physical infirmity, or experience in fields ancillary to the investment banking or securities business will not individually of themselves constitute sufficient grounds to waive the requirement to take a Qualification Examination. A request for a waiver based only upon the expiration of the three (3) year period since the most recent registration with the Corporation will not be honored. Except where otherwise specified herein, Qualification Examinations required hereby shall be taken and passed by the applicant and the member shall receive notification of such from the Corporation prior to the performance by the applicant of the functions for which he is seeking registration.

(e) *Elevation to Principal Status*—Any person associated with a member as a registered representative whose duties are changed so as to require registration in any principal classification shall, within ten (10) business days thereof, submit a principal elevation form designated by the Board of Governors with the applicable examination fee.[2] The applicant, assuming all prerequisites to the proposed category of registration have been met, shall be allowed a period of ninety (90) calendar days following the change in his duties during which to pass the appropriate Qualification Examination for Principals. If the applicant fails the examination, the elevation form and application will be retained for an additional period of ninety (90) calendar days from the date of the last failure. If the applicant fails to take the examination within the initial ninety (90) calendar day period, a new principal elevation form and examination fee shall be required. In no event may such person function as a principal beyond the initial ninety (90) calendar day period following the change in his duties without having successfully passed the appropriate Qualification Examination. In no event may a person previously unregistered in any capacity applying for principal status function as a principal until fully qualified.

Section 2—Categories of Principal Registration.

(a) *General Securities Principal.*— (1) Each person associated with a member who is included within the scope of Part II, Section 1 hereof, shall be required to register with the Corporation as a General Securities Principal and shall pass an appropriate Qualification Examination before such registration may become effective unless his activities are so limited as to qualify him for one or more of the limited categories of principal registration specified hereafter. A person whose activities in the investment banking or securities business are so limited may, at his discretion, elect to become registered as a General Securities Principal. Each person required to register and qualify as a General Securities Principal subsequent to (on the effective date of Schedule C) must, prior to or concurrent with such registration, become registered pursuant to the provisions of Section 4(a) hereof, as a General Securities Representative.

(2) *Grandfather Clause*—A person who was registered with the Corporation as a principal on or before the effective date of Schedule C, shall not be required to pass a Qualification Examination for General Securities Principal and, except as provided in Part II, section 1(c) hereof, shall be qualified to be registered with the Corporation as a General Securities Principal.

(3) A person registered solely as a General Securities Principal shall not be qualified to function as either a Financial and Operations Principal or as an Underwriter Principal unless he is also qualified and registered as such pursuant to the provisions of subsections (b) and/or (c) hereof.

(b) *Financial and Operations Principal.*—(1) Each person associated with a member not exempted by Part I, Section 2(d) from the requirement to have a Financial and and Operations Principal who is to perform the duties of a Financial and Operations Principal shall be required to register as such with the Corporation and shall pass an appropriate Qualification Examination before such registration may become effective.

(2) *Definition of Financial and Operations Principal*—The term "financial and operations principal" shall mean a person associated with a member whose duties include, but are not necessarily limited to:

a. Final approval and responsibility for the accuracy of financial reports submitted to any duly established securities industry regulatory body;

b. Final perparation of such reports;

c. Supervision of individuals who assist in the preparation of such reports;

d. Supervision of and responsibility for individuals who are involved in the actual maintenance of the firm's books and records from which such reports are derived;

e. Supervision and/or performance of the member's responsibilities under all financial responsibility rules promulgated pursuant to the provisions of the Securities Exchange Act of 1934; or

f. Overall supervision of and responsibility for the individuals who are involved in the administration and maintenance of the firm's back office operations.

(3) *Examination Requirements for Financial and Operations Principals of Existing Members*—Except as provided in paragraph (4) hereof, any person required by the provisions of Part I, Section 2(c) hereof, to be designated as a Financial and Operations Principal shall pass within ninety (90) calendar days of the date of designation as such an appropriate Qualification Examination before such registration shall become effective.

(4) *Exemption From Requirement to Take Financial and Operations Principal Examination*—A person designated pursuant to the provisions of Part I, Section 2(c) hereof, shall not be required to take the Financial and Operations Principal Qualification Examination if:

a. Such person had been performing the functions of a Financial and Operations Principal as defined in subsection (2) hereof on or before September 1 1972; and,

b. Such person is named on an appropriate form designated by the Board of Governors which shall be filed with the Corporation no later than the close of business (90 days from the effective date of Schedule C).[3]

(5) A person registered solely as a Financial and Operations principal shall not be qualified to function in a principal capacity with responsibility over any area of business activity not prescribed in this subsection (d).

(c) *Underwriter Principal.*—(1) Each person associated with a member who is included within the scope of Part II, Section 1 hereof shall qualify and register with the Corporation as Underwriter Principal if his responsibilities include the overall supervision of the origination or syndication activities of the member's underwriting business. In order to qualify for registration as an Underwriter Principal, a person shall have at least two (2) years experience in the origination or syndication of securities underwritings within the five (5) year period immediately preceding the filing of an application for registration as an Underwriter Principal.

(2) The provisions of paragraph (1) above do not apply to a person associated with a member who restricts his activities to matters involving the member's participation in a selling group, generally, or in the distribution or underwriting of shares of companies registered pursuant to the Investment Company Act of 1940, variable contracts or insurance premium funding programs registered pursuant to the Securities Act of 1933.

(3) A person registered solely as Underwriter Principal shall not be qualified to function in a principal capacity with responsibility over any area of business activity not prescribed by this subsection (c).

(4) *Grandfather Clause*—A person associated with a member may be registered as an Underwriter Principal with the Corporation without meeting the requirement to pass a Qualification Examination if:

a. Such person has at least two (2) years experience in the origination or syndication of securities underwritings within the five (5) year period immediately preceding the filing of an application for registration as an Underwriter Principal; and,

b. Such application is received by the Corporation on (a date to be set by the President of the Corporation).

(d) *Limited Principal—Investment Company and Variable Contracts Products.*—(1) Each person associated with a member who is included within the scope of Part II, Section 1 hereof, may register with the Corporation as a Limited Principal—Investment Company and Variable Contracts Products if:

a. his activities in the investment banking and securities business are limited solely to transactions involving securities of companies registered pursuant to the Investment Company Act of 1940 and variable contracts products and insurance premium funding programs registered pursuant to the Securities Act of 1933; and,

b. he passes an appropriate Qualification Examination for Limited Principal—Investment Company and Variable Contracts Products.

(2) A person registered solely as a Limited Principal—Investment Company and Variable Contracts Products shall not be qualified to function in a principal capacity with responsibility over any area of business activity not prescribed in this subsection (d).

(e) *Limited Principal—Direct Participation Programs.*—(1) Each person associated with a member who is included within the scope of Part II, Section 1 hereof, may register with the Corporation as a Limited Principal—Direct Participation Programs if:

a. His activities in the investment banking and securities business is limited solely to Direct Participation Programs as defined in paragraph (3) hereof; and,

b. He passes an appropriate Qualification Examination for Limited Principal—Direct Participation Programs.

(2) A person registered solely as a Limited Direct—Pprincipal Participation Programs shall not be qualified to function in a principal capacity with responsibility over any area of business activity not prescribed in this subsection (e).

(3) *Definition of Direct Participation Programs*—For purposes of this Schedule C, "direct participation programs" shall mean programs which provide for flow-through tax consequences regardless of the structure of the legal entity or vehicle for distribution including, but not limited to, oil and gas programs, real estate programs, agricultural programs, cattle programs, condominium securities, Subchapter S corporate offerings and all other programs of a similar nature, regardless of the industry represented by the program, or any combination thereof. Excluded from this definition are real estate investment trusts, tax qualified pension and profit sharing plans pursuant to Sections 401 and 403(a) of the Internal Revenue Code and individual retirement plans under Section 408 of that Code, tax sheltered annuities pursuant to the provisions of Section 403(b) of the Internal Revenue Code and any company including separate accounts registered pursuant to the Investment Company Act of 1940.

Section 3—Registration of Representatives.

(a) Registration Requirements—Each person associated with a member who is to function as a registered representative shall be registered as such with the Corporation in the category of registration appropriate to the function to be performed as specified in Section 4 hereof. Before his registration can become effective, he shall pass a Qualification Examination for Registered Representatives appropriate to the category of registration as specified by the Board of Governors.

(b) *Definition of Representative*—The term "representative" shall mean a person associated with a member not otherwise required to be registered as a principal, including assistant officers other than principals, who are engaged in the investment banking or securities business for the member. Such shall include but not necessarily be limited to those persons:

(1) Whose duties include the solicitation, sale or trading of securities; or,

(2) With supervisory responsibility over the activities of registered representatives but who are not otherwise required to be registered as principals.

(c) *Requirement for Examination on Lapse of Registration*—Any person whose most recent registration as a registered representative has been terminated for a period of three (3) or more years immediately preceding the date of receipt by the Corporation of a new application shall be required to pass a Qualification Examination for Representatives appropriate to the category of registration as specified in Section 4 hereof unless such person has been continuously registered with the Corporation as a principal.

(d) *Waiver of Requirement to Take Qualification Examination*—In exceptional cases and where good cause is shown, the President of the Corporation, or his delegate, upon request by the member, may waive the requirement to take a Qualification Examination. All such requests shall be in writing, and signed by a registered principal of the requesting firm. Advanced age, physical infirmity or experience in fields ancillary to the investment banking or securities business will not in and of themselves constitute sufficient grounds to waive the requirement to take a Qualification Examination. A request for a waiver based solely upon the expiration of the three (3) year period since the most recent registration with the Corporation will not honored. Except where otherwise specified herein, Qualification Examinations required hereby shall be taken and passed by the applicant and the member shall receive notification from the Corporation prior to the performance by the applicant of the functions for which he is seeking registration.

(e) *Grandfather Clause*—Any person who was registered with the Corporation as a representative on or before September 1, 1974, shall not be required to pass a Qualification Examination for any category of registration specified in Part II, Section 4 and shall automatically be registered as a General Securities Representative subject to the provisions of subsection (c) hereof.[4]

Section 4—Categories of Registration of Representatives.

(a) *General Securities Representative*—Each person associated with a member whose activities in the investment banking or securities business include the solicitation or sale of securities generally or the supervision of General Securities Representatives shall be required to register with the Corporation as a General Securities Representative

[2] The form currently designated for this purpose is PE-3.

[3] The form currently designated for this purpose is Form MD-1.

[4] Since September 1974, the NASD has administered a new comprehensive (Series Seven) Qualification Examination for persons intending to register as General Securities Representatives. To facilitate the transition to this new examination program persons whose applications were submitted prior to September 10, 1974, were administered the older (Series One) Qualification Examination and if taken and passed on or before March 31, 1975, such persons were also registered as General Securities Representatives. Persons making application in one or more of the limited categories of representative registration have and will continue to qualify by passing the Series One Qualification Examination for Registered Representatives until such time as the appropriate specialized examinations are implemented.

V 40 238 DEC 10 75 XUM

unless otherwise required to be registered as a principal. A person whose activities in the investment banking or securities business encompass functions which would only require his registration in one or more of categories (b) through (e) hereof, may at his discretion, be registered as a General Securities Representative.

(b) *Securities Trader Representative*—Each person associated with a member whose activities in the investment banking or securities business are limited solely to exercising discretionary authority in trading securities and/or effecting market making securities transactions in the over-the-counter securities markets for the member shall, unless qualified and registered as a General Securities Representative, be required to register with the Corporation as a Securities Trader Representative if not otherwise required to register as a principal. A person registered solely as a Securities Trader Representative may effect occasional unsolicited buy and sell general securities transactions for the accounts of public customers.

(c) *Investment Company and Variable Contracts Products Representative*—Each person associated with a member whose activities in the investment banking or securities business is limited solely to the solicitation and/or sale of:

(1) Redeemable securities of companies registered pursuant to the Investment Company Act of 1940;

(2) Securities of closed-end companies registered pursuant to Investment Company Act of 1940 during the period of original distribution only; and,

(3) Variable contracts and insurance premium funding programs registered pursuant to the Securities Act of 1933,

shall be required to register with the Corporation as an Investment Company and Variable Contracts Representative, unless qualified and registered as a General Securities Representative. A person registered solely as an Investment Company and Variable Contracts Products Representative may effect occasional unsolicited transactions in general securities for the accounts of public customers.

(d) *Direct Participation Programs Representative*—Each person associated with a member whose activities in the investment banking or securities business are limited solely to the solicitation and/or sale of direct participation programs shall, unless qualified and registered as a General Securities Representative, be required to register with the Corporation as a Direct Participation Programs Representative.

(e) *Real Estate Securities Representative*—Each person associated with a member whose activities in the investment banking and securities business are limited solely to the solicitation and/or sale of any certificate of interest or participation, partnership interest, investment contract or other interest or instrument constituting a security as defined in Section 2(1) of the Securities Act of 1933, or by state law, which represents principally the acquisition, investment or holding or real property or an interest therein (except corporate securities, real estate investment trusts or any other securities of a legal entity which would have a public trading market) shall, unless qualified and registered as either a General Securities Representative or as a Direct Participation Programs Representative, be required to register with the Corporation as a Real Estate Securities Representative.

Section 5—Special Situations.

(a) *Current Registration with SECO.*—(1) Each person associated with a member who was qualified on or before September 1, 1974, to engage directly or indirectly in securities activities with a nonmember broker-dealer as a result of having taken and passed an examination pursuant to the provisions of Section 15(b)(7) of the Securities Exchange Act of 1934, as amended, and Rule 15b8–1 thereunder, more commonly known and hereafter referred to as the SECO examination, or was not required to take the SECO examination because of the exemption provided in Rule 15b8–1 for persons who were broker-dealers or became associated persons prior to July 1, 1963, and has been continuously registered as such since that date shall not be required, in order to become registered as a representative of a member of the Corporation, to take and pass a Qualification Examination for General Securities Representatives unless he has been terminated with the nonmember broker-dealer for three (3) or more years. Each such person shall, however, be required to take and pass an examination based on the Corporation's rules and regulations before he may function as a General Securities Representative with a member. A person who registers with the Corporation in a category other than General Securities Representative shall be required to take and pass an examination based on the Corporation's rules and regulations before he may function as a representative of a member.

(2) Each person associated with a member who has not taken the SECO examination but who has become and was qualified on or before September 1, 1974, pursuant to the provisions of Section 15(b)(7) of the Securities Exchange Act of 1934, as amended, and Rule 15b8–1 thereunder, as a result of acceptance by the Securities and Exchange Commission of a securities examination administered by and for a state securities administration and successfully completed by the applicant, shall be required, unless that state's examination is also accepted by the Corporation, to take the appropriate Qualification Examination for General Securities Representatives unless he has been fully registered pursuant to the referred to Section 15(b)(7) and Rule 15b8–1 for at least one (1) year immediately preceding the receipt of his application for registration as a General Securities Representative by the Corporation. Each such person who is not required to take any Qualification Examination for Registered Representatives because of the one (1) year experience factor shall, however, be required to successfully complete an examination based upon the Corporation's rules and regulations before he may function as a registered representative with a member. A person who registers with the Corporation in a category other than General Securities Representative and who has been fully registered pursuant to the referred to Section 15(b)(7) and Rule 15b8–1 for at least one (1) year immediately preceding the receipt of an application for registration in such category shall be required to take and pass an examination based on the Corporation's rules and regulations before he may function as a representative of a member.

(b) *Foreign Associates.*—(1) *Exemption from Registration and Qualification Examination*—Each person associated with a member who is to function as a foreign associate shall not be required to register with the Corporation and shall be exempt from the requirement to pass a Qualification Examination.

(2) Definition of Foreign Associate—The term "foreign associate" shall mean a person associated with a member:

a. Who is not a citizen, national or resident of the United States or any of its territories or possessions; and,

b. Who will conduct all his securities activities in areas outside the jurisdiction of the United States and will not engage in any securities activities with or for any citizen, national or resident of the United States.

(3) *Requirement of Application for Foreign Associate*—Prior to the time the exemption provided for in subsection (b)(1) hereof may become effective, the following conditions must be met:

a. The member desiring to employ any such person must file with the Corporation a form designated by the Board of Governors certifying that such person meets the criteria contained in subsection (b)(2) hereof;[5]

b. Such person is not subject to any of the prohibitions to registration with the Corporation contained in Article I, Section 2(a) through 2(d) of the By-Laws of the Corporation; and,

c. Service of process for any proceeding instituted by the Corporation in respect to such person may be sent to an address in the United States at an office of the member. The member will be responsible for responding to the Corporation if the individual cannot be served.

(4) *Termination of Employment or Association*—In the event of termination of the employment or association of a foreign associate, the member shall notify the Corporation immediately by filing a notice of termination on a form designated by the Board of Governors.[6]

Section 6—Persons Exempt From Registration.

(a) The following persons associated with a member are not required to be registered with the Corporation:

(1) Persons associated with a member whose functions are solely and exclusively clerical or ministerial;

[5] The form currently designated for this purpose is known as the Application for Classification as a Foreign Associate.

(2) Persons associated with a member who are not actively engaged in the investment banking or securities business;

(3) Persons associated with a member whose functions are related solely and exclusively to the member's need for nominal corporate officers or for capital participation; and,

(4) Persons associated with a member whose functions are related solely and exclusively to:

a. Transactions on a registered national securities exchange and who are registered with such exchange;

b. Transactions in exempted securities as defined in Section 3(a)(12) of the Securities Exchange Act of 1934 (except municipal securities as defined in Section 3(a)(29) of the Act); or,

c. Transactions in commodities.

(b) In every instance where an exemption is applicable, under subsection (a)(3) or (4) of this Section 6, the member must file an exemption request with the Corporation on a form designated by the Board of Governors within ten (10) days of either the date the person becomes associated with the member or the date on which the exemptive provisions become applicable to him.[7]

(c) *Termination of Employment*—In the event of termination of employment of a person granted an exemption from registration by the Corporation, the member must immediately file a notice of termination on a form designated by the Board of Governors.[8]

Section 7—Qualification Examinations and Procedures.

(a) *Study Outlines*—Qualification Examinations for the various categories of principals and representatives specified in this Schedule C shall consist of a series of questions based upon topics contained in study outlines provided by the Corporation, a list of which is available from the Qualifications and Examinations Department.

(b) *Time and Place*—Examinations shall be given at such times and places and under such conditions as shall be prescribed by the Board of Governors.

(c) *Grading Scale*—Examination results shall be reported to member firms on a pass/fail basis only. Failing grades will be accompanied by an analysis of the candidate's performance on the examination. Passing scores assigned to each examination series shall be determined by the Board of Governors, or its designate.

(d) *Procedure Upon Failing Examination*—Applicants who fail an examination may, subject to the payment of the required examination fee and receipt of a new admission certificate, retake such examination up to two (2) times without waiting any specified period of time between attempts. If an examination is failed three (3) times the applicant must wait ninety (90) days before again taking the examination and between each subsequent attempt. A new admission certificate will not be issued in connection with any examination until the proper fee for the examination has been received by the Corporation.

(e) *Assistance During Examination*—An applicant cannot receive assistance while taking the examination. Each applicant shall certify to the Board of Governors that no assistance was given to or received by him during the examination.

(f) *Confidentiality of Examinations*—The Corporation considers all of its Qualification Examinations to be highly confidential. The removal from an examination center, reproduction, disclosure, receipt from or passing to any person, or use for study purposes of any portion of any Qualification Examination, whether of present or past series, or any other use which would compromise the effectiveness of a Qualification Examination and the use in any manner and at any time of the questions or answers of any Qualification Examinations are prohibited and are deemed to be violations of Article III, Section 1, of the Rules of Fair Practice.

(g) *SECO Grace Period*—The President of the Corporation, or his delegate, in the case of a broker-dealer applicant for membership in the Corporation who was previously qualified, and at the time of his application for membership is currently qualified, pursuant to the provisions of Section 15(b)(7) of the Securities Exchange Act of 1934, as amended, and Rule 15b8–1 thereunder, shall have the discretion to grant a grace period of reasonable and stated duration after the effective date of membership of the applicant during which period of time the persons associated with the member who were previously and at the time of their applications are, qualified pursuant to the aforementioned Section 15(b)(7) and Rule 15b8–1 may actively engage in the investment banking or securities business while qualifying as registered representatives and principals; provided, however, the provisions of this subsection shall in no way be construed so as to contravene the minimum qualifications for membership in respect to principals required pursuant to the provisions of Part I of this Schedule C. In no event may the said grace period exceed one (1) years from the effective date of membership of the applicant. If the referred to persons associated with the member do not qualify pursuant to Schedule C by the date of the expiration of the grace period, they shall no longer be permitted to engage in the investment banking or securities business until they qualify thereunder. In no case shall a person not currently qualified under Section 15(b)(7) and Rule 15b8–1 be permitted to act as a representative or principal of the member during the grace period unless he has qualified pursuant to the provisions of Schedule C.

3. *Purpose of Proposed Rule Change.* Part I of the Proposed Amendments to Schedule C deals with the qualification of a firm for membership in the Association. Section 1 thereof specifies the number of qualified registered principals each member is required to have, based on the number of associated persons of the member, and it specifies the experience required for principals of new members. Members with more than ten (10) persons associated with it are required to have at least two (2) registered principals. In the event that the registration of a principal is terminated, the member has six (6) months to register at least one (1) other person as a principal in order to comply with the provisions of the rule.

Section 2 details the requirements for having a Financial and Operations Principal. Under this provision every firm wishing to become a member of the Association, with certain exceptions, shall have at least the individual who is the firm's chief financial officer qualify and register as a Financial and Operations Principal pursuant to the provisions of this rule. Every existing member of the Association shall be required to designate at least the firm's chief financial officer as a Financial and Operations Principal. A firm may choose to register some or all of its principals as Financial and Operations Principals.

Section 3 delineates the requirement that members engaged as participants in underwriting syndications, including the origination or syndication of underwritings, register at least one (1) Underwriter Principal. Excluded from this rule, however, are underwriters or selling group members or distributors of securities registered under the Investment Company Act of 1940 or variable contracts or insurance premium funding programs registered under the Securities Act of 1933.

Section 4(a) establishes certain requirements that must be met by the applicant firm as a prerequisite to membership in the Association. Included in these are the filing of the form required by SEC Rule 15b1–2(c) with the Association, as well as a copy of the applicant's written supervisory procedures, and a list of employees, officers, directors and partners, and such other information as requested by the Association. Subsection (b) of Section 4 establishes the requirement that before a broker or dealer may be admitted to membership, the proposed principals of the firm must personally appear for a pre-membership interview by the Association. At such interview the applicant must demonstrate, through its principals and in accordance with procedures established by the Association and discussed below, that it is in the public interest and not inconsistent with the protection of investors for it to be admitted to membership in the Association

[6] The form currently designated for this purpose is Form T–325.

[7] The form currently designated for this purpose is Form EX–1.

[8] The form currently designated for this purpose is Form T–325.

V 401238 DEC 10 75 XUM

and to conduct the type of business intended. The remaining subsections of Section 4 establish that the applicant shall be notified within thirty (30) days after the pre-membership interview of whether its application has been granted, denied, or granted subject to restrictions on its business activities. The section also establishes a procedure for appeal of an adverse decision with regard to an application for membership to the District Business Conduct Committee and the Board of Governors.

Section 5 establishes those criteria which the District Business Conduct Committee and the Board shall apply in determining an applicant's qualification for membership in the Association. A District Committee is required, pursuant to the provisions of this rule, to review and consider each aspect of the applicant's business plans to determine as to each, in view of the type of business to be engaged in, their adequacy, their consistency with law and the rules of the Association, and their consistency with good business practices and business operations based on the Committee's or Board's experience in the investment banking or securities business. Review of the business plans of the applicant must be conducted to determine their consistency with the applicant's fiduciary obligations to its future customers, and their consistency with the public interest and protection of investors. Specifically enumerated as subjects to be reviewed by the District Business Conduct Committee and the Board are: (1) the nature, source and permanence of the capital of the applicant and the sources of and arrangement for additional capital; (2) the applicant's proposed record-keeping system; (3) the applicant's proposed internal procedures; (4) the capability of the applicant to properly conduct the kind of business intended in view of the number, experience and qualifications of the persons associated with the applicant, the facilities which the applicant contemplates having, arrangements with banks and clearing corporations, or others to assist the applicant in the conduct of its securities business and the personnel methods and procedures intended for supervision of the persons associated with the applicant and the conduct of the various business activities planned by it.

The District Committee's determination as to the admission of the applicant must be in writing and in the case of a denial or acceptance of membership with restrictions, must contain the specific grounds upon which the determination was made. The remainder of Section 5 establishes an appeal procedure by which an applicant aggrieved by the decision of the District Business Conduct Committee may appeal to the Board of Governors, upon consideration of the record before it may modify such action as is deemed necessary or appropriate. An applicant will be notified of the determination of the Board of Governors by a written decision, and may appeal to the Securities and Exchange Commission pursuant to Section 19 of the Securities and Exchange Act of 1934.

Section 6 of Part I provides that any applicant admitted to membership under restrictions as to the type of business activities in which it may engage, may apply for and subsequently have such restrictions removed. In addition, the procedures for doing so and the criteria to be applied are also provided for in this section.

Part II of the proposed amendments to Schedule C embodies the requirement that all persons associated with a member, who are to function as principals or registered representatives, shall be registered as such with the Association in the category of registration appropriate to the functions to be performed by the individual. A principal is defined as a person associated with a member who is actually engaged in the management, direction or supervision of the day-to-day activities of the member's investment banking or securities business. This includes but is not necessarily limited to sole proprietors, corporate officers and directors who manage, direct or supervise the day-to-day investment banking or securities business of the member, partners, and managers of supervisory jurisdiction. Before a registration can become effective, an individual must pass a qualification examination appropriate to that category of registration. Any person whose most recent registration as a principal has been terminated for a period of three (3) or more years immediately preceding the date of the new application will be required to pass a qualification examination for principal in the appropriate category. In exceptional cases, and where good cause is shown, the president of the association or his delegate, upon written request by the member, may waive the requirement to take a qualification examination. Any person associated with a member as a registered representative whose duties have changed so as to require registration in any principal capacity must inform the Association of his elevation and, assuming all prerequisities of the proposed category of registration are met, must pass the qualification examination within ninety (90) calendar days following his change in duties. If the applicant fails the examination the elevation form and application will be retained for an additional ninety (90) days. If the applicant fails to take the examination within the initial ninety (90) day period a new principal and elevation form and examination fee shall be required. In no event may such person function as a principal beyond the initial ninety (90) day period from the change in his duties without having successfully passed the appropriate qualification examination.

Part II, Section 2 delineates the five (5) categories of principal registration and describes in each case when the member firm is required to register individuals in the category. In each case the qualifying standards to be met by the applicant individual in order to be registered within that category are outlined.

Section 3 deals with the general conditions for registration by persons associated with a member as registered representatives, and Section 4 details the five (5) categories of registered representatives. In each case the qualifying standards to be met by the applicant individual in order to be registered within that category are outlined.

Sections 5 and 6 of Part II apply to the registration of individuals in special situations such as a person currently registered with SECO, foreign associates, and persons exempt from registration.

Section 7 contains the procedures for the administration of qualification examinations by the Association.

Appropriate categories of registered principals and registered representatives in Part II of the amendments contain a grandfather clause by which an individual who meets the requirements of the clause shall not be required to pass a qualification examination for that category.

Part II of the proposed amendments of Schedule C, therefore, establishes basic standards of competency, as prerequisites to registration, that must be demonstrated through the successful completion of an appropriate qualification examination, and/or in certain cases, experience. In effect, standards for registration as a person associated with a member, would be made more specific and provision would be made for various categories of registration of principals and registered representatives. The proposed amendments to Schedule C are intended to strengthen the qualification standards for membership in the Association and for registration of individuals, and to restrict the activities of a member in a manner consistent with his demonstrated ability.

4. *Basis Under the Act for Proposed Rule Change.* The statutory basis for the Association to adopt these amendments to Schedule C is extensive.

Section 15A(b) of the Securities Exchange Act of 1934, as amended, provides that an association of brokers and dealers shall not be registered as a national securities association unless the commission determines that such association is so organized and has the capacity to be able to carry out purposes of the Act and to comply, and to enforce compliance by its members and persons associated with its members, with the provisions of the Act.

15A(b)(3) mandates that the rules of the association must provide that any registered broker or dealer may become a member of such association and that any person may become associated with a member. Subsection (b)(6) provides that the rules of the association must be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade and in general to protect investors in the public interest. The rule may not permit unfair discrimination between brokers or dealers and must regulate by virtue of authority conferred by the Act. Subsection (b)(8) provides that the rules of the association must provide a fair procedure for admitting or denying membership to any person seeking membership in the association or barring any person from becoming associated with a member as well as the prohibition or limitation by the Association of any person with respect to access of services offered by the association or a member thereof.

Section 15A(g)(2) provides that a registered securities association may, in the public interest or for the protection of investors, deny membership to any registered broker or dealer or bar from becoming associated with a member, any person who is subject to a statutory disqualification. Section 15A(g)(3)(A) provides that a registered securities association may deny membership or conditionally admit a registered broker dealer if (i) such broker or dealer does not meet standards of financial responsibility or operational capability, or such broker or dealer or any natural person associated with such broker or dealer does not meet standards of training, experience and competence as are prescribed by the rules of the association or (ii) such broker or dealer or person associated with such broker or dealer has engaged and there is a reasonable likelihood he will again engage in acts or practices inconsistent with just and equitable principles of trade. Also, a registered securities association may examine and verify the qualifications of an applicant for membership and/or a natural person wishing to become associated with such an applicant in accordance with procedures established by the rules of the association. Subsection (g)(3)(B) provides further that a registered securities association may bar a natural person from becoming associated with a member or condition the association of a natural person with a member if such natural person (i) does not meet such standards of training, experience, and competence as prescribed by the rules of the association or (ii) has engaged and there is a reasonable likelihood he will again engage in acts or practices inconsistent with just and equitable principles of trade.

Section 15A(h)(2) of the Act provides that in any proceeding by a registered securities association to determine whether a person shall be denied membership or be barred from becoming associated with a member or prohibited or limited with respect to access to services offered by the association or member thereof, the association is required to give notice to such person and give him an opportunity to be heard on the specific grounds for denial, bar, prohibition, or limitation and a written record must be kept. A written decision by the association to deny membership, bar a person from becoming associated with a member, or prohibit or limit a person with respect to access to services offered by the association or member must be supported by a statement setting forth the specific grounds on which the denial, bar, or prohibition or limitation is based.

5. Comments Received from Members, Participants or Others on Proposed Rule Change. Forty-one comment letters were received from the membership on the proposed amendments to Schedule C concerning the registration requirements of principals and representatives. The names and addresses of the respondents, the dates of their letters, summaries of the contents, and the letters will be available for inspection at the Securities and Exchange Commission's Public Reference Room, 1100 L Street NW., Washington, D.C.

6. *Burden on Competition.* The amendments proposed to Schedule C are the direct result of the statutory authorization contained in Section 15A(g) of the Act. This section provides a registered securities association with authority to deny membership or to condition the membership of a firm or an individual because either the financial and operational capability of the firm or the training, experience, and competence of the individual is inadequate or limited. This determination must be the result of an analysis by a self-regulatory organization that it is not in the public interest nor in furtherance of the protection of investors to admit the firm or the individual to membership. Changes to the Act in 1964 and in 1975 specifically authorize these criteria by which a registered securities association may deny or condition membership and the amendments to Schedule C are proposed to strengthen the standards of training, experience and competence that must be met by an individual to be admitted to practice in the industry. The statute specifically authorizes the Assoication to examine and verify the qualifications of an applicant and specifically provides that the Association may demand information from an individual or from a firm to verify the accuracy of statements as to qualification and experience in the industry. Further, the statute mandated and the amendments provide due process protections for the rights of an individual applying for association with a member or a firm applying for membership in the Association. In the event of a limited admission or a denial of admission an opportunity to be heard, a written decision stating the reasons for such a limitation or denial, and a procedure for appeal with the Association to the Securities and Exchange Commission must be and have been provided.

Schedule C then, is the Association's assumption of the responsibility imposed upon it by statute, i.e., to develop criteria in its rules to aid in protecting the investing public by insuring that only qualified individuals and broker/dealers are free to engage in active securities business. For the purpose of complying with the requirement of the Act it is felt that there is no burden placed upon competition as the result of establishing criteria that are to be applied equally to all individuals and firms seeking entrance to the industry. Indeed, competition within the industry is increased and the protection of the public investor is increased by establishing minimum qualification criteria for firms and individuals. Inasmuch as any regulatory proposal is a burden on competition because it restricts activity and establishes entrance standards where previously there were none, the decision to allow the Association to burden competition that far was considered and approved by Congress. Consequently, it is felt any burden on competition imposed by the amendments to Schedule C is necessary and in furtherance of the purposes of the Act.

On or before January 14, 1976, or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the above-mentioned self-regulatory organization consents, the Commission will:

(a) By order approve such proposed rule change, or

(b) Institute proceedings to determine whether the proposed rule change should be disapproved.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the Public Reference Room; 1100 L Street NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before January 9, 1976.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

Dated: December 1, 1975.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

INTERSTATE COMMERCE COMMISSION

[Notice No. 927]

ASSIGNMENT OF HEARINGS

DECEMBER 5, 1975.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after the date of this publication.

MC 106603 Sub 140, Direct Transit Lines, Inc., now being assigned February 2, 1976 (1 day) at Chicago, Illinois; in a hearing room to be designated later.

MC 123407 Sub 245, Sawyer Transport, Inc., now being assigned February 3, 1976 (2 days) at Chicago, Illinois; in a hearing room to be designated later.

MC-C-8307, Pacific Intermountain Express Co.—Investigation and Revocation of Certificates, now being assigned February 5, 1976 (2 days) at Chicago, Illinois; in a hearing room to be designated later.

MC 139527 Sub 2, M.E.M. Enterprises, Inc., now assigned January 21, 1976, at Seattle, Wash., is canceled and reassigned for January 19, 1976 (3 days), at Seattle, Wash.; in a hearing room to be later designated.

MC 141001, B & M Trucking, Inc., now assigned January 19, 1976, at Seattle, Wash., is canceled and application dismissed.

MC 116273 Sub 193, D & L Transport, Inc., now assigned December 12, 1975 at Chicago, Illinois, is canceled and the application is dismissed.

MC 51146 Sub 429, Schneider Transport, Inc., now being assigned February 3, 1976 (1 day), at Chicago, Ill., in a hearing room to be designated later.

MC 29886–317, Dallas & Mavis Forwarding Co., now being assigned February 4, 1976 (1 day), at Chicago, Ill., in a hearing room to be designated later.

MC 140344, Unzicker Trucking Inc., now being assigned February 5, 1976 (2 days), at Chicago, Ill., in a hearing room to be designated later.

MC 78296 Sub 1, Mid-America Coach Lines, Inc., now being assigned February 9, 1976 (1 week), at Chicago, Ill., Chicago Hyatt House, 151 E. Wacker Drive.

MC 133703 Sub 6, Wisconsin Cheese Service, Inc., now assigned January 13, 1976, at St. Paul, Minn., is canceled and application dismissed.

MC 133689 Sub 63, Overland Express, Inc., now being assigned January 13, 1976, at St. Paul, Minn. (1 day), in a hearing room to be later designated.

AB 7 Sub 12, Chicago, Milwaukee, St. Paul, and Pacific Railroad Company Abandonment Between Hopkinton and Jackson Junction in Delaware, Clayton, Fayette and Winneshiek Counties, Iowa, now being assigned February 3, 1976 (2 days), at West Union, Iowa; in a hearing room to be later designated.

MC 123407 Sub 239, Sawyer Transport, Inc., now assigned February 6, 1976 (1 day), at Chicago, Ill.; in a hearing room to be later designated.

MC 30844 Sub 542, Kroblin Refrigerated Xpress, Inc., now being assigned February 9, 1976 (1 day), at Chicago, Ill.; in a hearing room to be later designated.

MC 127042 Sub 160, Hagen, Inc., now being assigned February 12, 1976 (2 days), at Chicago, Ill.; in a hearing room to be later designated.

MOTOR CARRIER INTRASTATE APPLICATIONS

DECEMBER 5, 1975.

The following applications for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the intrastate authority sought, pursuant to Section 206(a)(6) of the Interstate Commerce Act, as amended October 15, 1962. These applications are governed by Special Rule 1.245 of the Commission's Rules of Practice, published in the FEDERAL REGISTER, issue of April 11, 1963, page 3533, which provides, among other things, that protests and requests for information concerning the time and place of State Commission hearings or other proceedings, any subsequent changes therein, any other related matters shall be directed to the State Commission with which the application is filed and shall *not* be addressed to or filed with the Interstate Commerce Commission.

California Docket No. 55896, filed August 27, 1975. Applicant: CALIFORNIA FREIGHTWAYS INC. AND DALZ LINES INC., 746 North Sixth Street, San Jose, Calif. 95108. Applicant's representative: Philip J. Bovero, 500 Phelan Avenue, San Jose, Calif. 95112. Certificate of Public Convenience and Necessity sought to operate a freight service as follows: Transportation of *General commodities*, (1) Between all points and places in the San Francisco Territory as described in Note A. (2) Between all points and places in the Los Angeles Basin Territory as described in Note B (see restriction below). (3) Between all points and places in the San Diego Territory as described in Note C (see restriction below); and (4) Between all points and places on and within 25 miles laterally of the following named highways (see restriction below). (a) Interstate Highway 80 between Oakland and Sacramento, inclusive. (b) State Highway 4 between its intersection with Interstate Highway 80 near Pinole, and Stockton, inclusive. (c) U.S. Highway 101 between San Jose and San Diego, inclusive. (d) State Highway 1 between its intersection with U.S. Highway 101 at Montalvo and Interstate Highway 5 at San Juan Capistranoi. (e) State Highway 118 between its intersection with U.S. Highway 101 near Ventura and Chatsworth, inclusive. f. State Highway 99 between Sacramento and Wheeler Ridge and Interstate Highway 5 between Wheeler Ridge and San Fernando, inclusive, except that carrier, pursuant to this authority shall not serve any point more than five miles easterly of this route between Bakersfield and San Fernando. g. State Highway 33 between Banta and its junction with State Highway 99 near Wheeler Ridge, inclusive. h. U.S. Highway 395 (Interstate Highway 15) between Temecula and San Diego, inclusive; and i. State Highways 33 and 19 between Ventura and Greenfield, inclusive, including the off-route points of Santa Paula and Fillmore.

In performing the service herein proposed, carrier may make use of any and all streets, roads, highways and bridges necessary or convenient for the performance of said service.

Restriction: No service is authorized on shipments originating at and destined to points and places located south of an imaginary line drawn between San Luis Obispo and Bakersfield, except on split delivery shipments when final component destination is north of said imaginary line.

Except that pursuant to the authority herein proposed carrier shall not transport any shipments of: (1) Used household goods, personal effects and office, store and institution furniture, fixtures and equipment not packed in accordance with the crated property requirements set forth in Item 5 of Minimum Rate Tariff 4–B. (2) Automobiles, trucks and buses, Viz.: new and used, finished or unfinished passenger automobiles (including jeeps), ambulances, hearses and taxis; freight automobiles, automobile chassis, trucks, truck chassis, truck trailers, trucks and trailers combined, buses and bus chassis. (3) Livestock, viz.: barrows, boars, bulls, butcher hogs, calves, cattle, cows, dairy cattle, ewes, feeder pigs, gilts, goats, heifers, hogs, kids, lambs, oxen, pigs, rams, sheep, sheep camp outfits, sows, steers, stags, swine or wethers. (4) Liquids, compressed gases, commodities in semiplastic form and commodities in suspension in liquids in bulk, in tank trucks, tank trailers, tank semitrailers or a combination of such highway vehicles. (5) Commodities when transported in bulk in dump trucks or in hopper-type trucks. (6) Commodities when transported in motor vehicles equipped for mechanical mixing in transit. (7) Logs; and (8) Commodities requiring the use of special refrigeration or temperature control in specially designed and constructed refrigerator equipment.

SAN FRANCISCO TERRITORY

San Francisco Territory includes all the City of San Jose and that area embraced by the following boundary: Beginning at the point the San Francisco-San Mateo County Line meets the Pacific Ocean; thence easterly along said County Line to a point one mile west of State Highway 82; southerly along an imaginary line one mile west of and paralleling State Highway 82 to its intersection with Southern Pacific Company right-of-way at Arastradero Road; southeasterly along the Southern Pacific Company right-of-way to Pollard Road, including industries served by the Southern Pacific Company spur line extending approximately two miles southwest from Simla to Permanente; easterly along Pollard Road to W. Parr Avenue; easterly along W. Parr Avenue to Capri Drive; southerly along Capri Drive to Division Street; easterly along Division Street to the Southern Pacific Company right-of-way; southerly along the Southern Pacific right-of-way to the Campbell-Los Gatos City Limits; easterly along said limits and the prolongation thereof to South Bascom Avenue (formerly San Jose-Los Gatos Road); northeasterly along South Bascom Avenue to Foxworthy Avenue; easterly along Foxworthy Avenue to Almaden Road; southerly along Almaden Road to Hillsdale Avenue; easterly along Hillsdale Avenue to State Highway 82; northwesterly along State Highway 82 to Tully Road; northeasterly along Tully Road and the prolongation thereof to White Road; northwesterly along White Road to McKee Road; southwesterly along McKee Road to Capitol Avenue; northwesterly along Capitol Avenue to State Highway 238 (Oakland Road); northerly along State Highway 238 to Warm Springs; northerly along State Highway 238 (Mission Blvd.) via Mission San Jose and Niles to Hayward; northerly along Foothill Blvd. and MacArthur Blvd. to Seminary Avenue; easterly along Seminary Avenue to Mountain Blvd.; northerly along Mountain Blvd. to Warren Blvd. (State Highway 13); northerly along Warren Blvd. to Broadway Terrace; westerly along Broadway Terrace to College Avenue; northerly along College Avenue to Dwight Way; easterly along Dwight Way to the Berkeley-Oakland Boundary Line; northerly along said boundary line to the Campus Boundary of the University of California; westerly, northerly and easterly along the campus boundary to Euclid Avenue; northerly along Euclid Avenue to Marin Avenue; westerly along Marin Avenue to Arlington Avenue; northerly along Arlington Avenue to San Pablo Avenue (State Highway 123); northerly along San Pablo Avenue to and including the City of Richmond to Point Richmond; southerly along an imaginary line from Point Richmond to the San Francisco Waterfront at the foot of Market Street; westerly along said waterfront and shoreline to the Pacific Ocean; southerly along the shoreline of the Pacific Ocean to point of beginning.

NOTE B; LOS ANGELES BASIN TERRITORY

Los Angeles Basin Territory includes that area embraced by the following boundary: Beginning at the point the Ventura County-Los Angeles County Boundary Line intersects the Pacific Ocean; thence northeasterly along said county line to the point it intersects State Highway 118, approximately two miles west of Chatsworth; easterly along State Highway 118 to Sepulveda Boulevard; northerly along Sepulveda Boulevard to Chatsworth Drive; northeasterly along Chatsworth Drive to the corporate boundary of the City of San Fernando; westerly and northerly along said corporate boundary of the City of San Fernando to Maclay Avenue; northeasterly along Maclay and its prolongation to the Los Angeles National Forest Boundary; southeasterly and easterly along the Angeles National Forest and San Bernardino National Forest Boundary to Mill Creek Road (State Highway 38); westerly along Mill Creek Road to Bryant Street; southerly along Bryant Street to and including the unincorporated community of Yucaipa; westerly along Yucaipa Boulevard to Interstate Highway 10; northwesterly along Interstate Highway 10 to Redlands Boulevard; northwesterly along Redlands Boulevard to Barton Road; westerly along Barton Road to La Cadena Drive; southerly along La Cadena Drive to Iowa Avenue; southerly along Iowa Avenue to State Highway 60; southeasterly along State Highway 60 and U.S. Highway 395 to Nuevo Road; easterly along Nuevo Road via Nuevo and Lakeview to State Highway 79; southerly along State Highway 79 to State Highway 74; thence westerly to the corporate boundary of the City of Hemet; southerly, westerly and northerly along said corporate boundary to The Atchison, Topeka & Santa Fe right-of-way; southerly along said right-of-way to Washington Road; southerly along Washington Road through and including the unincorporated community of Winchester to Benton Road; westerly along Benton Road to Winchester Road (State Highway 79) to Jefferson Avenue; southerly along Jefferson Avenue to U.S. Highway 395; southerly along U.S. Highway 395 to the Riverside County-San Diego County Boundary Line; westerly along said boundary line to the Orange County-San Diego County Boundary Line; southerly along said boundary line to the Pacific Ocean; northwesterly along the shoreline of the Pacific Ocean to point of beginning, including the point of March Air Force Base.

NOTE C; SAN DIEGO TERRITORY

The San Diego Territory includes that area embraced by following an imaginary line starting at a point approximately four miles north of La Jolla on the Pacific Coast shoreline running east to Miramar on U.S. Highway 395; thence following an imaginary line running southeasterly to Lakeside on State Highway 67; thence southerly on County Road S 17 (San Diego County) and its prolongation to State Highway 94; easterly on State Highway 94 to Jamul; thence due south following an imaginary line to the California-Mexico Boundary Line; thence westerly along the boundary line to the Pacific Ocean and north along the shoreline to point of beginning. Intrastate, interstate and foreign commerce authority sought.

HEARING: Date, time and place not yet fixed. Requests for procedural information should be addressed to the Public Utilities Commission, State of California, State Building, Civic Center, 455 Golden Gate Avenue, San Francisco, Calif. 94102 and should *not* be directed to the Interstate Commerce Commission.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[FR Doc.75-33258 Filed 12-9-75;8:45 am]

[Notice No. 97]

Motor Carrier Applications and Certain Other Proceedings

DECEMBER 5, 1975.

The following publications include motor carrier, water carrier, broker, freight forwarder and rail proceedings indexed as follows: (1) grants of authority requiring republication prior to certification; (2) notices of filing of petitions for modification of existing authorities; (3) new operating right's applications directly related to and processed on a consolidated record with finance applications filed under Sections 5(2) and 212(b); (4) notices of filing of Sections 5(2) and 210a(b) finance applications; and (5) notices of filing of Section 212(b) transfer applications.

Each applicant (except as otherwise specifically noted) states that there will be no significant effect on the quality of the human environment resulting from approval of its application in compliance with the requirements of 49 C.F.R. § 1100.250.

Protests to the granting of the requested authority must be filed with the Commission on or before January 9, 1976 (unless otherwise specified). Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest should comply with section 247(d) or section 240(c) as appropriate of the Commission's General Rules of Practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and a detailed description of the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one (1) copy of the protest (except for petitions and Finance Dockets under Rule 40 requiring the original and six (6) copies of the protest) shall be filed with the Commission, and a copy shall be served concurrently upon applicant's or petitioner's representative, or applicant or petitioner if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) or section 240(c)(4) of the special

V40N238 DEC 10 75 XUM

rules, and shall include the certification required therein.

No. MC 107583 (Sub-No. 58) (Republication), filed June 24, 1975, and published in the FEDERAL REGISTER issue of July 24, 1975, and republished this issue. Applicant: SALEM TRANSPORTATION CO., INC., 133-03 35th Avenue, Flushing, N.Y. 11354. Applicant's representative: George H. Rosen, 265 Broadway Street, P.O. Box 348, Monticello, N.Y. 12701. An Order of the Commission, Review Board Number 2, dated November 18, 1975, and served November 28, 1975, finds that the present and future public convenience and necessity require operation by applicant, in interstate and foreign commerce, as a *common carrier*, by motor vehicle, over irregular routes, (1) of *passengers and their baggage* in the same vehicle with passengers, in special and charter operations, in nonschedule door-to-door service, limited to the transportation of not more than 11 passengers in any one vehicle, not including the driver thereof and not including children under 10 years of age who do not occupy a seat or seats and (2) of *general commodities* (except classess A and B explosives; household goods as defined by the Commission, articles of unusual value, commodities in bulk, and commodities requiring the use of special equipment) when moving in the same vehicle with passengers restricted against the transportation of passengers or articles weighing more than 100 pounds in aggregate from one consignor at one location during a single day, between Philadelphia, Pa., and points in the Philadelphia, Pa., Commercial Zone as defined by the Commission on the one hand, and, on the other, the Military Ocean Terminal at Bayonne, N.J., and points in the Bayonne, N.J., Commercial Zone as defined by the Commission, that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. The purpose of this republication is to indicate the broadening of the authority herein to include the transportation of general commodities (with the usual exceptions). Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest and in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a Certificate in this proceeding will be withheld for a period of 30 days from the date of publication of the authority actually granted, during which period any proper party in interest may file an appropriate petition for intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced. Pleadings may be tendered with respect to the modification(s) of applicant's grant of authority indicated by the purpose for this republication.

No. MC 133531 (Sub-No. 1) (Republication), filed April 18, 1974, and published in the FEDERAL REGISTER issue of May 31, 1974, and republished this issue. Applicant: WALTHILL TRANSPORTATION CO., A Corporation, Walthill, Nebr. 68067. Applicant's representative: Patrick E. Quinn, 605 South 14th Street, P.O. Box 82028, Lincoln, Nebr. 68501. An Order of the Commission, Review Board Number 2, dated September 18, 1975, and served September 25, 1975, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a *contract carrier* by motor vehicle, over irregular routes, (1) of *sprayer tanks*, from Sioux Falls, S. Dak.; Itasca, Ill.; Albertville, Ala., and Washington Court House, Ohio, to points in Arkansas, Arizona, California, Georgia, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Montana, Mississippi, Missouri, Nebraska, New York, North Dakota, Ohio, Oklahoma, Pennsylvania, South Dakota, Tennessee, Texas, Washington, and Wisconsin; and (2) of pumps, from Memphis, Tenn., to points in Arkansas, Arizona, California, Georgia, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Montana, Mississippi, Missouri, Nebraska, New York, North Dakota, Ohio, Oklahoma, Pennsylvania, South Dakota, Tennessee, Texas, Washington, and Wisconsin, under a continuing contract or contracts with Campbell Manufacturing Company, Inc., of Walthill, Nebr., will be consistent with the public interest and the national transportation policy; that applicant is fit, willing, and able to properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. The purpose of this republication is to indicate the substitution of Washington Court House, Ohio as a destination point. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a Permit in this proceeding will be withheld for a period of 30 days from the date of this publication of the authority actually granted, during which any proper party in interest may file an appropriate petition for intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced. Pleadings may be tendered with respect to the modification(s) of applicant's grant of authority indicated by the purpose for this republication.

No. MC 138018 (Sub-No. 16) (Republication), filed August 2, 1974, and published in the FEDERAL REGISTER issue of September 12, 1974, and republished this issue. Applicant: REFRIGERATED FOODS, INC., 1420 33rd Street, Denver, Colo. 80205. Applicant's representative: Donald L. Stern, 7100 West Center Road, Suite 530, Omaha, Nebr. 68106. An Order of the Commission, Review Board Number 2, dated November 21, 1975, and served November 26, 1975, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a *common carrier* by motor vehicle, over irregular routes, of *meats, meat products, meat by-products, and articles distributed by meat packinghouses*, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from the plant sites and storage facilities of Sigman Meat Company, Inc., located at or near Arvada, Denver, and Brush, Colo., to El Paso, and Lubbock, Tex., and points in New Mexico, restricted to the transportation of shipments originating at Arvada, Brush and Denver, Colo.; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. The purpose of this republication is to indicate expanded service to points in New Mexico, and El Paso, Tex. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a Certificate in this proceeding will be withheld for a period of 30 days from the date of this publication of the authority actually granted, during which period any proper party in interest may file an appropriate petition for intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced. Pleadings may be tendered with respect to the modification(s) of applicant's grant of authority indicated by the purpose for this republication.

No. MC 112539 (Sub-No. 2) (Notice of Filing of Petition for Modification of Certificate), filed September 19, 1975. Petitioner: Perchak Trucking, Inc., 124 South Church Street, Hazleton, Pa. 18201. Petitioner's representative: Kenneth R. Davis, 121 S. Main Street, Taylor Pa. 18517. Petitioner holds a certificate of public convenience and necessity, issued June 27, 1962, authorizing operation as a motor *common carrier*, over irregular routes, of *Scrap metals*, from points in Bradford, Chester, Luzerne, Lackawanna, Schuylkill, Clinton, Centre, Lycoming, Dauphin, Northumberland, Philadelphia, Blair, Lehigh, Northampton, and Columbia Counties, Pa., New York, Steuben, Chemung, Onondaga, and Broome Counties, N.Y., Camden and Mercer Counties, N.J., Baltimore and Frederick Counties, Md., and Baltimore, Md., to points in Allegheny, Cambria, Chester, Philadelphia, Northumberland, Lancaster, Lebanon, Lehigh, Tioga, Dauphin, Montgomery, Berks, Franklin, Montour, Clinton, Lycoming, York, Columbia, Schuylkill, Carbon, Bucks, Blair, Susquehanna, Mifflin, Union, and Northampton Counties, Pa., Cheming, Onondaga, Monroe, Genesee, Niagara, Erie, and Cattaraugus Counties, N.Y., Hudson and Essex Counties, N.J., Cuyahoga and Erie Counties, Ohio, and New Castle

County, Del., restricted against the transportation of scrap metals from points in Lehigh County, Pa., to points in Essex County, N.J. By the instant petition, petitioner seeks to modify the territorial description in the above-described authority by substituting New York, N.Y., as an authorized origin point in lieu of points in New York County, N.Y. Petitioner contends that at the time the original application was filed in this matter, it was intended and believed by applicant and the supporting shipper that New York County, N.Y., encompassed all of New York City. Any interested person or persons desiring to participate in this proceeding may file an original and six copies of his written representations, views, or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 121495 (Sub-No. 6) (Notice of Filing of Petition for Declaratory Order), filed August 28, 1974. Petitioner: ENGLEWOOD TRANSIT COMPANY, a Corporation, Commerce City, Colo. Petitioner's representative: Charles J. Kimball, 2310 Colorado State Bank Building, 1600 Broadway, Denver, Colo. 80202. Petitioner holds a motor *common carrier* Certificate of Registration in No. MC 121495 (Sub-No. 6) issued November 25, 1975, authorizing transportation of (1) *general freight* between Pueblo and Boone, and intermediate points; Pueblo and Coal Creek, and intermediate points; and Pueblo and Beulah, and intermediate points as follows: (a) Commencing at Pueblo, thence on the state highway leading through Vineland and Avondale to Boone; (b) Commencing at Pueblo thence on the public highway to Rock Creek and Beulah; (2) Conduct of a *transfer, moving and general cartage business* from and to Pueblo and to and from all other points in the State of Colorado, subject to the following conditions: (a) For the transportation of commodities other than household goods between points served singly or in combination by scheduled carriers, the applicant shall charge rates which in all cases shall be at least twenty percent in excess of those charged by the scheduled carriers; (b) The applicant shall not operate on schedule between any points; (c) The applicant shall not be permitted, without further authority from the Commission, to establish a branch office or to have any agent employed in any other town or city than Pueblo, for the purpose of developing business.

By the instant petition, petitioner seeks a Commission ruling that the conditions described in (2)(a) and (b) above should not be imposed upon the petitioner when moving in interstate transportation as they are generally contrary to Commission policy, and prohibit shippers from utilizing petitioner's services as an interline or interchange carrier. Petitioner more specifically alleges that condition (2)(a) is subject to the exclusive jurisdiction of the ICC pursuant to Section 216 of the Interstate Commerce Act, *See Rio Grande Motor Way, Inc., Extension*, 111 M.C.C. 715, 716 (1970), and that the State rate restriction does apply to movements of interstate traffic. Petitioner further alleges that condition (2)(b) is subject to ICC jurisdiction with respect to the movement of interstate traffic; and when applied does not protect the operating rights of any other carrier, and only serves to hinder petitioner's operations by interlining and interchanging traffic. Petitioner asserts that condition (2)(b) serves no useful purpose, is unduly restrictive with respect to rendering a complete service as concerns interstate traffic, is impractical and difficult to enforce, serves only to render the operation difficult, and is therefore contrary to the Commission's policies as provided in *Fox-Smythe Transportation Co., Extension*, 106 M.C.C. 1, 58-60 (1967). Any interested person or persons desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

APPLICATIONS UNDER SECTIONS 5 AND 210a(b)

The following applications are governed by the Interstate Commerce Commission's Special Rules governing notice of filing of applications by motor carriers of property or passengers under Sections 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto. (49 C.F.R. 1.240.)

MOTOR CARRIERS OF PROPERTY

Applications for certificates or permits which are to be processed concurrently with application under section 5 governed by special rule 240 to the extent applicable.

No. MC 44523 (Sub-No. 2), filed November 7, 1975. Applicant: RED ARROW TRUCKING CO., a Corporation, 325 Main Street, Belleville, N.J. 07109. Applicant's representative: A. David Millner, 744 Broad Street, Newark, N.J. 07102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, and except dangerous explosives, household goods as defined in *Practices of Motor Common Carriers of Household Goods*, 17 M.C.C. 467, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between points in Bergen, Ocean, Monmouth, Middlesex, Morris, Somerset, Union and Sussex Counties, N.J., on the one hand, and, on the other, points in Nassau County, N.Y. The purpose of this filing is to eliminate the gateway of New York, N.Y.

NOTE.—This application is a gateway elimination request filed pursuant to the Commission's Policy Statement in Ex Parte No. 55 (Sub-No. 8) noticed in the FEDERAL REGISTER issue of December 9, 1974; and is a matter directly related to a transfer application in MC-FC-75556. If a hearing is deemed necessary, applicant does not state a location.

No. MC 120298 (Sub-No. 2), filed November 14, 1975. Applicant: LARRY L. FENNER TRANSPORT, INC., 702 North East St., P.O. Box 420, Kewanee, Ill. 61443. Applicant's representative: Donald W. Smith, Suite 2465, One Indiana Square, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Machinery, machinery parts, agricultural implements, farm machinery and farm tractors*, between points in Illinois and (2) *iron and steel articles and building materials* (except cement), (a) between points in Carroll, Ogle, Whiteside, Lee, Bureau, Marshall, Stark, Knox, Mercer, Rock Island, Warren, and Henderson Counties, Ill. and Laura and Princeville, Ill. and (b) between points in Carroll, Ogle, Whiteside, Lee, Bureau, Marshall, Stark, Knox, Mercer, Rock Island, Warren, and Henderson Counties, Ill. and Laura and Princeville, Ill., on the one hand, and, on the other, points in Illinois.

NOTE.—The purpose of this application is to convert a Certificate of Registration applicant is seeking to acquire to a Certificate of Public Convenience and Necessity. This is a matter directly related to a Section 5(2) proceeding in MC-F-12678 published in the FEDERAL REGISTER issue of November 26, 1975. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C. or Chicago, Ill.

No. MC-F-12680. Authority sought for continuance in control by TRANSPORTATION CONSULTANTS, INC., 6538 Collamer Rd., E. Syracuse, NY 13057, of BARR TRANSPORTATION CORP., also of E. Syracuse, NY 13057, and for acquisition by FREDERIC J. DURKIN, AND JOHN C. DURKIN, JR., all of the above address. Applicants' attorney: J. A. Kundtz, 1100 National City Bank Bldg., Cleveland, OH 44114. Operating rights sought for continuance in control are those for which authority is sought in Docket No. MC-141355, to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: (1)(a) scrap metal, in bulk, in dump vehicles, from points in Massachusetts, Connecticut, and New Hampshire; those in Frederick and Washington Counties, Md.; those in Pennsylvania on and north of Interstate Highway 80; and those in the New York, N.Y., and Philadelphia, Pa. Commercial zones, respectively, as defined by the Commission to Auburn, N.Y.; (b) returned and refused commodities of the same description, in the reverse direction; (2)(a) materials and supplies used in the manufacture of steel billets, reinforcing bar and other merchant bar mill products (except commodities in bulk, in tank vehicles), from the Commercial zones of New York, N.Y. and Philadelphia, Pa., as defined by the Commission, and points in Massachusetts, Pennsylvania, Ohio, West Virginia, to Auburn, N.Y.; (b) returned and refused commodities of the same description, in the reverse direction; and (3)(a) steel billets, reinforcing bar and other merchant bar mill products, from

V 40 N 238 DEC 10 75 XUM

Auburn, N.Y., to points in Connecticut, Massachusetts, Rhode Island, Vermont, New Hampshire, New York, New Jersey, Pennsylvania, Delaware, Maryland, Ohio, West Virginia and the District of Columbia; (b) returned and refused commodities of the same description, in the reverse direction, parts (1), (2), and (3) are under a continuing contract or contracts with Auburn Steel Company, Inc., of Auburn, N.Y.

No. MC–F–12688. Authority sought for purchase by MAINLINER MOTOR EXPRESS, INC., 2002 Madison Street, Omaha, NE., 68107, of a portion of the operating rights of BERNARD KEITH COX, doing business as B.K. COX TRUCKING, Tennant, IA., 51574, and for acquisition by Raymond G. Sallach, Leland D. Sallach and Ronald R. Sallach, all of the Omaha, NE. 68107 address, of control of such rights through the purchase. Applicants' attorney: Robert V. Dwyer, Jr., 300 Continental Building, Omaha, NE., 68102. Operating rights sought to be transferred: Meats, meat products, and meat by-products, and articles distributed by meat packinghouses, as described in sections A and C of Appendix I to the report in Descriptions in Motor Carrier Certificates, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles, and hides), from Omaha, Nebraska to Harlan, Iowa. ---- operate as a *common carrier* in all the States in the United States (except Alaska and Hawaii). Application has not been filed for temporary authority under section 210a(b).

No. MC–F–12689. Authority sought for continuance in control by KANE-MILLER CORP., 555 White Plains Road, P.O. Box 7, Tarrytown, NY 10591, of B & B Packing Transport, Ltd., 4801 W. Cullom Ave., Chicago, IL 60641, and for acquisition by DANIEL KANE, also of Tarrytown, NY 10591. Applicants' attorney: J. Michael May, Suite 400, 1447 Peachtree St., NE., Atlanta, GA 30309. Operating rights sought for continuance in control are those for which authority is sought in Docket No. MC 141054 (Sub-No. 2), to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: Meat and packinghouse products from Chicago, Ill., to points in the United States (except Alaska and Hawaii), under a continuing contract with B & B Packing Company, located at Chicago, Ill.

No. MC–F–12690. Authority sought for merger by ET&WNC TRANSPORTATION COMPANY, 132 Legion Street, Johnson City, TN., 37601, of the operating rights and property of ET&WNC TRANSPORTATION COMPANY of ARKANSAS, also of the Johnson City TN., 37601. Applicants' attorney: Russell R. Sage, Suite 400 Overlook Office Building, 6121 Lincolnia Road, Alexandria, VA., 22312. Operating rights sought to be merged: General commodities, with exceptions as a common carrier over regular routes between Pine Buff, Ark., and the Arkansas-Louisiana State Line, between Lake Village, Ark., and Greenville, Miss., between junction U.S. Highway 65 and 165 over U.S. Highway 165 to junction U.S. Highway 82 and thence over U.S. Highway 82 to West Crossett, and return over the same route, between Pine Bluff, Ark., and Warren, Ark., between Little Rock, Ark., and Pine Bluff, Ark., serving all intermediate points, and the off-route point of Baldwin, Ark., between Pine Bluff, Ark. and West Monroe, La., serving Bastrop, La. and Monroe, La. as intermediate points and also serving Greenville, Miss., and points in that part of Arkansas bounded by a line beginning at Pine Bluff, Ark., and extending along the southeast bank of the Arkansas River to the west bank of the Mississippi River thence along the west bank of the Mississippi River to the Arkansas-Louisiana State Line, thence along the Arkansas-Louisiana State line to the east bank of the Quachita River (approximately five miles east of Huttig, Ark.), thence along the east bank of the Quachita River to Morobay, Ark., and thence along Arkansas Highway 15 to point of beginning as intermediate or off-route points, from Memphis, Tennessee, over U.S. Highway 70 (Interstate Highway 40) to junction Arkansas Highway 11, thence over Arkansas Highway 11 to junction U.S. Highway 79, thence over U.S. Highway 79 to Pine Bluff, Arkansas, thence over U.S. Highway 65 to junction Arkansas Highway 81, thence over Arkansas Highway 81 to the Arkansas-Louisiana State line, thence over Louisiana Highway 139 to junction U.S. Highway 165 at Bastrop, Louisiana.

Thence over U.S. Highway 165 to Monroe, Louisiana, thence over U.S. Highway 80 to West Monroe, Louisiana, and return over the same route, between Pine Bluff, Ark., and Fort Worth, Texas, serving the intermediate point of Dallas, Tex., between Pine Bluff, Ark., and Hazen, Ark., with restrictions; *general commodities*, with exceptions between Pine Bluff, Ark., and Memphis, Tenn., between Pine Bluff, Ark., and the Pine Bluff Municipal Airport, Ark., between Pine Bluff, Ark., and the site of Lock and Dam No. 3 on the Arkansas River (near Swan Lake, Ark.), between Pine Bluff, Ark., and the site of Lock and Dam No. 4 on the Arkansas River (near Swan Lake, Ark.), between Tudora, Ark., and Mer Rouge, La., serving all intermediate points and all off-route points located within 10 miles of such highways and Pioneer and Epps, La., between junction U.S. Highway 65 and Louisiana Highway 2 and Lake Providence, La., serving all intermediate points and all off-route points located with 10 miles of such highway, serving Sterlington, La., as an off-route point in connection with carriers' authorized regular-route operations between Pine Bluff, Ark., and West Monroe, La., *seed, newsprint, paper, paper bags*, and *paper cups*, from Memphis, Tenn., to Altheimer, Ark., *rice and rice products*, from Stuttgart, Ark., to Memphis, Tenn.; *general commodities*, with exceptions as a *common carrier* over irregular routes between Little Rock, Ark., on the one hand, and, on the other, points in Arkansas not including Pine Bluff, bounded by a line commencing at Pine Bluff, Ark., and extending along the southeast bank of the Arkansas River to the west bank of the Mississippi River.

Thence along the west bank of Mississippi River to the Arkansas-Louisiana State line, thence along the Arkansas-Louisiana State line to the east bank of the Ouachita River (approximately five miles east of Huttig, Ark.), thence along the east bank of the Ouchita River to Morobay, Ark., and thence along Arkansas Highway 15 to the point of beginning, between Pine Bluff, Ark., and the site of the United States Arsenal Plant at Baldwin, Ark., (located approximately seven miles north of Pine Bluff), on the one hand, and, on the other, points in the Arkansas destination territory specified immediately above, between Greenville, Miss., on the one hand, and, on the other, Little Rock, Pine Bluff, and the site of the U.S. Arsenal Plant, at Baldwin, Ark., and points in that part of Arkansas bounded by a line beginning at Pine Bluff, Ark., and extending along the southeast bank of the Arkansas River to the west bank of the Mississippi River, thence along the west bank of the Mississippi River to the Arkansas-Louisiana State line to the east bank of the Ouachita River (about five miles east of Huttig, Ark.,), thence along the east bank of the Ouachita River to Morobay, Ark.

Vendee is authorized to operate as a *common carrier* in all the States in the United States (except Hawaii). Application has been filed for temporary authority under section 210a(b).

NOTICE

SOUTHERN RAILWAY COMPANY, P.O. Box 1808, Washington, D.C. 20013, represented by Mr. R. Allen Wimbish of the same address, hereby gives notice, that on the 14th day of November, 1975, it filed with the Interstate Commerce Commission, at Washington, D.C., an application under Section 5(2) of the Interstate Commerce Act for authority to continue operations over a line of railroad between Columbus, Mississippi, including joint facility tracks at Columbus, and the Alabama-Mississippi State line, pursuant to an agreement dated March 7, 1975, with Columbus and Greenville Railway Company, which application was assigned Finance Docket No. 28044.

The proposed transaction involves (1) the continued use exclusively by Southern of the Columbus and Greenville Railway Company line in Lowndes County, Mississippi, from the Alabama-Mississippi State line southwestwardly to the "Yard Limit" board in Columbus, Mississippi, a distance of approximately 9.758 miles, and (2) the continued joint use by Southern with the Columbus and Greenville Railway Company of approximately 1.7 miles of tracks in Columbus, Mississippi, consisting of the Columbus and Greenville Railway main and three yard tracks situated generally between said Yard Limit board and Seventh Avenue. Southern presently operates over the described line and tracks pursuant to an agreement dated April 12, 1926, which is being formally extended, with the Columbus and Greenville Railway also substituted as the new owner thereof, by agreement dated March 7, 1975.

In the opinion of the applicant, the granting of the authority sought will not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969. In accordance with the Commission's regulations (49 C.F.R. 1100.250) in Ex Parte No. 55 (Sub-No. 4), *Implementation—Nat'l. Environmental Policy Act*, 1969, 340 I.C.C..431 (1972), any protests may include a statement indicating the presence or absence of any effect of the requested Commission action on the quality of the human environment. If any such effect is alleged to be present, the statement shall include information relating to the relevant factors set forth in Ex Parte No. 55 (Sub-No. 4), *supra*, Part (b)(1)–(5), 340 I.C.C. 431, 461.

The proceeding will be handled without public hearings unless protests are received which contain information indicating a need for such hearings. Any protests submitted shall be filed with the Commission no later than 30 days from the date of first publication in the FEDERAL REGISTER.

SOUTHERN RAILWAY COMPANY

KYLE RAILWAYS, INC. and NEW BELLEFONTE CENTRAL RAILROAD COMPANY, Delaware corporations, Room 205, World Trade Center, San Francisco, California 94111, represented by Messrs, John R. Sims, Jr., and John L. Boyd, Jr., Joyner, Goff, Sims & Cloud, P.C., 915 Pennsylvania Building, 425 13th Street NW., Washington, D.C. 20004, hereby gives notice that, on the 20th day of November, 1975, they filed with the Interstate Commerce Commission at Washington, D.C., a joint application under Section 5(2) of the Interstate Commerce Act for an order approving and authorizing the purchase by Kyle Railways, Inc., the parent, and New Bellefonte Central Railroad Company, of certain properties of Bellefonte Central Railroad Company, a Pennsylvania corporation, which application was assigned Finance Docket No. 28054.

Properties sought to be purchased include approximately 4.8 miles of operating rail track and branch line extending between Bellefonte and a point near Chemical in Centre County, Pennsylvania, rail operating facilities and some 13.3 miles of trackage between Chemical and State College, Pennsylvania, authorized to be abandoned by the Interstate Commerce Commission in Docket No. AB–96 (Sub-No. 1), also located in Centre County.

In the opinion of the applicants, the granting of the authority sought will not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy of 1969. In accordance with the Commission's regulations (49 C.F.R. 1100.250) in Ex Parte No. 55 (Sub-No. 4), *Implementation—Nat'l. Environmental Policy Act, 1969*, 340 I.C.C. 431 (1972), any protests may include a statement indicating the presence or absence of any effect of the requested Commission action on the quality of the human environment. If

V40238 DEC 10 75 XUM

any such effect is alleged to be present, the statement shall include information relating to the relevant factors set forth in Ex Parte No. 55 (Sub-No. 4), *supra*, Part (b)(1)–(5), 340 I.C.C. 431, 461.

The proceeding will be handled without public hearings unless protests are received which contain information clearly indicating a need for such hearings. Any protests submitted shall be filed with the Commission no later than 30 days from the date of first publication in the FEDERAL REGISTER.

KYLE RAILWAYS, INC. AND NEW BELLEFONTE RAILROAD COMPANY

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[Notice No. 135]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

DECEMBER 10, 1975.

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to Sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 C.F.R. Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before December 30, 1975. Pursuant to Section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC–FC–76120. By order of December 4, 1975 the Motor Carrier Board approved the transfer to Vernon Bain, Waco, Texas, of Permits No. MC–117941 and No. MC–117941 (Sub-No. 2), issued September 18, 1959 and October 19, 1964, respectively, to W. A. Jones, Waco, Texas. Permit No. MC–117941 authorizes the transportation of bananas, from New Orleans, La., to Waco, Tex., and Permit No. MC–117941 (Sub-No.) authorizes the transportation of bananas, from Galveston and Houston, Tex., to Waco, Tex. William D. Lynch, P.O. Box 912, 1003 W. 6th Street, Austin, Tex. 78703 Attorney for applicants.

No. MC–FC–76213. By order entered December 4, 1975 the Motor Carrier Board approved the transfer to Mobile Transport Systems, Inc., Wausau, Wisconsin, of the operating rights set forth in Certificates Nos. MC–127777 (Sub-No. 1), MC–127777 (Sub-No. 12), MC–127777 (Sub-No. 13), MC–127777 (Sub-No. 14), and MC–127777 (Sub-No. 18), issued by the Commission October 25, 1972, September 14, 1972, January 3, 1972, June 28, 1972, and April 5, 1973, respectively, to Mobile Home Express, Inc., Wausau, Wis. authorizing the transportation of mobile homes and trailers designed to be drawn by passenger automobiles; from specified points in Wisconsin and Iowa, to points in the United States (including Alaska, but excluding Hawaii). Nancy J. Johnson, 4506 Regent St., Madison, Wis. 53705, attorney for applicants.

No. MC–FC–76225. By order of December 4, 1975 the Motor Carrier Board approved the transfer to Safeway Van Corp., Bronx, N.Y., of Certificate No. MC–91461 issued by the Commission February 2?, 1941, to Aubrey N. LaFrance, doing business as LaFrance Express Co., Bronx, N.Y., authorizing the transportation of household goods between New York, N.Y., on the one hand, and, on the other, points in Connecticut, Maryland, Massachusetts, New Jersey, Pennsylvania, Vermont, Virginia, and New York. Alvin Altman, Esquire, Brodsky, Linett and Altman, 1776 Broadway, New York, NY 10019.

No. MC–FC–76227. By order of December 4, 1975 the Motor Carrier Board approved the transfer to Detherage Freight Line, Inc., Somerset, Ky., of Certificate of Registration No. MC–120163 Sub-No. 1 issued by the Commission December 20, 1965 to D. J. Detherage, doing business as Detherage Freight Line, Somerset, Ky., evidencing authority to perform a transportation service in interstate or foreign commerce corresponding in scope to the intrastate authority in the Certificate of Convenience and Necessity No. 857 dated January 1, 1962, issued by the Depatment of Motor Transportation of the Commonwealth of Kentucky. Louis J. Amato, Esquire, Nader & Amato, P.O. Box E, Bowling Green, Ky. 42101.

[Notice No. 136]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

DECEMBER 4, 1975.

The following are notices of filing of applications for temporary authority under Section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 C.F.R. § 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the FEDERAL REGISTER publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the Federal Register. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the I.C.C. Field Office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 45736 (Sub-No. 49TA), filed November 25, 1975, Applicant: GUIGNARD FREIGHT LINES, INC., P.O. Box 26067, Highway 21 North, Charlotte, N.C. 28213. Applicant's representative: Edward G. Villalon, 1032 Pennsylvania Bldg., Pennsylvania Ave. and 13th St., N.W., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Roofing, roofing materials, siding and siding materials*, from Charleston, S.C., to points in Alabama, and points in Florida west of the Apalachicola River, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Bird and Son, Inc., Washington St., E. Walpole, Mass. 02032. Send protests to: Terrell Price, District Supervisor, 800 Briar Creek Road, Room CC516, Mart Office Bldg., Charlotte, N.C. 28205.

No. MC 88594 (Sub-No. 28TA), filed November 24, 1975. Applicant: CARLETON G. WHITAKER, INC., P.O. Box 93, Route 17, Deposit, N.Y. 13754. Applicant's representative: Martin Werner, 2 West 45th St., New York, N.Y. 10036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bakery products*, in vehicles equipped with mechanical refrigeration, from Wayne Township (Passaic County), N.J., to Jamestown, N.Y.; (moving in conjunction with presently authorized stop-off loads to Buffalo and Rochester, N.Y.), for 180 days. Supporting shipper: Drake Bakeries, Division of Borden, Inc., 75 Demarest Drive, Wayne, N.J. 07470. Send protest to: Robert A. Radler, District Supervisor, 518 Federal Bldg., Maiden Lane and Broadway, Albany, N.Y. 12207.

No. MC 99610 (Sub-No. 21TA), filed November 18, 1975. Applicant: ROSS NEELY EXPRESS, INC., 1500 Second St., Pratt City, Birmingham, Ala. 35214. Applicant's representative: Richard S. Richard, 57 Adams Ave., P.O. Box 2069, Montgomery, Ala. 36103. Authority sought to operate a *common carrier*, by motor vehicle, over

regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment); (1) between Gadsden, Ala., and Atlanta, Ga., serving all points within 15 miles of Atlanta, Ga., as off-route points; from Gadsden, Ala., over U.S. Highway 278 to Atlanta, Ga., and return over the same route, serving all intermediate points in Alabama and serving all points within 15 miles of Atlanta, Ga., as off-route points; (2) between intersection U.S. Highway 78 and U.S. Highway 431, in Alabama, and Atlanta, Ga.; from the intersection of U.S. Highway 78 and U.S. Highway 431, in Alabama, over U.S. Highway 78 to Atlanta, Ga., and return over the same route, serving all intermediate points in Alabama; (3) between intersection of Interstate Highway 20 and U.S. Highway 431, in Alabama, and Atlanta, Ga.; from the intersection of Interstate Highway 20, and U.S. Highway 431, in Alabama, over Interstate Highway 20 to Atlanta, Ga., and return over the same route, serving all intermediate points in Alabama; (4) between intersection of U.S. Highway 29, and Interstate Highway 85, in Alabama, and Atlanta, Ga.; from the intersection of U.S. Highway 29 and Interstate Highway 85, in Alabama, over Interstate Highway 85 to Atlanta, Ga., and return over the same route, serving all intermediate points in Alabama; from the intersection of U.S. Highway 29 and Interstate Highway 85 in Alabama, over U.S. Highway 29 to Atlanta, Ga., and return over the same route, serving all intermediate points in Alabama.

In conjunction with paragraphs 1 through 4, applicant proposes to serve all points in Alabama not on applicant's existing regular route north of the southern boundaries of Russell, Bullock, Pike, Crenshaw, Butler, Wilcox, Clarke, and Choctaw Counties; also, Dothan, Andalusia and Mobile County, Ala., and points in that part of Baldwin County, Ala., described as beginning at Stockton, Ala., thence south along Alabama Highway 59 to junction Baldwin County Highway 64; thence in a westerly direction along Baldwin County Highway 64 to junction Baldwin County Highway 27; thence southerly along Baldwin County Highway 27 to junction U.S. Highway 98, thence west and north along U.S. Highway 98 to junction Baldwin-Mobile County line to the closest point in Chastang, Ala., thence over the imaginary line from Chastang to Stockton, Ala., on the one hand, and, on the other, all points in Alabama north of the southern boundaries of Russell, Bullock, Pike, Crenshaw, Butler, Wilcox, Clark and Choctaw Counties, Ala., as off-route points. Applicant proposes to serve all points within 15 miles of Atlanta, Ga., as off-route points in conjunction with paragraphs 1 through 4. Ross Neely Express, Inc., now holds regular route authority in Alabama and Mississippi. The authority sought in the instant application will be tacked with existing authority of Ross Neely Express, Inc. Neely intends to interline traffic at all points at which Neely maintains concurrences for interchanging traffic, including, but not limited to, Birmingham, Mobile, Montgomery, Decatur, Gadsden, Anniston, Florence, and Dothan, Ala., and Atlanta, Ga., for 180 days. Supporting shippers: There are approximately 316 statements of support attached to the application, which may be examined at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: Clifford W. White, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 1616, 2121 Bldg., Birmingham, Ala. 35203.

No. MC 108633 (Sub-No. 12TA), filed November 17, 1975. Applicant: BARNES FREIGHT LINE, INC., P.O. Box 800, Carrollton, Ga. 30117. Applicant's representative: Frank D. Hall, Suite 713, 3384 Peachtree Road, N.E., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except commodities in bulk, those requiring special equipment because of size or weight, Classes A and B explosives, and household goods as defined by the Commission), over regular routes: (1) between Birmingham, Ala., and Atlanta, Ga., serving all points within 15 miles of Atlanta as off-route points; from Atlanta over U.S. Highway 41 to its junction with U.S. Highway 411, thence via U.S. Highway 411 to Rome, Ga., thence via Georgia State Highway 20 and Alabama State Highway 9 to Centre, Ala., thence via Alabama State Highway 68 and U.S. Highway 411 to Gadsden, Ala., thence via Interstate Highway 59 to Birmingham, Ala., and return over the same route, serving all intermediate points; (2) between Rome, Ga., and Centre, Ala.; from Rome, Ga., over U.S. Highway 27 to its junction with U.S. Highway 411, thence via U.S. Highway 411 to Centre, Ala., and return over the same route, serving all intermediate points; (3) between Gadsden, Ala., and Atlanta, Ga., serving all points within 15 miles of Atlanta, Ga., as off-route points; from Atlanta over U.S. Highway 78 to its junction with U.S. Highway 278, thence via U.S. Highway 278 to Gadsden, Ala., and return over the same route, serving all intermediate points; (4) between Mobile, Ala., and Atlanta, Ga., serving all points within 15 miles of Atlanta, Ga., as off-route points; from Atlanta via Interstate Highway 85 to its junction with U.S. Highway 29, thence via U.S. Highway 29 to its junction with Interstate Highway 85, thence via Interstate 85 to Montgomery, Ala., thence via Interstate Highway 65 to Mobile, Ala., and return over the same route, serving all intermediate points;

(5) Between Montgomery, Ala., and Dothan, Ala.; from Montgomery over U.S. Highway 231 to Dothan, Ala., and return over the same route, serving all intermediate points; (6) between Montgomery over U.S. Highway 31 to its junction with Alabama State Highway 55, thence via Alabama State Highway 55 to Andalusia, Ala., and return over the same route, serving all intermediate points; (7) between Montgomery, Ala., and Andalusia, Ala.; from Montgomery over Alabama State Highway 55 to Andalusia, Ala., and return over the same route, serving all intermediate points; (8) between Birmingham, Ala., and Montgomery, Ala.; from Birmingham over U.S. Highway 31 to Montgomery, Ala., and return over the same route, serving all intermediate points; (9) between Birmingham, Ala., and Montgomery, Ala.; from Birmingham over Interstate Highway 65 to Montgomery, Ala., and return over the same route, serving all intermediate points; (10) between Montgomery, Ala., and the Alabama-Mississippi State line; from Montgomery over U.S. Highway 80 to the Alabama-Mississippi State line, and return over the same route, serving all intermediate points; (11) between Selma, Ala., and Mobile, Ala.; from Selma over Alabama State Highway 22 to its junction with Alabama State Highway 5, thence via Alabama State Highway 5 to its junction with U.S. Highway 43, thence via U.S. Highway 43 to Mobile, Ala., and return over the same route, serving all intermediate points; (12) between Demopolis, Ala., and junction Alabama State Highway 5 and U.S. Highway 43; from Demopolis over U.S. Highway 43 to its junction with Alabama State Highway 5 at or near Thomasville, Ala., and return over the same route, serving all intermediate points; (13) between Birmingham, Ala., and the Alabama-Mississippi State line; from Birmingham over U.S. Highway 11 to the Alabama-Mississippi State line, at or near York, Ala., and return over the same route, serving all intermediate points.

(14) Between Birmingham, Ala., and the Alabama-Mississippi State line; from Birmingham over U.S. Highway 11 to its junction with Interstate Highways 20–59, thence via Interstate Highways 20–59 to its junction with U.S. Highway 82 at or near Tuscaloosa, Ala., thence via U.S. Highway 82 to the Alabama-Mississippi State line, and return over the same route, serving all intermediate points; (15) between Montgomery, Ala., and Florence, Ala.; from Montgomery via U.S. Highway 82 to its junction with U.S. Highway 32 at or near Tuscaloosa, Ala., thence via U.S. Highway 43 to its junction with U.S. Highway 278, thence via U.S. Highway 278 to its junction with Alabama State Highway 5, thence via Alabama State Highway 5 to its junction with U.S. Highway 43, thence via U.S. Highway 43 to Florence, Ala., and return over the same route, serving all intermediate points; (16) between Birmingham, Ala., and the Alabama-Mississippi State line; from Birmingham over U.S. Highway 78 to the Alabama-Mississippi State line and return over the same route, serving all intermediate points; (17) between Guin, Ala., and the Alabama-Mississippi State line; from Guin over U.S. Highway 278 to the Alabama-

V40I238 DEC 10 75 XUM

Mississippi State line, and return over the same route, serving all intermediate points; (18) between Birmingham, Ala., and Decatur, Ala.; from Birmingham over Interstate Highway 65 to its junction with U.S. Highway 31, thence via U.S. Highway 31 to Decatur, Ala., and return over the same route, serving all intermediate points; (19) between Birmingham, Ala., and the Alabama-Tennessee State line; from Birmingham via Interstate Highway 65 to the Alabama-Tennessee State line, and return over the same route, serving all intermediate points; (20) between Huntsville, Ala., and Florence, Ala.; from Huntsville over U.S. Highway 72 and Alternate U.S. Highway 72 to Florence, Ala., and return over the same route, serving all intermediate points; (21) between Birmingham, Ala., and Huntsville, Ala.; from Birmingham over Alabama State Highway 79 to its junction with U.S. Highway 231 at or near Arab, Ala., thence via U.S. Highway 231 to Huntsville, Ala., and return over the same route, serving all intermediate points.

(22) Between Birmingham, Ala., and the Alabama-Tennessee State line; from Birmingham over Interstate Highway 59 to its junction with Alabama State Highway 75, thence via Alabama State Highway 75 to its junction with U.S. Highway 431 at or near Albertsville, Ala., thence via U.S. Highway 431 to its junction with U.S. Highway 72 at or near Guntersville, Ala., thence via U.S. Highway 72 to the Alabama-Tennessee State line, and return over the same route, serving all intermediate points; (23) between Guntersville, Ala., and Huntsville, Ala.; from Guntersville over U.S. Highway 431 to Huntsville, Ala., and return over the same route, serving all intermediate points; (24) between Birmingham, Ala., and Phoenix City, Ala.; from Birmingham over U.S. Highway 280 at or near Opelika, Ala., thence via U.S. Highways 280–431 to Phoenix City, Ala., and return over the same route, serving all intermediate points; (25) between Opelika, Ala., and Anniston, Ala.; from Opelika over U.S. Highway 431 to its junction with U.S. Highway 78, thence via U.S. Highway 78 to Anniston, Ala., and return over the same route, serving all intermediate points; (26) between Dothan, Ala., and Mobile, Ala.; from Dothan over U.S. Highway 84 to its junction with Alabama State Highway 87 at or near Elba, Ala., thence via Alabama State Highway 87 to Opp, Ala., thence via U.S. Highway 29 to its junction with Alabama State Highway 41 at or near Brewton, Ala., thence via Alabama State Highway 41 to its junction with U.S. Highway 31 at or near Brewton, Ala., thence via U.S. Highway 31 to its junction with Alabama State Highway 21 at or near Atmore, Ala., thence via Alabama State Highway 21 to its junction with Interstate Highway 65, thence via Interstate Highway 65 to Mobile, Ala., and return over the same route, serving all intermediate points; (27) Authority is also sought to serve all points other than those described in the above routes in the state of Alabama as off-route points in connection with the above described regular routes; (28) Authority is also sought to tack or join the authority sought where possible so as to provide service throughout the territory described in paragraphs (1) through (27) above.

(29) Authority is also sought to tack or combine the above authority with authority presently held by applicant in Docket No. MC 108633 and subs thereto and to interline with all carriers at Mobile, Dothan, Montgomery, Tuscaloosa, Gadsden, Birmingham, Anniston, Florence, and Huntsville, Ala., and Atlanta and Rome, Ga., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shippers: There are approximately 54 statements of support attached to the application which may be examined at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: William L. Scroggs, District Supervisor, Interstate Commerce Commission, 1252 W. Peachtree St., N.W., Room 546, Atlanta, Ga. 30309.

No. MC 110525 (Sub-No. 1138TA), filed November 26, 1975. Applicant: CHEMICAL LEAMAN TANK LINES, INC., 520 E. Lancaster Ave., Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Salt cake*, in bulk, in tank vehicles, from Belvidere, N.J., to Tonawanda, N.Y., for 180 days. Supporting shipper: Prior Chemical Corporation, 420 Lexington Ave., Room 1718, New York, N.Y. 10017. Send protests to: Monica A. Blodgett, Transportation Assistant, Interstate Commerce Commission, 600 Arch St., Room 3238, Philadelphia, Pa. 19106.

No. MC 111401 (Sub-No. 456TA), filed November 28, 1975. Applicant: GROENDYKE TRANSPORT, INC., P.O. Box 632, Enid, Okla. 73701. Applicant's representative: Victor R. Comstock (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Nitrogen fertilizer solutions*, from the plantsite and/or storage facilities of Farmland Industries, Inc., at or near Dodge City, Kans., to points in Wyoming, for 180 days. Supporting shipper: Farmland Industries, Inc., Charles D. Rosas, Supervisor of Transportation Service, P.O. Box 7305, Kansas City, Mo. 64116. Send protests to: Marie Spillars, Transportation Assistant, Interstate Commerce Commission, Bureau of Operations, Room 240 Old Post Office Bldg., 215 N.W. Third, Oklahoma City, Okla. 73102.

No. MC 117765 (Sub-No. 197TA), filed November 24, 1975. Applicant: HAHN TRUCK LINE, INC., 5315 NW. 5th, Oklahoma City, Okla. 73107. Applicant's representative: R. E. Hagan (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foodstuffs*, in containers (except dairy products, meats ar d meat by-products), from the plantsites of Lakeside Packing Company, Plainview, Minn., and Manitowoc, Wis., to points in Colorado, (restricted to traffic originating at the above described facilities), for 180 days. Supporting shipper: Lakeside Packing Company, E. James Kraska, Director of Traffic, P.O. Box 186, Manitowoc, Wis. 54220. Send protests to: Marie Spillars, Transportation Assistant, Interstate Commerce Commission, Bureau of Operations, Room 240 Old Post Office Bldg., 215 NW. Third, Oklahoma City, Okla. 73102.

No. MC 118159 (Sub-No. 166TA), filed November 24, 1975. Applicant: NATIONAL REFRIGERATED TRANSPORT, INC., P.O. Box 51366, Tulsa, Okla. 74151. Applicant's representative: Neil A. DuJardin, P.O. Box 2298, Green Bay, Wis. 54306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat by-products and articles distributed by meat packinghouses*, from the plantsites and storage facilities of MBPXL Corporation, at or near Plainview and Friona, Tex., to Chicago, Ill., and its commercial zone, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: MBPXL Corporation, Cecil Woehler, Director of Traffic, 2901 N. Mead, P.O. Box 2519, Wichita, Kans. 67201. Send protests to: Marie Spillars, Transportation Assistant, Interstate Commerce Commission, Bureau of Operations, Room 240 Old Post Office Bldg., 215 NW. Third, Oklahoma City, Okla. 73102.

No. MC 119560 (Sub-No. 10TA), filed November 26, 1975. Applicant: SOUTHERN BULK HAULERS, INC., P.O. Box 278, Harleyville, S.C. 29448. Applicant's representative: Harris G. Andrews, P.O. Box 4255, Greenville, S.C. 29608. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Industrial sand*, in pneumatic bulk trailers, from the plantsite of Foster-Dixiana Sand, Inc., near Cayce, Lexington County, S.C., to points in Georgia, North Carolina, Tennessee, and Virginia, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Foster-Dixiana Sand, Inc., P.O. Box 5447, Columbia, S.C. 29250. Send protests to: E. E. Strotheid, District Supervisor, Interstate Commerce Commission, Room 302, 1400 Pickens St., Columbia, S.C. 29201.

No. MC 124078 (Sub-No. 667TA) (Correction), filed November 13, 1975, published in the FEDERAL REGISTER issue of November 28, 1975, and republished as corrected this issue. Applicant: SCHWERMAN TRUCKING COMPANY, 611 South 28th St., Milwaukee, Wis. 53215. Applicant's representative: James R. Ziperski (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Inedible animal oils and fats*, in bulk, in tank vehicles, from Cincinnati and Cleveland, Ohio to Fayetteville and Greensboro, N.C., for 180 days. Supporting shipper: Carolina By-Products Company Inc., P.O. Box Drawer 20687, Greensboro, N.C. Send protests to: John E. Ryden, Interstate Commerce Commission, Bureau of Operations, 135 West Wells St., Room 807, Milwaukee, Wis. 53203. The purpose of this republication is to correct the sub number MC 124078 (Sub-No. 667TA) in lieu of MC 124078 (Sub-No. 662TA), which was previously published in error.

No. MC 124964 (Sub-No. 24TA), filed November 25, 1975. Applicant: JOSEPH M. BOOTH, doing business as J. M. BOOTH TRUCKING, P.O. Box 907, Eustis, Fla. 32727. Applicant's representative: George A. Olsen, 69 Tonnele Ave., Jersey City, N.J. 07306. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Potato chips*, from Bridgeport, Conn., to Hialeah, Fla., under a continuing contract or contracts with The Grand Union Company, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: The Grand Union Company, 535 East Crescent Ave., Ramsey, N.J. 07446. Send protests to: G. H. Fauss, Jr., District Supervisor, Bureau of Operations, Interstate Commerce Commission, Box 35008, 400 West Bay St., Jacksonville, Fla. 32202.

No. MC 128862 (Sub-No. 23TA), filed November 26, 1975. Applicant: B. J. CECIL TRUCKING, INC., P.O. Box C, Claypool, Ariz. 85532. Applicant's representative: Chris Cecil (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Shredded tin, tin scrap and cut metal*, in bulk, in dump vehicles, from West Chandler, Ariz., to points in Grand County, Utah, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Atlas Minerals Division of Atlas Corporation, P.O. Box 1207, Moab, Utah 84532. Send protests to: Andrew V. Baylor, District Supervisor, Interstate Commerce Commision, 3427 Federal Bldg., 230 N. First Ave., Phoenix, Ariz. 85025.

No. MC 135425 (Sub-No. 11 TA), filed November 24, 1975. Applicant: CYCLES LIMITED, P.O. Box 5715, Jackson, Miss. 39208. Applicant's representative: Morton E. Kiel, Suite 6193, 5 World Trade Center, New York, N.Y. 10048. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as are dealt in by a manufacturer whose products are sold in drug, variety and food stores, and *materials, supplies, and equipment* (except commodities in bulk), used in the conduct of such business, between St. Paul, Minn., and Andover, Mass., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii), under a continuing contract with The Gillette Company, for 180 days. Supporting shipper: The Gillette Company, 30 Burtt Road, Andover, Mass. 01810. Send protests to: Alan C. Tarrant, District Supervisor, Interstate Commerce Commission, Room 212, 145 East Amite Bldg., Jackson, Miss. 39201.

No. MC 138069 (Sub-No. 3 TA), filed November 24, 1975. Applicant: LUCIUS, INC., 9250 North Wadsworth Blvd., Broomfield, Colo. 80020. Applicant's representative: Marion F. Jones, Suite 1600 Lincoln Center Bldg., 1660 Lincoln St., Denver, Colo. 20203. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Alcoholic beverages and non-alcoholic beverage mixes*, from Lawrenceburg, Ind.; Frankfort, Owensboro and Lawrenceburg, Ky.; Houston, Tex.; and their commercial zones, to Denver, Colo., and its commercial zone, for 90 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Midwest Liquor and Wine Co., 10700 East 40th Ave., Denver, Colo. 80239. Send protests to: Roger L. Buchanan, District Supervisor, Interstate Commerce Commission 1961 Stout St., 2022 Federal Bldg., Denver, Colo. 80202.

No. MC 139861 (Sub-No. 1TA), filed November 26, 1975. Applicant: NORMAN R. JACKSON, R.D. No. 1, Box 258A, Oxford, Pa. 19367. Applicant's representative: Kenneth R. Davis, 121 S. Main St., Taylor, Pa. 18517. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Confectionery*, from Fleetwood, Pa., to Dallas, Tex.; LaHabra, Los Angeles, Hayward, San Francisco and Milpitas, Calif., and Kansas City, Kans., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Penn Dutch Cookie Corp., P.O. Box 107, Fleetwood, Pa. Send protests to: Monica A. Blodgett, Transportation Assistant, Interstate Commerce Commission, 600 Arch St., Room 3238, Philadelphia, Pa. 19106.

No. MC 140468 (Sub-No. 4TA) (Correction) filed November 11, 1975, published in the FEDERAL REGISTER issue of November 24, 1975, and republished as corrected this issue. Applicant: DONALD R. BAJEMA AND GERALD O. BAJEMA, doing business as RIVERVIEW DAIRY FARMS, 2777 Hillside Drive, N.W., Grand Rapids, Mich. 49504. Applicant's representative: David E. Jerome, P.O. Box 400, Northville, Mich. 48167. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dairy products*, (except in bulk) in vehicles equipped with mechanical refrigeration and the *return of empty containers, damaged or refused products*, from the plantsite of Sealtest Foods, Division of Kraftco Corp., at Lansing, Mich., to South Bend, Ind., for 180 days. Supporting shipper: Sealtest Foods Division Kraftco Corp., 2224 W. Willow, Lansing, Mich. 48917. Send protests to: C. R. Flemming, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 225 Federal Bldg., Lansing, Mich. 48933. The purpose of this republication is to correct the commodity description.

PASSENGER APPLICATIONS

No. MC 61061 (Sub-No. 41TA), filed November 25, 1975. Applicant: PETER PAN BUS LINES INC., 1776 Main St., Springfield, Mass. 01130. Applicant's representative: James F. Martin, Jr., 3003 Windsor Ridge Road, Westboro, Mass. 01581. [Notice No. 139]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

DECEMBER 5, 1975.

The following are notices of filing of applications for temporary authority under Section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 C.F.R. § 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the Federal Register publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the FEDERAL REGISTER. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the I.C.C. Field Office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 2780 (Sub-No. 6TA), filed November 21, 1975. Applicant: HORN'S MOTOR EXPRESS, INC., 2020 Lincoln Way East, Chambersburg, Pa. 17201. Applicant's representative: John M. Musselman, P.O. Box 1146, 410 N. Third St., Harrisburg, Pa. 17108. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined in *Practices of Motor Common Carriers of Household Goods*, 17 M.C.C. 467, commodities in bulk, commodities requiring special equipment and those injurious or contaminating to other lading), serving the facility of Hadco Products, Inc., located at Hanover, Pa., as an off-route point in connection with carrier's presently authorized regular route operations, between Harrisburg, Pa., and Baltimore, Md., from Harrisburg over U.S. Highway 11 to Chambersburg, Pa., thence over U.S. Highway 30 to Gettysburg, Pa., and thence over U.S. 140 to Baltimore, and return over the same route. Applicant intends it interline at Chambersburg, Harrisburg, Newberrytown and York, Pa., Baltimore, Md., and any intermediate route point commonly served, for 180 days. Supporting shipper: Dadoo Products, Inc., P.O. Box 128, Littlestown, Pa. 17340. Send protests to: Robert P. Amerine, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 278 Federal Bldg., P.O. Box 869, Harrisburg, Pa. 17108.

No. MC 111401 (Sub-No. 457TA), filed November 24, 1975. Applicant: GROENDYKE TRANSPORT, INC., P.O. Box 632, Enid, Okla. 73701. Applicant's representative: Victor R. Comstock (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk, from the facilities of Nalco Chemical Company, at or near Sugar Land, Tex., to points in the United States (except Alaska and Hawaii), for 180 days. Supporting shipper: Nalco Chemical Company, Inc., James E. Carr, Corp. T. M., 2901 Butterfield Road, Oak Brook, Ill. 60521. Send protests to: Marie Spillars, Transportation Assistant, Interstate Commerce Commission, Bureau of Operations, Room 240 Old P.O. Bldg., 215 N.W. Third, Oklahoma City, Okla. 73102.

No. MC 111401 (Sub. No. 458TA), filed November 26, 1975. Applicant: GROENDYKE TRANSPORT, INC., P.O. Box 632, Enid, Okla. 73701. Applicant's representative: Victor R. Comstock (same as address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Flour*, in bulk, from Enid, Okla., to Spartanburg, S.C., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: The Pillsbury Company, Gerald E. Morlock, T.M., 515 East Spruce, Enid, Okla. 73701. Send protests to: Marie Spillars, Transportation Assistant, Interstate Commerce Commission, Bureau of Operations, Room 240 Old P.O. Bldg., 215 N.W. Third, Oklahoma City, Okla. 73102.

No. MC 114533 (Sub-No. 331TA), filed November 24, 1975. Applicant: BANKERS DISPATCH CORPORATION, 1106 W. 35th St., Chicago, Ill. 60609. Applicant's representative: Paul R. Bergant (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Exposed and processed film and parts, complimentary replacement film, and incidental dealer handling supplies* (except motion picture film, and materials and supplies used in connection with commercial films and television motion pictures), and (2) *Audit media and other business records*, between Kokomo, Ind., on the one hand, and, on the other, Indianapolis, Ind., restricted to those shipments having a prior or subsequent movement by air, for 180 days. Supporting shipper: Rainbo Photo Service, Inc., David H. Kolb, Sales Manager, P.O. Box 11007, Memphis, Tenn. 38111. Send protests to: Patricia A. Roscoe, Transportation Assistant, Interstate Commerce Commission, Everett McKinley Dirksen Bldg., 219 S. Dearborn St., Room 1086, Chicago, Ill. 60604.

No. MC 114789 (Sub-No. 51TA), filed November 21, 1975. Applicant: NATIONWIDE CARRIERS, INC., P.O. Box 104, Maple Plain, Minn. 55359. Applicant's representative: Donald L. Stern, 530 Univac Bldg., Omaha, Nebr. 68106. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise* as is dealt in by discount and variety stores (except foodstuffs and commodities in bulk), from points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, and West Virginia to points in Minnesota and Wisconsin, restricted to traffic originating at points in the named origin states and destined to the facilities of S. S. Kresge Company, at points in the named destination states, under a continuing contract with S. S. Kresge Company, for 180 days. Supporting shipper: S. S. Kresge Company, 3100 West Big Veaver, Troy, Mich. 48084. Send protests to: A. N. Spath, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 414 Federal Bldg., & U.S. Courthouse, 110 S. 4th St., Minneapolis, Minn. 55401.

No. MC 115762 (Sub-No. 9TA), filed November 21, 1975. Applicant: KENTUCKY WESTERN TRUCK LINES, INC., P.O. Box 632, Hopkinsville, Ky. 42240. Applicant's representative: Richard D. Gleaves, 631 Stahlman Bldg., Nashville, Tenn. 37201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, in containers, from Wood River, Ill., and its commercial zone, for 180 days. Supporting shipper: R. E. Croft, Jr., Monarch Oil Company, P.O. Box 64, Hopkinsville, Ky. 42240. Send protests to: Elbert Brown, Jr., District Supervisor, Interstate Commerce Commission, Bureau of Operations, 426 P.O. Bldg., 601 Broadway, Louisville, Ky. 40202.

No. MC 117589 (Sub-No. 32TA), filed November 24, 1975. Applicant: PROVISIONERS FROZEN EXPRESS, INC., 3801 Seventh Ave., South, Seattle, Wash. 98108. Applicant's representative: James T. Johnson, 1610 IBM Bldg., Seattle, Wash. 98101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meat and meat products and cheese*, from Seattle, Wash., to Colorado Springs, Colo., for 180 days. Applicant has also filed an underlying FTA seeking up to 90 days of operating authority. Supporting shipper: Green River Cheese & Dairy Products, Inc., 19029 East Valley Highway, Kent, Wash. 98130. Send protests to: L. D. Boone, Transportation Specialist, Bureau of Operations, Interstate Commerce Commission, 858 Federal Bldg., 915 Second Ave., Seattle, Wash. 98174.

No. MC 118959 (Sub-No. 132TA), filed November 21, 1975. Applicant: JERRY LIPPS, INC., 130 South Frederick St., Cape Girardeau, Mo. 63701. Applicant's representative: William P. Jackson, Jr., 3428 North Washington Blvd., Arlington, Va. 22201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Building materials* (except in bulk), from the facilities of Bird & Son, Inc., at or near Bardstown, Ky., to points in the United States (except Alaska and Hawaii), for 180 days. IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY

Elimination of Gateway Letter Notices

DECEMBER 5, 1975.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commission under the Commission's *Gateway Elimination* Rules (49 CFR 1065), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before December 22, 1975. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will *not* operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 2253 (Sub-No. E3), filed January 29, 1975. Applicant: CAROLINA FREIGHT CARRIERS CORPORATION, P.O. Box 697, Cherryville, N.C. 28021. Applicant's representative: J. S. McCallis (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General Commodities* (except those of unusual value, classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between Charlotte, N.C., and points in North Carolina within 30 miles of Charlotte, N.C., on the one hand, and, on the other, points in Bergen, Essex, Hudson, Hunterdon, Mercer, Middlesex, Morris, Monmouth, Ocean, Passaic, Somerset, Union, and Warren Counties N.J., and points in that part of Burlington County, N.J., on the north of a line beginning at Riverside, N.J., and thence along New Jersey Highway 537 to junction unnumbered highway at Masonville, N.J., thence along unnumbered highway to junction New Jersey Highway 541 to junction New Jersey Highway 70, thence along New Jersey Highway 70 to junction New Jersey Highway 72, thence along New Jersey Highway 72 to the Burlington-Ocean County line. The purpose of this filing is to eliminate the gateway of New York, N.Y.

No. MC 2253 (Sub-No. E4), filed January 29, 1975. Applicant: CAROLINA FREIGHT CARRIERS CORPORATION, P.O. Box 697, Cherryville, N.C. 28021. Applicant's representative: J. S. McCallis (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General Commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between points in Connecticut, Massachusetts, and Rhode Island, on the one hand, and, on the other, points in Ohio, points in Allegheny and Westmoreland Counties, Pa., and points in Brooke, Hancock, Marshall, and Ohio Counties, W. Va. The purpose of this filing is to eliminate the gateway of points in New York within 30 miles of Newark, N.J. (excluding those points in Monmouth, Mercer, and Hunterdon Counties, N.J.).

No. MC 2253 (Sub-No. E5), filed January 29, 1975. Applicant: CAROLINA FREIGHT CARRIERS CORPORATION, P.O. Box 697, Cherryville, N.C. 28021. Applicant's representative: J. S. McCallis (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General Commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between Nassau and Westchester Counties, N.Y., on the one hand, and, on the other, points in Ohio, points in Allegheny and Westmoreland Counties, Pa., and those in points in Brooke, Hancock, Marshall and Ohio Counties, W. Va. The purpose of this filing is to eliminate the gateway of points in New Jersey within 15 miles of North Bergen, N.J.

No. MC 2253 (Sub-No. E6), filed January 29, 1975. Applicant: CAROLINA FREIGHT CARRIERS CORPORATION, P.O. Box 697, Cherryville, N.C. 28021. Applicant's representative: J. S. McCallis (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General Commodities* (except those of unusual value, Classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between points in that part of Delaware County, Pa., on and east of U.S. Highway 202, on the one hand, and, on the other, points in that part of Ohio on and west of a line beginning at Sandusky, Ohio, and extending along U.S. Highway 6 to to junction Ohio Highway 12, thence along Ohio Highway 12 to Findley, Ohio, thence along Interstate Highway 75 to Cincinnati, Ohio. The purpose of this filing is to eliminate the gateway of points in Bergen, Essex, Hudson, Middlesex, Morris, Passaic, Somerset, and Union Counties, N.J., which are also within 30 miles of Newark, N.J.

No. MC 2253 (Sub-No. E7), filed January 29, 1975. Applicant: CAROLINA FREIGHT CARRIERS CORPORATION, P.O. Box 697, Cherryville, N.C. 28021. Applicant's representative: J. S. McCallis (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General Commodities* (except those of unusual value, Classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between Philadelphia, Pa., on the one hand, and, on the other, points in Ohio (except those in Columbiana, Jefferson, Carroll, Harrison, Belmont, Monroe, Washington, and Noble Counties, and that segment of Guernsey and Tuscarawas Counties on and east of Interstate Highway 77). The purpose of this filing is to eliminate the gateway of points in Bergen, Essex, Hudson, Middlesex, Morris, Passaic,, Somerset, and Union Counties, N.J., which are also within 30 miles of Newark, N.J.

No. MC 2253 (Sub-No. E8), filed January 29, 1975. Applicant: CAROLINA FREIGHT CARRIERS CORPORATION, P.O. Box 697, Cherryville, N.C. 28021. Applicant's representative: J. S. McCallis (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General Commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between Philadelphia, Pa., on the one hand, and, on the other, points in that part of Ohio on, north, and east of a line beginning at the Ohio-West Virginia State line and extending along U.S. Highway 40 to Zanesville, Ohio, thence along Ohio Highway 60 to Trinway, Ohio, thence along Ohio Highway 16 to Coshocton, Ohio, thence along Ohio Highway 76 to Wooster, Ohio, thence along Ohio Highway 3 to Medina, Ohio, thence along Ohio Highway 18 to Mallet Corner, Ohio, and thence along Ohio Highway 252 to Lake Erie. The purpose of this filing is to eliminate the gateway of points in Allegheny and Westmoreland Counties, Pa.

No. MC 2253 (Sub-No. E9), filed January 29, 1975. Applicant: CAROLINA FREIGHT CARRIERS CORPORATION, P.O. Box 697, Cherryville, N.C. 28021. Applicant's representative: J. S. McCallis (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General Commodities* (except those of unusual value, Classes A and B Explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between Philadelphia, Pa., on the one hand, and, on the other, points in Ohio County, W. Va. The purpose of this filing is to eliminate the gateway of points in Marshall County, W. Va.

No. MC 2253 (Sub-No. E10), filed January 29, 1975. Applicant: CAROLINA FREIGHT CARRIERS CORPORATION, P.O. Box 697, Cherryville, N.C. 28021. Applicant's representative: J. S. McCallis (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General Commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between the terminal site of Harder's Express, Inc., at Claverack, N.Y., on the one hand, and, on the other, points in Allegheny and Westmoreland Counties, Pa., points in Brooke, Hancock, Marshall, and Ohio Counties, W. Va., and points in Ohio (except those in Ashtabula, Lake, and Geuaga Counties, Ohio). Restriction: The operations authorized herein are restricted to the transportation of shipments having a prior or subsequent movement in the motor carrier service of Harder's Express, Inc. The purpose of this filing is to eliminate the gateway of New York, N.Y.

No. MC 118908 (Sub-No. (364), filed December 5, 1974. Applicant: ERICKSON TRANSPORT CORP., P.O. Box 3180-Glenstone Station, Springfield, Mo. 65804. Applicant's representative: John E. Jandera, 641 Harrison St., Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vinegar*, in bulk, in tank vehicles, from Rogers, Ark., to points in California. The purpose of this filing is to eliminate the gateways of Nixa, Mo., and Oklahoma City, Okla.

No. MC 113908 (Sub-No. E365), filed December 5, 1974. Applicant: ERICKSON TRANSPORT CORP., P.O. Box 3180-Glenstone Station, Springfield, Mo. 65804. Applicant's representative: John E. Jandera, 641 Harrison St., Topeka, Kans. 66603. (25) *Liquid petro-chemicals*, in bulk, in tank vehicles, from points in Colbert County, Ala., to points in Ohio in and east of Sciota, Pike, Ross, Pickaway, Franklin, Licking, Knox, Richland, Ashland, and Lorain Counties.

(26) *Liquid petro-chemicals*, in bulk, in tank vehicles, from points in Morgan County, Ala., to points in Ohio (except points in Preble, Butler, Hamilton, Warren, and Clermont Counties, Ohio).

(27) *Liquid petro-chemicals*, in bulk, in tank vehicles, from points in Marshall County, Ala., to points in Ohio, New Jersey, and Rhode Island.

(28) *Petroleum products*, in bulk, in tank vehicles, from points in Marshall County, Ala., to points in Indiana in, north, and west of Vigo, Clay, Owen, Monroe, Jackson, Scott, and Clark Counties, Ind.

(29) *Liquid petro-chemicals*, in bulk, in tank vehicles, from points in Colbert County, Ala., to points in New Jersey and Rhode Island.

(30) *Liquid petro-chemicals*, in bulk, in tank vehicles, from points in Morgan County, Ala., to points in New Jersey and Rhode Island.

(31) *Liquid chemicals* (except petroleum products and fertilizers), in bulk, in tank vehicles, from Sheboygan, Wis., to points in Florida and South Carolina.

(32) *Phosphoric acid*, in bulk, in tank vehicles, from the plant site of the Hydrite Chemical Company at Milwaukee, Wis., to points in Florida and South Carolina.

(33) *Dimethyl-terephthalate* and *terephthalic acid*, in bulk, in tank vehicles, from the plant site of Amoco Chemicals Corporation at or near Decatur, Ala., to points in Virginia and West Virginia.

(34) *Dimethyl-terephthalate* and *terephthalic acid*, in bulk, in tank vehicles, from the plant site of Amoco Chemicals Corporation at or near Decatur, Ala., to points in New Jersey and Rhode Island.

(35) *Sodium silicate, potassium silicate, ammonium sulfide, sodium sulfhydrate*, and *orthodichlorobenzene*, liquid, in bulk, in tank vehicles, from Cartersville, Ga., to points in Illinois, Indiana, West Virginia, Virginia, Missouri, Arkansas, Ohio, Michigan, Wisconsin, Minnesota, New Jersey, and Rhode Island.

(36) *Sodium silicate, potassium silicate, ammonium sulfide, sodium sulfhydrate*, and *orthodichlorobenzene*, liquid, in bulk, in tank vehicles, from Cartersville, Ga., to points in Iowa, Nebraska, and South Dakota.

(37) *Sodium silicate, potassium silicate, ammonium sulfide, sodium sulfhydrate*, and *orthodichlorobenzene*, liquid, in bulk, in tank vehicles, from Cartersville, Ga., to points in North Dakota and Wyoming, and points in Colorado on and north of U.S. Highway 24.

(38) *Alcohol, benzene, xylene, toluene*, and *acetone*, in bulk, in tank vehicles, from Atlanta, Ga., to points in Illinois, Indiana, West Virginia, Missouri, Arkansas (except points in Ashley, Drew, Desha, and Chicot Counties), and points in Virginia in, north, and west of Scott, Russell, Tazewell, Bland, Giles, Craig, Alleghany, Rockbridge, Nelson, Albemarle, Orange Spotslyvania, and King George Counties.

(39) *Alcohol, benzene, xylene, toluene*, and *acetone*, in bulk, in tank vehicles, from Atlanta, Ga., to points in Ohio, Michigan, Wisconsin, Minnesota, New Jersey, and Rhode Island.

(40) *Alcohol, benzene, xylene, toluene*, and *aceto e*, in bulk, in tank vehicles, from Atlanta, Ga., to points in Iowa, Nebraska, and South Dakota.

(41) *Alcohol, benzene, xylene, toluene*, and *acetone*, in bulk, in tank vehicles, from Atlanta, Ga., to points in North Dakota, Wyoming, and Colorado (except points in Las Animas and Baca Counties).

(42) *Chemicals* (except hydrofluosilic acid, such naval stories as are chemicals, crude tall oil, sulphate, black liquor skimmings, and liquid alum), in bulk, in tank vehicles, from Atlanta, Ga., to points in Ke tucky, Arkansas, (except points in Ashley, Drew, Desha, and Chicot Counties), Missouri, Illinois, and points in Virginia in, north, and west of Scott, Russell, Tazewell, Bland, Giles, Craig, Allegheny, Rockbridge, Nelson, Albemarle, Orange, Spotsylvania, and King George Counties.

(43) *Alcohol, Be zene, xylene, toluene*, and *acetone*, in bulk, in tank vehicles, from Atlanta, Ga., to points in Kentucky.

(44) *Chemicals* (except petroleum products, fertilizers, hydrofluosilic acid, such naval stores as are chemicals, crude

V40I238 DEC 10 75 XUM

tall oil, sulphate, black liquor skimmings, and liquid alum), in bulk, in tank or hopper-type vehicles, from Atlanta, Ga., to points in Wisconsin, North Dakota, Wyoming, and Colorado (except points in Las Animas and Baca Counties).

(45) *Chemicals* (except hydrofluosilic acid, such naval stores as are chemicals, crude tall oil, sulphate, black liquor skimmings, and liquid alum), in bulk, in tank vehicles, from Atlanta, Ga., to points in Ohio.

(46) *Acetone* and *phenol*, in bulk, in tank vehicles, from the plant site of the United States Steel Corporation at or near Haverhill (Scioto County), Ohio, to points in Alabama and Mississippi (except points in DeSoto, Tunica, Tate, Marshall, and Benton Counties).

(47) *Chemicals* (except hydrofluosilic acid, such naval stores as are chemicals, crude tall oil, sulphate, black liquor skimmings, and liquid alum), in bulk, in tank vehicles, from Atlanta, Ga., to points in Tennessee on and east of U.S. Highway 27 and on and west of a line beginning at the Kentucky-Tennessee State line and extending along U.S. Highway 25E to junction U.S. Highway 25, thence along U.S. Highway 25 to the Tennessee-North Carolina State line (except points in Polk, Monroe, and Blount Counties).

(48) *Clay* and *clay surry*, in bulk, from the plant site or sites of United Sierra Division, Cyprus Mines Corporation at Macon, Ga., to points in Kentucky.

(49) *Barium chloride* and *barium carbonate*, in bulk, from Cartersville, Ga., to points in Illinois, Indiana, West Virginia, Missouri, and Arkansas.

(50) *Barium chloride and barium carbonate*, liquid, in bulk, from Cartersville, Ga., to points in Ohio, Michigan, Wisconsin, Minnesota, New Jersey, and Rhode Island.

(51) *Barium chloride* and *barium carbonate*, in bulk, from Cartersville, Ga., to points in Iowa, Nebraska, and South Dakota.

(52) *Barium chloride* and *barium carbonate*, in bulk, from Cartersville, Ga., to points in North Dakota, Wyoming, and points in Colorado on and north of U.S. Highway 24.

(53) *Dry ground limestone*, in bulk, from Cartersville, Ga., to points in West Virginia, Missouri, and Arkansas.

(54) *Liquid chemicals* (except hydrofluosilic acid, such naval stores as are chemicals, crude tall oil, sulphate, black liquor skimmings, and liquid alum), in bulk, in tank vehicles, from Charleston, S.C., to points in Indiana.

(55) *Liquid chemicals* (except hydrofluosilic acid, such naval stores as are chemicals, crude tall oil, sulphate, black liquor skimmings, and liquid alum), in bulk, in tank vehicles, from Charleston, S.C., to points in Michigan, Minnesota, and points in Allen, Van Wert, Putnam, Paulding, Defiance, Fulton, and Williams Counties, Ohio.

(56) *Liquid chemicals* (except hydrofluosilic acid, such naval stores as are chemicals, crude tall oil, sulphate, black liquor skimmings, and liquid alum), in bulk, in tank vehicles, from Charleston, S.C., to points in Iowa and South Dakota.

(57) *Liquid chemicals* (except petroleum products, fertilizers, hydrofluosilic acid, such naval stores as are chemicals, crude tall oil, sulphate, black liquor skimmings, and liquid alum), in bulk, in tank vehicles, from Charleston, S.C., to points in North Dakota, Wyoming, and points in Colorado on and west of U.S. Highway 285 on and north of U.S. Highway 50.

(58) *Clay* and *clay surry*, in bulk, from the plant site or sites of United Sierra Division, Cyprus Mines Corporation at Macon, Ga., to points in Indiana, Illinois, Missouri, Arkansas, and points in West Virginia in and north of Mingo, Logan, Boone, Kanawha, Clay, Braxton, Lewis, Upshur, Randolph, Tucker, Grant, and Hardy Counties.

(59) *Clay* and *clay surry*, in bulk, from points in Washington County, Ga., to points in Illinois, Indiana, Missouri, and Arkansas.

(60) *Lime* and *limestone*, in bulk, from points in St. Clair County, Ala., to points in West Virginia, Indiana, and Virginia.

(61) *Dry alum*, in bulk, from Atlanta, Ga., to points in Illinois, Indiana, West Virginia, Missouri, Kentucky, and Arkansas (except points in Ashley, Drew, Desha, and Chicot Counties).

(62) *Clay*, in bulk, in tank, hopper, or dump-type vehicles, from points in Gadsden County, Fla., to points in Kentucky, Illinois, Indiana, Missouri, West Virginia, and points in Tennessee in and east of Montgomery, Dickson, Williamson, Maury, and Guiles Counties.

(63) *Vegetable and animal oils and fats* and *blends* thereof, in bulk, in tank vehicles, from Louisville, Ky., to points in South Carolina south and west of Pickens, Greenville, Spartanburg, Union, Fairfield, Kershaw, Chesterfield, and Marlboro Counties.

(64) *Chemicals*, in bulk, from the plant site of Nalco Chemical Company near Jonesboro, Ga., to points in Illinois, Indiana, West Virginia, Missouri, Arkansas, Kentucky, and points in Virginia in, west, and north of Washington, Smyth, Wythe, Pulaski, Montgomery, Roanoke, Bedford, Amherst, Nelson, Albermarle, Louisa, Spotsylvania, and Stafford Counties.

(65) *Chemicals* (except petroleum products and fertilizers), in bulk, from the plant site of Nalco Chemical Company near Jonesboro, Ga., to points in Minnesota, South Dakota, Wisconsin, Nebraska, North Dakota, Wyoming, Colorado (except points in Las Animas and Baca Counties), Iowa (except points in Lee County), and points in the Upper Peninsula of Michigan (except points in Mackinac and Chippewa Counties).

(66) *Petroleum products*, in bulk, in tank vehicles, from points in Colbert County, Ala., to points in Florida east of Madison and Taylor Counties, and points in Kentucky in and east of Greenup, Carter, Elliott, Morgan, Wolfe, Lee, Jackson, Laurel, and Whitley Counties.

(67) *Petroleum products*, in bulk, in tank vehicles, from points in Morgan County, Ala., to points in Florida in, east and south of Columbia, Gilchrist, and Levy Counties, and points in Kentucky on and east of a line beginning at the Kentucky-Ohio State line and extending along U.S. Highway 68 to Lexington, thence along U.S. Highway 27 to the Kentucky-Tennessee State line.

(68) *Liquid chemicals*, in bulk, in tank vehicles, from the plant site of Nalco Chemical Company near Jonesboro, Ga., to points in Michigan, and points in Ohio in and north of Defiance, Henry, Wood, Seneca, Huron, Lorain, Medina, Summit, Portage, and Trumbull Counties.

(69) *Petroleum products*, in bulk, in tank vehicles, from points in Marshall County, Ala., to points in Florida in, east and south of Columbia, Gilchrist, and Levy Counties, and points in Kentucky in and east of Clinton, Russell, Casey, Marion, Nelson, Bullitt, and Jefferson Counties.

(70) *Nitric acid* and *additives*, liquid, in bulk, in tank vehicles, from Birmingham and McAdory, Ala., to points in New Jersey, Rhode Island, Michigan, Wisconsin, Ohio, and Minnesota.

(71) *Nitric acid and additives* (except cryogenic liquids), in bulk, in tank vehicles, from Birmingham and McAdory, Ala., to points in South Dakota, Iowa (except points in Appanoose, Davis, and Van Buren Counties, and Keokuk, Iowa), and points in Nebraska on and north of a line beginning at the Nebraska-Wyoming State line and extending along Interstate Highway 80 to the Lancaster County Boundary line, thence along said County Boundary line to the Gage County line, thence along the northern County lines of Gage, Johnson, and Nemaha Counties to the Nebraska-Missouri State line.

(72) *Nitric acid* and *additives* (except petroleum products and fertilizers), in bulk, in tank vehicles, from Birmingham and McAdory, Ala., to points in North Dakota.

(73) *Lime* and *limestone*, in bulk, from points in Jefferson County, Ala., to points in Illinois in and north of Adams, Brown, Morgan, Scott, Sangamon, Montgomery, Fayette, Clay, Richland, and Lawrence Counties, points in Indiana (except points in Posey, Vanderburgh, Warrick, Spencer, Pike, Gibson, and Knox Counties), and points in Kentucky in and east of Jefferson, Bullitt, Hardin, Hart, Barren, and Monroe Counties.

(74) *Petroleum products*, in bulk, in tank vehicles, from points in Jefferson County, Ala., to points in Kentucky in and east of Jefferson, Bullitt, Hardin, Hart, Barren, and Monroe Counties, and points in Sumter, Lee, Darlington, Marlboro, Dillon, Clarendon, Marion, Florence, Georgetown, Williamsburg, and Horry Counties, S.C.

(75) *Nitric acid* and *additives*, in bulk, in tank vehicles, from Birmingham and McAdory, Ala., to points in Illinois in and north of Adams, Brown, Morgan, Scott, Sangamon, Montgomery, Fayette, Clay, Richland, and Lawrence Counties, points in Indiana (except points in Posey, Vanderburgh, Warrick, Spencer, Pike, Gibson, and Knox Counties), points in Kentucky in and east of Jefferson, Bullitt, Hardin, Hart, Barren, and Monroe Counties, and points in South Carolina in and east of Marlboro, Darlington, Lee, Sumter, Clarendon, Williamsburg, and Georgetown Counties.

(76) *Dimethyl-terephthalate* and *terephthalic acid*, in bulk, from the plant site of Amoco Chemicals Corporation at or near Decatur, Ala., to points in Florida in, east, and south of Columbia, Gilchrist, and Levy Counties.

(77) *Fertilizer solutions*, in bulk, from Decatur, Ala., to points in Florida in, east, and south of Columbia, Gilchrist, and Levy Counties, and points in Kentucky on and east of a line beginning at Maysville and extending along U.S. Highway 68 to Lexington, Ky., thence along U.S. Highway 27 to the Kentucky-Tennesse State line.

(78) *Coal, in bulk*, from Birmingham, Ala., to points in Kentucky in and east of Jefferson, Bullitt, Hardin, Hart, Barren, and Monroe Counties, points in Sumter, Lee, Darlington, Marlboro, Dillon, Clarendon, Marion, Florence, Georgetown, Williamsburg, and Horry Counties, S.C., points in Illinois in and north of Adams, Brown, Scott, Morgan, Sangamon, Montgomery, Fayette, Clay, Richland, and Lawrence Counties, and points in Indiana (except points in Posey, Vanderburgh, Warrick, Spencer, Pike, Gibson, and Knox Counties), points in Kentucky in and east of Jefferson, Bullitt, Hardin, Hart, Barren, and Monroe Counties, and points in South Carolina in and east of Marlboro, Darlington, Lee, Sumter, Clarendon, Williamsburg, and Georgetown Counties.

(79) *Liquid fertilizer*, in bulk, from Port Birmingham, Ala., to points in Kentucky in and east of Jefferson, Bullitt, Hardin, Hart, Barren, and Monroe Counties, points in Sumter, Lee, Darlington, Marlboro, Dillon, Clarendon, Marion, Florence, Georgetown, Williamsburg, and Horry Counties, S.C., points in Illinois in and north of Adams, Brown, Scott, Morgan, Sangamon, Montgomery, Fayette, Clay, Richland, and Lawrence Counties, and points in Indiana (except points in Posey, Vanderburgh, Warrick, Spencer, Pike, Gibson, and Knox Counties).

(80) *Liquid fertilizers* which are chemicals, in bulk, in tank vehicles, from Port Birmingham, Ala., to points in Ohio.

(81) Vegetable and animal oils and fats and blends thereof, in bulk, in tank vehicles, from Chicago, Ill., to Charlotte and Wilmington, N.C.

(82) *Liquid petro-chemicals*, in bulk, in tank vehicles, from points in Marshall County, Ala., to points in Michigan and points in Illinois in and north of St. Clair, Clinton, Marion, Clay, Richland, and Lawrence Counties.

(83) *Liquid chemicals* (except hydrofluosilic acid, such naval stores as are chemicals, crude tall oil, sulphate, black liquor skimmings, and liquid alum), in bulk, in tank vehicles, from Charleston, S.C., to points in Kentucky in and west of Clinton, Cumberland, Adair, Taylor, Marion, Washington, Nelson, Spencer, Shelby, Oldham, and Trimble Counties, and points in Tennessee in and west of Polk, McMinn, Meigs, Rhea, Cumberland, Fentress, and Pickett Counties.

(84) *Clay* and *clay surry*, in bulk, from points in Jefferson County, Ga., to points in Kentucky in and west of Lewis, Rowan, Menifee, Wolfe, Lee, Owsley, Clay, and Bell Counties.

(85) *Clay* and *clay surry*, in bulk, from points in Twiggs County, Ga., to points in West Virginia in, north, and west of Mingo, Logan, Boone, Kanawha, Clay, Braxton, Lewis, Harrison, Marion, and Monongalia Counties.

(86) *Clay* and *clay surry*, in bulk, from points in Wilkinson County, Ga., to points in West Virginia in, north, and west of Wayne, Cabell, Putnam, Jackson, Roane, Calhoun, Gilmer, Doddridge, Harrison, and Wetzel Counties.

(87) *Clay* and *clay surry*, in bulk, from points in Washington County, Ga., to points in Kentucky in and west of Bell, Clay, Owsley, Breathitt, Wolfe, Morgan, Elliott, Carter, and Boyd Counties.

(88) *Lime* and *limestone*, in bulk, from points in Shelby County, Ala., to points in Kentucky in and east of Monroe, Barren, Hart, and Hardin Counties, points in Illinois in and north of Adams, Brown, Scott, Morgan, Sangamon, Montgomery, Fayette, Clay, Richland, and Lawrence Counties, and points in Indiana.

(89) *Lime* and *limestone*, in bulk, from points in St. Clair County, Ala., to points in Kentucky in and east of Daviess, Ohio, Grayson, Edmonson, Barren, and Monroe Counties, and points in Illinois in and north of St. Clair, Clinton, Marion, Clay, Richland, and Lawrence Counties.

(90) *Dry cement*, in bulk, from the plant site of the Medusa Cement Company, Division of Medusa Corporation, at Clinchfield, Ga., to points in Tennessee in and west of Clairborne, Union, Knox, Loudon, McMinn, and Bradley Counties.

(91) *Liquid fertilizer*, in bulk, from the plant site of LiFerKo, Inc., located at or near Madison (Madison County), Ala., to points in North Carolina, Virginia, and points in Kentucky on and east of Interstate Highway 75.

(92) *Clay*, in bulk, from points in Decatur County, Ga., to Kingsport, Tenn., points in Illinois, Indiana, Kentucky, points in Missouri on and north of U.S. Highway 60 and points in Tennessee in and west of Polk, McMinn, Loudon, Knox, Jefferson, Hamblen, and Hawkins Counties, and in and east of Henry, Benton, Humphreys, Hickman, Maury, Marshall, and Lincoln Counties.

(97) *Dry, ground limestone*, in bulk, from Cartersville, Ga., to points in Virginia (except points in Henry and Pittsylvania Counties and that part of Halifax County west of U.S. Highway 501).

(98) *Barium chloride* and *barium carbonate*, in bulk, from Cartersville, Ga., to points in Virginia (except points in Henry and Pittsylvania Counties and that part of Halifax County west of U.S. Highway 501).

(99) *Sodium silicate, potassium silicate, ammonium sulfide, sodium sulfhydrate*, and *orthodichlorobenzene*, liquid, in bulk, from Cartersville, Ga., to points in Virginia (except points in Henry and Pittsylvania Counes and that part of Halifax County west of U.S. Highway 501) and Kingsport and Elizabethton, Tenn.

(100) *Liquid animal feed* and *liquid animal feed supplements*, in bulk, from Bainbridge, Ga., to points in Kentucky, Indiana, and Illinois, and points in Missouri on and north of U.S. Highway 60.

The purpose of this filing is to eliminate the gateways of: the facilities of Bulk Distribution, Inc., at or near Chattanooga, Tenn., in all of the above; the plant site of the Velsicol Chemical Corporation and The Woodward Iron Company at or near Chattanooga, Tenn., in (22), (25), (26), (27), (29), (30), (34), (35), (39), (45), (50), (55), (70), (80), and (82) above; the plant site of the Apple River Chemical Company at or near Niota, Ill., in (36), (40), (51), (56), and (71) above; the facilities of The Philadelphia Quartz Company at or near LaSalle, Ill., in (31), (32), (37), (41), (44), (52), (57), (65), and (72) above; Atlanta, Ga., in (54)–(57), (62), and (83) above; points in Maury County, Tenn., in (68) above; the plant site of the Marquette Cement Manufacturing Company at Rockmart, Ga., in (90) above; and the plant site or sites of United Sierra Division, United Mines Corporation, at Macon, Ga., in (92) above.

No. MC 128383 (Sub-No. E89), filed June 26, 1974. Applicant: PINTO TRUCKING SERVICE, INC., 1414 Calcon Hook Road, Sharon Hill, Pa. 19079. Applicant's representative: Gerald K. Gimmel, 303 North Frederick Ave., Gaithersburg, Md. 20760. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *General Commodities* (except classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), between Logan International Airport at Boston, Mass., on the one hand, and, on the other, Baltimore-Washington International Airport in Anne Arundel County, Md.; Dulles International Airport in Fairfax and Loudoun Counties, Va.; Washington National Airport at Gravelly Point, Va.; La Guardia Airport at New York, N.Y.; and Newark Airport at Newark, N.J., restricted against the transportation of aircraft engines and parts from John F. Kennedy International Airport, La Guardia Airport, and Newark Airport, and restricted to the transportation of shipments having a prior or subsequent movement by air.

(2) *General Commodities* (except commodities in bulk, classes A and B explosives, motor vehicles, household goods as defined by the Commission, and commodities requiring special equipment), between Logan International Airport at Boston, Mass., on the one hand, and, on the other, points in Atlantic, Camden, Cape May, Cumberland, Gloucester, and Salem Counties, N.J.; points in Burlington County, N.J., south of Rancocas Creek; points in Chester, Delaware, Montgomery, and Philadelphia Counties, Pa.; and points in Bucks County, Pa., north and west of Pennsylvania Highway 232, restricted to the transportation of shipments having a prior or subsequent

V40238 DEC 10 75 XUM

movement by air; (3) *General Commodities* (except commodities in bulk, classes A and B explosives, household goods as defined by the Commission, and commodities requiring the use of special equipment), between Logan International Airport at Boston, Mass., on the one hand, and, on the other, points in Delaware, restricted to the transportation of shipments having a prior or subsequent movement by air; (4) *General Commodities* (except Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between Logan International Airport at Boston, Mass., on the one hand, and, on the other, points in Hanover, Henrico, Chesterfield, Isle of Wight, Nansemond, York, Roanoke, Franklin, Montgomery, Craig, Bedford, Botetourt, Accomack, and Northampton Counties, Va., and Richmond, Norfolk, Portsmouth, Virginia Beach, Chesapeake, Newport News, Hampton, Salem, and Roanoke, Va., restricted to the transportation of shipments having a prior or subsequent movement by air.

(5) *General Commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Logan International Airport at Boston, Mass., on the one hand, and, on the other, points in Allegheny, Erie, Pike, Washington, and Wyoming Counties, Pa., restricted to transportation of shipments having a prior or subsequent movement by air; (6) *General Commodities* (except Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), between Logan International Airport at Boston, Mass., on the one hand, and, on the other, Weir Cook Airport at Indianapolis, Ind.; Hopkins Airport at Cleveland, Ohio; and Vandalia Airport at Dayton, Ohio, restricted to transportation of shipments having a prior or subsequent movement by air; (7) *General Commodities* (except Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), between Logan International Airport at Boston, Mass., on the one hand, and, on the other, Miami International Airport at or near Miami, Fla.; Hartsfield International Airport at or near Atlanta, Ga.; and Douglas Municipal Airport at or near Charlotte, N.C., restricted to the transportation of shipments having a prior or subsequent movement by air, and restricted against the transportation of shipments moving to Miami International Airport at or near Miami, Fla., which have a subsequent movement beyond Miami, Fla., in foreign commerce.

(8) *General Commodities* (except Class A and B explosives, household goods as defined by the Commission, commodities in bulk and commodities requiring special equipment), between Detroit Metropolitan Airport at Detroit, Mich., and Chicago O'Hare International Airport at Chicago, Ill., on the one hand, and, on the other, Logan International Airport at Boston, Mass. The purpose of this filing is to eliminate the gateways of: The John F. Kennedy International Airport, New York, N.Y., in (1), (2), (3), (4), (5), (6), (7), and (8) above; and the Baltimore-Washington International Airport in Anne Arundel County, Md. in (4) above.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

SMALL BUSINESS ADMINISTRATION

[Declaration of Disaster Loan Area #1195]

CALIFORNIA

Declaration of Disaster Area

Los Angeles County, and adjacent counties within the state of California, constitute a disaster area because of damage resulting from a fire which occurred November 23–28, 1975. Eligible persons, firms and organizations may file applications for loans for physical damage until the close of business on February 2, 1976 and for economic injury until the close of business on September 3, 1976 at:

Small Business Administration, District Office, 350 S. Figueroa St., 6th Floor, Los Angeles, California 90071.

or other locally announced locations.

Dated: December 3, 1975.

LOUIS F. LAUN,
Acting Administrator.

[FR Doc.75-33177 Filed 12-9-75;8:45 am]

VETERANS ADMINISTRATION

VETERANS ADMINISTRATION WAGE COMMITTEE

Notice of Meetings

Pursuant to the provisions of section 10 of Pub. L. 92–463, notice is hereby given that meetings of the Veterans Administration Wage Committee will be held on:

Thursday, January 15, 1976
Thursday, January 29, 1976
Thursday, March 11, 1976
Thursday, March 25, 1976

The meetings will convene at 2:30 p.m. and will be held in Room 1144C, Veterans Administration Central Office, 810 Vermont Avenue, NW., Washington, D.C.

The Committee's primary responsibility is to consider and make recommendations to the Chief Medical Director, Department of Medicine and Surgery, on all matters involved in the development and authorization of wage rate schedules for Federal Wage System employees.

At these scheduled meetings, the Committee will consider wage survey specifications, wage survey data, local committee reports and recommendations, statistical analyses, and proposed wage schedules derived therefrom.

Under the provisions of section 10(d) of Pub. L. 92–463, the Federal Advisory Committee Act, meetings may be closed to the public when they are concerned with matters listed under section 552(b), Title 5, United States Code. Two of the matters so listed are those related solely to the internal personnel rules and practices of an agency (5 USC 552(b)(2)), and those involving trade secrets and commercial or financial information obtained from a person and privileged or confidential (5 USC 552(b)(4)).

Accordingly, I hereby determine that the meetings cited above will be closed to the public because the matters considered are related to the internal rules and practices of the Veterans Administration (5 USC 552(b)(2)), and the detailed wage data considered by the Committee during its meetings have been obtained from officials of private establishments with a guarantee that the data will be held in confidence (5 USC 552(b)(4)).

However, members of the public who wish to do so are invited to submit material in writing to the Chairman regarding matters believed to be deserving of the Committee's attention. Additional information concerning these meetings may be obtained by contacting the Chairman, Veterans Administration Wage Committee, Room 1175, 810 Vermont Avenue, NW., Washington, D.C.

Dated: December 4, 1975.

[SEAL] R. L. ROUDEBUSH,
Administrator.

PART II:

SMALL BUSINESS ADMINISTRATION

BUSINESS LOAN POLICY

Guidelines

V40238 DEC 10 75 XUM

SMALL BUSINESS ADMINISTRATION

[13 CFR Part 120]

BUSINESS LOAN POLICY

Notice of Proposed Rulemaking

The Small Business Administration (SBA) is proposed amending its Business Loan Policy Regulations to:

1. Require Subsection (b) Lenders, commonly called Small Business Lending Companies (SBLCs), to maintain a liquidity reserve adequate to provide cash for operations and contingencies, and specify the eligible types of investments for idle funds;

2. Combine maintenance of records and preservation of records under one subsection of the Regulations;

3. Clarify the amount of fidelity bond coverage that is required for Subsection (b) Lenders; and

4. Add the accounting guidelines for Subsection (b) Lenders that were anticipated in Amendment 3, Revision 6 of Part 120 of SBA Regulations, which was adopted on February 21, 1975.

The accounting guidelines include (a) Audit Guide for Subsection (b) Lenders, (b) Guide for the Preparation of the Annual Report (SBA Form 1088) for Subsection (b) Lenders, and (c) System of Account Classification for Subsection (b) Lenders as Appendices A, B, and C, respectively, to Part 120 of SBA Regulations.

The Audit Guide is designed to assist the accountant in those areas that are distinctive to the Program, and does not attempt to identify specific procedures to be followed in the examination. Accordingly, the accountant will follow generally accepted auditing standards in performing the audit. The accountant's report is to be a short-form report as illustrated in the Guide.

The audit is to be an examination of the SBLC's financial statements. Accordingly, the statement contained in the Financial Report, Part I of SBA Form 1088, will be the basis of the accountant's opinion. The examination, however, is not expected to be extended to the schedules contained in the Management Report, Part II of SBA Form 1088.

The Guide for the Preparation of the Annual Report, SBA Form 1088, has been designed as a brief explanation of how the Annual Report, SBA Form 1088, is to be prepared and the source of the information reported. Although the format of the Annual Report is standardized, it is expected that only those statements and schedules that pertain to the company's operations should be included. The SBA Form 1088 has been designed to be a two-part report:

Part I—Financial Report.

Part II—Management Report.

The purpose of a two-part report is to distinguish between the primary financial information and the supporting analytical data. The Financial Report will contain the financial statements as audited by the SBLC's independent public accountant, the accountant's report, and notes to the financial statements. The Management Report is designed to present analytical data for Subsection (b) Lenders and is basic by design. It contains a brief statement of accounting principles and practices the lender is expected to follow, a chart of accounts, and a description of each account.

Prior to adoption of such amendments, consideration will be given to any comments that are submitted in writing, in triplicate, to the Associate Administrator for Finance and Investment, SBA, 1441 L Street, NW., Washington, D.C. 20416, on or before January 9, 1976.

Pursuant to the authority of 72 Stat. 387, as amended, 15 U.S.C. 636, sec. 572 Stat. 385, 15 U.S.C. 634, Part 120 of Chapter I of Title 13 of the Code of Federal Regulations is proposed to be amended as set forth below.

1. Sections 120.5(b) (6) and (7) are revoked. New §§ 120.5(b) (6) and (7) are added, paragraph (b) (8) (ii) is revised and appendices A, B, and C are added as follows:

§ 120.5 Operation of Eligible Participants.

* * * * *

(a) Special requirements applicable to Subsection (b) lenders.

* * * * *

(6) *Idle Funds.*

(i) *General.* Idle funds of a Subsection (b) Lender, commonly called a Small Business Lending Company (SBLC), may be invested in obligations of, or fully guaranteed as to principal and interest by, the United States; in insured accounts or certificates (up to the amount of the insurance) in any institution the investments or accounts of which are insured by the Federal Savings and Loan Insurance Corporation or the Federal Deposit Insurance Corporation.

Idle funds shall be invested in obligations that mature not later than one year after date of investment.

(ii) *Liquidity Reserve.* A Subsection (b) Lender (SBLC) shall maintain idle funds in such amounts as may be necessary to insure adequate liquidity and to provide cash for operations and contingencies as a minimum for contingencies shall be the aggregate of:

(A) Ten percent of the aggregate monthly amounts necessary to service the guaranteed portions sold or transferred.

(B) An amount equal to ten percent of the refundable portion of premiums on guaranteed portions sold or transferred.

(C) An amount adequate to fund fully all undisbursed portions of loan authorizations except any such undisbursed portions that are covered by firm commitments from other lenders to lend to the subsection (b) lender.

(7) *Maintenance and preservation of records.*

(i) *Maintenance of records.* A subsection (b) Lender shall maintain accurate and current financial records, including books of account, in accordance with Appendix C hereto. All financial records, minutes of meetings of stockholders, directors, executive committees, or other officials, and all documents and supporting materials relating to the said lender's transactions shall be maintained at its principal office, or at such other location as SBA may require: *Provided, however,* That securities held by a custodian pursuant to a written agreement shall be exempt from this requirement.

(ii) *Preservation of records.* Subsection (b) Lenders shall preserve, for the periods hereinafter specified and in a manner that permits the immediate location thereof, such documents which are the basis for financial statements required by section 120.7(b) (and of the accompanying independent public accountant's opinion), and shall:

(A) Preserve permanently—

(1) All general and subsidiary ledgers (or other records) reflecting asset, liability, capital stock and surplus, income, and expense accounts.

(2) All general and special journals (or other records forming the basis for entries in such ledgers); and

(3) The corporate charter, bylaws, application for determination of eligibility to participate with SBA, and all minute books, capital stock certificates or stubs, stock ledgers, and stock transfer registers.

(B) Preserve for at least six years following final disposition of the related loan—

(1) All applications for financing;

(2) Lending, participating, and escrow agreements;

(3) Financing instruments;

(4) All other documents and supporting materials relating to such loan, including correspondence.

Records and other documents referred to in this paragraph (7) may be preserved by microfilming: *Provided, however,* said lender shall cause a duplicate microfilm to be made on a current basis and stored separately from the original microfilm for the time required, and shall maintain at all times at its principal office, or at such other location as SBA may require, facilities for the projection and reproduction of the said microfilmed records.

* * * * *

(ii) *Fidelity insurance.* Each Subsection (b) Lender (SBLC) shall maintain a Brokers Blanket Bond, Standard Form 14, or Finance Companies Blanket Bond, Standard Form 15, or such other form of coverage as SBA may approve, executed by a surety holding a certificate of authority from the Secretary of the Treasury pursuant to 6 U.S.C. 6–13. The minimum amount of a fidelity bond acceptable to SBA shall be based upon the total amount of the assets of the Subsection (b) Lender as follows:

Assets:	*Minimum Coverage*
Up to $500,000	$25,000
$500,001 to $750,000	40,000
$750,001 to $1,000,000	50,000
$1,000,001 to $2,000,000	75,000
$2,000,001 to $3,000,000	100,000
$3,000,001 to $4,000,000	125,000
$4,000,001 to $5,000,000	150,000
$5,000,001 to $7,500,000	175,000
$7,500,001 to $10,000,000	200,000
$10,000,001 and over	(1)

(1) $200,000 plus $10,000 for each $1 million or fraction thereof over $10 million, except that no SBLC shall be required to provide and maintain a fidelity bond in an amount greater than $1 million.

Appendix A, Audit Guide for Subsection (b) Lenders, provides additional details concerning the fidelity bond requirements.

I. INTRODUCTION

A. *Statement of Policy.*—The independent public accountant engaged to examine the financial statements of a Small Business Lending Company (SBLC) is responsible to insure that the audit is made in accordance with generally accepted audited standards as expressed by the American Institute of Certified Public Accountants (AICPA) in its *Statement on Auditing Standards* (SAS). The auditor will also follow the provisions of this Guide as well as the Audit Guide for finance companies, *Audits of Finance Companies*, to the extent applicable which was issued by the AICPA and was effective for fiscal years beginning after December 31, 1973.

In carrying out the stated policies of SBA, independent public accountants engaged in the practice of public accounting are expected to participate in their localities in the audit program of SBLCs.

This Audit Guide for SBLCs (Audit Guide) was prepared by the Small Business Administration (SBA). Any inquiries or comments relating to the examination of financial statements of SBLCs or to auditing and reporting procedures should be directed to the Chief Accountant, Finance and Investment, Small Business Administration, 1441 L Street, NW., Washington, D.C. 20416.

B. *Purpose of the Audit Guide.*—The Audit Guide has been written primarily to assist auditors of SBLCs in their financial examinations by focusing on matters that are unique to the SBLC program. This Guide is not intended to be a substitute for the accountant's professional judgement as to the work required to meet generally accepted auditing standards.

C. *Application of the Audit Guide.*—SBLCs and their independent accountants are to follow the provisions of this Audit Guide and related accounting and reporting guidelines.

SBLCs will vary as to size of operation and lending experience. Publicly traded SBLCs will be subject to the rules and regulations of the Securities & Exchange Commission (SEC) as well as SBA Regulations. Inasmuch as the SEC promulgates accounting and reporting requirements for business entities under its jurisdiction, SBA may waive certain accounting and reporting requirements contained herein which duplicate SEC requirements.

II. SMALL BUSINESS LENDING COMPANIES

A. *Background.*—In accordance with the Small Business Act of 1953, as amended, SBA is empowered to make loans to small business concerns and such loans may be made or effected either directly or in cooperation with banks *or other lending institutions* (emphasis added). Sections 120.4–7 of the SBA Regulations are designed to provide the eligibility standards and operational guidelines for "other lending institutions" that are approved by SBA to the SBLCs. To aid the expanding capital needs of small business, SBLCs are to be corporations organized to participate in making and servicing SBA guaranteed loans to small business concerns. Such loans may be made under the provisions of any of SBA's financial assistance loan programs and as such will be subject to existing limitations on loan size and extent of SBA guarantee. SBLCs by definition are lending institutions that are not subject to supervisory control of State or Federal chartering, licensing or comparable regulatory authority.

B. *Regulations.*—Part 120 of SBA Regulations implements the Small Business Act of 1953, as amended, and applies to SBLCs. Included in Part 120 are three appendices:

Appendix	*Title*
A	Audit guide for SBLC's.
B	Guide for annual report.
C	System of account classification.

III. REPORTING REQUIREMENTS

A. *Financial Report.*—The Small Business Administration requires SBLCs to have their financial statements examined annually by independent public accountants approved by SBA. The annual audit shall be performed as of the close of the SBLCs fiscal year.

Three copies of the accountant's report which is to be based on the Financial Statements prepared in the format contained in Part I, SBA Form 1088, shall be submitted to SBA by the SBLC as soon as practicable after completion and no later than the last day of the third month following the close of the period covered by the audit. Attached to the report should be a copy of any transmittal letter, special reports, or similar communications furnished to the SBLCs by the auditor. If adjusting entries are furnished to the SBLC, they should be submitted to SBA.

The reporting requirements are more fully explained in Appendix B, Guide for the Preparation of Annual Report.

B. *Report on Effectiveness of Internal Control.*—A review of internal control is a significant procedure in the scope of any financial examination. Each SBLC is required to establish and maintain effective control over its securities, funds, and equipment. Dual control over disbursement of funds, withdrawal of securities from safekeeping, and segregation of duties of employees represent key features of such arrangements.

In determining the scope of the independent accountant's examinations, the effectiveness of internal control procedures must be tested. Therefore, it is important that the accountant set forth in a letter report his observations on the effectiveness of internal control together with any suggestions he might have for improvement. Such letter report is to accompany the audited financial report, Part I of SBA Form 1088.

C. *Reporting Irregularities.*—The independent public accountant shall promptly inform a responsible official of the SBLC and the Associate Administrator for Finance and Investment, Small Business Administration, 1441 L Street, N.W., Washington, D.C. 20416 concerning apparent defalcations or other financial irregularities that may come to his attention in connection with his examination. Based on available information, he will indicate the nature and extent of such defalcations or other irregularities.

D. *SBLCs Registered with the SEC.*—Concerning SBICs that are registered with the SEC, additional reports may be required by SEC. Any report submitted by an SBLC to the SEC shall also be submitted to the Associate Administrator for Finance and Investment, Small Business Administration, 1441 L Street, N.W., Washington, D.C. 20416.

E. *Special Management Reports.*—Frequently, the independent public accountant will render special reports to the SBLC's management. Examples are reports on evaluation of management controls and practices. A copy of such reports shall also be promptly submitted by the SBLC to the Associate Administrator for Finance and Investment, Small Business Administration, 1441 L Street, N.W., Washington, D.C. 20416.

IV. QUALIFICATION AND SELECTION OF AUDITOR

A. *Qualification of Accountants.*—SBA will not recognize any person as a certified public accountant who is not duly registered and in good standing as such under the laws of the place of his residence or principal office. SBA will not recognize any person as a public accountant who is not in good standing and who was not entitled to practice as such on or before December 31, 1971, under the laws of the place of his residence or principal office.

B. *Independence.*—Accountants approved by SBA as auditors of an SBLC are to follow the code of professional ethics adopted by the American Institute of CPA's. SBA will not recognize any certified public accountant or public accountant as independent who is not in fact independent. In determining whether an accountant may in fact not be independent with respect to a particular SBLC, appropriate consideration will be

V 40 N 238 DEC 10 75 XUM

given to all relevant circumstances, including evidence bearing on relationships between the accountant and such SBLC or any affiliate thereof

Accordingly, an accountant or a firm of which he is a partner or shareholder shall not express an opinion on financial statements of an SBLC unless he and his firm are independent with respect to such SBLC. Independence will be considered to be impaired if, for example:

1. During the period of his professional engagement, or at the time of expressing his opinion he or his firm:

a. Had or was committed to acquire any direct or indirect financial interest in the SBLC; or

b. Had any joint closely held business investment with the SBLC or any officer, director, or principal stockholder thereof which was material in relation to his or his firm's net worth; or

c. Had any loan to or from the SBLC or any officer, director, or principal stockholder thereof.

2. During the period covered by the financial statements, during the period of the professional engagement or at the time of expressing an opinion, he or his firm:

a. Was connected with the SBLC as a promoter, underwriter or voting trustee, a director or officer or in any capacity equivalent to that of a member of management or of an employee;

b. Performed bookkeeping services or did "write-up work" for the SBLC; or

c. Was a trustee of any trust or executor or administrator of any estate if such trust or estate had a direct or material indirect financial interest in the SBLC; or was a trustee for any pension or profit-sharing trust of the SBLC.

C. *Selection of the Auditor.* The responsibility for selecting the independent accountant is vested in the SBLC's Board of Directors. Unless otherwise advised by SBA, qualifying as an independent public accountant, as explained above, may be considered as having SBA approval to perform the annual audit (financial examination) upon selection by the Board, and the filing with SBA by such accountant of an executed IPA Certification, SBA Form 1084, certifying as to his qualification and independence. In the case of licensed public accountant(s), a summary of experience and qualifications is to be submitted.

It is strongly recommended that the Board give thorough consideration each year to the matter of selecting the public accountant to perform that year's audit. The Board under this policy selects an accountant with whom it agrees as to the scope of the engagement and basis of compensation. Notification to SBA is not necessary when the same accountant or accountants are retained for successive years. Notifications of the Board's selection will be furnished to the Chief Accountant, Finance and Investment, Small Business Administration, 1441 L Street, N.W., Washington, D.C. 20416. Such notification should include a complete explanation of why the old accountant was released and why the new accountant was retained.

The account released from the audit engagement is also to furnish the Chief Accountant a full explanation as to why he or his firm was released from the engagement.

Chief Accountant
Finance and Investment
Small Business Administration
1441 L Street, N.W.
Washington, D.C. 20416

IPA CERTIFICATION

Gentlemen:

I (we) have been selected by the Board of Directors of

_____
(Name of Small Business Lending Company)

_____ _____
(Address of SBLC's principal office) (Zip Code)

to conduct an annual examination of the SBLC's financial statements as of _____, 19__. In accordance with the provisions of Item IV of the SBA Audit Guide for SBLCs, (Check One):

☐ Independent* certified public accountant (or firm of CPAs)

☐ Independent* licensed public accountant (or firm of licensed PAs).

I certify that this accountant (or firm of public accountants) is authorized to practice in, and is in good standing under the laws of the state or other jurisdiction in which the principal office of the SBLC is located, and accordingly, qualified to perform the annual audit of the above named SBLC.

_____ _____
(Date) (Signature of individual practitioner or principal, if applicable)

_____ _____
(Date) (Signature of partner of accounting firm, if applicable)

_____
(Name under which individual practitioner or accounting firm is doing business)

_____ _____
(Business Address) (Zip code)

*Independent within the meaning of this term as used by the Small Business Administration. SBA will not recognize any public accountant as independent who is not in fact independent. For example, an accountant will be considered not independent with respect to any SBIC with which he has, or had during the period covered by the audit (financial examination), any direct financial interest or any material indirect financial interest; or with which he is, or was during such period, connected as a promoter, underwriter, voting trustee, investment adviser, director, officer, or employee, or in the capacity of rendering bookkeeping services.

SBA Form 1084

V40238 DEC 10 75 XUM

V. SCOPE OF AUDIT

The independent public accountant's audit is to be an examination of the SBLC's financial statements in accordance with generally accepted auditing standards as expressed by the AICPA. The auditor is to make an examination of the SBLC's financial statements that constitute Part I, SBA Form 1088 with the view toward expressing an opinion as to whether the financial statements present fairly financial position, results of operation, and changes in financial position in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year. The audit is not to be a "compliance audit" in the sense that the independent accountant is expressing an opinion as to whether the SBLC is operating in accordance with the Act and Part 120 of SBA Rules and Regulations.

Management is responsible for the preparation of the SBA Form 1088. All audit adjustments will be recorded in the SBLC's records before completion of the audit report so that financial statements accompanying the report will agree with the books as adjusted as of the statement date, giving consideration to reclassifications of account balances for report purposes.

VI. INDEPENDENT ACCOUNTANT'S REPORT

A. *Report Format.*—The independent accountant's report will be a "short-form report" as set forth in Section 500 of the SAS issued by the AICPA. The financial statements that consitute Part I of the Annual Reports, SBA Form 1088, will accompany the auditor's report as well as footnotes necessary to achieve full disclosure. The accountant's report shall be dated, signed, and will indicate city and state where issued.

B. *Opinion.*—The account's report will state clearly: (1) the opinion of the accountant in respect of the financial statements covered by the report and the accounting principles reflected therein; and (2) the opinion of the accountant as to the consistency of the application of the accounting principles, or as to any changes in such principles which have a material effect on the financial statements. Any matters to which the accountant takes exception shall be clearly identified, the exception thereto specifically and clearly stated, and, to the extent practicable, the effect of each such exception on the related finanial statements given.

C. *The Accountant's Workpapers.*—As a normal practice, the SBA Examiners review the accountant's workpapers in determining the scope of the SBA compliance examination. Therefore, the agreement between the SBLC and the accountant whereby the accountant is engaged to perform the audit (financial examination) must provide that the accountant's workpapers will be made available for review upon request from SBA.

VII. OTHER MATTERS

The independent accountant should satisfy himself that accounts not specifically mentioned in this audit guide are maintained in accordance with generally accepted accounting principles and audited in accordance with generally accepted auditing standards for finance companies or other commercial enterprises.

A. *Liquidity Reserve.*—The liouidity reserve, although not a funded reserve, is an amount of idle funds available to satisfy contingent items that may occur.

Section 120.5(b)(6) specifies the minimum amount of idle funds that should be maintained and the type of contingencies to be covered.

The auditor should satisfy himself that the funds are unrestricted and unencumbered.

B. *Participation Agreements.*—When a lending institution other than a bank is determined to be an eligible participant, SBA will enter into a participation agreement, SBA Form 1083, with the lender. This is a contractual arrangement between the central office of SBA and the SBLC and as long as this agreement is in effect, the SBLC may present loans to SBA District Offices for guarantee.

In addition to the participation agreement, the SBLC must execute with the district office with which it will be doing business the standard guarantee agreement (SBA Form 750 or 751).

Included in these agreements are certain covenants requiring action or performance by the SBLC, e.g. within five days of the first disbursement on account of each loan, lender (SBLC) shall pay SBA a one-time guaranty fee amounting to one percent of the total amount guaranteed by SBA. Noncompliance by the SBLC with the provisions of these guarantee agreements may result in SBA refusing to honor the guaranty in the event of a subsequent default by the borrower. The auditor should perform those audit steps considered necessary to determine that material contingent liabilities do not exist as a result of noncompliance by the SBLC with the guaranty agreements.

C. *Reserve for Losses.*—As explained in Sec. 120.5(b)(5) of SBA Regulations, the SBLC is required to maintain a reserve in the amount of anticipated losses on receivables and on the SBLC's share of all outstanding loans. Also, Item II. B. of Appendix C provides additional information on reserves for losses. The auditor should recognize that SBA does not require assets to be segregated and a funded reserve be maintained. Rather, the SBLC is considered to be in compliance with Sec. 120.5(b)(5) if the SBLC establishes an accounting reserve for anticipated losses on receivables, loans and assets acquired in liquidation of loans that are based on management's evaluation of the collectibility of such items and the reserves are considered materially adequate in the judgment of the auditor.

VIII. FIDELITY BOND

A. *Need for Bond.*—The Fidelity Bond requirements are set forth herein principally for the guidance of the SBLC in meeting its obligation to conform to such requirements.

Each SBLC shall obtain and maintain a Fidelity Bond, which must be executed by a Surety holding a certificate of authority from the Secretary of the Treasury pursuant to Section 6-13 of Title 6 of the United States Code as an acceptable Surety on Federal Bonds. Each officer and employee who has control over or access to cash, securities, or other property of the SBLC shall be covered by such Fidelity Bond. The form of Bond must meet the provisions or paragraphs B through D below.

B. *Type of Bond.*—The Fidelity Bond may be issued on a "Discovery" or "Loss-Sustained" basis. Each Bond shall contain minimum coverage equivalent to Insuring agreements (A) Fidelity, (B) On Premises, and (C) In Transit provided in Finance Companies Blank Bond Standard Form 14 and 15. Equivalent insurance coverage, as previously stated, constitutes satisfactory coverage. Insuring Agreements covering (D) Forgery or Alteration, (E) Securities, and (F) Counterfeit Currency, Misplacement Coverage, and Electronic Data Processing Coverage are not required. The Bond shall also contain a rider or endorsement providing that the Surety will notify the SBA, Associate Administrator for Finance and Investment, 1441 L Street NW., Washington, D.C. 20416, of its intent to cancel the Fidelity Bond at least 30 days in advance of the effective date of cancellation. At the option of the SBLC, a loss deductible clause not to exceed $1,000 will be permissible under all of the insuring agreements.

An SBLC may be covered as a joint insured under a Fidelity Bond if the coverage meets the above requirements.

C. *Coverage.*—The minimum amount of fidelity bond for each SBLC acceptable to SBA shall be $25,000. The amount of fidelity bond acceptable to SBA shall be based upon the total amount of the assets of the SBLC as follows:

Assets:	Minimum Coverage
Up to $500,000	$25,000
$500,001 to $750,000	40,000
$750,001 to $1,000,000	50,000
$1,000,001 to $2,000,000	75,000
$2,000,001 to $3,000,000	100,000
$3,000,001 to $4,000,000	125,000
$4,000,001 to $5,000,000	150,000
$5,000,001 to $7,500,000	175,000
$7,500,001 to $10,000,000	200,000
$10,000,001 and over	(1)

[1] $200,000 plus $10,000 for each $1 million or fraction thereof over $10 million, except that no SBLC shall be required to provide and maintain a fidelity bond in any amount greater than $1 million.

D. *Cancellation and Claims by the SBLC.*—Each SBLC, at least 30 days prior to making any request to the Surety to terminate or cancel such bonds, shall notify SBA in writing of its intent to terminate or cancel the bond. Each SBLC shall notify SBA immediately in writing of any claim for loss filed under the bond with the Surety. Such notifications to SBA shall be by certified mail addressed to the Associate Administrator for Finance and Investment, Small Business Administration, 1441 L Street, N.W., Washington, D.C. 20416.

IX. FINANCIAL STATEMENTS

The primary financial statements of SBLCs include a Balance Sheet, Statements of Income and Retained Earnings, and a Statement of Changes in Financial Position. Such statements constitute the Financial Report, Part I of SBA Form 1088, and are required to be presented in the prescribed format. Appendix B provides additional instructions for the preparation of the Annual Report, SBA Form 1088. The following is a brief description of the financial statements and standard notes.

A. *Balance Sheet.*—The Balance Sheet is presented in a conventional format. Because of their significance, loans and assets acquired in liquidation of loans are shown as separate categories of assets.

B. *Statement of Income and Retained Earnings.*—The Statement of Income and Retained Earnings is designed in a conventional format, although it includes considerable detail on revenue and expense data by functional categories. Earnings per share is computed and retained earnings is determined. Accounting principles Board Opinion No. 9, *Reporting Results of Operations*, contains the applicable principles expressed by the AICPA.

C. *Statement of Changes in Financial Position.*—The Statement of Changes in Financial Position includes all changes in financial position resulting during the fiscal year. The objectives of this statement are (1) to summarize the financing and investing activities of the SBLC, including the extent to which the SBLC has generated cash and invested idle funds, and (2) to complete the disclosure of changes in financial position during the period. Accounting Principles Board Opinion No. 19, *Reporting Changes in Financial Position*, contains the applicable principles expressed by AICPA.

D. *Notes to Financial Statements.*—Included in the Notes to the Financial Statements will be information considered necessary to achieve full disclosure in accordance with generally accepted accounting principles.

APPENDIX B—ANNUAL REPORT FOR SMALL BUSINESS LENDING COMPANIES

- P. Schedule of Management and Ownership (Schedule 13).

I. INTRODUCTION

A. *Statement of Policy.*—Small Business Lending Companies (SBLCs) approved by the Small Business Administration (SBA) are required to submit to SBA annual reports and interim reports when required. Such reports will be submitted on SBA Form 1088 and will be prepared in accordance with the instructions in this guide and generally accepted accounting principle.

This guide was prepared by SBA. Inquiries or comments relating to these instructions or the Annual Report, SBA Form 1088, should be directed to the Chief Accountant, Finance and Investment, 1441 L Street NW., Washington, D.C. 20416.

B. *Purpose.*—This guide (Appendix B) provides instructions for the preparation of the Annual Report, SBA Form 1088. The report and related instructions have been prescribed to provide standard reporting requirements and to ensure that uniform and comparable data is submitted to SBA by all SBLCs in a timely manner.

C. *Organization of the Annual Report.*—The Annual Report is comprised of two parts: Financial Report (Part I) and Management Report (Part II). The Financial Report includes the SBLCs financial statements, and will be the basis for the independent accountant's opinion. Such statements will present financial position, results of operations, and changes in financial position. Also included will be appropriate notes to the financial statements necessary to achieve full disclosure. The Management Report contains supplementary data on the SBLC's operations which is unaudited.

D. *Reporting Requirements.*—1. *Annual Report (SBA Form 1088).*—Three copies of the Annual Report shall be submitted to SBA by the SBLC as soon as practicable after completion and no later than the last day of the third month following the close of the SBLC's fiscal year.

The financial report shall be prepared in the prescribed format and shall accompany the accountant's report. Attached to each copy of the Financial Report should be a copy of any transmittal letter, special reports, or similar communications furnished to the SBLC by the auditor. If adjusting entries are furnished to the SBLC with the report, they should be submitted to SBA.

The Management Report will be submitted with the Financial Report and both will accompany, and be covered by, the certification.

2. *Interim reports.*—Upon request, SBLCs will submit to SBA either the complete SBA Form 1088 or a part thereof; i.e., the financial report or the management report. Such reports are considered interim in that they cover less than a full year of operations and financial report is not audited by the SBLCs independent accountant. Accordingly, such interim reports are in addition to, not in lieu of, the annual report.

3. *Regulated SBLCs.*—Concerning SBLCs that are registered with the Securities and Exchange Commission (SEC), additional reports may be required by SEC. It should be noted that any report submitted to SEC shall also be submitted to SBA.

4. *Where to submit reports.*—All reports rendered to SBA are to be submitted to the Associate Administrator for Finance and Investment, Small Business Administration, 1441 L Street, N.W., Washington, D.C. 20416.

E. *Accounting and Reporting Policies.*—Except as expressly required in Appendix C, SBLCs are to follow generally accepted accounting principles as set forth by the accounting Standards Board (FASB) and its predecessor groups.

A primary objective to be kept in mind is that the information reported should be disclosed in a manner that will cause the data to be understandable and useful to the reader and at the same time achieve a fair presentation. Accordingly, there shall be adequate footnote disclosure so as to make the statements not misleading. A certification by the authorized corporate official of the SBLC as to completeness and reliability will be required on all statements other than those containing an independent accountant's opinion.

The schedules in Part II of this report are designed to cover a variety of situations. The preparer of the report, however, should recognize that when a particular schedule does not apply to the SBLCs' operations, the schedule should be omitted. However, when the schedules are omitted, their omission shall be indicated by attachment to the management certification at the beginning of the report.

F. *Management Certification.*—The certification of the Annual Report, SBA Form 1088, shall bear the signature of the chief financial officer of the SBLC, or other officer authorized by the board of directors to sign in the event the chief financial officer is unavailable. The Corporate Secretary of the SBLC shall attest by signature to the fact that the minutes of a meeting of the board of directors show that the Annual Report, SBA Form 1088, has been reviewed and approved by the board of directors. The date on which each signature is affixed shall be shown. All signatures on all copies of the Annual Report, SBA Form 1088, submitted to SBA shall be original signatures in ink.

* Title 18 U.S.C. Sec. 1001 and Criminal Procedure, makes it a criminal offense subject to a maximum fine of $10,000 or imprisonment for not more than 5 years, or both to knowingly and willfully make or cause to be made any false or fraudulent statements or representations in any matter within jurisdiction of any agency of the United States. Title 15, Section 645(a) subjects to punishment by fine and/or imprisonment any person making a false statement or willfully overvaluing any security, for the purpose of obtaining for himself or another any loan, extension thereof, or the acceptance, release or substitution of security therefore, or for the purpose of influencing in any way the action of SBA, or for the purpose of obtaining money or anything of value.

SBA Form 1088 (9/75) RD: Appendix B

II. FINANCIAL REPORT

A. *General.*—The Financial Report (SBA Form 1088, Part I) is designed to present the SBLC's financial statements as audited by the independent public accountant. Accordingly, the statements are based on the transactions recorded in the accounts. This Appendix contains standard formats and suggested notes of disclosure. The preparer of this report should keep in mind that the amounts are to be rounded to the nearest dollar.

B. *Independent Accountant's Report.*—The Accountant's Report is to be a short-form report and it is expected to contain an unqualified opinion. Such opinion should be expressed on the financial statements contained in Part I of SBA Form 1088 and not on separate statements. For further information on the Accountant's Report, see Appendix A, *Audit Guide for SBLCs*.

The following sample accountant's report is included for illustrative purposes and is not intended to cover the various situations that may arise in practice.

STEIN & STEIN, CPA's,
222 Carmichael Avenue,
Washington, D.C. 20016.

To: The Stockholders and Board of Directors of Becker Finance Company.

We have examined the balance sheet of Becker Finance Company as of December 31, 19—, and the related statements of income and retained earnings and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the aforementioned financial statements present fairly the financial position of Becker Finance Company at December 31, 19—, and the results of its operations and the changes in its financial position for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

March 28, 19—.

STEIN & STEIN.

C. *Balance Sheet.*—The Balance Sheet is designed to measure the SBLC's financial position as of the statement date in a conventional format. After the first year of operation, the Balance Sheet is to be on a comparative basis.

The following Statement Format is to be used by all SBLCs.

V40238 DEC 10 75 XUM

Name of SBLC: _____

Balance Sheet

SBA Form 1088, Part I (9/75)

D. *Statement of Income and Retained Earnings.*—The Statement of Income and Retained Earnings is designed to measure the SBLCs' results of operations as well as changes in retained earnings in accordance with APB No. 9.

Revenue is classified according to source such as interest income, fees for processing applications, consulting and other income as well as gain or loss on sale of guaranteed portions of loans. Expenses are grouped according to renumeration, initiating and servicing costs, other costs and provisions for probable losses. Also, earnings per share is to be measured.

The Statement Format is to be used by all SBLCs is as follows:

Name of SBLC: _____

Statement of Income Retained Earnings

For _____ months ended _____, 19___

REVENUE:			
1. Interest Income			$
2. Application and Processing Fees			
3. Loan Servicing Fees			
4. Consulting and Other Income			
5. Sale of Guaranteed Portion of Loans		$

28.	Total Funds Applied	$_____

SBA Form 1088, Part I (9/75)

F. *Notes to Financial Statements.*—Notes to the Financial Statements are to be included, which are necessary to achieve full disclosure and which are necessary so as to make the statements not misleading.

The following is a list of items that usually are found in footnotes. The list is not inclusive but contains examples of accounting policies and financial circumstances that might be disclosed in accordance with generally accepted accounting principles.

1. Significant Accounting Policies:
a. Recognition of interest income.
b. Income taxes.
c. Property (if material)—Depreciation.
d. Recognition of revenue from fees.
e. Other.
2. Long-term Debt.
3. Property.
4. Contingent Liabilities and Commitments.
5. Principles of Consolidation.
6. Assets Subject to Lien.
7. Pension and Retirement Plan.
8. Restrictions on Retained Earnings.
9. Leased Assets and Lease Commitments.
10. Other Disclosures Required by Generally Accepted Accounting Principles.

III. MANAGEMENT REPORT

A. *General.*—The Management Report (Part II, SBA Form 1088) is designed to provide SBA with analytical data on the SBLC's operations.

The schedules in this report are designed to cover a variety of situations. The preparer of the report, however, should recognize that when a particular schedule does not apply, the schedule should be omitted. Accordingly, if the SBLC has no assets acquired in liquidation, schedules 6 and 7 would be omitted.

B. *Coversheet.*—The coversheet of the Management Report should show the following information centered on the page:

Name of SBLC:----------
City and State:----------
Identification No:----------

Management report
period ended ----------, 19--.

C. *Content of Report.*—The table of contents to the Management Report summarizes the information contained in the report and is as follows:

TABLE OF CONTENTS

	Schedules
Size and Classification	1
Overview of SBLC's Operations	2
Schedule of:	
Portfolio Serviced	3
Assets Acquired in Liquidation of Loans	4
Loans Sold During the Period	5
Commitments and Unfunded Loans to Smal Business Concerns	6
Delinquencies Aged	7
Allowance for Losses	8
Cash and Invested Idle Funds	9
Liquidity Reserve	10
Capital Stock of SBLC	11
Options on SBLCs Capital Stock	12
Schedule of Management and Ownership	13

D. *Size and Classification (Schedule 1).*—This data sheet provides information on the SBLC's size, ownership, and investment policy.

1. *Size*—should be measured in total portfolio being serviced. This measurement is indicative of the lenders activity and size

2. *Ownership*—is measured according to bank domination or association, ownership by another corporate entity, or individual ownership.

Bank domination refers to ownership of 50% or more of the SBLC's stock by a Bank or Bank Holding Company. If the Bank or Bank Holding Company controls between ten percent to fourty-nine percent (10%–49%) of the stock, the SBLC is considered to be Bank Associated.

SBLCs are presumed to be owned by a financial corp. or nonfinancial corp. if 50% or more of its stock is owned by such corporation. Otherwise, the SBLC's ownership is considered to be "individually owned."

Concerning public or non-public, i.e., private ownership, a company's stock is considered to be publicly owned if the company has sold its stock in the market place to raise capital and it is regulated by the Securities and Exchange Commission. Otherwise, the company is considered to be privately owned.

3. *Investment Policy*—should be that which the SBLC had adopted as set forth in its proposal to operate, as amended.

4. *SBIC Association*—An SBLC is considered to be associated with an SBIC when it comes within the definition of Section 120.1(d) of SBA Regulations.

SCHEDULE 1

SIZE AND CLASSIFICATION

Size.—In total loans being serviced
- ☐ Zero to $10 million.
- ☐ $10 million to $20 million.
- ☐ $20 million to $50 million.
- ☐ $50 million to $100 million.
- ☐ over $100 million.

Ownership.—
- ☐ Bank Dominated (50% or more owned by Bank or Bank Hold. Co.).
- ☐ Bank Associated (10% to 49% owned by Bank or Bank Hold. Co.).
- ☐ Financial corp. other than Bank or Bank Hold. Co. (Including SBICs):
  - ☐ Public.
  - ☐ Non-public.
- ☐ Non-Financial Corp.
  - ☐ Public.
  - ☐ Non-public.
- ☐ Individually owned:
  - ☐ Public.
  - ☐ Private.

Loan policy.—
- ☐ Diversified.
- ☐ Non-diversified.

(SIC code, 4 digit ----------)

SBIC Association.—
- ☐ Yes, if yes, state Name of Licensee. ----------
- ☐ No, License No.: ----------

(Check One)

E. *Overview of SBLC's Operations (Schedule 2).*—The overview is intended to be a summary of the SBLC's operations for the period completed viewed from the standpoint of the SBLC's management. It should highlight significant events affecting the SBLC's operations that would assist the reader in understanding the data contained in the report. It should be limited to information not otherwise made available to SBA and contain analysis of specific data contained elsewhere in the report.

The overview is intended to be a brief narrative summary of the SBLC's operations during the year recently completed. It will summarize activities involving such things as applications for loans received from small business concerns, loans made, sale of guaranteed portions, etc.

In those instances where the SBLC has assets acquired in liquidation of loans, progress toward disposing of such assets should be summarized if the SBLC is liquidating the loan. The overview should include comments on matters relating to SBA Regulations and other matters of interest considered appropriate.

It is also contemplated that the overview will include success stories where they occur, have been accomplished, and can be measured.

Regarding the coming year, significant events expected to occur that will significantly affect the SBLC's operations should be highlighted. It is intended to be a summary of the SBLC's equity and debt projected needs and commitments for the coming year. Describe the anticipated amount of funds needed for small business loans and the sources of such funds. Provide details of proposed new stock offers, credit agreements, line-of-credit arrangements, etc. to include amounts, dates, names and sources, terms, restrictions, etc. In short, this summary should provide management's appraisal of the ability of the SBLC to meet its capital demands for the next year.

F. *Schedule of Portfolio Serviced (Schedule 3).*—This schedule includes all loans the SBLC is serving at the balance sheet date whether or not the guaranteed portion has been sold or transferred. When more than one SBA District Office has the responsibility to perform according to the terms and conditions of the guarantee, the loans should be grouped and reported on a separate schedule by district office. The District Office should be identified in the upper left corner of the schedule.

The schedule of servicing portfolio shall contain the following columns:

1. *Borrower*—Loans are to be grouped alphabetically. Show name of business and address limited to city and state.

2. *SIC Code*—Show the four digit SIC code for the business.

3. *Financing Date*—As a general rule, the date the loan was disbursed shall be shown as the financing date. In those instances where multiple disbursements are made, the initial disbursing dates and the final disbursing date shall be shown.

4. *Percent of SBA Guarantee*—The percent of SBA's guarantee on the loan should be specified. In those instances where SBA's involvement is an immediate participation, the amount of the participation will be stated.

5. *Total Loan Balance*—State the amount of the loan balance at the balance sheet date including the participations sold.

6. *Participation Sold*—State the balance of participations sold or transferred. Include in this column the amount of immediate participations by SBA or other transfers.

7. *Lender's Share of Loans*—The lenders share of loans will be column 5 minus column 6. The total of this column should agree with item 8 of the balance sheet.

8. *Allowance for Loss on Loans*—The amounts shown in this column will represent management's estimate of anticipated loss on the SBLC's share of loans as of the Balance Sheet date. The total of this column should agree with item 10 of the Balance Sheet.

9. *Delinquencies*—The amount shown in this column will represent the amount of principal past due on the amount of loans shown in column 5.

10. *Action taken on Delinquencies*—By use of a legend key, specify the action being taken on loans that are delinquent. The following legend items should be used:

a. Loans being serviced.
b. Requests made to SBA for repurchase (Specify date)
c. Loan repurchased (Specify date).
d. Other action (Specify).

11. *Value of Collateral*—The estimated value of collateral for delinquent loans should be specified.

SCHEDULE 3

Name of SBLC: _____

Schedule of Portfolio Serviced (In Dollars Only -- No Cents)

As of _____, 19__

Borrower (1)	SIC Code 4 digit (2)	Finance Date (3)	% of SBA Guaranty (4)	Loan Balance Total (5)	Loan Balance Portion Sold (6)	Loan Balance Lender Share (7)	(a) Allow. for Losses (8)	(b) Delinquencies Amount (9)	(b) Delinquencies Action Taken (10)	Value of Collateral (11)

(a) Allowance for losses is to be established on only the lender's share of the loan balance.
(b) Delinquencies should include principal amounts that are past due by more than one month.

SBA Form 1088, Part II (9/75)

G. *Schedule of Assets Acquired in Liquidation of Loans (Schedule 4).*—This schedule includes the SBLC's interest in assets acquired in liquidation of loans as of the statement date and the related activity during the accounting period.

The assets should be grouped according to the following three categories:

1. *Certificates of Interest*—which result when SBA liquidates the assets in an effort to collect on the loan. SBA will issue the SBLC a Certificate of Interest for its share of the loan.

2. *Amounts Due From Debtors on Sale of Assets Acquired*—which result when the SBLC takes a note as consideration in whole or in part for the sale of an asset which it acquired in liquidation of a loan.

3. *Other Assets Acquired*—represents all other assets acquired. Each asset should be identified in Column 1 by the former debtor or small business concern. The assets held should be described in Column 2. The balance at the beginning of the reporting period, additions and deductions during the period, and balance at the close of the period should be shown in Columns 3, 4, 5, and 6 respectively. The allowance for losses established for the reporting company's portion of the assets held on a specific identification basis should be shown in Column 7. Current market value or fair value as determined by the board of directors at the close of the period shall be shown in Column 8.

V40238 DEC 10 75 XUM

SCHEDULE 4

Name of SBLC:
Schedule of Assets Acquired in Liquidation of Loans
As of _____, 19__

Name Location by City And State of Small Business Concern (Former Debtor)	Description of Assets Held	ASSETS ACQUIRED			MEMORANDUM	
		Balance at Beginning of Period	Additions During Period	Deductions During Period	Balance at Close of Period	Allowance for Losses at Close of Period (a)	Market, or Fair Value Determined The Board Thereof
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)
Total							

(a) On this schedule or on attached sheet give complete details of any charges to this account during the period representing the write-off assets acquired of loans and debt securities.

H. *Schedule of Loans Sold During the Period* (*Schedule 5*).—This schedule summarizes certain information on loans sold. In those cases where more than one SBA District Office has the responsibility to perform according to the terms and conditions of the loan guarantee, the loans sold should be grouped and reported on a separate schedule by District Office. The District Office should be identified in the upper left corner of the schedule. The schedule will contain the following column headings:

1. *Identification of Loan.*—Show the name of the borrower and address limited to city and state.

2. *Sale Price.*—Show the amount paid for the loan net of selling expenses, if any.

3. *Cost of Loan Sold.*—Show the SBLC's cost of the portion of the loan sold.

4. *Gain or (Loss) on Loan.*—This amount will result from selling the loan (column 3 minus 4).

5. *Service Fee.*—The service fee to be paid the SBLC by the purchaser should be shown in this column and expressed in terms of dollars as an annual fee.

6. *Tri-part Agreement Executed.*—There should be an identifying mark under "yes" or "no" in the column indicating whether the Tri-part Agreement has been executed.

7. *Purchaser.*—Identify in this column the purchaser of the loan by name and address limited to city and state.

SCHEDULE 5

Name of SBLC: _____
Schedule of Loans Sold During the Period (In dollars only -- no cents)
As of _____, 19__

Loan Identification	Net Sales Price	Cost	Gain (Loss)	Service Fee	Tri-part Agreement[a]		Purchaser
					Yes	No	
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)
TOTAL							

(a) Tri-part Agreement should be executed on every loan sold.

I. *Schedule of Commitments and Unfunded Loans to SBCs (Schedule 6).*—This schedule should include both unfunded loan authorizations and commitments the SBLC has issued that are subject to SBA approval. When more than one SBA District Office has the responsibility to perform according to the terms and conditions of the agreement, the loans should be grouped on separate schedules by District Offices. Accordingly, the District Office should be identified in the upper left corner of the schedule.

The schedule should contain the following columns:

1. *Borrower*—Show alphabetically the name of the small business concern and address by city and state.

2. *Date*—Show the date of the authorization.

3. *Amount of Loan*—Show the balance of unfunded loan authorizations.

4. *Date*—Show the date of loan commitments.

5. *Amount of Commitment*—Show the amount of the outstanding commitment.

V40238 DEC 10 75 XUM

J. Schedule of Delinquencies Aged (Schedule 7).—This schedule includes all delinquent loans of those being serviced by the SBLC as of the balance sheet date that have not been repurchased by SBA. When more than one SBA District Office has the responsibility to perform according to the terms and conditions of the agreement, the loans should be grouped on a separate schedule by the District Office. The District Office should be identified in the upper left corner of the schedule.

The schedule should contain the following columns:

1. *Borrower*—Delinquent loans are to be grouped by borrowers alphabetically.
2. *Loan Balance*—Show the balance of the loan being serviced at the balance sheet date.
3. *Amount Past Due*—This amount will include both principal and interest past due and will be subdivided as to length of time delinquent as follows:
   a. *0–30 days*—list amounts that are past due by 30 days or less.
   b. *31–60 days*—list loans where payments are no less than 31 days nor more than 60 days past due.
   c. *61–90 days*—list loans where payments are no less than 61 days or more than 90 days past due.
   d. *91–120 days*—list loans where payments are over 90 days past due.
   e. *over 120 days*—list loans where payments are over 120 days past due.
   f. *Total amount past due*—show the total of amounts past due for both principal and interest. This amount should be the total of columns a–e.

k. *Schedule of Allowance for Losses (Schedule 8).*—This schedule analyzes the activity in allowance for losses which are established on (a) receivables, (b) Loans, and (c) asset acquired in liquidation of loans. The schedule shows the beginning balance, increases, decreases, and ending balance for each type of allowance for losses.

The allowance for loss on loans is to be established only on the SBLC's interest in loans and excluding the portion sold or transferred to a third party.

Appendix C contains specific guidance on the establishment of allowance for losses.

The schedule format to be followed is as follows.

SCHEDULE 8

Name of SBLC: _____

Analysis of Allowance for Losses

As of _____, 19___

Description	Receivables	Loans	Assets Acquired	Total
1. Balance, Beginning of period				
2. Provisions during the period				
3. Other Increases				
4. Total Increases (2 and 3)				
5. Write offs during the period				
6. Other decreases				
7. Total decreases (5 and 6)				
8. Net change (item 4 minus 7)				
9. Balance, End of period				

Remarks:

L. Schedule of Cash and Invested Idle Funds (Schedule 9).—Cash will be reported on Schedule 9(a) and Invested Idle Funds will be reported on Schedule 9(b).

Schedule 9(a)—Cash.—Cash on hand and in time deposits, funds in interest bank accounts, demand deposits, funds in non-interest bank accounts. Demand deposits are balances subject to withdrawal without notice and shall be in commercial banks which are members of the Federal Deposit Insurance Corporation. Cash items in process of collection represent those cash items which have been placed with banks for collection. Petty cash shall represent the full amount of the petty cash imprest fund. The amount shown on line 7 should be the same amount reported on line 1 of the Balance Sheet.

Schedule 9(b)—Invested Idle Funds.—Show in Schedule 9(b)(1) securities owned which have been issued or guaranteed by the U.S. Government, showing the name of the issuer and the title of each issue. Other required data, such as interest rate, call date, maturity date, and principal amount at par of bonds and notes, may be obtained by inspection of the securities or from records of securities pledged. The cost of the securities shall be shown in column (8) and the current market value thereof in column (7).

Show in Schedule 9(b)(2) funds invested in insured savings accounts and funds on time deposit in commercial banks which are members of the Federal Deposit Insurance Corporation. Savings accounts shall be with institutions the accounts of which are insured by the Federal Savings and Loan Insurance Corporation. Time deposits shall include all time certificates of deposit held by the company in commercial banks which are members of the Federal Deposit Insurance Corporation.

The amount shown in Schedule 9(b)(2) line 5 representing invested idle funds and should be the same amount as shown on line 2 of the Balance Sheet.

The amounts contained in this schedule can be obtained from the accounts as follows:

In Schedule 9(a), item 1 is based on accounts 100 through 108, item 2 is based on accounts 110 through 112, item 3 is based on account 118, and item 4 is based on account 120.

Schedule 9(b)(2), columns 1 and 3 are based on accounts 131 through 134, and columns 2 and 4 are based on accounts 135 through 137.

SBA FORM 1088 - Part II

M. Schedule of Liquidity Reserve (Schedule 10).—This schedule is designed to compute the minimum liquidity reserve required by Section 120.5(b)(8) of the SBA Regulations. The schedule format is as follows:

SCHEDULE 10

Name of SBLC: _____

Analysis of Liquidity Reserve

As of _____, 19__

1. Cash and Invested Idle Funds ..... $_____

Reserve Requirements

2. Monthly payments on Guaranteed portions ... $_____
3. 10% of monthly payments (line 2 above) ..... $_____
4. Undisbursed Loan Authorizations ..... $_____
5. Less: Firm Commitments receivable for funding loans ..... $_____
6. Balance ..... _____
7. Refundable Unearned Discounts ..... $_____
8. 10% of Refundable Discounts (line 7 above) ..... _____
9. Total Reserve Required (lines 3, 6, and 8) ..... _____
10. Excess (deficient) Invested Idle Funds (lines 1 less 9) ..... _____

List Undisbursed Loan Authorizations:

Borrower	Amount

SBA Form 1088, Part II (9/75)

V40238 DEC 10 75 XUM

N. *Schedule of Capital Stock of SBLC (Schedule 11).*—Furnish in this schedule a complete description of the company's capital stock authorized, capital stock issued and outstanding, data relating to special transactions involving capital stock.

In column (1) describe the type and class of each issue, such as common—$5 par, preferred (7 percent Series of 1975), etc. The par value or, for no-par stock, the stated value shall also be reported in column (1). The number of shares authorized, whether issued or not, shall be reported in column (2).

The number of shares and amount, at par or stated value, of stock issued and not retired or cancelled shall be reported in columns (3) and (4). The total of column (4) shall agree with item 36 of the Balance Sheet. The number of shares held as treasury stock shall be shown in column (5). Column (6) will represent the difference between column (3) and column (5).

Column (7) shall be the amount at par or stated value representing the number of shares outstanding as shown in column (6). The total of column (8) shall represent the amount of capital stock subscribed at the subscription price. In column (9) shall be reported the amount of subscription receivable. Column (10) shall show the number of shares (other than those under option) reserved for purchase by officers and employees, and column (11) shall show the number of shares reserved to cover options and other rights).

The information reported in this schedule is based on accounts 400 through 419.

O. *Scheduled Options on SBLC's Capital Stock (Schedule 12).*—Furnished in this schedule full information concerning outstanding capital stock options which have been granted by the company. Such information should be recorded in Memorandum Account OCS–1.

The holder of each option shall be identified in column (1). The number of shares optioned shall be shown in column (2). In column (3) shall be described the type and class of stock called for by the option, such as common $5 par, preferred (7 percent Series of 1975), etc.

Column (4) shall show the grant and expiration dates of each option and column (5) shall set forth the price or prices at which each option is exercisable, together with the period during which each price applies.

Column (6) shall show the fair market value, per share, of stock called for by each option, at the date the option was granted. The price at which the option is exercisable as a percentage of fair market value, per share, of the optioned stock at the date of granting shall be shown in column (7). Column (8) shall set forth the provisions made with respect to each option in the event of the optionee's death or retirement, or other circumstances.

The fair market value, per share, of stock called for at the date the option was granted, if not ascertainable on the basis of actual market, shall be as determined by the board of directors in good faith.

P. *Schedule of Management and Ownership* (*Schedule 13*).—Furnish in this schedule the information specified regarding the SBLC's officers, directors, and employees authorized to approve loans. The schedule should contain the following columns:

1. *Name and Address*—List the name and address of the following:

(a) Each officer, director, or employee authorized to approve loans, (List and identify officers and directors, and employee regardless of whether or not they own any equity securities of the company.)

2. *Officer, Director and Key Employee*—Identify each officer, director, employee authorized to approve loans as a combination of any of the three.

3. *Type of Business*—Indicate the type of business in which each listed person or company is engaged.

4. *Class of Stock*—Show the class of stock owned by any person or company

5. *Nature of Ownership*—Indicate whether the securities are owned both of record and beneficially, of record only, or beneficially only.

A. Asset and Valuation Accounts.
B. Liability Accounts.
C. Capital Accounts.
D. Income Accounts.
E. Expense Accounts.
V. Contingent Liabilities.

I. INTRODUCTION

A. *Statement of Policy.*—Subsection (b) Lenders, less technically called Small Business Lending Companies (SBLCs), are to maintain their books of account in accordance with the system of account classification and accounting policies herein prescribed. Accounting principles and practices set forth herein are in accordance with generally accepted accounting principles as set forth by the American Institute of Certified Public Accountants.

Nothing contained in this system of account classification can, or is intended to, authorize or approve any operation or action by an SBLC, or any other action, not authorized or approved by the Small Business Act, as amended, or the Rules and Regulations promulgated thereunder.

This system of Account Classification was prepared by SBA. Any inquiries or comments relating to the system should be directed to the Chief Accountant, Finance and Investment, Small Business Administration, 1441 L Street, N.W., Washington, D.C. 20416.

B. *Purpose of the System.*—This system has been prescribed to insure that standard books of account are maintained by SBLCs and that uniform accounting policies are followed. By design, the system is basic and may be expanded if necessary.

C. *Maintenance and Retention of Records.*—The SBLC's books and records shall be maintained at its principal place of business. Books and records shall include its books or account, and other records, and memoranda which support the entries in its books of account. These supporting records shall be maintained in such manner as to permit information to be readily available on any item included in any account. The books and records referred to herein include not only accounting records in a limited technical sense, but other records, such as minute books, capital stock records, reports, correspondence, and memoranda which may be useful in developing the history of facts regarding any transaction.

Section 120.5(b)(7) of SBA Rules and Regulations specifies the time periods for which records are to be maintained.

II. ACCOUNTING POLICIES & PRACTICES

As a general rule, accounting policies followed by SBLCs are those promulgated by the American Institute of CPA's as generally accepted accounting principles and practices. Certain of these principles and practices are prescribed in the AICPA's Audit Guide for Finance Companies.

Certain accounting policies SBLCs are to follow are summarized below. The summary is intended to highlight the more significant policies and practices rather than being an all inclusive statement.

A. *Basis of Accounting.*—Books of account shall be maintained on an accrual basis and, at the end of each month, transactions shall be posted to the general ledger. Entering in the records and posting to the general ledger of accruals applicable to each month is optional but all accruals are to be entered in the records and posted as the end of the fiscal year, and as of such other dates as mark the close of periods to be covered by interim or special financial reports required to be furnished to SBA including the examination by SBA Examiners.

B. *Reserve for Losses.*—The basis of accounting for receivables and loans is cost with a reserve for loss. Receivables in this broad sense include:

Notes and accounts receivable.
Accrued interest receivable.
Assets acquired in liquidation of loans.

"Cost" is usually the carrying value of the receivable. In the case of loans, it is the face of the note in which interest is not included.

Adequate provision for loss is essential. Fair presentation of the financial position of the SBLC, in conformity with generally accepted accounting principles, requires related allowance for losses to be sufficient to cover the estimated losses even though specific uncollectible accounts cannot be identified, provisions necessary to record allowance needed to cover losses not originally anticipated must be treated as ordinary charges to operations for the period in which the loss becomes evident.

C. *Tax Allocation Policy.*—Tax allocation policies as set forth in Accounting Principles Board Opinion No. 11, *Accounting for Income Taxes*, effective December 31, 1967, will be followed by SBLCs in accounting for income taxes.

In those instances where the SBLC files consolidated tax returns with a parent company, it is expected that the SBLC will contribute its proportionate share of taxes due on taxable net income. Also, when the SBLC experiences a tax loss, the SBLC will establish a deferred credit to future taxes and a receivable due from the parent.

A difference between accounting income and taxable income may exist which would be accounted for according to APB Opinion No. 11.

D. *Accrual of Interest Income.*—Interest income will be accrued according to terms of loans. Interest income will not be accrued if the ability of the small business concern to pay such accrued interest is doubtful. Indicators of uncollectible accrued interest are instances in which the SBC is in bankruptcy, or on the verge thereof, or otherwise considered to be insolvent. Other indicators are when principal and/or interest payments are in default more than six months or when the board of directors values the security below cost and considers collection to be doubtful.

E. *Financing Fees.*—Fees, as general rule, are considered earned at the time of financing since they are for services rendered in connection with the financing. To the extent fees are for services to be rendered in the future, such amount will be considered unearned until the services are performed, at which time such fees will be considered earned.

F. *Realization of Gain (Loss) on Sale of Assets.*—In accordance with the accrual basis of accounting, gain or loss on sale of securities or other assets of an SBLC will be realized at the point of sale. This practice assumes that the collectibility of the gain is reasonably assured and that the earnings process is complete, i.e., the SBLC is not obligated to perform significant activities after the sale in order to earn the gain.

Any transactions with recourse upon the SBLC or involving any understanding, agreement, option, privilege, or other rights to repurchase by and/or resell to the SBLC may not be considered as a final transaction. Any reacquisition of the assets by the SBLC, resulting from prior agreements or rights, shall be construed as a nullification of the original sale transaction. The only exception to this rule is the sale of the guaranteed portion of loans to a third party with recourse upon the SBLC for default.

Any gain that does not qualify as realized gain in accordance with the foregoing shall be deferred pending such realization.

It is noted that cost of securities or other assets sold is usually the carrying value on the SBLC's books.

G. *Premiums or Discounts on Loans Sold.*—Generally, premiums or discounts will be treated as gain or loss on sale of guaranteed portion of loans as explained in Section II-F of this Appendix. In those cases where part of the premium or discount is refundable, the premium or discount will be amortized over the stated life of the loan and not recorded as a gain or loss when the loan is sold.

H. *Accounting for Nonmonetary Transactions.*—Nonmonetary transactions involve both reciprocal and nonreciprocal transfers of assets or liabilities not involving cash between the SBLC and another entity or person, or between the SBLC and its stockholders. Accounting Principles Board Opinion No. 29, issued by the AICPA and effective October 1, 1973, should be followed by SBLCs to the extent applicable when accounting for nonmonetary transactions.

Nonmonetary exchanges with portfolio concerns or others whereby the SBLC transfers certain securities or assets for other securities or assets will not be considered transactions where gain (loss) is realized whether such transactions are taxable or nontaxable exchanges. The accounting basis for assets received will be the same basis as for assets transferred.

Dividends in kind are nonreciprocal transfers of nonmonetary assets to owners and should be accounted for at fair value if such fair value is objectively measurable and would be clearly realizable to the SBLC in an outright sale at or near the time of distribution. Otherwise, the transfer should be accounted for at cost without realizing a gain (loss).

III. CHART OF ACCOUNTS

A. *Account Numbering System.*—This system provides for two-digit number designations for major categories under which accounts are listed, and three-digit number designations for individual general ledger accounts. The first two digits of an individual account number refer to the major category under which the account is classified and the third digit identifies the specific account. Digits from zero through nine are used to identify specific accounts. For example, the first deposit bank account established will be designated "100" and second "101." It will be noted that some categories encompass individual accounts in sufficient number to require assignment of more than

V40238 DEC 10 75 XUM

one two-digit number to identify the category. For example, "Cash on Hand and in Banks" has been assigned category numbers "10," "11," and "12."

B. *Additional Accounts.*—SBLCs may incorporate such additional accounts into their accounting system as are considered necessary.

Any account may be subdivided, provided that such subaccounts do not impair the integrity of the accounts set forth in the prescribed system. Subaccounts shall refer by number and title to the accounts to which they apply. Use of a decimal system is required for extending the account numbers to identify such subaccounts.

C. *Primary Classification of Accounts.*—The primary classification of accounts is as follows:

GENERAL LEDGER

Account numbers	*Description*
100 to 299	Asset and valuation accounts.
300 to 399	Liability accounts.
400 to 499	Capital accounts.
500 to 599	Income accounts.
600 to 699	Expense accounts.

MEMORANDUM RECORDS

CL–15 to CL–16	Contingent liabilities.
CS–1 to CS–3	Capital stock authorized, unissued, and optioned.
AL–1	Actual (realized) losses.

D. *Detailed Chart of Accounts.*—The detailed chart of accounts is organized according to the primary classification of accounts and identifies the account number and title of each account. The page where a description of the account can be found is indicated at the right of the account title.

ASSET AND VALUATION ACCOUNTS

10–12—Cash on Hand and in Banks:
- 100–108—Deposits in _____ bank.
- 110–120—Deposits in imprest account in _____ bank.
- 118—Cash items in process of collection.
- 120—Petty cash fund.

13—Invested Idle Funds:
- 130—U.S. Government obligations, direct and fully guaranteed.
- 131—Insured savings accounts.
- 135–137—Time and certificates of deposit in _____ bank.

14—Receivables:
- 140—Notes receivable.
- 141—Accounts receivable.
- 142—Allowance for uncollectible notes and accounts receivable.
- 143—Accrued interest receivable.
- 144—Allowance for uncollectible interest receivable.

15—Loans to Small Business Concerns:
- 150—Loans.
- 151—Allowance for losses or loans.
- 153—Unearned fees and other charges on loans.

16—Assets Acquired in Liquidation of Loans:
- 160—Receivables Due from Debtors on Sale of Assets Acquired.
- 161—Allowance for losses.
- 162—Assets Acquired in Liquidation of Loans.
- 163—Allowance for Losses.

20—Furniture and Equipment:
- 200—Furniture and equipment.
- 201—Accumulated depreciation on furniture and equipment.

21—Corporate Premises Owned:
- 210—Corporate premises owned.
- 211—Accumulated depreciation on corporate premises owned.
- 212—Leasehold improvements.

22—Prepaid Expenses and Deferred Charges:
- 220—Prepaid expenses.
- 221—Deferred charges.

23—Other Assets:
- 235—Amounts due from directors, officers, and employees.
- 236—Organization costs.
- 237—Funds in escrow.
- 239—Other assets.

LIABILITY ACCOUNTS

31—Accounts and Notes Payable:
- 310—Accounts and notes payable.

32—Accrued Expenses and Other Current Liabilities:
- 320—Accrued interest payable.
- 321—Accrued taxes.
- 324—Estimated income taxes accrued.
- 328—Other current liabilities.

33—Dividends Payable
- 330–334—Dividends payable on (type and class) capital stock.

34—Long-Term Debt:
- 340—Notes payable.
- 341—Mortgages payable on assets acquired in Liquidation of loans.

342—Other Long-Term Debt.

35—Trust Receipts:
- 350—Employee taxes withheld.
- 354—Unapplied receipts.
- 358—Miscellaneous trust receipts.

36—Deferred Credit:
- 360—Deferred credit to future taxes.
- 363—Other deferred credits.

37—Other Liabilities:
- 370—Other liabilities.

CAPITAL ACCOUNTS

40–41—Capital Stock:
- 400–404—(Type and class) capital stock issued and understanding.
- 405–409—(Type and class) capital stock subscribed.
- 410–414—Capital stock subscriptions receivable (type and class).
- 415–419—Treasury stock (type and class).

42—Paid-in Surplus:
- 420—Paid in surplus.

45—Retained Earnings:
- 450—Retained earnings.

46—Profit and Loss Clearing:
- 460—Profit and loss summary.
- 462—Realized gain and loss summary.

INCOME ACCOUNTS

50—Interest Income:
- 500—Interest on loans.
- 501—Interest on assets acquired.
- 502—Interest on invested idle funds.
- 503—Interest income—other.

51—Application & Processing Income:
- 510—Application preparation and processing fees.
- 511—Appraisal and investigation fees.
- 512—Commitment fees.
- 513—Other loan fees.

52—Loan Servicing Income:
- 520—Loan servicing income.

53—Consulting and Related Services Fees:
- 530—Consulting and related services fees.

54—Gain on Sale of Loans and Other Assets:
- 540—Gain on loans.
- 541—Gain on U.S. Government obligations.
- 542—Gain on Assets acquired in liquidation of loans.
- 543—Gain on other assets.

55—Other Income:
- 550—Income from assets acquired in liquidation of loans.
- 551—Other income.

EXPENSE ACCOUNTS

60—Interest Expense:
- 600—Interest expense.

61–64—Operating Expenses.

61—Renumeration:
- 610—Salary expense.
- 611—Employee benefits expense.
- 612—Consultant services.

62—Initiating and Servicing Costs:
- 620—Advertising and promotional costs.
- 621—Appraisal and investigation costs.
- 622—Guarantee fees.
- 623—Communications.
- 624—Travel expense.
- 625—Legal Services.

63—Provision for Probable Losses:
- 630—Provision for loss on receivables.
- 631—Provision for loss on loans.
- 632—Provision for loss on assets acquired in liquidation of loans.

64—Other Costs:
- 640—Cost of space occupied.
- 641—Depreciation of corporate premises owned.
- 642—Depreciation of furniture and equipment.
- 643—Amortization of leasehold improvements.
- 644—Audit and examination costs.
- 645—Insurance expense.
- 646—Directors' and stockholders' meeting costs.
- 647—Taxes, excluding income taxes.
- 648—Amortization of organization expenses.
- 649—Miscellaneous operating expenses.

65—Loss on Securities and Other Assets:
- 650—Loss on U.S. Government obligations.
- 651—Loss on loans.
- 652—Loss on assets acquired in liquidation of loans.
- 653—Loss on other assets.

66—Miscellaneous Expenses:
- 660—Expense on assets acquired in liquidation of loans.
- 661—Other expenses.

67—Income Taxes:
- 670—Income taxes—net income.

CONTINGENT LIABILITIES

CL–15—Commitments outstanding.
CL–16—Other contingent liabilities.

CAPITAL STOCK AUTHORIZED, UNISSUED, AND OPTIONED

CS–1—Capital stock authorized.
CS–2—Unissued capital stock.
CS–3—Options on company's stock.

ACTUAL LOSS EXPERIENCE

AL–1—Actual (realized) losses.

IV—DESCRIPTION OF ACCOUNTS

ASSET AND VALUATION ACCOUNTS

100–108—Deposits in _____ bank.

These accounts will represent funds on demand deposit.

110–112—Deposits in imprest account in _____

These accounts will represent funds on demand deposit in imprest bank accounts to be drawn upon for the payment of operating expenses and to be reimbursed periodically through deposit therein of a check requiring dual signatures and drawn on the company's general funds bank account.

118—*Cash items in process of collection.*

This account will represent the amount of cash items placed with banks or other organizations for collection.

120—*Petty cash fund.*

This account will represent the imprest petty cash fund maintained for the purpose of making small disbursements.

The petty cash fund may be reimbursed and expenditures recorded as often as circumstances require, but must be reimbursed at the close of the company's fiscal year. Checks to replenish the fund will be drawn on a general fund bank account and include "petty cash" as a payee. Debits totaling the amount of this replenishment should be made concurrently to the appropriate accounts.

130—*United States Government Obligations, Direct and Fully Guaranteed.*

This account will represent the cost of temporary investments made from general cash funds in direct obligations of the United States Government and obligations guaranteed as to principal and interest by the United States Government. When United States Government Savings Bonds redeemable at par value on maturity are purchased at less than face value, the increase in redemption value may be periodically charged to this account with concurrent credit to account No. 502—Interest on Invested Idle Funds.

Increase in value over cost of United States Treasury bills, which are issued at a discount and are noninterest bearing, will not be reflected in this account but will be debited to account No. 143—Accrued Interest Receivable, with concurrent credit to account No. 502—Interest on Invested Idle Funds.

131—*Insured savings accounts.*

This account will include the balances in subaccounts Nos. 131.1, 131.2, etc.

131.1—Insured savings in _____

This account will represent funds invested in an insured savings account (UP to the amount of the insurance) in an institution the accounts of which are insured by the Federal Savings and Loan Insurance Corporation.

135–137—Time certificates of deposit in _____ bank.

These accounts will represent funds in time certificates of deposit, maturing not later than one year after issuance, in banks that are members of the Federal Deposit Insurance Corporation.

140—*Notes receivable.*

This account will represent the unpaid balance of miscellaneous notes receivable, such as notes for management consulting services. Notes representing amounts due from debtors on sale of assets acquired in liquidation of loans will be reflected in account No. 160.

Recording as income of amounts entered in this account should be discontinued with respect to any small business concern which is in bankruptcy, or on the verge thereof, or otherwise considered to be insolvent. The amounts in question should be credited as deferred income in account No. 363—Other Deferred Credits, pending determination of the appropriate accounting. In less serious situations, when the debtor small business concern is in default more than six months to the SBLC, or the fair value of its debt instruments held by the company, as determined by the board of directors, is less than cost, or recovery thereon is doubtful, an addition to the allowance for uncollectable notes and accounts receivable should be made in an amount equivalent to the receivable entered in this account.

(See account No. 142).

141—*Accounts receivable.*

This account will represent the amount due on open account for management consulting, accounting, insurance, and miscellaneous services rendered; application preparation and processing fees, and miscellaneous current receivables.

The account also will include the amount of accrued compensation receivable for loan servicing performed for others and the amount of accrued commitment fees receivable for making funds available on a deferred basis to small business concerns.

Accounts receivable representing receivables due from debtors on sale of assets acquired in liquidation of loans will be reflected in account No. 160.

Recording as income of amounts entered in this account should be discontinued with respect to any small business concern which is in bankruptcy, or on the verge thereof, or otherwise considered to be insolvent. The amounts in question should be credited as deferred income in account No. 363—Other deferred credits, pending determination of the appropriate accounting. In less serious situations, when the debtor small business concern is in default more than six months to the SBLC, or the fair value of its debt instruments held by the company, as determined by the board of directors, is less than cost, or recovery thereon is doubtful, an addition to the allowance for uncollectable notes and accounts receivable should be made in an amount equivalent to the receivable entered in this account.

(See account No. 142).

142—*Allowance for uncollectible notes and accounts receivable.*

The account will represent the valuation reserve provided for estimated losses on notes and accounts receivable and should be maintained in an amount not less than a conservative estimate of probable losses. This valuation reserve will be adjusted as occasion demands, so that this account will reflect the best available estimate of probable losses on notes and accounts receivable.

When a note receivable or an account receivable is recorded with respect to any debtor small business that is in default more than six months to the SBLC, or the fair value of whose debt instruments held by the company, as determined by the board of directors, is less than cost, or recovery thereon is doubtful, an addition to the allowance for uncollectible notes and accounts receivable reflected in this account should be made in an amount equivalent to the recorded receivable.

(See accounts Nos. 140, 141, and 630).

143—*Accrued interest recievable.*

This account will represent the amount of interest accrued on loans to small business concerns, United States Government obligations, direct and fully guaranteed, notes receivable, and other interest-bearing amounts due from debtors, including funds placed in escrow pending the closing of financing and assets acquired in liquidation of loans, as well as interest accrued on other securities.

At the option of the company, interest payments received in cash from debtors prior to the interest maturity date may be credited to account No. 354—Unapplied receipts, until the maturity date.

Accrual of interest receivable should be discontinued with respect to any loan to a small business concern that is in bankruptcy, or on the verge thereof, or otherwise considered to be insolvent. Any interest payments received from such a debtor should not be treated as interest income, but should be either credited as payments on principal of the debt or credited as deferred income in account No. 363—Other deferred credits, pending determination of appropriate accounting. In less serious situations, when interest receivable is accrued under circumstances in which the financed small business concern is in default to the SBLC; or the fair value of the loan as determined in good faith by the board of directors is less than cost, or recovery thereon is doubtful, an addition to the allowance for uncollectible interest receivable should be made in amount equivalent to the accrual of interest receivable.

(See account No. 144.)

144—*Allowance for uncollectible interest receivable.*

This account will represent the valuation reserve provided for estimated losses of accrued interest receivable, and should be maintained in an amount not less than a conservative estimate of probable losses. This valuation reserve will be adjusted as occasion demands, so that this account will reflect the best available estimate of probable losses of accrued interest receivable.

When interest is accrued under circumstances in which the financed small business concern is in default over six months to the SBLC, or the fair value of the loan as determined in good faith by the board of directors is less than cost, or recovery thereon is doubtful, an addition to the allowance for uncollectible interest receivable reflected in this account should be made in an amount equivalent to the accrual of interest receivable.

(See accounts Nos. 143 and 630.)

150—*Loans.*

This account will represent the unpaid principal balance of loans made to small business concerns, net of portion sold.

It is recommended that individual loan ledger cards or sheets be maintained for all loans. Such ledger cards or sheets should contain the detailed information needed for account No. 153—Unearned fees and related items.

151—*Allowance for losses on loans.*

This account will represent the downward valuation of loans and should be maintained in an amount not less than a conservative estimate of probable losses. This valuation reserve will be adjusted as occasion demands.

153—*Unearned fees and other charges on loans.*

This account will represent the amount of unearned fees and other charges on loans. It will include sums incorporated in the face amount of the note from the small business concern, which are withheld from disbursements to small concern.

Any fees and other charges considered earned immediately upon closing of loans will be recorded in the income account at once without first being entered in this account.

Appropriate subsidiary records should be maintained for all unearned amounts included in this account to permit identification of such amounts with the particular loans to which they relate.

160—*Receivables due from debtors on sale of assets acquired in liquidation of loans.*

This account will represent the unpaid balance of accounts receivable, notes receivable, sales contracts, purchase money mortgages, and similar evidences of indebtedness to the company arising from the sale of assets acquired in liquidation of loans.

It is recommended that subsidiary records be maintained in sufficient detail to disclose for report and tax purposes all transactions affecting amounts due from debtors on sale of assets acquired in liquidation of loans.

(See Account 162.)

161—*Allowance for losses on receivables from debtors on sale of assets acquired in liquidation of loans.*

This account will represent the downward valuation on amounts due from debtors on sale of assets acquired in liquidation of loans, and should be maintained in an amount not less than a conservative estimate of probable losses. This valuation reserve will be adjusted as occasion demands.

162—*Assets acquired in liquidation of loans.*

This account will represent the company's investment in assets acquired by foreclosure, or otherwise, in liquidation of loans. Certificates of Interest, judgements, sheriffs' certificates (including property acquired subject to redemption), etc., will be reflected in this account.

The investment in property at the date of acquisition by the company should be determined by the board of directors on the most suitable of the following basis: (1) Bid-in price of the property: (2) agreed considera-

V 40 I 238 DEC 10 75 XUM

tion for the property; (3) fair appraised value of the property. Any remaining indebtedness will be written off unless the company expects further liquidation of the debt from other sources. Insofar as practicable, investment values will be determined for each individual asset, and when an asset is sold only an amount equal to the investment in such asset will be credited to this account.

The company's investment in judgements should be recorded at the face amount of the judgement. When the company acquires the underlying security to the related loans outright or subject to redemption, the investment in the property should be determined in accordance with the basis set forth in the second paragraph.

Collateral notes receivable acquired in the liquidation of loans will be reflected in this account; but notes receivable that are subsequently accepted in connection with the disposition of assets acquired in the liquidation of loans will be included in account No. 160—Receivables from debtors on sale of assets in liquidation of loans.

It is recommended that subsidiary records be maintained in sufficient detail to disclose for report and tax purposes all transactions affecting assets acquired in liquidation of loans.

(See accounts Nos. 150 and 160.)

163—*Allowance for losses on assets acquired in liquidation of loans.*

This account will represent the downward valuation of assets acquired in liquidation of loans, and should be maintained in an amount not less than a conservative estimate of probable losses. This valuation reserve will be adjusted as occasion demands.

200—*Furniture and equipment.*

This account will represent the cost of furniture, fixtures, and equipment, including automobiles, owned by the company. The cost of freight, drayage, cartage, express, etc., in connection with the purchase of such items of furniture and equipment, will be included in this account.

An inventory record should be maintained for all such assets and each item should be tagged or numbered to facilitate ready identification.

201—*Accumulated depreciation on furniture and equipment.*

This account will represent the valuation reserve provided for depreciation of furniture, fixtures, and equipment, including automobiles, owned by the company. This account should be maintained in an amount not less than a conservative estimate of the expired service life of such assets while owned by the company.

(See accounts Nos. 200 and 642).

210—*Corporate premises owned.*

This account will represent the actual cost of sequisition of the land and building used as the company's office quarters. The account also will incude the actual cost of any improvements, such as street, sidewalk, and other benefits, applicable to the land, and any improvements applicable to the building.

211—*Accumulated depreciation on corporate premises owned.*

This account will represent reserve provided for depreciation of the building and other depreciable improvements of corporate premises owned and used as the company's office quarters. This account should be maintained in an amount not less than a conservative estimate of the expired service life of such building and improvements while owned by the company.

212—*Leasehold improvements.*

This account will represent the actual cost of improvements to leased property used as the company's office quarters. The amount of this account will be amortized through account No. 643 over the life of the lease or the life of the improvements whichever is the shorter.

220—*Prepaid expenses.*

This account will represent the unexpired or unconsumed portion of expenses expressly applicable to future periods for which no specific accounts have been provided. Such expenses should be amortized over the appropriate period.

Subsidiary records should be maintained to identify the items reflected in this account and to facilitate their amortization.

221—*Deferred charges.*

Timing differences may exist between accounting income and taxable income and thereby may cause a prepayment of taxes which is considered to be a deferred charge to future income tax expense. This account will represent such deferred charges recognized.

(See account No. 360.)

235—*Amounts due from directors, officers, and employees.*

This account will represent the unpaid balance of amounts advanced to directors, officers, and employees.

236—*Organization costs.*

This account will represent the amount of legal fees, promotional expense, stock certificate costs, incorporation fees, taxes, and other related costs incurred in organizing the company.

(See account 648).

237—*Funds in escrow.*

This account will represent the amount of funds placed in escrow pending the closing of financing for small business concerns.

239—*Other assets.*

This account will represent the amount of assets of the company, at cost, not specifically provided for in other accounts, including recoverable amounts advanced for the protection and preservation of the company's investments (such as the payment of taxes on mortgaged property), but not including short-term loans issued to protect the company's interest in previously issued long-term loans.

(See accounts Nos. 543 and 653).

LIABILITY ACCOUNTS

310—*Accounts and notes payable.*

The account will represent accounts and notes payable on a short-term basis.

320—*Accrued interest payable.*

This account will represent the amount of liability for interest accrued on the company's notes and mortgages payable. The account will also include accrued interest payable on other interest-bearing obligations of the company.

321—*Accrued taxes.*

This account will represent the balance of accrued taxes on payroll, such as the company's portion of social security taxes, which have not been remitted to the appropriate collectors of such taxes.

324—*Estimated income taxes accrued.*

This account will include the balances in subaccounts Nos. 324.1, 324.2, 324.3, etc.

324.1—*Estimated Federal income taxes accrued.*

This account will represent the balance of estimated Federal income taxes accrued which have not been remitted to the Internal Revenue Service.

324.2—*Estimated State income taxes accrued.*

This account will represent the balance of estimated State income taxes accrued which have not been remitted to the appropriate collector of such taxes.

326—*Other current liabilities.*

This account will represent other current liabilities not provided for in other accounts.

Increases or decreases in the liability for accrued expenses, through accruals or adjustments, will be offset by increases or decreases, respectively, in the appropriate expense accounts.

330–334—*Dividends payable on (type and class) capital stock.*

These accounts will represent the company's liability for dividends declared by the company's board of directors on the respective types and classes of capital stock issued and outstanding. A separate account should be used to reflect the dividends payable for each type and class of capital stock outstanding.

340—*Notes payable.*

This account will represent the long-term principal balance of notes payable for funds borrowed.

341—*Mortgages payable on assets acquired in liquidation of loans.*

This account will represent the unpaid principal balance of existing mortgages payable on assets acquired by the company in liquidation of loans.

342—*Other Long-term debt.*

This account will represent the unpaid principal balance of notes payable in evidence of amounts owed by the company other than for funds borrowed. Noted payable, conditional sales contracts, and liens for the acquisition of furniture, fixtures, equipment, and automobiles will be included in this account.

350—*Employee taxes withheld.*

This account will represent the amount of income and social security taxes withheld from employee's salaries which have not been remitted to the appropriate collectors of such taxes.

354—*Unapplied receipts.*

This account will represent the amount of funds received by the company which have not been applied to loans, interest receivable, etc. This account will be used only in instances when the funds received cannot be applied promptly.

358—*Miscellaneous trust receipts.*

This account will represent the liability of the company for funds withheld or received in trust, for which no specific account is provided, including earnest money deposits, and funds withheld from employee's salaries for the purchase of United States Savings Bonds, payment of group life insurance premiums, payment of pension fund contributions, etc.

360—*Deferred credit to future taxes.*

Timing differences may exist between accounting income and taxable income and thereby cause a deferment of tax expense. This account will represent such deferred tax expense.

363—*Other deferred credits.*

This account will represent the amount of deferred credits of the company not specifically provided for in other accounts.

The account will include any gain on sale of assets until such gain is realised.

Accrual of interest receivable should be discontinued with respect to any loan to a small business concern that is in bankruptcy, or on the verge thereof, or otherwise considered to be insolvent. Any interest payments received from such a debtor should not be treated as interest income, but should be either credited as payments on principal of the debt or credited as deferred income in this account, pending determination of appropriate accounting. In less serious situations, when interest receivable is accrued under circumstances in which the financed small business concern is in default to the SBLC over six months, or the fair value of the loan as determined in good faith by the board of directors is less than cost, or recovery thereon is doubtful, an addition to the allowance for uncollectible interest receivable should be made in an amount equivalent to the accrual of interest receivable, or, as an alternative, the interest income should be deferred in this account as above indicated.

(See account No. 144).

370—*Other liabilities.*

This account will represent the amount of liabilities of the company not specifically provided for in other accounts.

CAPITAL ACCOUNTS

400–404—_____ capital stock issued and outstanding.

(Type and Class)

These accounts will represent the total par or stated value of the company's capital stock issued and outstanding. A separate account should be provided for each type and class of capital stock authorized.

405–409—_____ capital stock subscribed.

(Type and Class)

These accounts will represent the total amount at the subscription price of the company's capital stock subscribed. A separate account should be provided for each type and class of capital stock subscribed. These accounts will reflect the company's responsibility to issue shares of its stock to subscribers who have made final payment of their capital stock subscriptions.

410–414—Capital stock subscriptions receivable—

(Type and Class)

These accounts will represent the total unpaid balances of capital stock subscriptions receivable from subscribers of the company's authorized capital stock. A separate subscriptions receivable account should be provided for each type and class of capital stock subscribed.

415–419—Treasury stock

(Type and Class)

These accounts will represent the total amount of the company's issued capital stock which has been reacquired through purchase or donation and has not been retired. A separate account should be provided for each type and class of such capital stock held by the company.

Appropriate subsidiary records should be maintained as deemed necessary.

420—*Paid-in surplus.*

This account will represent the amount of surplus arising from (1) sales initially of the company's capital stock at a price in excess of par value (including amounts transferred from capital stock subscribed at a price above par, when shares are issued); (2) donations to the company of its issued capital stock carried as treasury stock at fair market value or par value; (3) retirements of capital stock purchased at less than the par value thereof; (4) sales of treasury stock in excess of its carrying value on the books of the company; (5) donations or gifts to the company of assets carried at not in excess of fair market value; and (6) other equity transactions with stockholders.

450—*Retained earnings.*

This account will represent the cumulative balance of periodic net income including gain (loss) on securities and other assets less dividends. Accounts 460 and 462 will be closed into this account.

460—*Profit and loss summary.*

This account will be used as a clearing account through which all income and expense accounts on the books of the company will be closed.

462—*Realized gain and loss summary.*

This account will be used as a clearing account through which all accounts for realized gains and losses on assets on the books of the company will be closed.

INCOME ACCOUNTS

500—*Interest on loans.*

This account will represent the amount of interest earned on loans to small business concerns.

Accrual of interest receivable should be discontinued with respect to any loan to a small business concern which is in bankruptcy, or on the verge thereof, or otherwise considered to be insolvent. Any interest payments received from such a debtor should not be credited to this account as interest income, but should be either credited as payments on principal of the debt or credited as deferred income in account No. 363—Other deferred credits pending determination of the appropriate accounting. In less serious situations, when interest receivable is accrued under circumstances in which the financed small business concern is in default to the SBLC, or the fair value of the loan as determined in good faith by the board of directors is less than cost, or recovery thereon is doubtful, an addition to the allowance for uncollectible interest receivable should be made in an amount equivalent to the accrued interest receivable taken into income in this account, or, as an alternative, the interest income should be deferred in account No. 363 as above indicated.

501—*Interest on Assets Acquired.*

This account will represent the amount of interest earned on assets acquired in liquidation of loans which are carried in accounts Nos. 160 and 162.

502—*Interest on invested idle funds.*

This account will represent the amount of interest earned on (1) time certificates or deposit in banks which are members of the Federal Deposit Insurance Corporation, (2) U.S. Government obligations, direct and fully guaranteed, owned by the company, and (3) funds of the company in insured savings accounts in institutions the accounts of which are insured by the Federal Savings and Loan Insurance Corporation.

(See account Nos. 130 through 137, 143, and 144).

503—*Interest income—other.*

This account will represent the amount of interest earned on miscellaneous notes receivable, funds in escrow, and interest-bearing receivables not otherwise classified.

(See accounts Nos. 140, 143, and 237).

510—*Application preparation and processing fees.*

This account will represent the amount of fees charged for services performed at the request of applicants in the preparation of loan applications. The account will also include fees charged to cover the cost of processing applications for loans.

511—*Appraisal and investigation fees.*

This account will represent the amount of fees charged for appraisal, investigation, and related services rendered to small business concerns.

512—*Commitment income.*

This account will represent the amount of income earned on commitments to small business concerns for loans.

(See accounts Nos. 141 and 142).

513—*Other loan fees.*

This account will represent the amount of loan fees permitted to be charged to borrowers that are not specifically provided for in other accounts.

520—*Loan Servicing Income.*

This account will represent the amount of fees charged to SBA or third parties for servicing loans on their behalf.

530—*Consulting and Related Services Fees.*

This account will represent the amount of fees charged for management consulting, accounting, and related services rendered to small business concerns.

(See accounts Nos. 140, 141, and 142).

540—*Gain on loans.*

This account will represent the amount of gain on the sale or other disposition of loans of small business concerns carried in account No. 150, and will include recoveries on loan losses previously charged to the loss account.

541—*Gain on U.S. Government securities.*

This account will represent the amount of gain on the sale or other disposition of U.S. Government obligations, direct and fully guaranteed, carried in account No. 130.

Increase in value over cost of United States Treasury bills, which are issued at a discount and are noninterest bearing, will not be reflected in this account but will be credited to account No. 502—Interest on Invested Idle Funds, with concurrent debit to account No. 143—Accrued interest receivable.

542—*Gain on assets acquired in liquidation of loans.*

This account will represent the amount of gain on the sale or other disposition of assets acquired in liquidation of loans to small business concerns carried in accounts Nos. 160 and 162 and will include recoveries on losses on assets acquired in liquidation previously charged to the loss account.

543—*Gain on other assets.*

This account will represent the amount of gain on the sale or other disposition of assets not specifically provided for in other accounts, and will include recoveries on losses on other assets previously charged to the loss account.

550—*Income from assets acquired in liquidation of loans.*

This account will represent the amount of income earned on assets acquired in liquidation of loans, including the operation of properties, carried in account No. 162.

In instances when a liquidating agent is employed to supervise the disposition of the assets, appropriate subsidiary accounts should be maintained by the agent. Cash collected from the sale of assets by the liquidating agent should be remitted immediately to the company. The company should maintain a local depository bank account, in which all receipts of the agent are deposited when direct remittances to the company are not feasible. Deposit balances in this account should be subject to withdrawal by check only by the company and should be reflected on the company's records in the same manner as other bank accounts.

Any advances to a liquidating agent for expenses incident to the operation or the disposition of assets acquired in the liquidation of loans should be charged to account No. 220—Prepaid expenses.

551—*Other income.*

This account will represent the income earned not specifically provided for in other accounts.

EXPENSE ACCOUNTS

600—*Interest expense.*

This account will represent the amount of interest expense on the company's notes and mortgages and on other interest-bearing obligations.

610—*Salaries expense.*

This account will include the balances in subaccounts Nos. 610.1 and 610.2.

610.1—*Salaries of officers.*

This account will represent the salary cost of all officers of the company, including directors' salaries, if any, but not directors' fees for attendance at meetings.

610.2—*Salaries of employees.*

This account will represent the salary cost of all employees other than officers, including salaries of any temporary or parttime employees engaged for specific assignments.

611—*Employee benefits expense.*

This account will represent the cost assumed by the company in contributing to funds providing for employee retirement

V40238 DEC 10 75 XUM

benefits and other types of employee benefits, except group life insurance. The portion, if any, of the cost of employee benefits withheld from salaries or received from employees will be reflected in account No. 358.

612—*Consulting Services.*

This account will represent the amount of charges made by outside firms or individuals for management services provided to the company.

620—*Advertising and promotional costs.*

This account will represent the cost of advertising and promoting the company's services, including the cost of entertaining prospective borrowers and clients.

621—*Appraisal and investigation costs.*

This account will represent the amount of charges made by outside firms and individuals for appraisal, investigation, and related services rendered to the company.

622—*Guaranty fees.*

This account will represent the amount of charges made by the Small Business Administration for its guarantee of portions of loans made by the company.

623—*Communications.*

This account will represent telephone, telegraph, and postage expense.

624—*Travel expense.*

This account will represent all travel expense, including transportation charges, automobile maintenance, operating expense, and depreciation expense, meals, lodging, telephone, telegraph, and other company costs incurred by officers and employees while in a travel status.

625—*Legal services.*

This account will represent the cost of legal services rendered to the company.

630—*Provision for losses on receivables.*

This account will represent the amount of estimated losses applicable to the fiscal year on notes and accounts receivable, and interest receivable.

631—*Provision for losses on loans.*

This account will represent the amount of estimated losses applicable to the fiscal year on loans to small business concerns.

632—*Provision for losses on assets acquired in liquidation of loans.*

This account will represent the amount of estimated losses applicable to the fiscal year on assets acquired in liquidation of loans.

640—*Cost of space occupied.*

This account will repreesnt the cost of space occupied such as rent, alterations, light, heat, power, janitor service, maintenance and repair expense on buildings, furniture, and equipment (other than automobiles), etc.

641—*Depreciation of corporate premises owned.*

This account will represent the amount of provision applicable to the fiscal year for depreciation of the buildings and other depreciable improvements of corporate premises owned and used as the company's office quarters.

642—*Depreciation of Furniture and Equipment.*

This account will represent the amount of provision applicable to the fiscal year for depreciation of furniture and equipment (other than automobiles) owned by the company.

643—*Amortization of leasehold improvements.*

This account will represent the amortization of leasehold improvements.

644—*Auditing and examination costs.*

This account will represent the amount of charges for auditing, examination, and bookkeeping services rendered by accountants not on the company's payroll, and charges for services rendered by SBA examiners.

645—*Insurance expense.*

This account will represent fire, theft, employee group life insurance, and other insurance expense, including fidelity bond premiums and insurance on automobiles. The portion, if any, of employee group life insurance premiums withheld from salaries or received from employees will be reflected in account No. 358. Insurance premiums to be amortized will be charged to account No. 220.

646—*Directors' and stockholders' meetings costs.*

This account will represent directors' fees and travel expense for attendance at directors' and stockholders' meeting. The account also will include the cost of holding stockholders' meetings, such as rental of the meeting hall and related expenses.

647—*Taxes, excluding income taxes.*

This account will represent the cost of all taxes, including those on corporate premises owned, motor vehicle, and personal property, social security taxes (company's portion), and other taxes charged to the company, exclusive of income taxes.

648—*Amortization of organization expenses.*

This account will represent the amount of legal fees, promotional expense, stock certificate costs, incorporation fees, taxes, and other related costs incurred in organizing the company, which are charged to expense (this account) as incurred or are transferred to this account periodically through the amortization of organization costs established as an asset in account No. 236.

649—*Miscellaneous operating expenses.*

This account will represent the amount of operating expenses not specifically provided for in other accounts. There will be included expenses incurred in connection with dues, subscriptions, donations, and similar items; charges made to the company for custodial or safekeeping services in connection with its loans; and bank service charges, exhange on checks, protest fees, etc., and the cost of office supplies such as stationery, accounting forms, binders, pencils, etc.

650—*Loss on U.S. Government obligations.*

This account will represent the amount of loss on the sale or other disposition of United States Government obligations, direct and fully guaranteed, carried in account No. 130.

651—*Loss on loans.*

This account will represent the amount of loss on the sale or other disposition of loans of small business concerns carried in account No. 150, which is in excess of the amount established in Account 151 for the particular loan.

652—*Loss on assets acquired in liquidation of loans.*

This account will represent the amount of loss in excess of that provided for in accounts Nos. 161 and 163 on the sale or other disposition of assets acquired in liquidation of loans to small business concerns carried in accounts Nos. 160 and 162.

653—*Loss on other assets.*

This account will represent the amount of loss on the sale or other disposition of assets not specifically provided for in other accounts.

660—*Expense on assets acquired in liquidation of loans.*

This account will represent the amount of expense incurred on assets acquired in liquidation of loans including the operation and depreciation of properties, carried in account No. 162. The account also will include the amount of interest expense accrued on mortgages payable on assets acquired in liquidation loans.

In instances when a liquidating agent is employed to supervise the disposition of the assets, appropriate subsidiary accounts should be maintained by the agent.

Cash collected from the sale of assets by the liquidating agent should be remitted immediately to the company. The company should maintain a local dospository bank account, in which all receipts of the agent are deposited when direct remittances to the company are not feasible. Deposit balances in this account should be subject to withdrawal by check only by the company and should be reflected on the company's records in the same manner as other bank accounts.

Any advances to a liquidating agent for expenses incident to the operation of or in the disposition of assets acquired in the liquidation of loans and debt securities should be charged to account No. 220—Prepaid expenses and deferred charges.

661—*Other expenses.*

This account will represent the amount of nonoperating expenses not specifically provided for in other accounts.

670—*Income taxes—net income.*

This account will include the balances in subaccounts Nos. 670.1, 670.2, etc.

670.1—*Federal income taxes—net income.*

This account will represent the amount of Federal income taxes applicable to net income for the current fiscal year.

670.2—*State income taxes—net income.*

This account will represent the amount of State income taxes applicable to net income for the current fiscal year.

MEMORANDUM RECORDS

Contingent Liabilities

CL–15—*Commitments outstanding.* This record will show the amount of loan commitments made and outstanding to small business concerns. When funds are advanced against commitments, appropriate entry will be made in this record.

CL–16—*Other contingent liabilities.* This record will show the amount of miscellaneous contingent obligations not otherwise classified.

Capital Stock Authorized, Unissued, and Optioned

CS–1—*Capital stock authorized.* This record will show the total par or stated value of the capital stock authorized, as provided for in the company's charter. A separate section should be provided for each type and class of capital stock authorized.

Upon authorization of an additional amount of capital stock, or upon completion of a reduction in the amount authorized, an adjustment will be made in the appropriate section(s) of this record to reflect the change.

(See memorandum record CS–2.)

CS–2—*Unissued Capital Stock.* This record will show the total par or stated value of unissued capital stock of the company. A separate section should be provided for each type and class of unissued capital stock.

Upon authorization of additional amounts of unissued capital stock or reduction of such authorized stock, upon retirement of capital stock, or upon the issuance of capital stock, an adjustment will be made in the appropriate Section (S) of this record to reflect the change.

(See accounts Nos. 400–404 and Memorandum Record CS–1.)

CS–3—*Option on company's stock.* This record will show details of outstanding options on the company's capital stock granted in lieu of salary or in payment for services actually rendered to the company. The following data will be included:

1. Identification of person or entity holding options.
2. Number of shares optioned.
3. Type and class of stock called for by options.
4. Dates of grant and of expiration of options.
5. Price or prices at which options exercisable, with dates they apply.
6. Fair market value, per share, of stock called for at date each option was granted.
7. Price of each option as percent of fair market value of optioned stock at date option was granted.
8. Provisions for termination of options in case of death or retirement of optionees, or other circumstances.
9. Details of authorization, shares reserved for, issuance, exercise, lapse, and forfeiture of options provided for under the company's stock option plan.

Actual Loss Experience

AL–1—*Actual (realized) losses.* This record will show for each fiscal year, and also accumulatively, the amount of actual (realized) losses incurred through disposition, writedown, or writeoff of loans and investments. Losses shall be stated in total for all loans and also separately for loans, assets acquired in liquidation of loans, and amounts due from debtors on sale of assets acquired in liquidation of loans. Losses realized shall be determined in relation to cost of the assets involved without regard to the existence or nonexistence of related allowances for losses.

Dated: November 20, 1975.

LOUIS F. LAUN,
Acting Administrator.

INTERSTATE COMMERCE COMMISSION

■

STANDARDS FOR DETERMINING RAIL SERVICE CONTINUATION SUBSIDIES

Miscellaneous Avoidable Costs

V40238 DEC 10 75 XUM

Title 49—Transportation

CHAPTER X—INTERSTATE COMMERCE COMMISSION

[Ex Parte No. 293 (Sub-No. 2)]

PART 1125—STANDARDS FOR DETERMINING RAIL SERVICE CONTINUATION SUBSIDIES

Miscellaneous Avoidable Costs

Present: Alan M. Fitzwater, Director, Rail Services Planning Office, to whom the matters under construction in this notice and order have been assigned.

This supplemental notice of Rulemaking and Order is issued pursuant to section 205(d)(3) of the Regional Rail Reorganization Act of 1973 (the "Act"), P.L. 93-236, 87 Stat. 985, which provides that the Rail Services Planning Office of the Interstate Commerce Commission (the "Office") shall—

—within 180 days after the date of enactment of this Act, determine and publish standards for determining the "revenue attributable to the rail properties", the "avoidable costs of providing service", and "a reasonable return on the value", as those phrases are used in section 304 of this Act, after a proceeding in accordance with the provisions of section 553 of title 5, United States Code.

On February 25, 1974, the Director of the Rail Services Planning Office (Office) of the Interstate Commerce Commission (Commission) issued a notice of proposed rulemaking and order (39 FR 7182), pursuant to the above quoted provisions, setting forth a proposed Part 1125 to Title 49 of the Code of Federal Regulations, containing standards for defining the quoted terms. After an extended period for public comment, the Office issued standards on July 1, 1974 (39 FR 24294). On July 30, 1974, the Office issued a notice announcing that petitions seeking amendment of the standards would be accepted if filed on or before August 19, 1974 (39 FR 28196).

In requesting amendment of the standards, several parties urged that the standards be tested on actual branch lines and that the time for filing be extended. On September 10, 1974, the Office issued a notice stating that the standards would be tested and that the time for filing pleadings was being extended to October 30, 1974 (39 FR 35444).

Following an in-depth analysis of the petitions and of the knowledge gained from the testing of the standards, the Office published revised standards for determining rail service continuation subsidies on January 8, 1975 (40 FR 1624). Since the revised standards reflected significant changes from the original version, the Office invited additional comments to be filed by February 18, 1975.

Following analysis of the comments filed in response to the January 8, 1975 revisions, the Office issued Miscellaneous Amendments to the standards on March 28, 1975 (40 FR 14186).

After the Final System Plan was issued, the Federal Railroad Administration established a Subsidy Program Implementation Task Force, comprised of representatives of the viewpoints of the trustees, ConRail, the solvent carriers, the states, and the involved federal agencies, to address the issues to be resolved in negotiating operating agreements for services to be continued under subsidy offers. This Task Force recognized that liability for personal injuries, deaths, and property damage is an issue which must be resolved in order for the rail service continuation provisions of the Act to be exercised by potential subsidizers. While there was basic agreement among the Task Force members that the costs of injuries, deaths, and property damage on a subsidized line were properly avoidable costs of operating the subsidized service, there was also a realization that potential subsidizers will be hesitant to expose themselves to multi-million dollar damage settlements arising from incidents which might occur on the subsidized line. Similarly, the operating railroads will be hesitant to expose themselves to such claims if they cannot be reimbursed for such costs.

The Task Force considers insurance coverage for such liabilities to be a reasonable solution to this problem. Most of the carriers which will be operating the subsidized services have liability insurance policies in force, and the subsidized lines could be included as properties covered under these policies. The additional premiums incurred for this extended coverage would be avoidable costs of operating the subsidized services.

However, the general liability policies of major carriers usually involve a deductible of over one million dollars, an amount which could also discourage potential subsidizers. To protect themselves, subsidizers may request the operating railroad to purchase additional insurance to cover the liability for the deductible amounts of the operating carrier's general policy. Policies similar to those carried by short line railroads should be available for many of the subsidized lines. These policies have lower deductible amounts and could be written to a maximum coverage which matches the operating railroad's deductible. If such "short line" coverage were obtained by the operating railroad, the premium costs for these coverages would be avoidable costs.

The standards as issued January 8, 1975 and amended March 28, 1975, did not define such insurance premiums as avoidable costs. Undoubtedly there will be other directly attributable items which are not specifically covered by the present standards. Therefore, the Office is amending the standards to provide for the inclusion of directly attributable costs which are not otherwise covered by the standards as avoidable costs of providing service on subsidized lines. All such costs must be identified separately and be incurred directly in the provision of the subsidized service.

All persons interested in filing statements of their views on the amendment which is a part of this notice, or in proposing for consideration an alternative amendment, are invited to do so. Statements should be submitted in writing to the Office on or before January 7, 1976. An original and three copies of any statement should be supplied. The Office shall review all submissions and if comments requiring change are received, the amendment will be modified at a future date. This amendment shall take effect as set forth below on January 22, 1976.

In light of the foregoing considerations:

It is ordered, That all interested persons be invited to participate in this proceeding by submitting written representations containing statements of fact or views. To be considered, the original and three copies of each representation must be filed on or before January 7, 1976, with:

Rail Services Planning Office,
Interstate Commerce Commission,
Washington, D.C. 20423

It is further ordered, That Part 1125 of Subchapter B of Chapter X of Title 49 of the Code of Federal Regulations, be amended by adding a new paragraph (l) as set forth below to § 1125.5 of the standards as adopted on January 8, 1975 and amended on March 28, 1975.

And it is further ordered, That this order shall become effective January 22, 1976.

By the Commission, Rail Services Planning Office.

[SEAL] ROBERT L. OSWALD,
Secretary.

The following new paragraph is added to § 1125.5:

§ 1125.5 Avoidable costs of providing service.

* * * * * *

(l) *Miscellaneous avoidable costs.* The amounts assigned under this item shall be those identifiable costs directly related to the branch which are not otherwise assignable in this section.

THURSDAY, DECEMBER 11, 1975

highlights

PART I:

"COUNT ME IN"
ARBA releases multi-media Bicentennial production for promotion and exhibition in secondary schools; inquiries by 1-12-76 57710

RADIOACTIVE MATERIAL
DOT/MTB publishes regulations governing transportation aboard aircraft; effective 12-11-75 57687
MTB also proposes requirements for inspection and monitoring by aircraft operators; comments by 2-17-76 .. 57688

INDIVIDUAL RETIREMENT ACCOUNTS
FRS amends regulations to facilitate offerings by member banks; effective 12-4-75 57663
FHLBB adopts amendments governing offerings by Federal savings and loan associations; effective 12-12-75 57664

SAVINGS AND LOAN ASSOCIATIONS
FHLBB proposes to revise statement of general policy on mergers involving insured institutions; comments by 1-26-76 57690

CHILD SUPPORT ENFORCEMENT PROGRAM
HEW eliminates prior approval of State cost allocation plans; effective 8-1-75 57672

CONTINUED INSIDE

PART II:

FEDERAL ELECTIONS
FEC publishes advisory opinions 57755

PART III:

VOCATIONAL EDUCATION
HEW/OE publishes final amendments to regulations governing State programs; effective 1-26-76 57759

PART IV:

EMERGENCY UNEMPLOYMENT COMPENSATION
Labor/ETA revises regulations; effective 12-11-75; comments by 1-12-76 57765

federal register

Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

TEACHER CORPS
HEW/OE rescinds closing date for receipt of applications 57705

PRESCRIPTION DRUGS
HEW/FDA extends to 3–8–76 the comment period on a petition to require warning labels..... 57705

SECURITIES OWNERSHIP
SEC announces transmittal to Congress of preliminary report of "Street Name Study"..... 57735

PRIVACY ACT OF 1974
Interior issues rules implementing the Act; effective 12–11–75 57671
Commerce publishes systems of records for Federal co-chairmen of regional commissions..... 57701

TRANSPORTATION SAFETY
NTSB issues notice of availability and receipt of recommendations and responses..... 57726

INDUSTRIAL COMMUNICATIONS EMERGENCY PLAN
FCC amends regulations to provide for adoption; effective 1–15–76..... 57684

BUSINESS RADIO SERVICE
FCC amends regulations to expand permissible uses of certain frequencies; effective 1–11–76..... 57682

AERONAUTICAL EMERGENCIES
FCC amends communications requirements; effective 1–15–76 57675

EQUAL CREDIT OPPORTUNITY ACT
FTC incorporates provisions of the Act in its prohibited trade practices regulations..... 57688

VESSEL EQUIPMENT, CONSTRUCTION, AND MATERIALS
DOT/CG publishes list of approvals..... 57706

MARINE OCCUPATIONAL SAFETY AND HEALTH
DOT/CG extends comment deadline on proposed standards to 1–15–76..... 57688

FREEDOM OF INFORMATION ACT
Marine Mammal Commission proposes implementation; comments by 1–15–76..... 57692
Interior extends fee schedule for document location and copy services to 1–30–76..... 57671

ANIMAL DRUGS
HEW/FDA approves use of tylosin premix in making swine feed; effective 12–11–75..... 57668

SOCIAL SERVICES
HEW/SRS establishes eligibility based on median family income; effective 10–1–76..... 57705

PROCUREMENT
GSA publishes executive branch acceptance of certain recommendations by Commission on Government Procurement 57721
Interior determines requirements for legal review; effective 12–11–75..... 57670

BUSINESS AND INDUSTRIAL LOAN PROGRAM
USDA/FmHA revises regulations; effective 12–11–75... 57643

TELECOMMUNICATIONS
National Communications System announces proposed standard for telecommunication systems utilizing synchronous transmission..... 57721

TIME DEPOSIT FUNDS
FDIC amends regulations to permit withdrawal without penalty in certain cases; effective 12–15–75..... 57664

POWERLESS FLIGHT
Interior/NPS proposes launching and landing restrictions within the National Park System; comments by 1–12–76 57694

MEETINGS—

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

PART 912—GRAPEFRUIT GROWN IN THE INDIAN RIVER DISTRICT IN FLORIDA

Expenses and Rate of Assessment

This document authorizes expenses of $24,500 for the Indian River Grapefruit Committee, under Marketing Order 912, for the 1975–76 fiscal period and fixes a rate of assessment of two mills ($0.002) per box of grapefruit handled in such period to be paid to the committee by each handler as his pro rata share of such expenses.

On November 19, 1975, notice of rulemaking was published in the FEDERAL REGISTER (40 FR 53603) inviting written comments not later than December 5, 1975, regarding proposed expenses and the related rate of assessment for the period August 1, 1975, through July 31, 1976, pursuant to the marketing agreement, as amended, and order No. 912, as amended (7 CFR Part 912) regulating the handling of grapefruit grown in the Indian River District in Florida. None were received. This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). After consideration of all relevant matters presented, including the proposals set forth in such notice which were submitted by the Indian River Grapefruit Committee (established pursuant to said marketing agreement and order), it is hereby found and determined that:

§ 912.215 **Expenses and rate of assessment.**

(a) *Expenses.* Expenses that are reasonable and likely to be incurred by the Indian River Grapefruit Committee during the period August 1, 1975, through July 31, 1976, will amount to $24,500.

(b) *Rate of assessment.* The rate of assessment for said period payable by each handler in accordance with § 912.41, is fixed at $0.002 per standard packed box of grapefruit.

It is hereby further found that good cause exists for not postponing the effective date hereof until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) shipments of grapefruit are now being made, (2) the relevant provisions of said marketing agreement and this part require that the rate of assessment herein fixed shall be applicable to all assessable grapefruit handled during the aforesaid period, and (3) such period began on August 1, 1975, and said rate of assessment will automatically apply to all such grapefruit beginning with such date.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: December 8, 1975.

CHARLES R. BRADER,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.75-33410 Filed 12-10-75;8:45 am]

[Tangerine Regulation 47, Amendment 5]

PART 905—ORANGES, GRAPEFRUIT, TANGERINES, AND TANGELOS GROWN IN FLORIDA

Amendment of Size Regulation

Effective December 8, 1975, this amendment lowers the minimum diameter requirement applicable to fresh shipments of Florida tangerines from 2 4/16 inches (size 176) to 2 2/16 inches (size 210). The specification of such lower minimum size for Florida tangerines is necessary to satisfy the current and prospective demand for such fruit. The amended regulation recognizes the size composition and related quality factors of much of the Florida tangerines currently available for fresh shipment.

Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 905, as amended (7 CFR Part 905), regulating the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the regulation of tangerine shipments, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The amendment reflects the Department's appraisal of the current and prospective market demand conditions for Florida tangerines. This amendment relaxes current minimum size requirements applicable to fresh shipments of tangerines. The action is consistent with the size distribution and available supply of tangerines in the production area and recognizes that smaller fruit has generally attained higher levels of maturity. The amendment is designed to ensure an ample supply of fruit to consumers. For the season through November 30, 1975, fresh shipments of Florida tangerines totaled 1,793 carlots, and there were an estimated 2,707 carlots remaining for fresh shipment. This amendment is consistent with the objective of the act of promoting orderly marketing and protecting the interest of consumers.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient; and this amendment relieves restrictions on the handling of tangerines grown in Florida.

Order. In § 905.561 (Tangerine Regulation 47; 40 FR 42318, 49785, 51619, 54420, 54767) the provisions of paragraph (a)(2) are revised to read as follows:

§ 905.561 **Tangerine Regulation 47.**

(a) • • •

(2) Any tangerines, grown in the production area, which are of a size smaller than 2 2/16 inches in diameter, except that a tolerance for tangerines smaller than such minimum diameter shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances specified in the United States Standards for Florida Tangerines.

• • • • • •

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated, December 8, 1975, to become effective December 8, 1975.

CHARLES R. BRADER,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.75-33411 Filed 12-10-75;8:45 am]

[Navel Orange Regulation 357]

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

This regulation fixes the quantity of California-Arizona Navel oranges that may be shipped to fresh market during the weekly regulation period Dec. 12–18, 1975. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Or-

V40239 DEC 11 75 XUM

der No. 907. The quantity of Navel oranges so fixed was arrived at after consideration of the total available supply of Navel oranges, the quantity currently available for market, the fresh market demand for Navel oranges, Navel orange prices, and the relationship of season average returns to the parity price for Navel oranges.

§ 907.657 Navel Orange Regulation 337.

(a) *Findings.* (1) Pursuant to the marketing agreement and order, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information it is hereby found that the limitation of handling of such Navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this regulation to limit the respective quantities of Navel oranges that may be marketed from District 1, District 2, and District 3 during the ensuing week stems from the production and marketing situation confronting the Navel orange industry.

(i) The committee has submitted its recommendation with respect to the quantities of Navel oranges that should be marketed during the next succeeding week. Such recommendation, designed to provide equity of marketing opportunity to handlers in all districts, resulted from consideration of the factors enumerated in the order. The committee further reports that the fresh market demand for Navel oranges is firm. Prices f.o.b. averaged $4.44 a carton on a reported sales volume of 996 carlots last week, compared with an average f.o.b. price of $4.65 per carton and sales of 693 carlots a week earlier. Track and rolling supplies at 416 cars were up 104 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the respective quantities of Navel oranges which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this regulation until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this regulation is based became available and the time this regulation must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective during the period herein specified; and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on December 9, 1975.

(b) *Order.* (1) The respective quantities of Navel oranges grown in Arizona and designated part of California which may be handled during the period December 12, 1975, through December 18, 1975, are hereby fixed as follows:

(i) District 1: 1,472,000 cartons;

(ii) District 2: Unlimited movement;

(iii) District 3: 78,000 cartons."

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: December 10, 1975.

CHARLES R. BRADER,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.75-33653 Filed 12-10-75;11:48 am]

CHAPTER XVIII—FARMERS HOME ADMINISTRATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER E—ACCOUNT SERVICING

[FmHA Instruction 451.6]

PART 1865—ANALYZING CREDIT NEEDS AND GRADUATION OF BORROWERS

Revision

Section 1865.3(c) of Part 1865, Title 7, Code of Federal Regulations (36 FR 17840) is revised. The purpose of this revision is to provide a new method for use by the Finance Office in preparing lists of active borrowers in determining their potential for obtaining credit from other sources based on date of the initial loan. It is unnecessary to publish notice of proposed rulemaking in the FEDERAL REGISTER because the change being made by this revision is merely restructuring the manner in which the Finance Office listings are made and borrower accounts are reviewed each year, thus eliminating unneeded retention of County Office records on previously reviewed borrower accounts.

As revised, § 1865.3(c) reads as follows:

§ 1865.3 Graduation of FmHA Borrowers to other sources of credit.

* * * * *

(c) *Review of borrower's status of progress.* Each October 1, the Finance Office will furnish county offices with lists of active borrowers who have been indebted for at least 2 years on Emergency loans, 4 years on Operating loans, and 6 years on Real Estate loans. These listings will be prepared on the basis of the date of the initial loan, i.e., during odd years the listings will include the names of all borrowers who received their loans during odd-numbered calendar years and are currently eligible for review. The same procedure will apply for those borrowers who received their loans during even-numbered calendar years. Their names will be on the listings provided during even-numbered calendar years. Between October 1 and March 1 of each year the County Committee with the assistance of the county supervisor, will make a biannual (every 2 years) graduation review of the status of appropriate borrowers as listed by the Finance Office. However, if the county supervisor or a county committeeman has knowledge of any other borrower(s) whose circumstances have changed sufficiently to enable him to possibly obtain suitable credit elsewhere, he will be included in the graduation review. A determination of the potential for obtaining credit from other sources will be made after considering the factors outlined in paragraph (b) of this Section. If reliable information on the borrower's income or equity and assets is not otherwise available, the county supervisor will obtain from the borrower an up-to-date financial statement and statement of income. Both will be verified. Financial information from farmer program borrowers will be obtained from guidelines developed for this purpose available in any FmHA office. Upon completion of the review Form FmHA 451-24, "Results of Borrower Graduation Review by County Committee and County Supervisor," will be prepared by the county supervisor, listing only those active borrowers who will be requested to refinance. The county supervisor will document on Form FmHA 451-24 the basis for requesting each borrower to refinance. The County Committee will execute the last page of that form in accordance with appropriate instructions.

Effective date. This revision shall become effective on December 11, 1975.

It is hereby certified that the economic and inflationary effects of the proposal have been carefully evaluated in accordance with effective Executive Order No. 11821.

Dated: November 20, 1975.

FRANK W. NAYLOR, JR.,
Acting Administrator, Farmers Home Administration.

SUBCHAPTER N—OTHER LOAN PROGRAMS

PART 1980—GUARANTEED LOAN PROGRAMS

Subpart E—Business and Industrial Loan Program Adoption and Establishment of New Subchapter

There is hereby established under Chapter XVIII, Title 7, a New Subchapter N—"Other Loan Programs," Part 1980, Guaranteed Loan Programs," Subparts A through E, in the Code of Federal Regulations. Subpart E, "Business and Industrial Loan Programs," (§§ 1980.401-1980.500) of this New Part is transferred and redesignated from Part 1842 of the Chapter XVIII.

On August 15, 1975, there was published a notice of proposed rulemaking in the FEDERAL REGISTER (40 FR 34368) proposing to revise Part 1842, Chapter XVIII, Title 7, Code of Federal Regulations (39 FR 34263; 39 FR 36852; 40 FR 21700; 40 FR 22536; 40 FR 22824; and 40 FR 27476). The revision was to consolidate all provisions pertaining to the Business and Industrial Loan Program into one regulation, Part 1842, and to clarify, expand, and expedite procedures in the Business and Industrial Loan Program. Interested persons were given the opportunity to submit, not later than September 15, 1975, comments, suggestions or objections regarding the proposed regulations. Numerous comments, suggestions and objections have been received and were given due consideration. They have resulted in editorial changes for clarification and in the substantive changes hereinafter mentioned. However, as a result of the transfer and redesignation of this Part 1842 under the New Subchapter N, a redesignation table has been provided.

The changes are as follows:

A. *Revisions and Amendments.* 1. A revision has been made to incorporate administrative provisions for the program. These have been identified as "administrative" and follow the appropriate section of the regulation.

2. A revision has been made to permit a lender to sell any amount of the nonguaranteed portion of the loan through participation.

3. A revision has been made which requires a lender to repurchase the guaranteed portions from a holder. If the lender is unable to repurchase, FmHA will purchase all guaranteed portions.

4. A requirement for a lender to use all reasonable efforts to cure a default has been added.

5. The Regulation has been amended to eliminate several restrictions imposed upon a lender seeking to replace a Contract of Guarantee with a Loan Note Guarantee.

6. The section on guaranteed industrial bond issues has been clarified.

7. The definition for rural area has been revised and clarified.

8. Regulation has been revised to eliminate restrictions on fees and charges by allowing reasonable and customary charges.

9. Regulation has been amended to allow lender to use compensating balances provided they are not used to eliminate lender's exposure on the nonguaranteed portion of loan.

10. A revision has been made to provide for lender to receive his Loan Note Guarantee concurrently with his payment of the guarantee fee.

11. The time limit for FmHA's response to lender's estimated loss payment has been shortened.

12. The amount of time allowed a lender to inform FmHA of the lender's proposed method of liquidation has been lengthened.

13. The section on environmental impact statements has been amended to provide that the lead agency is responsible for EIS if joint financing with other agencies occurs.

14. The Regulation has been revised to provide that lender's repurchase of loan for servicing will not be for arbitrage purposes and will require specific FmHA approval. FmHA may also purchase for servicing (at its option) if Lender is unable to do so.

15. The Regulation has been revised to provide for a preliminary conference by applicant; lender and FmHA for application processing.

16. The requirement for an appraisal of collateral at a "forced liquidation sales value" has been eliminated.

17. Requirements for collateral and personal and corporate guarantees has been revised and clarified.

18. The regulation has been revised to allow either the lender or borrower to pay the guarantee fee.

19. Regulations pertaining to eligibility of financing for housing development sites has been revised.

20. The regulation has been revised to require the lender to repurchase from holder if lender failed to remit to holder its pro rata share of any payment made by borrower within 30 days of its receipt.

21. Liquidation provisions have been clarified and a loss determination formula provided.

22. The requirement for approved lenders to have capital in an amount necessary to cover nonguaranteed portion of the loan has been eliminated.

23. The State Director's authority to approve cost overruns has been revised.

B. Additions to regulation. 1. The requirements of an FmHA loan identification number for each loan has been added.

2. A definition of A-95 agency has been included.

3. Objectives for the B&I program have been established and the introduction amended.

4. A section providing for Future Recoveries after a loan has been liquidated has been added.

5. A requirement that the lead lender be a local lender has been added.

6. Guidelines for appraisals of collateral in loan liquidations have been established.

7. A Memorandum of Understanding between FmHA and SBA has been added as Appendix A.

8. A provision allowing State Directors to supplement instruction to the extent necessary to carry out his duties has been included.

9. Provisions forbidding discrimination based upon sex or marital status have been added.

10. A requirement that corporations listed on major stock exchanges furnish 10K Reports to FmHA has been included.

11. Character evaluations on transfer and assumption cases will now be required.

12. When losses are paid to assure that the lender has properly liquidated all collateral an audit will now be required at the district, State, or National level.

13. Clean Air Act and Federal Water Pollution Control Act requirements have been added.

14. A section describing certain transactions which will not be guaranteed has been added.

Accordingly, a redesignation table and Subpart E of Part 1980 are set forth below.

Subpart E—Business and Industrial Loan Program

§ 1980.401 Introduction.

(a) This subpart contains regulations for Business and Industrial (B&I) loans guaranteed or insured by the Farmers Home Administration (FmHA), and applies to lenders, holders, borrowers, and other parties involved in making, guaranteeing, insuring, holding, servicing, or liquidating such loans.

(b) The purpose of the B&I program is to improve, develop, or finance business, industry, and employment and improve the economic and environmental climate in rural communities, including pollution abatement and control. This purpose is achieved through bolstering the existing private credit structure through guarantee of quality loans which will provide lasting community benefits. It is not intended that the guarantee authority be used for marginal or substandard loans or to "bail out" lenders having such loans.

(c) The B&I loan program, like other FmHA programs, is administered bythe Administrator through a State Director, serving each State through a District Director to the County Supervisor. The County Supervisor is the focal point for the program and the local contact person for processing and servicing activities although this subpart refers in various places to the duties and responsibilities of other FmHA employees.

§ 1980.402 Definitions.

The following definitions apply:

(a) *A–95 Agency.* Office of Management and Budget Circular A–95 establishes project notification and review system to coordinate planning of Federal programs and projects with State and local agencies. Such agencies are referred to in this regulation as A–95 agencies.

(b) *Applicant (for loan).* An applicant may be a cooperative, corporation, partnership, trust, or other legal entity organized and operated on a profit or nonprofit basis; an Indian Tribe on a Federal or State reservation or other Federally recognized tribal group; a municipality, county, or other political subdivision of a State; or an individual. Such applicant must be engaged in or proposing to engage in improving, developing, or financing business, industry, and employment and improving the economic and environmental climate in rural areas, including pollution abatement and control.

(c) *Assignment Guarantee Agreement Form FmHA 449–36.* The signed agreement among FmHA, the lender, and the holder, setting forth (specifically or by reference) the terms and conditions of an assignment of a guaranteed portion of a loan or any part thereof.

(d) *Borrower.* All parties liable for the loan or any part thereof.

(e) *Community facilities.* For the purpose of this subpart, community facilities are those facilities designed to aid in the development of private business and industry in rural areas. Such facilities include, but are not limited to, acquisition and site preparation of land for industrial sites (but not for improvements erected thereon), access streets and roads serving the site, parking areas, extension or improvement of community transportation system serving the site, and utility extensions all incidental to site preparation. Projects eligible for assistance under Part 1823 of this chapter (FmHA Ins. 442.1) are not eligible for assistance under this subpart.

(f) *Conditional Commitment for Guarantee Form FmHA 449–14.* FmHA's advice to the lender that the material it has submitted is approved subject to the completion of all conditions and requirements set forth in "Conditional Commitment for Guarantee."

(g) *Development cost.* These costs include, but are not limited to, those for acquisition, planning, construction, repair, or enlargement of the proposed facility; purchase of buildings, machinery, equipment, land easements, rights-of-way; payment of start-up operating costs, and interest during the period before the first principal payment becomes due, including interest on interim financing.

(h) *FmHA.* The United States of America, acting through the Farmers Home Administration, an agency of the United States Department of Agriculture. References to the National Office, Finance Office, State Office, County Office, State Director, Business and Industry Loan Chief, District Director, County Supervisor, or other FmHA office or official should be read as prefaced by "FmHA."

(i) *Guaranteed loan.* A loan made and serviced by a lender for which FmHA has entered into a Form FmHA 449–35, "Lender's Agreement" and issued a Form FmHA 449–34, "Loan Note Guarantee."

(j) *Holder.* The person or organization other than the lender who holds all or a part of the guaranteed portion of the loan with no servicing responsibilities. When the lender assigns a part(s) of the guaranteed loan to an assignee, the assignee becomes a holder only when he uses Form FmHA 449–36, "Assignment Guarantee Agreement."

(k) *Insured Business and Industrial loans.* A loan directly made and serviced by FmHA as lender with funds from the Rural Development Insurance Fund.

(l) *Joint financing.* Occurs when two or more lenders (or any combination of such lenders) make separate loans to supply the funds required by one applicant. Such joint financing may consist of FmHA financial assistance with the Economic Development Administration (EDA), Department of Housing and Urban Development (HUD), Small Business Administration (SBA), other Federal and State agencies, and private and quasi-public financial institutions.

(m) *Letter of conditions.* Letter issued by FmHA to a borrower setting forth the conditions under which FmHA will make a direct (insured) loan from the Rural Development Insurance Fund.

(n) *Lender.* The person or organization making and servicing the loan which is guaranteed under the provisions of this subpart. The lender is also the party requesting a loan guarantee.

(o) *Lender's Agreement (Form FmHA 449–35).* The signed agreement between FmHA and the lender setting forth (specifically or by reference) the lender's loan responsibilities when the Loan Note Guarantee is issued.

(p) *Loan Note Guarantee (Form FmHA 449–34).* The signed commitment issued by FmHA setting forth (specifically or by reference) the terms and conditions of the guarantee.

(q) *Note.* An evidence of the debt. In those instances where FmHA makes an insured loan or guarantees a bond issue, "note" shall also be construed to include "Bond" or other evidence of indebtedness where appropriate.

(r) *Principals of borrowers.* Include owners, officers, directors, entities and others directly involved in the operation and management of the business.

(s) *Public body.* A municipality, political subdivision, public authority, district, or similar organization.

(t) *Rural area.* Includes all territory of a State, the Commonwealth of Puerto Rico, or the Virgin Islands that is not within the outer boundary of any city having a population of fifty thousand or more and its immediately adjacent urbanized and urbanizing area with a population density of more than one hundred persons per square mile, as determined by the Secretary of Agriculture according to the latest decennial census of the United States.

(u) *State.* Any of the fifty states, Puerto Rico, or the Virgin Islands.

(v) *Transfer and assumption.* The conveyance by a debtor to an assuming party of the assets, collateral, and liabilities of the loan in return for the assuming party's binding promise to pay the debt outstanding. In relation to transfer and assumption cases, where appropriate, "liquidation" and "loan" shall be construed to mean "transfer and assumption"; "promissory note" shall be construed to mean "assumption agreement," and "borrower" shall be construed to mean "assuming party" or "transferee."

(w) *Working capital.* The excess of current assets over current liabilities. It identifies the relatively liquid portion of total enterprise capital which constitutes a margin or buffer for meeting obligations within the ordinary operating cycle of the business.

§ 1980.403 Citizenship of applicants.

Loans to individuals shall be made or guaranteed only to those who are citizens of the United States or reside in the United States after being legally admitted for permanent residence. At least 51 percent of the outstanding interest in any corporation or organization type applicant must be owned by those who are either citizens of the United States or reside in the United States after being legally admitted for permanent residence.

§ 1980.404 Full faith and credit of the U.S.A.

The Loan Note Guarantee constitutes an obligation supported by the full faith and credit of the United States and is incontestable except for fraud or misrepresentation of which the lender or holder has actual knowledge at the time it becomes such lender or holder or which lender or holder participates in or condones. The guarantee and right to require purchase will be directly enforceable by holder notwithstanding any fraud or misrepresentation by the lender or any unenforceability of the Loan Note Guarantee by lender. The Loan Note Guarantee will be unenforceable by the lender to the extent any loss is occasioned by violation of usury laws, use of loan funds for unauthorized purposes, negligent servicing, or failure to obtain the required security regardless of the time at which FmHA acquires knowledge of the foregoing.

§ 1980.405 Rural Area Determinations.

FmHA will determine if any area is rural for purposes of the Guarantee or Insured loan program. The following will be used by FmHA in making area eligibility determinations when it is not clear from the geographical location of the applicant:

(a) Urbanized area immediately adjacent to a city having a population of 50,000 or more: An urbanized area immediately adjacent to a city having a population of 50,000 or more is an area constituting for general social and economic purposes a single community having a boundary contiguous with that of the city. Such community may be incorporated or unincorporated and will extend from the contiguous boundary(ies) to recognizable open country, less densely settled areas, or natural boundaries such as forests or water. Minor open spaces such as airports, industrial sites, recreational facilities or public parks shall be disregarded. Outer boundaries of an incorporated community will extend at least to its legal boundaries. Cities which may have a contiguous border with another city but are located across a river from such city and recognized as a separate community and are not otherwise considered a part of an urbanized or urbanizing area as defined in this section are not in a non rural area.

(b) Urbanizing area: An urbanizing area is one defined as a community which is not now or within the foreseeable future not likely to be clearly separate from and independent of a city of 50,000 or more population and its immediately adjacent urbanized areas. A community will be considered as "separate from" when it is separated from the city and its immediately adjacent urbanized area by open country, less densely settled areas, or natural barriers such as forests or water. Minor open spaces such as airports, industrial sites, recreational facilities or public parks shall be disregarded. A community will be considered as "independent of" when its social and economic structure (*e.g.*, government; educational, health, and recreational facilities; business, industry, tax base, and employment opportunities) is not primarily dependent on the city and its immediately adjacent urbanized area.

(c) The State Director will proceed as follows in rural area determinations: When the FmHA State Director determine an area to be urbanizing, he must then determine the population density per square mile. If the area appears to be eligible, the State Director will request the National Office to provide him with the correct density figure. All such density determinations will be made on the basis of minor civil division or census county divisions as used by the Bureau of the Census. In making the density calculations, there will be excluded large nonresidential tracts devoted to urban land uses such as railroad yards, airports, industrial sites, parks, golf courses, and cemeteries or land set aside for such purposes.

§§ 1980.406–1980.410 [Reserved]

§ 1980.411 Loan purposes.

Loans to borrowers with facilities located in both urban and rural areas will be limited to the amount necessary to finance the facility located in the eligible rural area.

(a) *Private entrepreneurs.* Loans may be for improving, developing, or financing business, industry, and employment and improving the economic and environmental climate, including pollution and abatement control, of rural areas, and may include but not be limited to:

(1) Business and industrial acquisitions, construction, conversion, enlargement, repair, modernization, or development cost.

(2) Purchasing and development of land, easements, rights-of-way buildings, facilities, leases, or materials.

(3) Purchasing of equipment, leasehold improvements, machinery or supplies.

(4) Pollution control and abatement including those in connection with farming and ranching operations.

(5) Transportation services incidental to industrial development.

(6) Start-up costs and working capital.

(7) The financing of housing development sites located in open country or cities, towns or villages with populations not in excess of those eligible for FmHA Rural Housing Loans, provided the community demonstrates a need for additional housing to prevent a loss of jobs in the area, or to house families moving to the area as a result of new employment opportunities.

(8) Loans for processing or marketing facilities, hatcheries, commercial nurseries and integrated poultry operations. This does not include loans for agricultural production; however, applicants who are in the business of processing, marketing, or packaging, as well as agricultural production, may be eligible for loan assistance for that portion of the business other than agricultural production, provided the agricultural production aspect is separate from the rest of the business; *i.e.*, the production aspects are handled through separate legal business entities or through maintenance of the accounting system in such manner as to clearly identify the use of and future accounting of the loan proceeds and operation of the business.

(9) Commercial custom feedlot operations. As used herein, commercial custom feedlot operations mean those lots primarily feeding, on a custom basis, livestock which belongs to other than the feedlot owner-operator. This would not preclude assistance to those borrowers whose principals or members are farmers and ranchers whose individually

V40239 DEC 11 75 XUM

owned livestock may be custom fed at the lot; provided, such principals' or members' personal financial conditions are not likely to adversely affect the financial success of the custom operation. In those cases where feedlot operators buy and feed for themselves, records and accounts of such operations shall be maintained in such manner that they may be identified separately from the custom feeding operation, and loan agreements and security instruments will specify that any losses incurred in the owner-operator operation shall not be chargeable to the custom feeding operations.

(10) Interest (including interest on interim financing) during the period before the first principal payment becomes due or the facility becomes income producing, whichever occurs first.

(11) Feasibility studies.

(12) Refinancing debts in connection with sound projects when it is determined by FmHA that it is necessary to help stabilize the economic base of the rural area and increase or maintain employment.

(13) Reasonable costs, including legal fees, incurred for services rendered by accountants, appraisers, architects, engineers, consultants, and other parties for services in connection with preparation of the loan applications, making the loan, developing the project, and verification of proper project completion. FmHA will determine what is reasonable.

(14) Lenders fees and charges including those for preparation and assembly of applications provided they do not exceed those customarily charged all borrowers in similar circumstances in the ordinary course of business and for fees.

(15) Acquisition of membership and/or stocks, bonds or debentures necessary to obtain a loan from Production Credit Associations, Banks for Cooperatives, Small Business Investment Companies, and other lenders; provided such acquisition is required of all their borrowers. However, a lender which requires membership fees in such organization or the purchase of securities issued by such organization will not use such proceeds to acquire, lease or improve property which does not benefit its members.

(b) *Public bodies.* See §§ 1980.481 and 1980.488.

§ 1980.412 Ineligible loan purposes.

Loans may *not* be made or guaranteed if the funds are used:

(a) To pay off a creditor in excess of the value of the collateral.

(b) For distribution or payment to the owner, partners, shareholders or beneficiaries of the applicant or members of their families when such persons will retain any portion of their equity in the business.

(c) For any project that is calculated to or is likely to result in the transfer from one area to another of any employment or business activity provided by the operation of the applicant. This limitation shall not prohibit assistance for the expansion of an existing business entity through the establishment of a new branch, affiliate, or subsidiary of such entity if the expansion will not result in an increase in the unemployment in the area of original location or in any other area where such entity conducts business operations unless there is reason to believe that such expansion is being established with the intention of closing down the operations of the existing business entity in the area of its original location or in any other area where it conducts such operations.

(d) For any project which is calculated to or is likely to result in an increase in the production of goods, materials or commodities, or the availablity of services or facilities in the area when there is not sufficient demand for such goods, materials, commodities, services or facilities to employ the efficient capacity of existing competitive commercial or industrial enterprises, unless such financial or other assistance will not have an adverse effect upon existing competitive enterprises in the area.

(e) For agricultural production.

(f) For the transfer of ownership of a business unless the loan will keep the business from closing, or prevent the loss of employment opportunities in the area, or provide expanded job opportunities.

§ 1980.413 Transactions which will not be guaranteed.

The following transactions will not be guaranteed by FmHA:

(a) The guarantee of lease payments.

(b) The guarantee of loans made by other Federal agencies. This does not preclude the guaranteeing of loans made by the Bank for Cooperatives, Federal Land Bank, or Production Credit Association.

§§ 1980.414–1980.418 [Reserved]

§ 1980.419 Eligible lenders.

(a) This Subpart is designed to provide a mechanism whereby all lenders may participate by using the various sources of capital and segments of the money market to meet the necessary financing requirements for the B&I loan program. FmHA ordinarily will require that a local lender be involved for each project. A local lender is a lender in or near a community where the project is or will be located and routinely provides loan services to such community.

Although the project may involve other lenders, investors, or packagers, it is expected that a local lender will be the lead lender and be responsible to service and liquidate (if necessary) the loan. The local lender may use correspondents, branches, financial or other institutions to provide expertise for its responsibilities. FmHA ordinarily will use the local lender as a point of contact for the administration of the program.

(b) An eligible lender is: (1) Any Federal or State chartered bank, Federal Land Bank, Production Credit Association, Bank or Cooperatives, Savings and Loan Association, Building and Loan Association, or Small Business Investment Company, that is subject to credit examination and supervision by either an agency of the United States or a state is eligible to make and service guaranteed loans provided it is in good standing with its licensing authority and has met licensing, loanmaking, loan servicing, and other requirements of the state in which the collateral will be located and the loanmaking and/or loan servicing office requirements in paragraph (f) of this section, or

(2) Any other lender, including but not limited to, insurance companies, credit unions and mortgage loan companies that are approved for eligibility by FmHA. To qualify as a lender under this paragraph, the lender will submit to FmHA the material in paragraphs (i), (ii), (iii), (iv), and (v) of this section. Lenders will be considered by FmHA for eligibility under this paragraph for loanmaking on a nationwide, state, or loan-by-loan basis. They should indicate the type of eligibility requested in their submission. Lenders having sufficient experience, adequate organization for loan servicing, and sufficient capital and surplus to support the proposed loan program will be considered for eligibility on a national basis. Those licensed to do business only in specified states will be considered for eligibility only in those states. Material to be submitted is as follows:

(i) Form FmHA 449–18, "Lenders or Holders Request for Approval."

(ii) Evidence showing that it has the necessary capital and resources to indicate success in meeting its responsibilities.

(iii) Copy of any license, charter, or other evidence of authority to engage in the proposed loanmaking and loan servicing activity. If licensing by the state is not required, an attorney's opinion to this effect will be submitted.

(iv) Information on lending operations, including length of time in the lending business; experience in making loans; management capability; range and volume of lending and servicing activities; current financial statements; sources of funds for the proposed loan; status of loan portfolio; any special requirements for equity ownership, options or payment of profits of the prospective borrower's company in exchange for any financial assistance to the business, loanmaking and servicing office location and rates charged for servicing and any other fees; *e.g.*, loan origination, loan preparation, or brokerage fees. Such fees may not be greater than those charged by similarly situated lenders in the ordinary course of business.

(v) A copy of its loan agreement(s) ordinarily used.

(c) FmHA will make such investigation as it deems necessary and will notify the prospective lender whether its request for eligibility is approved or rejected. If rejected, the reasons for the rejection will be indicated to the prospective lender in writing and if the lender is able to overcome the objections, it may resubmit the request. (See § 1980.492.)

(d) Lenders who are not eligible lenders are not barred from participating in loans made by eligible lenders.

(e) Each prospective lender will inform FmHA whether it qualifies for eligibility under paragraphs (b)(1) or (b)(2) of this section and if an eligible lender, which agency or authorities, if any, supervises such lender. This information will be furnished to FmHA on Form FmHA 449–1, "Application for Loan and Guarantee," or in letter form.

(f) Each lender must maintain an office (either its main or branch office or that of an agent) near enough to the collateral's location so it can properly and efficiently discharge its loanmaking and loan servicing responsibilities.

(g) All lenders will be owned and controlled as provided in paragraph V of Form FmHA 449–35, "Lender's Agreement."

(h) For possible lender-borrower conflict of interest, see paragraph VI of Form FmHA 449–35. All lenders will, for each proposed loan, inform FmHA as to whether the lender or its principal officers or the borrower or its principals or officers hold any stock or other evidence of ownership in the other. FmHA shall determine whether such ownership is sufficient to likely result in a conflict of interest.

(i) FmHA reserves the right to declare any lender ineligible to receive a loan guarantee when it determines that the lender may not have the capability to make or satisfactorily service the loan, the history of its operations appears unsatisfactory, or the provisions of previous Loan Note Guarantees or Lender's Agreements have not been satisfactorily fulfilled.

ADMINISTRATIVE

par (a) Requires National Office approval for any variations.

par (2)(h)(i) State Director submits information to National Office with his recommendations.

§ 1980.420 Loan guarantee limits.

The maximum loss covered under the Form FmHA 449–34, "Loan Note Guarantee," will not exceed ninety percent of the principal and accrued interest on the indebtedness represented by the borrower's guaranteed loan promissory note or assumed under an assumption agreement. Lenders and applicants will propose the percentage guarantee. The lender and applicant will be informed in writing on Form FmHA 449–14 by FmHA of any percentage of guarantee less than proposed by the lender and applicant and the reasons therefor. FmHA will determine the percentage guarantee after considering all credit factors involved, including but not limited to:

(a) The applicant's management, equity capital, history of operation, marketing plan, raw material requirements, and availability of necessary supporting utilities and services.

(b) Collateral.

(c) Financial condition of applicant's principals.

(d) The lender's exposure before and after the loan.

(e) Current trends and economic conditions within the industry.

§ 1980.421 Guarantee fee.

(a) The fee will be one percent (1%) of the principal loan amount multiplied by the percent of guarantee, paid one time only at the time the Loan Note Guarantee is issued. The fee will be paid to FmHA by the lender and is nonrefundable. The fee may be passed on to the borrower.

(b) In the event FmHA agrees to issue a Loan Note Guarantee in substitution for a Form FmHA 449–17, "Contract of Guarantee," issued under previous regulations (see § 1980.461(b)(2)) the lender will pay to FmHA at the time the substitution is made a nonrefundable, one-time fee of one percent (1%) of the current principal loan balance multiplied by the percent of guarantee.

§ 1980.422 Charges and fees by lenders.

Late payment charges will not be covered by the Loan Note Guarantee. Such charges may not be added to the principal and interest due under any guaranteed note. Late payment charges may be made only if:

(a) They are routinely made by the lender in all types of loan transactions.

(b) Payment has not been received within the customary time frame allowed by the lender. The term "payment received" means that the payment in cash or by check, money order, or similar medium has been received by the lender at its main office, branch office, or other designated place of payment.

(c) The lender agrees with the applicant in writing that the rate or method of calculating the charges will not be changed to increase charges while the Loan Note Guarantee is in effect.

§ 1980.423 Interest rates.

(a) *Guaranteed loans.* Rates will be negotiated between the lender and the borrower. They may be fixed or variable as long as they are legal.

(1) A variable interest rate must be a rate that is tied to a base rate published periodically in a financial publication specifically agreed to by the lender and borrower. It must rise and fall with the selected base rate and changes can be made no more often than quarterly. There will be no floor or ceiling on variable interest rates.

(2) Any change in the interest rate between the date of issuance of the Form FmHA 449–14 and before the issuance of the Loan Note Guarantee must be approved by the State Director. Approval of such change will be shown on an amendment to Form FmHA 449–14.

(b) *Insured loans.* (1) Loans for other than those in paragraph (b)(2) of this section shall bear interest at a rate prescribed by FmHA, and shall be announced periodically. The interest rate for insured loans will be the rate in effect at the time the loan is approved or at the time the loan is closed, whichever rate is lower.

(2) Loans to public bodies, nonprofit associations, and Indian Tribes used to finance community facilities shall bear interest at the rate of five (5%) per cent per annum.

§ 1980.424 Terms of loan repayment.

(a) Principal and interest on the loan will be due and payable as provided in the promissory note. The lender shall structure repayments as established in the loan agreement between the lender and borrower. Ordinarily, such installments shall be scheduled for payment as agreed upon by the lender and applicant but on terms that reasonably assure repayment of the loan. However, the first installment to include a repayment of principal may be scheduled for payment after the project is operable and has begun to generate income, but such installment shall be due and payable within three years from the date of the promissory note and at least annually thereafter. Interest shall be due at least annually from the date of the note. Ordinarily, monthly payments will be expected, except for seasonal-type businesses. When multinotes are used, each note shall bear the same interest rate.

(b) The maximum time allowable for final maturity of an FmHA guaranteed B&I loan shall be limited to thirty (30) years for land, buildings, and permanent fixtures; the usable life of the machinery and equipment purchased with loan funds, but not to exceed fifteen (15) years; and seven (7) years for the working capital portion of the loan. The term for a loan that is being refinanced may be based on the collateral the lender will take to secure the loan.

(c) The maximum time allowable for final maturity of an FmHA insured loan for community facilities shall not exceed 40 years.

§ 1980.425 Availability of credit from other sources.

(a) Inability to obtain credit elsewhere is not a requirement for guaranteed assistance under this Subpart.

(b) To be eligible for an insured loan under this subpart, the applicant must be unable to obtain the required credit from private or cooperative sources at reasonable rates and terms, taking into consideration prevailing private and cooperative rates and terms in the community in or near the applicant's location(s) for loans for similar purposes and periods of time. The applicant's inability to obtain such credit elsewhere will be determined in accordance with 1828 of this chapter (FmHA Instruction 442.1).

§§ 1980.426–1980.431 [Reserved]

§ 1980.432 Environmental impact assessments and statements.

The need for an environmental impact statement (EIS) will be determined by the FmHA State Director. The determination will be based upon FmHA's review of Form FmHA 449–10, "Applicant's Environmental Impact Evaluation," State and sub-State clearinghouse and other agency comments or other information available. If an EIS is necessary, applicants and lenders will be required to provide essential data for use in its preparation. FmHA State Directors will coordinate preparation and processing of any required EIS. If joint agency financing for the proposal is involved, the lead agency will be responsible for preparation of the EIS. In all cases FmHA is responsible for assuring that the requirement of section 102(2)(C) of the National Environmental Policy Act of 1969 (NEPA), and title 7 CFR Part 1824 of this chapter are met.

V40239 DEC 11 75 XUM

ADMINISTRATIVE

State Director will review Form FmHA 449–10 submitted by the applicant and a Form FmHA 440–46, "Environmental Impact Assessment," prepared by the County Supervisor or State Director Designee. The State Director will indicate his decision in the Form FmHA 440–46. If the State Director determines that an EIS is required, he will notify the applicant and lender in writing.

§ 1980.433 Flood or mudslide hazard area precautions.

(a) Projects located in special flood or mudslide hazard areas, as designated by the Federal Insurance Administration (FIA) of the Department of Housing and Urban Development may be financed under this subpart only:

(1) If the community, as a result of such designation by FIA as a special flood or mudslide prone area, has an approved flood plain area management plan.

(2) If the project location and construction plans and specifications for new buildings or improvements to existing buildings comply with an approved flood plain area management plan in paragraph (a) of this section.

(b) If flood insurance is available it will be purchased by the borrower prior to loan closing.

ADMINISTRATIVE

The State Director is responsible for determining if a project is located in a special flood or mudslide hazard area. Refer to FmHA Instruction 426.2.

§ 1980.434 Equal opportunity and nondiscrimination requirements.

(a) *Equal credit opportunity act.* In accordance with Title V of Pub. L. 93–495, the Equal Credit Opportunity Act, neither the lender nor FmHA will discriminate against any applicant on the basis of sex or marital status with respect to any aspect of a credit transaction. The lender will, within the requirements of this Act as set forth in the Federal Reserve Boards Regulation, implementing this Act, as published in 40 FR 49298. Such compliance will be accomplished prior to loan closing.

(b) *Forms and requirements.* In accordance with Executive Order 11246, the following equal opportunity and nondiscrimination forms and requirements are applicable to certain cases involving construction as indicated. The borrower is responsible for seeing that the requirements of paragraphs (c) through (g) of this section are met.

(c) *Compliance reports.* No prospective contractor or subcontractor will be eligible for a contract or subcontract financed with a guaranteed loan until he has filed all of the compliance reports required of him under any previous contracts.

(d) *Equal opportunity agreement.* Before loan closing, each borrower whose loan involves a construction contract of more than $10,000 must execute Form FmHA 400–1, "Equal Opportunity Agreement."

(e) *Contract or subcontract in excess of $10,000.* If the contract or a subcontract exceeds $10,000:

(1) The contractor or subcontractor must submit Form FmHA 400–6, "Compliance Statement," before or as a part of the bid or negotiation.

(2) An Equal Opportunity Clause must be part of each contract and subcontract. This clause is incorporated in Form FmHA 424–6, "Construction Contract," which may serve as a guide.

(3) With notification of the contract award, the contractor must receive:

(i) Form FmHA 400–3, "Notice to Contractors and Applicants," signed by the County Supervisor with an attached Equal Employment Opportunity Poster. Posters in Spanish must be provided and displayed where a significant portion of the population is Spanish speaking.

(ii) Form AD–425, "Contractor's Affirmative Action Plan for Equal Employment Opportunity Under Executive Order 11246 and Executive Order 11375," if the contractor or subcontractor is subject to the requirements of paragraph (g) of this section.

(f) *One hundred or more employees and contract or subcontract exceeds $10,000.* If the contractor or subcontractor has 100 or more employees and the contract or subcontract is for more than $10,000:

(1) In addition to meeting the requirements of paragraph (e) of this section, each such contractor or subcontractor must file Standard Form 100, "Employer Information Report EEO–1" with the Joint Reporting Committee within 30 days of the contract or subcontract award unless this report has already been submitted within the last 12 months.

(2) An annual report must be filed on or before March 31 as long as the contractor or subcontractor holds a contract equal to $10,000 or more which is financed with a guaranteed loan. Failure to file timely, complete and accurate reports constitutes noncompliance with the Equal Opportunity Clause. Report forms are distributed by the Joint Reporting Committee and any questions on this form should be addressed by the contractor or subcontractor to the Joint Reporting Committee, 1800 G Street, NW., Washington, D.C. 20006.

(g) *Fifty or more employees and contract or subcontract exceeds $50,000.* If the contract or subcontract is more than $50,000 and the contractor or subcontractor has 50 or more employees, in addition to the requirements of paragraph (e) of this section, each such contractor or subcontractor must be informed that he must develop a written affirmative action compliance program for each of his establishments and put it on file in each of his personnel offices within 120 days of the commencement of the contract or subcontract. Form AD–425 provides guidelines for the contractor or subcontractor in developing such a program.

(h) *Compliance reviews.* Compliance reviews must be made during construction inspections to determine whether the required posters are displayed, the facilities are not segregated, and there is no evidence of discrimination in employment. Findings of the borrower or lender (when inspections are made), will be shown on Form FmHA 424–12, "Inspection Report." If there is any evidence of noncompliance, the borrower or lender will try to achieve voluntary compliance. If the effort fails, such borrower or lender will report all the facts to FmHA.

(i) *Employee complaints.* Any employee of or applicant for employment with such contractors or subcontractors may file a written complaint of discrimination with FmHA.

(1) A written complaint of alleged discrimination must be signed by the complainant and should include the following information:

(i) The name and address (including telephone number, if any) of the complainant.

(ii) The name and address of the person committing the alleged discrimination.

(iii) A description of the acts considered to be discriminatory.

(iv) Any other pertinent information that will assist in the investigation and resolution of the complaint.

(2) Such complaint must be filed not later than 180 days from the date of the alleged discrimination, unless the time for filing is extended by FmHA for good cause shown by the complainant.

ADMINISTRATIVE

The State Director will assure that equal opportunity and nondiscrimination requirements are met. If there is indication of noncompliance with these requirements, such facts will be reported by the borrower, lender or County Supervisor in writing to the State Director for remedial action.

Should the State Director need assistance in handling any complaints of noncompliance, he will request assistance from the National Office.

§ 1980.435 Clean Air Act and Water Pollution Control Act requirements.

(a) As a condition for FmHA's making or guaranteeing a loan in excess of $100,000 and unless otherwise exempted, an applicant for a loan will:

(1) Comply with all the requirements of section 114 of the Clean Air Act (42 U.S.C., 1857 C–9) and section 308 of the Federal Water Pollution Control Act (33 U.S.C. 1318) relating to inspection, monitoring, entry, reports, and information, as well as all other requirements specified in section 114 of the Clean Air Act and section 308 of the Federal Water Pollution Control Act and all regulations and guidelines issued thereunder after the award of the contract. (Such regulations and guidelines can be found at 40 CFR 15.4 and 40 FR 17126, April 26, 1975.)

(2) As a condition for the award of contract, notify the FmHA of the receipt of any communication from the Environmental Protection Agency (EPA) indicating that a facility to be utilized for the contract is under consideration to be listed on the EPA List of Violating Facilities. (Prompt notification is required prior to contract award.)

(3) Certify that any facility to be utilized in the performance of any nonexempt contractor subcontract is not listed on the EPA List of Violating Facilities pursuant to 40 CFR 15.20 as of the date of contract award; and

(4) Include or cause to be included the above criteria and requirements in every nonexempt subcontract and will take such action as the Government may direct as a means of enforcing such provisions.

(b) As a further condition for FmHA's making or guaranteeing a loan in excess of $100,000 but not otherwise exempted, the applicant for the loan will secure the services of a contractor who agrees to comply with the provisions in paragraph (a) above.

(c) For guarantee assistance under this Part, Lender will cause to be included in all solicitation and contract provisions the stipulations contained in paragraph (a) above provided the loan amount is $100,000 or more and not otherwise exempted.

(d) The term "facility" as used in this section only means any building, plant, installation, structure, mine, vessel or other floating craft, location, or site of operations, owned, leased, or supervised by a grantee, cooperator, contractor, or subcontractor, to be utilized in the performance of a grant, agreement, contract, subgrant, or subcontract. Where a location or site of operations contains or includes more than one building, plant, installation, or structure, the entire location shall be deemed to be a facility except where the Director, Office of Federal Activities, Environmental Protection Agency, determines that independent facilities are colocated in one geographical area.

§§ 1980.436–1980.440 [Reserved]

§ 1980.441 Applicant equity requirements.

The applicant will be required to contribute sufficient tangible assets on both guaranteed and insured loans to provide reasonable assurance of a successful project. Normally, a minimum of 10 percent equity will be required on the applicant's balance sheet, at the time of loan closing for insured loans and at the time when the Loan Note Guarantee is issued for guaranteed loans. However, FmHA may require more equity depending on all other credit factors present in the particular project. Ordinarily, more than the minimum amount of equity will be required for new business ventures.

§ 1980.442 Feasibility studies.

FmHA may require an applicant to provide a feasibility study prepared by an independent recognized consultant. The cost of such study will be borne by the applicant and may be paid from funds included in the loan. On loans of one million dollars or more, feasibility studies by recognized independent consultants will ordinarily be required. FmHA may waive this requirement when the financial history of the business, the current financial conditions and guarantees or other collateral is more than adequate to indicate the feasibility of the enterprise. The feasibility study outline will be approved by FmHA. FmHA personnel may not recommend consultants but may provide the applicant with a list of consultants who have performed satisfactorily on previous projects. An acceptable feasibility study should include but not be limited to:

(a) *Economic feasibility.* Information related to the project site, availability of trained or trainable labor, utilities, rail, air and road service to the site, and the overall economic impact of the project.

(b) *Market feasibility.* Information on the sales organization and management, nature and extent of market and market area, marketing plans for sale of projected output, extent of competition and commitments from customers or brokers.

(c) *Technical feasibility.* An engineering evaluation of the site, type of construction, adequacy of the plant machinery and equipment, operating and maintenance program to produce the projected quantity, and quality of goods, facility layout, and overall business operations.

(d) *Financial feasibility.* An opinion on the reliability of the financial projections and the ability of the business to achieve the projected income and cash flow. An assessment of the cost accounting system, the availability of short term credit for seasonal business and the adequacy of raw material and supplies.

(e) *Management feasibility.* Evidence that continuity and adequacy of management has been evaluated and documented as being satisfactory.

§ 1980.443 Collateral, personal and corporate guarantees, and other requirements.

(a) *Collateral.* (1) The lender is responsible for seeing that proper and adequate collateral is obtained and maintained in existence and of record to protect the interests of the lender, the holder, and FmHA.

(2) Collateral must be of such a nature that repayment of the loan is reasonably assured when considered with the integrity and ability of project management, soundness of the project, and applicant's prospective earnings. Collateral may include, but is not limited to the following: land, buildings, machinery, equipment, furniture, fixtures, inventory accounts receivable, cash or special cash collateral accounts, marketable securities, and cash surrender value of life insurance. Collateral may also include assignments of leases or leaseholds interests, revenues, patents, and copyrights.

(3) All collateral must secure the entire loan. The lender may not take separate collateral to secure only that portion of the loan or loss not covered by the guarantee. The lender may not require compensating balances or certificates of deposit as a means of eliminating the lender's exposure on the unguaranteed portion of the loan. However, compensating balances as used in the ordinary course of business may be used.

(b) *Personal and corporate guarantees.* (1) Personal guarantees from major stockholders or owners having a major interest in a corporation and all partners of partnerships usually will be required. Guarantees of parent, subsidiaries, or affiliated companies may also be required. Guarantees will be required in sufficient amounts depending on the credit factors in each loan to reasonably assure repayment of the loan and provide adequate security.

(2) The requirement for personal guarantees or corporate guarantees may be waived by FmHA if the proposed guarantors cannot provide such guarantee due to other existing contractual obligations or legal restrictions. For those applicants providing documented evidence of successful operations for the past three years, guarantees will be obtained as determined by FmHA.

(3) If a review of all credit factors indicates the need for additional security, FmHA may require additional personal and corporate guarantees. FmHA also may require that such guarantees be secured. Any collateral as referred to in paragraph (a) (2) of this section may be used to secure the guarantees.

(4) *Guarantors of applicants will:* (i) In the case of personal guarantees, provide current financial statements (not over 60 days old at time of filing), signed by the guarantors and disclose community or homestead property.

(ii) In the case of corporate guarantees, provide current financial statements (not over 90 days old at time of filing), certified by an officer of the corporation.

(iii) Provide written evidence to FmHA of their inability to provide a guarantee because of existing contractual arrangements or legal restrictions.

(c) *Other requirements.* (1) The lender must ascertain that no claims or liens of laborers, materialmen, contractors, subcontractors, suppliers of machinery and equipment or other parties are against the collateral of the borrower, and that no suits are pending or threatened that would adversely affect the collateral of the borrower when the security instruments are filed.

(2) Hazard insurance with a standard mortgage clause naming the lender as beneficiary will be required on every loan in an amount that is at least the lesser of the depreciated replacement value of the property being insured or the amount of the loan. Hazard insurance includes fire, windstorm, lightning, hail, business interruption, explosion, riot, civil commotion, aircraft, vehicle, marine, smoke, builder's risk, public liability, property damage, flood or mudslide, or any other hazard insurance that may be required to protect the collateral.

(3) Ordinarily, life insurance, which may be decreasing term insurance, is required for the principals and key employees of the borrower and will be assigned or pledged to the lender. A schedule of life insurance available for the benefit of the loan will be included as part of the application.

(4) Workmen's compensation insurance is required in accordance with State law.

V40N239 DEC 11 75 XUM

§ 1980.444 Appraisal of property serving as collateral.

(a) Property that will serve as collateral for loans will be appraised by a qualified appraiser. The appraiser will give his opinion regarding the current market value of the collateral.

(b) The lender will be responsible for determining that appraisers (other than FmHA appraisers) have the necessary qualifications and experience to make the appraisals. If the lender has any questions in this regard, it should consult with FmHA before having an appraisal made.

(c) The lender must determine that the fees or charges of appraisers are reasonable.

(d) If the loan request is for $100,000 or less, an FmHA appraiser may make the appraisal.

(e) Appraisals will be made on forms approved by the lender, except when appraisals are made by an FmHA appraiser who may use regular FmHA forms.

§§ 1980.445–1980.450 [Reserved]

§ 1980.451 Filing and processing applications.

(a) *Applicants' and lenders' contact.* Applicants and lenders desiring FmHA assistance as provided in this subpart may file preapplications or applications with the County Supervisor servicing the area in which the project is to be located. The FmHA County Supervisor will promptly arrange an early meeting with the applicant and lender representatives to discuss assembly, preparation and processing of preapplications and applications.

(b) *Applications from cooperatives.* Applicants eligible for loans from the Bank for Cooperatives will be encouraged to obtain guaranteed loans from that source since the Bank for Cooperatives is experienced in making and servicing such loans and can provide substantial counsel to the applicant. Applications must be submitted to the Bank for Cooperatives as a test for credit elsewhere when an insured loan is being considered.

(c) *Applicants eligible for Small Business Administration (SBA) assistance.* All applicants for loan guarantees eligible for SBA assistance will be advised by FmHA at the time of receipt of the preapplication of the availability of such assistance and will be encouraged to apply to that agency. Appendix A to this subpart includes a copy of the current memorandum of understanding between SBA and FmHA.

(d) *Loan priorities.* Applications and preapplications received by FmHA will be considered in the order received. Priority shall be given to projects located in areas and cities having a population of less than twenty-five thousand.

(1) FmHA will cooperate fully with appropriate State agencies in guaranteeing and insuring loans in a manner which will assure maximum support of the State's strategies for development of its rural areas.

(2) When applications on hand otherwise have equal priority the applications from a veteran will have preference. A veteran is a person who has been discharged or released from the active forces of the United States Army, Navy, Air Force, Marine Corps, or Coast Guard under conditions other than dishonorable and who served on active duty in such forces: (i) During the period April 6, 1917, through March 31, 1921; (ii) during the period of December 7, 1941 through December 31, 1946; (iii) during the period of June 27, 1950, through January 31, 1955; or (iv) for a period of more than 180 days, any part of which occurred after January 31, 1955; but on or before May 7, 1975. Discharges under conditions other than dishonorable include "clemency discharges."

(3) In assigning priorities to applications and in selecting projects for funding, FmHA will consider State development strategies, and clearinghouse (A–95 Agency) comments and recommendations. Funds (Insurance or guarantee authority) allocated for use as prescribed in this regulation are to be considered for use by Indian tribes within the State regardless of whether State development plans include Indian reservations within the State's boundaries. It is essential that Indians residing on such reservations have equal opportunity to participate in any benefits of these programs. Priorities will be assigned by the FmHA State Director in accordance with the following:

(i) Those projects which will save existing jobs.

(ii) Those projects which will enlarge, extend, or otherwise improve existing business and industries.

(iii) Those projects which will create the highest number of permanent employment opportunities.

(iv) Those projects which will contribute to the overall economic stability of the rural areas but generate little or no permanent employment opportunities beyond the entrepreneur himself.

(e) *Filing preapplications and applications.* Applicants or lenders may file preapplications as described in paragraph (f) of this section if they desire an expression of FmHA interest prior to assembling the complete application and request for Loan Note Guarantee or they may present the complete application, in one package, including the material required in paragraphs (f), (i), (j), and (k) of this section.

(f) *Preapplications.* Applicants may file preapplications with the County Office including:

(i) A letter prepared by the applicant and the lender which shall include:

(a) Applicant's name, address, contact person and telephone number.

(b) Amount of loan request.

(c) Name of the proposed lender, address, contact person and telephone number.

(iv) Brief description of the project, products, and services provided.

(v) Type and number of employment opportunities and unemployment rate where the project will be located.

(vi) Amount of applicant's equity and guarantees offered.

(vii) Anticipated loan maturity and interest rates.

(viii) Availability of raw materials and supplies.

(2) Form FmHA 449–22, "Certification of Non-Relocation and Market and Capacity Information Report."

(3) Form FmHA 449–4, "Statement of Personal History," for a proprietor (owner), each partner, officer, director, key employee, and stockholders holding 20 percent or more interest in the applicant except for those corporations listed on a major stock exchange and for those so listed if required by FmHA. Failure to report full, complete and accurate information on the Statement of Personal History may result in FmHA's not making or guaranteeing the loan.

(4) A record of any pending or final regulatory or legal (civil or criminal) action against the applicant, guarantors, principal stockholders, officers, and directors.

(5) A current balance sheet and latest profit and loss statement, and financial statements of existing businesses for the last 3 years.

(6) A detailed projection of gross revenue, net earnings, and cash flow statements for 3 years including assumptions upon which such forecasts are based.

(7) Sales projections indicating the percent of the national and local market the business expects to obtain.

(8) Comments of substate and state A–95 agencies except that loans for smaller or local enterprises with no significant economic or environmental impact are exempt from A–95 review regulations. However, a notice of approval for information purposes must be sent to the A–95 agency. If such comments are not immediately available, they may be forwarded to the County Office after submission of the preapplication. Applicants requesting Federal assistance are required to notify the A–95 clearinghouse in the jurisdiction where the project is to be located. Normally, the preapplication material excluding financial information is submitted for A–95 review.

(g) *Preliminary determination by FmHA.* If preapplication information indicates the project will not meet FmHA's minimum credit standards for a sound loan, is ineligible, does not have sufficient priority, or that funds or guarantee authority are not available for the project, FmHA will so inform the applicant. The applicant will be notified in writing with all reasons for the decision indicated. If it appears that the project is eligible, has sufficient priority, is economically feasible and loan guarantee authority is available, FmHA will inform the lender and applicant in writing and request that they complete the application.

(h) *Department of Labor certifications.* FmHA will submit Form FmHA 449–22 to the Department of Labor for the necessary certification that the proposal will not be in conflict with § 1980.412 (c) and (d).

(i) *Applications will consist of:*

(1) Form FmHA 449–1, "Application for Loan and Guarantee."

(2) Form FmHA 449–2, "Statement of Collateral."

(3) Form FmHA 449–10, "Applicant's Environmental Impact Evaluation."

(4) Architectural or engineering plans, if applicable.

(5) Cost estimates and forecasts of contingency funds to cover inflation or project changes.

(6) Appraisal reports.

(7) For existing businesses, a pro forma balance sheet at start-up and for at least three additional projected years indicating the necessary start-up capital, operating capital and short-term credit based on financial statements for the last three years, or more (if available) and projected cash flow and earnings statements for at least three years supported by a list of assumptions showing the basis for the projections. If debt refinancing is requested, a debt schedule is to be prepared (correlated to the latest balance sheets) reflecting the debts to be refinanced including the name of the creditor, the original loan amount and loan balance, date of loan, interest rate, maturity date, monthly or annual payments, payment status, and collateral that secured such loans.

(8) For new businesses, a pro forma balance sheet at start-up and for the next three years, projected cash flow (monthly first year, quarterly for two additional years) and projected earnings statements for three years supported by a list of assumptions showing the basis for the projections.

(9) Any credit reports obtained by the lender or FmHA.

(10) Form FmHA 400–1, if construction costing more than $10,000 is involved.

(11) Copies of building permits, if applicable, and any necessary certifications and recommendations of appropriate regulatory or other agency having jurisdiction over the project including any pollution control agency.

(12) Personal and corporate financial statements of those guarantors named in § 1980.443.

(13) Proposed loan agreement. (See paragraph VIII of Form FmHA 449–35). Proposed loan agreements between the borrower and lender will be required. Ordinarily, such agreements include but are not limited to the following:

(i) Requirements for accounting and record keeping.

(ii) Periodic financial reporting.

(iii) An annual audited financial statement from the borrower prepared by an independent certified public accountant or by an independent licensed public accountant, who is certified or licensed by a regulatory authority of a State or other political subdivision of the United States.

(iv) Prohibitions against assuming liabilities or obligations of others.

(v) Restrictions on dividend payments.

(vi) Limitation on purchase or sale of equipment and/or fixed assets.

(vii) Limitation on compensation of officers and/or owners.

(viii) Minimum working capital requirements.

(ix) Minimum debt to net worth ratio.

(x) Restrictions concerning consolidation, mergers or other circumstances.

(xi) Limitations on selling the business without concurrence of the lender and FmHA.

(xii) Repayment and amortization of the loan.

(xiii) List of collateral for the loan.

(xiv) List of persons and/or corporations guaranteeing the loan.

(14) A complete feasibility study when required. (See § 1980.442.)

(15) A written statement of any effect the project will have on any district, site, building, structure, or object that has been included in the National Register of Historic Places as maintained by the Department of Interior in accordance with the National Historic Preservation Act of 1966. If the project has no effect as provided in this section, the applicant will so state. (Historic preservation as defined under this Act includes the protection, rehabilitation, restoration, and reconstruction of districts, sites, buildings, structures, and objects significant in American history, architecture, archeology and culture). (See Part 1890 r of this chapter (FmHA Instruction 440.10)).

(16) Any additional information required by FmHA.

(17) For companies listed on major stock exchanges and/or subject to the Securities and Exchange Commission regulations, a copy of Form 10–K "Annual Report Pursuant to section 13 or 15 D of the Act of 1934."

(18) Documented evidence that the project is located within or without special flood or mudslide hazard areas.

(j) *Use of forms.* FmHA numbered forms will be used where shown in both preapplications and applications. Otherwise, lenders should use their forms, real estate mortgages, security instruments and other agreements, provided such forms do not contain any provisions that are in conflict or are inconsistent with provisions of this subpart.

(k) If the loan request is for health care facilities (*e.g.*, hospitals or nursing homes), a "Certificate of Need" will be obtained by the applicant from the appropriate regulatory or other agency having jurisdiction over the project. If a significant part of the project's income will be from third party payors, *e.g.*, medicare or medicaid, the project will be designed and operated in a manner necessary to meet the requirements of the third-party payors.

ADMINISTRATIVE

A. *The County Supervisor and District Director:* 1. Determines if material and information submitted is complete.

2. Prepares and submits to State Director their comments and recommendations. Such comments will include but are not limited to the following: Community attitude toward project; a summary of comments regarding the proposal by the lender county leaders, and other interested parties; whether the project is likely to result in the need for additional community facilities such as schools, water, sewer, and health care services and if so, the community's plan for providing such facilities; availability of any required additional labor force and training plans for such force, if needed; an economic forecast of the effect on the community should the project fail, if financed.

B. *The State Director:* 1. Will provide the County Supervisor with assistance as may be necessary to assure that the applicants and lenders are currently and correctly advised throughout preapplication and application processing.

2. Will prepare and submit Form FmHA 440–48, "Association or Organization Activity Report," in accordance with FmHA Instruction 440.9. However, the Standard Industrial Classification (SIC) manual will be used in coding of projects rather than the "Loan Purpose Codes" sections of the instructions.

3. Will forward immediately to the National Office on all projects:

(a) Form FmHA 449–22, (7 copies). If applicable, attach Form FmHA 449–33, "Small Loan Certification," for loans of $100,000 or less where loan proceeds are expected to result in employment of not more than five workers.

(b) For insured loans where the applicant leases facilities to another, submit Form FmHA 449–22 for such applicant. The lessor(s) will also be required to provide Form FmHA 449–22. Subsequent loan requests require resubmission of Form FmHA 449–22.

(c) Form FmHA 449–4 (4 copies).

NOTE: As soon as practical send the Forms FmHA 449–22 and 449–4 so that the Department of Labor and Character Evaluation processing may be completed without delay.

4. On all applications over one million dollars (including previously approved loans where additional subsequent loan brings the total over one million dollars), the State Director will submit a separate narrative report prepared in strict compliance with the following format:

Name and Address of Applicant:
Amount of Loan:
State:
County:

1. Background information. Include general description of business, type of applicant, products, availability of raw material and required supplies, length of time applicant has been in this business, any particular problems being encountered, and other such information.

2. Your appraisal of the gross and net effect of the FmHA loan on levels of employment in the local community. Include information on the labor force, number of unemployed, percent of the population unemployed, and what the loan may do to improve the employment picture. This information may be obtained from the local employment service office. Describe the need for training labor for proposed industry, if any, and applicant and county plans for providing such training. If a technical training school is available, identify it. Indicate the number of jobs to be created and/or saved.

3. Fund (obligation authority) situation in state.

		(Current fiscal year)
(a) Allocation		$
(b) Projects approved to date	No ____	$
(c) Active loan applications currently in process (including this application)		$
(d) Those in (c) you expect to fund this fiscal year	No ____	$
(e) Estimated need for additional allocation (if any) for this fiscal year		$

V40239 DEC 11 75 XUM

4. The record of any legal or regulatory actions taken by or against the applicant for the loan (including the principal officers of the proposed enterprise) and known to you, and any civil or criminal suits which are pending. Report any suits listed in any credit reports, financial statements, and disclosed to you by the applicant or any other source.

5. The total debt and the debt to net worth ratio of the applicant.

6. Detailed projections of profit and cash flow together with a list of assumptions showing the basis for the projections. (Provided in an attachment to this report.)

7. The general economic outlook for the type of business or industry, both nationally and in the prospective location. Indicate what percentage increase in sales can be expected nationally and in the applicant's market area, if any, and explain the rationale for this opinion. A good source of information—U.S. Department of Commerce publication, "U.S. Outlook—With Projections".

8. The impact of proposed project on local environment, transportation, and other local facilities and services. Indicate whether the present water, sewer, electric, and energy service facilities will be able to handle the needs of the business being financed, plus the increased need placed on the city school system and other public facilities due to the influx of employees.

9. Indicate if FmHA has previously guaranteed a loan to the proposed lender, and if so, comment on how it was serviced.

10. Any other considerations you feel are important.

Prepared by:

(Signature)

(Name typed)

(Title)

Attach to the above report:

For existing businesses—Minimum three years and current audited financial statements or balance sheets, profit and loss statements, and the requirements for new businesses.

For new businesses—Projections for 3 years of gross revenues and net earnings, a cash flow statement with proper assumptions, and a pro-forma balance sheet at start-up.

5. *par (g)* State Director informs applicant of any decision. (copy sent to County Supervisor).

6. *par (i)* State Director submits a transmittal letter with recommendations on loan applications requiring National Office review. Included are:

(a) Loan File.

(b) Form FmHA 449–29, "Project Profile," including State Director's spread sheets, financial history and projections (use attachments to profile if necessary).

(c) Proposed Form FmHA 449–14.

(d) Copy of FmHA State Loan Review Board Minutes.

(e) Notification of required financial and other reports, their frequency, due dates, and fiscal year end.

7. *par (i) 9. Credit Reports.*

(a) The National Office has contracted with Dun and Bradstreet, Inc. (the contractor, D&B) for a complete credit reference and monitoring system for use by FmHA National and State Offices. The system will provide an independent source of credit information for analyzing applications and provides a continuous monitoring of all loans.

(b) The State Director will appoint a member of his staff to act as a State Coordinator for the service. Such coordinator will be provided with instructional material necessary to use this service. The contractor will assign a D&B account executive from the nearest D&B office for assistance to the FmHA State Office Coordinator, answer inquiries, assure proper service, deliver the National Reference Books, and deliver inquiry request forms to the State Office Coordinator.

(c) The Credit Reference and Monitoring System Service consists of:

(1) *Credit Reference Service*—Three sets of Dun & Bradstreet National Reference Books will be delivered to each state office. These reference books provide an easy-to-use credit information source.

(2) *Business Information Report Service*—When the State Director has determined that a preapplication or application will be considered for further processing, he will instruct the State Office Coordinator to order a credit report on an existing business.

The contractor will provide each state office with a supply of pre-numbered (separate number for each state) Dun & Bradstreet, Inc. Subscriber Inquiry forms JTC 25592 for use in ordering the credit report. The form must contain a complete and correct business name and address. Insert in the "Remarks" section a list of the names of principal(s). The inquiry form is mailed to the designated D&B office for processing. The credit report will be sent by D&B directly to the State Office Coordinator.

For urgent inquires a telephone request to the local D&B office may be used. (Telephone number will be provided by the account executive.)

If loan dockets are sent to the National Office for review, they will contain a copy of the D&B credit report. (Note: The National Office may also initiate requests for these reports and will notify the State Office.)

(3) *Key Account Report Service*—This is a special comprehensive report on businesses and principals providing an indepth investigation and detailed information. All Key Account Reports will be ordered by the National Office. If a State Director feels a Key Account Report is needed to assist in his review of an application, he may request such report from the National Office, by submitting a memo with reasons for the request. In most new business proposals this service will be a valuable tool in the evaluation of the loan and should be requested.

(4) *Change Notification Service*—This is a continuous monitoring service whereby D&B in Washington, D.C. will coordinate with the National Office for providing certain data relating to then existing Business and Industry Loans.

(i) Each State Coordinator will provide the National Office with an initial listing of all existing business names and addresses where Loan Note Guarantees or letter of conditions has been issued and thereafter, on a monthly basis, a listing of additional names or deletions.

(ii) The National Office will forward the combined listings to D&B, who thereafter will provide a continuous monitoring of these businesses. D&B will report any significant changes that may have developed which affect the business. Such changes will be reported on a D&B change notice Form 9W2–11 and sent by D&B to the National Office. The National Office will review the change notice and send a copy to the State Office Coordinator who may request a D&B updated credit report or take any appropriate follow-up action required. (This system is to be used as a supplement for FmHA's monitoring functions).

8. Applications will be organized in a loan file in accordance with FmHA Instruction 451.1, Exhibit B. An 8-position folder will be utilized. The State Director may supplement the Position Guides to include specific legal requirements within their state. If the applicant prepares a complete application package, it may accompany the loan file provided the file is organized in a binder, indexed, tabbed, and feasibility studies are kept separate.

9. On loan applications within the State Director's loan approval authority, the State Director will submit to the National Office items 6 (b) through (e) above, copy of Borrower and Lender Loan Agreement, and comments as per ADMINISTRATIVE A 2 above.

§ 1980.452 FmHA evaluation of application.

FmHA will evaluate the application. FmHA will make a determination whether the borrower is eligible, the proposed loan is for an eligible purpose, there is reasonable assurance of repayment ability, sufficient collateral, and sufficient equity. If FmHA determines it is unable to guarantee the loan, the lender will be informed in writing. Such notification will include the reasons for denial of the guarantee. If FmHA is able to guarantee the loan, it will provide the lender and the applicant with Form FmHA 449–14, listing all requirements for such guarantees. The Conditional Commitment for Guarantee may not be issued on any loan until the State Director has been notified by the National Office that the Statement of Personal History(s) has been cleared. FmHA State Directors are authorized to execute Form FmHA 449–14.

ADMINISTRATIVE

State Director evaluates the application and considers:

A. Rural Area determinations. (See § 1980.-405).

B. Community Impact of the proposal which includes: 1. Number of Businesses and Industries in the town or city.

2. Employment impact upon the community.

3. Availability of skilled and unskilled labor and permanency of employment opportunities.

4. Vocational and educational facilities to provide skilled labor, if applicable.

5. Policies of applicant regarding unemployment, lay-offs, wage scales, etc.

C. If debt refinancing is requested; consider in accordance with § 1980.411(a)(12) and: 1. A complete review will be made to determine whether it is essential to restructure the company's debts on a schedule that will allow the business to operate successfully rather than merely converting an unsound loan to a guaranteed basis.

(a) Obtain a Borrower's complete debt schedule. Schedule should agree with applicant's latest balance sheet.

(b) Determine from lender if the applicant's present loan(s) is on the lender's regulatory examiners report and if so determine the loan classification.

(c) Analyze lender's liability ledger on the borrower, individual customer credit files, installment Loan Ledger Card or Computer printouts, and other credit reports.

D. Applications will be analyzed by a FmHA State Loan Review Board prior to execution of Form FmHA 449–14.

1. Generally, the review board consists of the State Director as Chairman, Business and Industrial Loan Chief (Specialist), and either the Community Programs Chief, Rural Housing Chief, or Farmer Programs Chief, as appropriate.

2. The State Director may wish to contact non-FmHA sources for expertise, such as bankers or other lenders, industrial development specialists from state commissions, academicians, certified public accountants, tax attorneys, successful business and professional leaders, management consultants, and officials from other Federal agencies. Outside resource consultants may be reimbursed for only their travel costs (transportation and subsistence). (See FmHA Instruction 160.1).

3. The Rural Housing Loan Chief will be a member of the FmHA State loan review board if a site development loan (see § 1980.-411(a)(7)) is being considered. The Community Programs Chief will be a member if a loan for facilities of the type financed under the provisions of Part 1823 of this Chapter (FmHA Instruction 442.1) is being considered. The Farmer Program Chief will be a member of the board if a project, the success of which is dependent on the production of agricultural products, is being considered. If the proposed project covers more than one program area, all the chiefs for those programs involved will be members of the Board. If the approval of an application for a B&I loan may result in benefiting or hindering other FmHA programs the review board will determine whether the making of such loan or guarantee is likely to result in embarrassment for FmHA as a result of a possible conflict of interest whereby other parties may accuse the agency of giving loan preference to housing borrowers (in the case of site development) or producers (in the case of agricultural processing plant) or other FmHA Programs.

4. The County Supervisor and District Director will attend the review board meeting to the extent practical taking into consideration other work requirements and travel.

All review board meetings will be fully documented and signed by those FmHA employees serving on the board. A copy of such documentation will be retained in the loan file.

5. If the request for guarantee is acceptable, the State Director will obligate the project by submitting Form FmHA 440–3, "Record of Actions," in an original and three copies. The State Director signs the original and one copy. The remaining copies will be conformed. The original and one copy will be forwarded to the Finance Office and a signed copy will be concurrently forwarded to the lender.

The State Director will also direct a letter to the lender informing him that the purpose of the Form FmHA 440–3 is to establish an obligation of guarantee authority, and the lender will be notified when such authority is established, and will be provided with a list of loan guarantee conditions and requirements. The Finance Office will return one copy to the State Director indicating whether the amount of guarantee authority requested has been obligated. Such submission for obligation will not be made until the State Director is ready to issue the Form FmHA 449–14, "Conditional Commitment for Guarantee," except with prior written authorization from the National Office.

The State Director will not issue the Form FmHA 449–14, "Conditional Commitment for Guarantee," until the Finance Office has made notification that the authority has been obligated. This procedure will be used to obligate funds until the Form FmHA 440–3 is obsolete and Form FmHA 440–1, "Request for Obligation of Funds," has been issued for use. Proceed as follows upon the issuance of Form FmHA 440–1 (Revised).

The State Director will obligate funds or authority for the project by preparing Form FmHA 440–1, "Request for Obligation of Funds," in an original and four copies. The State Director will sign the original and one copy and conform two copies. The original and one conformed copy will be forwarded to the Finance Office and the other copies held pending notification from the Finance Office that guarantee or insurance authority is available. The Finance Office will reserve fund or authority for the project and notify the State Director of such reservation by forwarding the original and one copy of Form FmHA 440–57, "Acknowledgement of Obligated Funds/Checks Requested." Unless the State Director notifies the Finance Office to cancel the reservation or to complete obligation at an earlier date, the Finance Office will complete the obligation on the 15th working day following the date of Form FmHA 440–57. The State Director will time his report to the National Office as required by FmHA Instruction 2015–C in order that notification required by the instruction may be accomplished and the applicant (for an insured loan) or the lender (for a guaranteed loan) is informed of loan approval not later than the date of obligation. Notice of approval to the applicant or lender will be accomplished by providing the applicant or lender with the signed copy of Form FmHA 440–1 and a copy of Form FmHA 449–14, "Conditional Commitment for Guarantee," unless the National Office has given prior written authorization to forward Form FmHA 440–1 to the applicant or lender in advance of issuance of Form FmHA 449–14.

The State Director will record the actual date of applicant or lender notification on the remaining copy of Form FmHA 440–1 and make such copy a permanent part of the County Office loan file.

6. State Director, through the County Supervisor, notifies the lender and applicant if he will not issue the Form FmHA 449–14.

§ 1980.453 Review of requirements.

(a) Immediately after reviewing the conditiones and requirements in Form FmHA 449–14, and the options listed on the back of the form, the lender and applicant should complete and sign the "Acceptance or Rejection of Conditions," and return a copy to the FmHA State Director. If certain conditions cannot be met, the lender and borrower may propose alternate conditions to FmHA.

(b) If the lender indicates in the "Acceptance or Rejection of Conditions" that it desires to obtain a Loan Note Guarantee and subsequently decides at any time after receiving a conditional commitment that it no longer wants a Loan Note Guarantee, the lender should immediately advise the FmHA State Director.

ADMINISTRATIVE

The State Director will negotiate with the lender and applicant any changes made to the initially issued or proposed Form FmHA 449–14, "Conditional Commitment for Guarantee." A copy of Form FmHA 449–14 and any amendments thereto will be included when the loan file is submitted to the National Office for review. When the National Office recommends modifications or additions to Form FmHA 449–14, the State Director will further negotiate these recommendations with the lender and applicant. If as a result of these further negotiations the lender, applicant or State Director presents alternate conditions which would modify recommendations of the National Office, the State Director will submit them by memorandum to the National Office for consideration with a copy of the revised Form FmHA 449–14 and any amendments thereto.

§ 1980.454 Conditions precedent to issuance of the Loan Note Guarantee.

(a) Form FmHA 449–34 will not be issued until the lender certifies to FmHA that:

(1) No major changes have been made in the lender's loan conditions and requirements since the issuance of the Conditional Commitment for Guarantee except those approved in the interim by FmHA in writing.

(2) All planned property acquisition has been completed, all development has been substantially completed in accordance with plans and specifications, and all costs have not exceeded the amounts approved by the lender and FmHA.

(3) Required hazard, flood, workman's compensation and personal life insurance is in effect.

(4) Truth in lending requirements have been met.

(5) All equal employment opportunity and nondiscrimination requirements have been or will be met at the appropriate time.

(6) The loan has been properly closed, and the required security instruments have been obtained, or will be obtained on any after acquired property that cannot be covered initially under State law.

(7) The borrower has title marketable in fact to the collateral then owned by him or it, subject to the instruments securing the loan to be guaranteed and subject to any other exceptions approved in writing by FmHA.

(8) The entire amount of loan for working capital has been disbursed except in cases where the State Director has approved disbursement over an extended time.

(9) Required personal, partnership or corporate guarantees have been obtained.

(10) All other requirements to the Conditional Commitment for Guarantee have been met.

(b) The lender will see that FmHA is notified so that it can make inspections at various stages of construction, repair, or development if FmHA has advised the lender that it desires to do so.

(c) When it is determined that there will be a cost overrun or a change in funds by line item, paragraphs (1) and (2) of this section will apply.

(1) Minor changes in the project which do not affect the approved loan purposes, increase the cost, or adversely affect the objectives or soundness of the loan may be approved by the borrower and lender. If any line item as reflected in the use of proceeds on Form FmHA 449–1 is changed 10 percent or less and the total loan remains the same, the lender may approve the change.

(2) If the change or overrun cannot be handled as in paragraph (c) of this section, the lender and borrower, with the advice of FmHA, will determine how the change or overrun costs will be met. FmHA will determine and inform the lender in writing whether the loan can still be guaranteed. The State Director may approve cost overruns and line item changes:

(i) On all loans within his approval authority, or

(ii) Where the total loan does not exceed his approval authority plus 20 percent, or

(iii) Not more than 10 percent on loans up to $10,000,000.

V 40 93239 DEC 11 75 XUM

(d) Should cost overruns exceed the parameters set forth in paragraph (c)(2) of this section, further disbursements, if any, will be withheld until satisfactory arrangements to complete the project have been made with concurrence of the FmHA National Office.

(e) The lender has executed and delivered to FmHA Form 449-35.

(f) Department of Labor Certification has been obtained by FmHA.

(g) Character evaluation clearance has been obtained by FmHA.

(h) The lender advises FmHA of its plans to sell or assign any part of the loan as provided in Form FmHA 449-35.

(i) When loan closing plans are established, the lender will notify the FmHA County Supervisor so that an FmHA representative may attend the loan closing.

ADMINISTRATIVE

A. *The State Director reviews:* 1. The loan agreement between the borrower and lender which provides for the frequency of submission of financial statements to the County Supervisor. Monthly financial statements should be required on new business enterprises or those needing close monitoring. However, the annual audit report will always be required.

2. Plans for inspection made on construction projects. These should be coordinated with the lender and borrower. (See Appendix B of FmHA Instruction 442.1). Form FmHA 424-12 may be used by the County Supervisor who will make the majority of the inspections. However, the District Directors, Engineers or B&I Chief may also make inspections as designated by the State Directors. Copies are to be furnished the County Supervisor.

3. Cost overruns, if any, and how they will be met.

4. Basic credit requirements of all loans.

B. *par (f)* State Director will designate representative(s) to attend. However, in all cases the District Director will conduct a pre-closing audit to assure that all requirements of the application, Conditional Commitment for Guarantee, and Loan Agreement have been met and will provide such verification in the loan file.

§§ 1980.455–1980.460 [Reserved]

§ 1980.461 Issuance of lender's agreement, loan note guarantee and assignment guarantee agreement.

(a) *Lender's Agreement.* If FmHA finds that all requirements have been met, the lender and FmHA will execute Form FmHA 449-35, "Lender's Agreement." The original will be delivered to FmHA and a signed duplicate original retained by the lender. There will be a Form FmHA 449-35 executed for all loans guaranteed by FmHA. The Lender's Agreement will be executed at the time the Loan Note Guarantee is signed and FmHA receives the guarantee fee.

(b) *Loan Note Guarantee.* (1) Upon receipt of the Form FmHA 449-35 and after all requirements have been met, FmHA will execute Form FmHA 449-34. All original(s) will be provided to the Lender and attached to the note. A conformed copy with copies of notes attached will be retained by FmHA.

(2) In the event a lender has made a B&I loan guaranteed by FmHA under previous regulations and has obtained a Form FmHA 449-17, "Contract of Guarantee," the lender may request the State Director to substitute a Loan Note Guarantee governed in all respects by these regulations for the previously issued Contract of Guarantee. The State Director will review the lender's written request for substitution of guarantees and may authorize the issuance of the new Loan Note Guarantee in exchange for the Contract of Guarantee. The lender will:

(i) Prepare and submit to FmHA a written request for such substituted guarantee.

(ii) Certify to FmHA that there is no adverse change in the borrower's financial situation, the collateral and terms of the loan remain the same as under the original guarantee, and the loan is in good standing.

(iii) Pay the required guarantee fee in accordance with § 1980.421.

(iv) Certify to FmHA the outstanding principal amount of the loan.

(v) Execute a Form FmHA 449-35.

(3) If the lender has selected the multi-note system as provided in paragraph III A 2 of the lender's agreement, a Loan Note Guarantee will be prepared and attached to each note the borrower issues. All the notes must be listed on Form FmHA 449-34.

(4) If the lender requests a series of new notes to replace previously issued guaranteed notes as provided in paragraph III A 2 (b) of the Lender's Agreement, the State Director may reissue the new Loan Note Guarantees in exchange for the original loan note Guarantees.

(c) *Assignment Guarantee Agreement.* In the event the lender assigns the guaranteed portion of the loan to a holder(s) in accordance with provisions of § 1980.462, the lender, holder, and FmHA will execute Form FmHA 449-36, "Assignment Guarantee Agreement." The original of the agreement(s) will be provided to the holder with conformed copy(s) to the lender and FmHA. If the lender desires to assign a part(s) of the guaranteed loan to a holder(s), an Assignment Guarantee Agreement will be executed for each assigned portion. Attached to the Assignment Agreement will be a copy of the borrower's note(s) and a copy of the Loan Note Guarantee.

(d) *Refusal to execute contract.* If FmHA determines that it cannot execute the Loan Note Guarantee because all requirements have not been met, it will promptly inform the lender on Form FmHA 449-13, "Denial Letter" of the reasons, and give the lender a reasonable period within which to satisfy FmHA objections. If the lender writes FmHA within the period allowed requesting additional time to satisfy the objections, FmHA may, in writing, grant such additional time as it considered necessary and reasonable under the circumstances. If the lender satisfies the objections within the time allowed, the guarantee will be issued.

(e) *Payment of guarantee fee.* The lender will prepare and deliver Form FmHA 449-19, "Guarantee Fee Report," and deliver the guarantee fee to the County Supervisor who concurrently delivers the Loan Note Guarantee(s).

(f) *Authorized FmHA Representatives to execute forms.* State Directors and County Supervisors are authorized to execute the Lender's Agreement, Loan Note Guarantee or Assignment Guarantee Agreement. State Director and County Supervisors are authorized to execute agreements necessary to the making of an insured loan.

ADMINISTRATIVE

A. *par (a)* The original Form FmHA 449-35 will be kept in the County Office, a copy may be retained in the State Office.

B. *par (b)(1)* Copy(s) of the Loan Note Guarantee(s) will be kept in the County Office. Additional copy(s) may be retained by the State Office. Copies of all issued Loan Note Guarantees will be kept in the loan file.

C. *par (b)(2)* The State Director will approve all substitutions of Loan Note Guarantees for Contracts of Guarantee.

D. It is imperative that the original loan covered by a Contract of Guarantee is current.

E. *The Registered Holder will transmit to the County Supervisor.* 1. Request for substitution together with the original Contract of Guarantee.

2. Copies of notes with lender's identification numbers. (All requirements of the Lender's Agreement must be complied with before any new notes are issued.)

3. Certification that the loan is current and in good standing.

4. Certification of outstanding principal amount of the loan.

5. Executed Lender's Agreement. (FmHA provides form to Lender).

6. Executed Form FmHA 449-19, "Guarantee Fee Report." (Indicate at top of form, "one time substituted guarantee fee.") (See § 1980.421 for calculation of fee due).

7. Payment for appropriate guarantee fee.

F. *County Supervisor will:* 1. Review all the requirements of paragraph E of this section.

2. If the request is appropriate and complete, forward the request to the State Director.

G. *State Director will:* 1. Verify the submitted request and if in order; send the guarantee fee and guarantee fee report to Finance Office with a notation of the date the new Loan Note Guarantee will be issued. (Note: The substitution of a Loan Note Guarantee for the Contract of Guarantee is not to be considered as a new loan for record keeping purposes.)

2. Complete the Loan Note Guarantee (appropriate number for attachment to each note), date and sign the instrument. The following statement will be entered at the top of the form: "This Loan Note Guarantee is issued in substitution of Contract of Guarantee dated _____. The State Director will transfer from the Contract of Guarantee all information pertaining to the loan to the Loan Note Guarantee.

3. Execute Lender's Agreement.

4. Cancel the original Contract of Guarantee.

5. Transmit to the County Supervisor the Loan Note Guarantee, Lender's Agreement and cancelled Contract of Guarantee.

6. State Director may retain for his file copies of the Loan Note Guarantee, Lender's Agreement and Guarantee Fee Report.

H. *County Supervisor:* Will then transmit to the Lender the original Loan Note Guarantee, and a copy of executed Lender's Agreement and retain in loan file copies of Loan Note Guarantee with attached original cancelled Contract of Guarantee copy of Guarantee Fee Report and the original Lender's Agreement.

All provisions of regulation 1980-E will apply to the loan when the Loan Note Guarantee is signed.

I. *Alternate Procedure:* If the Registered Holder does not want to deliver his original Contract of Guarantee with his request for substitution the County Supervisor will accept a copy of the Contract of Guarantee and proceed as above. However, the Loan Note Guarantee will be delivered only upon receipt of the original Contract of Guarantee. The County Supervisor will forward the original Contract of Guarantee to the State Director for cancellation. State Director will return the cancelled Contract of Guarantee to the County Supervisor for retention in the loan file.

J. *par (b)(3)* For reporting purposes where multi-notes are issued, the loan to the borrower will be counted as one loan regardless of the number of notes issued.

K. *par (b)(4)* The State Director will notify the Finance Office of the transaction.

L. *par (c)* A copy of Form FmHA 449-36 will be kept in the loan file.

M. *par (d)* State Director signs all Forms FmHA 449-13.

N. *par (e) The County Supervisor will:*

1. Review Form FmHA 449-19 for completeness.

2. Forward the guarantee fee and original Form FmHA 449-19 to Finance Office.

3. Forward a copy of Form FmHA 449-19, Form FmHA 449-34, Form FmHA 449-35 and Form FmHA 449-36, if applicable, to the State Director.

4. Originals or copies, as appropriate, will be retained in the FmHA loan file.

5. See that the State Director is notified of any discrepancies.

§ 1980.462 Lender's sale or assignment of guaranteed portion of the loan.

Any sale or assignment by the lender of the guaranteed portion of the loan may be accomplished in accordance with the conditions in paragraph III of Form FmHA 449-35. Should the lender know at the time the loan application is being prepared that it plans to sell or assign any part of the guaranteed portion of the loan as provided in Form FmHA 449-35, the lender should provide this information with the application to FmHA.

§§ 1980.463–1980.468 [Reserved]

§ 1980.469 Loan servicing.

The lender is responsible for loan servicing. See paragraph X of Form FmHA 449-35.

ADMINISTRATIVE

A. While the lender has the primary responsibility for loan servicing and protecting the collateral, the State Director is responsible for seeing that required servicing is properly accomplished. Loan servicing is a preventive rather than a curative action. Prompt follow up on delinquent payments and early recognition and solution of problems are keys to resolving many delinquent loan cases.

B. *The State Director will assure that:* 1. A time table for FmHA field visit inspections is established before the Loan Note Guarantee is issued. Field visits to new business borrowers should be made on a monthly basis for the first few months until the business is stabilized. Visits to non-seasoned (current and less than three years old) loan borrowers should be made at least quarterly; seasoned loans (current and more than three years old) at least annually; and special attention loan borrowers as frequently as the need calls for.

2. A review or adequate analysis on all financial statements and filed reports is made. A complete update of any "spread sheet" analysis of the borrower's financial condition is made and will take any appropriate action necessary. A memorandum of the analysis and a copy of the updated "spread sheet" are forwarded to the National Office, Attention: Business and Industrial Loan Division.

3. A proper followup with the District Director and County Supervisor is made if reports and financial statements are not being transmitted on time or if there are servicing actions needed.

4. Meetings are arranged between the lender, borrower and FmHA to resolve any problems of late payment, etc.

C. *For projects in amounts not in excess of his loan approval authority, the State Director is authorized to approve:* 1. Alterations in the loan agreement with borrower which will not prejudice the Governments interest.

2. Any replacement of collateral for the loan.

3. All lien coverage and lien priorities on the collateral established by the lender before issuance of the Loan Note Guarantee.

D. *Within his loan approval authority, the State Director is authorized to concur in:* 1. Any deferment and reamortization of the loan in concurrence with Holder(s).

2. Use of proceeds from disposition of collateral meeting the provisions of paragraph X of the Lender's Agreement.

E. *The State Director:* May consult with the National Office on any servicing problem and if it cannot be handled at the State level, the file will be forwarded to the National Office with proposed recommendations.

F. *County Supervisor:* 1. Assists in loan monitoring at the direction of the State Director.

2. Will make periodic field inspections (with the lender, if possible) to borrower's place of business in accordance with a pre-established schedule. He will complete the field visit report and transmit it with any recommendations through the District Director to the State Director.

3. Will submit to Finance Office semiannually a lender's statement reflecting the unpaid principal balances on the loan in order to meet U.S. Treasury reporting requirements. This procedure will remain in effect until reporting system is converted to automatic processing system.

4. Will obtain from the lender the necessary financial statements, and will check the statements and any other reports for proper certification and signatures. When the County Supervisor has been notified by the lender of borrowers failure to fulfill any conditions of the Loan Agreement, the County Supervisor will immediately contact the State Director to determine the action to be taken. He will then forward the financial reports and any recommendations through the District Director to the State Director indicating the date reports were received in the County Office.

5. Will notify in writing the District Director and State Director, upon receipt of notice from the Lender when any guaranteed or insured B&I loan is delinquent more than 30 days or when the loan otherwise appears to be developing into a problem case. See paragraph XI of Form FmHA 449-35.

6. Is responsible for establishing an office management system for guaranteed and insured loans in accordance with FmHA Instruction 405.1 to insure timely followup on all required financial statements, audit reports, and any special requirements as set forth in the Loan Agreement with the borrowers.

G. *District Director:* 1. Will assure that the County Supervisor obtains from the Lender the necessary financial statements and reports and transmit the statements with his recommendations to the State Director.

2. Will accompany the County Supervisor on initial field visits to the borrower's place of business and at least annually thereafter. Such visits should be coordinated with the Lender.

3. Will provide guidance and assistance to the County Supervisor if a loan develops into a problem case.

4. Will review all Field Visit Reports and makes recommendations or comments and transmit to the State Director.

§ 1980.470 Defaults by borrower.

Refer to paragraph XI of Form FmHA 449-35.

ADMINISTRATIVE

A. In case of default, the lender will arrange with the County Supervisor or District Director a meeting with the borrower to resolve the problem. A memorandum of the meeting, individuals who attended, a summary of the problem and proposed solutions will be forwarded to the State Director with a copy retained in the loan file. The State Director will report any problem loans to the National Office on the monthly status report. The State Director will notify the lender and borrower through the County Supervisor of any decision reached by FmHA.

B. *Purchase of Guarantee Portions by FmHA: See Lenders Agreement and Assignment Guarantee Agreement.* 1. The County Supervisor monitoring the loan will coordinate and process any requests for FmHA to purchase in all instances where the Holder(s) are located in close proximity to the local Lender. If several Holders are located outside the area, the State Director may handle the transaction and notify the County Supervisor.

2. The County Supervisor will review the material submitted, verify the amounts due the Holder(s) and transmit the request by memorandum to the State Director. Copies of evidence of ownership will be included. Any original evidence of ownership will be retained in the County Office. A proposed payment date will be established in order to calculate the interest due the holder(s).

3. The State Director will verify the amounts payable to the Holder(s) and assure that all necessary material has been obtained. The State Director will request a check to pay the holder(s) on the appropriate data entry form.

4. Any evidences of ownership retained in the County Office will be considered in any future report of loss calculations. A rescind of any purchase will be maintained in the loan file.

§ 1980.471 Liquidation.

Refer to paragraph XII. of Form FmHA 449-35.

ADMINISTRATIVE

A. State Director determines which FmHA personnel will attend meetings with the Lender.

B. *Paragraph XII B.* FmHa will exercise the option to liquidate only when there is reason to believe the lender's liquidation plan will likely not result in maximum recovery. State Directors are authorized to approve lender liquidation plans or exercise the FmHA option to liquidate when out-

V40239 DEC 11 75 XUM

standing guarantee is not in excess of his loan approval authority. All other proposals for liquidation will be submitted to the National Office.

C. *Paragraph XII D.* State Directors are responsible for review and acceptance of accounting reports as submitted by lenders and for submission of such reports to lenders when FmHA is conducting liquidation.

D. *Paragraph XII E 2.* County Supervisors are authorized to accept Report of Loss determinations on Form FmHA 449–20 in those cases where loss will not exceed $50,000; District Directors for loss not to exceed $100,000; and State Directors for all others. The State Director will submit to the Finance Office for payment of any losses on the Form FmHA 449–20. The Finance Office forwards loss payment checks to the State Director for delivery to lender.

E. *Paragraph XII E 3.* Final loss payments will be made within the 60 days required but only after an audit to assure all collateral for the loan has been properly accounted for. State Directors are responsible to see that such audits are accomplished in time to be reviewed and accepted or otherwise resolved within the 60 day period. County Supervisors may conduct such audits when the loss does not exceed $50,000; District Directors $100,000; and State Directors for amounts not to exceed their loan approval authority. All audits involving losses in excess of the amounts equal to the State Directors loan approval authority will be submitted to the National Office for review. If the State Director wishes National Office assistance in the conduct of any audit, he may so request.

§ 1980.472 Protective advances.

Refer to paragraph XIII, Form FmHA 449–35.

ADMINISTRATIVE

A. It is not intended that protective advances be made in lieu of additional loans. The State Director is authorized to approve all protective advances; he will consider the following when approving such advances:

1. The total amount of outstanding advances, the amount of those for which approval is requested, the outstanding loan balance, whether the account is current and, if not, the extent of the delinquencies.

2. The borrower's ability to pay the remaining loan balance and any future advances in accordance with the existing repayment schedule.

§ 1980.473 Additional loans or advances.

Refer to paragraph XIV of Form FmHA 449–35, "Lender's Agreement."

ADMINISTRATIVE

The State Director may approve additional loans or advances provided that he determines there will be no adverse changes in the borrower's financial situation and that such loan or advance is not likely to adversely affect the collateral or the guaranteed loan.

§§ 1980.474–1980.475 [Reserved]

§ 1980.476 Transfer and assumptions.

(a) All transfers and assumptions must be approved in writing by FmHA. Such transfers and assumptions must be to an eligible applicant.

(b) Transfer and assumptions will be considered without regard to § 1980.451 (d).

(c) The applicant will submit to FmHA Form FmHA 449–4 for the required character evaluation prior to the execution of the Assumption Agreement.

(d) Available transfer and assumption options to eligible applicants include the following:

(1) The total indebtedness may be transferred to another borrower on the same terms.

(2) The total indebtedness may be transferred to another borrower on different terms not to exceed those terms for which an initial loan can be made.

(3) A part of the total indebtedness may be transferred to another borrower on the same terms.

(4) A part of the total indebtedness may be transferred to another borrower on different terms.

(e) In any transfer and assumption case, the transferor, including any guarantor(s) may be released from liability by the lender with FmHA written concurrence only when the value of the collateral being transferred is at least equal to the amount of the loan or part of the loan being assumed. If the transfer is for less than the entire debt:

(1) FmHA must determine that the transferor has no reasonable debt-paying ability considering his assets and income at the time of transfer.

(2) The FmHA County Committee must certify that the transferor has cooperated in good faith, used due diligence to maintain the collateral against loss, and has otherwise fulfilled all of the regulations of this Subpart to the best of his ability.

(f) If there is any cash downpayment in connection with the transfer and assumption, it will be applied on the loan in inverse order of maturity and any proceeds from collateral sold before the transfer and assumption should be credited on the transferor's loan debt in inverse order of maturity before the transfer and assumption transaction is approved.

(g) The lender must make a credit analysis on the prospective transferee in all cases and submit it to FmHA for approval. The assumption will be made on the lender's form of assumption agreement. The assumption agreement must contain the FmHA case number of the transferor and the transferee. Changes may be made in the loan terms if agreed to in advance by FmHA, any Holder(s) and the lender; however, FmHA will not issue a new Loan Note Guarantee.

(h) In the case of a transfer and assumption, it is the lender's responsibility to see that all such transfer and assumptions will be noted on all originals of the Loan Note Guarantee(s). The lender must give FmHA a copy of the transfer and assumption agreement. Notice must be given by the lender to FmHA indicating whether the borrower or guarantor has been released from liability.

(i) The Holder(s), if any, will not be consulted on a transfer and assumption case.

ADMINISTRATIVE

A. *Within his loan approval authority, the State Director may consent:* 1. To all transfer and assumption cases.

2. To the release of the transferor and guarantor(s) from liability on the loan. The State Director may approve or disapprove the transfer and will notify the lender and the appropriate parties of his decision in writing.

3. Any changes in the loan terms provided the Holder(s) if any and lender agree.

NOTE.—This should be reviewed as if it were a new loan.

The Loan Note Guarantee will be endorsed in the space provided on the form.

B. A copy of the Assumption Agreement will be retained in the County Office file. The State Director will notify Finance Office of all approved Transfer and Assumption Cases in order that finance records may be adjusted accordingly.

§§ 1980.477–1980.480 [Reserved]

§ 1980.481 Insured loans.

Applications from private parties for whom FmHA and such applicants agree that a guaranteed lender is not available, and from public bodies shall be processed as insured loans in accordance with the applicable provisions of this Subpart and Subpart A of Part 1823 of this Chapter (FmHA Instruction 442.1), including the credit elsewhere requirement, except as provided in § 1980.488 which provides for the guarantee of taxable bond issues of public bodies. Loans to public bodies may be used only to finance:

(a) Community facilities as defined in § 1980.402(e) and

(b) Constructing and equipping industrial plants for lease to private businesses (not including loans for operating such businesses) when the requested loan is not available under Subpart A of Part 1823 of this Chapter (FmHA Instruction 442.1).

ADMINISTRATIVE

A. All insured loans require National Office concurrence prior to approval.

B. Applications from private parties for insured loans should not be encouraged.

C. Loan closings on insured loans will be in accordance with Instructions of the Regional Attorney and applicable provisions of Subpart A of Part 1823 of this Chapter (FmHA Instruction 442.1).

§§ 1980.482–1980.487 [Reserved]

§ 1980.488 Guaranteed industrial development bond issues.

Loans to public bodies may be guaranteed only in connection with the issuance of any class or series of industrial development bonds (as defined in section 103 (c)(2) of the Internal Revenue Code of 1954, as amended (IRC)), the interest on which is includable in gross income under IRC. No part of the loan guaranteed by FmHA may extend to any class or series of industrial development bonds the interest on which is excludable from gross income under section 103(a)(1) of such Code. Prior to the execution of any Loan Note Guarantee, lender shall furnish FmHA evidence regarding interest on bonds being taxable for Federal income tax purposes. Such evidence may be in the form of an unqualified opinion of a recognized bond counsel or a ruling from the Internal Revenue Service.

Loans to public bodies may be guaranteed for the purpose of acquiring, constructing and equipping industrial plants for lease to private businesses (not including loans for operating such businesses).

If FmHA and the applicant agree that a guaranteed lender is not available, the application may be considered for an insured loan under the provisions of § 1980.481.

ADMINISTRATIVE

A. Guaranteed loans to public bodies may be used only for constructing and equipping the industrial plants for lease to private business and does not provide for funds for debt refinancing, working capital, and other fees or services. The leasee will have to provide necessary working capital and have sufficient financial strength to provide for a sound project.

B. The lender will notify the State Director of the taxability of the proposed bond issues.

§§ 1980.489–1980.491 [Reserved]

§ 1980.492 Method of review.

Any adverse decision by the County Supervisor will be reviewed by the State Director. Upon any adverse decision by the State Director the aggrieved party may request the Administrator of FmHA to review the State Director's decision. His address is: Administrator, Farmers Home Administration, United States Department of Agriculture, Washington, D.C. 20250.

(a) The request for review must be in writing and must be accompanied by supporting information and documentation. A copy of the request and supporting material must be sent by the requesting party to the State Director at the same time such party forwards the original to the Administrator.

(b) Upon receipt of the copy of this material, the State Director will furnish a full report on the matter to the Administrator.

(c) The Administrator will act on the request as expeditiously as possible under all the circumstances, and will notify the requestor and the State Director in writing of his decision and the reason therefor.

§ 1980.493 Access to records of lenders.

Upon request the Lender will permit representatives of FmHA (or other agencies of the U.S. Department of Agriculture authorized by that Department) to inspect and make copies of any of the records of the Lender pertaining to FmHA guaranteed loans. Such inspection and copying may be made during regular office hours of the lender, or any other time the Lender finds convenient.

§ 1980.494 State supplements to this regulation.

FmHA State Directors may supplement this regulation subject to National Office review to the extent necessary to properly implement the program in their States.

§ 1980.495 FmHA Forms.

Forms FmHA 449–34, "Loan Note Guarantee," FmHA 449–35, "Lender's Agreement," and FmHA 449–36, "Assignment Guarantee Agreement," are incorporated as Appendices B–D and made a part hereof.

§§ 1980.496–1980.500 [Reserved]

GENERAL ADMINISTRATIVE

Office of the General Counsel (OGC): In performing the FmHA functions with respect to B&I loans, the advice and assistance of OGC may be sought and followed on any legal matter. However, in loanmaking, it is the responsibility of the lender to ascertain that all requirements for making, securing, and servicing the loan are duly met. If FmHA has any questions concerning the Lender's resolution of these matters, it should consult with OGC.

APPENDIX A—MEMORANDUM OF UNDERSTANDING BETWEEN SMALL BUSINESS ADMINISTRATION (SBA) AND THE UNITED STATES DEPARTMENT OF AGRICULTURE FARMERS HOME ADMINISTRATION (USDA–FmHA)

PREAMBLE

This joint memorandum reaffirms the mutual desire of the Farmers Home Administration (FmHA) and the Small Business Administration (SBA) to cooperate in the use of their respective loan making authorities to complement the activities of each other and to improve the economic climate in the rural areas of the country.

GENERAL GUIDELINES

1. The FmHA administers its Business and Industrial (B&I) loans and grant program through its State and County Offices. The SBA programs are handled by its District Offices.

2. FmHA State Directors and SBA District Directors, or their designees, and appropriate officials at the National Office level will establish a liaison and periodically coordinate their activities to (a) assure that intended recipients of their programs are served, (b) define areas of cooperation for each of the two agencies, (c) enable both agencies to serve the public more expeditiously, and (d) provide maximum public benefit from the utilization of their respective resources.

3. The National Offices of the SBA and the FmHA believe that each agency will achieve better utilization of available resources and the public will be benefited by the following:

(a) When it appears that the needs of inquirers or prospective borrowers contacting either agency can be served as well or better by the other agency they will be advised of the other agency's programs so the inquirer can evaluate which will more effectively or expeditiously meet the business needs of the borrower. FmHA State Directors and SBA District Directors are responsible for establishing lines of communication between their offices to exchange lists of referrals between their program personnel.

(b) Whenever an inquirer meets SBA eligibility criteria and size standards and the loan needs are within SBA's dollar limits, he will be encouraged to apply to SBA for assistance.

(c) Inquirers seeking SBA assistance who do not meet the size and eligibility criteria will be referred to FmHA.

(d) Neither Agency will refuse to accept an eligible application when the lender or applicant insists that he wants to file with a specific agency regardless of agency advice.

4. SBA District Directors will provide FmHA State Directors with notices of all SBA sponsored or cosponsored prebusiness workshops, training courses, etc., as well as providing FmHA with reasonable supplies of lists of free publications and for the sale publications.

COMPANION LOANS

5. In certain circumstances, the two agencies may participate in a total project but will normally have separate borrowers, loan agreements, notes, mortgages, and other legal documents. Due to the differences in the guaranty of the two agencies, sharing of a lien position in collateral will not be encouraged; however, cross pledging of collateral may be appropriate.

6. An illustration of total project in which both FmHA and SBA may be requested to provide financial assistance might call for FmHA to financially assist, either directly or indirectly, in the acquisition and construction of the land and buildings (an industrial park could be part of the total project), and SBA is requested to finance the commercial tenant's machinery and equipment and to provide working capital.

7. Separate applications are necessary for each agency and will be processed independently. However, the loan specialist for each agency is required to establish a liaison with his counterpart in the other agency when an applicant applies to both agencies for assistance in different aspects of the total project.

8. Copies of the same feasibility, technical, or market studies, business plans, appraisals, and other supporting documents will be supplied with the application to each agency where combined funding is contemplated.

9. The approval by either agency of its loan will be conditioned on the like approval by the other agency of its loan. A copy of each agency's terms and conditions for approval (SBA's loan authorization and FmHA's conditional commitment for guarantee) will be supplied to the other agency.

10. Within the limits of their regulations, each agency must approve changes in their own approval documents, such as change of tenants, scope of operation, methods of financing, etc., after discussion with the other agency and notify the other agency of their action on each material change request received.

11. Loan closing and disbursing functions will be performed by each agency in accordance with their respective regulations.

12. Loan servicing procedure prescribed by each agency will apply to each agency's loans. However, if either agency receives any indication of an adverse change, including notice of past due payments, it will immediately provide the other agency with the adverse information and, when possible, the corrective action being proposed. Within the confines of each agency's regulations, no corrective action will be taken by either agency without discussing proposed corrective action with the other agency and determining the possible adverse impact on the other's loan, guaranty, or grant.

13. All liquidation situations will be handled on a case by case basis. FmHA State Directors and SBA District Directors are responsible for determining that their personnel are guided by the principle of minimizing the total loss to the government and that all liquidation action or options adopted are guided by this principle.

14. Each agency will normally take a prior lien on those assets purchased with its loan proceeds. The loan specialists for each agency will mutually determine their respective lien position on other assets available as collateral.

OTHER GUIDELINES

15. The services of FmHA and SBA to lenders and applicants are, by mutual agreement, those that each agency would provide any eligible applicant in the normal course of business and there will be no reimbursement by either agency to the other for such services.

16. The National Office of FmHA, B&I Division, and the Central Office of SBA, Office of Financing, or Office of Portfolio Management, as appropriate, will cooperate with each other in counseling their field offices

V 40 239 DEC 11 75 XUM

and in resolving problems in specific cases.

17. This agreement may be amended at any time by written agreement of both parties.

18. This agreement shall take effect upon the date of the execution thereof.

THOMAS S. KLEPPE,
Administrator, Small Business Administration.

FRANK B. ELLIOTT,
Administrator, Farmers Home Administration.

APPENDIX B—FORM FmHA 449-34

LOAN NOTE GUARANTEE

State: _____
County: _____

Identifying number	Face amount	Percent of loan principal	Amount guaranteed
#	$	%	$
Total	$	100%	$

Date of note: _____
Borrower: _____
_____
Type of Loan FmHA Ident. No.
Lender: _____
_____
Lender's IRS ID Tax No.
Lender's address: _____
Principal Amount of Loan: $_____
The guaranteed portion of the loan is $_____ which is _____ (— %) percent of loan principal. The principal amount of loan is evidenced by _____ note(s) (includes bonds as appropriate) described below. The guaranteed portion of each note is indicated below. This instrument is attached to note _____ in the face amount of $_____ and is number _____ of _____.

In consideration of the making of the subject loan by the above named Lender, the United States of America, acting through the Farmers Home Administration of the United States Department of Agriculture (herein called "FmHA"), pursuant to the Consolidated Farm and Rural Development Act (7 U.S.C. 1921 et seq.), does hereby agree that in accordance with and subject to the conditions and requirements herein, it will pay to:

A. Any Holder 100 percent of any loss sustained by such Holder on the guaranteed portion and on interest due on such portion.

B. The Lender the lesser of 1. or 2. below:

1. Any loss sustained by such Lender on the guaranteed portion including:

a. Principal and interest indebtedness as evidenced by said note(s) or by assumption agreement(s), and

b. Principal and interest indebtedness on secured protective advances for protection and preservation of collateral made with FmHA's authorization, including but not limited to, advances for taxes, annual assessments, any ground rents, and hazard or flood insurance premiums affecting the collateral, or

2. The guaranteed principal advanced to or assumed by the Borrower under said note(s) or assumption agreement(s) and any interest due thereon. If FmHA conducts the liquidation of the loan, loss occasioned to a Lender by accruing interest after the date FmHA accepts responsibility for liquidation will not be covered by this Loan Note Guarantee. If Lender conducts the liquidation of the loan, accruing interest shall be covered by this Loan Note Guarantee to date of final settlement when the Lender conducts the liquidation expeditiously in accordance with the liquidation plan approved by FmHA.

DEFINITION OF HOLDER

The Holder is the person or organization other than the Lender who holds all or part of the guaranteed portion of the loan with no servicing responsibilities. When the Lender assigns a part(s) of the guaranteed loan to an assignee, the assignee becomes a Holder only when he uses Form FmHA 449-36 "Assignment Guarantee Agreement."

DEFINITION OF LENDER

The lender is the person or organization making and servicing the loan which is guaranteed under the provisions of 7 C.F.R. Part 1980, Subpart E. The Lender is also the party requesting a loan guarantee.

CONDITIONS OF GUARANTEE

1. LOAN SERVICING

Lender will be responsible for servicing the entire loan, and Lender will remain mortgagee and/or secured party of record notwithstanding the fact that another party may hold a portion of the loan. When multiple notes are used to evidence a loan, Lender will structure repayments as provided in the loan agreement.

2. PRIORITIES

The entire loan will be secured by the same security with equal lien priority for the guaranteed and unguaranteed portions of the loan. The unguaranteed portion of the loan will not be paid first nor given any preference or priority over the guaranteed portion.

3. FULL FAITH AND CREDIT

The Loan Note Guarantee constitutes an obligation supported by the full faith and credit of the United States and is incontestable except for fraud or misrepresentation of which Lender or any Holder has actual knowledge at the time it became such Lender or Holder or which Lender or any Holder participates in or condones. In addition, the Loan Note Guarantee will be unenforcible by Lender to the extent any loss is occasioned by the violation of usury laws, use of loan funds for unauthorized purposes, negligent servicing, or failure to obtain the required security regardless of the time at which FmHA acquires knowledge of the foregoing.

4. RIGHTS AND LIABILITIES

The guarantee and right to require purchase will be directly enforceable by Holder notwithstanding any fraud or misrepresentation by Lender or any unenforceability of this Loan Note Guarantee by as to Lender. Nothing contained herein will constitute any waiver by FmHA of any rights it possesses against the Lender. Lender will be liable for and will promptly pay to FmHA any payment made by FmHA to Holder which if such Lender had held the guaranteed portion of the loan, FmHA would not be required to make.

5. PAYMENTS

Lender will receive all payments of principal or interest on account of the entire loan and will promptly remit to Holder(s) its pro rata share thereof determined according to its respective interest in the loan, less only Lender's servicing fee.

6. PROTECTIVE ADVANCES

Protective advances made by Lender pursuant to the regulations will be guaranteed against a percentage of loss to the same extent as provided in this Loan Note Guarantee notwithstanding the guaranteed portion of the loan is held by another.

7. REPURCHASE BY LENDER

The Lender agrees to repurchase the unpaid guaranteed portion of the loan from the Holder(s) within 30 days of written demand by the Holder(s) when: (a) the borrower is in default not less than 60 days on principal or interest due on the loan or (b) the Lender has failed to remit to the Holder(s) its pro rata share of any payment made by the borrower within 30 days of its receipt thereof. The repurchase by the Lender will be for an amount equal to the unpaid guaranteed portion of principal and accrued interest less the Lender's servicing fee. Holder(s) will concurrently send a copy of demand to FmHA. The Lender will accept an assignment without recourse from the Holder(s) upon repurchase.

8. FmHA PURCHASE

If Lender does not repurchase as provided by paragraph 7 hereof, FmHA will purchase from Holder the unpaid principal balance of the guaranteed portion together with accrued interest to date of repurchase, less Lender's servicing fee, within thirty (30) days after written demand from Holder. Such demand will recite Lender's reasons for failure to repurchase within the period set forth in paragraph 7, and include a copy of the written demand made upon the Lender. The Holder(s) or its duly authorized agent will also include evidence of its right to require payment from FmHA. Such evidence will consist of either the original of the Loan Note Guarantee properly endorsed to FmHA or the original of the Assignment Guarantee Agreement properly assigned to FmHA without recourse including all rights, title, and interest in the loan. FmHA will be subrogated to all rights of Holders(s). The Holder(s) will include in its demand the amount due including unpaid principal, unpaid interest to date of demand and interest subsequently accruing from date of demand to proposed payment date. Unless otherwise agreed to by FmHA, such proposed payment will not be later than 30 days from the date of demand.

The FmHA County Supervisor will promptly notify the Lender of the Holder(s)'s demand for payment. The Lender will promptly provide the FmHA County Supervisor with the information necessary for FmHA's determination of the appropriate amount due the Holder(s). Any discrepancy between the amount claimed by the Holder(s) and the information submitted by the Lender must be resolved before payment will be approved. FmHA will notify both parties who must resolve the conflict before payment by FmHA will be approved. Such a conflict will suspend the running of the 30 day payment requirement. Upon receipt of the appropriate information, FmHA County Supervisor will review the demand and submit it to the State Director for verification. After reviewing the demand the State Director will transmit the request to the FmHA Finance Office for issuance of the appropriate check. Upon issuance, the Finance Office will notify the County Supervisor and State Director and remit the check(s) to the Holder(s).

9. LENDER'S OBLIGATIONS

Lender consents to the purchase by FmHA and agrees to furnish on request by FmHA a current statement certified by an appropriate authorized officer of the Lender of the unpaid principal and interest then owed by Borrowers on the loan and the amount then owed to any Holder(s). Lender agrees that any purchase by FmHA does not change, alter or modify any of the Lender's obligations to FmHA arising from said loan or guarantee nor does it waive any of FmHA's rights against Lender, and that FmHA will have the right to set-off against Lender all rights inuring to FmHA as the Holder of this instrument against FmHA's obligation to Lender under the Loan Note Guarantee.

10. REPURCHASE BY LENDER FOR SERVICING

If, in the opinion of the Lender, repurchase of the guaranteed portion of the loan is necessary to adequately service the loan, the Holder will sell the portion of the loan to the Lender for an amount equal to the unpaid principal and interest on such portion less Lender's servicing fee.

a. The Lender will not repurchase from the Holder(s) for arbitrage purposes or other purposes to further its own financial gain.

b. Any repurchase will only be made after the lender obtains FmHA written approval.

c. If the Lender is unable to repurchase the portion from the holder(s), FmHA at its option may purchase such guaranteed portions for servicing purposes.

11. CUSTODY OF UNGUARANTEED PORTION

The Lender may retain, or sell the unguaranteed portion of the loan only through participation. Participation, as used in this regulation, means the sale of an interest in the loan wherein the Lender retains the note, collateral securing the note, and all responsibility for loan servicing and liquidation.

12. WHEN GUARANTEE TERMINATES

This Loan Note Guarantee will terminate automatically (a) upon full payment of the guaranteed loan, or (b) upon full payment of any loss obligation hereunder.

13. SETTLEMENT

The amount due under this instrument will be determined and paid as provided in the FmHA Business and Industrial regulations Part 1980 Subpart E in effect on the date of this instrument.

14. NOTICES

All notices and actions will be initiated through the FmHA County Supervisor for _____ (County) _____ (State) with mailing address at the date of this instrument: _____

APPENDIX C—FORM FmHA 449-35

UNITED STATES DEPARTMENT OF AGRICULTURE

FARMERS HOME ADMINISTRATION

LENDER'S AGREEMENT

FmHA Loan Ident. No.
_____

_____ (Lender) of _____ has made a loan(s) to _____ (Borrower) _____ in the principal amount of $_____ as evidenced by _____ note(s) include Bond as appropriate) described as follows: _____
_____

The United States of America, acting through Farmers Home Administration (FmHA) has entered into a "Loan Note Guarantee" (Form FmHA 449-34) or has issued a "Conditional Commitment for Guarantee" (Form FmHA 449-14) to enter into a Loan Note Guarantee with the Lender applicable to such loan to participate in a percentage of any loss on the loan not to exceed — % of the amount of the principal advance and any interest thereon. The terms of the Loan Note Guarantee are controlling. In order to facilitate the marketability of the guaranteed portion of the loan and as a condition for obtaining a guarantee of the loan(s), the Lender enters into this agreement.

The parties agree: I. The maximum loss covered under the Loan Note Guarantee will not exceed — percent of the principal and accrued interest on the above indebtedness.

II. *Full Faith and Credit.* The Loan Note Guarantee constitutes an obligation supported by the full faith and credit of the United States and is incontestable except for fraud or misrepresentation of which the Lender has actual knowledge at the time it became such Lender or which Lender participates in or condones.

The Loan Note Guarantee will be unenforceable by the Lender to the extent any loss is occasioned by violation of usury laws, use of loan funds for unauthorized purposes, negligent servicing, or failure to obtain the required security regardless of the time at which FmHA acquires knowledge of the foregoing.

III. *Lender's Sale or Assignment of Guaranteed Loan.* A. The Lender may retain all of the guaranteed loan. If the Lender desires to market all or part of the guaranteed portion of the loan the Lender may proceed under the following options:

1. *Assignment.* Assign all or part of the guaranteed portion of the loan to one or more Holders by using Form FmHA 449-36, "Assignment Guarantee Agreement." Holder(s), upon written notice to Lender and FmHA, may reassign the unpaid guaranteed portion of the loan sold thereunder. Upon such notification the assignee shall succeed to all rights and obligations of the Holder(s) thereunder. If this option is selected, the Lender may not at a later date cause to be issued any additioned notes.

2. *Multi-Note System.* When this option is selected by the Lender, upon disposition the Holder will receive one of the Borrower's executed notes and Form FmHA 449-34, "Loan Note Guarantee" attached to the Borrower's note. However, all rights under the security instruments (including personal and/or corporate guarantees) will remain with the Lender and in all cases inure to its and the Government's benefit notwithstanding any contrary provisions of state law.

a. *At Loan Closing:* Provide for no more than 10 notes, unless the Borrower and FmHA agree otherwise, for the guaranteed portion and one note for the unguaranteed portion. When this option is selected, FmHA will provide the Lender with a Form FmHA 449-34, for each of the notes.

b. *After Loan Closing:* (1) Upon written approval by FmHA, the Lender may cause to be issued a series of new notes, not to exceed the total provided in 2 a above, as replacement for previously issued guaranteed note(s) provided:

(a) The borrower agrees and executes the new notes.

(b) The interest rate does not exceed the interest rate in effect when the loan was closed.

(c) The maturity of the loan is not changed.

(d) FmHA will not bear any expenses that may be incurred in reference to such re-issue of notes.

(e) There is adequate collateral securing the note(s).

(f) No intervening liens have arisen or have been perfected and the secured lien priority remains the same.

(2) FmHA will issue the appropriate Loan Note Guarantees to be attached to each of the notes then extant in exchange for the original Loan Note Guarantee which will be cancelled by FmHA.

3. *Participations.* a. The Lender may obtain participation in its loan under its normal operating procedures. Participation means a sale of an interest in the loan wherein the Lender retains the note, collateral securing the note, and all responsibility for loan servicing and liquidation.

b. The Lender may retain or sell any amount of the unguaranteed portion of the loan as provided in this section only through participation. However, the lender will retain the responsibility for loan servicing and liquidation.

c. When a guaranteed portion of a loan is sold by the Lender to a Holder(s), the Holder(s) shall thereupon succeed to all rights of Lender under the Loan Note Guarantee to the extent of the portion of the loan purchased. Lender will remain bound to all the obligations under the Loan Note Guarantee, and this agreement, and the FmHA program regulations found in Title 7 CFR Part 1980 Subpart E, and to future FmHA program regulations not inconsistent with the express provisions hereof.

The Holder(s) upon written notice to the Lender may resell the unpaid guaranteed portion of the loan sold under provisions III A.

IV. The Lender agrees loan funds will be used for the purposes authorized in Title 7 CFR Part 1980 Subpart E and in accordance with the terms of Form FmHA 449-14.

V. The Lender certifies that it is a citizen of the United States of America, or, if an organization, that the ownership of at least 51 percent of any outstanding interests of the Lender is owned by citizens of the United States. Further, such Lender certifies that any guarantees received shall be only on loans made by it, operating for itself and not on behalf of foreign citizens or organizations.

VI. The Lender certifies that none of its officers or directors, stockholders or other owners has a substantial financial interest in the borrower. The Lender certifies that none of the borrower's officers or directors, stockholders or other owners has a substantial financial interest in the Lender.

VII. The Lender certifies that it has no knowledge of any material adverse change, financial or otherwise, in the Borrower, his business, or any parent, subsidiaries, or affiliates since it requested a Loan Note Guarantee.

VIII. Lender certifies that a loan agreement concurred in by FmHA has been or will be signed with the Borrower.

IX. Lender certifies it has paid the required guarantee fee.

X. *Servicing.* A. The Lender will service the entire loan and will remain mortgagee and/or secured party of record, notwithstanding the fact that another may hold a portion of the loan. The entire loan will be secured by the same security with equal lien priority for the guaranteed and unguaranteed portions of the loan. Lender may charge Holder a servicing fee. The unguaranteed portion of a loan will not be paid first nor

V40239 DEC 11 75 XUM

given any preference or priority over the guaranteed portion of the loan.

B. Disposition of the guaranteed portion of a loan may be made prior to full disbursement, completion of construction and acquisitions only with the prior written approval of FmHA. Subsequent to full disbursement, completion of construction, and acquisition, the guaranteed portion of the loan may be disposed of as provided herein.

It is the lender's responsibility to see that all construction is properly planned before any work proceeds; that any required permits, licenses or authorizations are obtained from the appropriate regulatory agencies; that the borrower has obtained contracts through acceptable procurement procedures; that periodic inspections during construction are made and that FmHA's concurrence on the overall development schedule is obtained.

C. Lender's servicing responsibilities include, but are not limited to:

1. Obtaining compliance with the covenants and provisions in the note, loan agreement, security instruments, and any supplemental agreements. None of the aforesaid instruments will be altered without FmHA's prior written concurrence.

2. Receiving all payments on principal and interest on the loan as they fall due and promptly remitting and accounting to any Holder(s) for their pro rata share thereof determined according to their respective interests in the loan, less only Lender's servicing fee. The loan may be reamortized only with agreement of the Lender and Holder(s) of the guaranteed portion of the loan and only with FmHA concurrence.

3. Inspecting the collateral as often as necessary to properly service the loan.

4. Assuring that adequate insurance is maintained.

5. Assuring that: taxes, assessment or ground rents against or affecting collateral are paid; the loan and collateral are protected in foreclosure, bankruptcy, receivership, insolvency, condemnation, or other litigation; insurance loss payments, condemnation awards, or similar proceeds are applied on debts in accordance with lien priorities on which the guarantee was based, or to rebuilding or otherwise acquiring needed replacement collateral with the written approval of FmHA; proceeds from the sale or other disposition of collateral are applied in accordance with the lien priorities on which the guarantee is based, except that proceeds from the disposition of collateral, such as machinery, equipment, furniture or fixtures, may be used to acquire property of similar nature in value up to $50,000 without written concurrence of FmHA; the Borrower complies with all laws and ordinances applicable to the loan, the collateral and operation of the business or industry.

6. Assuring that if personal or corporate guarantees are part of the collateral, current financial statements from such loan guarantors will be obtained and copies provided to FmHA at such time and frequency as required by the loan agreement or Conditional Commitment for Guarantee. In the case of guarantees secured by collateral, assuring the security is properly maintained.

7. Obtaining the lien coverage and lien priorities specified by the Lender and agreed to by FmHA, properly recording or filing lien or notice instruments to obtain or maintain such lien priorities during the existence of the guarantee by FmHA.

8. Assuring that the borrower obtains title marketable in fact to the collateral.

9. Assuring that the Borrower (any party liable) is not released from liability for all or any part of the loan, except in accordance with FmHA regulations.

10. Providing FmHA a statement certified by an officer of the Lender of the unpaid principal balance of the guaranteed loan semiannually as of June 30 and December 31.

11. Obtaining from the borrower periodic financial statements under the following schedule: _____

Lender is responsible for analyzing the financial statements, taking any servicing actions needed, and providing copies of statements and record of actions to the County Supervisor.

XI. *Defaults by Borrower.* A. The Lender will notify FmHA when a Borrower is thirty (30) days past due on a payment and is unlikely to bring its account current within sixty (60) days, or if the Borrower has not met its responsibilities of providing the required financial statements to the Lender or is otherwise in default. A meeting will be arranged by the Lender with the Borrower and FmHA to resolve the problem. Actions taken by the Lender with concurrence of FmHA may include but are not limited to the following or any combination thereof:

1. Deferment of principal payments (subject to rights of any Holder(s)).

2. An additional temporary loan by the Lender to bring the account current.

3. Reamortization of or rescheduling the payments on the loan (subject to rights of any Holder(s)).

4. Transfer and assumption of the loan in accordance with Title 7 CFR Part 1980 Subpart E.

5. Reorganization.

6. Liquidation.

B. The Lender will negotiate in good faith in an attempt to resolve any problem and to permit the Borrower to cure a default, where reasonable.

C. The Lender agrees to repurchase the unpaid guaranteed portion of the loan from the holder(s) within 30 days of written demand by the Holder(s) when: (a) the borrower is in default not less than 60 days in payment of principal or interest due on the loan or (b) the Lender has failed to remit to the Holder(s) its pro rata share of any payment made by the borrower within 30 days of its receipt thereof. The repurchase by the Lender will be for an amount equal to the unpaid guaranteed portion of principal and accrued interest less the Lender's servicing fee. Holder(s) will concurrently send a copy of demand to FmHA. The Lender will accept an assignment without recourse from the holder(s) upon repurchase.

D. If Lender does not repurchase as provided by paragraph C, FmHA will purchase from Holder(s) the unpaid principal balance of the guaranteed portion herein together with accrued interest to date of repurchase, within 30 days after written demand to FmHA from the Holder(s). Such demand will recite Lender's reasons for failure to repurchase within the period set forth in paragraph C, and include a copy of the written demand made upon the Lender. The Holder(s) or its duly authorized agent will also include evidence of its right to require payment from FmHA. Such evidence will consist of either the original of the Loan Note Guarantee properly endorsed to FmHA or the original of the Assignment Guarantee Agreement properly assigned to FmHA without recourse including all rights, title, and interest in the loan. FmHA will be subrogated to all rights of Holder(s). The Holder(s) will include in its demand the amount due including unpaid principal, unpaid interest to date of demand and interest subsequently accruing from date of demand to proposed payment date. Unless otherwise agreed to by FmHA, such proposed payment will not be later than 30 days from the date of demand.

The FmHA County Supervisor will promptly notify the Lender of the Holder(s)'s demand for payment. The Lender will promptly provide the FmHA County Supervisor with the information necessary for FmHA's determination of the appropriate amount due the Holder(s). Any discrepancy between the amount claimed by the Holder(s) and the information submitted by the Lender must be resolved before payment will be approved. FmHA will notify both parties who must resolve the conflict before payment by FmHA will be approved. Such a conflict will suspend the running of the 30 day payment requirement. Upon receipt of the appropriate information, the FmHA County Supervisor will review the demand and submit it to the State Director for verification. After reviewing the demand, the State Director will transmit the request to the FmHA Finance Office for issuance of the appropriate check. Upon issuance, the Finance Office will notify the County Supervisor and State Director and remit the check(s) to the Holder(s).

E. Lender consents to the purchase by FmHA and agrees to furnish on request by FmHA a current statement certified by an appropriate authorized officer of the Lender of the unpaid principal and interest then owed by the Borrower on the loan and the amount due the Holder(s). Lender agrees that any purchase by FmHA does not change, alter or modify any of the Lender's obligations to FmHA arising from said loan or guarantee, nor does such purchase waive any of FmHA's rights against Lender, and FmHA will have the right to set-off against Lender all rights inuring to FmHA from the Holder against FmHA's obligation to Lender under the Loan Note Guarantee.

F If the Lender was charging the Holder(s) a service fee, the Lender agrees that the service fee will terminate upon the date of the Holder(s) demand for purchase to FmHA.

G. Lender will also repurchase the guaranteed portion of the loan consistent with paragraph 9 of the Loan Note Guarantee. Lender will automatically repurchase the guaranteed portion of the loan in the event of commencement by or against Borrower of any bankruptcy proceeding, reorganization, dissolution, or institution of a creditor's rights proceeding.

XII. *Liquidation:* If the Lender concludes that liquidation of a guaranteed loan account is necessary because of one or more defaults or third party actions that the Borrower cannot or will not cure or eliminate within a reasonable period of time, a meeting will be arranged by the Lender with FmHA. When FmHA concurs with the Lender's conclusion or at any time concludes independently that liquidation is necessary, it will notify the Lender and the matter will be handled as follows:

The Lender will liquidate the loan unless FmHA, at its option, decides to carry out liquidation.

When the decision to liquidate is made, the Lender has the responsibility to immediately proceed to purchase from Holder(s) the guaranteed portion of the loan. The Holder(s) will be paid according to the provisions in the Loan Note Guarantee or the Assignment Guarantee Agreement.

If the Lender is unable to purchase the guaranteed portion of the loan, FmHA will be notified immediately in writing of the reasons for the Lender's inability to repurchase. FmHA will then purchase the guaranteed portion of the loan from the Holder(s). If FmHA holds any of the guaranteed portion, FmHA will be paid first its share of the proceeds from liquidation of the collateral.

A. *Lender's proposed method of liquidation.* Within 30 days after the decision to liquidate is made, the Lender will advise FmHA of its proposed method of liquidation and will provide FmHA with:

1. Such proof as FmHA requires to establish the Lender's ownership of the guaranteed loan promissory note(s) and related security instruments.

2. Information lists concerning the Borrower's assets including real and personal property, fixtures, claims, contracts, inventory (including perishables), accounts receivable, personal and corporate guarantees, and other existing and contingent assets, advice as to whether or not each item is serving as collateral for the guaranteed loan.

3. A proposed method of making the maximum collection possible on the indebtedness.

4. If the outstanding principal loan balance including accrued interest is less than $200,000, the Lender will obtain an estimate of the market and potential liquidated value of the collateral. On loan balances in excess of $200,000(the Lender will obtain an independent appraisal report on all collateral securing the loan, which will reflect the current market value and potential liquidation value. The appraisal report is for the purpose of permitting the lender and FmHA to determine the appropriate liquidation actions. Any independent appraiser's fee will be shared equally by FmHA and the Lender.

B. *FmHA's response to Lender's liquidation proposal.* FmHA will inform the Lender whether it concurs in the Lender's proposed method of liquidation within 30 days after receipt of such notification from the Lender. If FmHA needs additional time to respond to the liquidation plan, it will advise the Lender of a definite time for such response. Should FmHA and the Lender not agree on the Lender's liquidation proposal, FmHA will proceed with the liquidation as follows:

1. The Lender will transfer to FmHA all its rights and interests necessary to allow FmHA to liquidate the loan. In this event, the Lender will not be paid for any loss until after the collateral is liquidated and the final loss is determined by FmHA.

2. FmHA will attempt to obtain the maximum amount of proceeds from liquidation.

3. Options available to FmHA include any one or combination of the usual commercial methods of liquidation.

C. *Acceleration.* The Lender or FmHA, if it liquidates, will proceed as expeditiously as possible when acceleration of the indebtedness is necessary including giving any notices and taking any other legal actions required by the security instruments. A copy of the acceleration notice or other acceleration document will be sent to FmHA or the Lender, as the case may be.

D. *Liquidation; Accounting and Reports.* When the Lender conducts the liquidation, it will account for funds during the period of liquidation and will provide FmHA with periodic reports on the progress of liquidation, disposition of collateral, resulting costs, and additional procedures necessary for successful completion of liquidation. When FmHA liquidates, the Lender will be provided with similar reports on request.

E. *Determination of Loss and Payment.* In all liquidation cases, a final settlement will be made with the Lender after the collateral is liquidated. FmHA will have the right to recover losses paid under the guarantee from any party liable.

1. Estimated and final loss determinations will be made as follows:

(a) Form FmHA 449–20 "Report of Loss," will be used for calculations of all estimated and final loss determinations until such time as the form is revised or replaced. Items IX and X of Form FmHA 449–20 will not be used for the determination of loss. If no authorized protective advances were made, lines 1C and 1D of Form FmHA 449–20 should not be completed.

(b) The *basic* formula for loss determination is:

(i) Addition of:

(A) Principal balance and accrued interest due on the guaranteed loan note; plus

(B) Protective advances if any and accrued interest, if any, plus

(C) Prior liens owed, if any (used only in paying estimated loss).

(ii) The sum of item (i) is the "Secured Indebtedness" and is inserted on line III of Form FmHA 449–20.

(iii) The amount received from the sale of collateral including personal and/or corporate guarantees is inserted on line IV C.

(iv) Item (iii) is then subtracted from item (ii) and entered in line V of Form FmHA 449–20 as "Basic Loss".

(v) The percentage of the loan guaranteed (as provided in the Loan Note Guarantee) is entered on line VI of the Form FmHA 449–20 and multiplied by "Basic Loss" (line V). The result is also entered on line VI as of the "Amount of Basic Loss Guaranteed."

(vi) Adjustments (which includes amounts of other assets of the borrower not pledged as security for the loan from which collection can readily be made) will be multiplied by the percentage of guarantee and the product deducted from line VI. The result is entered on line VIII on the Form FmHA 449–20 as the "Adjusted Basic Loss."

(vii) The following calculations will be made as an attachment to the form FmHA 449–20:

(A) If authorized protective advances were made the amount authorized as adjusted in item (vi) is deducted from the "Adjusted Basic Loss" and is paid to the Lender. (The amount of line VIII attributable to authorized protective advances will be paid to the Lender.) The remaining balance of the "Adjusted Basic Loss" is multiplied by the percentage of the guaranteed portion held by the Lender. This latter amount will be paid to the Lender.

(B) If no other authorized protective advances were made, the "Adjusted Basic Loss" is multiplied by the percentage of the guaranteed portion held by the Lender and paid to the Lender.

2. When the Lender is conducting the liquidation, and owns any of the guaranteed portion of the loan, he may request a tentative loss estimate by submitting to FmHA an estimate of the loss that will occur in connection with liquidation of the loan. Such estimate will be prepared on Form FmHA 449–20, using the basic formula as provided in E 1 above except that the appraisal value will be used in lieu of the amount received from the sale of collateral and will be clearly labeled at the top of the form: "Report of Loss Estimate."

After the Report of Loss, Estimate has been approved by FmHA, and within 30 days, thereafter, FmHA will send the original Report of Loss Estimate to FmHA Finance Office for issuance of a Treasury check in payment of the estimated amount due the Lender.

After liquidation has been completed, a final loss report will be submitted on Form FmHA 449–20 by the Lender to FmHA and clearly labeled, "Final Report of Loss."

3. After the Lender has completed liquidation FmHA, upon receipt of the final accounting and report of loss, may audit and will determine the actual loss. If FmHA has any questions regarding the amounts set forth in the Final Report of Loss, it will investigate the matter. The Lender will make its records available to and otherwise assist FmHA in making the investigation. If FmHA finds any discrepancies, it will contact the Lender and arrange for the necessary corrections to be made as soon as possible. When FmHA finds the Final Report of Loss to be proper in all respects, it will be tentatively approved in the space provided on the form for that purpose.

4. When the Lender has conducted liquidation and after the Final Report of Loss has been tentatively approved:

a. If the loss is greater than the estimated loss payment, FmHA will send the original of the Final Report of Loss to the Finance Office for issuance of a Treasury check in payment of the additional amount owed by FmHA to the Lender.

b. If the loss is less than the estimated loss, the Lender will reimburse FmHA for the overpayment plus interest at the note rate from date of payment.

5. If FmHA has conducted liquidation, it will provide an accounting and report of loss to the Lender and will pay the Lender in accordance with the Loan Note Guarantee.

6. In those instances where the Lender has made authorized protective advances, it may claim recovery for the guaranteed portion of any loss of monies advanced as protective advances and interest resulting from such protective advances as provided above, and such payment will be made by FmHA when the final Report of Loss is approved. On the "Report of Loss," Form FmHA 449–20 "future advances" means "protective advances."

F. *Maximum amount of interest loss payment.* Notwithstanding any other provisions of this agreement, the amount payable by FmHA to the Lender cannot exceed the limits set forth in the Loan Note Guarantee. If FmHA conducts the liquidation, loss occasioned by accruing interest will be covered by the guarantee only to the date FmHA accepts this responsibility. Loss occasioned by accruing interest will be covered to the extent of the guarantee to the date of final settlement when the liquidation is conducted by the Lender provided it proceeds expeditiously with the liquidation plan approved by FmHA. The balance of accrued interest payable to the Lender, if any, will be calculated on the final Report of Loss form.

G. *Application of FmHA loss payment.* The total amount of the loss payment remitted by FmHA will be applied by the Lender on the guaranteed loan debt. At time of final loss settlement the Lender will notify the Borrower that the loss payment has been so applied.

H. *Income from collateral.* Any net rental or other income that has been received by the Lender from the collateral will be applied on the guaranteed loan debt.

I. *Liquidation costs.* Certain liquidation costs will be allowed during the liquidation process. Such costs will be deducted from gross proceeds from the disposition of collateral. The amount allowed will be the amount agreed upon by FmHA and the Lender as being reasonable under the circumstances and should be determined prior to liquidation.

J. *Foreclosure.* The parties owning the guaranteed portion and unguaranteed portions of the loan will join to institute foreclosure action or, in lieu of foreclosure, to take a deed of conveyance to such parties. When the conveyance is received and liquidated net proceeds will be applied to the guaranteed loan debt.

K. *Payment.* Such loss will be paid by FmHA within 60 days after the Lender has submitted the final Report of Loss form.

XIII. *Protective advances.* Protective advances must constitute an indebtness of the borrower to the Lender and be secured by the security instrument(s), FmHA written authorization is required on all protective advances. Protective advances include, but are not limited to, advances made for taxes, annual assessments, ground rent, haz-

V 4 0 2 3 9 D E C 1 1 7 5 XUM

ard or flood insurance premiums effecting the collateral, and other expenses necessary to preserve or protect the security.

XIV. *Additional Loans or Advances.* The Lender will not make additional expenditures or new loans without first obtaining the written approval of FmHA even though such expenditures or loans will not be guaranteed.

XV. *Future Recovery.* After a loan has been liquidated and a final loss has been paid by FmHA, any future funds which may be recovered by the lender, will be pro-rated between FmHA and the Lender. FmHA will be paid such amount recovered in proportion to the percentage it guaranteed for the loan and the lender will retain such amounts in proportion to the percentage of the unguaranteed portion of the loan.

XVI. *Transfer and Assumption Cases.* Refer to Title 7 CFR Part 1980 Subpart E.

XVII. *Other Requirements.* This agreement is subject to all the requirements of Title 7 CFR Part 1980 Subpart E, and any future amendments of these regulations not inconsistent with this agreement. Interested parties may agree to abide by future FmHA regulations inconsistent with this agreement.

XVIII. *Execution of Agreements.* If this agreement is executed prior to the execution of the Loan Note Guarantee, this agreement does not impose any obligation upon FmHA with respect to execution of such contract. FmHA in no way warrants that such a contract has been or will be executed.

XIX. *Notices.* All notices and actions will be initiated through the FmHA County Supervisor for ------ (County) ------ (State) with mailing address at the date of this instrument: ----------

Title ----------

APPENDIX D—FORM FmHA 449–36

FmHA Loan Identification Number: ------

UNITED STATES DEPARTMENT OF AGRICULTURE

FARMERS HOME ADMINISTRATION ASSIGNMENT GUARANTEE AGREEMENT

---------- of ----------

(Lender) has made a loan to ---------- in the principal amount of $------ as evidenced by a note(s) dated ------. The United States of America, acting through Farmers Home Administration (FmHA) entered into a Loan Note Guarantee (Form FmHA 449–34) with the Lender applicable to such loan to guarantee the loan not to exceed —% of the amount of the principal advanced and any interest due thereon as provided therein.

---------- of ----------

(Holder) desires to purchase from Lender —% of the guaranteed portion of such loan. Copies of Borrower's note(s) and the Loan Note Guarantee are attached hereto as a part hereof.

Now, therefore, the parties agree:

1. The principal amount of the loan now outstanding is $------. Lender hereby assigns to Holder —% of the guaranteed portion of the loan representing $------ of such loan now outstanding in accordance with all of the terms and conditions hereinafter set forth.

The Lender and FmHA certify to the Holder that the Lender has paid and FmHA has received the Guarantee Fee in exchange for the issuance of the Loan Note Guarantee.

2. *Loan Servicing.* The Lender will be responsible for servicing the entire loan and will remain mortgagee and/or secured party of record. The entire loan will be secured by the same security with equal lien priority for the guaranteed and unguaranteed portions of the loan.

The Lender will receive all payments on account of principal of, or interest on, the entire loan and shall promptly remit to the Holder its pro rata share thereof determined according to their respective interests in the loan, less only Lender's servicing fee.

3. *Servicing Fee.* Holder agrees that Lender will retain a servicing fee of ------ percent per annum of the unpaid balance of the guaranteed portion of the loan assigned hereunder.

4. *Purchase by Holder.* The guaranteed portion purchased by the Holder will always be a portion of the loan which is guaranteed. The Holder will hereby succeed to all rights of the Lender under the Loan Note Guarantee to the extent of the assigned portion of the loan. The Lender, however, will remain bound by all the obligations under the Loan Note Guarantee and the program regulations found in 7 CFR Part 1980 Subpart E now in effect and future FmHA program regulations not inconsistent with the provisions hereof.

5. *Full Faith and Credit.* The Loan Note Guarantee constitutes an obligation supported by the full faith and credit of the United States and is incontestable except for fraud or misrepresentation of which the Holder has actual knowledge at the time of this assignment, or which it participates in or condones.

6. *Rights and Liabilities.* The guarantee and right to require purchase will be directly enforceable by Holder notwithstanding any fraud or misrepresentations by Lender or any unenforceability of the Loan Note Guarantee by Lender. Nothing contained herein shall constitute any waiver by FmHA of any rights it possesses against the Lender, and the Lender agrees that Lender will be liable and will promptly reimburse FmHA for any payment made by FmHA to Holder which if such Lender had held the guaranteed portion of the loan FmHA would not be required to make.

7. *Repurchase by the Lender (Defaults).* The Lender agrees to repurchase the unpaid guaranteed portion of the loan from the Holder(s) within 30 days of written demand by the Holder(s) when: (a) the borrower is in default not less than 60 days on principal or interest due on the loan or (b) the Lender has failed to remit to the Holder(s) its pro rata share of any payment made by the borrower within 30 days of its receipt thereof. The repurchase by the Lender will be for an amount equal to the unpaid guaranteed portion of principal and accrued interest, less the Lender's servicing fee. Holder(s) will concurrently send a copy of demand to FmHA. The Lender will accept an assignment without recourse from the Holder(s) upon repurchase.

8. *Purchase by FmHA.* If Lender does not repurchase as provided by paragraph 7, FmHA will purchase from Holder the unpaid principal balance of the guaranteed portion together with accrued interest to date of repurchase, less Lender's servicing fee, within 30 days after written demand from the Holder. Such demand will recite Lender's reasons for failure to repurchase within the period set forth in paragraph 7, and include a copy of the written demand made upon the Lender. The Holder(s) or its duly authorized agent will also include evidence of its right to require payment from FmHA. Such evidence will consist of either the original of the Loan Note Guarantee properly indorsed to FmHA or the original of the Assignment Guarantee Agreement properly assigned to FmHA without recourse including all rights, title, and interest in the loan. FmHA will be subrogated to all rights of Holder(s). The Holder(s) will include in its demand the amount due including unpaid principal, unpaid interest to date of demand and interest subsequently accruing from date of demand to proposed payment date. Unless otherwise agreed to by FmHA, such proposed payment will not be later than 30 days from the date of demand.

The FmHA County Supervisor will promptly notify the Lender of the Holder(s)'s demand for payment. The Lender will promptly provide the FmHA County Supervisor with the information necessary for FmHA's determination of the appropriate amount due the Holder(s). Any descrepancy between the amount claimed by the Holder(s) and the information submitted by the Lender must be resolved before payment will be approved. FmHA will notify both parties who must resolve the conflict before payment by FmHA will be approved. Such a conflict will suspend the running of the 30 day payment requirement. Upon receipt of the appropriate informtaion, FmHA County Supervisor will review the demand and submit it to the State Director for verification. After reviewing the demand the State Director will transmit the request to the FmHA Finance Office for issuance of the appropriate check. Upon issuance, the Finance Office will notify the County Supervisor and State Director and remit the check(s) to the Holder(s).

9. *Lender's Obligations.* Lender consents to the purchase by FmHA and agrees to furnish on request by FmHA a current statement certified by an appropriate authorized officer of the Lender of the unpaid principal and interest then owed by Borrowers on the loan and the amount then owed to any Holder(s). Lender agrees that any purchase by FmHA does not change, alter or modify any of the Lender's obligations to FmHA arising from said loan or guarantee nor does it waive any of FmHA's rights against Lender, and that FmHA shall have the right to set-off against Lender all rights inuring to FmHA as the Holder of this instrument against FmHA's obligation to Lender under the Loan Note Guarantee.

10. *Repurchase by Lender for Servicing.* If, in the opinion of the Lender, repurchase of the assigned portion of the loan is necessary to adequately service the loan, the Holder will sell the assigned portion of the loan to the Lender for an amount equal to the unpaid principal and interest on such portion less Lender's servicing fee.

a. The Lender will not repurchase from the Holder(s) for arbitrage purpose or other purposes to further its own financial gain.

b. Any repurchase will only be made after the Lender obtains FmHA written approval.

c. If the Lender is unable to repurchase the portion from the Holder(s) FmHA at its option may purchase such guaranteed portions for servicing purposes.

11. *Foreclosure.* The parties owning the guaranteed portions and unguaranteed portion of the loan will join to institute foreclosure action or, in lieu of foreclosure, take a deed of conveyance to such parties.

12. *Reassignment.* Holder upon written notice to Lender and FmHA may reassign the unpaid guaranteed portion of the loan sold hereunder. Upon such notification, the assignee will succeed to all rights and obligations of the Holder hereunder.

13. *Notices:* All notices and actions will be initiated through the FmHA County Supervisor for ---------- (county) ---------- (state) with mailing address at the date of this instrument: ----------

Title 12—Banks and Banking

CHAPTER II—FEDERAL RESERVE SYSTEM

SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

[Reg. Q]

PART 217—INTEREST ON DEPOSITS

Interest Penalty on Withdrawal and Minimum Deposit Requirements for Individual Retirement Accounts

On June 26, 1975, the Board invited public comment on several issues relating to Individual Retirement Accounts ("IRAs") and possible amendments to Regulation Q (Interest on Deposits) in view of the enactment of the Employee Retirement Income Security Act of 1974 (Pub. L. 93–406), which provides, in part, for the establishment of IRAs by individuals not covered by employer pension plans (40 FR 28644). After review and consideration of all comments received, the Board has amended Regulation Q to facilitate the offering of IRAs by member banks.

The first amendment adopted will permit a member bank to pay all or a portion of an IRA time deposit in accordance with the payout terms of the IRA agreement prior to maturity without imposing the Regulation Q interest penalty when the individual for whose benefit the account is maintained attains age 59½ or upon the individual's disability. Existing provisions of Regulation Q permit member banks to pay time deposits before maturity without imposing an interest penalty upon the death of any person whose name appears on the time deposit passbook or certificate. The second amendment to Regulation Q adopted by the Board will permit member banks to waive the $1,000 minimum denomination requirement for time deposits with 4- and 6-year maturities at ceiling rates of 7¼ and 7½ per cent when such deposits are made pursuant to IRA agreements. The purposes of these amendments are to facilitate the establishment of IRAs pursuant to Congress intent to encourage individuals not participating in other pension plans to save for their retirement and to provide a convenient means for payout of such funds in the future.

The Board has determined that imposition of the Regulation Q penalty for withdrawals prior to the maturity of the time deposit in instances where withdrawals of IRA funds are legislatively authorized by the IRA statute (upon the individual's attaining the age of 59½ or upon disability or death) is generally inappropriate in view of Congress's intent to encourage individuals to save for their future needs. The Board also believes that elimination of the penalty for withdrawals under these circumstances will facilitate the orderly administration of IRA deposits by member banks. As a result of this amendment, member banks will be permitted to distribute the IRA deposit balance in a single sum payment without penalty when such distribution is made in accordance with the terms of the IRA agreement between the bank and the depositor. In addition, member banks may establish IRAs from which a depositor may receive periodic, annuity-like payments with no reduction in the rate of interest paid where funds are paid prior to maturity. The following example indicates the possible operation of this amendment:

An individual maintains his IRA funds in a time deposit that matures every six years. The IRA agreement between the bank and the individual may contain the provision that upon the individual's achieving age 59½ or upon his/her disability (defined in accordance with 26 U.S.C. 72(m)(7)), or upon his/her death, the bank agrees to pay the depositor or his/her heirs the deposit balance in the IRA or, on a periodic basis, a sum equivalent to a specified portion of the deposit balance for a period of years in accordance with the provisions of the Internal Revenue Code relating to distributions of IRA funds. During the payout period, the bank may continue to pay the contractually agreed-upon rate of interest on the funds remaining on deposit despite the fact that in order to satisfy the requirements of the payout schedule the funds may be required to be withdrawn prior to the stated maturity of the time deposit instrument.

The Board has determined that it is appropriate to waive the $1,000 minimum required to obtain 4- and 6-year time deposits at ceiling rates of 7¼ and 7½ per cent for funds deposited pursuant to IRA agreements in view of the long-term nature of IRAs and in view of Congress's intent to encourage individuals to save for their retirement. Since virtually all IRAs will ultimately contain in excess of $1,000 per account, the Board believes that waiver of the $1,000 minimum requirement will facilitate the operation of IRAs by eliminating the need for individuals to maintain IRA deposits at lower interest rates until the $1,000 minimum is obtained. Waiver of the minimum requirement will also permit member banks to pay higher rates on IRA funds at the inception of the IRA, thereby encouraging the establishment of IRAs in general.

The Board has also determined that member banks may amend IRA agreements established prior to the effective date of these amendments in order to incorporate the benefits of these provisions. Accordingly, the Board orders that member banks may increase the rate of interest paid on existing IRA time deposits and/or change the maturity of existing IRA time deposits without imposition of the Regulation Q penalty for early withdrawal.

The provisions adopted apply solely to funds deposited pursuant to IRA plans and not to HR–10 (Keogh) plans. The Board believes that the differences in the statutory provisions relating to the administration and operation of HR–10 (Keogh) plans require further study in order to determine whether the amendments adopted should be made applicable to deposits held by member banks pursuant to such plans.

In its notice of June 26, 1975, the Board requested public comment on whether member banks should be permitted to pay interest on IRA deposits at rates that are equal to those that may be paid by savings and loan associations and mutual savings banks. In view of Congress' intent to encourage individuals to save for their retirement and in view of the fact that IRA deposits will generally remain on deposit at financial institutions for long periods of time, the Board is continuing to examine the question of whether elimination of the differential in interest rate ceilings is appropriate for IRA deposits.

The amendments adopted by the Board are intended to encourage individuals to establish IRAs. In order to obtain the tax deferral benefits of IRA deposits for the year 1975, depositors must have established IRA agreements by December 31, 1975. In response to notice published in the FEDERAL REGISTER, the Board has received and carefully reviewed more than 350 comments concerning issues raised by member banks offering IRA plans under the Board's existing regulations. On the basis of these comments, the Board believes that it has obtained a broad and representative sampling of views and recommendations pertaining to the offering of IRAs by financial institutions. In view of the substantial public benefits resulting from adoption of the Board's amendments as soon as possible, the Board finds that notice and public procedure are impracticable and contrary to the public interest. Since the amendments are more permissive than existing regulations and relieve existing regulatory restrictions, and because of the need to adopt the amendments before year-end, the Board has determined that good cause exists to make the amendments effective immediately.

Pursuant to § 19 of the Federal Reserve Act (12 U.S.C. 371b), effective December 4, 1975, §§ 217.4 and 217.7 of Regulation Q (12 CFR 217) are amended as follows:

V40239 DEC 11 75 XUM

1. A new sentence is added to paragraph (d) of § 217.4, as follows:

§ 217.4 Payment of time deposits before maturity.

• • • • • •

(d) *Penalty for early withdrawals.* • • •

Where a time deposit representing funds contributed to an Individual Retirement Account established pursuant to 26 U.S.C. (I.R.C. 1954) § 408 is paid before maturity when the individual for whose benefit the account is maintained attains age 59½ or is disabled (as defined in 26 U.S.C. (I.R.C. 1954) 72(m)(7)) or thereafter, a member bank may pay all or a portion of such time deposit without a reduction or forfeiture of interest as prescribed by this paragraph.

• • • • • •

2. Footnote 2 to § 217.7(d) is redesignated as footnote 3 and a new footnote is added to § 217.7(b) (2) and (3) as follows:

§ 217.7 Maximum rates of interest payable by member banks on time and savings deposits.

• • • • • •

(b) *Time deposits of less than $100,000*

• • • • • •

(2) Member banks may pay interest on any time deposit of $1,000 or more, with a maturity of four years or more, at a rate not to exceed 7¼ per cent.[2]

(3) Investment Certificates—Member banks may pay interest on any time deposit of $1,000 or more, with a maturity of six years or more, at a rate not to exceed 7½ per cent.[2]

By order of the Board of Governors, effective December 4, 1975.

[SEAL] THEODORE E. ALLISON, *Secretary of the Board.*

[FR Doc.75-33357 Filed 12-10-75;8:45 am]

CHAPTER III—FEDERAL DEPOSIT INSURANCE CORPORATION

SUBCHAPTER B—REGULATIONS AND STATEMENTS OF GENERAL POLICY

PART 329—INTEREST ON DEPOSITS

To Permit Payment of a Time Deposit or Portion Thereof Without Penalty Prior to Maturity in Certain Cases Involving the Death of the Depositor(s) or Owner(s)

1. On April 10, 1975, the Federal Deposit Insurance Corporation published at 40 FR 16219–16220 a notice of proposed rule making which would, under those circumstances where a depositor died and was at the time of his or her death the sole legal and beneficial owner of time deposit funds, permit withdrawal of such time deposit funds without penalty. On May 23, 1975 the proposed regulation was adopted by the Corporation's Board of Directors in final form with no change, with an effective date of May 26, 1975, and published in the Federal Register of May 29, 1975 (40 FR 23274).

In the period since adoption of the regulation, the Corporation has been strongly urged to further amend the regulation to permit withdrawal prior to maturity in the event of the death of the depositor as to jointly held as well as individually held funds in view of the fact that, particularly in situations involving spouses, it is quite common for accounts to be established in joint name to simplify disposition of funds upon the death of one of the spouses. In the opinion of the Corporation, the equities favoring such arguments outweigh the rationale for requiring a penalty for premature withdrawal in joint account situations.

Having consulted with the Board of Governors of the Federal Reserve System and with the Federal Home Loan Bank Board, the Board of Directors of the Corporation is amending § 329.4(d) effective December 15, 1975, to eliminate the penalty requirement for premature withdrawal of jointly owned time deposits upon the death of one or more of the joint owners.

This amendment also clarifies, in light of inquiries received by the Corporation, the definition of legal and beneficial ownership contained in the original amendment. The Corporation in that amendment required as a condition to the availability of the exception that the depositor, at the time of his or her death, be both legal and beneficial owner of the funds in question. This requirement for unity of legal and beneficial ownership was placed in the regulation in order to avoid the situation where, for example, a successor trustee under an inter vivos trust appointed upon the death of the original trustee sought to invoke the exception on behalf of the beneficiaries as to deposit funds comprising the assets of the trust, whether the exception was sought at the direction of the beneficiaries or was sought by the trustee independently in order to discharge his fiduciary duty to obtain the highest possible rate of return on trust investments.

Since adoption of the original amendment on May 26, 1975, the Corporation's staff has interpreted the requirement of legal and beneficial ownership to be met where withdrawal is sought upon the death of the owner of deposit funds, whether or not that owner is himself the depositor. For example, the requirement is met where an agent who is, in fact, the depositor seeks to withdraw upon the death of a principal since the funds are, in fact, owned by the principal. Similarly the requirement is met where the settlor of a revocable trust dies without exercising his power of revocation since he need only have exercised the power of revocation during his lifetime to have achieved absolute ownership of the deposit funds.

2. In § 329.4 of Part 329 of Chapter III, Title 12 of the Code of Federal Regulations, paragraph (d) is amended by striking the last sentence thereof and substituting the following:

§ 329.4 Payment of time deposits before maturity.

• • • • • •

(d) *Penalty on payment of time deposits before maturity.* • • •

The prohibitions contained in this paragraph (d) shall not apply on the death of any owner of time deposit funds. For the purposes of this paragraph, an "owner" of time deposit funds is any individual who at the time of his or her death has full legal and beneficial title to all or a portion of such funds or, at the time of his or her death, has beneficial title to all or a portion of such funds and full power of disposition and alienation with respect thereto, including but not limited to a power of revocation with respect to any trust of which the funds comprise all or part of the assets, whether or not such owner is acting as trustee.

• • • • • •

(Sec. 9, 64 Stat. 881, 12 U.S.C. 1819; Sec. 18, 64 Stat. 891, 12 U.S.C. 1828)

3. Since this amendment relaxes restrictions imposed by prior regulation, the requirements of sections 553(b) and 553(d) of Title 5 of the United States Code and §§ 302.1, 302.2, and 302.5 of the rules and regulations of the Federal Deposit Insurance Corporation with respect to notice, public participation and deferred effective date were not followed in connection with the promulgation of this amendment.

4. *Effective Date.* This amendment is effective December 15, 1975.

By order of the Board of Directors, December 5, 1975.

FEDERAL DEPOSIT INSURANCE CORPORATION,
[SEAL] ALAN R. MILLER, *Executive Secretary.*

[FR Doc.75-33431 Filed 12-10-75;8:45 am]

[No. 75-1098]

CHAPTER V—FEDERAL HOME LOAN BANK BOARD

INDIVIDUAL RETIREMENT ACCOUNTS

Removal of Minimum Amount Restrictions on Certificates

DECEMBER 4, 1975.

The Federal Home Loan Bank Board considers it desirable to amend Part 526 of the Regulations for the Federal Home Loan Bank System, Part 545 of the Rules and Regulations for the Federal Savings and Loan System, and Part 563 of the Rules and Regulations for Insurance of Accounts (12 CFR Parts 526, 545, and 563), in order to remove the minimum amount restriction on certificates held as Individual Retirement Accounts and extend the waiver-of-penalty authority to such Accounts in the event of withdrawal due to the death, disability, or retirement of the beneficiary.

Accordingly, the Board hereby amends Part 526 by adding a new subdivision (4) to § 526.5(b) thereof, Part 545 by adding a new subdivision (iii) to § 545.1–4(f)(4) thereof and a new subdivision (iii) to § 545.3–1(c)(6) thereof, and Part 563 by adding a new subdivision (iii) to § 563.3–1(d)(4) and a new subdivision (iii) to § 563.3–2(d)(3) thereof, to read as set forth below, effective December 12, 1975.

Since these amendments relieve restriction, the Board hereby finds that notice and public procedure with respect to said amendments are unnecessary under the provisions of 12 CFR 508.11 and 5 U.S.C. § 553(b), and a 30-day delay of effective date is similarly unnecessary under the provisions of 12 CFR 508.14 and 5 U.S.C. § 553(d).

PART 526—LIMITATIONS ON RATE OF RETURN

1. Part 526 is amended by adding a new subdivision (4) thereof, to read as follows:

§ 526.5 Maximum rates of return payable on certificate accounts of less than $100,000.

• • • • • •

(b) *Exceptions as to minimum amount.*

• • • • • •

(4) With respect to certificate accounts which qualify as Individual Retirement Accounts under section 408(a) of the Internal Revenue Code of 1954, a member institution may pay a return as permitted by paragraph (a) of this section without regard to the minimum amount requirements contained in such paragraph.

• • • • • •

PART 545—OPERATIONS

2. Part 545 is amended by adding a new subdivision (iii) to § 545.1–4(f)(4) thereof, to read as follows:

§ 545.1–4 Other savings deposits.

• • • • • •

(f) *Withdrawal prior to expiration of term.*

• • • • • •

(4) A Federal association need not penalize a withdrawal of all or any portion of a fixed-term savings deposit prior to the expiration of its term if (i) such deposit is a "single-ownership account" (as the quoted term is used in § 564.3 of this chapter) and the withdrawal is made by the personal representative (including an executor or administrator) of the deceased owner of such account, (ii) such deposit is a single-ownership "testamentary account" (as the quoted term is used in § 564.4 of this chapter) and the withdrawal is made by the beneficiary of such account following the death of the owner thereof, or

(iii) such deposit qualifies as an Individual Retirement Account under section 408(a) of the Internal Revenue Code of 1954, and withdrawal is made to effect distribution of the funds in the Account following the Account beneficiary's death or disability, or retirement upon attaining not less than 59½ years of age.

3. Part 545 is amended by adding a new subdivision (iii) to § 545.3–1(c)(6) thereof, to read as follows:

§ 545.3–1 Distribution of earnings at variable rates.

• • • • • •

(c) *Form of certificate.*

• • • • • •

(6) A Federal association need not penalize a withdrawal of all or any portion of a certificate account issued pursuant to paragraph (b)(3) of this section prior to the completion of its time eligibility period if (i) such account is a "single-ownership account" (as the quoted term is used in § 564.3 of this chapter) and the withdrawal is made by the personal representative (including an executor or administrator) of the deceased owner of such account, (ii) such account is a single-ownership "testamentary account" (as the quoted term is used in § 564.4 of this chapter) and the withdrawal is made by the beneficiary of such account following the death of the owner thereof, or

(iii) such account qualifies as an Individual Retirement Account under section 408(a) of the Internal Revenue Code of 1954, and withdrawal is made to effect distribution of the funds in the Account following the Account beneficiary's death or disability, or retirement upon attaining not less than 59½ years of age.

PART 563—OPERATIONS

4. Part 563 is amended by adding a new subdivision (iii) to § 563.3–1(d)(4) and a new subdivision (iii) to § 563.3–2(d)(3) thereof, to read as follows:

§ 563.3–1 Fixed-rate, fixed-term accounts.

• • • • • •

(d) *Withdrawal prior to expiration of term.*

• • • • • •

(4) An insured institution need not penalize a withdrawal of all or any portion of a fixed-rate, fixed-term account prior to the expiration of its term if (i) such account is a "single-ownership account" (as the quoted term is used in § 564.3 of this chapter) and the withdrawal is made by the personal representative (including an executor or administrator) of the deceased owner of such account, (ii) such account is a single-ownership "testamentary account" (as the quoted term is used in § 564.4 of this chapter) and the withdrawal is made by the beneficiary of such account following the death of the owner thereof, or

(iii) such account qualifies as an Individual Retirement Account under section 408(a) of the Internal Revenue Code of 1954, and withdrawal is made to effect distribution of the funds in the Account following the Account beneficiary's death or disability, or retirement upon attaining not less than 59½ years of age.

§ 563.3–2 Certificates evidencing other accounts.

• • • • • •

(d) *Provisions relating to early withdrawal.*

• • • • • •

(3) An insured institution need not penalize a withdrawal of all or any portion of a certificate account prior to the completion of its time eligibility period if (i) such account is a "single-ownership account" (as the quoted term is used in § 564.3 of this chapter) and the withdrawal is made by the personal representative (including an executor or administrator) of the deceased owner of such account, (ii) such account is a single-ownership "testamentary account" (as the quoted term is used in § 564.4 of this chapter) and the withdrawal is made by the beneficiary of such account following the death of the owner thereof, or

(iii) such account qualifies as an Individual Retirement Account under section 408(a) of the Internal Revenue Code of 1954, and withdrawal is made to effect distribution of the funds in the Account following the Account beneficiary's death or disability, or retirement upon attaining not less than 59½ years of age.

(Sec. 4, 80 Stat. 823, 12 U.S.C. 1425b; Sec. 5, 48 Stat. 132, as amended, 12 U.S.C. 1464; Secs. 402, 403, 407, 48 Stat. 1256, 1257, 1260, as amended, 12 U.S.C. 1725, 1726, 1730; Reorg. Plan No. 3 of 1947, 12 FR 4981; 3 CFR, 1943–48 Comp., p. 1071, 1947 Supp.)

By the Federal Home Loan Bank Board.

[SEAL] J. J. FINN, *Secretary.*

[FR Doc.75-33412 Filed 12-10-75;8:45 am]

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 75-EA-74; Amdt. 39-2456]

PART 39—AIRWORTHINESS DIRECTIVE

Air Cruisers Life Rafts

The Federal Aviation Administration is amending § 39.13 of Part 39 of the Federal Aviation Regulations so as to issue an airworthiness directive applicable to Air Cruisers Company life raft jet pumps.

There have been reports which demonstrate that separations have occurred in the hose connection fitting. Since this is a deficiency which can exist or occur in similar type life rafts, an airworthiness directive is being issued which will require an inspection and replacement where necessary and appropriate markings of the inspected connections.

In view of the foregoing and because the deficiency is one which affects air safety, notice and public procedure hereon are impractical and good cause exists for making the amendment effective in less than 30 days.

In consideration of the foregoing and pursuant to the authority delegated to

[2] The $1,000 minimum denomination requirement does not apply to time deposits representing funds contributed to an Individual Retirement Account established pursuant to 26 U.S.C. (I.R.C. 1954) 408.

V 40239 DEC 11 75 XUM

me by the Administrator, 14 CFR 11.89 [31 FR 13697] § 39.13 of Part 39 of the Federal Aviation Regulations is amended by issuing an Airworthiness Directive as follows:

AIR CRUISERS COMPANY. Applies to Life Raft Systems, P/N Series D23835, 17D23336, 21D23548, 21D23541, 12D11751, 18D23350, and Life Raft Asembly P/N 22D23528 with dates of manufacture from January, 1971, through August 193, 1975, inclusive.

Compliance is required, unless already accomplished, to eliminate the possibility of separation at the hose connection fitting-body juncture braze of inlet port assembly, P/N 15C18082.

No later than 90 days after the effective date of this AD, accomplish the inspection, replacement, where required, and marking of the above-mentioned part numbers in accordance with Air Cruisers Company Service Bulletin 114-74-1, Rev. No. 1, dated August 12, 1975, or an equivalent procedure approved by the Chief, Engineering and Manufacturing Branch, FAA, Eastern Region.

This amendment is effective December 17, 1975.

This amendment is made under the authority of sections 313(a), 601 and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421 and 1423), and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Jamaica, N.Y., on December 3, 1975.

DUANE W. FREER,
Director, Eastern Region.

[FR Doc.75-33293 Filed 12-10-75;8:45 am]

[Docket No. 75-EA-73; Amdt. 39-2455]

PART 39—AIRWORTHINESS DIRECTIVE

DeHavilland Aircraft

The Federal Aviation Administration is amending § 39.13 of Part 39 of the Federal Aviation Regulations so as to issue an airworthiness directive applicable to DeHavilland DHC-6 type airplanes.

This amendment had been issued as an emergency airworthiness directive and transmitted by airmail, effective upon receipt, to all known owners of the subject airplanes.

There had been reports of electrical fires resulting from a welding of the contacts of the electrical reverse current relays. Since this deficiency can exist or develop in airplanes of similar type design, this amendment, as did the emergency dispatch, requires an inspection and replacement where necessary of the relay.

In view of the foregoing and because the deficiency is one which affects air safety, notice and public procedure hereon are impractical and good cause exists for making the amendment effective in less than 30 days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator, 14 CFR 11.89 [31 FR 13697] § 39.13 of Part 39 of the Federal Aviation Regulations is amended by issuing a new Airworthiness Directive as follows:

Applies to all DeHavilland Model DHC-6 Series Twin Otter aircraft certificated in all categories.

Compliance required as indicated to preclude the hazards of an electrical fire due to contact welding of the reverse current relay(s), Hartman part No. A700AP or A700AAP.

1. For aircraft containing reverse current relays which have between 1,000 to 2,400 hours time in service since new or overhauled, or aircraft having reverse current relays which have less than 1,000 hours' time in service which have been used for cross generator engine starts, accomplish the following:

(A) Within the next 25 hours' time in service, after the effective date of this AD, unless already accomplished:

(I) remove the reverse current relays from the aircraft.

(II) examine relay for indications of overheat.

(III) inspect relay contact points under ten-power glass for signs of pitting, corrosion or other surface damage. If any of the above conditions 1(A)(II) or 1(A)(III) are present, replace relay with a serviceable unit before further flight.

2. This applies to aircraft containing reverse current relays with more than 2,400 hours' time in service since new or overhauled.

(A) Unless already accomplished, inspect relays in accordance with paragraph 1(A) of this AD.

(B) Unless accomplished, within the previous 2,400 hours' time in service after the effective date of this AD, conduct bench tests of reverse current relays within the next 100 hours' time in service after the effective date of this AD in accordance with DeHavilland of Canada Ltd. PSM 1-6-2, part 7 or PSM 1-63-2, chapter 24-30-00.

3. Within the next 10 flight hours, install the following placard in full view of the pilot:

"Cross generator engine starting is prohibited, except in an emergency".

4. Following a flight for which an emergency cross generator engine start was made, within the next 25 hours' time in service, accomplish the inspection required by paragraph 1(a) of this AD.

5. If any inspection required by this AD is not accomplished within specified time above, airplane may be flown in accordance with FAR 21.197 to a base where inspections can be made.

This amendment is effective December 17, 1975.

This amendment is made under the authority of sections 313(a), 601 and 603 of the Federal Aviation Act of 1958 [49 U.S.C. 1354(a), 1421 and 1423], and section 6(c) of the Department of Transportation Act [49 U.S.C. 1655(c)].

Issued in Jamaica, N.Y., on December 3, 1975.

DUANE W. FREER,
Director, Eastern Region.

[FR Doc.75-33292 Filed 12-10-75;8:45 am]

[Airspace Docket No. 75-SW-78]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to redescribe the Enid, Okla., control zone without reference to the Vance AFB outer marker beacon which has been decommissioned.

Since this change is editorial in nature and does not alter the control zone as described in Part 71 of the Federal Aviation Regulations, public comment is not considered necessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective upon publication in the Federal Register, as hereinafter set forth.

In § 71.171 (40 F.R. 354), the Enid, Okla., control zone is amended to read:

ENID, OKLA.

That airspace within a 5-mile radius of Vance AFB (latitude 36°20'20" N., longitude 97°55'00" W.); and within 2 miles west and 5 miles east of the Vance AFB ILS localizer south course extending from the 5-mile radius zone to 2.5 miles south of the 5-mile radius zone; and within 2 miles each side of the Vance AFB VORTAC 188° radial, extending from the 5-mile radius zone to 8 miles south of the VORTAC; and within 2 miles each side of the Vance AFB VORTAC 345° radial, extending from the 5-mile radius zone to 5.5 miles north of the VORTAC; and within 2 miles west and 3 miles east of the Vance AFB 17R/35L runway centerline, extending from the 5-mile radius zone to 6.5 miles north of Vance AFB; and within a 5-mile radius of Enid Woodring Municipal Airport (latitude 36°22'45" N., longitude 97°47'30" W.) and within 2 miles each side of the Woodring VOR 355° radial, extending from the 5-mile radius zone to 8 miles north of the VOR; and within 2 miles each side of the Woodring VOR 185° radial, extending from the 5-mile radius zone to 8 miles south of the VOR. This control zone is effective during the dates and times published in the Airman's Information Manual.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Fort Worth, Tex., on December 1, 1975.

ALBERT H. THURBURN,
Acting Director,
Southwest Region.

[FR Doc.75-33291 Filed 12-10-75;8:45 am]

[Docket No. 15199; Amdt. No. 998]

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

Recent Changes and Additions

This amendment to Part 97 of the Federal Aviation Regulations incorporates by reference therein changes and additions to the Standard Instrument Approach Procedures (SIAPs) that were recently adopted by the Administrator to promote safety at the airports concerned.

The complete SIAPs for the changes and additions covered by this amendment are described in FAA Forms 8260-3, 8260-4, or 8260-5 and made a part of the public rule making dockets of the FAA in accordance with the procedures set forth in Amendment No. 97-696 (35 FR 5609).

SIAPs are available for examination at the Rules Docket and at the National Flight Data Center, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591. Copies of SIAPs adopted in a particular region are also available for examination at the headquarters of that region. Individual copies of SIAPs may be purchased from the FAA Public Information Center, AIS-230, 800 Independence Avenue, SW., Washington, D.C. 20591 or from the applicable FAA regional office in accordance with the fee schedule prescribed in 49 CFR 7.85. This fee is payable in advance and may be paid by check, draft, or postal money order payable to the Treasurer of the United States. A weekly transmittal of all SIAP changes and additions may be obtained by subscription at an annual rate of $150.00 per annum from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Additional copies mailed to the same address may be ordered for $30.00 each.

Since a situation exists that requires immediate adoption of this amendment, I find that further notice and public procedure hereon is impracticable and good cause exists for making it effective in less than 30 days.

In consideration of the foregoing, Part 97 of the Federal Aviation Regulations is amended as follows, effective on the dates specified:

1. Section 97.23 is amended by originating, amending, or cancelling the following VOR-VOR/DME SIAPs, *effective January 29, 1976.*

Dillingham, AK—Dillingham Arpt., VOR Rwy 1, Amdt. 5
Dillingham, AK—Dillingham Arpt., VOR/DME Rwy 19, Amdt. 3
Downingtown, PA—Bob Shannon Memorial Field, VOR-A, Original
Lone Rock, WI—Tri-County Arpt., VOR-A, Original
Talkeetna, AK—Talkeetna Arpt., VOR-A, Amdt. 7

. . . *effective January 22, 1976*

Natchez, MS—Hardy-Anders Field, Natchez-Adams County Arpt., VOR Rwy 17, Amdt. 6
Pascagoula, MS—Jackson County Arpt., VOR Rwy 18, Amdt. 6
Peachtree City, GA—Falcon Field, VOR/DME-A, Amdt. 1
Peachtree City, GA—Falcon Field, VOR/DME-B, Orig., cancelled
Venice, FL—Venice Muni. Arpt., VOR/DME-A, Amdt. 1

. . . *effective December 18, 1975*

Akron, OH—Akron-Canton Regional Arpt., VOR Rwy 23, Amdt. 1

2. Section 97.25 is amended by originating, amending, or cancelling the following SDF-LOC-LDA SIAPs, *effective January 22, 1976.*

Memphis, TN—Memphis International Arpt., LOC(BC) Rwy 27, Amdt. 16

. . . *effective January 1, 1976*

Austin, TX—Robert Mueller Muni. Arpt., LOC/DME(BC) Rwy 12R, Amdt. 2, cancelled

. . . *effective December 18, 1975*

Hillsboro, OR—Portland-Hillsboro, LOC-B, Original

Sanford, FL—Sanford Arpt., NDB Rwy 9, Amdt. 4
Smyrna, TN—Smyrna Arpt., NDB Rwy 32, Amdt. 2

4. Section 97.29 is amended by originating, amending, or cancelling the following ILS SIAPs, *effective January 29, 1976.*

Binghamton, NY—Broome County Arpt., ILS Rwy 34, Amdt. 17

. . . *effective January 22, 1976*

Augusta, GA—Bush Field, ILS Rwy 35, Amdt. 21
Memphis, TN—Memphis International Arpt., ILS Rwy 9, Amdt. 18

. . . *effective January 1, 1976*

Austin, TX—Robert Mueller Muni. Arpt., ILS Rwy 12 R, Original

. . . *effective December 18, 1975*

Akron, OH—Akron-Canton Regional Arpt., ILS Rwy 23, Original
Indianapolis, IN—Indianapolis Muni./Weir-Cook Arpt., ILS Rwy 22R, Original

5. Section 97.31 is amended by originating, amending, or cancelling the following RADAR SIAPs, *effective January 29, 1976.*

Portland, OR—Portland Int'l Arpt., RADAR 1, Amdt. 20

. . . *effective January 22, 1976*

Greer, SC—Greenville-Spartanburg Arpt., RADAR 1, Amdt. 1
Saginaw, MI—Tri-City Arpt., RADAR 1, Amdt. 1

. . . *effective December 18, 1975*

Akron, OH—Akron-Canton Regional Arpt., RADAR 1, Amdt. 11

6. Section 97.33 is amended by originating, amending, or cancelling the following RNAV SIAPs, *effective January 29, 1976*

Lone Rock, WI—Tri-County Arpt., RNAV Rwy 27, Original

. . . *effective January 22, 1976*

Greer, SC—Greenville-Spartanburg Arpt., RNAV Rwy 21, Amdt. 1
Punta Gorda, FL—Charlotte County Arpt., RNAV Rwy 27, Amdt. 1
Sanford, FL—Sanford Arpt., RNAV Rwy 9, Amdt. 4

These amendments are made effective under the authority of Secs. 307, 313, 601, 1110, Federal Aviation Act of 1958; 49 U.S.C. 1438, 1354, 1421, 1510, and Sec. 6(c) Department of Transportation Act, 49 U.S.C. 1655(c).

Issued in Washington, D.C., on December 4, 1975.

JAMES O. ROBINSON,
Acting Chief,
Aircraft Programs Division.

NOTE: Incorporation by reference provision in §§ 97.10 and 97.20 approved by the Director of the Federal Register on May 12, 1969, (35 F.R. 5610).

[FR Doc.75-33290 Filed 12-10-75;8:45 am]

[Docket No. 13668; Amdt. No. 103-26]

PART 103—TRANSPORTATION OF DANGEROUS ARTICLES AND MAGNETIZED MATERIALS

Carriage of Radioactive Material

The purpose of this amendment to the Federal Aviation Regulations is to revoke the provisions of Part 103 relating to the monitoring (scanning) of packages containing radioactive materials that are to be transported aboard aircraft. Those provisions (§§ 103.3(d)(3) and 103.23(c), (d), and (e)) were published on February 4, 1975 (Docket No. 13668, 40 FR 5140), and have an effective date of January 1, 1976.

Elsewhere in this issue of the FEDERAL REGISTER, the Materials Transportation Bureau is publishing a notice of proposed rule making that would amend Part 103 by adding requirements relating to monitoring of packages containing radioactive materials that will replace the provisions being revoked by this document.

Since the amendment herein grants relief and imposes no additional burden on any person, I find that notice and public procedure thereon are impracticable and that good cause exists for making this amendment effective in less than 30 days after publication in the FEDERAL REGISTER.

In consideration of the foregoing, Part 103 of title 14, Code of Federal Regulations, is amended by revoking paragraph (d)(3) of § 103.3 and paragraphs (c), (d), and (e) of § 103.23.

(49 U.S.C. 1472(h)(1); 49 U.S.C. 1804; 49 CFR 1.53 (e), (h))

Effective date: This amendment takes effect December 11, 1975.

Issued in Washington, D.C., on December 5, 1975.

JAMES T. CURTIS, Jr.,
Director, Materials
Transportation Bureau.

Title 16—Commercial Practices

CHAPTER I—FEDERAL TRADE COMMISSION

SUBCHAPTER A—PROCEDURES AND RULES OF PRACTICE

PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

Discriminating in Credit Transactions

The Federal Trade Commission announces the following addition to and amendment of Part 13, Subchapter A of Chapter I of Title 16 of the Code of Federal Regulations.

The following new subpart and codification is added following Subpart—Discriminating Between Customers:

Subpart—Discriminating in Credit Transactions on Basis of Marital Status and/or Sex

§ 13.687 Discriminating in credit transactions on basis of marital status and/or sex.

13.687–5 Formal regulatory and/or statutory requirements

13.687–5(a) Equal Credit Opportunity Act

Subpart—Neglecting, Unfairly or Deceptively, To Make Material Disclosure, Is Amended by Adding the Following Subsection Immediately After Section 13.1852 Formal Regulatory and/or Statutory Requirements

13.1852–20 Equal Credit Opportunity Act

(Sec. 6(g), 5, 38 Stat. 722, 719; 15 U.S.C. 46, 45; sec. (a)(1), 80 Stat. 383, 5 U.S.C. 552)

By direction of the Commission dated December 3, 1975.

CHARLES A. TOBIN,
Secretary.

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER E—ANIMAL DRUGS, FEEDS, AND RELATED PRODUCTS

PART 558—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEEDS

Tylosin

The Commissioner of Food and Drugs has evaluated a supplemental new animal drug application (97-567V) filed by Golden Sun Feeds, Inc., 111 South 5th St., Estherville, IA 51334, proposing safe and effective use of a 10-gram-per-pound tylosin premix for the manufacture of swine feed. The supplemental application is approved, effective December 11, 1975.

The Commissioner is amending § 558.625 (21 CFR 558.625) to reflect this approval.

In accordance with § 514.11(e)(2)(ii) (21 CFR 514.11(e)(2)(ii)) of the animal drug regulations, a summary of the safety and effectiveness of data and information submited to support the approval of this application is released publicly. The summary is available for public examination at the office of the Hearing Clerk, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852, Monday through Friday from 9 a.m. to 4 p.m., except on Federal legal holidays.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))) and under authority delegated to the Commissioner (21 CFR 2.120), § 558.625 is amended by revising paragraph (b)(17) to read as follows:

§ 558.625 Tylosin.

* * * * * *

(b) * * *

(17) To 021780: 0.8 and 10 grams per pound; paragraph (f)(1)(vi)(*a*) of this section.

* * * * * *

Effective date. This amendment shall be effective December 11, 1975.

(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i)))

Dated: December 4, 1975.

C. D. VAN HOUWELING,
Director,
Bureau of Veterinary Medicine.

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-808]

PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

Proposed Flood Elevation Determination for the City of Port Isabel, Cameron County, Texas

The Federal Insurance Administrator, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (P.L. 93-234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 P.L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (§ 1917.4(a)) hereby gives notice of his proposed determinations of flood elevations for the City of Port Isabel, Texas.

Under these Acts, the Administrator, to whom the Secretary has delegated the statutory authority, must develop criteria for flood plain management in identified flood hazard areas. In order to participate in the National Flood Insurance Program, the City must adopt flood plain management measures that are consistent with the flood elevations determined by the Secretary.

Proposed flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the proposed flood elevations are available for review at the City Hall, Port Isabel.

Any person having knowledge, information, or wishing to make a comment on these determinations should immediately notify Mayor Leo S. Sanders, P.O. Box 146, Port Isabel, Texas 78578. The period for comment will be ninety days following the second publication of this notice in a newspaper of local circulation in the above-named community or ninety days from publication of this notice in the Federal Register, whichever is the later.

The proposed 100-year Flood Elevations are:

Source of flooding	Location	Elevation (feet above mean sea level)	Width in feet from shoreline to 100-yr flood boundary
Laguna Madre	4th St.	11	(1)
	2d St.	11	(1)
	Manautou Ave.	11	1,600
	Tarnave St.	11	550
	Railroad Ave.	11	(2)
	State Highway 100	11	(2)
	Monroe St.	11	(2)
Public Channel	Island Ave.	11	3,650
	Basin St.	11	650
	State Highway 100	11	1,250
Port Isabel Channel	Port Rd.	11	(3) 4,900
	Jefferson St.	11	900
	Madison St.	11	1,300
Port Isabel Marina	Jefferson St.	11	5,400
	Madison St.	11	6,050

[1] Corporate limits.
[2] To Port Isabel Channel.
[3] From old Railroad grade to corporate limits.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974)

Issued: November 24, 1975.

J. ROBERT HUNTER,
Acting Federal
Insurance Administrator.

[Docket No. FI-809]

PART 1920—PROCEDURE FOR MAP CORRECTION

Letter of Map Amendment for the County of New Castle, Delaware

On December 7, 1971, in 36 FR 23215, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas and the map number and locations where Flood Insurance Rate Maps were available for public inspection. This list included the County of New Castle, Delaware, as an eligible community and included Map No. H 105085 08, which indicates that the lots in Piermont Woods Section I, New Castle County, Delaware, as recorded on Microfilm No. 2986, in the office of the Recorder of Deeds of New Castle County, Delaware, are in their entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after further technical review of the above map in light of additional, recently acquired flood information, that Lots 13, 14, and 15, Block A, are within Zone B, and Lots 1 through 12 and 16 through 18, Block A; 19 through 33, Block C; and 34 through 56, Block B, are within Zone C, and are not within the Special Flood Hazard Area. The map amendment is not based on the placement of fill on the above named property after the effective date of the Flood Insurance Rate Map of the community. Accordingly, effective June 6, 1970, Map No. H 105085 08 is hereby corrected to reflect that the above property is not within the Special Flood Hazard Area.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended, 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: November 25, 1975.

J. ROBERT HUNTER,
Acting Federal Insurance
Administrator.

[Docket No. FI-812]

PART 1920—PROCEDURE FOR MAP CORRECTION

Letter of Map Amendment for the County of New Castle, Delaware

On December 7, 1971, in 36 FR 23215, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas and the map number and locations where Flood Insurance Rate Maps were available for public inspection. This list included the County of New Castle, Delaware, as an eligible community and included Map No. H 105085 08, which indicates that Lots 16 and 19, Glasgow Pines, New Castle County, Delaware, as recorded on Microfilm No. 2384, Sheet No. 8, in the office of the Recorder of Deeds of New Castle County, Delaware, are in their entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after further technical review of the above map in light of additional, recently acquired flood information, that the existing structures on the above mentioned property are within Zone C, and are not within the Special Flood Hazard Area. The map amendment is not based on the placement of fill on the above named property after the effective date of the Flood Insurance Rate Map of the community. Accordingly, effective June 6, 1970, Map No. H 105085 08 is hereby corrected to reflect that the structures on the above property are not within the Special Flood Hazard Area.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended, 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974)

Issued: November 25, 1975.

[Docket No. FI-289]

PART 1920—PROCEDURE FOR MAP CORRECTION

Letter of Map Amendment for the Village of Lindenhurst, Illinois

On April 11, 1974, in 39 FR 13147, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas and the map number and locations where Flood Hazard Boundary Maps were available for public inspection. This list included the Village of Lindenhurst, Illinois, as an eligible community and included Map No. H 170379 01 which indicates that Lot 37, Block 200, Seven Hills Unit No. 27, being 321 High Point Drive, Lindenhurst, Illinois, as recorded in Book 44 of Plats, Page 48 in the office of the Recorder of Lake County, Illinois, is in its entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after further technical review of the above map in light of additional, recently acquired flood information, that the structure on the above property is not within the Special Flood Hazard Area. Accordingly, effective April 5, 1974, Map No. H 170379 01 is hereby corrected to reflect that the structure on the above property is not within the Special Flood Hazard Area.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended, 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974)

Issued: November 25, 1975.

[Docket No. FI-326]

PART 1920—PROCEDURE FOR MAP CORRECTION

Letter of Map Amendment for the Town of Dennis, Massachusetts

On August 7, 1974, in 39 FR 28425, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas and the map number and locations where Flood Hazard Boundary Maps were available for public inspection. This list included the Town of Dennis, Massachusetts, as an eligible community and included Map No. H 250005 08, which indicates that Lot 2, in Plan 28243A, West Dennis, Massachusetts, as recorded in Land Registration Book 171, Page 83, in the Barnstable County Registry of Deeds, Massachusetts, is in its entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after further technical review of the above map in light of additional, recently acquired flood information, that the existing structure on the above mentioned property is not within the Special Flood Hazard Area. Accordingly, effective July 26, 1974, Map No. H 250005 08 is hereby corrected to reflect that the structure on the above property is not within the Special Flood Hazard Area.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended, 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974)

Issued: November 24, 1975.

PART 1920—PROCEDURE FOR MAP CORRECTION

Letter of Map Amendment for the City of Chesapeake, Virginia

On July 18, 1970, in 35 FR 11586, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas and the map number and locations where Flood Hazard Boundary Maps were available for public inspection. This list included the City of Chesapeake, Virginia, as an eligible community and included Map No. H 510034 02 which indicates that Lots 2 and 3, Block 69, Norfolk Highlands Subdivision No. 1, Chesapeake, Virginia, as recorded in Map Book 10, Page 63 in the office of the Clerk of the Circuit Court, Chesapeake, Virginia, are in their entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after further technical review of the above map in light of additional, recently acquired flood information, that the structures on the above property are not within the Special Flood Hazard Area. Accordingly, effective July 18, 1970, Map No. H 510034 02 is hereby corrected to re-

[Docket No. FI-310]

PART 1920—PROCEDURE FOR MAP CORRECTION

Letter of Map Amendment for the City of Hampton, Virginia

On March 24, 1970, in 35 FR 5009, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas and the map number and locations where Flood Insurance Rate Maps were available for public inspection. This list included the City of Hampton, Virginia, as an eligible community and included Map No. H 515527A 18 which indicates that Lot 6, Block B, Wythe Crescent Subdivision, being 120 Wythe Crescent Drive, Hampton, Virginia, as recorded in Book 325, Page 266 in the office of the Clerk of the Circuit Court of Hampton, Virginia, is in its entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after further technical review of the above map in light of additional, recently acquired flood information, that the above property is within Zone B, and not within the Special Flood Hazard Area. The map amendment is not based on the placement of fill on the above named property after the effective date of the Flood Insurance Rate Map of the community. Accordingly, effective March 24, 1970, Map No. H 515527A 18 is hereby corrected to reflect that the above property is not within the Special Flood Hazard Area.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended, 42 U.S.C. 4001–4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974)

Issued: November 24, 1975.

J. ROBERT HUNTER,
Acting Federal Insurance Administrator.

[Docket No. FI-321]

PART 1920—PROCEDURE FOR MAP CORRECTION

Letter of Map Amendment for the City of Neenah, Wisconsin

On August 6, 1974, in 39 FR 28275, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas and the map number and locations where Flood Hazard Boundary Maps were available for public inspection. This list included the City of Neenah, Wisconsin, as an eligible community and included Map No. H 550509 01, which indicates that Lot Nos. 3 and 4 of Block 13, on the Assessor's Plat of Blocks 8 and 13, Jones Plat of the Island, City of Neenah, Wisconsin, as recorded in Volume 12, Page 35, in the Winnebago County Registry Office, Wisconsin, are in their entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after further technical review of the above map in light of additional, recently acquired flood information, that the above mentioned property is not within the Special Flood Hazard Area. Accordingly, effective June 28, 1974, Map No. H 550509 01 is hereby corrected to reflect that the above property is not within the Special Flood Hazard Area.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended, 42 U.S.C. 4001–4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974)

Issued: November 25, 1975.

J. ROBERT HUNTER,
Acting Federal Insurance Administrator.

[Docket No. FI-229]

PART 1920—PROCEDURE FOR MAP CORRECTION

Letter of Map Amendment for the City of Oak Creek, Wisconsin

On March 27, 1974, in 39 FR 11267, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas and the map number and locations where Flood Hazard Boundary Maps were available for public inspection. This list included the City of Oak Creek, Wisconsin, as an eligible community and included Map No. H 550279 05, which indicates that Parcel 1 of the Southwest ¼ of Section 21, Township 5 North, Range 22 East, City of Oak Creek, Wisconsin, as recorded on Reel 802, Image 793, in the office of the Register of Deeds of Milwaukee County, Wisconsin, is in its entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after further technical review of the above map in light of additional recently acquired flood information, that the above mentioned property is not within the Special Flood Hazard Area. Accordingly, effective March 22, 1974, Map No. H 550279 05 is hereby corrected to reflect that the above property is not within the Special Flood Hazard Area.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended, 42 U.S.C. 4001–4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974)

Issued: November 24, 1975.

J. ROBERT HUNTER,
Acting Federal Insurance Administrator.

Title 39—Postal Service

CHAPTER I—U.S. POSTAL SERVICE

INCREASE IN FEES FOR INTERNATIONAL SPECIAL MAIL SERVICES

Miscellaneous Amendments

Correction

In FR Doc. 75-32947 appearing on page 57212, in the issue of Monday, December 8, 1975, make the following change:

In the second column, page 57212, § 43.3(a), the entry "$15.01 to $50.00 ------$0.80" should have appeared as the second entry of (b).

PART 111—GENERAL INFORMATION ON POSTAL SERVICE

Increase in Fees for Domestic Special Services, Domestic and International Money Orders, and Other Nonpostal Services

Correction

In FR Doc. 75-32923, appearing at page 57212, in the issue for Monday, December 8, 1975, on page 57214 make the following changes:

1. At the top of the page, in the table, the entry in the second column of the line beginning "$1,000,000.01 to $15,000,000" now beginning "$253.30", should begin "$253.50".

2. In the table ADDITIONAL SERVICES, in the column *Extra fee (cents)*, the second entry now reading "80" should read "60", and the third entry now reading "26" should read "25".

Title 41—Public Contracts and Property Management

CHAPTER 14—DEPARTMENT OF THE INTERIOR

PART 14–1—GENERAL

Legal Review of Procurement Actions

Pursuant to the authority of the Secretary of the Interior contained in 5 U.S.C. 301, Chapter 14 of Title 41 of the Code of Federal Regulations is hereby amended.

Most procuring activities in the Department of the Interior now require, in varying degrees, legal review of their major procurement actions. However, some procuring activities require little or no review. Therefore, it has been determined that minimum requirements for legal review of procurement transactions within the Department of the Interior should be established.

It is the general policy of the Department of the Interior to allow time for interested parties to participate in the rulemaking process. However, the amendment herein prescribes internal requirements concerning legal review of procurement actions and is entirely administrative in nature. Therefore, the rulemaking process is waived in this particular instance and the amendment will become effective immediately. Implementing procedures established by each bureau and office will be issued within 90 days after the effective date of this amendment.

Dated: December 4, 1975.

JAMES T. CLARKE,
Assistant Secretary of the Interior.

1. The Table of Contents of Subpart 14–1.3 of Part 14–1 of 41 CFR is amended by adding the following entry:

Sec.
14–1.352 Legal review of procurement actions.

AUTHORITY: Sec. 205(c), 63 Stat. 389; 40 U.S.C. 486(c).

2. Subpart 14–1.3 of Part 14–1 of 41 CFR is amended by adding a new § 14–1.352 to read as follows:

Subpart 14–1.3—General Policies

§ 14–1.352 Legal review of procurement actions.

(a) *Policy.* It is the general policy of the Department of the Interior that selected procurement actions be reviewed for legal sufficiency by the Office of the Solicitor prior to the time of execution.

(b) *Implementation.* Each bureau and office with contracting authority shall, in cooperation and consultation with the Office of the Solicitor, establish a review program to implement the basic policy prescribed in paragraph (a) of this § 14–1.352. This program is subject to the approval of the head of the bureau or office and the Associate Solicitor for General Law. The programs shall provide, as a minimum, the procedures for the flow of documents during the review process, dollar threshold for actions to be reviewed, type of documents to be reviewed, point or points during the development of the procurement action when review will be made, and time frames within which the review is to be completed. The programs shall be published in the normal regulation or directive system of the procuring activity with assurance that all contracting officers are notified, and the requirements shall be rigidly enforced. Public notice in the FEDERAL REGISTER will be issued to identify the documents requiring legal review.

(c) *Consultation.* This policy does not alter in any way the right and responsibility of procurement officials to consult with legal counsel on any procurement action regardless of the dollar amount or other circumstances when, in their opinion, legal advice is required.

(d) *Contracting officer's responsibility.* Contracting officers are responsible for all procurement actions. If a contract or other document is determined by the Office of the Solicitor to be legally insufficient, and the issue cannot be resolved between the contracting officer and the legal reviewer, the contracting officer shall not execute or otherwise finalize such procurement action until the legal sufficiency is resolved by the head of the appropriate bureau or office and the Associate Solicitor for General Law.

[FR Doc.75-33285 Filed 12-10-75;8:45 am]

PART 14–1—GENERAL POLICIES

Protection of the Privacy of Individuals

Pursuant to the authority of the Secretary of the Interior contained in 5 U.S.C. 301, Part 14–1 of Chapter 14 of Title 41 of the Code of Federal Regulations is hereby amended as stated herein.

It is the general policy of the Department of the Interior to allow time for interested parties to participate in the rulemaking process. However, the amendments herein implement amendments to 41 CFR Chapter 1 under the Privacy Act of 1974 (Pub. L. 93–579; 5 U.S.C. 552a) and provide a cross-reference to Departmental implementing regulations under that Act. Because the amendments are entirely administrative in nature, the public rulemaking process is waived in this instance and the amendments stated herein are effective immediately.

Dated: December 4, 1975.

RICHARD R. HITE,
Deputy Assistant Secretary of the Interior.

1. The Table of Contents of Subpart 14–1.3 is amended by adding new §§ 14–1.327 and 14–1.327–5 as follows:

* * * * *

§ 14–1.327 Protection of the privacy of individuals.
§ 14–1.327–5 Procedures.

* * * * *

2. Subpart 14–1.3 is amended by adding new §§ 14–1.327 and 14–1.327–5 as follows:

Subpart 14–1.3—General Policies

* * * * *

§ 14–1.327 Protection of the privacy of individuals.

§ 14–1.327–5 Procedures.

(a) The regulations of the Department implementing the Privacy Act of 1974 are set forth in 43 CFR Subtitle A, Part 2, Subpart D (see 40 FR 44504–44510, September 26, 1975, as amended). Copies of the regulations shall be made available to offerors and contractors upon receipt of a written request addressed to the Departmental Privacy Act Officer, Office of the Assistant Secretary-Management, Department of the Interior, 18th and E Streets, N.W., Washington, D.C. 20240.

(b) In accordance with § 2.53(b) of the regulations cited in paragraph (a) of this section, the head of each procuring activity responsible for a contract which provides for the operation by or on behalf of the Department of a system of records to accomplish a Department function shall designate a regular employee of the procuring activity to be the manager for a system of records operated by a contractor.

(c) The Privacy Act clause set forth in § 1–1.327–5(c) of this title shall be supplemented by adding thereto a paragraph (d) as follows:

PRIVACY ACT

(a) * * *

(d) The regulations of the Department of the Interior implementing the Privacy Act of 1974 are set forth in 43 CFR Subtitle A, Part 2, Subpart D. A copy of the regulations may be obtained by submitting a written request therefor to the Departmental Privacy Act Officer, Office of the Assistant Secretary-Management, Department of the Interior, 18th and E Streets, N.W., Washington, D.C. 20240.

[End of clause]

[FR Doc.75-33303 Filed 12-10-75;8:45 am]

Title 43—Public Lands: Interior

SUBTITLE A—OFFICE OF THE SECRETARY OF THE INTERIOR

PART 2—RECORDS AND TESTIMONY

Freedom of Information Fee Schedule

Appendix A to Part 2 of Subtitle A, Title 43, contains a schedule of fees to be charged to members of the public for services performed in locating and making available records or copies of records in connection with requests made under the Freedom of Information Act. Appendix A was adopted on February 20, 1975 (40 FR 7450) and, by its own terms, is scheduled to expire on November 30, 1975.

The Department of the Interior has under consideration adjustment of some of the fees contained in Appendix A and intends shortly to propose a revision of the Appendix. In order there to be an adequate period for public consideration of and comment upon the revision, it is necessary to extend the period of effectiveness of the current Appendix for sixty (60) days. Accordingly, pursuant to authority granted by 5 U.S.C. 301 and 552, 31 U.S.C. 483a and 43 U.S.C. 1460, paragraph (15) of Appendix A is amended to extend the effective date of the Appendix to January 30, 1976.

Because this is an interim extension pending revision of the Appendix through notice and comment procedures, good cause for waiver of those procedures pursuant to 5 U.S.C. 553(b) exists. For the same reason, good cause for waiver of the 30-day waiting period for effectiveness exists.

Effective date: This amendment is effective November 30, 1975.

RICHARD R. HITE,
Deputy Assistant Secretary of the Interior.

DECEMBER 4, 1975.

Appendix A [Amended]

Appendix A, paragraph (15) is amended by deleting "November 30, 1975" and substituting "January 30, 1976."

[FR Doc.75-33377 Filed 12-10-75;8:45 am]

V40239 DEC 11 75 XUM

Title 45—Public Welfare

CHAPTER III—OFFICE OF CHILD SUPPORT ENFORCEMENT (CHILD SUPPORT ENFORCEMENT PROGRAM), DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 302—STATE PLAN REQUIREMENTS

Cost Allocation Plans

Part 302 of Chapter III, Title 45 of the Code of Federal Regulations is amended to eliminate the requirement that a State have an approved cost allocation plan on file in the Regional Office as a condition of State plan approval.

The purpose of this regulation is to enable States to have their State plans approved prior to the approval of their cost allocation plans.

The basis of this regulation is the Department's belief that this regulation will ensure the proper and efficient administration of the Child Support Program.

Final regulations implementing Part B of Pub. L. 93–647, the Child Support Enforcement Program, were published on June 26, 1975 (40 FR 27154). These regulations require a State to have an approved cost allocation plan on file in order to have their State plan for Child Support Enforcement approved. (See 45 CFR 302.16.) If a State failed to meet this requirement, not only would the State be ineligible for Federal financial participation in the allocable costs of the program but it would also be prevented from claiming Federal matching for directly identifiable costs.

Federal matching for allocable costs will continue to be conditioned upon approval of a cost allocation plan. However, the revised regulation permits State plan approval without an approved cost allocation plan in order to allow Federal reimbursement for direct costs.

Good cause exists to dispense with proposed rule making procedures; the regulation must be changed immediately to facilitate the State plan approval process. Only after the State plan is approved can States be reimbursed for the expenditures they have made for the Child Support Enforcement Program.

However, any written comments, suggestions, or objections addressed to the Acting Director, Office of Child Support Enforcement, Department of Health, Education, and Welfare, P.O. Box 2382, Washington, D.C. 20013, and received on or before January 12, 1976, will be considered with a view to possible revision of this regulation.

Such comments will be available for public inspection in Room 5225 of the Department's offices at 330 C Street, S.W., Washington, D.C. beginning approximately two weeks after publication of this Notice in the FEDERAL REGISTER, on Monday through Friday of each week from 8:30 a.m. to 5 p.m. (area code 202–245–0950).

Section 302.16 is amended by revising paragraph (a), eliminating paragraph (b)(1) and redesignating paragraphs (b)(2) and (3) as (b)(1) and (2) respectively. As amended, § 302.16 reads as follows:

§ 302.16 Cost allocation.

(a) The State plan shall provide that:

(1) The IV–D agency will claim Federal financial participation in those costs of administration which require an allocation method only if the agency has an approved cost allocation plan on file with the Regional Office which identifies and describes the methods and procedures the State has established for properly charging the costs of administration, services, (excluding purchased services), and training activities under the plan in accordance with the Federal requirements set out in 45 CFR Part 74, Appendix C, and in Department and Office regulations and instructions.

(2) The cost allocation plan includes description of the functions and activities by organizational units or other cost centers prescribed in the State plan; estimated costs for an annual period by organizational units or other cost centers (unless specifically waived by the Regional Office); and the basis used for allocating the various pools of costs to programs and activities (with justification for each).

(3) The cost allocation plan contains such other information as is necessary to document the validity of the cost allocation methods and procedures and must include methods and procedures for:

(i) Allocating all such administrative costs of the State Department in which the IV–D agency is located between Federal and non-Federal programs;

(ii) Identifying, of the costs applicable to more than one of the Federal programs, those applicable to each of the separate programs, in accordance with program classifications specified by the Secretary; and

(iii) Segregating costs in paragraph (a)(3)(ii) of this section by classifications as are found necessary by the Secretary.

(4) The estimated costs are included solely to permit evaluation of the methods of allocation, and therefore approval of the cost allocation plan shall not constitute approval of these estimated costs for use in calculating claims for Federal financial participation.

(5) A State shall revise its cost allocation plan when the allocation method shown in the existing plan is outdated due to organizational changes within the IV–D agency, changes in Federal law or regulations, or other similar changes.

(b) *Federal financial participation.* (1) If a IV–D agency fails to revise its cost allocation plan as required by paragraph (a)(5) of this section within the quarter that such changes are effective, the Regional Office will defer payment of any overstated portions of expenditures which he determines to result from the IV–D agency using an outdated cost allocation method until the IV–D agency has submitted a revised cost allocation plan which is approved by him and the IV–D agency has revised its claim accordingly.

(2) If a IV–D agency does not have any cost allocation plan on file with the Regional Office, payment will not be made for those costs of administration which require an allocation method. Such payments will be deferred until such time as a cost allocation plan has been submitted and is approved by the Regional Office.

(Sec. 1102, 49 Stat. 647 (42 U.S.C. 1302))

Effective date: The regulations in this section are effective on August 1, 1975.

Dated: October 17, 1975.

JOHN A. SVAHN,
Acting Director, Office of Child Support Enforcement.

Approved: December 5, 1975.

DAVID MATHEWS,
Secretary.

Title 46—Shipping

CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

SUBCHAPTER A—PROCEDURES APPLICABLE TO THE PUBLIC

[CGD 75–182]

PART 5—SUSPENSION AND REVOCATION PROCEEDINGS

Appeal Procedures

As a result of the review of appeals from the decisions and orders of Administrative Law Judges in suspension or revocation proceedings, the Coast Guard has determined that the procedural regulations governing these appeals require clarification.

As currently written, § 5.30–1(e) assumes that all appellants will request a transcript of the record. Section 5.30–3(a) currently recognizes that not all appellants request transcripts, by providing alternate time periods within which to submit grounds to support an appeal, based on whether or not a transcript was requested.

Section 5.30–1(c) is revised by adding a sentence to point out that an appellant need only request a transcript if it is needed in the preparation of his appeal. An appeal may be prepared and processed without a transcript; the decision is left to the appellant.

Section 5.30–1(e) is rearranged for clarity only; it imposes no new or additional requirements on an appellant.

Since these amendments relate solely to agency procedure and practice, the notice of proposed rulemaking requirements in 5 U.S.C. 553(b) do not apply.

In accordance with the foregoing, 46 CFR Part 5 is amended as follows:

1. Section 5.30–1 is amended by adding the following sentence to the end of paragraph (c):

§ 5.30–1 Time for filing, contents, etc.

• • • • • •

(c) • • • It is not necessary for the appellant to request a copy of the transcript of the proceedings unless the appellant needs the transcript to prepare his appeal.

• • • • • •

2. Section 5.30–1 is amended by revising paragraph (e) to read as follows:

§ 5.30–1 Time for filing, contents, etc.

• • • • • •

(e) The appellant must submit, in each appeal, a brief or memorandum containing legal and other authorities relied upon. If the appellant has received a transcript, each exception submitted must be identified by specific citation to pages in the transcript.

• • • • • •

(14 U.S.C. 633; 80 Stat. 937 (49 U.S.C. 1655(b)(1)); 49 CFR 1.46(b)).

Effective date. These amendments become effective on January 12, 1976.

Dated: December 5, 1975.

E. L. PERRY,
Vice Admiral, U.S. Coast Guard, Acting Commandant.

[FR Doc.75–33327 Filed 12–10–75;8:45 am]

[CGD 74–178]

PART 12—CERTIFICATION OF SEAMEN

Application for Documents

The purpose of this amendment is to delete the provision for the placing of fingerprints on the application form for a merchant mariner's document at the discretion of the applicant. There is no space on the present form for the placing of fingerprints, since the form has been revised. Fingerprints are submitted on a separate form compatible with the files maintained by the Federal Bureau of Investigation.

This amendment is issued without notice of proposed rulemaking. Since fingerprints are presently being submitted on a separate form, and the present provision may cause confusion, notice and public procedure are unnecessary, and the amendment may become effective in less than thirty days.

Accordingly, Part 12 of Title 46 of the Code of Federal Regulations is amended as follows:

§ 12.02–9 [Amended]

In § 12.02–9(a) by deleting the second sentence which reads: "The placing of fingerprints on the application shall be optional with the seaman."

(R.S. 4405, as amended (46 U.S.C. 375); R.S. 4462, as amended (46 U.S.C. 416); R.S. 4551, as amended (46 U.S.C. 672); 49 U.S.C. 1655(b); 49 CFR 1.46(b)).

Effective date. This amendment shall be effective December 11, 1975.

Dated: December 4, 1975.

O. W. SILER,
Admiral, U.S. Coast Guard, Commandant.

[FR Doc.75–33328 Filed 12–10–75;8:45 am]

CHAPTER III—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD 75–228]

PART 401—GREAT LAKES PILOTAGE REGULATIONS

Authority of the Director of Great Lakes Pilotage To Dispatch Pilots

The purpose of this amendment is to amend § 401.720(b) of the Great Lakes Pilotage Regulations by changing the criteria the Director, Great Lakes Pilotage Staff, may use to order U.S. registered pilots to provide pilotage service.

The Coast Guard promulgated §§ 401.700(b) and 401.720(b) as part of the regulations on Great Lakes Pilotage, published September 8, 1975, (40 FR 41526). Upper Great Lakes Pilots Inc., brought an action in U.S. District Court, District of Minnesota, Fifth Division, seeking a declaratory judgment and injunctive relief on the grounds that these sections are vague and give the Director, Great Lakes Pilotage Staff, overly broad discretionary authority to dispatch pilots. Upper Great Lakes Pilots, Inc., and the Coast Guard agreed and stipulated that § 401.720(b), this amendment, would be promptly revised and promulgated as a regulation. It was further agreed that § 401.700(b), which directs the U.S. registered pilots to comply with the dispatching orders in § 401.720(b), remain unchanged.

Existing § 401.720(b) authorizes the Director to dispatch pilots when pilotage service is not provided by the pilot's association or when the association's Certificate of Authorization is under suspension or revocation. As revised, the Directory may still dispatch pilots when the association's Certificate of Authorization is under suspension or revocation or when the association is physically or economically unable to provide pilotage service.

Upper Great Lakes Pilots, Inc., requested in written comments and at a public hearing that § 401.720(b) be changed by limiting the broad discretionary powers of the Director to dispatch pilotage service. This amendment is within the scope of these comments and the rulemaking proceeding for the rules promulgated on September 8, 1975. Therefore, notice and public procedure on this amendment are unnecessary. This amendment creates no additional burden on any person and may be made effective in less than 30 days.

In consideration of the foregoing § 401.720(b) of Title 46 Code of Federal Regulations is amended as to read follows:

§ 401.720 Authority of the Director over operations.

• • • • • •

(b) When pilotage service is not provided by the association authorized under 46 U.S.C. 216(b)(e) because of a physical or economic inability to do so, or when the Certificate of Authorization is under suspension or revocation under § 401.335, the Director may order any U.S. registered pilot to provide pilotage service.

• • • • • •

(Sec. 4 and sec. 5, 74 Stat. 260 (46 U.S.C. 216b; 216c); sec. 6(a)(4), 80 Stat. 937, as amended (49 U.S.C. 1655(a)(4)); 49 CFR 1.46(a))

Effective date. This amendment becomes effective on December 11, 1975.

Dated: December 5, 1975.

E. L. PERRY,
Vice Admiral, U.S. Coast Guard, Acting Commandant.

[FR Doc.75–33329 Filed 12–10–75;8:45 am]

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 20444; RM No. 2430; FCC 75–1316]

VESSEL TRAFFIC SERVICES

Designation of Frequencies

In the matter of amendment of Parts 2, 81 and 83 of the rules to designate in the Ports of New York and New Orleans the frequencies 156.55 MHz, 156.6 MHz and 156.7 MHz (very high frequency channels 11, 12 and 14) in the Maritime Mobile Service for exclusive use in the Vessel Traffic Services.

Amendment of Sections 2.106 and 2.303 of the rules to designate 156.55, 156.6 and 156.7 MHz for use in Vessel Traffic Services.

1. On April 23, 1975, we released a Notice of Proposed Rule Making (40 FR 18465, April 28, 1975) to amend our rules to designate frequencies, and provide for their use, in Vessel Traffic Services (VTS),[1] as requested by the Commandant of the U.S. Coast Guard, so that Title I of the "Ports and Waterways Safety Act of 1972" (Public Law 92–340, 86 Stat. 424, 46 U.S.C. 1551) could be implemented in the New York and New Orleans port areas. The notice provided for the filing of comments within a specified time, which has expired. Because of the decisions affecting Part 2 of the rules, which are reached herein, the caption has been modified accordingly.

2. In general, the proposed changes would designate the above captioned three channels for exclusive use in specified geographical areas, under Coast Guard control, only for VTS communications and permit the use of the channels outside the specified areas, as permitted elsewhere in the rules, provided there is

[1] The Coast Guard now identifies these operations as Vessel Traffic Services rather than Vessel Traffic Systems as stated in our Notice of Proposed Rule Making herein.

V40239 DEC 11 75 XUM

no interference to VTS communications within the designated VTS areas.

3. Comments were filed by the American Institute of Merchant Shipping (AIMS), the American Petroleum Institute (API), and the American Waterways Operators, Inc. (AWO). All the commenters favored the proposed rule changes in concept or generally, but stated they felt that VTS operations would impose an additional listening watch on vessel operators to which they are strongly opposed. The commenters said that vessels were already maintaining watches on as many as three maritime service channels and that if a VTS watch is to be required one of the presently required watches, such as on VHF channel 156.8 MHz, should be eliminated. They said that the maintenance of an additional watch would be unreasonable and counterproductive to maritime safety. In addition, AWO objected to the use for VTS purposes of the three specified frequencies which are now extensively used for navigational and port operations communications. AWO also asserted that channels 12 and 14 should not be dedicated for VTS uses before a proposed VHF communications system for the lower Mississippi River is established.[a] Finally, with respect to a statement in our notice that coast stations operating on VTS channels will be required to change to non-VTS channels, AWO asserted that we do not have the legal authority to require this.

4. We find that the public interest requires us to amend our rules as proposed and as set forth in the Appendix attached hereto. As explained in our notice of proposed rule making, the Coast Guard is implementing vessel traffic services systems as provided for in new legislation and we consider it incumbent upon us to provide maritime frequencies for use in the systems. Two of the channels selected by us, in coordination with the Coast Guard are port operations frequencies. These two channels are already used for communications which are closely related to VTS communications. The other frequency is now authorized for the exchange of commercial communications and may continue to be so used outside the VTS controlled areas. For stations using that commercial channel, there are 11 other channels available for this class of communications as shown in Section 83.359 of our rules. We recognize that the subject channels may be extensively used, particularly in certain crowded navigational areas, and that there may be a need for additional maritime mobile frequencies. These are not frequency use conditions, however, that are peculiar only to this service. A shortage of frequencies does not constitute sufficient reason for not designating frequencies for VTS purposes as we believe we are expected by law and the public interest to do in this instance.

5. We turn now to the question of additional listening watches on VTS channels, or of eliminating watches presently required by our rules. We are not requiring any additional watches by these rule changes herein. The purpose of the changes is, essentially, to make designated frequencies available, under conditions specified, for VTS use under Coast Guard control. The comments, therefore, concerning additional watches are not germane to this proceeding. Arguments in opposition to listening watches on VTS channels could more appropriately be made when and if the Coast Guard proposes such a requirement. With respect to the relaxation of listening watches now required by law or our rules, we do not contemplate such actions even if the Coast Guard later requires a VTS watch. Those watches are well established and are essential for efficient radio calling procedures. Without the watches there would be no effective way to contact a ship station to generate an exchange of communications on public correspondence, port operations, commercial, or other working frequencies.

6. Regarding our statement in paragraph 6 of the Notice of Proposed Rule Making that coast stations operating on VTS frequencies in or near the VTS protected areas would be required to change to non-VTS frequencies, we are not going to require that action. Developments since the release of our notice in this proceeding indicate that the operation of such coast stations should not constitute any significant problem for VTS systems. As licenses of coast stations in VTS areas expire, we will not renew the licenses for continued operations on the VTS frequencies and most have voluntarily applied for a change in frequencies in their own interests so that their working frequency will not be preempted by, or congested with, VTS traffic. Any problems to VTS systems caused by these coast stations should eventually disappear. The comment, therefore, of AWO with respect to our authority to require coast station licensees to terminate operation on the VTS channels is moot.

7. Subsequent to the release of our notice in this proceeding, the Coast Guard requested that we further amend our rules to permit the use of the vessel name only for a station identification in VTS systems. The Coast Guard said it provides a quicker and more positive way to identify vessels under those circumstances. Additionally, we understand that some foreign governments require this method of station identification in vessel traffic system operated by them, or at other times. We believe this method of station identification is reasonable and in the public interest and will still enable us to satisfactorily discharge our regulatory responsibilities under the controlled conditions existing in vessel traffic systems. Accordingly, we are amending §§ 2.303 and 83.364 of the rules to permit station identification by the name of the vessel in lieu of the assigned call sign, or by such other method as directed by a U.S. agency such as the Coast Guard or the Army Corps of Engineers or foreign authorities when vessels are operating under their control or jurisdiction. We are also making some minor editorial changes so that these sections will more closely conform with related provisions of the international Radio Regulations. As presently worded, the section appears to permit incorrectly, identification of radiotelephony ship stations and survival craft by telegraphic means, whereas it is our intention that only the survival craft stations may be so identified as provided for in the international regulations.

8. Accordingly, *it is ordered*, pursuant to authority contained in Sections 4(1) and 303 (b), (c), (d), (h) and (r) of the Communications Act of 1934, as amended, the Commission's rules are amended, as set forth below, effective January 15, 1976.

9. *It is further ordered*, That any application for modification of a station license to change from a VTS channel, may be filed without payment of the prescribed filing fee.

10. *It is further ordered*, That this proceeding in Docket No. 20444 (RM 2430) is terminated.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Adopted: December 2, 1975.

Released: December 9, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

Parts 2, 81 and 83 of Chapter I of Title 47 of the Code of Federal Regulations are amended as follows:

PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS, GENERAL RULES AND REGULATIONS

1. In § 2.106, U.S. Footnote US 77 paragraph (c) is amended and a new paragraph (d) is added as follows:

§ 2.106 Table of frequency allocations.

* * * * *

US FOOTNOTES

* * * * *

US 77 * * *

* * * * *

(c) Intership use of 156.3 MHz on a simplex basis; and

(d) Vessel traffic services under the control of the U.S. Coast Guard on a simplex basis by coast and ship stations on the frequencies 156.55, 156.6 and 156.7 MHz.

2. In § 2.203 the form of identification, other than assigned call sign for a ship telephone class of station is amended, and a new identification for a survival craft station is added, as follows:

§ 2.303 Other forms of identification of stations.

* * * * *

Class of station	Identification other than assigned call sign
* * *	* * *
Aircraft survival craft.	* * *
Ship telephone----	When an official call sign is not yet assigned: Complete name of the ship and name of licensee. On 156.65 MHz: Name of ship. When vessel is operated in vessel traffic system or on waterway under control of a U.S. agency or a foreign government: Name of ship or such other method as directed by agency or foreign government.
Ship survival craft station.	Same as ship telephone except that no identification is required if station is transmitting distress messages by automatic means. Identification may also be transmitted by telegraphy using A2 emission.

* * * * *

PART 81—STATIONS ON LAND IN THE MARITIME SERVICES AND ALASKA-PUBLIC FIXED STATIONS

1. In § 81.356(a), a condition of use designator 1 is added for Channel 12 (156.600 MHz) and Channel 14 (156.700 MHz) under Port Operations, and for Channel 11 (156.550 MHz) under commercial; and in paragraph (b) of this section, a new subparagraph (1) is added to read as follows:

§ 81.356 Assignable frequencies in the band 156–162 MHz.

* * * * *

(b) * * *

(1) Available for use in U.S. Coast Guard designated controlled port areas only for Vessel Traffic Services (VTS) communications, and for use outside VTS radio protected areas described in § 81.357 for communications permitted elsewhere in these rules only on a noninterference basis to VTS communications, as provided for in § 81.357.

* * * * *

2. A new § 81.357 is added as follows:

§ 81.357 Frequencies available for use in Vessel Traffic Services Systems.

(a) In Coast Guard designated Vessel Traffic Services (VTS) control areas located within the radio protected areas specified and described in paragraph (b) of this section, and effective the dates indicated, the only use for the frequencies 156.55 MHz, 156.6 MHz and 156.7 MHz is for VTS communications under U.S. Coast Guard control.

(b) The U.S. Coast Guard designated radio protection areas for VTS purposes are as follows:

(1) New York, effective January 15, 1976: The rectangle between north latitudes 40° and 42° and west longitudes 71° and 74°30'.

(2) New Orleans, effective July 1, 1976: The rectangle between north latitudes 27°30' and 31°30', and west longitudes 87°30' and 92°.

(c) The use of the frequencies shown in paragraph (a) of this section, are permitted in areas outside the Coast Guard radio protection areas in accordance with the uses permitted elsewhere in this Part provided there is no interference to VTS communications within the control areas.

PART 83—STATIONS ON SHIPBOARD IN THE MARITIME SERVICES

1. In § 83.351(a), 83.361 is added in the See section column and a condition of use designator 58 is added in the Condition of use column opposite the frequencies 156.550 MHz, 156.600 MHz and 156.700 MHz; and a new subparagraph 58 is added to paragraph (b) to read as follows:

§ 83.351 Frequencies available.

* * * * *

(b) * * *

(58) Available for use in U.S. Coast Guard designated controlled port areas only for Vessel Traffic Services (VTS) communications, and for use outside VTS radio protected areas described in § 83.361 for communications permitted elsewhere in these rules, only on a noninterference basis to VTS communications, as provided for in § 83.361.

* * * * *

2. A new § 83.361 is added as follows:

§ 83.361 Frequencies available for use in Vessel Traffic Services.

(a) In Coast Guard designated Vessel Traffic Services (VTS) control areas located within the radio protected areas specified and described in paragraph (b) of this section, and effective the dates indicated, the only use for the frequencies 156.55 MHz, 156.6 MHz and 156.7 MHz is for VTS communications under U.S. Coast Guard control.

(b) The U.S. Coast Guard designated radio protection areas for VTS purposes are as follows:

(1) New York, effective January 15, 1976: The rectangle between north latitudes 40° and 42, and west longitudes 71° and 74°30'.

(2) New Orleans, effective July 1, 1976: The rectangle between north latitudes 27°30' and 31°30', and west longitudes 87°30' and 92°.

(c) The use of the frequencies shown in paragraph (a) of this section, are permitted in areas outside the Coast Guard radio protection areas in accordance with the uses permitted elsewhere in this part, provided there is no interference to VTS communications within the VTS control areas.

3. In § 83.364, paragraph (a) is amended to read as follows: a new paragraph (b) is added as follows: and the existing paragraphs (b), (c) and (d) are redesignated as paragraphs (c), (d) and (e) respectively.

§ 83.364 Identification of station.

(a) Station identification shall be made in the following manner:

(1) Ship stations using radiotelephony shall identify all transmissions by announcing in the English language the station assigned call sign. As an exception to the above, transmissions on the bridge-to-bridge channel 13 (156.65 MHz) may be identified by the name of the ship in lieu of the call sign; and stations on board ships operated in a vessel traffic service system or on a waterway under the control of a U.S. government agency, or a foreign authority, when communicating with such an agency or authority may be identified by the name of the ship in lieu of the call sign, or in such other manner as may be directed by the agency or foreign authority.

(2) Survival craft stations will be identified in the same manner as ship stations as provided for above, except that no identification is required when distress signals are being transmitted automatically. In addition, survival craft stations may be identified by telegraphy using A2 emissions.

(b) Ship and survival craft station identification shall be transmitted at the following times:

(1) At the beginning and upon completion of each exchange of communications with any other station;

(2) At the beginning and upon conclusion of each transmission made for any other purpose; and

(3) At intervals not exceeding 15 minutes whenever transmission is sustained for a period exceeding 15 minutes, except when a ship station is exchanging public correspondence communication in which case the identification may be deferred until the completion of the exchange of communications.

[FR Doc.75-33341 Filed 12-10-75;8:45 am]

[Docket No. 20519; FCC 75-1284]

PART 87—AVIATION SERVICES

Aeronautical Emergency Communications Requirements

In the matter of Amendment of Part 87, Subpart Q of the Commission's rules to satisfy the need, insofar as possible, of all stated aeronautical emergency communications requirements during national, state, and local emergency situations as well as civil defense activities. Subpart Q also makes provision for the Aeronautical Emergency Communications System (AECS) Plan.

1. The Commission on June 10, 1975, adopted a Notice of Proposed Rule Making in the above-entitled matter (FCC 75-683) which made provisions for interested persons to file comments and reply comments. The Notice of Rule Making was published in the FEDERAL REGISTER on June 24, 1975 (Volume 40,

[a] Waterways Communications System, Inc. has on file with the Commission applications for eight new class III (VHF) public coast stations on the Mississippi River south of Cairo, Illinois, with a request for rule making or rule waiver to permit the operation of the stations as a radiocommunication system for vessels. The applications and proposals are opposed through petitions to deny by or on behalf of the existing public coast stations in that region. The matter is currently under study.

V40239 DEC 11 75 XUM

Number 122, FR DOC. 75–16305). The deadline for filing comments was July 28, 1975 and reply comments were required by August 8, 1975.

2. The Notice of Proposed Rule Making was issued in response to a recommendation by the Aeronautical Communications Services Subcommittee of the National Industry Advisory Committee (NIAC) that the Commission adopt an Aeronautical Emergency Communications System (AECS) Plan. The AECS Plan as drafted on April 11, 1974 by the NIAC subcommittee, required amendment to Part 87, subpart Q of the Commission's rules to allow for certain unique communications to be carried out during emergency situations on a local day-to-day basis. The emergency situations included such occurrences as civil disorders, hurricanes, floods, earthquakes, acts of air piracy, and other similar emergencies.

3. In the Notice of Rule Making the Commission, having worked closely with government agencies and aeronautical industry representatives, proposed to adopt the NIAC recommendation by amending Part 87, Subpart Q of the rules and provide an AECS Plan to satisfy all aeronautical emergency communications requirements during national, state, and local emergency situations as well as civil defense activities.

4. The only comments received in response to the proposed rule making were jointly filed by Aeronautical Radio, Inc. (ARINC) and the Air Transport Association of America (ATA). Both ARINC and ATA supported the Commission's proposals to amend Subpart Q of Part 87 of the rules and to establish the AECS Plan. However, ARINC and ATA recommended editorial changes to the AECS Plan which would clarify the procedures under which participating entities would apply for priority certification for restoration of common carrier provided communication circuits necessary for continued operation during emergency situations. The only reply comments received were from the Aircraft Owners and Pilots Association (AOPA). The AOPA supported the proposed rules and AECS Plan with the addition of the editorial changes recommended by ARINC and ATA. The Commission believes that the recommended editorial changes are warranted for the purpose of clarification. Thus, the following changes have been incorporated into the AECS Plan (set forth below): (1) Under paragraph C, subparagraph e. *PRIORITIES*, the parenthetical sentence "(see paragraph G)" is added to direct users to paragraph G which explains the procedure for obtaining certification for priority restoration of common carrier provided circuits. (2) Under paragraph G. subparagraph c. the phrase "in accordance with Appendix A, Subpart D, Part 64 of the Commission's rules" is added to direct the user to appropriate Commission rules which institute the priority system for the restoration of common carrier provided intercity private line services.

5. In addition to the specific comments invited by the Notice of Proposed Rule Making, Commission staff has incorporated other minor editorial changes to the AECS Plan which have been concurred in by the Office of Telecommunications Policy and are strictly for the purpose of clarification. These changes include: (1) Under paragraph C, subparagraph e. *PRIORITIES*, the phrase "common carrier provided" is added to clarify the type of communication facilities to receive priority restoration. (2) Paragraph D. *ORGANIZATION* has been revised to be more concise and to allow for a broader approach to the development of detailed AECS Operational plans. (3) Under paragraph G., subparagraph c., the phrase "and must be identified in an approved Detailed Operational AECS Plan" is added to let the user know that a priority restoration will not be certified by the Commission unless the circuits to be restored are an intricate part of an existing Detailed AECS Plan.

6. The Commission believes that the rule amendment and the provision for the AECS Plan will provide the aeronautical industry with a good foundation for the development of emergency plans and procedures that will satisfy insofar as possible, all emergency communication requirements that effect the aeronautical industry.

7. In view of the foregoing, *it is ordered*, Pursuant to the authority contained in sections 1, 4(i), 4(o), and 303 (r) of the Communications Act of 1934, as amended, that effective January 15, 1976, Part 87 of the Commission's Rules and Regulations is amended as set forth below and the Aeronautical Emergency Communications System (AECS) Plan as set forth below is adopted by the Commission.

8. *It is further ordered*, That this proceeding is terminated.

(Secs. 1, 2, 3, 4, 303, 307, 403, 48 Stat., as amended; 47 U.S.C. 151, 152, 153, 154; 303, 307, 403)

Adopted: November 25, 1975.

Released: December 4, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

Part 87 of Chapter 1 of Title 47 of the Code of Federal Regulations is amended as follows:

A. Section 87.257(e) is amended to read as follows:

§ 87.257 Scope of service.

* * * * *

(e) For communications with private aircraft engaged in organized civil defense activities in time of enemy attack or immediately thereafter, see Subpart Q, § 87.607(d).

* * * * *

B. Part 87, Subpart Q is revised to read as follows:

Subpart Q—Emergency Communications

§ 87.601 Scope and objective.

(a) This subpart provides for an Aeronautical Emergency Communications System (AECS) Plan for all Aviation Service licensees of the Federal Communications Commission pursuant to Sections 1, 4(o), 301 and 303 of the Communications Act of 1934, as amended, and Executive Order 11490, as amended. Provision is made in the AECS Plan for the development and designation of facilities, mutually compatible operational arrangements, procedures and interconnecting facilities to satisfy vital emergency communications requirements in response to emergency situations declared by local, state, and federal authorities and management of the aviation industry.

(b) Sections 87.606 and 87.607 provide for continued radio service and operation of facilities to the extent necessary for the safety or control of friendly aircraft during emergency situations. It also provides for actions to be taken under the plan for the Security Control of Air Traffic and Air Navigation Aids (SCATANA) and the Detailed Operational Plan for the Security Control of non-Federal Air Navigation Aids to effect control of selected non-Federal VOR, VORTAC and TACAN Stations by Regional Commanders, North American Defense Command during periods of Defense Emergency and/or Air Defense Emergency.

(c) Section 87.607(c) is to provide for the operation of stations in the Aviation Services within the United States during any local emergency situation constituting a threat to safety of life and property when such a threat is not considered a national emergency.

§ 87.602 Definition of terms.

(a) Accurate Air Navigation Aids. Radio navigation stations in the following categories: Very High Frequency Omnidirectional Range (VOR), Very High Frequency Omnidirectional Range and Tactical Air Navigation (VORTAC) and Tactical Air Navigation (TACAN).

(b) Aeronautical Emergency Communications System (AECS) Plan. The AECS Plan provides for the operation of aeronautical communications stations, on a voluntary, organized basis, to provide the President and the Federal Government, as well as heads of state and local governments, or their designated representatives, and the aeronautical industry with an expeditious means of communications during an emergency situation.

(c) Air Defense Emergency. An emergency condition which exists when attack upon the continental United States, Alaska, Canada, or U.S. installations in Greenland by hostile aircraft or missiles is considered probable, is imminent, or is taking place.

(d) Defense Emergency. An emergency condition which exists when:

(1) A major attack is made upon U.S. forces overseas, or allied forces in any area, and is confirmed either by the commander of a unified or specified command or higher authority.

(2) An overt attack of any type is made upon the United States and is confirmed either by the commander of a command established by the Secretary of Defense or higher authority.

(e) Detailed Operational AECS Plans. These are plans developed to satisfy specific requirements of the aeronautical industry under regional, state, or local levels. They shall be considered supplements to the AECS Plan and shall be in conformity with the provisions thereof.

(f) Detailed Operational Plan for the Security Control of non-Federal Air Navigation Aids (Reference: SCATANA). A plan to establish the responsibilities, procedures, and general instructions for the security control of selected non-Federal VOR, VORTAC, and TACAN stations under the provisions of the SCATANA Plan, during a Defense Emergency and/or Air Defense Emergency or imminence thereof.

(g) Five-minute Control Time. The maximum time allowed to start and/or discontinue transmission from an air navigation aid.

(h) Emergency Situation. An emergency situation is a condition posing a threat to the safety of life and/or property on a national, state, or Operational (local) Level.

(i) AECS Authorization (AECSA). An authorization issued by the FCC to the licenses of aeronautical stations, subject to the provisions of this part, for operation in accordance with the Aeronautical Emergency Communications System (AECS) Plan, including the annexes and supplements to that plan and the Detailed Operational Plan for the Security Control of non-Federal Air Navigational Aids.

(j) Non-Federal Air Navigation Aids. VOR, VORTAC and TACAN stations licensed by the Federal Communications Commission.

(k) NORAD Region. A geographical subdivision of the area for which NORAD is responsible.

(l) North American Air Defense Command (NORAD). An integrated United States-Canadian Command. NORAD includes, as component commands, the United States Air Force Aerospace Defense Command, and the Canadian Forces Air Defence Command.

(m) SCATANA. The short title for the joint Department of Defense/Department of Transportation/Federal Communications Commission plan for the Security Control of Air Traffic and Air Navigation Aids.

(n) Tactical Air Traffic. Military flights actually engaged in operational missions against the enemy, flights engaged in immediate deployment for a combat mission, and preplanned combat and logistical support flights contained in Emergency War Plans.

(o) United States. The several States, the District of Columbia, the Commonwealth of Puerto Rico and the several territories and possessions of the United States (including areas of air, land, or water administered by the United States under international agreement), including the territorial waters and the overlying airspace thereof.

(p) CRAF. The short title for the Civil Reserve Air Fleet plan directed toward identification, organization, and development of a source of civil airlift capability readily available to augment the Department of Defense (DOD) in an airlift emergency.

(q) WASP. The short title for the War Air Service Program plan to make assignment of air carrier routes, service points and aircraft controlled by the Civil Aeronautics Board (CAB).

(r) SARDA. State and Regional Disaster Airlift. A plan for the use of non-air carrier aircraft during a national emergency.

(s) Local Emergency Situation. An emergency situation resulting from civil disorders, hurricane, flood, earthquake, an act of air piracy, or other similar emergencies including those unique to the aviation service, involving the safety of life and property and which do not constitute an immediate threat to National Defense or security.

§ 87.603 Aeronautical Emergency Communications System Authorization (AECSA).

An AECSA shall be issued by the FCC to the licensees of aeronautical stations to permit operation on a voluntary, organized basis during an emergency situation. Operation shall be consistent with the provisions of this subpart, the AECS Plan and the Detailed Operational Plan for the Security Control of non-Federal Air Navigation Aids.

§ 87.604 Criteria for eligibility for an Aeronautical Emergency Communications System Authorization.

(a) A radio station licensee in the aeronautical industry upon letter application to the FCC may be granted an AECSA which shall remain in effect concurrently with the terms of his regular authorization, so long as the licensee meets the following criteria:

(1) Is a participant in the AECS Plan and/or any Detailed Operational AECS Plan.

(2) Must be willing to cooperate with other aeronautical industry licensees in providing radio services, facilities, and personnel during emergency situations.

(3) The aeronautical station is necessary to the continued operation and security of the licensee's business or property, or in the interest of public safety and welfare, and for the security or rehabilitation of this country.

(b) Any station which is denied authorization to participate in an AECS Plan for any reason may appeal to the Federal Communications Commission for review.

§ 87.605 Activation and termination of an emergency situation.

(a) In local emergency situations communications elements of the AECS Plan may be activated by competent authority in accordance with Section 87.607(c).

(b) Circumstances may require independent activation or termination of CRAF, WASP, SARDA, and plans for airport operations and aircraft manufacturing, overhaul and maintenance. In the event that one or more of the above plans are implemented, the restrictions of SCATANA, when imposed, shall apply.

§ 87.606 Security control of air traffic and air navigation aids (SCATANA).

A plan for the Security Control of Air Traffic and Air Navigation Aids has been promulgated in furtherance of the National Security Act of 1947, as amended, the Federal Aviation Act of 1958, the Communications Act of 1934, as amended, and Executive Order 11490, as amended. The plan defines the responsibilities of the FCC for the security control of accurate non-Federal air navigation aids. SCATANA applies to radio navigation stations authorized by the Commission in the following manner:

(a) Upon receipt of notification from a Federal Aviation Administration Air Route Traffic Control Center (ARTCC) that an air defense emergency exists, or is imminent, each licensee of a radio navigation (VOR, VORTAC, or TACAN) station shall comply with the direction of the ARTCC with regard to beginning or terminating transmissions by the station.

(b) A NORAD Region Commander may impose any or all restrictions contained in the Detailed Operational Plan for the Security Control of Non-Federal Air Navigation Aids prior to the declaration of Defense Emergency or Air Defense Emergency when his region is under attack.

(c) Termination of the Defense Emergency or Air Defense Emergency declaration shall be issued by the NORAD Region Commander via the Federal Aviation Administration (FAA). This notice provides for the removal or reduction of restrictions on the operation of selected non-Federal air navigation aids in accordance with the provisions of the Detailed Operational Plan for the Security Control of non-Federal Air Navigation Aids. This action shall be taken when an attack phase is considered over. For those accurate non-Federal Air Navigation aids requiring more than 5 minutes control time, approval for resumption of operation must be obtained from the appropriate NORAD Region Commander before they can be returned to operation.

(d) Licensees of aeronautical radio navigation stations of the types specified in paragraph (a) of this section, may be requested by an ARTCC to participate in SCATANA tests. If such licensees elect to participate, testing procedures shall be in accordance with instructions issued by the Commission. However, the services of such radio navigation stations shall not be interrupted as a part of any SCATANA test.

§ 87.607 Emergency operation.

(a) Upon notification by competent authority, the AECS Plan shall be immediately activated and maintained in an operational status for the duration of the emergency situation, subject to the following conditions:

V40239 DEC 11 75 XUM

(1) *Domestic.* Air/ground communications within the United States shall be limited to those involving safety of flight and operational control; air/ground and aeronautical fixed communications on HF band frequencies shall be minimized consistent with safety of flight and operational control and then only when appropriate security measures are employed. Security measures shall include at least the following: (i) transmit safety of flight and operational control traffic only, (ii) identify by means other than clear text when directed by appropriate authority.

(2) *International.* Air/ground communications shall be limited to those involving safety of flight and operational control. Such communications in the HF band shall be discontinued, except that international air carriers arriving or departing from U.S. gateway airports may use HF band frequencies when VHF radio is inoperative, not available, or will not provide the range required. International aeronautical fixed communications may be conducted on HF band frequencies only when appropriate security measures are employed. Security measures will include at least identification by means other than clear text when directed by appropriate authority.

(3) *Weather Transmission.* Normally unscheduled weather reports and forecasts (not exceeding 2 hours ahead) may be transmitted, in clear text, only on VHF or higher frequencies. Scheduled weather information may be transmitted, in clear text, only on frequency bands other than the HF band. However, an isolated emergency situation may occur in the course of a particular AECS Plan operation in which the HF band may be employed for the transmission of clear text weather information.

(b) Upon receipt of the Defense Emergency or Air Defense Emergency declaration, or as directed by the appropriate NORAD Region Commander when his Region is under attack, the licensees of selected non-Federal air navigation aids shall comply with the provisions of the Detailed Operational Plan for the Security Control of non-Federal Air Navigation Aids (SCATANA). Detailed instructions shall be provided by the FCC to those concerned.

(c) The licensee of any aeronautical station, during a period of a local emergency situation involving the safety of life and property, may, at his discretion, utilize such station for emergency communications service for communicating in a manner other than that specified in the instrument of authorization (See § 87.123). Such emergency operations may include operation at other locations on the airport served by the authorized station, or with equipment, other than that specified in the instrument of authorization (as provided for in § 87.35(d)) and by personnel other than those authorized by the Federal Communications Commission to operate such a station provided that: (1) such operations are under the control and supervision of the licensee of the aeronautical station concerned, (2) the emergency use of the station will be discontinued as soon as practicable upon termination of the emergency, (3) in no event shall any station engage in emergency transmission on frequencies other than, or with power in excess of, that specified in the instrument of authorization or as otherwise expressly provided by the Commission, (4) an appropriate entry concerning the details of the emergency be properly recorded in the station log in accordance with § 87.99(a), and (5) these communications shall be coordinated with the FAA at a controlled airport.

(d) The frequency 122.8 MHz may be used, in addition to its normal purposes, for communications with private aircraft engaged in organized civil defense activities in time of enemy attack or immediately thereafter, and on a secondary basis for communications with private aircraft engaged in organized civil defense activities in preparation for anticipated enemy attack. When used for these purposes, aeronautical advisory stations may be moved from place to place or operated at unspecified locations, except at landing areas served by other aeronautical advisory stations or airdrome control stations.

NOTE: "civil defense" is defined, for this purpose, in accordance with section 3(d) of the Federal Civil Defense Act of 1950, Public Law 920, 81st Congress as follows:

The term "civil defense" means all those activities and measures designed or undertaken (1) to minimize the effects upon the civilian population caused or which would be caused by an attack upon the United States, (2) to deal with the immediate emergency conditions which would be created by any such attack, and (3) to effectuate emergency repairs to, or the emergency restoration of, vital utilities and facilities destroyed or damaged by any such attack. Such term shall include, but not limited to: (a) measures to be taken in preparation for anticipated attack including the establishment of appropriate organizations, operational plans and supporting agreements, the recruitment and training of personnel, the conduct of research, the procurement and stockpiling of necessary materials and supplies, the provision of suitable warning systems, the construction or preparation of shelters, shelter areas or control centers, and when appropriate, the nonmilitary evacuation of civil population; (b) measures to be taken during attack including the enforcement of passive defense regulations prescribed by duly established military or civil authorities, the evacuation of personnel to shelter areas, the control of traffic and panic and the control and use of lighting and civil communications; and (c) measures to be taken following attack including activities for fire fighting, rescue, emergency medical, health and sanitation services, monitoring for specific hazards for special weapons, unexploded bomb reconnaissance, essential debris clearance, emergency welfare measures and immediately essential emergency repair or restoration of damaged vital facilities.

(e) When notified by the proper authority the following plans shall be activated:

(1) Security Control of Air Traffic and Air Navigation Aids (SCATANA).

(2) Civil Reserve Air Fleet Plan (CRAF).

(3) War Air Service Program (WASP).

(4) State and Regional Disaster Airlift Planning (SARDA).

(5) Operational Plans, when developed, for Airport Operations, and for Aircraft Manufacturing, Overhaul and Maintenance.

Annex V. Detailed Operational Plan for the Security Control of Non-Federal Air Navigation Aids (Reference: SCATANA).
Additional Annex Attachments. Detailed Operational AECS Plans.

A. PREFACE

1. This Aeronautical Emergency Communications System (AECS) Plan has been prepared pursuant to applicable provisions of Sections 1, 4(o), 301 and 303 of the Communications Act of 1934, as amended, and Executive Order 11490, dated October 28, 1969. This AECS Plan shall be reviewed annually as required by the Aeronautical Communications Services Subcommittee of the National Industry Advisory Committee (NIAC). Recommendations for revision of this AECS Plan shall be submitted to the FCC for consideration.

2. The AECS Plan, and supplements thereto, contains the designation of facilities, mutually compatible operational arrangements, procedures, instructions, and interconnecting facilities designed to satisfy, insofar as possible, all stated emergency communications requirements. It conforms with the Rules and Regulations of the Federal Communications Commission (FCC). The AECS Plan provides for emergency communications to meet the requirements of the Plan for the Security Control of Air Traffic and Air Navigation Aids (SCATANA), Civil Reserve Air Fleet (CRAF)[1], War Air Service Programs (WASP)[2] and, where applicable, State and Regional Disaster Airlift Planning (SARDA).[3] In addition, the following aeronautical industry emergency communications requirements will be satisfied:

a. Intra-Industry Emergency Communications Requirements.

b. Inter-Industry Emergency Communications Requirements.

c. Industry-Government Emergency Communications Requirements.

Existing non-federal communications networks and facilities of the Aeronautical Industry, supplemented as required, shall be used to meet the communications requirements set forth, or inherent, in the above Plans. Government communications shall not be provided except as set forth in these Plans or as provided by the Federal Aviation Administration (FAA) and for DOD for air traffic control.

3. *Detailed Regional Operational AECS Plans.* Detailed Regional Operational AECS Plans, developed to satisfy the requirements of the aeronautical industry on a regional basis, are considered annexes to the AECS Plan and shall be in conformity with the provisions thereof and the FCC Rules and Regulations.

4. *Detailed State Operational AECS Plans.* Detailed State Operational AECS Plans, developed to satisfy the requirements of the aeronautical industry on a statewide basis, are considered annexes to the AECS Plan and shall be in conformity with the provisions thereof and the FCC Rules and Regulations.

5. *Detailed Local Area Operational AECS Plans.* Each state has been subdivided into geographical local areas in coordination with state authorities. Detailed Local Area Operational AECS Plans, developed to satisfy the requirements of the aeronautical industry on a local area basis, are considered annexes to the AECS Plan and shall be in conformity with the provisions thereof and the FCC Rules and Regulations.

6. *Emergency Operating Centers (EOC).* Management, operating and technical personnel from applicable Industry Advisory Committees shall be designated and accredited by the proper authorities. These personnel shall be given emergency duty assignments at the appropriate EOC and shall provide, consistent with national level guidance, continuing assistance, in the management, operational and technical areas of aeronautical communications. Details to accomplish the above shall be set forth in Detailed Regional, State and Local Area Operational AECS Plans.

B. PURPOSE

1. This AECS Plan is to provide essential non-federal communications and navigational aids in an emergency for that portion of the aeronautical industry whose primary responsibility is transportation of people and freight and that portion vital to such operations and to other operations essential to public safety and welfare in time of local, state, regional and national emergency situations. These portions combined, include commercial air carriers, general aviation, airport operations, and aircraft manufacturing overhaul and maintenance. The words "Communications Facilities", as used herein, means "non-federal communications and air navigation facilities."

2. This AECS Plan, and supplements thereto, provides for using facilities and personnel of the aeronautical industry, on a voluntary, organized basis, to provide a functional emergency communications capability to be operated by the aeronautical industry, under appropriate government regulations, in a controlled manner, consistent with national security requirements, and the Rules and Regulations of the Federal Communications Commission.

3. The AECS Plan consists of the facilities and personnel of non-government aeronautical stations and other authorized facilities licensed or regulated by the FCC. Licensees participating in the AECS Plan shall be issued an AECS Authorization (AECSA) by the FCC which shall remain valid concurrently with the term of station license, so long as the licensee continues to comply with the Criteria for Eligibility (Annex III). An AECS Authorization shall permit a licensee, when required under the provisions of the AECS Plan or a Detailed Operational AECS Plan, to operate at locations or in a manner other than specified in the station license unless specifically prohibited by the Commission's rules. Licensees shall resume normal operations under the terms of the station license as soon as practicable upon termination of the emergency situation.

4. The approved Detailed Operational AECS Plans are adaptable for use on a voluntary, organized basis during local emergency situations posing a threat to the safety of life and property, including those conditions constituting a state of public peril or disaster. Such use during local emergency situations is in accordance with Section 1 of the Communications Act of 1934, as amended, which states that one of the purposes of that Act is to promote the safety of life and property through the use of wire and radio communication. Specific operational arrangements for airport operation, and aircraft manufacturing, overhaul and maintenance segments of the aeronautical industry shall be set forth in Detailed Operational AECS Plans. For the purpose of this AECS Plan, the detailed operational requirements for other segments of the aviation industry are met as follows:

a. U.S. International and Domestic Air Carriers: WASP and CRAF Plans.

b. General Aviation: SARDA Plan.

5. This AECS Plan, and supplements hereto, is addressed primarily to that portion of industry's emergency communications requirements to be accomplished on a voluntary, organized basis through the use of specific aeronautical communications facilities, and interconnecting systems, as set forth in Paragraph 3 and 4 above. The plan also outlines the procedure for obtaining other supplementary or supporting emergency communications services. It is recognized that participants may find it necessary to use Manufacturers and Business Radio Services Facilities as presently authorized, and certain additional facilities planned under each services emergency communications plans.

C. GENERAL CONSIDERATIONS

1. During periods of national emergency, operational coordination of certain segments of the aeronautical industry is vital to the survival and recovery of the Nation.

2. Rapid transportation of people and material, while highly desirable during normal times, is mandatory during periods of national emergency. In addition, use of civil aircraft is vital for rescue and other essential operations in local, state, regional and national emergency situations. Communications facilities and electronic navigational aids are basic to the operation of the aeronautical industry. Therefore, it is incumbent on the aeronautical industry to prepare plans and procedures providing the highest order of reliability for normal as well as emergency operations. The ability of these communications facilities to survive and continue to operate after a catastrophe of the most severe nature should be considered as a primary requisite.

3. The aeronautical industry must have a capability to respond to an emergency situation on a national, regional, state or local basis on short notice, including those international operations of the United States aeronautical industry in support of the national effort. Regular operational tests and use of the communications facilities in natural disaster or other emergencies involving safety of life and property shall give adequate assurance that this capability exists and can be maintained. To this end, the following general features must be provided:

a. *Activation and Termination.* (1) During local emergency situations, communications elements of the AECS Plan may be activated or terminated by competent authority in accordance with Section 87.607(c) of the FCC Rules.

(2) Circumstances may require independent activation or termination of the detailed operations plan contained in paragraph B-4 of this AECS Plan. In such circumstances the restrictions of SCATANA, when imposed, shall apply, (Annex IV).

b. *Availability.* Once notified of an emergency situation under a. above the aeronautical industry shall immediately place in operational condition all emergency communications plans, procedures and facilities appropriate to the existing situation, including back-up, relocation, and other emergency communications arrangements, and shall remain in this status until terminated by appropriate authority.

c. *Reliability.* The emergency communications facilities of the aeronautical industry should be so constituted as to be able to provide industry-wide emergency service despite extensive damage. The emergency communications facilities of the aeronautical industry should be designed to be as survivable as is economically practicable.

d. *Requirements.* The aeronautical industry, in cooperation with the FCC, shall effect the specific actions required to accomplish at least the following:

(1) Modify individual communication facilities to provide required additional circuits, either owned or leased.

(2) Make communications interconnections.

(3) Operate communications facilities on additional frequencies as necessary.

(4) Provide adequate reliability for its own facilities under emergency situations.

(5) Provide means for communicating with appropriate agencies of the Federal Government.

(6) Provide required back-up facilities.

(7) Plan for and utilize certain high frequency channels during national emergency situations for special long distance transmission requirements, both domestic and foreign in accordance with Section 87.607 of the FCC Rules and Regulations.

e. *Priorities.* Priorities for use and restoration of common carrier provided communications facilities (see paragraph G) as well as priority for materials, manpower and financial aid should be assigned commensurate with the specific function of each licensee involved. The importance of this priority for use and restoration of communications facilities, manpower, financial aid and priority of material claimancy for procurement and restoration cannot be overemphasized—it is the very basis upon which this emergency plan must operate.

D. ORGANIZATION

1. *National Industry Advisory Committee:* A broad range of emergency contingencies and requirements dictates the necessity for the orderly development, approval, and implementation of operational emergency communications plans, systems, and procedures capable of expeditious emergency activation, and utilizing on a voluntary, organized basis, non-government personnel and Federal Communications Commission licensed and regulated facilities. To achieve these ends, the Federal Communications Commission has determined under the provisions of Public

[1] The CRAF Plan is directed toward identification, organization, and development of a source of civil airlift capability readily available to augment the Department of Defense (DOD) in an airlift emergency.

[2] The WASP Plan provides for assignment of air carrier routes, service points, and aircraft controlled by the Civil Aeronautics Board (CAB).

[3] The SARDA Plan is to assure that adequate organization and means are available in time of emergency to effectively utilize non-air-carrier aircraft in support of survival operations and in the national economy.

V40239 DEC 11 75 XUM

Law 92-463 and Executive Order 11769 that the formation of a National Industry Advisory Committee is in the public interest. The National Industry Advisory Committee (NIAC) has been organized to advise and assist the Federal Communications Commission, and other appropriate authorities by studying and submitting recommendations for the development of emergency communications plans, systems, and procedures as provided in the Communications Act of 1934, as amended. The NIAC is also prepared to provide advice to industrial entities, if requested, in the development of their detailed operational emergency communications plans.

2. *State Emergency Communications Committee:* A State Emergency Communications Committee (SECC) has been organized in each of the fifty (50) States, Guam, Puerto Rico, Virgin Islands and the District of Columbia. One of the several functions of the SECC is to assist industry, if requested, in the preparation of coordinated detailed operational emergency communications plans which are in consonance with the FCC Rules and Regulations and in conformity with plans developed at the National level. If these plans involve interstate requirements, the SECC of the affected States may be requested to coordinate the plans with each other.

3. *Operational (local) Area Emergency Communications Committee:* Operational (local) Area Emergency Communications Committees (OAECC) have been organized in each of the Operational (local) Areas within each State as mutually determined by State authorities and the State Emergency Communications Committee. The OAECC functions as subcommittees of the SECC. One of the functions of the OAECC is to assist industry, if requested, in the preparation of coordinated detailed operational emergency communications plans for the Operational Area.

E. Emergency Communications Requirements

1. Communications requirements of the aeronautical industry in an emergency may include but are not limited to:

a. Air/ground/air (including operational control) and point-to-point communications.

b. Between central maintenance depots and air terminal maintenance facilities.

c. Emergency notification of impending disasters and/or evacuation.

d. Fire fighting and other emergency safety procedures.

e. Between administrative offices, flight test, manufacturing and overhaul facilities.

f. Between flight test engineers or dispatchers and aircraft to provide for necessary testing.

g. Between ticket offices and air terminal offices.

h. Coordination between air carriers and movement and control of aircraft, passengers and freight.

i. Exchange of personnel, maintenance and equipment to facilitate air carrier operations.

j. Coordination and scheduling of resources and facilities necessary to sustain research, test and production operations.

k. Security of personnel, facilities and equipment and for alerting employees. These functions require communications between local management and local authorities.

l. Reporting damage assessment of the communications facilities of the aeronautical industry to the FCC for further transmittal to the Department of Defense and Office of Telecommunications Policy.

m. Requests for emergency authorizations to the FCC.

n. Requests to FCC for radio frequency assignments.

o. Requests to the FCC for financial credits or other financial assistance for communications facilities.

p. Requests to the FCC for conservation, salvage and rehabilitation of communications supplies and equipment.

q. Requests to the FCC for claimancy for communications materials, manpower, equipment, supplies and services.

r. Requests to the FCC for priority certification for the use of, or restoration of, leased private line common carrier services.

s. Requests to Federal Aviation Administration for flight authorizations and flight status information.

t. Requests to and coordination with appropriate government agencies and/or industries for financial credits or assistance; conservation, salvage and rehabilitation of supplies and equipment; claimancy for materials, manpower, equipment, supplies and services; and for reporting damage assessment where such requests and coordination do not pertain solely to communication services.

u. Issuance of regulations and orders controlling the scheduling, routing and distribution of air freight. (Civil Aeronautics Board).

v. Issuance of priority regulations for transportation of air travelers (Civil Aeronautics Board) via WASP.

F. Conditions for Emergency Communications

1. During an emergency situation, aeronautical facilities are subject to the following conditions:

a. *Domestic.* Air/ground communications within the United States shall be limited to those involving safety of flight and operational control; air/ground and aeronautical fixed communications on HF band frequencies shall be minimized consistent with safety of flight and operational control and then only when appropriate security measures are employed. Security measures shall include at least the following: (1) transmit safety of flight and operations control traffic only, (2) identify by means other than clear text when directed by appropriate authority.

b. *International.* Air/ground communications shall be limited to those involving safety of flight and operational control. Such communications in the HF band shall be discontinued, except that international air carriers arriving or departing from U.S. gateway airports may use HF band frequencies when VHF and UHF radio are inoperative, not available, or will not provide the range required. International aeronautical fixed communications may be conducted on HF band frequencies only when appropriate security measures are employed. Security measures shall include at least identification by means other than clear text when directed by appropriate authority.

c. *Weather Transmission.* Unscheduled weather reports and forecasts (not exceeding 2 hours ahead) may be transmitted, in clear text, only on VHF or higher frequencies. Scheduled weather information may be transmitted, in clear text, only on frequency bands other than the HF band. However, an isolated emergency situation may occur in the course of a particular AECS Plan Operation in which the HF band may be employed for the transmission of clear text weather information.

d. *Defense Emergency or Air Defense Emergency.* Upon receipt of either a Defense Emergency or Air Defense Emergency declaration, or as directed by the appropriate NORAD Region Commander when his Region is under attack, the licensees of selected non-Federal air navigation aids shall comply with the provisions of the Detailed Operational Plan for the Security Control of Non-Federal Air Navigation Aids. Detailed instructions shall be provided by the FCC to those concerned.

2. When notified by the proper authority the following plans will be activated:

a. Security Control of Air Traffic and Air Navigation Aids (SCATANA).

b. Civil Reserve Air Fleet Plan (CRAF).

c. War Air Service Program (WASP).

d. State and Regional Disaster Airlift Planning (SARDA).

e. Operational Plans when developed, for airport operations, and for aircraft manufacturing, overhaul and maintenance.

G. Procedure for Validation of Requests for Communications Service

1. Requests for communications services via common carrier facilities shall be handled as follows:

a. Those circuits utilized for the dissemination of emergency information for the aeronautical industry and those circuits earmarked for prearranged voluntary participation with the Federal Government during emergencies shall be identified to the FCC for priority restoration authorization.

b. A high order of priority for use and restoration of all approved interconnecting leased common carrier private line facilities involved herein shall be assigned by the FCC.

c. Requests for communications services, to be valid, shall be certified by the FCC in accordance with Appendix A, Subpart D, Part 64 of the Commission's rules and must be identified in an approved Detailed Operational AECS Plan.

d. Priorities for the various grades of leased service shall be assigned by the FCC and forwarded to the appropriate communications common carrier.

e. Each request for leased service shall be accompanied by a full description of the nature of the information to be transmitted, the preferred method of transmission (voice, teletypewriter, facsimile, digital data, etc.), geographical location, points of service, average number of transmissions per day, and average length of transmission.

f. *Urgent* requests for communications services may be handled completely at *the field level.*

H. Liaison

1. Close liaison shall be maintained at all times between all participants and operational elements in the AECS Plan. All operational elements of the AECS Plan at the state, and local area levels are particularly encouraged to maintain close liaison with the FCC. All official instructions issued with respect to non-government elements concerned with the AECS Plan shall be issued by the FCC.

2. The Federal Communications Commission shall assist in the development of applicable Detailed Operational Aeronautical Emergency Communications Systems (AECS) Plans and procedures.

I. Participation

1. An aeronautical industry licensee desiring to participate in the AECS Plan on a voluntary basis shall be granted an AECS Authorization by the FCC when it meets the Criteria for Eligibility contained in the AECS Plan, subject to the provisions of Part 87, Subpart Q, of the FCC Rules and Regulations.

2. Other non-government entities may be authorized to participate in the AECS Plan through the voluntary use of their privately owned or leased FCC licensed or regulated facilities, consistent with the provisions of the FCC Rules and Regulations and the provisions of this AECS Plan.

J. Annexes

1. Detailed information with regard to national level facilities, systems, and procedures and emergency operational arrangements at the national level are included as Annexes to this AECS Plan. Part 87, Subpart Q, of the FCC Rules and Regulations providing for the AECS Plan is also contained in Annex I.

2. Detailed information for the development of operational emergency communications systems, plans, and procedures at the regional, state, and local area levels shall be contained in Detailed Regional, State, and Local Area Operational AECS Plans which shall be included as Annexes to this AECS Plan.

3. Revised and additional Annexes to this AECS Plan shall be issued as required, after formal approval by the FCC.

K. Approval and Concurrences

Pursuant to Executive Order 11490 and Sections 1, 4(i) and 303(r) of the Communications Act of 1934, as amended:

Approved by the Federal Communications Commission:

Concurred in by the Department of Defense:

Concurred in by the Department of Transportation:

Concurred in by the Office of Preparedness, General Services Administration:

Concurred in by the Office of Telecommunications Policy:

ANNEX I

Reserved for FCC Rules and Regulations Part 87, Subpart Q.

ANNEX II

Emergency Communications for the Aeronautical Industry During Periods of National Emergency

Statement of Requirements

This Statement of Requirements for the aeronautical industry has been prepared under the direction of the Federal Communications Commission (FCC) in cooperation with the National Industry Advisory Committee (NIAC) pursuant to Executive Order 11490, as amended, signed by the President of the United States on October 28, 1969.

A. *Introduction.* For the purpose of this annex, aeronautical industry activities are defined as the activities directly involved in the air movement of passengers and freight, general aviation, aircraft manufacturing, overhaul and maintenance, passenger and freight loading and unloading, ticketing, weather gathering activities, navigation activities, dispatching, aircraft fueling, food handling and air terminal operation and maintenance including other operations essential to the public safety and welfare.

B. *Basic Facts and Assumptions.* 1. During periods of national emergency, operational coordination and coordination of all segments of the aeronautical industry (hereinafter referred to as industry) and government is vital to the survival and recovery of the Nation.

2. Communications systems, plans, and procedures providing the highest order of reliability are required by industry to provide for normal as well as emergency operation. The ability of these systems to survive catastrophes of the most severe nature should be considered as a primary requisite.

3. The aeronautical industry has demonstrated its willingness to cooperate with the Government in further developing and improving its emergency plans. Industry shall provide personnel to cooperate in the formulation of plans for emergency communications systems.

4. Existing communications systems and facilities, including those of major aircraft manufacturers, used by industry for normal operations, shall be used as the basis for essential communications required by the industry during periods of national emergency.

5. Modification of, or addition to, some privately-owned or leased communications facilities may be necessary in order to provide essential interconnections with industry-Government communications at certain designated points.

6. A substantial amount of communications facilities are involved in normal day-to-day operations of industry. These facilities, modified as in "5" above, together with bypass and back-up arrangements through intra- and inter-system communications protected by appropriate leased circuit priorities should further insure a high probability of survival of such communications systems.

7. To further insure development of acceptable emergency communications policies, plans, systems, facilities and procedures, such emergency plans shall encompass a broad range of emergency contingencies posing a threat to the safety of life and property, including those international operations of the United States aeronautical industry in support of the national effort.

8. All emergency communications plans, systems, facilities, and procedures developed for industry shall be for the purpose of fulfilling the requirements of industry. These shall include certain emergency communications channels and arrangements for administrative liaison between industry and appropriate federal officials and various other state and local government authorities associated with the emergency operation of industry. Emergency communications between any departments or offices of any federal, regional, state or local government entity shall not be considered a valid requirement of industry.

C. *Planning Considerations.* The aeronautical industry under the auspices of NIAC shall, on a continuing basis, advise and submit recommendations and assist the FCC in the orderly development of operational emergency communications policies, plans, systems and procedures capable of expeditious emergency activation using, on a voluntary, organized basis, non-government personnel and FCC licensed and regulated facilities. The following planning considerations are appropriate:

1. *Activation and Termination* a. In local emergency situations communications elements of the AECS Plan may be activated or terminated by competent authority in accordance with Section 87.507(c) of the FCC Rules.

b. Circumstances may require independent activation of certain detailed operation plans indicated below.

(1) U.S. International and Domestic Air Carriers. (a) Civil Reserve Air Fleet Plan (CRAF).

(b) War Air Service Plan (WASP).

(2) General Aviation: State and Regional Disaster Airlift Planning (SARDA).

(3) Airport operations and aircraft manufacturing, overhaul and maintenance: Detailed operational plans when developed.

In the event that all or some of the above plans are implemented, the restrictions of SCATANA, when imposed, shall apply.

2. *Availability.* Once notified of an emergency situation the aeronautical industry shall immediately place in operational condition all emergency communications plans, procedures and facilities appropriate to the existing situation.

3. *Survivability.* The emergency communications system of the industry should be so constituted as to be able to provide communications for the necessary aircraft flights to transport the required personnel and material needed for the duration of the emergency, as well as for necessary support of all flight activities essential to the public safety and welfare. The emergency communications system of the industry should be designed to be as survivable as is economically practicable and should be protected by leased circuit priorities, where applicable.

4. *Determination of Design.* The management and technical personnel of industry, in cooperation with the FCC are best qualified to determine the location, type, capacity and other technical parameters of the required emergency communications system. Industry should develop operational procedures to implement and monitor the effectiveness of its emergency communications system.

5. *Safety and Special Radio Services.* Authorization, operation, and use of Safety and Special Radio Services facilities and personnel in the national interest in an emergency.

6. *Radio frequency assignment.* Assignment of radio frequencies to, and their use by, Commission licensees in an emergency.

7. *Electromagnetic radiation.* Closing of any radio station or any device capable of emitting electromagnetic radiation or suspension or amending any rules or regulations applicable thereto, in an emergency, except for those belonging to, or operated by, any department or agency of the United States Government.

8. *Investigation and enforcement.* Investigation of violations of pertinent law and regulations in an emergency, and development of procedures designated to initiate, recommend, or otherwise bring about appropriate enforcement actions required in the interest of national security.

9. *Priorities and allocations.* Systems for the emergency application of priorities and allocations to the production, distribution, and use of resources for which FCC has been assigned responsibility.

10. *Requirements.* Assembly, development as appropriate, and evaluation of requirements for assigned resources, taking into account estimated needs of military, atomic energy, civilian, and foreign purposes. Such evaluation shall take into consideration geographical distribution of requirements under emergency conditions.

11. *Evaluation.* Assessment of assigned resources to estimate availability from all sources during an emergency situation, analysis of resource availabilities in relation to estimated requirements, and development of appropriate recommendations and programs, including those, necessary for the maintenance of an adequate mobilization base. Provision for data and assistance before and after attack for national resource analysis purpose.

12. *Claimancy.* Prepare plans to claim from the appropriate agency supporting materials, manpower, equipment, supplies, and services needed to carry out assigned responsibilities and other essential functions to the FCC, and cooperate with other agencies in developing programs to insure availability of such resources in an emergency.

13. *Warfare effects monitoring and reporting.* A capability, both at national and field levels, to estimate the effects of attack on assigned resources and to collaborate with and provide data to the FCC, as appropriate, in verifying and updating estimates of resource status through exchange of data and mutual assistance, and providing for the detection, identification, monitoring and reporting of such warfare effects at selected facilities.

14. *Salvage and rehabilitation.* Plans for salvage, decontamination, and rehabilitation of facilities involving resources under FCC jurisdiction.

V40239 DEC 11 75 XUM

15. *Research.* Research in areas directly concerned with carrying out emergency preparedness responsibilities, designating representatives for necessary ad hoc or task force groups, and providing advice and assistance to other agencies through FCC for research in emergency communications.

16. *Stockpiles.* Assistance in formulating and carrying out plans for stockpiles of strategic and critical communications materials, and survival items.

17. *Direct Economic Controls.* Cooperation with federal financial agencies in the development of emergency preparedness measures involving emergency financial and credit measures, as well as price, rent, wage and salary stabilization, and consumer rationing programs.

18. *Financial aid.* Plans and procedures in cooperation with federal financial agencies for financial and credit assistance to those segments of the private sector for which FCC is responsible in the event such assistance is needed under emergency situations.

ANNEX III

CRITERIA FOR ELIGIBILITY FOR AN AERONAUTICAL EMERGENCY COMMUNICATIONS SYSTEM AUTHORIZATION

A radio station licensee in the aeronautical industry upon letter application to the FCC may be granted an AECS Authorization which will remain in effect concurrently with the terms of his regular authorization, so long as the licensee substantially meets the following criteria:

1. The aeronautical industry licensee is a participant in the Aeronautical Emergency Communications System Plan and/or any Detailed Operational Aeronautical Emergency Communications System Plan.

2. The aeronautical industry licensee must be willing to cooperate with other aeronautical industry licensees in providing radio services, facilities, and personnel during emergency situations.

3. The aeronautical station is necessary to the continued operation and security of the licensee's business or property, or in the interest of public safety and welfare, and for the security or rehabilitation of this country.

Any station which is denied an Aeronautical Emergency Communications System Authorization for any reason may appeal to the Federal Communications Commission for review.

ANNEX IV

[Docket 19478; FCC 75-1288]

PART 91—INDUSTRIAL RADIO SERVICES

Policy Governing the Assignment of Frequencies

In the matter of amendment of Part 91 of the Commission's Rules and Regulations to expand the permissible uses of 450–470 MHz off-set frequencies in the Business Radio Service.

1. On May 25, 1973, the Commission issued a First Report and Order (41 FCC 2nd 8) addressing the hospital bio-medical telemetry aspect of this proceeding. The question of other possible uses of the off-set frequencies was left open pending further consideration, which has now been completed. Accordingly, our findings and conclusions are set forth herein.

2. Comments were filed by United Airlines, Inc. (UA), the National Association of Business and Educational Radio, Inc. (NABER), Reach Electronics, Inc., Gary J. Anderson, M.D., the Hewlett Packard Company (HP), the Central Committee on Communications Facilities of the American Petroleum Institute (API), the Land Mobile Communications Section of the Communications and Industrial Electronics Division of the Electronic Industries Association (EIA), the Utilities Telecommunications Council (UTC), Spacelabs, Inc., and the International Telegraph and Telephone Corporation (ITT). Reply comments were filed by Aeronautical Radio, Inc. (ARINC) and the Hewlett Packard Company.

BACKGROUND

3. The 450–470 MHz Business Radio Service off-set frequencies were made available for assignment on March 18, 1968, pursuant to the Second Report and Order in Docket 13847 (11 FCC 2nd 648). The use of these frequencies was limited to those stations located in areas termed "industrial complexes". In the First Report and Order of this proceeding, the off-set frequencies in the bands 460.650–460.875 MHz and 465.650–465.875 MHz were allocated and restricted to use by hospitals, medical and convalescent centers for one-way, non-voice bio-medical telemetry operations. The question of other appropriate uses of the off-set frequencies was left for disposition at a later date.

4. Originally, the purpose of the rule permitting the use of frequencies 12.5 kHz off-set from the regularly assigned 450 MHz frequencies in the Business Radio Service was to accommodate industrial communications requirements which previously had been satisfied through the use of Class B Citizens radio stations. At that time, as a result of the proceedings in Docket 13847, the Class B Citizens Radio Service was being discontinued. A licensee profile of the Class B Citizens Radio Service was conducted and it was found to be composed primarily of various manufacturing and petroleum refining concerns. In view of this and in view of the fact that the off-set frequency provisions were not in accordance with the 25 kHz channel spacing associated with the technical standards then being established, we thought it advisable to restrict the number of potential off-set frequency users to a relatively small number located in somewhat isolated areas in order to obtain practical experience with 12.5 kHz off-set operation. In selecting the term "industrial complex" (where they were made available), we wished to restrict off-set operation to well-defined areas of operation, thereby facilitating evaluation of any resultant interference. Experience has indicated that the interference potential to normally assigned frequency operations by off-set frequency users is not significant, and while a greater likelihood of interference to the off-set frequency users exists, it nevertheless appears that off-set frequency use in properly designed systems has satisfied the communications requirements of many restricted area radio users. Accordingly, while we believe that expanding the permissible uses of the off-set frequencies is appropriate; we also believe it is necessary to keep all such operation on a secondary, non-interference basis to regularly assigned frequency operations.

ELIMINATION OF THE "INDUSTRIAL COMPLEX" RESTRICTION

5. Reach Electronics, United Airlines, EIA, ITT, ARINC and Hewlett-Packard provided comment to the effect that the present "industrial complex" limitation is "unnecessarily restrictive". UTC requested that the definition of the term "industrial complex" be expanded to include all types of utility plant areas. API favored expanded use by "industrial users" but suggested that such use be authorized only in isolated areas, except for point-to-point telemetry operations in urbanized areas. NABER argued that the term, "industrial complex" should encompass "• • • any readily defined area where off-sets can be feasibly and effectively utilized". Others suggested that the off-set frequencies should be made available to all applicants eligible for operation in the Business Radio Service for any type of worthwhile communications activity, provided that the transmitter power and antenna height were restricted to appropriate levels.

6. These comments are in accord with the Commission's own observations in recent years. We agree that eligibility for the use of the off-set frequencies should be extended to include use in areas such as airports, stadiums, racetracks, office buildings, construction sites, shipyards, farms and similar applications. Furthermore, in consideration of the fact that interference arising from the operation of off-set stations has not been a problem because offset operation has and will continue to be on a purely secondary, non-interference basis to primary frequency operations, we have amended the Rules to eliminate the "industrial complex" restriction, thereby expanding the availability of the off-set frequencies in the Business Radio Service.

7. We have also considered whether frequency coordination should be required for applications involving use of the off-set frequencies. Because off-set frequency authorizations are issued on a secondary, non-interference basis to adjacent channel stations and must tolerate such interference from those stations as may be necessary, we see little, if any, advantage to frequency coordination. Even if the frequency coordination process was retained with a view toward assuring non-interference to existing regularly assigned frequency operations, there would be no guarantee possible to the off-set user that his operation would not interfere with the communications of a subsequently licensed, regularly assigned frequency user. Accordingly, we have eliminated the frequency coordination requirement.

EXPANDED USES OF THE OFF-SET FREQUENCIES

8. In reply to our inquiry as to what additional operating requirements could be satisfied through the proper use of the off-set frequencies, UTC, EIA, API and Reach Electronics commented on the yet unsatisfied need for additional channels to accomodate telemetry and control functions in industrial complexes and a variety of other applications. UTC suggested that such operation could be on a secondary, non-interference basis to mobile operations. United Airlines, while not specifically addressing such fixed operations, nevertheless suggests that the uses of the off-set frequencies should be virtually unlimited, thereby permitting the accomplishment of any reasonable Business Radio Service purpose. EIA expressed the belief that the 3 watt (input) power limitation should be considered as an adequate control for reasonable application, including non-voice usage, of the off-set channels.

9. We believe these suggestions have merit. In recognition of the need for additional frequencies for fixed operation, we have recently issued a Further Notice of Proposed Rule Making in Docket 20149, wherein it is proposed to allocate six band edge and "splinter" frequencies to certain radio services for non-voice applications requiring up to 50 watts output power at fixed stations, or one watt output power from mobile units. Nevertheless, we recognize that in some areas even these additional frequencies may fall short of the demand. In such cases, fixed operation on the off-set frequenecies under the existing antenna height and power limitations may satisfy the system requirements of many non-voice applications, thereby alleviating the demand for the limited number of higher powered frequencies.

10. In reviewing the proposals for fixed and other non-voice uses of the off-set frequencies, we have given considerable thought to the recommendation that all such use be on a secondary basis to voice use. However, in view of the low power permitted, and since both voice and non-voice systems on the off-set frequencies are on a secondary basis, we have concluded that further secondary designation of such systems is not appropriate.

11. Also considered in the matter of fixed station operation on the off-set frequencies was the interference potential to adjacent frequency "primary" assignments. In order to minimize the likelihood of any such interference, we are requiring that all fixed stations, in accordance with standard engineering practice, utilize directional antennas with front to back ratios not less than 15 dB, and are restricting fixed operations to those off-set frequencies adjacent to the mobile only frequencies in the 450–470 MHz band. While this action halves the number of off-set frequencies available for fixed operation, we feel that the 132 off-set frequencies so provided are more than sufficient for such applications.

ANTENNA HEIGHT AND OUTPUT POWER RESTRICTIONS

12. In the Notice of Inquiry in this matter, we also requested information as to what limitations, other than output power, should be placed on the use of the off-set frequencies. All of the comments received supported our indicated intention of retaining the existing input power limit of 3 watts. We feel, however, that it would be appropriate to update the rules to be more in keeping with present communications technology and transmitter measurement procedure. Accordingly, we have amended the transmitter power limitation to read "2 watts output power".

13. The comments generally supported the "20 feet above ground" antenna height restriction applicable to off-set systems. However, two exceptions were requested. The Electronic Industries Association has requested an exception in the case where a restricted radiation system, such as radiating transmission line, is utilized, since little or no external radiation would result. We have examined the radiation specifications of such transmission line and are inclined to agree, providing it is terminated in a non-radiating load and routed well into the interior of the building. Accordingly, we have made a provision for such use in the rules. We believe that this exception will provide for the communications needs of building security guards and other similar restricted area operations which would otherwise be subject to extensive interference from higher powered co-channel systems operating on the normal Business Radio Service frequencies.

14. The American Petroleum Institute has requested that an exception be made in the case of transmitters located distances of 50 miles or more from major urbanized areas. In these cases API suggests that the antenna height restriction be amended to permit mounting up to 20 feet above the antenna supporting structure, excluding structures designed for the primary purpose of supporting communications antennas. This, says API, would ". . . provide greater flexibility for the installation of transmitter antennas on existing structures such as offshore drilling and production platforms where the existing '20 feet above ground' limitation is simply not practical". In further support of their request, API makes the observation that there are generally few structures with substantial heights located outside of urbanized areas. Thus, the proposed relaxation of the antenna rule would not be likely to cause any serious interference problems in rural areas.

15. While we are inclined to agree with these arguments to a point, we feel that their overall thrust goes against our philosophy regarding the use of the off-set frequencies. Any increase in antenna height will result in an enlargement of the area of operation to a size we believe would be more appropriately achieved using the regularly assigned frequencies. In addition, off-set operation at increased antenna heights would, because of variations in terrain, result in greater unpredictability as to the extent of signal propagation. Even though the operation may occur in what is presently a rural area, future growth and development may result in the presence of numerous other eligibles having a legitimate need for the use of these frequencies. Accordingly, we believe that it would be inadvisable to make such a general provision for the use of increased antenna height at the present time.

16. Nevertheless, we believe that in the case of operations on offshore drilling and production platforms mentioned by API, and indeed any sea based operation, waiver of the antenna height restriction would be appropriate. Such operations are carried out in a demographically static environment and are largely fixed in nature. Additionally, it is clearly impossible for such stations to be installed in accordance with the 20 feet "above ground" limitation. (It has, however, been our policy in the case of sea based stations to interpret this requirement as meaning 20 feet above mean sea level). We have concluded that twenty feet is simply insufficient to guarantee that antennas associated with such installations will not be damaged by prolonged exposure to sea spray or actual inundation during turbulent weather. Therefore, in consideration of these factors, we will permit mobile stations serving as sea-based fixed and base stations to use antenna heights not to exceed 20 feet above the man-made supporting structures, excluding antenna structures.

CONSIDERATIONS REGARDING THE 460.650–460.875 AND 465.650–465.875 MHz BANDS

17. In the First Report and Order of this proceeding, we restricted off-set operation in the 460.650–460.875 and 465.650–465.875 MHz bands to biomedical telemetry within hospitals. Because the off-set frequencies in these bands are adjacent to low power frequencies reserved for land mobile operations in air terminals, the fears regarding adjacent channel interference to these operations have proven, as we expected, to be groundless. With respect to the co-channel interference question, however, we are inclined to agree with the opinion of NABER, which is representative of many others, that:

> On more than rare instances, these "industrial compleres" are located within critically close proximity to many hospitals. The higher powered Industrial user (3 watts vs. 100 milliwatts) could well penetrate into the hospital, thereby interfering with the latter's transmission.

This argument assumes even greater significance when considered in the light of

V40I239 DEC 11 75 XUM

the widely expanded uses of the off-set frequencies to be permitted as a result of this proceeding. In consideration of the great number (132 pairs) of off-set frequencies being made available for general purpose use, it appears that the inclusion of those pairs presently allocated for in-hospital bio-medical telemetry applications is unnecessary. Accordingly, the frequency bands 460.650–460.875 and 465.650–465.875 will continue to be reserved exclusively for bio-medical telemetry use.

18. In concurrence with the foregoing, the Commission has determined that the public interest, convenience and necessity will be served by the amendment of its Rules to expand the availability and permissible uses of the off-set frequencies in the 450–470 MHz Business Band.

19. Accordingly, pursuant to authority contained in Sections 4(i) and 303 of the Communications Act, as amended, *it is ordered*, That effective January 11, 1976, Part 91 of the Commission's Rules and Regulations is amended as shown below. *It is further ordered*, That this proceeding is terminated.

(Secs. 4, 303, 48 Stat., as amended 1066, 1002; 47 U.S.C. 154, 303)

Adopted: November 25, 1975.

Released: December 2, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

A. Part 91 of the Commission's Rules is amended as follows: 1. Section 91.8(a) (1) is amended to include a new subparagraph (x) which reads as follows:

§ 91.8 Policy governing the assignment of frequencies.

* * * * *

(a) * * *
(1) * * *

(x) Any application in the Business Radio Service for frequencies available pursuant to § 91.554(c).

2. Section 91.554(c) is amended, and two subparagraphs are added to read as follows:

§ 91.554 Frequencies available.

* * * * *

(c) Except for frequencies separated by 12.5 kHz from regularly assigned frequencies in the bands 460.650–460.875 and 465.650–465.875 MHz, mobile stations of two watts or less output power, when serving the function of a base, mobile relay or mobile station, may be assigned any frequency separated by 12.5 kHz from a regularly assigned frequency in the 450–470 MHz band listed in paragraph (a) of this section, and when used as a fixed station may be assigned any frequency separated by 12.5 kHz from a regularly assigned frequency in the band 465.875–469.975 MHz. All operation is on a secondary, non-interference basis to regularly assigned adjacent frequency operations and is entitled to no protection from such stations. Authorization for multiple frequency operation will be granted notwithstanding the provisions of § 91.8(c). Mobile stations, when used as fixed stations, shall be exempt from the limitations of § 91.103(b). Antennas of mobile stations used as fixed stations communicating with one or more associated stations located within 45 degrees of azimuth shall be directional and have a front to back ratio of at least 15 dB. Except as provided below, the height of the antenna used at any mobile station serving as a base, fixed or mobile relay station may not exceed 20 feet above ground.

(1) No limit shall be placed on the length or height above ground of any commercially manufactured radiating transmission line: *Provided that*, The transmission line is terminated in a non-radiating load and is routed at least 20 feet interior to the edge of any structure or portion thereof above ground level.

(2) Sea-based stations may utilize antennas mounted not more than 20 feet above the man made supporting structure, excluding antenna structures.

* * * * *

[FR Doc.75-33343 Filed 12-10-75;8:45 am]

[Docket No. 19312; FCC 75-1285]

PART 91—INDUSTRIAL RADIO SERVICES

Industrial Communications Emergency Plan

1. This proceeding concerns the adoption of the Industrial Communications Emergency Plan (ICEP) for meeting those essential communications requirements of certain industrial entities during National, State and Operational (local) emergency situations. The ICEP was initiated by adoption of a Notice of Proposed Rule Making September 8, 1971 which was recommended by the National Industry Advisory Committee (NIAC).

2. In this proceeding, the Commission adopts the revised rules set forth in Appendix I providing for the Industrial Communications Emergency Plan (ICEP), as well as the ICEP itself as provided below.

3. The purpose of this ICEP is to provide the policy, authority and guidelines for the emergency communications operations of the industrial entities eligible for a license under Part 91 of the Commission's rules, and to serve as a planning guide for the development and implementation of detailed Industrial Communications Emergency Operational Plans which will conform to, and become supplements of, this Industrial Communications Emergency Plan.

4. In addition to publication in the FEDERAL REGISTER, copies of the Notice of Proposed Rule Making were sent to twenty-six Government agencies, including the Office of Emergency Preparedness (now the Federal Preparedness Agency) and the Office of Telecommunications Policy, inviting them to file comments in the proceeding.

5. Seven comments were received in response to the proposal. Five were from the following trade organizations whose members include industrial entities licensed by the Commission in the Industrial Radio Services: The Special Industrial Radio Service Association; The Utilities Telecommunications Council (UTC); National Ski Patrol System, Inc.; and the National Association of Manufacturers (NAM). Southern Pacific Pipe Line/Black Mesa Pipe Lines, Inc., also filed comments regarding this proceeding. Two responses were from Federal Government Departments; one was from the Secretary of Defense, the other from the Department of the Interior.

6. Reply comments were filed by the Utilities Telecommunications Council, the Central Committee on Communications Facilities of the American Petroleum Institute, and the Special Industrial Radio Service Association, Inc.

7. Supporters of the proposal commented that, except for minor changes, the proposed revision to the Rules and Regulations and the ICEP would provide benefit to the public as well as to the State and local governments, by arranging for communications services to mutually assist industrial entities in meeting various degrees of emergency. Some suggested minor changes in the rules and in the ICEP; the NAM recommended expansion and recodification of the rules for clarification and ease of understanding.

8. The Department of Interior offered no objection to the ICEP as proposed, but requested the opportunity to review and comment on any future revisions or additional Annexes to the ICEP where they may be involved in view of the Department's responsibilities in the area of emergency preparedness as delineated in Executive Order 11490.

9. The Secretary of Defense, through the Office of the Judge Advocate General, Department of the Army, was in opposition to the proposed Industrial Communications Emergency Plan (ICEP) for 2 major reasons: first, because of an expressed deep concern that competing unintegrated industrial communications systems would impede more essential Federal Government communications needs in time of National emergency and, secondly, that Section 91.161 of the rules already provided for operation of stations during a National emergency or emergency condition constituting a threat to National security or to the safety of life and property.

10. After review of pertinent comments and reply comments in the matter, a new draft of the ICEP was prepared. Several recommendations of the responding industrial entities were incorporated into the ICEP.

11. Further, one other significant change was incorporated into the ICEP outside the purview of the Government and industrial comments. At the time of the Notice of Proposed Rule Making, the Emergency Broadcast System (EBS) was an element in the nation's National Defense Warning System. Accordingly, one of the methods of activating the ICEP was based on activation of the EBS. In April, 1972, based upon a recommendation of the Office of Telecommunications Policy, the Commission deleted the Home Warning function from the EBS. The present ICEP has been amended in accordance with OTP's recommendation. Specifically, EBS activation procedures were deleted and new methods of activation were incorporated into the ICEP.

12. On December 5, 1974, another meeting of the NIAC was held to discuss and recommend approval of the required revisions to the ICEP. Each of the changes was approved by the NIAC.

13. By letter of February 18, 1975, comments were solicited from interested Government agencies including the Department of Defense (DOD) via the office of Telecommunications Policy (OTP). After receiving comments from the OTP, all of the pertinent recommendations, without exception, have been incorporated into the ICEP. Thus, the objections of DOD have been resolved and the ICEP has been approved by interested members of both industry and government.

14. In view of the foregoing, *It is ordered*, Pursuant to the authority contained in sections 4(i) and 303(r) of the Communications Act of 1934, as amended, that effective January 15, 1976, Part 91 of the Commission's Rules and Regulations is Amended as set forth below and the Industrial Communications Emergency Plan (ICEP) as set forth below is adopted by the Commission.

15. *It is further ordered*, That this proceeding is terminated.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 505)

Adopted: November 25, 1975.

Released: December 3, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

Part 91 of Chapter I of Title 47 of the Code of Federal Regulations is amended as follows:

§ 91.161 [Deleted]

A. Section 91.161 is deleted.

B. New Subpart Q is deleted to Part 91 as follows:

Subpart Q—Emergency Communications

§ 91.801 Scope and objectives.

(a) This subpart contains the rules and regulations providing for emergency operations for all Industrial Radio Service Licensees of the Federal Communications Commission, and an Industrial Communications Emergency Plan (ICEP) prepared pursuant to and by the authority of Sections 1, 4(i), 301, 303, 307, 308, 309, 312, 316, 318, 319, and 606 of the Communications Act of 1934, as amended, and Executive Order 11490, as amended.

(b) The Objective of this subpart is to provide for the development of detailed communications plans containing the designation of facilities, mutually compatible operational arrangements, procedures, and interconnecting facilities, for the continued operation of industrial radio stations on a voluntary, organized basis during times of war, grave national crisis, or other National, State or Operational (Local) emergency situations.

DEFINITIONS

§ 91.802 Industrial Communications Emergency Plan (ICEP).

The Industrial Communications Emergency Plan (ICEP) is a plan containing procedures for the development of detailed communications plans of Industrial Radio Service licensees based on essential communications requirements of industry, including communications with interested Government Agencies during emergencies on a National, State, or Operational (Local) Area level.

§ 91.803 Emergency situation.

An emergency situation is a situation posing a threat to the safety of life and/or property on a National, State, or Operational (Local) level.

EMERGENCY OPERATIONAL

§ 91.804 Activation and termination.

In an emergency situation communications elements of the ICEP may be activated and terminated by competent authorities as defined in the Detailed Operational ICEPs.

§ 91.805 National, state and local emergency operation.

Detailed data, information and instructions for emergency operation of mutually compatible facilities, systems and arrangements will be set forth in the Detailed Operational ICEPs which are considered a supplement to the ICEP.

§ 91.806 Participation of class A citizens radio service licensees.

Industrial entities may utilize their Citizens Radio Service Class A facilities, licensed to them under § 95.41(a) of the Commission's rules, in the operation of their own Detailed Operational Industrial Communications Emergency Plans as developed in accordance with the procedures established in this subpart.

AUTHORIZATION

§ 91.807 Emergency Communications Authorization (ECA).

(a) A radio station licensee in any industry covered by the Industrial Communications Emergency Plan (ICEP) may be granted an Emergency Communications Authorization (ECA) by the Federal Communications Commission. Each ECA shall remain in effect concurrently with the terms of the approved Detailed Operational Industrial Communications Emergency Plans provided:

(1) The licensee functioning within the terms of the ECA has demonstrated his willingness to cooperate with others by agreeing to provide service or interconnection as part of a communication emergency plan.

(2) The licensee is included in an FCC approved intra-company plan to utilize its radio facilities as emergency backup for other communications services used by the licensee.

(b) An ECA will be issued to each industrial entity for each communications system plan approved by the Commission.

(c) Any industrial radio service participating in the ICEP may withdraw from participation by giving thirty (30) days' written notice and by submitting his Emergency Communications Authorization (ECA) to the Federal Communications Commission for cancellation.

§ 91.808 Tests of approved interconnecting systems and facilities.

After detailed emergency communication systems plans are completed, or segments of the system are completed, system operational tests may be necessary. When deemed necessary, these tests shall be conducted as specified in the approved operational plans. Results of these tests shall be furnished to the FCC Engineer in Charge (EIC), the Chief, Emergency Communications Division of the FCC, and to others concerned. These tests would be used as training exercises for personnel at all levels.

APPENDIX

INDUSTRIAL COMMUNICATIONS EMERGENCY PLAN (ICEP)

INDUSTRIAL COMMUNICATIONS EMERGENCY PLAN

A. PREFACE

1. This Industrial Communications Emergency Plan (ICEP) has been prepared pursuant to applicable provisions of the Communications Act of 1934, as amended, and as provided for in current Executive Orders, and the Federal Communications Commission's Rules and Regulations. The Plan is based on the requirements of the industrial entities. The National Industrial Advisory Committee (NIAC), Industrial Communications Subcommittee, has been appointed by the FCC to advise and assist in the initial preparation and periodic review of the Plan.

2. This Plan is prepared to provide the policy, authority, and guidelines, for the emergency communications operations of the industrial entities and to serve as a planning guide for the development and implementation of Detailed Operational Industrial Communications Emergency Plans which will conform to and become supplements of, this Plan. Necessary addenda and other supporting information and data relative to this Plan may be found in annexes which are a part of this Plan and attached hereto.

3. The industrial services covered by this Plan are: Power, Petroleum, Forest Products,

V40239 DEC 11 75 XUM

Motion Picture, Relay Press, Special Industrial, Business, Industrial Radiolocation, Manufacturing, and Telephone Maintenance as specified in Part 91 of the Federal Communications Commission's Rules and Regulations. Working groups comprised of one or more companies, or of a single industry, or of a group of related industries may prepare plans on their own initiative, or as designated by NIAC, subject to ICEP conditions.

4. Detailed Operational Industrial Communications Emergency Plans which shall contain the designation of facilities, detailed mutually compatible operational arrangements, procedures, instructions and interconnecting facilities to satisfy all of the requirements relative to each industrial entity or group are considered supplements to the Industrial Communications Emergency Plan and are in conformity with the provisions thereof, and the Rules and Regulations of the Federal Communications Commission. When developed, these described plans will be submitted to the FCC for approval.

B. Purpose

1. This Industrial Communications Emergency Plan has been devised to provide for the designation of facilities, mutually compatible operational arrangements, procedures, and interconnecting facilities for continued operation of industrial radio stations during time of war, grave national crisis or other National, State or Operational (Local) Area emergency situation posing a threat to the safety of life and/or property.

2. This Plan provides for utilizing facilities and personnel of the industrial entities on a voluntary, organized basis to provide a functional emergency communications system to be operated by a designated industry group under appropriate government regulations and in a controlled manner consistent with industry operational requirements.

3. All industrial communications systems not committed to the formation and operation of emergency communication systems under this Plan shall continue operations consistent with the requirements of the individual companies, in accord with provisions of the Communications Act of 1934, as amended, and pertinent Federal Communications Commission Rules and Regulations.

4. The approved and authorized facilities incorporated into the Detailed Operational Industrial Communications Emergency Plans, under this Plan, may be used on a voluntary, organized basis by industries during war, grave national crisis or day-to-day situations posing a threat to the safety of life and/or property. Such use during day-to-day emergency situations is in accordance with Section 1 and other pertinent sections of the Communications Act of 1934, as amended.

C. Role of Industry and Government

1. In order that adequate and workable industrial emergency communications plans and procedures may be developed and operating facilities and systems be established and maintained, full and free government and industry cooperation shall be accomplished.

2. The industrial entities are best qualified to determine the detailed technical arrangements and procedures necessary for the establishment of operational emergency communications systems under this Plan. These arrangements and procedures shall encompass studies to determine what modifications, additions, interconnections, and changes shall be required to accomplish emergency communications systems within the appropriate industry or industries, and to those governmental offices or agencies with which the industry or industries coordinate their activities.

3. Interested Federal Government Agencies, including the Federal Communications Commission, and industry shall cooperate in the compilation of listings of required industry-government interconnections of emergency communications systems supporting mutual national defense and other emergency preparedness responsibilities. Detailed Plans developed by industry shall define those industry-government interconnections of emergency communications essential for the effective operation of the plans.

4. Presidential Memorandum of August 21, 1963, "Establishment of the National Communications System", provides for meeting Federal Government communications requirements. Accordingly, these requirements shall not be considered in the Industrial Communications Emergency Plan.

5. The Federal Communications Commission shall effect, as appropriate, changes in Commission Rules and Regulations as well as changes in communications common carrier tariffs necessary to accommodate the objectives of this Plan. The FCC shall also undertake to obtain similar changes in the rules, regulations, and procedures, of other government agencies or entities, where necessary, to assure the success of the Plan.

D. Emergency Communication Requirements

1. *Intra-Industry Communications*—Through cooperative action to the mutual benefit of their constituent companies, the participants in this Industrial Communications Emergency Plan shall be fully responsible for providing the operational emergency communications between their various components, both inter-company and intra-company, subject to the authority of and with the assistance of the Federal Communications Commission. The principal types of services are:

(a) Between companies'[1] offices, wherever located, and governmental agencies that are to coordinate operations, facilities and supplies.

(b) Between company emergency headquarters and industry operating control points.

(c) Between the various operating groups within each company.

(d) Between separate companies at various operating levels.

2. *Industry-Government Communications*—Industry recognizes the requirement for providing for the emergency communications between members of industry and certain government agencies. The agencies and principal types of requirements are:

(a) Between local management and local government agencies for the security of personnel and plants, and for notifying radio services employees.

(b) Between companies and their appropriate Federal Claimant Agency (OEP Cir. 8500.4A), and the Federal Communications Commission to obtain necessary communication authority and priority to provide essential emergency communications.

(c) Between a company or an industrial group and an appropriate Federal Government office. These communications, to be established consistent with the emergency preparedness plans of the Federal agency which has over-all responsibility for administration of the industry group involved under the terms of Executive Order 11490, encompass the full range of information: reports, requests for assistance, advice, approvals and orders, priority grants, manpower authorizations and other matters essential to the operation of the industry.

E. General

1. *Industry Requirements*—The industry must have the capability to respond to an emergency situation on a National, State, or Operational (Local) basis on short notice. Regular operational systems tests and use of the system in natural disasters, or other emergencies involving safety of life and property, will give adequate assurance that this capability exists and can be maintained. To this end, the following specific features must be provided.

(a) Notification—In event of an emergency situation, as defined in Annex I, industries shall be notified by competent authority regarding which communications systems should be activated in accordance with the seriousness of the given situation.

(b) Availability—Once notified of an emergency situation, as defined in Annex I of the Plan, the industry shall immediately place in operating condition all emergency communication arrangements, and shall maintain this status until termination of the emergency situation.

(c) In the development of the Detailed Operational Industrial Communications Emergency Plans, each industry group shall proceed, as it deems necessary, to: (1) Form cooperative communication arrangements and interconnections between critical portions of the industrial communications systems.

(2) Utilize radio frequencies in a manner that may differ from that provided by the FCC Rules and Regulations.

(3) Utilize certain HF radio channels during national emergency conditions for special short and long distance transmission requirements, both domestic (including Alaska and possibly Hawaii) and foreign.

(4) Interconnect with private systems of another service to provide mutual emergency circuits, where such circuits are an integral part of the emergency network.

2. *Federal Assistance to Industry*—The Federal Communications Commission shall render or obtain from other government entities direct assistance to individual companies participating in this plan. Such assistance shall be in accordance with established government policy and shall be of appropriate nature and magnitude to facilitate the objectives of this Plan. When required for efficient operation under Detailed Operational Industrial Communications Emergency Plans and when requested by industry from the appropriate Federal Agency, such assistance may include but not be limited to:

(a) Claimancy—Priorities of adequate level to assure the procurement of all equipment, materials, parts, services and supplies necessary to establish, operate and maintain the communications emergency system described herein.

(b) Priorities—A high order of priority for installation, use, restoration, maintenance and repair of all associated and interconnecting leased common carrier communications facilities and service involved herein. To be assigned a restoration priority in accordance with Appendix A, Subpart D, Part 64 of the FCC Rules and Regulations, interconnecting intercity private lines must be identified in an approved Detailed Operational Industrial Communications Emergency Plan.

(c) Manpower—The allocation and retention of sufficient qualified manpower to permit continued operation and maintenance of all emergency communications facilities and systems.

[1] Industrial entities, working groups, associations, etc.

(d) Radio Frequency Assignment—Assignment of radio frequencies to meet existing emergencies.

(e) Facilities Protection—Disaster preparedness to include records protection, emergency repair and dispersal of facilities.

F. Organization

1. *National Industry Advisory Committee:* A broad range of emergency contingencies and requirements dictates the necessity for the orderly development, approval, and implementation of operational emergency communications plans, systems, and procedures capable of expeditious emergency activation, and utilizing on a voluntary, organized basis, non-government personnel and Federal Communications Commission licensed and regulated facilities. To achieve these ends, the Federal Communications Commission has determined under the provisions of Public Law 92-463 and Executive Order 11769 that the formation of a National Industry Advisory Committee is in the public interest. The National Industry Advisory Committee (NIAC) has been organized to advise and assist the Federal Communications Commission, and other appropriate authorities by studying and submitting recommendations for the development of emergency communications plans, systems, and procedures as provided in the Communications Act of 1934, as amended. The NIAC is also prepared to provide advice to industrial entities, if requested, in the development of their detailed operational emergency communications plans.

2. *State Emergency Communications Committee:* A State Emergency Communications Committee (SECC) has been organized in each of the fifty (50) States, Guam, Puerto Rico, Virgin Islands and the District of Columbia. One of the several functions of the SECC is to assist industry, if requested, in the preparation of coordinated detailed operational emergency communications plans which are in consonance with the FCC Rules and Regulations and in conformity with plans developed at the National level. If these plans involve interstate requirements, the SECC of the affected States may be requested to coordinate the plans with each other.

3. *Operational (local) Area Emergency Communications Committee:* Operational (local) Area Emergency Communications Committees (OAECC) have been organized in each of the Operational (local) Areas within each State as mutually determined by State authorities and the State Emergency Communications Committee. The OAECC functions as subcommittees of the SECC. One of the functions of the OAECC is to assist industry, if requested, in the preparation of coordinated detailed operational emergency communications plans for the Operational Area.

G. Emergency Operation

1. Activation and Termination. In an emergency situation communications elements of the ICEP may be activated and terminated by competent authorities as defined in the Detailed Operational Industrial Communications Emergency Plans.

2. National, State and Local Emergency Operation. Detailed data, information and instructions for emergency operation of mutually compatible facilities, systems, and arrangements shall be set forth in the Detailed Operational Industrial Communications Emergency Plans which are considered a supplement to the ICEP.

3. Use of Class A Citizens Radio Service. Industrial entities may utilize their Citizens Radio Service Class A facilities, licensed to them under Section 95.41(a) of the Commission's rules, in the operation of their own Detailed Operational Industrial Communications Emergency Plans developed in accordance with the procedures established in Parts 91, Subpart Q and Section 95.121 of those rules.

H. Tests

After detailed emergency communication systems Plans are completed, or segments of the system are completed, system operational tests may be necessary. When deemed necessary, these tests shall be conducted as specified in the approved operational plans. Results of these tests shall be furnished to the FCC Engineer in Charge (EIC), the Chief, Emergency Communications Division of the FCC, and to others concerned. These tests would be used as training exercises for personnel at all levels.

I. FCC Liaison

Close liaison shall be maintained at all times among all participants in the Industrial Communications Emergency Plan. The participants shall cooperate with the National Industry Advisory Committee. All official instructions to the participants concerning this Plan shall be furnished to them through the offices of the FCC.

The FCC shall furnish detailed technical data and instructions to the State and Operational (Local) Emergency Communications Committees and radio services personnel for use in coordinating facilities to provide the requisite emergency communications and interconnections.

J. Emergency Communications Authorizations

The FCC shall grant an Emergency Communications Authorization (ECA) to licensees in the Industries who meet the criteria for eligibility as set forth in Annex I.

Those station licensees not participating in this Plan must not conduct an operation that will conflict or interfere with the functioning of those stations that are participating in this Plan.

K. Annexes

Revised and additional Annexes to the Plan shall be issued, as required, after (1) consultation as necessary with the responsible Federal agencies, (2) concurrence by the appropriate Resource Agency, and (3) formal approval by the FCC.

Materials Transportation Bureau

[14 CFR Part 103]

[Docket No. HM-131; Notice No. 75-10]

TRANSPORTATION OF DANGEROUS ARTICLES AND MAGNETIZED MATERIALS

Proposed Inspection and Monitoring Requirements for Radioactive Materials

The Materials Transportation Bureau is considering amending Part 103 of the Federal Aviation Regulations to require aircraft operators to perform certain inspection and monitoring of radioactive material shipments.

On April 25, 1974, a notice of proposed rule making (Docket No. 13668; Notice No. 74-18; 39 FR 14612) on this same subject was published by the Federal Aviation Administration (FAA). That proposal was finalized, with certain changes, on February 4, 1975, as Amendment No. 103-23, to have an effective date of June 30, 1975.

Numerous petitions were subsequently received by FAA requesting an extension of the June 30, 1975, effective date, citing unclear specifications as to the radiation monitoring instrument needed to perform the required monitoring of radioactive materials packages, stating that the criteria of plus or minus 20 percent accuracy was deficient, in the absence of specifying a range limit. The petitioners further stated that even when more definitive instrument specifications have been developed and published, that the instrument manufacturers and suppliers would require further time to supply the proper equipment to the aircraft operators, who, in turn, would need further time to properly train their cargo handling personnel in the use of such instruments.

The petitioners also stated that, as published, the rule was unclear as to which type of radiation, *i.e.*, gamma, beta, alpha, or neutron, or whether all four types were to be monitored. If the latter were to be the case, they stated that more than one type of instrument at each monitoring station would be required, since no single instrument was commercially available which had the capability of suitably detecting all of the types of radiation.

Several petitioners also requested reconsideration of the requirement for monitoring each package after its removal from the aircraft and prior to its next departure. They pointed out that the "planeside monitoring", which would be required as a result, presented serious, if not impossible, operational difficulties due to the nature of airline operations which involve short duration turnarounds and enroute stops, and are affected by factors such as weather conditions. They further pointed out that the monitoring of off-loaded packages could best be performed after transfer to the freight terminal. They argued that if such monitoring detected radiation or contamination in excess of some stated levels and the aircraft had already departed, monitoring of the aircraft could be performed at its next stop.

After consideration of the merits of the petitions, the FAA extended the effective date for compliance with the radiation monitoring requirements to January 1, 1976 (Amendment 103-25, Docket No. 14530, 40 FR 26673). FAA also announced at the same time that it had instituted a study to develop more realistic specifications for the radiation monitoring instrument.

Since March 1975, the Office of Hazardous Materials Operations of the Materials Transportation Bureau, in cooperation with the FAA, the Civil Aeromedical Institute, the Transportation Systems Center, and the U.S. Nuclear Regulatory Commission have studied the problem with the objective of clarifying the technical specification and use of the radiation monitoring instrument. Before arriving at a proposed clarification, it was the consensus of the above group that the objective of the monitoring had to be clearly identified. It recognized that there were two possible objectives in monitoring, *i.e.*, to detect levels of radiation or contamination resulting from the unusual and unlikely loss of shielding or breach of containment; or to verify that the shipper's assigned transport index (T.I.) was in compliance. It was clearly recognized that either objective would dictate significantly different instrument specifications, and also that no single type of instrument could adequately detect all types of radiation. The group agreed that the principal objective of radiation monitoring by air carriers be to detect the radiation hazard situation and not to verify compliance of the T.I. The group also agreed that from the practical standpoint, gamma radiation was the most significant potential problem, recognizing that very few packages emitting only neutron radiation are transported, and also recognizing that alpha and beta radiation do not present an external radiation hazard. It was further recognized that monitoring for external gamma radiation alone might not in every case detect alpha or beta contamination from a leaking package.

The proposals herein afford an opportunity for interested persons to comment on what the Materials Transportation Bureau considers to be an appropriate and realistic instrument specification, as well as a practicable proposal for the application of the monitoring requirement.

Because these proposals on radiation monitoring are substantially different from the monitoring requirements finalized on February 4, 1975, and because the January 1, 1976, effective date for those requirements will pass before the proposals herein are finalized, the requirements of paragraph (d)(3) of section 103.3 and paragraphs (c), (d), and (e) of section 103.23, finalized on February 4, 1975 (Amdt. 103-23), have been revoked. (*See* Dkt. 13668 in this issue of the FEDERAL REGISTER.)

These proposals are substantially different from those finalized on February 4, 1975, in the following respects:

ACTION LEVEL

As proposed herein, the "action level" in performing the radiation monitoring would be 15 milliroentgens per hour (mr/hr). As published in § 103.23(d)(2) (Amdt. 103-23), the aircraft operator would have been required to verify that the measured T.I. was in agreement with that as assigned to the package label by the shipper or zero in the case of white labeled packages. The "action level" of 15 mr/hr is being proposed on the basis of what the Bureau believes to be a reasonable value for the average measurement error that might be experienced in relation to the maximum transport index allowed to be assigned by the shipper to a package carried aboard an aircraft. The proposal recognizes the objective stated above that the principal purpose of the radiation monitoring is to detect those unlikely situations involving levels of gamma radiation which indicate a loss of shielding or a breach of containment. This is consistent with the Bureau's position that verification of transport indexes assigned by shippers is not the principal purpose of monitoring by air carriers. The proposed "action level" of 15 mr/hr also will be more conducive to the utilization of "fixed" radiation monitors in an automated scanning "pass by" type system in those stations handling significant numbers of packages. Such systems can also be very effective in reducing potential exposure to any package handling personnel who may routinely handle the monitoring and processing of radioactive shipments. It should be understood that in citing the 15 mr/hr "action level", it is not intended to imply that such a level of radiation would be "acceptable" with respect to the shipper's requirements. No change is being proposed with regard to the maximum transport index of 10 which applies to the shipper of radioactive packages. Rather, the proposed aircraft operator monitoring is intended to provide an additional or backup safeguard.

INSTRUMENT SPECIFICATION

More definitive operating characteristics are being provided, specifying the required operational range, percent efficiency, energy range sensitivity, battery check capability, maximum response time, and nonsaturation feature at high levels of radiation.

"OFF-LOAD" INSPECTION AND MONITORING

As proposed herein, a visual inspection of each package would be required after off-loading each package from an aircraft, prior to its departure. In the event this inspection reveals suspected leakage or damage to the package integrity, radiation monitoring would have to be performed immediately. After the visual inspection and transfer of the package into a freight terminal, and before release to another transport mode or to the consignee, the radiation monitoring would have to be carried out. In the event that the off-loaded package is to be transferred to another air carrier for carriage aboard an aircraft, the Bureau interprets the provisions of proposed § 103.23(c)(1) to require that the new air carrier monitor the package in accordance with § 103.23(d) before placing it in an aircraft.

The effective date for the amendments proposed herein would be six months after their publication. This would recognize the lead time necessary for manufacturers and suppliers of radiation monitoring equipment to deliver equipment to air carriers and for air carriers to train cargo handling personnel in the operation and use of the equipment.

In consideration of the foregoing, it is proposed to amend 14 CFR Part 103 by:

1. Amending § 103.3 by adding a new paragraph (d)(3) to read as follows:

§ 103.3 Certification requirements.

• • • • • •

(d) • • •

(3) After (six months from date of publication of amendment), for radioactive materials, the inspection required by § 103.23(c) discloses that the radiation dose rate does not exceed any requirement set forth in § 103.23(d).

2. Amending § 103.23 by adding paragraphs (c), (d), and (e) to read as follows:

§ 103.23 Special requirements for radioactive materials.

• • • • • •

(c) In addition to the inspection required by § 103.4 after (six months from the date of publication of amendment), the operator of the aircraft shall—

(1) Before placing any package of radioactive materials in an aircraft, monitor it in accordance with paragraph (d) of this section.

(2) After removal of any package containing radioactive materials from an

V40239 DEC 11 75 XUM

aircraft, and before the next departure of the aircraft—

(i) Examine the package in accordance with § 103.4(a)(1); and

(ii) If the examination required by paragraph (c)(2)(i) of this section discloses that there may be leakage of the contents or that the integrity of the package has been compromised, monitor the package in accordance with paragraph (d) of this section.

(3) As soon as practicable after removal of a package containing radioactive materials from an aircraft, prior to release to another transport mode or to the consignee, perform radiation monitoring in accordance with paragraph (d) of this section.

(d) In conducting the radiation monitoring required by paragraph (c) of this section, the operator of the aircraft shall—

(1) Use a radiation monitoring instrument that—

(i) Has a range such that 2 milliroentgens per hour (mr/hr) through 99 mr/hr can be measured;

(ii) When the meter of the instrument reads 15 mr/hr, or any other readings normally used when monitoring a radioactive material package at a distance of three feet from the package, the true exposure rate does not differ from the instrument reading by more than 60 percent for gamma energies of 70 kev to 1.2 mev;

(iii) At exposure rates that exceed the range of the instrument, up to at least 100 roentgen per hour (r/hr), the exposure rate indicator is maintained at the upper end of the range, or is otherwise designed so as to provide a positive response in the event of "saturation" to high level radiation;

(iv) Has a battery check capability;

(v) Has a response time not exceeding 12 seconds;

(vi) Will satisfy the specifications in paragraphs (d)(i) through (v) of this section over the ranges of temperature and humidity to which the instrument will be subjected during operational use.

(2) Monitor the package on all sides (including top and bottom). If the monitoring indicates an exposure rate exceeding 15 mr/hr at three feet from any exterior surface of the package, the package shall not be placed aboard an aircraft or released to another mode of transportation and the requirements as set forth in paragraph (b) of this section shall be initiated.

(e) In conjunction with the radiation monitoring requirements prescribed in paragraphs (c) and (d) of this section, the aircraft operator shall establish periodic instrument calibration and maintenance procedures which must be approved by the FAA District Office charged with the overall inspection of its operations.

Interested persons are invited to submit views and comments on the proposal. Comments should refer to the docket number and be submitted to: Docket Section, Materials Transportation Bureau, U.S. Department of Transportation, Trans Point Building, Washington, D.C. 20590. All comments received before the colse of business on February 17, 1976 will be considered, and will be available in the docket for examination both before and after the closing date. Comments received after the closing date and too late for consideration will be treated as suggestions for future rule making.

(49 U.S.C. 1472(h)(1); 49 U.S.C. 1804; 49 CFR 1.53(e), (h); and paragraph (a)(3) of App. A to Part 102)

Issued in Washington, D.C., on December 5, 1975.

ALAN I. ROBERTS,
Director, Office of Hazardous Materials Operations.

FEDERAL HOME LOAN BANK BOARD

[12 CFR Parts 556, 571]

[No. 75-1063]

STATEMENT OF POLICY

Proposed Amendments Relating to Mergers

NOVEMBER 26, 1975.

Summary

I. *Present Regulations.* State the Federal Home Loan Bank Board's general policy on mergers involving Federal associations and insured institutions in separate statements of policy.

II. *Proposed Amendments.* Would revise the present merger policy statement in the Insurance Regulations to set forth the Board's current general policy on mergers involving an insured institution and rescind as unnecessary the separate merger policy statement in the Federal Regulations.

The Federal Home Loan Bank Board considers it advisable to propose to revise the statement of policy on mergers at § 571.5 of the Rules and Regulations for Insurance of Accounts (12 CFR 571.5) to set forth the Board's current general policy on mergers involving any insured institution and to rescind the present separate statement of policy on mergers involving Federal savings and loan associations at § 556.2 of the Rules and Regulations for the Federal Savings and Loan System (12 CFR 556.2). Significant new items in the Statement of Policy hereby proposed are noted below. Except as noted below, present § 571.5 would be substantially unchanged.

The present Statement of Policy states in part (subparagraph (c)(3) that mergers involving institutions of inefficient size or located in markets overpopulated with savings institutions, which result in economy of operation and management and more efficient service, will be regarded favorably insofar as the mergers are not anticompetitive. The proposal would state (paragraph (a)) that the Board neither encourages nor discourages mergers, but regards them as primarily business decisions to be made by the institutions involved.

The proposal would substantially revise and expand paragraph (e) of the Statement of Policy, which sets forth factors relating to fairness and disclosure of the merger plan.

Proposed subparagraph (e)(1) would state that a merger plan will be particularly scrutinized for fairness where the merger does not appear to be the result of arms length bargaining or, in the case of a stock institution, where controlling stockholders are receiving different consideration from other stockholders.

Proposed subparagraph (e)(3) would require that a merger application fully justify compensation to be paid to officers, directors, and controlling persons of the disappearing institutions by the resulting institution or a service corporation affiliate thereof. It would also state that any increase in such compensation exceeding the greater of 15% or $5,000 gives rise to presumptions of unreasonability and sale of control and require that an application for a merger involving such an increase include evidence sufficient to rebut such presumptions.

Proposed subparagraph (e)(4) would note that employment contracts of the resulting institution should conform with applicable provisions of the Federal Regulations or Insurance Regulations.

Proposed subparagraph (e)(5) would require that a merger application fully justify the need for, and the compensation to be paid to, an advisory board of the resulting institution consisting of officers, directors or controlling persons of the disappearing institution. It would set forth a number of guidelines and limitations as to advisory directors and fees paid to such advisory directors.

Proposed subparagraph (e)(6) would state that neither the resulting institution nor any service corporation affiliate thereof should agree, in connection with the merger, to retain any person performing professional service for the disappearing institution, and that any such retention should be by decision of the resulting institution or affiliate independent of the merger.

Proposed subparagraphs (e)(7) and (e)(8) would limit, respectively, certain lease and purchase transactions involved in a merger and certain fees paid in connection with a merger.

Proposed paragraphs (f) and (g) would require, respectively, that any treatment of goodwill in connection with a merger be in accordance with current accounting policies of the Board and that any liquidating or similar dividend will be subject to § 531.10 of the Regulations for the Federal Home Loan Bank System.

Proposed paragraphs (h) and (j) would require, respectively, submission of non-inducement affidavits by certain persons and generally, except for mergers involving only mutual institutions, a tax ruling from the Internal Revenue Service.

Proposed paragraph (i) would provide that any continuation of a depository relationship of a disappearing institution should not be connected with the merger, but by decision of the resulting institution or affiliate independent of the merger.

Accordingly, the Board hereby proposes to rescind said § 556.2 and to revise § 571.5 to read as set forth below.

Interested persons are invited to submit written data, views, and arguments to the Office of the Secretary, Federal Home Loan Bank Board, 320 First Street, N.W., Washington, D.C. 20552, by January 26, 1976, as to whether this proposal should be adopted, rejected, or modified. Written material submitted will be available for public inspection at the above address.

Part 556—Statements of Policy

§ 556.2 [Rescinded]

1. Section 556.2 is rescinded.

Part 571—Statements of Policy

2. Section 571.5 is revised as follows:

§ 571.5 Mergers.

(a) *General policy.* This is a statement of the Federal Home Loan Bank Board's general policy on merger proposals. It does not ordinarily apply to mergers instituted for supervisory reasons. The term "merger" includes consolidations and bulk purchases of assets in exchange for assumption of savings accounts and other liabilities. Potential merger applicants are encouraged to review proposed mergers with the Supervisory Agent prior to proceeding with the formal application process. Generally, the Board neither encourages nor discourages mergers but regards them as primarily business decisions to be made by the institutions involved.

(b) *Legal considerations*—(1) *General.* The legality of a proposed merger is a precondition to further consideration by the Board. Applicable laws and regulations include the Federal antitrust laws (the Clayton and Sherman Acts), Section 408 (regulation of holding companies) of the National Housing Act, applicable State law, and the Board's own regulations. To enable the Board to make a legal evaluation of the possible anticompetitive impact of proposed mergers, applicants are required to submit certain information on Board-prescribed forms available at each Federal Home Loan Bank. In any case in which the Supervisory Agent believes it clear that no antitrust or competitive problem exists, a merger proposal may be submitted with relevant partial information short of the complete data called for by the schedules.

(2) *Acquisitions of insured institutions under section 408 of the National Housing Act.* Section 584.4 of the Regulations for Savings and Loan Holding Companies implements this statutory provision. It requires information as to competitive factors similar to that indicated in paragraph (b)(1) of this section. The regulation also requires information as to additional matters, including details of acquisition, financial and managerial resources, future prospects, and the convenience and needs of the community to be served.

(c) *Economic evaluation*—(1) *Evaluation of impact on competition.* The Board will examine the economic impact of the merger—adverse, neutral, or favorable—on competition. This will be done for each relevant geographical savings and mortgage market and submarket. All savings and mortgage firms reasonably competitive with the business of the merging institutions will be taken into account. The impact on competition will be evaluated on the basis of various economic indices of market structure and performance. Such indices will include, for each relevant savings and mortgage market and submarket: (i) market concentration and ranking of the resulting institution and of other competing institutions; (ii) number and size distribution of competitors; (iii) actual or potential competition significantly curtailed by the merger; (iv) trends toward concentration, especially as a result of mergers; (v) overlap of branch savings submarkets when two or more branch systems are to be consolidated; and (vi) extent to which rates paid on savings instruments and charges on mortgages appear to be competitively determined, consistent with statutory and regulatory constraints, and will continue to be so determined after the merger.

(2) *Other factors.* The Board will examine the extent to which the merger will affect the convenience and needs of the communities to be served in terms of savings facilities, types of loans available, and the impact, if any, on operating efficiency of the resulting institution. Account will be taken of the number of institutions of reasonably efficient size that can be supported by population, savings, and mortgage demand.

(d) *Managerial and financial aspects.* The Board's basic requirement is that the resulting institution have the managerial and financial resources to operate successfully. The experience and the performance record of the persons to be in control or in key managerial positions will be evaluated as to the probability of sound operation of the resulting institution. The overall operations and financial condition will be reviewed to determine the resulting institution's prospects of generating sufficient income to meet competition, making the required transfers to reserves, and conducting its affairs essentially free of supervisory concern. The adequacy of the net worth of the resulting institution, relative to the risks inherent in its assets, and economic and other factors will be considered. Intangible assets will be particularly scrutinized.

(e) *Factors relating to fairness and disclosure of the plan.* The Board will review the fairness and disclosure of a merger proposal on the basis of the following criteria:

(1) *Equitable.* The plan should be equitable to all concerned—savings account holders, borrowers, creditors and stockholders (if any) of each institution. The plan should properly recognize and protect their respective legal rights and interests. The plan will be particularly scrutinized for fairness where the merger does not appear to be the result of arms length bargaining or, in the case a stock institution, where controlling stockholders are receiving different consideration from other stockholders.

(2) *Full disclosure.* The application should make full disclosure of all written or oral agreements or understandings by which any person or company will receive, directly or indirectly, any money, property, service, or other thing of value, whether tangible or intangible, in connection with the merger.

(3) *Compensation to officers.* Compensation to officers, directors and controlling persons of the disappearing institution by the resulting institution or a service corporation affiliate thereof should not be in excess of that which is reasonable and commensurate with their duties and responsibilities. The application should fully justify the compensation to be paid to such persons. The plan will be particularly scrutinized where any of such persons is to receive a material increase in compensation above that paid by the disappearing institution prior to the commencement of merger negotiations. An increase in such compensation in excess of the greater of 15% or $5,000 gives rise to presumptions of unreasonability and sale of control. In the case of such an increase, evidence sufficient to rebut such presumptions should be submitted.

(4) *Employment contracts.* Any employment contracts should conform with § 545.25-1 of the Federal Regulations if the resulting institution has a Federal charter or with § 563.39 of the Insurance Regulations if the resulting institution has a State charter.

(5) *Advisory boards.* The application should fully justify the need for, and the compensation to be paid to, an advisory board of the resulting institution consisting of officers, directors or controlling persons of the disappearing institution. The application should describe the duties and responsibilities of such advisory board. Those duties and responsibilities should be consistent with the principle that the board of directors has the ultimate responsibility for operation of the resulting institution. The plan will be particularly scrutinized where proposed advisory board fees exceed the director fees paid by the dis-

V40239 DEC 11 75 XUM

appearing institution prior to the commencement of merger negotiations. Such an excess in advisory director fees gives rise to presumptions of unreasonability and sale of control. In the case of such an excess, evidence sufficient to rebut such presumptions should be submitted, unless, based on a schedule of 12 meetings per year, the advisory board fees do not exceed $100 per meeting attended in the case of a disappearing institution with assets of at least $10,000,000 or $50 if the less than $10,000,000. No advisory board fees should exceed the director fees paid by the resulting institution and no advisory board fees should be paid to salaried officers or employees of the resulting institution. If the disappearing institution experienced significant supervisory problems prior to the merger, the application should also fully justify any selection as an advisory board member of a person who was a director, officer or controlling person of the disappearing institution. Advisory board members should be elected annually for a term not exceeding one year.

(6) *Retention of attorneys and other professionals.* Neither the resulting institution nor any service corporation affiliate thereof should agree, in connection with the merger, to retain any attorney, law firm or other person performing professional services for the disappearing institution. Any such retention should be by decision of the resulting institution or affiliate independent of the merger.

(7) *Tie-in transactions.* Neither the resulting institution nor any service corporation affiliate thereof should agree, in connection with the merger, to purchase or lease any office building or space therein, or other property or business, from any officer, director or controlling person of the disappearing institution. However, this limitation does not apply to an assumption of an existing lease without change in its terms.

(8) *Fees paid in connection with mergers.* The application should state the name of each person or firm rendering legal or other professional services in connection with the merger. The fee expected to be paid to each such person or firm should be stated, together with a description of the services being performed, the time expected to be spent in performing such services, the hourly rate or other basis used for determining the fee, and any relationship between such person or firm and the disappearing or resulting institution. If a finder's or similar fee is to be paid in connection with the merger, the application should fully justify the payment and amount of the fee and state the name of the person or firm to whom the fee is to be paid. No finder's or similar fee should be paid to any officer, director or controlling person of the disappearing or resulting institution.

(f) *Accounting for goodwill.* The proposed treatment of goodwill in connection with the merger must be fully described in the application. The computation and amortization of goodwill should be in accordance with accounting policies of the Board at the time the application is filed.

(g) *Liquidating dividends.* Any liquidating or similar dividend will be subject to Bank Regulation § 531.10.

(h) *Non-inducement affidavits.* The application should include non-inducement affidavits on FHLBB Form 291 from each officer, director and controlling person of the disappearing institution, each attorney or law firm regularly serving the disappearing institution, and the chief executive officer of the resulting institution.

(i) *Depository relationships.* Neither the resulting institution nor any service corporation affiliate thereof should, in connection with the merger, agree to continue any depository relationship of the disappearing institution. Any such continuance should be by decision of the resulting institution or affiliate independent of the merger.

(j) *Tax liability.* A tax ruling from the Internal Revenue Service will generally be required, except in the case of a mutual to mutual merger. If a tax ruling is not being obtained, a tax opinion will be required.

(Sec. 5, 48 Stat. 132, as amended; 12 U.S.C. 1464. Secs. 402, 403, 407, 48 Stat. 1256, 1257, 1260, as amended; 12 U.S.C. 1725, 1726, 1730. Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943–48 Comp., p. 1071)

[FR Doc.75-33349 Filed 12-10-75;8:45 am]

MARINE MAMMAL COMMISSION

[50 CFR Part 520]

FREEDOM OF INFORMATION ACT

Proposed Implementation

Notice is hereby given that the Marine Mammal Commission (the "Commission") proposes to adopt a new Part 520 of 50 CFR, consisting of the regulations set forth below, to establish procedures under which the public may inspect Commission records, obtain copies of material, and appeal denials of requests for such inspection or copies. Uniform fees to recover the direct costs of search and copying also are proposed.

These regulations are proposed in accordance with the provisions of the Freedom of Information Act (the "Act"), 5 U.S.C. 552. In order to implement those provisions, the Commission is proposing to make available all final opinions and orders made in the adjudication of cases; all statements of policy and interpretations adopted by the Commission; staff manuals and instructions that affect the public; and other "reasonably described" records. The regulations are thus consistent with the Marine Mammal Protection Act, 16 U.S.C. 1402(c), which provides that all "activities of the Commission shall be * * * available to the public in accordance with Section 552 of Title 5, United States Code." That section also provides that Commission reports and recommendations "shall be matters of public record and shall be available to the public at all reasonable times." Material that is exempted from disclosure by 5 U.S.C. 552(b) shall not be made available for inspection, and shall not be furnished to the public pursuant to these regulations.

Initial requests are to be made to the General Counsel of the Commission, or his delegate, who shall determine whether to grant or deny access to, or copies of material. If a request is initially denied, appeal to the Executive Director of the Commission is available. Fees for search and copying are prescribed, based on the reasonable and direct costs for such services.

Interested persons may submit written comments regarding this notice to the Executive Director, Marine Mammal Commission, 1625 I Street NW., Room 307, Washington, D.C. 20006, for consideration by the Commission. Submissions received on or before January 15, 1976 will be considered by the Commission. All submissions will be available for inspection at the Commission offices during normal business hours.

Dated: December 2, 1975.

JOHN R. TWISS, Jr.,
Executive Director.

It is proposed to amend Chapter V, Marine Mammal Commission, of 50 CFR by adding a new Part 520 as follows:

PART 520—PUBLIC AVAILABILITY OF AGENCY MATERIALS

Sec.
520.1 Purpose.
520.2 Scope.
520.3 Definitions.
520.4 Availability of materials.
520.5 Administrative appeal.
520.6 Extensions of time.
520.7 Fees.

AUTHORITY: 5 U.S.C. 552.

§ 520.1 Purpose.

These regulations implement the provisions of the "Freedom of Information Act," 5 U.S.C. 552. They establish procedures under which the public may inspect and obtain copies of non-exempt material maintained by the Commission, provide for administrative appeal of initial determinations to deny requests for material, and prescribe uniform fees to be charged by the Commission to recover direct search and duplication costs.

§ 520.2 Scope.

(a) These regulations shall apply to all final opinions, including concurring and dissenting opinions, as well as orders, made by the Commission in the adjudication of cases; to all statements of policy and interpretations which have been adopted by the Commission and are not published in the FEDERAL REGISTER; to the Commission's administrative staff manuals and instructions to staff that affect a member of the public; and to any other Commission records reasonably described and requested by a person in accordance with these regulations—except to the extent that such material is

exempt in accordance with paragraph (b) of this section.

(b) Requests for inspection and copies shall not be granted with respect to materials that are:

(1) (i) Specifically authorized under criteria established by an Executive Order to be kept secret in the interest of national defense or foreign policy, and

(ii) Are in fact properly classified pursuant to such Executive Order;

(2) Related solely to the internal personnel rules and practices of the Commission;

(3) Specifically exempted from disclosure by statute;

(4) Trade secrets and commercial or financial information obtained from a person and privileged or confidential;

(5) Inter-agency or intra-agency memorandums or letters which would not be available by law to a party other than an agency in litigation with the Commission;

(6) Personnel and medical files and similar files, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy;

(7) Investigatory records compiled for law enforcement purposes, but only to the extent that the production of such records would

(i) Interfere with enforcement proceedings,

(ii) Deprive a person of a right to a fair trial or an impartial adjudication,

(iii) Constitute an unwarranted invasion of personal privacy,

(iv) Disclose the identity of a confidential source and, in the case of a record compiled by a criminal law enforcement authority in the course of a criminal investigation, or by an agency conducting a lawful national security intelligence investigation, confidential information furnished only by the confidential source,

(v) Disclose investigative techniques and procedures, or

(vi) Endanger the life or physical safety of law enforcement personnel;

(8) Contained in or related to examination, operating, or condition reports prepared by, on behalf of, or for the use of an agency responsible for the regulation or supervision of financial institutions; or

(9) Geological and geophysical information and data, including maps, concerning wells.

§ 520.3 Definitions.

As used in these regulations: (a) The term "Commission" means the Marine Mammal Commission;

(b) The term "Director" means the Executive Director of the Marine Mammal Commission;

(c) The term "exempt materials" means those materials described in § 520.2(b) of these regulations;

(d) the term "non-exempt materials" refers to all materials described in § 520.2(a), but not included in § 520.2(b) of these regulations; and

(e) the term "General Counsel" means the General Counsel of the Marine Mammal Commission.

§ 520.4 Availability of materials.

(a) All non-exempt materials shall be available for inspection during normal business hours at the Commission offices, 1625 I Street NW., Room 307, Washington, D.C. Space shall be made available at that location for the use of any person who is granted permission to inspect such materials.

(b) Requests to inspect, and obtain copies of, any material maintained by the Commission may be made in person at the Commission offices, or submitted in writing to the Executive Director, Marine Mammal Commission, 1625 I St. NW., Room 307 Washington, D.C. 20006. Each request should include a reasonable description of the material being sought, and should contain sufficient detail to facilitate retrieval of the material without undue delay. The Commission staff shall assist to the extent practicable in identifying material that is imprecisely described by the person requesting such material.

(c) An initial determination whether, and to what extent, to grant each request shall be made by the General Counsel or his delegate within 10 days (excepting Saturdays, Sundays, and legal public holidays) after receipt of that request. The person making the request shall be notified immediately of the determination made. In making such determinations, it shall first be considered whether the material requested is of a type described in § 520.2(a) of these regulations; if it is, the request shall be granted unless the material is exempted by § 520.2(b). If the material requested is not of a type described in § 520.2(a), or is the subject of one or more exemptions, the request shall be denied.

(d) If a determination is made to grant a request, the relevant material shall promptly be made available for inspection at the Commission offices. Copies of the material disclosed shall be furnished within a reasonable time after payment of the fee specified in § 520.7 of these regulations. Copies of less than 10 pages of material requested in person ordinarily will be furnished immediately following the determination to grant the request and payment of the fee. Larger numbers of copies may be furnished at the earliest convenience of the Commission staff, but must be furnished within a reasonable time following payment of the fee.

(e) Whenever required to prevent a clearly unwarranted invasion of personal privacy, the General Counsel or his delegate shall determine that identifying details shall be deleted from an opinion, statement of policy, interpretation, or staff manual or instruction to which access is granted or of which copies are furnished. Where portions of the requested material are exempt under § 520.2(b), and are reasonably segregable from the remainder of the material, those portions shall be excised from the material disclosed. Whenever details are deleted or portions are excised and not disclosed, the notification shall include the information specified in § 520.4(f).

(f) If a determination is made to deny a request, the notification shall include a statement of the reasons for such action, shall set forth the name and position of the person responsible for the denial, and shall advise the requester of the right, and the procedures required under § 520.5 of these regulations, to appeal the denial to the Director.

§ 520.5 Administrative appeal.

(a) An appeal to the Director of any denial, in whole or in part, of a request for access to and copies of material may be made by submission of a written request for reconsideration. Such requests must state specific reasons for reconsideration that address directly the grounds upon which the denial was based. Requests should be addressed to the Director at the Comission offices.

(b) The Director shall make a determination with respect to any appeal within 20 days (excepting Saturday, Sundays, and legal public holidays) after receipt of the request for reconsideration. The person making such a request shall immediately be notified by mail of the determination.

(c) If the initial denial is reversed by the Director, any material with which the reversal is concerned shall be made available for inspection, and copies shall be furnished, in accordance with § 520.4 (d) of these regulations.

(d) If the denial is upheld, in whole or in part, the Director shall include in the notification a statement of the requester's right of judicial review under 5 U.S.C. 552(a)(4), and the names and positions of the persons responsible for the denial.

§ 520.6 Extensions of time.

(a) Whenever unusual circumstances exist, as set forth in § 520.6(b), the times within which determinations must be made by the General Counsel on requests for access (10 working days), and by the Director on requests for reconsideration (20 working days), may be extended by written notice to the requester. The notice shall set forth the reasons for such extension, and the date on which a determination is expected to be made. The maximum extension of time allowed under this section shall be 10 working days, but shall be utilized only to the extent reasonably necessary to the proper processing of the particular request.

(b) As used in this section, "unusual circumstances" shall mean:

(1) The need to search for and collect the requested records from field facilities or other establishments that are separate from the Commission offices;

(2) The need to search for, collect, and appropriately examine a voluminous amount of separate and distinct records which are the subject of a single request; or

(3) The need for consultation, which shall be conducted with all practicable speed, with another agency having a substantial interest in the determination of the request or among two or more components of the agency having substantial subject-matter interest therein.

V 40239 DEC 11 75 XUM

§ 520.7 Fees.

(a) The following standard charges for document search and duplication, based on the direct costs of such services, must be paid before access to, or copies of material will be granted under these regulations:

(1) Search: $4.00 per person-hour for clerical time; $8.00 per person-hour for professional or supervisory time;

(2) Duplication: $0.10 per page of photocopied material.

(b) The Commission shall furnish without charge, or at a reduced charge, copies of any material disclosed pursuant to these regulations, whenever the General Counsel or the Director determines that waiver or reduction of the fee is in the public interest because furnishing the information can be considered as primarily benefiting the general public.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

[25 CFR Part 178]

MANAGEMENT OF TRIBAL ASSETS OF UTE INDIAN TRIBE, UINTAH AND OURAY RESERVATION, UTAH, BY THE TRIBE AND THE UTE DISTRIBUTION CORPORATION

New Regulations To Provide Management in Same Proportion in Which Benefits Are Received

DECEMBER 5, 1975.

This notice is published in exercise of authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs by 230 DM 2.

Notice is hereby given that it is proposed to add a new Part 178 to Subchapter P, Chapter I, Title 25 of the Code of Federal Regulations. The purpose of the addition is to implement the joint management of tribal assets by the Ute Indian Tribes and the Ute Distribution Corporation under the Ute Partition Act, approved August 27, 1954 (68 Stat. 868, as amended, 25 U.S.C. 677–677aa). These regulations are proposed pursuant to the authority contained in Sections 27 and 28 of the Act of August 27, 1954 (68 Stat. 868, 25 U.S.C. 677–677aa).

The purpose of these proposed regulations is to provide management of the undistributed assets of the Ute Indian Tribes in the same proportion in which the benefits are received. This will be accomplished by the establishment of a management committee to act as the authorized agent of both the Tribal Business Committee and the Ute Distribution Corporation.

It is the policy of the Department of the Interior, whenever practicable, to afford the public an opportunity to participate in the rulemaking process. Accordingly, interested persons may submit written comments, suggestions, or objections in connection with the proposed regulations to the Area Director, Phoenix Area Office, Bureau of Indian Affairs, P.O. Box 7007, Phoenix, Arizona 85011, on or before January 12, 1976.

It is proposed to add a new Part 178 to Subchapter P, Chapter I, Title 25 of the Code of Federal Regulations to read as follows:

PART 178—JOINT MANAGEMENT OF TRIBAL ASSETS BY UTE DISTRIBUTION CORPORATION AND UTE INDIAN TRIBES, UINTAH AND OURAY RESERVATION, UTAH

Sec.
178.1 Purpose.
178.2 Management Committee membership.
178.3 Management of undistributed assets.
178.4 Meetings.
178.5 Notice.
178.6 Voting.
178.7 Minutes.
178.8 Authority of Area Director.

AUTHORITY: Secs. 27, 28, 68 Stat. 868 (25 U.S.C. 677–677aa).

§ 178.1 Purpose.

In accordance with the Ute Partition Act approved August 27, 1954, 68 Stat. 868, as amended, 25 U.S.C. 677–677aa, all unadjudicated or unliquidated claims against the United States, all gas, oil, and mineral rights of every kind, and all other assets not distributed in accordance with the terms of said act, shall be managed jointly by the Tribal Business Committee of the Ute Indian Tribes, Uintah and Ouray Reservation, Utah, and the Ute Distribution Corporation, a Utah Corporation as given in this Part.

§ 178.2 Management Committee membership.

The authorized agent of both the Tribal Business Committee and Ute Distribution Corporation shall consist of a Management Committee of Seven persons. Five of the Committee shall be members of the Ute Indian Tribes, Uintah and Ouray Reservation, and shall be elected to the Committee by the Tribal Business Committee. Two members shall be elected to the Committee by the Board of Directors of the Ute Distribution Corporation. The term of service for each person elected to the Management Committee shall be determined (a) by the Tribal Business Committee for the persons it elects to the Management Committee; and (b) by the Ute Distribution Corporation for the persons it elects to the Management Committee. The Management Committee is authorized to elect a chairman, vice chairman and secretary as needed. The term of service of officers of the Management Committee shall be as determined by the membership of the committee. Each member of the Management Committee shall serve without compensation.

§ 178.3 Management of undistributed assets.

All unadjudicated or unliquidated claims against the United States, all gas, oil and mineral rights of every kind, and all other assets not distributed pursuant to the Ute Partition Act of 1954, shall be managed by the Management Committee. The Committee Chairman or such other person as designated by the Committee is authorized to sign any contract or instrument contemplated by the 1954 Act as regards the management of those assets. Such contract or instrument is subject to the approval of the Secretary of the Interior or his designee.

§ 178.4 Meetings.

The Management Committee will meet once each three months as a minimum and more often as determined by the Committee Chairman. The place and time of meetings will be as determined by the Committee.

§ 178.5 Notice.

The Chairman of the Management Committee shall mail written notice of the holding of a Committee meeting to each member of the Committee; to the Tribal Business Committee, Ute Indian Tribes, Fort Duchesne, Utah; to Ute Distribution Corporation, Roosevelt, Utah; and to the Superintendent, Uintah and Ouray Agency, Fort Duchesne, Utah, all within seven days before any meeting is held. The time and place of meeting will be specified in the notice.

§ 178.6 Voting.

A quorum of the Committee shall consist of four members. Any affirmative action of the Committee shall require at least four votes in favor thereof.

§ 178.7 Minutes.

Minutes shall be made of all meetings showing that proper notice was mailed to each member of the Committee, the names of each Committee member present, all actions taken and the names of each Committee member for and against each issue presented. The Chairman will mail copies of said minutes of each member of the Committee; to the Tribal Business Committee, Ute Indian Tribes, Fort Duchesne, Utah; to Ute Distribution Corporation, Roosevelt, Utah; and to the Superintendent, Uintah and Ouray Agency, Fort Duchesne, Utah all within 10 days following any meeting.

§ 178.8 Authority of Area Director.

The authority of the Secretary under Section 26 of the Ute Partition Act of 1954, 25 U.S.C. 677y to execute contracts and other instruments; and the authority of the Secretary under Section 28 of the Ute Partition Act of 1954, 25 U.S.C. 677aa to proceed in any manner deemed by him to be in the best interest of the tribes and the Ute Distribution Corporation concerning the management of the undistributed assets when an agreement cannot otherwise be reached between the Tribes and the Ute Distribution Corporation has been redelegated to the Area Director, Phoenix Area Office.

MORRIS THOMPSON,
Commissioner of Indian Affairs.

[FR Doc.75-33302 Filed 12-10-75;8:45 am]

National Park Service

[36 CFR Part 2]

POWERLESS FLIGHT

Restrictions on Launching and Landing

Notice is hereby given that pursuant to the authority contained in the Act of August 25, 1916 (39 Stat. 535, as amended and supplemented; 16 U.S.C. 1 et seq.) and 245 DM–1 (34 FR 13679), as amended, it is proposed to amend Part 2 of the general regulations as set forth below.

On August 20, 1975 (40 FR 36378), the National Park Service published a proposed regulation which would have amended 36 CFR Part 2. This regulation would have prohibited the launching or landing of powerless flight craft in all areas of the National Park System, except for designated recreational areas. A period of 60 days was provided for public comment on the proposed regulation.

A very large number of written comments was received during the comment period. These comments came from both participants in the activities involved and from nonparticipating members of the public. Large numbers of these comments expressed the view that powerless flight activities, particularly hang gliding, were no more detrimental to park resources and atmosphere than a wide variety of other outdoor recreational pursuits which have traditionally been permitted or encouraged in many parks.

After an evaluation of these comments and an examination of the existing program of controlled hang gliding at Yosemite National Park, the National Park Service has determined that a modification of its position on powerless flight should be proposed. The regulation proposed below is an alternative to the earlier proposal and would provide a basis for permitting controlled powerless flight activities in parks at which such activities will not be detrimental to park protection or other visitor uses.

In recreational areas, such as national seashores, lakeshores, and parkways, Superintendents would be able to designate locations where the control of a written permit system would not be required. Such locations would normally be those at which no conflict with other visitor uses could be expected and at which safety hazards are minimal for participants and other persons.

General regulations regarding the use of aircraft in areas of the National Park System are contained in § 2.2 of 36 CFR. Under the proposed regulation, powerless flight devices classified as aircraft by the Federal Aviation Administration would continue to be permitted to utilize, without written permit, aircraft landing areas designated in park areas pursuant to § 2.2. Powerless flights in the airspace above park areas would not be limited by this regulation, so long as they begin and terminate outside the park.

Paragraph (b) of the proposed regulation provides criteria which would be used by Superintendents in establishing standards to be followed in granting permits for powerless flight. This information is incorporated in the regulation to provide for uniform treatment of this activity, insofar as uniformity is possible in parks with widely differing conditions. In following these criteria, the National Park Service intends that Superintendents will consult with representatives of organizations dealing with powerless flight activities in order to determine reasonable standards for the conduct of flights and the issuance of permits, particularly with regard to equipment and personal qualification standards.

A review of the environmental and other impacts of this proposed action has been made by the National Park Service. It has been determined that implementation of the regulation is not a major Federal action that would have a significant impact on the human environment in the context of Section 102(2)(c) of the National Environmental Policy Act of 1969. Therefore, no environmental impact statement is required.

It is the policy of the Department of the Interior, whenever practical, to afford the public an opportunity to participate in the rulemaking process. Although a considerable amount of public comment on powerless flight in the National Park System has already been received as a result of the regulation proposed earlier, the action now proposed represents a substantial change from the original proposal and an additional period for public comment is deemed necessary. Accordingly, interested persons or organizations may submit written comments, suggestions, or objections to the Director, National Park Service, U.S. Department of the Interior, Washington, D.C. 20240, on or before January 12, 1976. It is proposed to amend 36 CFR Chapter 1, Part 2, by the addition of § 2.36 as follows:

§ 2.36 Powerless flight.

(a) Except as provided in § 2.2 of this Part, the launching or landing of sailplanes, gliders, balloons, body kites, hang gliders, and other devices designed to carry persons or objects through the air in powerless flight is prohibited without a written permit from the Superintendent specifying the conditions under which such launching or landing is to be conducted; *Provided, however,* That in recreational areas the Superintendent may, by the posting of signs, designate locations where this type of use may be conducted without a permit.

(b) The granting of permits for powerless flight activities shall be in accordance with standards developed for each park and available, upon request, for public review. Permit standards shall be based upon the following criteria:

(1) The number, time, and location of flights shall be controlled so as to avoid:

(i) Infringement upon the enjoyment and rights of other park visitors.

(ii) Traffic or pedestrian congestion or disruption of normal park operations.

(iii) Injury to nonparticipants and damage to public or private property.

(iv) Damage to natural or historic resources of the park.

(v) Detraction from the primitive character of designated wilderness areas.

(vi) Unwarranted risk to participants due to inadequate equipment, lack of qualifications, weather, or other factors.

(2) Permitted flights shall be compatible with and subject to:

(i) Applicable laws or regulations imposed by appropriate Federal or other governmental agencies.

(ii) Applicable safety and equipment standards endorsed by responsible sanctioning organizations.

(3) Except in recreational areas, flights shall not be conducted as competitive events or primarily for the benefit of spectators.

(4) Additional permit standards necessary to meet conditions in an individual park area shall be established by the Superintendent, as necessary to protect park resources.

GARY EVERHARDT,
Director, National Park Service.

notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF STATE

Agency for International Development

PEST MANAGEMENT ACTIVITIES

Environmental Impact Statement

The Agency for International Development has determined to prepare an environmental impact statement in connection with those activities which it conducts, supports, finances and/or otherwise assists which are intended to control or eliminate pests, including such activities conducted, supported or otherwise assisted by it for the procurement or use of pesticides.

The Environmental Impact Statement will contain, *inter alia*:

a. Historical description of the pest management program, including the pesticide activities.

b. Description of the scope and nature of the current and reasonably anticipated pest management program.

c. Assessment of environmental impacts, including adverse environmental impacts which cannot be avoided.

d. Analysis of reasonable alternatives and their environmental effects.

e. Conclusions as to which pesticides AID will not and which pesticides AID will provide assistance for and the limiting factors applicable to those pesticides for which AID will provide assistance.

It is anticipated that the environmental impact statement will be made available for comment in draft form by August 31, 1976. Public and other comments on the draft environmental impact statement will be accepted within 60 days of the issuance of the draft. The final environmental impact statement will be issued within 45 days of the close of the comment period.

All parties who desire to offer comments on the scope and content of the proposed environmental impact statement should communicate their views as soon as possible to Mr. Henry A. Arnold, Director, Office of Science and Technology, Room 2841, New State, Agency for International Development, Department of State, Washington, D.C. 20523.

Dated: December 3, 1975.

UNITED STATES v. KOREAN HAIR GOODS ASSOCIATION OF AMERICA, INC.

Proposed Consent Judgment and Competitive Impact Statement Thereon

Notice is hereby given pursuant to the Antitrust Procedures and Penalties Act, 15 U.S.C. § 16(b) through (h), that a proposed Consent Judgment and Competitive Impact Statement as set out below have been filed with the United States District Court for the Southern District of New York in civil action No. 75 Civ. 3069, *United States of America* v. *Korean Hair Goods Association of America, Inc.* The complaint charged that the defendant and co-conspirators engaged in a combination and conspiracy to regulate the price and other conditions of resale of imported wigs, and agreed to prevent certain wig importers and distributors from obtaining wigs for resale. The proposed Judgment enjoins defendant, among other things, from fixing or influencing prices or other conditions of sale for wigs, from preventing any person from obtaining wigs for sale or from selling wigs to anyone, and from furnishing to any person any information concerning the pricing of wigs or sales practices of any other person. Public comment is invited on or before February 9, 1976. Such comments and responses thereto will be published in the FEDERAL REGISTER and filed with the Court. Comments should be directed to Joel Davidow, Chief, Foreign Commerce Section, Antitrust Division, Department of Justice, Washington, D.C. 20530.

Dated: December 3, 1975.

THOMAS E. KAUPER,
Assistant Attorney General, Antitrust Division.

UNITED STATES DISTRICT COURT, SOUTHERN DISTRICT OF NEW YORK

Civil Action No. 75-3069 (RJW)

United States of America, Plaintiff, v. Korean Hair Goods Association of America, Inc., Defendant.

STIPULATION

It is stipulated by and between the undersigned parties, by their respective attorneys, that:

1. A Final Judgment in the form hereto attached may be filed and entered by the Court, upon the motion of any party or upon the Court's own motion, at any time after compliance with the requirements of the Antitrust Procedures and Penalties Act (15 U.S.C. § 16), and without further notice to any party or other proceedings, provided that plaintiff has not withdrawn its consent, which it may do at any time before the entry of the proposed Final Judgment by serving notice thereof on defendant and by filing that notice with the Court.

2. In the event plaintiff withdraws its consent or if the proposed Final Judgment is not entered pursuant to this stipulation, this stipulation shall be of no effect whatever and the making of this stipulation shall be without prejudice to plaintiff and defendant in this and any other proceeding.

Dated: Dec. 3, 1975

For the plaintiff:

Thomas E. Kauper, Assistant Attorney General, Baddia J. Rashid, Charles F. B. McAleer, Joel Davidow, Attorneys, Antitrust Division, U.S. Department of Justice.

Stephen P. Kilgriff, C. Forrest Bannan, Mary K. Smith, Attorneys, Antitrust Division, U.S. Department of Justice.

For the Defendant: Rogers & Wells.

By: H. Allen Lochner, Attorneys for Defendant.

Stipulation approved for filing:

Dated: Dec. 3, 1975.

ROBERT J. WARD,
United States District Judge.

UNITED STATES DISTRICT COURT
SOUTHERN DISTRICT OF NEW YORK

Civil Action No. 75-3069 (RJW)

United States of America, Plaintiff, v. Korean Hair Goods Association of America, Inc., Defendant.

FINAL JUDGMENT

Plaintiff, United States of America, having filed its Complaint herein on June 24, 1975, and the parties hereto, by their respective attorneys, having consented to the entry of this Final Judgment without trial or adjudication of any issue of fact or law herein, and without admission by any party in respect to any such issue:

NOW, THEREFORE, before the taking of any testimony, without trial or adjudication of any issue of fact or law herein, and upon said consent of the parties hereto, it is hereby ORDERED, ADJUDGED AND DECREED as follows:

I

This Court has jurisdiction of the subject matter of this action and the parties hereto. The Complaint states claims against defendant upon which relief may be granted under Section 1 of the Act of Congress of July 2, 1890, as amended (15 U.S.C. § 1), commonly known as the Sherman Act.

II

As used in this Final Judgment:

(A) "Defendant" means the Korean Hair Goods Association of America, Inc. ("KWA");

(B) "KEA" means the Korean Hair Goods Export Association, an organization whose regular membership is composed of manufacturers and exporters of wigs in the Republic of Korea and any successor thereof;

(C) "Wigs" means goods designed to resemble human hair worn by men and women as replacements or substitutes for, or additions to, their natural hair; the term includes wigs, toupees, chignons and related products;

(D) "Person" means any individual, partnership, firm, association or corporation, or other business or legal entity;

(E) "Member" means any person who was or is a participant in Defendant.

III

The provisions of this Final Judgment shall apply to Defendant, its officers, directors, agents and employees and to its subsidiaries, affiliates, successors and assigns, and to all persons, including Members, in active concert or participation with any of them who receive actual notice of this Final Judgment by personal service or otherwise.

IV

Defendant, whether acting unilaterally or in concert or agreement with any other person, is enjoined and restrained from:

(A) Entering into, adhering to, maintaining, furthering or enforcing, directly or indirectly, any agreement, understanding, plan, program, rule or regulation to raise, fix, stabilize, maintain, suggest, or influence prices, discounts, mark-ups or other terms or conditions for the sale of wigs;

(B) Preevnting, restricting, limiting, or attempting to prevent, restrict, or limit any person or Member from obtaining wigs for sale or from selling wigs to any person or class of persons;

(C) Publishing or distributing any bulletin or disseminating to its members or to any person any information relating to any agreement, understanding, plan, program, regulation or rule to raise, fix, stabilize, maintain, suggest or influence prices, discounts, mark-ups or other terms or conditions of sale for wigs, or to prevent, restrict or limit the persons or class of persons to whom wigs may be sold.

Defendant is enjoined and restrained from furnishing or communicating directly or indirectly to KEA any list indicating the Members of Defendant, and from furnishing or communicating to any person any information concerning the pricing of wigs or sales practices of any other person, except that Defendant, upon written request of a Member, may solicit and collect information relating to the credit standing of a United States customer or proposed customer of such requesting Member, provided such information is disseminated with an accompanying statement that the material is furnished for credit information purposes only and it is solely in the discretion of the requesting Member whether to deal with the person with respect to whom the information is furnished.

VI

Defendant is ordered and directed to admit to membership any applicant who meets reasonable and nondiscriminatory requirements which are not inconsistent with this Final Judgment.

VII

(A) Defendant is ordered and directed within sixty (60) days from the date of entry of this Final Judgment to conform its rules, regulations, by-laws, practices and policies to the terms of this Final Judgment.

(B) Defendant is ordered and directed to file within ninety (90) days of the date of entry of this Final Judgment with the Plaintiff a true copy of its by-laws, rules and regulations as amended.

VIII

Defendant is ordered and directed to require each committee established by it, or under its auspices, which is empowered to consider any of the following matters, to maintain minutes of each meeting of such committee:

(A) Members' complaints or commercial disputes to which any Member is a party;

(B) Market conditions, distribution channels, advertising policies and sales practices concerning wigs;

(C) Trade practices in the United States or Korea;

(D) Relations between the Korean and United States wig industries.

IX

(A) Defendant is ordered and directed to mail to each of its members a conformed copy of this Final Judgment within sixty (60) days from the entry thereof.

(B) Defendant is ordered and directed to distribute a copy of this Final Judgment to each person upon its admission to membership to Defendant.

For the purpose of securing or determining compliance with this Final Judgment, and for no other purpose, and subject to any legally recognized privilege:

(A) Any authorized representative of the Department or Justice shall, upon written request of the Attorney General or of the Assistant Attorney General in charge of the Antitrust Division, or of the authorized representatives of either, and on reasonable notice to Defendant made to its principal office, be permitted:

(1) Access, during office hours of Defendant to all books, ledgers, accounts, correspondence, memoranda, and other records and documents in the possession of or under the control of the Defendant relating to any matters contained in this Final Judgment; and

(2) Subject to the reasonable convenience of Defendant and without restraint or interference from it, to interview officers, employees and agents of Defendant, who may have counsel present, regarding any matters contained in this Final Judgment.

(B) Upon the written request of the Attorney General or of the Assistant Attorney General in charge of the Antitrust Division, or of either of their authorized representatives, made to Defendant's principal office, Defendant shall submit such reports in writing under oath if requested, with respect to any of the matters contained in this Final Judgment as from time to time may be requested.

No information obtained by the means provided in this Section X shall be divulged by any representative of the Department of Justice to any person other than a duly authorized representative of the Executive Branch of the United States except in the course of legal proceedings to which the United States is a party for the purpose of securing compliance with this Final Judgment or as otherwise required by law.

XI

Jurisdiction is retained by this Court for the purpose of enabling the parties to this Final Judgment to apply to this Court at any time for such further orders and directions as may be necessary or appropriate for the construction of or carying out of this Final Judgment, for the modification of any of the provisions of this Final Judgment, for the enforcement of compliance therewith and for the punishment of the violations thereof.

V40239 DEC 11 75 XUM

XII

Entry of this Final Judgment is in the public interest.

Dated: ----------

United States District Judge.

UNITED STATES DISTRICT COURT

SOUTHERN DISTRICT OF NEW YORK

Civil Action No. 75-3069 (RJW)

United States of America, Plaintiff, v. Korean Hair Goods Association of America, Inc., Defendant.

COMPETITIVE IMPACT STATEMENT

Pursuant to Section 2(b) of the Antitrust Procedures and Penalties Act [15 U.S.C. § 16 (b)-(h) P.L. 93-528 (December 21, 1974)], the United States of America hereby files this Competitive Impact Statement relating to a proposed consent judgment in the above entitled action to be entered against defendant Korean Hair Goods Association of America, Inc.

(1) Nature and Purpose of the Proceeding.

This is a civil antitrust action by the United States against the Korean Hair Goods Association of America, Inc. (hereinafter called "KWA"). The complaint, which was filed on June 24, 1975, alleged that defendant KWA and various co-conspirators engaged in an unlawful combination and conspiracy to restrain foreign and interstate trade and commerce in the sale of wigs in violation of Section 1 of the Sherman Act (15 U.S.C. § 1). Named as co-conspirators were the members of KWA, and the Korean Hair Goods Export Association and its members.

Defendant KWA is an organization incorporated in the State of New York with its principal place of business in New York City. The regular membership of KWA is composed of importers of wigs and related products (hereinafter called "wigs") and distributors of these products to wholesalers and retailers in the United States. The Korean Hair Goods Export Association is an organization whose regular membership is composed of manufacturers and exporters of wigs in the Republic of Korea.

The United States sought relief against the defendant enjoining the alleged violations, prohibiting the defendant from engaging in any other future conspiracy or program having a similar purpose or effect, and such other relief as the nature of the case might require.

(2) Practices and Events Giving Rise to the Alleged Violation of the Antitrust Laws.

Most wigs sold in the United States are manufactured out of synthetic fibers designed to resemble human hair and are worn by men and women as replacements or substitutes for, or additions to, natural hair. The vast majority of such wigs are manufactured in the Republic of Korea and imported into the United States.

The complaint alleged that beginning at least as early as 1972 and continuing thereafter up to and including March, 1974, the defendant and co-conspirators engaged in a combination and conspiracy to regulate the wholesale prices and conditions of resale of imported wigs, and agreed to prevent certain wig importers and distributors from obtaining wigs for resale.

The Government would have contended at trial that the charges alleged in the complaint were substantiated by evidence of illegal conduct by defendant and co-conspirators as follows: (1) the regulation of prices and marketing practices of KWA members; (2) agreement with the Korean Hair Goods Export Association that its members would not export wigs to certain importers and distributors in the United States unless they were members of the KWA and adhered to the prices and other marketing practices approved by it; (3) prevention of direct sales to retailers by the United States sales branches of members of the Korean Hair Goods Export Association and the exclusion of these sales branches from the United States.

The practices giving rise to this action were also investigated by a federal grand jury. The grand jury indicted the same defendant as in this action for violations identical to those alleged in the complaint. On October 15, 1975, defendant moved the Court in the criminal action to change its plea from not guilty to *nolo contendere*. The plea was accepted by the Court.

(3) The Proposed Consent Judgment and its Anticipated Effects on Competition.

The proposed consent judgment enjoins defendant from all activities alleged to have constituted the conspiracy. It is anticipated that the conduct prohibited by the judgment and the affirmative duties imposed on the defendant will promote price competition among wig wholesalers and distributors and will insure that the defendant will not in the future prevent any person from obtaining wigs for sale or from selling wigs to anyone.

If the proposed consent judgment is approved by the Court, the consenting defendant, whether acting unilaterally or in concert with any other person, will be enjoined and restrained from: (1) entering into, adhering to or enforcing any agreement or plan to fix or influence prices or other conditions of sale for wigs; (2) preventing or attempting to prevent any person from obtaining wigs for sale or from selling wigs to anyone; and (3) publishing or distributing any bulletin or information relating to any agreement, plan or program to do what is enjoined in (1) or (2) above.

Defendant is also enjoined and restrained from furnishing or communicating to the Korean Hair Goods Export Association any list indicating the membership of defendant, or furnishing or communicating to any person any information concerning the pricing of wigs or sales practices of any other person. The defendant is allowed, however, to solicit and collect information relating to the credit standing of a customer or proposed customer, if such information is requested specifically of a member. The information must be given with an accompanying statement that the material is furnished for credit information purposes only and that it is solely in the discretion of the requesting member whether to deal with the person with respect to whom the information has been furnished. Only that member which specifically requests such information will be entitled to it.

Defendant is ordered and directed to admit to membership any applicant who meets reasonable or nondiscriminatory requirements. Defendant is also ordered to conform its rules, regulations, by-laws, practices and policies to the terms of this Final Judgment and file with the Government a true copy of its by-laws, rules and regulations so amended.

Defendant is also directed to require that minutes be kept of each meeting of any committee established by it which is empowered to consider any of the following matters: (1) members' complaints or commercial disputes to which any member is a party; (2) market conditions, distribution channels, advertising policies and sales practices concerning wigs; (3) trade practices in the United States or Korea; and (4) relations between the Korean and the United States wig industries.

Defendant is also directed to notify each of its members of this judgment within 60 days and to distribute a copy of the judgment to each person upon its admission to membership to the association.

The judgment affords the Government methods of detecting any new violations by interviewing employees or by inspection of documents and records in control of defendant. Such documents and records shall be made available upon the Government's request. Any information obtained by the United States pursuant to the judgment shall not be divulged except as part of enforcement proceedings or as otherwise required by law.

The District Court retains jurisdiction of the case and may modify the provisions of the judgment or add thereto upon application of any of the parties to the consent judgment. Also, the District Court retains jurisdiction for the purpose of enforcing compliance with the consent judgment or punishing violations of it.

(4) Remedies Available to Potential Private Plaintiffs.

Any potential private plaintiffs who might have been damaged by the alleged violations will retain the same right to sue for monetary damages and any other legal and equitable relief which they would have had were the proposed consent judgment not entered. However, this judgment may not be used as *prima facie* evidence in private litigation pursuant to Section 5(a) of the Clayton Act as amended, 15 U.S.C. § 16(a).

(5) Procedures Available for Modification of the Proposed Consent Judgment.

The proposed consent judgment is subject to a stipulation between the United States and the consenting defendant which provides that the United States may withdraw its consent to the proposed judgment at any time before the Court has found that its entry is in the public interest. By its terms, the proposed judgment provides for retention of jurisdiction of this action in order, among other things, to permit either of the parties thereto to apply to the Court for such orders as may be necessary or appropriate for its modification.

As provided by the Antitrust Procedures and Penalties Act, any person believing that the proposed judgment should be modified may, for a 60 day period prior to the effective date of the proposed judgment, submit written comments to the United States Department of Justice, Joel Davidow, Chief, Foreign Commerce Section, Antitrust Division, Washington, D.C. 20530, which will file with the Court and publish in the Federal Register such comments and its response to them. The Department of Justice will thereafter evaluate any and all such comments and determine whether there is any reason for withdrawal of its consent to the proposed judgment.

(6) Alternatives to the Proposed Judgment Considered by the United States.

In view of the fact that the consent judgment provides for relief that does not differ from that sought in the complaint, neither a substantially different judgment nor full trial on the merits was considered as an appropriate alternative to the settlement. The Government considered no alternative proposals which would have materially altered the relief granted in this judgment.

(7) Determinative Documents.

There are no materials or documents, which the Government considered determinative, in formulating this proposed consent judgment. Therefore, none is being filed along with this competitive impact statement.

Dated: December 3, 1975.

JOEL DAVIDOW
STEPHEN P. KILGRIFF
C. FORREST BANNAN
Attorneys, Department of Justice.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

BOISE DISTRICT ADVISORY BOARD

Meeting

Notice is hereby given that the Boise District Multiple Use Advisory Board of the Bureau of Land Management will meet at the Boise District Office, 230 Collins Road, Boise, Idaho at 9:00 a.m., January 8, 1976. The meeting will be devoted principally to the consideration of problems and programs associated with multiple use management of rangeland resources on the National Resource Lands. The meeting will consist of presentations and discussions on the following topics:

1. Kuna Farm Development Plan
2. Discussion of conflict between wild and licensed horses
3. Overview of grazing environmental impact statement program for Boise District.
4. Procedures for programming and reviewing Advisory Board financed range improvement projects.
5. Discussion of proposed Advisory Board tour

The meeting will be open to the public. Time will be made available beginning at 3:00 p.m. on January 8 for brief statements by members of the public. Such statements should be limited to matters set forth in the agenda. Those wishing to make an oral statement on an agenda topic should notify the District Manager, Bureau of Land Management, 230 Collins Road, Boise, Idaho by close of business on January 7, 1976. Any interested person or organization may file a written statement with the Board for its consideration. Such statements may be submitted at the meeting or mailed to the District Manager. Further information concerning the meeting may also be obtained from the District Manager. His telephone number is 342-2711, Ext. 2582.

D. DEAN BIBLES,
District Manager.

DEPARTMENT OF AGRICULTURE

Farmers Home Administration

[Notice of Designation Number A271]

NORTH CAROLINA

Designation of Emergency Areas

The Secretary of Agriculture has determined that farming, ranching, or aquaculture operations have been substantially affected in the following North Carolina Counties as a result of the natural disasters shown below:

Halifax—drought conditions May 15 through July 3, 1975; heavy flooding July 4 through July 21; and drought conditions with excessively high temperatures July 21 through September 1, 1975.

Wayne—excessive rainfall July 3 through July 21, and a drought May 15 through June 30, 1975.

Therefore, the Secretary has designated these areas as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Public Law 94-68, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor James E. Holshouser, Jr., that such designation be made.

Applications for Emergency loans must be received by this Department no later than January 27, 1976, for physical losses and August 27, 1976, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated areas makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 5th day of December, 1975.

FRANK B. ELLIOTT,
Administrator, Farmers Home Administration.

[Notice of Designation Number A272]

NORTH DAKOTA

Designation of Emergency Areas

The Secretary of Agriculture has determined that farming, ranching, or aquaculture operations have been substantially affected in Dunn County, North Dakota, as a result of severe storms (excessive rainfall and hailstorm) with tornado-type winds which occurred on July 1 and August 7, 1975.

Therefore, the Secretary has designated this area as eligible for Emergency loans pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Public Law 94-68, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor Arthur A. Link that such designation be made.

Applications for Emergency loans must be received by this Department no later than January 27, 1976, for physical losses and August 27, 1976, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated area makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 5th day of December, 1975.

FRANK B. ELLIOTT,
Administrator, Farmers Home Administration.

Correction

In FR Doc. 75-32770 appearing at page 57234 in the issue of Monday, December 8, 1975, make the following correction:

On page 57234 in the third column, the table entry for *Guidelines when increased by—25 percent* for "Family size—3" should have read $5,870.

Forest Service

MILL CREEK UNIT PLAN

Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for the Mill Creek Unit Plan, Report Number USDA-FS-DES (Adm) R1-76-10.

The environmental statement concerns environmental impacts, presents resource information, resource allocation decisions, management guidelines, and documents public involvement for the Mill Creek Unit Plan, Clearwater and Salmon River Ranger Districts, Nezperce National Forest, Idaho County, Idaho.

The draft environmental statement was transmitted to CEQ on November 28, 1975.

Copies are available for inspection during regular working hours at the following locations:

USDA Forest Service, South Agriculture Bldg., Room 3230, 12th St. & Independence Ave., S.W., Washington, D.C. 20250.
USDA Forest Service, Northern Region, Federal Building, Missoula, MT 59801.
USDA Forest Service, Nezperce National Forest, 319 E. Main, Grangeville, ID 83530.
USDA Forest Service, Clearwater Ranger District, 319 E. Main, Grangeville, ID 83530.
USDA Forest Service, Salmon River Ranger District, White Bird, ID 83554.

A limited number of single copies are available upon request to Forest Supervisor, Don Biddison, 319 East Main, Grangeville, ID 83530.

Copies of the environmental statement have been sent to various Federal, state and local agencies as outlined in the CEQ guidelines.

Comments are invited from the public, and from state and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to Don Biddison, Forest Supervisor, 319 E. Main, Grangeville, Idaho 83530. Comments must be received by January 28, 1975 in order to be considered in the preparation of the final environmental statement.

DON BIDDISON,
Forest Supervisor.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Center for Disease Control

NATIONAL INSTITUTE FOR OCCUPATIONAL SAFETY AND HEALTH

Statement of Organization, Functions, and Delegations of Authority

Part 9 (Center for Disease Control) of the Statement of Organization, Functions, and Delegations of Authority for the Department of Health, Education, and Welfare (39 FR 1461, January 9, 1974, as amended) is amended to reflect changes in the organization of the National Institute for Occupational Safety and Health (9C00), as follows:

1. Establishment of the Office of Extramural Coordination and Special Projects; Division of Criteria Documentation and Standards Development; Division of Biomedical and Behavorial Science; Division of Physical Sciences and Engineering; Division of Surveillance, Hazard Evaluations, and Field Studies; Appalachian Laboratory for Occupational Safety and Health; and Western Area Laboratory for Occupational Safety and Health.

2. Name change of the Office of Administrative Management to Office of Administrative and Management Services and Office of Planning and Resource Management to Office of Program Planning and Evaluation.

3. Consolidation and transfer of functions from Office of Technical Publications and Division of Occupational Health Programs to Division of Technical Services; from Office of Extramural Activities to Office of Extramural Coordination and Special Projects; from Office of Manpower Development to the Division of Training and Manpower Development; from Office of Research and Standards Development to Division of Criteria Documentation and Standards Development; from Office of Occupational Health Surveillance and Biometrics and Division of Field Studies and Clinical Investigations to Division of Surveillance, Hazard Evaluations, and Field Studies; and from Division of Laboratories and Criteria Development to Division of Biomedical and Behavioral Science, Division of Physical Sciences and Engineering, and Appalachian Laboratory for Occupational Safety and Health.

Section 9–B, *Organization and Functions*, is hereby amended by deleting the statement entitled "National Institute for Occupational Safety and Health (9C00)" and substituting the following heading and succeeding paragraphs:

NATIONAL INSTITUTE FOR OCCUPATIONAL SAFETY AND HEALTH (9C00)

Plans, directs, and coordinates the national program to develop and establish recommended occupational safety and health standards and to conduct research, training, technical assistance, and related activities to assure safe and healthful working conditions for every working man and woman. Specifically: (1) Administers research in the field of occupational safety and health; (2) develops innovative methods and approaches for dealing with occupational safety and health problems; (3) provides medical criteria which will ensure, insofar as practicable, that no employee will suffer diminished health, functional capacity, or life expectancy as a result of work experience, with emphasis on ways to discover latent disease, establishing causal relationship between diseases and work conditions; (4) serves as a principal focus for training programs to increase the number and competence of personnel engaged in the practice of occupational safety and health; (5) develops and coordinates the appropriate reporting procedures which assist in accurately describing the nature of the national occupational safety and health problems; (6) consults with the U.S. Department of Labor; U.S. Department of the Interior; other Federal agencies; and, in cooperation with the PHS Regional Offices, State and local Government agencies and industry and employee organizations with regard to promotion of occupational safety and health.

Office of the Director (9C01). (1) Manages the operations of the Institute; (2) maintains liaison with, and provides advice and assistance to, the U.S. Department of Labor, the U.S. Department of the Interior, other Federal agencies, State and local government agencies, international health organizations, and outside groups; (3) provides liaison with PHS and Departmental components providing occupational health programs for Federal employees; (4) provides policy guidance and coordination to occupational safety and health activities in the HEW Regional Offices; (5) provides leadership and coordinates the Institute's planning, evaluation, resource al-

V40239 DEC 11 75 XUM

location, regulations, legislation, and administrative management activities.

Office of Administrative and Management Services (9C19). (1) Provides management information, advice, and guidance to the Institute; (2) coordinates management activities in the areas of financial management, administrative services, procurement, printing, and facilities; (3) provides technical leadership, guidance, and evaluation of management services performed at other geographic locations; (4) develops necessary policies, procedures, and operations; and provides special reports and studies as required in the administrative management area; (5) provides management systems consultation and analyses; (6) coordinates the utilization of data processing equipment and services within the Institute; (7) assures internal security and safety; (8) maintains liaison with the Executive Officer and Staff Service officials of the Center; (9) serves as the Institute focal point for personnel management activities.

Office of Program Planning and Evaluation (9C21). (1) Plans and coordinates the development of the strategy and philosophy of operation of the Institute regarding mission and objectives; (2) conducts or participates in special studies for program planning and evaluation; (3) conducts the necessary control functions to assure operational compliance toward program objectives within the Institute.

Office of Extramural Coordination and Special Projects (9C24). (1) Provides professional technical advice to the Director and other Institute organizational components; (2) advises the Institute on matters relating to the development and progress of Institute-supported grant research; (3) in cooperation with the offices and operating divisions of the Institute, stimulates research and demonstration grants in relevant priority areas; (4) administers the management aspects of the Institute's grants program by receiving, reviewing, analyzing, and evaluating all grant applications; (5) coordinates programming of research funded under special foreign currency program; (6) coordinates the Institute's research and scientific exchange conducted under bilateral international agreements; (7) maintains contact with professional associations, academic institutions, other Government agencies, and safety and health professionals in HEW Regional Offices; (8) assures Institute compliance with ethical scientific research procedures; (9) conducts or coordinates special short-term technical studies including evaluation of technical information transmitted to the Institute, issuing special advisories to the professional community as appropriate.

Appalachian Laboratory for Occupational Safety and Health (9C41). (1) Conducts and is the Institute focal point for clinical and epidemiological research on nonmalignant occupational respiratory disease; (2) provides legislatively mandated medical and autopsy services under the Federal Coal Mine Health and Safety Act; (3) conducts medical research to fulfill the Institute's responsibilities under the Federal Coal Mine Health and Safety Act; (4) develops and evaluates test protocols; and develops regulations for certification of personal protective devices, industrial hazard measuring devices, and quality control programs; (5) tests and certifies personal protective devices and occupational hazard measuring devices.

Western Area Laboratory for Occupational Safety and Health (9C44). (1) Provides routine analytical chemistry services; (2) designs and conducts research programs in agricultural and noncoal mining safety and health, developing analytical and associated field sampling methods; (3) conducts accident investigations and safety research designed to prevent or mitigate occupational trauma in all industries; (4) develops criteria for occupational safety and health programs unique to agriculture and noncoal mining.

Division of Criteria Documentation and Standards Development (9C48). (1) Develops from existing scientific information criteria for recommended occupational safety and health standards; (2) develops health standards under the Federal Coal Mine Health and Safety Act; (3) in cooperation with the U.S. Department of Labor, reviews and completes existing standards; (4) in coordination with the U.S. Department of Labor, establishes a priority system for conducting research for the development, support, and implementation of regulatory activities.

Division of Surveillance, Hazard Evaluations, and Field Studies (9C51). (1) Develops and maintains a surveillance system of the Nation's work force and its environs to make an early detection and continuous assessment of the magnitude and extent of job related illness, exposures, and hazardous agents; (2) conducts the legislatively mandated health hazard evaluation and industrywide epidemiological research programs through longitudinal record studies and clinical/environmental field studies and surveys to identify the occupational causes of disease in the working population and their offspring, and to determine the incidence and prevalence of acute and chronic effects from work related exposures to toxic and hazardous substances; (3) conducts epidemiological research for input to criteria for standards for the control of occupational health hazards; (4) provides, upon request and on a self-initiated basis, technical assistance, demonstrations, and consultation on technical matters pertaining to occupational safety and health to other Federal agencies, State and local agencies, other technical groups, unions, employers, and employees.

Division of Technical Services (9C53). (1) Develops technical assistance strategies and resources for program development at the Federal, State, and local level; (2) prepares and annually revises the legislatively mandated "NIOSH Toxic Substances List"; (3) conducts a clearinghouse for receiving, storing, retrieving, and disseminating technical information on occupational safety and health hazards; (4) develops guidelines for the classification of occupational disease in compensation programs; (5) promotes and provides technical guidance in the development of occupational safety and health programs at the State and local government level, as well as in industry; (6) analyzes and relates the practice of occupational medicine in industry with the total delivery of health services; (7) develops innovative methods, techniques, and approaches for dealing with occupational safety and health problems; (8) provides statistical services to institute research activities.

Division of Biomedical and Behavioral Science (9C55). (1) Conducts laboratory research for the development of criteria for standards in the areas of toxicology, behavioral science, physiology, ergonomics, and the effects of physical agents; (2) investigates new problems created by technology requiring ameliorative action; (3) develops medical criteria to assure that the work place is not responsible for diminished health, functional capacity, or life expectancy of workers; (4) develops means for identifying latent disease.

Division of Physical Sciences and Engineering (9C58). (1) Develops and evaluates performance criteria for environmental monitoring and personal protective equipment; (2) assesses control technology; (3) conducts research and development activities into equipment and procedures for the measurement and control of occupational health hazards; (4) provides for equipment development, analytical and sampling methods development, and equipment calibration within the Institute and as a service to the U.S. Department of Labor; (5) operates a quality control reference laboratory for analytical laboratories.

Division of Training and Manpower Development (9C62). (1) Designs, develops, plans, and conducts short-term training programs and activities for Federal, State, and local governments, private industry, organized labor, and other appropriate organizations in the field of occupational safety and health; (2) develops training course packages in industrial hygiene, safety, and occupational medicine and nursing; and arranges for cooperative training programs by qualified outside organizations; (3) determines occupational safety and health manpower needs on a Nationwide basis; defines and evaluates manpower certification/accreditation programs; and establishes career development guidelines for occupational safety and health occupations; (4) stimulates training grants and establishment of national manpower development resources supporting the defined needs.

Dated: December 3, 1975.

THOMAS S. MCFEE,
Acting Assistant Secretary for Administration and Management.

Office of Education

NATIONAL ADVISORY COUNCIL ON EQUALITY OF EDUCATIONAL OPPORTUNITY

Notice of Public Meeting

Notice is hereby given, pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), that the National Advisory Council on Equality of Educational Opportunity will convene at 9 a.m. on Friday, January 16, until 5 p.m. and reconvene at 9 a.m. on Saturday, January 17, until 3:30 p.m. at the Kyoto Inn, Sutter & Buchanan Streets, San Francisco, California. On Thursday, January 15, at the Kyoto Inn, the Subcommittee on Special Projects will meet from 9:30 a.m. until 11:30 a.m. and the Subcommittee on Legislation will meet from 1:30 p.m. until 3:30 p.m.

The National Advisory Council on Equality of Educational Opportunity is established under section 716 of the Emergency School Aid Act (Pub. L. 92–318, Title VII, as amended by Pub. L. 93–380). The Council is established to advise the Assistant Secretary for Education with respect to the operation of programs under the Act, and to review the operation of such programs.

The meeting of the Council shall be open to the public. The Subcommittee Chairmen will give reports to the full Council on projected activities for the coming year. There will be a report from the National Institute of Education regarding activities in the area of desegregation and reports from the staff on the internal business of the Council.

Signed at Washington, D.C. on December 8, 1975.

LEO A. LORENZO,
Executive Director.

TEACHER CORPS PROJECTS

Rescission of Closing Date for Receipt of Applications

Pursuant to the authority contained in Part B–1 of the Education Professions Development Act of 1965, as amended (79 Stat. 1255–1258 as amended, 20 U.S.C. 1101–1107a), notice is hereby given that the U.S. Commissioner of Education has rescinded the previously announced closing date of December 15, 1975 for receipt of Fiscal Year 1976 Teacher Corps applications. This date was previously published in the FEDERAL REGISTER on July 18, 1975.

This rescission is necessary because the Teacher Corps funding criteria have not yet been approved for publication: A new closing date will be published simultaneously with the funding criteria at a future date.

Dated: December 4, 1975.

(Catalog of Federal Domestic Assistance Number 13.489; Teacher Corps—Operations and Training)

T. H. BELL,
U.S. Commissioner of Education.

Food and Drug Administration

[Docket No. 75P-0277]

LABELING OF PRESCRIPTION DRUGS FOR PATIENTS

Availability of Petition To Require Written Warning Labels on Prescription Drugs

The Commissioner of Food and Drugs is extending to March 8, 1976 the time for filing comments on the petition to require written warning labels on prescription drugs.

The Commissioner gave notice, in the FEDERAL REGISTER of November 7, 1975 (40 FR 52075), of the availability of the subject petition and requested comments thereon by February 5, 1976.

The Commissioner has considered a request from Consumers Union, one of the petitioners, to extend the comment period an additional 30 days.

The Commissioner hereby extends the time for filing comments, and interested persons may, on or before March 8, 1976, submit written comments (preferably in quintuplicate and identified with the docket number found in the heading of this notice) regarding the petition to the Hearing Clerk, Food and Drug Administration, Rm: 4–65, 5600 Fishers Lane, Rockville, MD 20852.

Dated: December 4, 1975.

SAM D. FINE,
Associate Commissioner for Compliance.

[Docket No. 75N-0184]

CERTAIN DRUG PRODUCTS CONTAINING AN ANTICHOLINERGIC/ANTISPASMODIC IN COMBINATION WITH A SEDATIVE/TRANQUILIZER; ANTISPASMODIC DRUGS ALONE

Drugs for Human Use; Drug Efficacy Study Implementation; Permission for Drugs to Remain on the Market

Correction

In FR Doc. 75–30273, appearing at page 52644 in the issue for Tuesday, November 11, 1975, under the center heading "DESI 3265", in the second line of the paragraph numbered "3", the quantity "10 mg" should read "5mg/5cc".

Social and Rehabilitation Service

FAMILY MEDIAN INCOME BY STATE

Eligibility for Social Services Under Title XX of the Social Security Act, as Amended

Promulgation is made of the median income of a family of four for each State and for the States as a whole, applicable to the period October 1, 1976 through September 30, 1977, for the purpose of determining the extent of Federal financial participation (FFP) in State expenditures under Title XX of the Social Security Act, under the provision of sections 2002(a)(5)(B) and 2002(a)(6)(A) and (B) of that Act. These sections impose certain limitations with respect to the availability of FFP based upon the relationship of the income of the family of a service recipient to the median income of a family of four in the State, adjusted in accordance with regulations prescribed by the Secretary to take into account the size of the family.

Estimates of the median incomes of families of four persons for each State and the District of Columbia were developed by the Bureau of the Census. In developing the median income scale, the Bureau of the Census used as its base the "Detailed Characteristics" PC(1)D–1 through PC(1)D–53, Chart 199, dated 1970. This represented the most recent median income data by State by family size. Adjustments were made by using the Bureau of Economic Analysis "Per Capita Personal Income," by State and Region for Selected Years, dated August 1975; and unpublished data from the Census Bureau's Current Population Survey by State.

The methodology for adjusting median income for families of different sizes is specified in 45 CFR 228.60.

The median incomes for a family of four, by State, for fiscal year 1977—with calculations at the 80% and 115% levels—are set forth below for use by States in establishing income ceilings and fee schedules under Title XX of the Social Security Act:

Median income for families of 4

State	Median income	80 pct of median income	115 pct of median income
Alabama	$12,805	$10,244	$14,726
Alaska	19,368	15,494	22,273
Arizona	15,220	12,184	17,515
Arkansas	11,890	9,512	13,674
California	15,931	12,745	18,321
Colorado	15,629	12,503	17,973
Connecticut	16,476	13,181	18,947
Delaware	15,231	12,185	17,516
District of Columbia	15,033	12,074	17,357
Florida	14,788	11,830	17,006
Georgia	13,996	10,933	15,716
Hawaii	17,020	13,655	19,629
Idaho	14,075	11,260	16,186
Illinois	16,250	13,000	18,803
Indiana	14,478	11,582	16,650
Iowa	14,371	11,497	16,527
Kansas	14,395	11,516	16,554
Kentucky	12,514	10,011	14,391
Louisiana	12,600	10,080	14,490
Maine	12,552	10,042	14,435
Maryland	16,650	13,320	19,148
Massachusetts	15,630	12,504	17,975
Michigan	16,174	12,939	18,600
Minnesota	15,792	12,634	18,161
Mississippi	11,582	9,250	13,306
Missouri	13,770	11,016	15,836
Montana	13,936	10,949	15,729
Nebraska	13,364	10,691	15,369
Nevada	15,357	12,286	17,661
New Hampshire	13,986	11,189	16,084
New Jersey	16,727	13,382	19,236
New Mexico	12,143	9,714	13,964
New York	15,160	12,135	17,444
North Carolina	13,183	10,546	15,160
North Dakota	15,005	12,004	17,256
Ohio	15,121	12,097	17,389
Oklahoma	12,645	10,116	14,542
Oregon	15,013	12,010	17,265
Pennsylvania	14,489	11,591	16,662
Rhode Island	14,404	11,523	16,565
South Carolina	13,055	10,444	15,013
South Dakota	12,924	10,259	14,745
Tennessee	12,788	10,230	14,706
Texas	13,924	11,139	16,013
Utah	14,003	11,202	16,103
Vermont	13,145	10,516	15,117
Virginia	15,130	12,104	17,400
Washington	15,401	12,321	17,711
West Virginia	12,589	10,055	14,464
Wisconsin	15,398	12,318	17,706
Wyoming	14,833	11,866	17,056

NOTE.—The median income for a family of 4 in the 50 States and the District of Columbia, applicable to the period Oct. 1, 1976, through Sept. 30, 1977, is $14,747.

V40239 DEC 11 75 XUM

Dated: November 17, 1975.

JOHN C. YOUNG,
Acting Administrator, Social and Rehabilitation Service.

DEPARTMENT OF TRANSPORTATION

COAST GUARD

[CGD 75-233]

NEW YORK HARBOR VESSEL TRAFFIC SYSTEM ADVISORY COMMITTEE

Open Meeting

This is to give notice in accordance with Section 10(a) of the Federal Advisory Committee Act (Pub. L. 92-463; 5 U.S.C. App. 1), of 6 October 1972, that the New York Harbor Vessel Traffic System Advisory Committee will conduct an open meeting on Wednesday, 14 January 1976, in the Auditorium of Building 108, Governors Island, New York beginning at 10:30 AM.

Members of the Committee and their positions are:

Admiral John M. WILL, USN (Ret.) (Chairman), State of New York Board of Commissioners of Pilots.
Mr. H. H. ANDERSON, Jr., Yacht Racing Association of Long Island Sound.
Captain H. C. BREITENFELD, United New York Sandy Hook Pilots' Benevolent Association.
Captain W. H. BURRILL, State of New Jersey Board of Commissioners of Pilots.
Mr. P. R. ELLIOTT, U.S. Environmental Protection Agency.
Commissioner V. J. FOSSELLA, P.E., New York City Department of Marine and Aviation
Captain H. E. FRITZKE, Jr., USN, U.S. Navy, Military Sealift Command.
Mr. A. GIALLORENZI, American Institute of Merchant Shipping—Petroleum Industry Representative.
Mr. A. HAMMON, Port Authority of New York and New Jersey.
Colonel T. C. HUNTER, Jr., USA, Department of the Army, Corps of Engineers.
Captain T. A. KING, U.S. Department of Commerce, Maritime Administration.
Captain T. J. McGOVERN, United New Jersey Sandy Hook Pilots' Benevolent Association.
Mr. R. W. SANDERS, New York Harbor Panel, Marine Towing and Transportation Industry.
Captain S. M. SELEDEE, American Institute of Marine Underwriters.
Captain J. G. STILLWAGGON, Interport Pilots' Associates, Inc.
Captain K. C. TORRENS, American Institute of Merchant Shipping.

The summarized agenda for this meeting consists of:

1. Report from the Executive Committee given by Captain K. C. TORRENS, Chairman of the Executive Committee.
2. Implementation Schedule Status for the New York Vessel Traffic System.
3. Presentation of the Operating Procedures for the New York Vessel Traffic System.
4. Comments or questions from the floor.

The New York Harbor Vessel Traffic System Advisory Committee was established by the Commander, Third Coast Guard District to advise on the need for, and development, installation and operation of a Vessel Traffic System for the New York Harbor. Public members of the Committee serve voluntarily without compensation from the Federal Government, either travel or per diem.

Interested persons may seek additional information by writing Commander D. A. SUMI, Project Officer, Vessel Traffic System, Building 400, Section N, Third Coast Guard District, Governors Island, New York, New York, 10004, or by calling (212) 264-0409.

Dated: November 25, 1975.

W. F. REA, III,
Vice Admiral, U.S. Coast Guard Commander, Third Coast Guard District.

EQUIPMENT, CONSTRUCTION, AND MATERIALS

Approval Notice

1. Certain laws and regulations (46 CFR Chapter I) require that various items of lifesaving, firefighting and miscellaneous equipment, construction, and materials used on board vessels subject to Coast Guard inspection, on certain motorboats and other recreational vessels, and on the artificial islands and fixed structures on the outer Continental Shelf be of types approved by the Commandant, U.S. Coast Guard. The purpose of this document is to notify all interested persons that certain approvals have been granted as herein described during the period from October 2, 1975 to October 23, 1975 (List No. 25-75). These actions were taken in accordance with the procedures set forth in 46 CFR 2.75-1 to 2.75-50.

2. The statutory authority for equipment, construction, and material approvals is generally set forth in sections 367, 375, 390b, 416, 481, 489, 526p, and 1333 of Title 46, United States Code, section 1333 of Title 43, United States Code, and § 198 of Title 50, United States Code. The Secretary of Transportation has delegated authority to the Commandant, U.S. Coast Guard with respect to these approvals (49 CFR 1.46(b)). The specifications prescribed by the Commandant, U.S. Coast Guard for certain types of equipment, construction, and materials are set forth in 46 CFR Parts 160 and 164.

3. The approvals listed in this document shall be in effect for a period of 5 years from the date of issuance, unless sooner cancelled or suspended by proper authority.

LIFEBOATS

Approval No. 160.035/311/4, 24.0' x 8.0' x 3.5' steel, motor-propelled lifeboat without radio cabin or searchlight, Class 1, 37 person capacity, Alternate 1: Westerbeke Four-107 engine, identified by drawing list DL-24-9E dated June 16, 1970 and general arrangement drawing 24-9E dated June 12, 1970, Alternate 2: Lister ST 2-MG(R) engine, identified by drawing list DL-S-24-L1 dated October 10, 1975 and general arrangement drawing S-24-L1 Rev. A dated October 10, 1975, 46 CFR 160.035-13(c) Marking, Weights: Alternate 1: Condition "A" = 4,085 pounds; Condition "B" = 11,182 pounds, Alternate 2: Condition "A" = 4,060 pounds; Condition "B" = 11,137 pounds, manufactured by Marine Safety Equipment Corporation, Foot of Wyckoff Road, Farmingdale, New Jersey 07727, effective October 20, 1975. (It reinstates and supersedes Approval No. 160.035/311/3 terminated August 3, 1975 to show alternate engine.)

Approval No. 160.035/410/8, 30.0' x 10.0' x 4.33' fibrous glass reinforced plastic (FRP), hand-propelled lifeboat, 78-person capacity, identified by general arrangement dwg. No. P-30-1H, revision N dated May 14, 1970, 46 CFR 160.035-13(c) Marking, Weights: Condition "A" = 5,010 pounds; Condition "B" = 19,149 pounds, uses "Type M" hand-propelled gear, Approval No. 160.034/18/0, manufactured by Marine Safety Equipment Corporation, Foot of Wyckoff Road, Farmingdale, New Jersey 07727, effective October 20, 1975. (It reinstates and supersedes Approval No. 160.035/410/7 terminated June 4, 1975.)

Approval No. 160.035/474/3, Model 1401 survival capsule, 11.2' diameter x 3.35' depth, fibrous glass reinforced plastic (FRP) motor-propelled, totally enclosed model, 14-person capacity, alternate for lifeboat, inflatable life raft or life float identified by master drawing list for Model 1401, revision C dated October 9, 1975, standard drawing list for Models 1401 and 1000, revision B dated October 9, 1975, and general arrangement drawing CA1401-101, revision B dated September 30, 1975, approved for use only on artificial islands, fixed structures, and drilling rigs, both self-propelled semi-submersible and nonself-propelled, Marking, Weights: Condition "A" = 2,310 pounds; Condition "B" = 5,483 pounds, manufactured by Whittaker Corporation, Survival Systems Division, 5159 Baltimore Drive, La Mesa, California 92041, effective October 20, 1975. (It supersedes Approval No. 160.035/474/2 dated June 9, 1975 to show revision of drawing lists.)

Approval No. 160.035/480/2, Model CA2801, 14.0' diameter x 4.8' depth fibrous glass reinforced plastic (FRP) motor-propelled, totally enclosed "Brucker" survival capsule fitted with Farymann S30M engine, 28 person capacity, as alternate for lifeboat, inflatable life raft or life float identified by Master Drawing List Model CA2801, dated September 23, 1975 and by general & equipment arrangement drawing No. CA2801-101, revision B dated August 4, 1975, approved for use only on artificial islands, fixed structures, and drilling rigs, both self-propelled semi-submersible nonself-propelled, Marking, Weights: Condition "A" = 4,350 pounds; Condition "B" = 9,562 pounds, manufactured by Whittaker Corporation, Survival Systems Division, 5159 Baltimore Drive, La Mesa, California 92041, effective October 20, 1975. (It supersedes Approval No. 160.035/480/1 dated June 6, 1975 to show revision of Master Drawing List.)

MARINE BUOYANT DEVICE

Approval No. 160.064/916/0, child medium, Model 173121, vinyl dipped unicellular plastic foam "Water Ski Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 243, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121 for OMC Parts & Accessories, A Division of Outboard Marine Corporation, McClure Street, Galesburg, Illinois 61401, effective October 7, 1975. (It supersedes Approval No. 160.064/916/0 dated October 1, 1975 to show correction in address of distributor.)

Approval No. 160.064/967/0, child medium, Model No. 200-CS, vinyl dipped unicellular plastic foam "Sail and Ski Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 242, Type III PFD, manufactured by Texas Recreation Corporation, Texas Watercrafters Division, 912 N. Beverly Drive, Wichita Falls, Texas 76307, for Rand Manufacturing Corporation, 14615 N.E. 91st Street, Redmond, Washington 98052, effective October 3, 1975. (It supersedes Approval No. 160.064/967/0 dated July 16, 1975 to show new Model No.)

Approval No. 160.064/968/0, child medium, Model No. 200-CM, vinyl dipped unicellular plastic foam "Sail and Ski Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 242, Type III PFD, manufactured by Texas Recreation Corporation, Texas Watercrafters Division, 912 N. Beverly Drive, Wichita Falls, Texas 76307, for Rand Manufacturing Corporation, 14615 N.E. 91st Street, Redmond, Washington 98052, effective October 3, 1975. (It supersedes Approval No. 160.064/968/0 dated July 16, 1975 to show new Model No.)

Approval No. 160.064/969/0, adult, Model No. 200-S, vinyl dipped unicellular plastic foam "Sail and Ski Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 242, Type III PFD, manufactured by Texas Recreation Corporation, Texas Watercrafters Division, 912 N. Beverly Drive, Wichita Falls, Texas 76307, for Rand Manufacturing Corporation, 14615 N.E. 91st Street, Redmond, Washington 98052, effective October 3, 1975. (It supersedes Approval No. 160.064/969/0 dated July 16, 1975 to show new Model No.)

Approval No. 160.064/970/0, adult, Model No. 200-M, vinyl dipped unicellular plastic foam "Sail and Ski Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 242, Type III PFD, manufactured by Texas Recreation Corporation, Texas Watercrafters Division, 912 N. Beverly Drive, Wichita Falls, Texas 76307, for Rand Manufacturing Corporation, 14615 N.E. 91st Street, Redmond, Washington 98052, effective October 3, 1975. (It supersedes Approval No. 160.064/970/0 dated July 16, 1975 to show new Model No.)

Approval No. 160.064/971/0, adult, Model No. 200-L, vinyl dipped unicellular plastic foam "Sail and Ski Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 242, Type III PFD, manufactured by Texas Recreation Corporation, Texas Watercrafters Division, 912 N. Beverly Drive, Wichita Falls, Texas 76307, for Rand Manufacturing Corporation, 14615 N.E. 91st Street, Redmond, Washington 98052, effective October 3, 1975. (It supersedes Approval No. 160.064/971/0 dated July 16, 1975 to show new Model No.)

Approval No. 160.064/972/0, adult Model No. 200-XL, vinyl dipped unicellular plastic foam "Sail and Ski Vest," manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD Report file No. MQ 242, Type III PFD, manufactured by Texas Recreation Corporation, Texas Watercrafters Division, 912 N. Beverly Drive, Wichita Falls, Texas 76307, for Rand Manufacturing Corporation, 14615 N.E. 91st Street, Redmond, Washington 98052, effective October 3, 1975. (It supersedes Approval No. 160.064/972/0 dated July 16, 1975 to show new Model No.)

Approval No. 160.064/973/0, child small, Model No. 205, cloth covered unicellular plastic foam "Buoyant Vest," manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 38, factory location: 308 S. William Street, Hazlehurst, Georgia 31539, Type III PFD, manufactured by Ero Industries, Inc., 1924-34 N. Washtenaw Avenue, Chicago, Illinois 60647, effective October 23, 1975.

Approval No. 160.064/974/0, child medium, Model No. 205, cloth covered unicellular plastic foam "Buoyant Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 38, factory location: 308 S. William Street, Hazlehurst, Georgia 31539, Type III PFD, manufactured by Ero Industries, Inc., 1924-34 N. Washtenaw Avenue, Chicago, Illinois 60647, effective October 23, 1975.

Approval No. 160.064/975/0, adult, Model No. 205, cloth covered unicellular plastic foam "Buoyant Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 38, factory location: 308 S. William Street, Hazlehurst, Georgia 31539, Type III PFD, manufactured by Ero Industries, Inc., 1924-34 N. Washtenaw Avenue, Chicago, Illinois 60647, effective October 23, 1975.

Approval No. 160.064/976/0, adult, Model No. 205, cloth covered unicellular plastic "Buoyant Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 38, factory location: 308 S. William Street, Hazlehurst, Georgia 31539, Type III PFD, manufactured by Ero Industries, Inc., 1924-34 N. Washtenaw Avenue, Chicago, Illinois 60647, effective October 23, 1975.

SAFETY VALVES (POWERBOILERS)

Approval No. 162.001/262/0, Type 1910 GC consolidated safety relief valve, dwg. 1900 G, approved for 300-lb. ASA pressure temperature ratings with a maximum temperature of 450° F., manufactured by DRESSER, Industrial Valve & Instrument Division, P.O. Box 1430, Alexandria, Louisiana 71301, effective October 21, 1975. (It is an extension of Approval No. 162.001/262/0 dated November 3, 1970.)

Approval No. 162.001/286/0, Style HNP-MS-35-6 drum pilot safety valve, carbon steel body, maximum pressure of 900 p.s.i., maximum temperature 650° F., dwg. No. D-40015-2, approved for sizes 1½" and 2", drawing revised to show change in material specifications, manufactured by Crosby Valve & Gage Company, Wrentham, Massachusetts 02093, effective October 21, 1975. (It is an extension of Approval No. 162.001/286/0 dated November 16, 1970.)

SAFETY RELIEF VALVES, LIQUEFIED COMPRESSED GAS

Approval No. 162.018/32/2, Style JO-25 safety relief valve for liquefied petroleum gas and anhydrous ammonia service, full nozzle type metal to metal seat, 150 p.s.i. primary service pressure rating, approved for inlet diameters of 1 inch through 6 inches for a maximum set pressure of 300 p.s.i.g., drawing revised to show change in material specification, manufactured by Crosby Valve and Gage Company, Wrentham, Massachusetts 02093, effective October 21, 1975. (It is an extension of Approval No. 162.018/32/2 dated November 18, 1970.)

Approval No. 162.018/59/0, Crosby style JB-25 safety relief valve for liquefied compressed gas service, approved for inlet diameters of 1½ inch through 6 inches for a maximum set pressure of 165 p.s.i. for orifices F, G, H, J, K, L, M, N, P, and Q, and a maximum set pressure of 100 p.s.i. for orifice R, with a maximum temperature of 450° F., drawing revised to show change in material specifications, manufactured by Crosby Valve and Gage Company, Wrentham, Massachusetts 02093, effective October 21, 1975. (It is an extension of Approval No. 162.018/59/0 dated November 18, 1970.)

Approval No. 162.018/60/0, Crosby style JB-25-3 safety relief valve for liquefied compressed gas service, approved for inlet diameters of 1½ inch through 6 inches inclusive, for a maximum set pressure of 275 p.s.i. for orifices F, G, H, J, K, L, M, N, and P; 165 p.s.i. for orifice Q; and 100 p.s.i. for orifice R, with a maximum temperature of 450° F., drawing revised to show change in material specifications, manufactured by Crosby Valve and Gage Company, Wrentham, Massachusetts 02093, effective October 21, 1975. (It is an extension of Approval No. 162.018/60/0 dated November 18, 1970.)

Approval No. 162.018/61/0, Crosby style JB-26 safety relief valve for liquefied compressed gas service, approved for inlet diameters of 1½ inch through 6 inches inclusive, for a maximum set pressure if 92 p.s.i., with a maximum temperature of 800° F., drawing

V40239 DEC 11 75 XUM

revised to show change in material specifications, manufactured by Crosby Valve and Gage Company, Wrentham, Massachusetts 02093, effective October 21, 1975. (It is an extension of Approval No. 162.018/61/0 dated November 18, 1970.)

Approval No. 162.018/62/0, Crosby style JB–26–3 safety relief valve for compressed gas service, approved for inlet diameters of 1½ inch through 6 inches for a maximum set pressure of 275 p.s.i. for orifices F, G, H, J, K, L, M, N, and P; 165 p.s.i. for orifice Q; and 100 p.s.i. for orifice R, with a maximum temperature of 800° F., drawing revised to show change in material specification, manufactured by Crosby Valve and Gage Company, Wrentham, Massachusetts 02093, effective October 21, 1975. (It is an extension of Approval No. 162.018/62/0 dated November 18, 1970.)

HALON 1301 FIXED FIRE EXTINGUISHING SYSTEM

Approval No. 162.029/7/0, Halex 1301 Model 8.5, pre-engineered Halon 1301 marine type extinguishing system unit type, identical to that described in Underwriters Laboratories, Inc. report file EX2988 dated September 29, 1975, approved for use on recreational boats and certain other uninspected vessels, manufactured by Norris Industries, Fire and Safety Equipment Division, P.O. Box 2750, Newark, New Jersey 07114, effective October 20, 1975.

Approval No. 162.029/8/0, Halex 1301 Model 17, pre-engineered Halon 1301 marine type extinguishing system unit type, identical to that described in Underwriters Laboratories, Inc. report file EX2988 dated September 29, 1975, approved for use on recreational boats and certain other uninspected vessels, manufactured by Norris Industries, Fire and Safety Equipment Division, P.O. Box 2750, Newark, New Jersey 07114, effective October 20, 1975.

Approval No. 162.029/9/0, Halex 1301 Model 25, pre-engineered Halon 1301 marine type extinguishing system unit type, identical to that described in Underwriters Laboratories, Inc. report file EX2988 dated September 29, 1975, approved for use on recreational boats and certain other uninspected vessels, manufactured by Norris Industries, Fire and Safety Equipment Division, P.O. Box 2750, Newark, New Jersey 07114, effective October 20, 1975.

Approval No. 162.029/10/0, Halex 1301 Model 33, pre-engineered Halon 1301 marine type extinguishing system unit type, identical to that described in Underwriters Laboratories, Inc. report file EX2988 dated September 29, 1975, approved for use on recreational boats and certain other uninspected vessels, manufactured by Norris Industries, Fire and Safety Equipment Division, P.O. Box 2750, Newark, New Jersey 07114, effective October 20, 1975.

BACKFIRE FLAME CONTROL, GASOLINE ENGINES; FLAME ARRESTERS; FOR MERCHANT VESSELS AND MOTORBOATS

Approval No. 162.041/190/1, Barbron all brass flame arresters, Model No. suffixed by "B" Barbron all aluminum flame arresters, Model No. suffixed by "AA" Model No. indicates units size: first two digits indicate units diameter 57=5.7''): second two digits indicate element height (15=1.5'') last two digits are base code,

571501	572020	571518	572018
571519	571520	575001	572001
571520	571721	573001	571003
571003	572002	572201	572501
571003	571503	571504	575003
571004	571204	571304	572007
571004	572005	572006	571507
571010	572008	571509	572009
571510	571212	575010	572011
571012	571112	571213	571512
571513	572013	571113	571517
571014	572015	571516	571317

the majority of these models were previously approved units, due to their similarities these units are grouped together to eliminate the long list of approval numbers which now exist for Barbron Corporation, Note: last two digits of drawing No. indicate particular base, manufactured by Barbron Corporation, 18580 Lesure Avenue, Detroit, Michigan 48227, effective October 2, 1975. (It supersedes Approval No. 162.041/190/0 dated August 25, 1975.)

BULKHEAD PANELS FOR MERCHANT VESSELS

Approval No. 164.008/73/0, "Asahi Marilite P" inorganic composition board type bulkhead panel identical to that described in Underwriters Laboratories, Inc. report R7709–1(75NK3921) dated September 24, 1975, approved as meeting Class B–15 requirements in a 19mm thickness, may not be used as a component in A–60 construction, dwg. forms a part of this approval, manufactured by Asahi Asbestos Company, Ltd., 10–6, 7-Chome, Ginza, Chuo-Ku, Tokyo 104, Japan, effective October 21, 1975.

Approval No. 164.008/83/0, Frigitemp Marine "FMD Lining System Panel" marine bulkhead lining system identical to that described in Underwriters Laboratories, Inc. test report R7749–1-(75NK5918) dated August 18, 1975, and Frigitemp letter of October 7, 1975, and as shown on Frigitemp's drawing BHD–STD–1, Rev. A approved as meeting Class B–15 requirements, may not be used as component in a Class A–60 configuration. plants located at: Plant #1, Bronx, New York; Plant #2, Woodridge, New Jersey; Plant #3, Gulfport, Mississippi; FMD Compton, Compton, California, manufactured by Frigitemp Marine, 585 Washington Street, New York, New York 10014, effective October 20, 1975.

Dated: December 4, 1975.

W. M. BENKERT,
Rear Admiral, U.S. Coast Guard, Chief, Office of Merchant Marine Safety.

Office of Hazardous Materials Operations

HAZARDOUS MATERIALS REGULATIONS EXEMPTIONS

Notice of Grants and Denials of Applications

In accordance with the procedures governing the application for, and the processing of, exemptions from the Department of Transportation's Hazardous Materials Regulations (49 CFR Part 107, Subpart B), notice is hereby given of the exemptions granted or denied from October 24, 1975 through November 21, 1975. The modes of transportation involved are identified by a number in the "Nature of Exemption or Denial Thereof" portion of the table below as follows: 1—Motor Vehicle, 2—Rail Freight, 3—Cargo Vessel, 4—Cargo Aircraft, 5—Passenger Carrying Aircraft.

Application numbers prefixed by the letters AK represent applications received in the State of Alaska, and those prefixed by the letters EE represent applications for emergency exemptions.

National Highway Traffic Safety Administration

SAFETY-RELATED DEFECT PROCEEDING

Denial of Petition Concerning Dodge Truck Wheel Nuts

This notice sets forth the reasons for denial of a petition by Mr. William J. Pierce to commence a defects investigation proceeding under authority of the National Traffic and Motor Vehicle Safety Act.

This notice is published in accordance with section 124 of the Act, 15 U.S.C. 1410a, which provides that the National Highway Traffic Safety Administration must grant or deny petitions within 120 days, and "If the Secretary denies such petition he shall publish in the FEDERAL REGISTER his reasons for such denial."

In his petition Mr. Pierce sought a proceeding to determine whether 1974 Dodge trucks were unsafe because the vehicles were manufactured with right-hand threaded wheel lugs and nuts. Mr. Pierce alleged that this design allows the lug nuts on a left-side wheel to loosen under normal usage, and that this leads to the loss of the wheel. A 1974 Dodge truck, owned by Mr. Pierce, nearly lost its left rear wheel when all of its wheel nuts came off.

Mr. Pierce's petition was denied because of the lack of evidence indicating that Dodge's use of right-hand threaded wheel lugs and nuts was a defect. The presence of right-hand threaded wheel lugs and nuts on Mr. Pierce's truck does not appear to have been the cause of the loss of the wheel nuts on the truck. The NHTSA has found that a more likely reason for the loss was the use of coned lug nuts rather than the flanged type recommended by Dodge, when Mr. Pierce had his truck, originally equipped with single rear wheels, modified to have dual rear wheels. A comprehensive records check by this agency did not reveal any other complaints of a similar nature among owners of 1971–1975 Dodge trucks

(Sec. 103, Pub. L. 89-563, 80 Stat. 718 (15 U.S.C. 1392); Sec. 106, Pub. L. 93-492, 88 Stat. 1482 (15 U.S.C. 1410a); delegations of authority at 49 CFR 1.51 and 49 CFR 501.8)

Issued on December 5, 1975.

AMERICAN REVOLUTION BICENTENNIAL ADMINISTRATION

AUDIO-VISUAL PRODUCTION

"Count Me In"

Notice is hereby given that the American Revolution Bicentennial Administration (ARBA) has a 45-minute, sound and color audio-visual, multi-media production entitled "COUNT ME IN," available for promotion and exhibition in secondary schools throughout the Nation on a non-exclusive basis. This original multi-media stage show was developed under contract by the ARBA as a Bicentennial assembly program in secondary schools. The production includes film, music, props, live performances and audience participation and is intended to stimulate awareness of the Bicentennial among high school students and to encourage their involvement in local Bicentennial activities. Interested organizations will be required to provide assurance of their professional and financial capability to stage the production including actual performances in a secondary school and other requirements as may be deemed necessary. The ARBA may include such terms and conditions as it deems appropriate in connection with any authorization for the presentation of the "COUNT ME IN" production. Inquiries should be directed in writing to the ARBA, 2401 E Street NW., Washington, D.C. 20276, Attention: William P. Butler, and postmarked no later than January 12, 1976.

JOHN W. WARNER,
Administrator.

CIVIL SERVICE COMMISSION

FEDERAL EMPLOYEES PAY COUNCIL

Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act, Pub. L. 92-463, notice is hereby given that the Federal Employees Pay Council will meet at 10:00 a.m. on Wednesday, December 31, 1975. This meeting will be held in room 5A06A of the U.S. Civil Service Commission building, 1900 E. Street, NW., and will consist of continued discussions on future comparability adjustments for the statutory pay systems of the Federal Government, which are defined in section 5301 of title 5, United States Code.

The Chairman of the U.S. Civil Service Commission is responsible for the making of determinations under section 10(d) of the Federal Advisory Committee Act as to whether or not meetings of the Federal Employees Pay Council shall be open to the public. He has determined that this meeting will consist of exchanges of opinions and information which, if written, would fall within exemptions (2) or (5) of 5 U.S.C. 552(b). Therefore, this meeting will not be open to the public.

For the President's Agent:

RICHARD H. HALL,
Advisory Committee Management Officer for the President's Agent.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-467-6]

APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Notice of Public Hearings

On October 31, 1975 (40 FR 40103) the Administrator of the United States Environmental Protection Agency published his proposed approval of numerous alternative and additional federal compliance schedules for stationary sources subject to the terms of 40 CFR 52.1594, 52.1595 and 52.1598. These regulations deal, respectively, with the storage of volatile organic liquids, organic liquid loading and gasoline transfer vapor control.

As provided in the publication of the Administrator's proposed approval, public hearings have been scheduled in order to afford the general public an opportunity to participate in this rulemaking. accordingly, announcement is hereby made of the following public hearings:

Thursday, January 15, 1976, 10:00 a.m.

Room Law Schol 103, Rutgers University, 4th and Penn Streets, Camden, New Jersey 08102.

Friday, January 16, 1976, 10:00 a.m.

Room 312, Institute Center, New Jersey Institute of Technology, 323 High Street, Newark, New Jersey 07102.

Any member of the general public may submit written comments concerning the compliance schedules before, during or immediately after the hearings. Comments may be mailed to Walter E. Mugdan, Legal Advisor, General Enforcement, Branch, Enforcement Division, U.S. Environmental Protection Agency, Region II, 26 Federal Plaza, New York, New York 10007.

Copies of the compliance schedules proposed to be approved, along with copies of the New Jersey State Implementation Plan of which they are a part, are available for public inspection at the following locations:

United States Environmental Protection Agency, Region II, 26 Federal Plaza, New York, New York 10007.

United States Environmental Protection Agency, Division of Stationary Source Enforcement, 401 M Street SW., Washington, D.C. 20460.

Dated: December 5, 1975.

HERBERT BARRACK,
Acting Regional Administrator, U.S. Environmental Protection Agency.

[OPP-240003; FRL 467-8]

STATES OF LOUISIANA, IDAHO, AND TENNESSEE

Approval of Requests for Interim Certification To Register Pesticides To Meet "Special Local Needs"

On July 3, 1975, final regulations for the registration, reregistration, and classification of pesticides pursuant to section 3 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136), were published in the FEDERAL REGISTER (40 FR 28241). These regulations became effective August 4, 1975. Since that date, States have been prohibited from issuing new registrations for pesticide products or uses of pesticide products which are not registered by the Environmental Protection Agency (EPA), except pursuant to certification from the Administrator in accordance with section 24(c) of FIFRA.

On September 3, 1975, proposed regulations for State Registration of Pesticides to Meet Special Local Needs under section 24(c), FIFRA, were published in the FEDERAL REGISTER (40 FR 40538). Since it did not prove possible to pro-

V40239 DEC 11 75 XUM

mulgate final section 24(c) regulations prior to the effective date of the FIFRA section 3 regulations, some interruption in the authority of States to register pesticides has occurred. In order to prevent further disruption of State registration programs (particularly in relation to minor uses), a procedure has been established by which States may request interim certification to register pesticides to meet special local needs until such time as the final section 24(c) regulations are promulgated. If such a request is granted, a State may register pesticides subject to the terms of the certification and other limitations set out in the Preamble to the proposed regulations. Interim certification will expire if the State has not submitted a plan pursuant to the final section 24(c) regulations within 60 days after the effective date of these regulations, or, if such a plan is submitted and it is disapproved by the Administrator, on the effective date of the Administrator's disapproval.

A state may request interim certification to register pesticides to meet special local needs at any time by having the Governor or Chief Executive Officer or their designee submit a request in writing to the Administrator. The request shall satisfy the requirements set out in the FEDERAL REGISTER announcement of the Interim Certification program (40 FR 40542), and the statutory standard set forth in section 24(c) of FIFRA.

The FEDERAL REGISTER announcement of the Interim Certification program provides that the Administrator shall notify the State of his approval or denial of a request for Interim Certification and publish notice of approval or denial in the FEDERAL REGISTER. The announcement further states that since the Agency expects Interim Certification to be of limited duration, it will not solicit public comment with respect to requests for Interim Certification. Adequate opportunity for public comment on State plans submitted pursuant to final section 24(c) regulations is provided for in proposed § 162.158(c).

The Agency has received Requests for Interim Certification to register pesticides to meet special local needs (Request(s)) from the States of Louisiana, Idaho, and Tennessee. After reviewing the Requests, the Agency found that they satisfy the requirements set forth in the FEDERAL REGISTER announcement, and that they demonstrate that each of the States is capable of exercising adequate controls to assure that special local needs registrations it issues pursuant to Interim Certification will be in accord with the purposes of FIFRA.

Accordingly, notice is hereby given that the EPA has approved Requests for Interim Certification from the States of Louisiana, Idaho, and Tennessee as described below, subject to the terms set forth in the FEDERAL REGISTER document of September 3, 1975.

LOUISIANA, IDAHO AND TENNESSEE

The Louisiana, Idaho, and Tennessee Requests for Interim Certification sought authority to register "new products", as that term is defined in § 162.152(g) of the proposed regulations, to amend EPA registrations which involve "changed use patterns", as that term is defined in § 162.152(c), and to amend EPA registrations which do not involve changed use patterns. The Agency has found that the specific requirements of the Interim Certification program are satisfied in the Requests. Procedures for product hazard review and efficacy determination are part of the States' registration programs; these procedures are adequate to assure that special local needs registrations issued by these States will be in accord with the purposes of FIFRA. The State agencies which have been designated responsible for issuance of such registrations are, respectively, the Louisiana Department of Agriculture, the Idaho Department of Agriculture, and the Tennessee Department of Agriculture. These agencies were notified on December 3, 1975, that their Requests had been approved.

Copies of the Louisiana, Idaho, and Tennessee Requests for Interim Certification, along with letters reflecting the Agency's decision to approve the Requests, are available for public inspection at the following locations:

Federal Register Section, Technical Services Division (WH-569), Office of Pesticide Programs, EPA, Room 401, East Tower, 401 M St. SW., Washington, D.C. 20460.

Pesticide Branch, Hazardous Materials Control Division, EPA, 1600 Patterson Street, Suite 1100, Dallas, Texas 75201. (*Louisiana Request only*).

Pesticide Branch, Hazardous Materials Control Division, EPA, 1200 6th Avenue, Seattle, Washington 98101. (*Idaho Request only*).

Pesticide Branch, Hazardous Materials Control Division, EPA, 1421 Peachtree Street, N.E., Room 112, Atlanta, Georgia 30309. (*Tennessee Request only*).

Dated: December 4, 1975.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

[OPP-42010; FRL 467-7]

STATE OF OREGON

Submission of State Plan; Certification of Pesticide Applicators

In accordance with the provisions of Section 4(a)(2) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136), and 40 CFR Part 171 [39 FR 36446 (October 9, 1974) and 40 FR 11698 (March 12, 1975)], the Honorable Robert W. Straub, Governor of the State of Oregon, has submitted a State Plan for Certification of Commercial and Private Applicators of Restricted Use Pesticides to the Environmental Protection Agency (EPA) for approval. Notice is hereby given of the intention of the Regional Administrator, EPA, Region X, to approve this plan on a contingency basis, pending promulgation of implementing regulations.

A summary of this plan follows. The entire plan, together with all attached appendices, may be examined during normal business hours at the following locations:

Oregon State Department of Agriculture, 635 Capitol St. NE., Salem, Oregon 97310.

Room 11C of the Park Place Building, 1200 Sixth Avenue, Pesticides Branch, Air & Hazardous Materials Division, Seattle, Washington 98101.

Room 401, East Tower, Waterside Mall, 401 M Street SW., Washington, D.C. 20460 (Federal Register Section, Technical Services Division (WH-569), Office of Pesticide Programs).

SUMMARY OF OREGON STATE PLAN

The Oregon State Department of Agriculture has been designated as the State lead agency for the administration of the pesticide applicator certification program with the Pesticide Branch of the Plant Division responsible for the program's implementation. This includes coordinating a notification effort for prospective restricted use pesticide applicators, licensing of pesticide dealers and pest control consultants, enforcement activities and the coordination of field, laboratory, and office activities relating to pesticide regulation.

The cooperating agencies are Oregon State University (OSU) Cooperative Extension Service and the Department of Environmental Quality (DEQ). Personnel from the Extension Service have overall responsibility for the statewide pesticide applicator certification training program, including preparing training materials and conducting the training courses. DEQ has authority over disposal of pesticides and empty pesticide containers.

Legal authority for the program is contained in the following statutes and regulations: Oregon Revised Statutes (ORS), Chapters 634, 561 and 183 and Oregon Administrative Rules (OAR), chapter 603-57-(005-075, 110 (part I), 205 and 210) and proposed regulations thereto.

The plan indicates that the State lead agency and the cooperative agency have or will have sufficient qualified personnel and funds necessary to carry out the proposed programs. The funding in support of this program for the fiscal year 1976 is approximately $191,250.00, of which $97,000.00 is Federal funds.

The State estimates that 3,521 commercial applicators and 20,000 private applicators will need to be certified. Wallet size identification certificates containing all necessary information will be furnished to all applicators, and presented to dealers at the time of restricted use pesticide purchase.

The State lead agency will submit an annual report to EPA by April 30 of each year to cover the previous year's activities. Additional reports pertaining to specific needs will also be submitted as requested by EPA.

The commercial applicator categories proposed are those which are listed in 40 CFR 171.3. No new categories are proposed. Several new subcategories are proposed for the following categories:

(1) Agricultural Pest Control:
  (a) Insecticide and Fungicide.
  (b) Herbicide.
  (c) Soil Fumigation.
  (d) Livestock Pest Control.
(3) Ornamental and Turf Pest Control:
  (a) Insecticide and Fungicide.
  (b) Herbicide.
(7) Industrial, Institutional, Structural and Health Related Pest Control:
  (a) PCO General.
  (b) PCO Structural Destroying Pests.
  (c) Grain Fumigation.
(9) Regulatory Pest Control:
  (a) Predator Control.

Since Oregon has been testing commercial pesticide applicators for thirteen years, the Department of Agriculture is requesting that persons presently holding commercial applicator licenses be certified on the basis of the examinations they originally took. However, they will be required to take an examination on applicable laws and regulations. It is Oregon's contention that the original examinations and the to-be-administered examination on laws and regulations meet the Federal standards (40 CFR 171.4(b) and (c) and 171.6).

Training for commercial applicators will consist of short courses conducted annually by the Cooperative Extension Service. In addition, refresher courses will be held throughout the State.

Performance testing will be required in the subcategory of predator control. A field training course covering safe use of the M-44 will be given.

The States of Oregon, Idaho and Washington have entered into agreement for reciprocal certification of commercial pesticide applicators. Persons who have been examined (starting in the fall of 1975) and who have received certification in one state may make application for certification in the other states without further examination. Information about the training courses and examination schedules may be obtained from the county agent (State Cooperative Extension Service) or by contacting the Senate Department of Agriculture, Pesticide Branch in Salem, Oregon (tel. 503-378-3776.).

Private applicators will be certified for the use of restricted use pesticides under one of the following procedures:

(1) For full certification the applicant must pass a written examination which will be based on information prepared by OSU and the EPA core manual. An examination will be given following completion of short courses offered by OSU Extension Service. These training short courses will be conducted and repeated in each county during the winters of 1975-1976 and 1976-1977 by County Extension Agents. Prior to the training courses, the participants will receive 100 study questions. They will be asked to complete the questions and bring them to the course. During the meeting the questions will be discussed. After the training period is over the participants will complete an examination of 30 questions selected from the 100 previously studied. Home study of the various written materials (available at county agent offices) followed by individual examinations at Oregon Department of Agriculture branch offices will be an alternative for those unable to attend the training course.

(2) Limited certification will be issued to persons wishing to be certified only for use of individual products. An "open-label" examination will be given at branch offices of the Oregon Department of Agriculture. Emergency certification will also be handled through the limited certification option.

Oral examinations will be made available on a product-by-product basis by the pesticide branch for private applicators with reading problems.

Training and examinations for the private applicator will cover the Federal standards as listed in 40 CFR 171.5 and 171.6 as well as information reflecting conditions found in Oregon. Oregon's State plan indicates that all commercial certified applicators will be retested at least every five years. Study materials and examinations will be changed and improved as new knowledge becomes available. To encourage participation in special training courses sponsored by the OSU Extension Service, the Oregon Department of Agriculture intends to exempt from retesting those applicators who attend three accredited training sessions within the five-year license period.

Private and commercial applicator certification programs will be made available to pesticide applicators on Indian Reservations in Oregon. Both Umatilla and Warm Springs Reservations have indicated that they will not be developing their own program and will utilize Oregon's. Letters to this effect are included in the plan.

Enforcement of the Oregon certification program will include product sampling and formulation site inspection, damage complaint investigations and pesticide residue surveillance of food products. Alleged misuses will be investigated to determine if legal action should be taken. Utilization of the cooperative enforcement agreement between EPA and the Oregon Department of Agriculture, and interagency cooperation within the State with the Oregon Fish and Wildlife Commission, the Health Division and the Department of Environmental Quality will supplement the Department's formal enforcement activities.

PUBLIC COMMENTS

Interested persons are invited to submit written comments on the proposed State Plan for the State of Oregon to the Chief, Pesticides Branch, Region X, Environmental Protection Agency, 1200 Sixth Avenue, Seattle, Washington, 98101. The comments must be received on or before January 12, 1976, and should bear the identifying notation [OPP-42010]. All written comments filed pursuant to this notice will be available for public inspection at the above mentioned locations from 8:30 to 3:30 Monday through Friday.

Dated: November 24, 1975.

L. EDWIN COATE,
Deputy Regional Administrator, U.S. Environmental Protection Agency, Region X.

[OPP-240002; FRL 467-5]

STATES OF TEXAS, OREGON, HAWAII, GEORGIA, MAINE, AND VIRGINIA

Approval of Requests for Interim Certification To Register Pesticides To Meet "Special Local Needs"

On July 3, 1975, final regulations for the registration, reregistration, and classification of pesticides pursuant to section 3 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136), were published in the FEDERAL REGISTER (40 FR 28241). These regulations became effective August 4, 1975. Since that date, States have been prohibited from issuing new registrations for pesticide products or uses of pesticide products which are not registered by the Environmental Protection Agency (EPA), except pursuant to certification from the Administrator in accordance with section 24(c) of FIFRA.

On September 3, 1975, proposed regulations for State Registration of Pesticides to Meet Special Local Needs under section 24(c), FIFRA, were published in the FEDERAL REGISTER (40 FR 40538). Since it did not prove possible to promulgate final section 24(c) regulations prior to the effective date of the FIFRA section 3 regulations, some interruption in the authority of States to register pesticides has occurred. In order to prevent further disruption of State registration programs (particularly in relation to minor uses), a procedure has been established by which States may request interim certification to register pesticides to meet special local needs until such time as the final section 24(c) regulations are promulgated. If such a request is granted, a State may register pesticides subject to the terms of the certification and other limitations set out in the Preamble to the proposed regulations. Interim certification will expire if the State has not submitted a plan pursuant to the final section 24(c) regulations within 60 days after the effective date of these regulations, or, if such a plan is submitted and it is disapproved by the Administrator, on the effective date of the Administrator's disapproval.

A State may request interim certification to register pesticides to meet special local needs at any time by having the Governor or Chief Executive Officer or their designee submit a request in writing to the Administrator. The request shall satisfy the requirements set out in the

V40239 DEC 11 75 XUM

FEDERAL REGISTER announcement of the Interim Certification program (40 FR 40542), and the statutory standard set forth in section 24(c) of FIFRA.

The FEDERAL REGISTER announcement of the Interim Certification program provides that the Administrator shall notify the State of his approval or denial of a request for Interim Certification and publish notice of approval or denial in the FEDERAL REGISTER. The announcement further states that since the Agency expects Interim Certification to be of limited duration, it will not solicit public comment with respect to requests for Interim Certification. Adequate opportunity for public comment on State plans submitted pursuant to final section 24(c) regulations is provided for in proposed in section 162.158(c).

The Agency has received Requests for Interim Certification to register pesticides to meet special local needs (Request(s) from the States of Texas, Oregon, Hawaii, Georgia, Maine, and Virginia. After reviewing the Requests, the Agency found that they satisfy the requirements set forth in the FEDERAL REGISTER announcement, and that they demonstrate that each of the States is capable of exercising adequate controls to assure that special local needs registrations it issues pursuant to Interim Certification will be in accord with the purposes of FIFRA.

Accordingly, notice is hereby given that the EPA has approved Requests for Interim Certification from the States of Texas, Oregon, Hawaii, Georgia, Maine, and Virginia as described below, subject to the terms set forth in the FEDERAL REGISTER document of September 3, 1975.

TEXAS, OREGON, HAWAII, AND GEORGIA

The Texas, Oregon, Hawaii, and Georgia Requests for Interim Certification sought authority to register "new products", as that term is defined in Section 162.152(g) of the proposed regulations, to amend EPA registrations which involve "changed use patterns", as that term is defined in Section 162.152(c), and to amend EPA registrations which do not involve changed use patterns. This Agency has found that the specific requirements of the Interim Certification program are satisfied in the Requests. Procedures for product hazard review and efficacy determination are part of the States' registration programs; these procedures are adequate to assure that special local needs registrations issued by these States will be in accord with the purposes of FIFRA. The State agencies which have been designated responsible for issuance of such registrations are, respectively, the Texas Department of Agriculture, the Oregon Department of Agriculture, the Hawaii Department of Agriculture, and the Georgia Department of Agriculture. These agencies were notified on November 20, 1975, that their Requests had been approved.

MAINE AND VIRGINIA

The Maine and Virginia Requests for Interim Certification sought authority to amend EPA registrations which involve changed use patterns, and to amend EPA registrations which do not involve changed use patterns. This Agency has found that the specific requirements of the Interim Certification program are satisfied in these two Requests. Procedures for product hazard review and efficacy determination are part of the States' registration programs; these procedures are adequate to assure that special local needs registrations issued by these States will be in accord with the purposes of FIFRA. The State agencies have been designated responsible for issuance of such registrations are the Maine Department of Agriculture and the Virginia Department of Agriculture and Commerce, respectively. These State agencies were notified on November 20, 1975, that their Requests had been approved.

Copies of the Requests for Interim Certification from Texas, Oregon, Hawaii, Georgia, Maine, and Virginia, along with letters reflecting the Agency's decision to approve the Requests, are available for public inspection at the following locations:

Federal Register Section, Technical Services Division (WH-569), Office of Pesticide Programs, EPA, Room 401, East Tower, 401 M Street, SW., Washington, D.C. 20460.

Pesticide Branch, Hazardous Materials Control Division, EPA, 1600 Patterson Street, Suite 1100, Dallas, Texas 75201. (*Texas Request only*).

Pesticide Branch, Hazardous Materials Control Division, EPA, 1200 6th Avenue, Seattle, Washington 98101 (*Oregon Request only*).

Pesticide Branch, Hazardous Materials Control Division, EPA, 100 California Street, Room 340, San Francisco, California 94111. (*Hawaii Request only*).

Pesticide Branch, Hazardous Materials Control Division, EPA, 1421 Peachtree Street, NE., Room 112, Atlanta, Georgia 30309. (*Georgia Request only*).

Pesticide Branch, Hazardous Materials Control Division, EPA, John F. Kennedy Federal Bldg., Room 2303, Boston. (*Maine Request only*).

Pesticide Branch, Hazardous Materials Control Division, EPA, Curtis Building, 6th and Walnut Streets, Philadelphia, Pennsylvania 19106. (*Virginia Request only*).

Dated: December 4, 1975.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

[FR Doc.75-33421 Filed 12-10-75;8:45 am]

FEDERAL COMMUNICATIONS COMMISSION

[FCC 75-1260; Docket No. 20650, File No. BPH-8843; Docket No. 20651, File No. BPH-8988; Docket No. 20652, File No. BPH-9044; Docket No. 20653, File No. BPH-9175]

BROADCASTERS AND PUBLISHERS, INC. ET AL.

Applications for Construction Permits

1. The Commission has before it the above-captioned applications which are mutually exclusive in that they seek the same FM Chanel in Gulfport, Mississippi.

2. Broadcasters and Publishers, Inc., has failed to indicate when its original community leader interviews were conducted. Thus, the extent of its compliance with the six-month requirement imposed by question and answer 15 of the Primer on the Ascertainment of Community Problems by Broadcast Applicants, 27 FCC 2d 650 (1971), cannot be determined. In addition, although manufacturing contributes significantly to the Gulfport economy, the applicant has included no manufacturing representatives in its list of community leaders. In light of these factors, an ascertainment issue will be specified.

3. WGUF, Inc., has similarly failed to indicate when its original community leader interviews were conducted. Further, the applicant states that "general public members interviewed were selected at random in a house-to-house survey in Gulfport and on a random basis of on the street, face to face interviews." In the Report and Order accompanying the release of the Primer, the Commission stated that "a random selection [of the general public] may be taken from a city directory, or may be done on a geographical distribution basis." 27 F.C.C. at 667. It is therefore not clear whether the selection process used by WGUF, Inc., to assure randomness was consistent with the procedures required by the Primer. Accordingly, an appropriate issue will be specified.

4. The financial portion of the application of Mississippi Gulfshore Broadcasting Company [MGBC] indicates that it will require a total of $92,716 to construct and operate the proposed facility for a period of one year, without revenue, itemized as follows:

Down payment on equipment	$8,600
1st-year payments on equipment with interest	9,116
Miscellaneous	4,500
Working capital	70,500
	92,716

To meet this requirement, MGBC relies on a $100,000 personal line of credit from Mr. Marshall Watkins, a partner in the applicant. However, on his balance sheet, Watkins has failed to segregate current assets and current liabilities as required. In addition, neither the stocks and bonds listed, nor the exchanges on which they are traded are identified. Further, if all liabilities are deemed to be current, Watkins appears to have current liabilities well in excess of current assets. Finally, the letter evidencing the loan fails to state the collateral requirements involved, if any, and the specific rate of interest to be charged. In light of these factors, funds cannot be considered available from this loan, and a financial issue will be included.

5. The financial portion of the application of Gulf South Broadcasters of Mississippi, Inc. [Gulf South] indicates that it will require a total of $47,752 to construct and operate the proposed facility for a period of one year, without revenue, itemized as follows:

Down payment on $26,000 for equipment	$1,810
13 additional payments at $603.20 (including interest)	7,842
Miscellaneous	10,740
Working capital	27,360
	47,752

To meet this requirement, the applicant relies on a $7,000 stock subscription and a $50,000 personal loan, both from Mr. Joseph M. Costello, III, majority shareholder of the applicant. Costello's balance sheet shows current liabilities in excess of current assets, and no funds are therefore available from this source. However, the lender asserts that funds sufficient to meet his commitment will be available from the cash flow of WRNO (FM), New Orleans, Louisiana, of which he is the sole owner. The most recent financial data from WRNO indicate, however, that the station suffered a net loss in 1974,[1] and, therefore, $57,000 may not reasonably be considered available from that source. Finally, Costello has submitted a letter purportedly evidencing a bank loan to him personally. These funds would be made available to the applicant. However, the letter does not appear to be a firm commitment.[2] Accordingly, it does not appear that any funds will be available to meet the necessary expenses, and an appropriate issue will be specified.

6. With respect to the assertion, noted in paragraph 5, supra, that funds would be available from the cash flow of WRNO, it is noted that, for 1972 and 1973, the station reported to the Commission net profits of $53,305 and $40,160, respectively.[3] In 1974, the station suffered a net loss of $10,322. In contrast, Gulf South asserts that "profits [from WRNO] have exceeded $100,000 for each of the past three years." It is therefore apparent that the financial position of WRNO has been misrepresented to the Commission, either in the station's financial reports or in the instant application. In either case, a misrepresentation issue is warranted and will be specified. Cf. Radio New Jersey, 46 F.C.C. 2d 818 (1974).

7. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. However, since the proposals are mutually exclusive, they must be designated for hearing in a consolidated proceeding on the issues specified below.

8. Accordingly, It is ordered, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine the efforts made by Broadcasters and Publishers, Inc., to ascertain the community problems of the area to be served and the means by which the applicant proposes to meet those problems.

2. To determine the efforts made by WGUF, Inc., to ascertain the community problems of the area to be served and the means by which the applicant proposed to meet those problems.

3. To determine whether Mississippi Gulfshore Broadcasting Company is financially qualified to construct and operate its proposed station.

4. To determine whether Gulf South Broadcasters of Mississippi, Inc., is financially qualified to construct and operate its proposed station.

5. To determine, with respect to the application of Gulf South Broadcasters of Mississippi, Inc.:

(a) Whether the financial position of WRNO has been intentionally misrepresented; and

(b) Whether, in light of the evidence adduced pursuant to (a), above, the applicant possesses the requisite character qualifications to be a Commission licensee.

6. To determine which of the proposals would, on a comparative basis, best serve the public interest.

7. To determine, in light of the evidence adduced pursuant to the foregoing issues, which of the applications should be granted.

9. It is further ordered, That, to avail themselves of the opportunity to be heard, the applicants herein, pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall, within 20 days of the mailing of this Order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

10. It is further ordered, That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended and § 1.594 of the Commission's rules, give notice of the hearing, either individually or, if feasible and consistent with the rules, jointly, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the rules.

Adopted: November 12, 1975.

Released: December 1, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

[FR Doc.75-33345 Filed 12-10-75;8:45 am]

[FCC 75R-446; Docket No. 20503, File No. BPH-8695; Docket No. 20504, File No. BPH-8744; Docket No. 20505, File No. BPH-8918; Docket No. 20506, File No. BPH-9235]

LEE J. COOPER ET AL.

Applications for Construction Permits

By the Review Board: Board Member Emerson absent. Board Member Ohlbaum concurring in the result only and Board Member Zlas dissenting with respect to addition of issue.

1. Before the Review Board is a motion to enlarge issues, filed July 7, 1975, by Community North Broadcasters, Inc. (Community) seeking the addition of various issues against C. Alfred Dick (Dick), Lee J. Cooper tr/as Ra-Ad of Soddy (Ra-Ad), and Teeter—Taylor Enterprises (Teeter-Taylor).[1] [2]

STAFFING ISSUE

2. In support of the requested staffing issue, Community states that Teeter-Taylor's proposed itemization of salaries appears to indicate that no salaries are to be paid to partners Rheubin M. Taylor, Richard B. Teeter, and Claude E. Carson, who will serve, respectively, as the proposed station's full-time general manager, part-time program director/sales manager, and full-time chief engineer/public affairs director.[3] Accordingly, movant asserts, a substantial question is raised as to how each of the partners can afford financially to devote the amount of time to station operations which the application proposes. Moreover, Community maintains that none of the partners in question has cash reserves adequate to support him for a year.[4] Therefore, movant contends that the applicant should be required to show in greater detail the sources of income of the respective partners and how they intend to meet their financial needs during the year. Finally, Community claims that it is not clear whether the partners' commitments to perform clerical work, sales, general supervision of the station, and some on-the-air responsibilities are in addition to their aforenoted functions; therefore, movant argues, it is impossible to know the extent of the proposed involvement of the partners and to evaluate the reasonableness of the applicant's staffing proposal.

3. The Review Board will deny Community's request for a staffing issue. An amendment, filed August 14, 1975, by Teeter-Taylor and accepted by Order of the Presiding Judge, FCC 75M-1521, re-

[1] This information appears in the WRNO financial showing filed in Form 324.

[2] The letter reads in part: "Our understanding [that we would be agreeable to making a loan] is subject to the execution of a mutual, loan agreement which would contain the terms and provisions of the loan."

[3] See N. 1, *supra*.

[1] The applications of Ra-Ad and of Dick for new FM stations in Soddy-Daisy, Tennessee, were dismissed with prejudice by Orders of the Presiding Judge, FCC 75M-1498, released September 4, 1975 and FCC 75M-1683, released October 2, 1975 respectively. Consequently, Community's request for various issues against these applicants is now moot and we shall therefore discuss in this opinion only Community's requests for staffing, financial, and efficient use of frequency issues against Teeter-Taylor.

[2] Other related pleadings before the Board are: (a) opposition, filed August 14, 1975, by Dick; (b) Broadcast Bureau's partial opposition, filed August 22, 1975; (c) opposition, filed August 22, 1975, by Teeter-Taylor; and (d) reply, filed September 12, 1975, by Community.

[3] According to the original application, both Taylor and Carson propose to devote 40 hours per week to the station; Teeter proposes to devote 20 hours per week.

[4] Movant cites the partners' financial statements submitted in Exhibit E of Teeter-Taylor's application indicating $1,000 cash on hand for Taylor; $2,000 cash reserve for Carson; and $5,300 cash on hand for Teeter.

V40239 DEC 11 75 XUM

leased September 5, 1975, satisfactorily answers any questions raised concerning the feasibility of the applicant's staffing proposal. The amendment, which specifically describes the duties of each partner, indicates that Mr. Taylor will devote 30 hours per week to the station (amended from 40 hours) and will also continue to engage in the practice of law; that Mr. Teeter will continue to practice law as a full-time occupation and will be paid by commission for advertising sold; and that Mr. Carson is to be paid a $5,000 salary by the applicant and in addition has recently established a retail business and will receive income from it. It thus appears from the amendment that each of the principals in question will have a continuing source of income independent of the proposed station (and one principal, Carson, will earn a salary as well) and there is nothing to indicate that they could not meet their employment commitments to the applicant. *Cf. James B. Francis*, 41 FCC 2d 303, 27 RR 2d 1337 (1973). See also *WWKY, Inc.*, 44 FCC 2d 239, 28 RR 2d 1551 (1973).

Thus, we conclude, in accordance with established precedent that since effectuation of Teeter-Taylor's proposal is not inherently improbable, and no specific allegations demonstrating that the proposal cannot be carried out have been made, no issue is warranted. See *Radio Geneva, Inc.*, 42 FCC 2d 254, 27 RR 2d 1680 (1973); *Harold James Sharp*, 54 FCC 2d 1236 (1975).[5]

FINANCIAL ISSUES

4. Community first requests an issue to determine the ability of partners Teeter, Taylor, and Carson to meet their respective financial commitments to the enterprise.[6] In support, movant claims that since these partners will receive no salaries, or at best only minimal salaries for their work at the station, they will be forced to utilize their cash reserves in order to support themselves; therefore, Community argues, the cash reserves of these partners cannot be relied upon to support their pledges to the partnership. Community next asserts that Teeter-Taylor's representation that "clerical work will be handled by partners or persons under their employ for other purposes" necessitates specification of financial issues to determine who is to provide the funds for the station's clerical work. Movant asserts that if the salaries are to be paid by the partners, it must be determined whether they are financially able to provide such funds and how such a commitment would affect their ability to contribute remaining financial resources to the partnership. Community alleges that such an inquiry is particularly warranted in light of Teeter-Taylor's already questionable financial situation.[7] Community further claims that Teeter-Taylor's reliance on the availability of deferred credit from its equipment supplier is not at all assured. In support, movant refers to a letter from the supplier, dated August 16, 1974, stating the terms on which it would be willing to extend credit to Teeter-Taylor.[8] Movant contends that the contingent nature of the commitment raises a substantial doubt as to the availability of the credit, citing *Parkell Broadcasting, Inc.*, — FCC 2d —, 32 RR 2d 812 (1975). Finally, Community notes that general partner Ward Crutchfield pledges "to mortgage real estate or otherwise borrow or contribute funds to make a capital contribution in the amount of $45,000" while also pledging his real estate holdings as collateral to secure a bank commitment of $60,000 to the partnership. However, Community argues that Crutchfield's real estate holdings are inadequate to secure both a direct bank loan to the partnership and a personal loan to the partnership from Crutchfield. Accordingly, movant requests an issue to determine whether the proposed lenders are willing to rely upon Crutchfield's real estate holdings as collateral for the loans.

5. In opposition, Teeter-Taylor asserts that Community's allegations that its principals will have to rely upon their cash reserves to meet their personal needs is pure speculation and must be rejected in light of the August 14 amendment. In addition, the applicant maintains that Community has not established that the proposal to have personnel of an existing law firm, with which all of Teeter-Taylor's general partners are associated, do minor clerical work is unreasonable. With respect to the availability of deferred credit from its equipment supplier, Teeter-Taylor asserts that Community's reliance on *Parkell Broadcasting, Inc., supra*, is misplaced since that case deals with a bank loan rather than a letter of credit from an equipment supplier. Moreover, the applicant contends that the language in its equipment credit letter is similar to the language approved by the Commission in *Commercial Radio Institute*, 48 FCC 2d 223, 31 RR 2d 12 (1974). Finally, Teeter-Taylor asserts that any ambiguity concerning the adequacy of Crutchfield's assets to secure financing for the station has been resolved by the amendment of August 14, 1975.[9]

6. The Board will deny the requested financial issues concerning the partnership, the collateral for the bank loan, and funding for the clerical work. First, it appears that the partners' ability to meet their financial commitments to the partnership is already in issue in this proceeding. See note 7, *supra*. Second, according to its July 25, 1975 letter, the Pioneer Bank states that it is familiar with Crutchfield's real estate holdings and finds them to be acceptable collateral for the amount of the loan. And, third, we agree with the applicant that its clerical work proposal is reasonable and no showing to the contrary has been made by movant. However, we believe that the wording of the equipment supplier's letter of credit does raise a substantial doubt as to the availability of the credit. Although letters of credit customarily reserve the right to review the applicant's future financial condition, the wording of these reservations usually implies or expresses that the manufacturer has already examined and is satisfied with the applicant's current financial status. See *Snake River Valley Television, Inc.*, 26 FCC 2d 380, 20 RR 2d 644 (1970).[10] Such an implication cannot be found in the letter of credit in this case. It can only be inferred from the wording of this letter that the manufacturer has not as yet reviewed the applicant's financial status, or that it has done so and has not found the financial condition adequate for the issuance of the standard letter of credit. See *Tri-Cities Broadcasting Corp.*, 10 FCC 2d 490, 11 RR 2d 609 (1967). Therefore, the Board will specify an appropriate issue.

EFFICIENT USE OF FREQUENCY ISSUE

7. In support of its request, Community asserts that it proposed to operate 162 hours per week whereas Teeter-Taylor proposes to operate 112 hours per week. Therefore, Community contends, since Teeter-Taylor's proposed station will remain silent for one hour out of every three, its proposal is prima facie a less efficient use of the frequency than Community's proposal and either addition of an efficient use of frequency issue or consideration of this matter under the standard comparative issue is warranted. Movant urges that the considerations expressed in *Jones T. Sudbury*, 8 FCC 2d 360, 10 RR 2d 114 (1967), where AM/FM program duplication was found to be "wasteful, inefficient, and undesirable" are equally applicable to a proposal for less than full-time utilization of authorized broadcast hours.

8. The Board will deny Community's requested issue. Initially, as the Broadcast Bureau notes, the Commission's *Policy Statement On Comparative Broadcast Hearings*, 1 FCC 2d 393, 5 RR 2d 1901 (1965), speaks of efficiency as an engineering matter whereas Community's request relates only to the number of hours broadcast per week. Moreover, although Community has labeled its request an efficient use of frequency issue, it appears that Community is seeking essentially a comparative programming issue based upon the differences in hours of operation. However, movant has made no attempt to relate the differences in the proposed hours of operation to its ascertainment of community needs, and absent such a showing, an issue is not warranted. See *Eastern Broadcasting Corp.*, 31 FCC 2d 724, 22 RR 2d 966 (1971). Compare *Erway Television Corporation*, 8 FCC 2d 24, 9 RR 2d 1376 (1967), affirmed as modified FCC 67-926, *recon. denied* FCC 67-1566.[11]

ESTIMATED COSTS ISSUE

9. Community contends that Teeter-Taylor's estimated costs of operation are "patently understated." Specifically, movant notes that while the applicant stated it would have five staff employees, salaries for only four are listed. Therefore, according to Community, an additional first year salary expense of $4,160 (based on the Federal minimum wage and a 40 hour work week) must be assumed. In addition, Community contends that the applicant's intention to rely upon "TAB Bulletins" as a source for information of Commission rules indicates that Teeter-Taylor will join the Tennessee Association of Broadcasters. However, Community charges that the applicant has failed to allocate $100 for membership in that organization and $400 in license fees for ASCAP and BMI.[12] Community concludes that Teeter-Taylor's omission of at least $4,600 in essential costs demonstrates a lack of thoroughness on the part of the applicant and suggests the omission or understatement of other essential costs.

10. The Board will deny the requested issue. The applicant explained in its opposition pleading that the discrepancy in its application between the number of staff persons specified and the number of salaries listed was the result of an apparent error in completing the form.[13] In its amended application, this error is corrected. Therefore, Teeter-Taylor does not omit listing the salary of one employee and since movant has not shown that the applicant will be unable to operate its station with its proposed staff, there is no basis for allocating additional salary expenses. As to the ASCAP and BMI license fees, it is well established that music licenses are properly treated as revenue related expenses and need not be included in the proposed budget. See *WPIX, Inc.*, 22 FCC 2d 960, 18 RR 2d 1196 (1970); *Jerry J. Collins*, 50 FCC 2d 715, 32 RR 2d 649 (1975). Also, movant has not supported its contention that the applicant will become a member of TAB and there is no requirement that membership dues and subscriptions incurred at the discretion of the licensee be included in the budget. See *Sampson Broadcasting Co., Inc.*, 52 FCC 2d 954, 33 RR 2d 923 (1975); *Jerry J. Collins, supra*. Finally, Community has failed to support its speculative allegation that other essential costs may have been understated or omitted; therefore, no issue will be designated concerning this mater.

11. Accordingly, it is ordered, That the motion to enlarge issues, filed July 7, 1975, by Community North Broadcasters, Inc., IS GRANTED to the extent indicated herein, and IS DENIED in all other respects; and

12. It is further ordered, That the issues in this proceeding are enlarged to include addition of the following issue: "To determine the availability to Teeter-Taylor Enterprises of deferred credit from its equipment supplier and in light of the evidence adduced, whether the applicant is financially qualified."

13. It is further ordered, That the burden of proceeding with the introduction of evidence and the burden of proof under the issue added herein SHALL BE upon Teeter-Taylor Enterprises.

Adopted: December 2, 1975.

Released: December 9, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

[FR Doc.75-33346 Filed 12-10-75;8:45 am]

[5] We note that in its reply pleading Community concedes that the August 14, 1975 amendment effectively moots its requested issue.

[6] Movant claims that, according to its application, Teeter-Taylor relies, *inter alia*, upon cash reserves of $2,000 owned by Mr. Carson and $5,000 owned by Mr. Teeter to substantiate proposed contributions to the enterprise in those respective amounts. Additionally, according to Community, Taylor has pledged $10,000 to the enterprise and shows a cash reserve of $1,000.

[7] In the designation Order, financial issues were specified against Teeter-Taylor to determine whether the partners have sufficient assets to meet their respective commitments and the rate of interest of the bank loan relied upon by the applicant.

[8] The letter states: "This offer is, of course, contingent upon receipt of information indicating a satisfactory financial condition."

[9] The amendment indicates that Crutchfield's assets will be pledged as collateral for a loan in the amount of $85,000 from the Pioneer Bank of Chattanooga and that the applicant relies solely on this loan and the letter of credit from its equipment supplier. A copy of the bank letter, dated July 25, 1975, is included in the amendment.

[10] Compare *Commercial Radio Institute, Inc.*, 48 FCC 2d 323, 31 RR 2d 12 (1974), where the letter of credit found to be acceptable stated that the manufacturer's willingness to provide the deferred credit was ". . . subject to credit approval at the time the lease is due to be signed. . . ."

[11] Community's reliance on *Jones T. Sudbury, supra*, is misplaced since that case permitted a limited showing to be made under the standard comparative issue only where AM/FM duplication was proposed, without any reference to number of hours broadcast. Moreover, movant has not shown specifically how Teeter-Taylor's proposal would be inefficient.

[12] Movant supports its assertions with an affidavit from its President, Zollie D. Cantrell.

[13] In its reply, Community states that since the discrepancy was the result of apparent error, its requested issue is no longer warranted.

FEDERAL MARITIME COMMISSION

COMPUTER SERVICES AGREEMENT

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, NW., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before December 31, 1975. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

David V. Ainsworth, Counsel, Matson Navigation Company, 100 Mission Street, San Francisco, California 94105.

Agreement No. 10208, entered into between Nippon Yusen Kaisha (NYK) and Matson Navigation Company (Matson), provides for the establishment of a cooperative working arrangement whereby Matson shall provide and coordinate all NYK Inventory Equipment Control System computing, telecommunications and supporting services in connection with NYK's U.S. Pacific Coast operations in accordance with the terms and conditions set forth in the agreement.

By Order of the Federal Maritime Commission.

Dated: December 5, 1975.

SAN FRANCISCO PORT COMMISSION AND CALIFORNIA STEVEDORE AND BALLAST CO.

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, N.W., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California, and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, on or before December 31, 1975. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Robert A. Bobier, Chief Counsel, Port of San Francisco, Ferry Building, San Francisco, California 94111.

Agreement No. T-3190, between San Francisco Port Commission (Port) and California Stevedore and Ballast Company (CS & B), provides for CS & B, on behalf of Port, to operate: (1) a consolidation freight station, and (2) a cargo distribution service. As compensation, CS & B will pay a fixed monthly rental of $800. Port shall cooperate in the solicitation of customers and advertising of said services. Port will publish such tariffs as Port and CS & B find necessary or convenient. Charges for consolidation are established pursuant to Port of San Francisco Tariff No. 11. Said charges shall accrue to CS & B with no sharing with Port. Charges for distribution service will be in accordance with San Francisco Bay Carloaders T.B., Car Servicing Tariff No. IC, FMC-T No. 2, and amendments thereto. Port shall pay CS & B $10.50 per short ton for the delivery of cargo to piers except as set forth in the agreement. All payments by Port shall be made by credit on debts owed to Port by CS & B.

Agreement No. T-3190 supersedes Agreement No. T-2563 between the same parties, which was approved by the Commission on November 9, 1971.

By order of the Federal Maritime Commission.

Dated: December 5, 1975.

FEDERAL MEDIATION AND CONCILIATION SERVICE

HEALTH CARE INDUSTRY LABOR-MANAGEMENT ADVISORY COMMITTEE

Meeting

Notice is hereby given that the Federal Mediation and Conciliation Service Health Care Industry Labor-Management Advisory Committee, in accordance with section 10 of the Federal Advisory Committee Act of October 6, 1972 (Public Law 92-463, 86 Stat. 770-776), will meet on Monday, January 12, 1976, starting at 9:00 a.m., in Conference Room 1104 of the U.S. Customs Building, 14th and Constitution Avenue, NW., Washington, D.C.

The agenda will include presentations and discussions related to:

1. Reimbursement agencies and collective bargaining—the third party payor issue.

2. Training of Federal Mediation and Conciliation Service professional staff in health care negotiations.

3. Selection and training of boards of inquiry.

4. Review of 1976 health care collective bargaining calendar.

The meeting will be open to the public. Communications regarding this meeting should be addressed as follows:

Mr. Lawrence B. Babcock, Jr., Advisory Committee Management Officer, Federal Mediation and Conciliation Service, Washington, D.C. 20427.

Signed at Washington, D.C., this eighth day of December 1975.

W. J. USERY, JR.,
National Director.

FEDERAL RESERVE SYSTEM

F. S. BANCOR, INC.

Formation of Bank Holding Company

F. S. Bancor, Inc., Mitchellville, Iowa, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 63.2 percent of the voting shares of the voting shares of Farmers Savings Bank, Mitchellville, Iowa. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Chicago. Any person wishing to comment on the application should submit views in writing to the Reserve Bank, to be received not later than December 29, 1975.

Board of Governors of the Federal Reserve System, December 4, 1975.

[SEAL] GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

FIRST NATIONAL AGENCY, INC.

Order Approving Formation of Bank Holding Company and Retention of Insurance Agency Activities; Correction

In FR document 75-32406 appearing at page 55905 of the issue for Tuesday December 2, 1975, the fifth sentence of paragraph 4 should read: In situations where individuals are involved in more than one one-bank holding company, such as where individuals have established a series or chain of one-bank holding companies, the Board has indicated that such organizations should be analyzed under the more restrictive financial standards that are normally used in analyzing multi-bank holding companies.[2]

Board of Governors of the Federal Reserve System, December 3, 1975.

[SEAL] GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

[FR Doc.75-33314 Filed 12-10-75;8:45 am]

[2] See Board's Order dated October 17, 1975, approving the application of Commercial Bankshares, Inc., Grand Island, Nebraska, to become a bank holding company through acquisition of Commercial National Bank & Trust Company, Grand Island, Nebraska.

REPUBLIC OF TEXAS CORPORATION

Order Approving Retention of Republic National Mortgage Corporation of Texas

Republic of Texas Corporation, Dallas, Texas, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 4(c)(8) of the Act and § 225.4(b)(2) of the Board's Regulation Y, to retain indirect ownership through its trusteed affiliate, Republic Enterprises Corporation, of the voting shares of Republic National Mortgage Corporation of Texas ("Company"), both of Dallas, Texas. Company engages in mortgage banking activities, including originating, selling, and servicing mortgage loans. Such activities have been determined by the Board to be closely related to banking (12 CFR 225.4(a)(1) and (3)).

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (40 Federal Register 47540). The time for filing comments and views has expired, and the Board has considered all comments received in the light of the public interest factors set forth in section 4(c)(8) of the Act (12 U.S.C. 1843(c)).

By Order dated October 25, 1973, the Board approved the formation of Applicant for the purpose of becoming a bank holding company through the acquisition of Republic National Bank of Dallas, Dallas, Texas ("Republic Bank"). Republic Bank was itself a bank holding company by virtue of the 1970 Amendments to the Act, and owned various bank and nonbank interests. At the time of its formation, Applicant also obtained indirect control of Republic Bank's various interests, including Company which was established as a de novo subsidiary pursuant to approval granted on July 12, 1972, by the Federal Reserve Bank of Dallas. Pursuant to the provisions of section 4(a)(2) of the Act, Applicant has two years in which to divest its nonbank activities or, in the alternative, to apply to the Board for approval to retain them. In this proposal, Applicant has applied to retain the shares of Company. The Board regards the standards under section 4(c)(8) of the Act for retention of shares to be the same as the standards for a proposed acquisition.

Applicant, the 4th largest banking organization in Texas, controls three subsidiary banks with aggregate deposits of approximately $2.8 billion, representing approximately 6.5 percent of the total deposits in commercial banks in the State.[1] Applicant engages in mortgage banking activities through its three subsidiary banks; however, Republic Bank's mortgage lending activities are essentially conducted through Company at the present time. In addition, Applicant engages indirectly through a group of corporations referred to collectively under the name of Howard Corporation, in various nonbanking activities which are described in a Board determination dated

[1] Banking data are as of December 31, 1974.

V 40 239 DEC 11 75 XUM

September 10, 1973, relating to the grandfather benefits of Republic Bank. The Board has previously ruled that Applicant would not be a successor to the grandfather benefits of Republic Bank, and Applicant has committed, and is required, to dispose of the nonpermissible activities within the two-year statutory period prescribed in section 4(a)(2) of the Act.

Company, established de novo in September, 1972, operates one office in Dallas, Texas. Through June 30, 1975, Company originated $18.2 million in mortgage loans, primarily for the account of Republic Bank and three other permanent investors. In addition, Company serviced a mortgage loan portfolio for investors (principally Republic National Bank) of $43 million, 80 per cent of which were permanent mortgage loans on single family residences, the remaining 20 per cent of which were commercial mortgages. Company's mortgage loans are originated primarily from the Dallas-Ft. Worth area. In view of Company's small size and limited scope of operations, the fact that it was organized de novo, and the large number of alternative sources for mortgage loans in the Dallas-Ft. Worth area, the Board concludes that Applicant's retention of Company would not result in any adverse effects on competition in any relevant area.

There is no evidence in the record to indicate that the proposed retention of Company by Applicant would lead to an undue concentration of resources, unfair competition, conflicts of interests, unsound banking practices, or other adverse effects. Company's continued affiliation with Applicant is likely to result in increased competition in the Dallas-Ft. Worth mortgage loan market, since Applicant proposes to expand Company's access to institutional sources of mortgage funds and to expand Company's activities to include making additional types of real estate loans.

Based upon the foregoing and other considerations reflected in the record, the Board has determined that the balance of the public interest factors the Board is required to consider under section 4(c)(8) is favorable, and the application should be approved. Accordingly, the application is hereby approved. This determination is subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof.

By order of the Board of Governors,[3] effective December 3, 1975.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

[FR Doc.75-33355 Filed 12-10-75;8:45 am]

[3] Voting for this action: Chairman Burns and Governors Mitchell, Bucher, Holland, Wallich, Coldwell, and Jackson.

TEXAS AMERICAN BANCSHARES INC.

Acquisition of Bank

Texas American Bancshares Inc., Fort Worth, Texas, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent (less directors' qualifying shares), of the voting shares of Galleria Bank, Houston, Texas. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Dallas. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than January 5, 1976.

Board of Governors of the Federal Reserve System, December 4, 1975.

[SEAL] GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

[FR Doc.75-33356 Filed 12-10-75;8:45 am]

FEDERAL TRADE COMMISSION

STATEMENT OF ORGANIZATION

Denver Regional Office

On October 7, 1975, there was published in the FEDERAL REGISTER (40 FR 46361, corrected in 40 FR 52122) a notice announcing a reorganization of the Federal Trade Commission's regional office structure. The notice announced that a new regional office was to be established in Denver, Colorado. That regional office has now been established and will serve an eight-state area including Kansas, Nebraska, North Dakota, South Dakota, Wyoming, Colorado, Montana, and Utah.

Notice is hereby given that paragraph (b)(6) of Section 18 of the Statement of Organization is amended to include the address of the Denver Regional Office to read as follows:

Sec. 18. The Regional Offices.

(b) • • •

(6) *Denver Regional Office.* Federal Trade Commission, 128 U.S. Customs House, 721 19th Street, Denver, CO 80202.

By direction of the Commission dated December 3, 1975.

CHARLES A. TOBIN,
Secretary.

[FR Doc.75-33359 Filed 12-10-75;8:45 am]

GENERAL ACCOUNTING OFFICE

REGULATORY REPORTS REVIEW

Notice of Receipt of Report Proposals

The following requests for clearance of reports intended for use in collecting information from the public were received by the Regulatory Reports Review Staff, GAO, on December 1, 1975. See 44 U.S.C. 3512(c) & (d). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public of such receipt.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Written comments on the proposed NRC forms are invited from all interested persons, organizations, public interest groups, and affected businesses. Because of the limited amount of time GAO has to review the proposed forms, comments (in triplicate) must be received on or before December 29, 1975, and should be addressed to Mr. Carl F. Bogar, Assistant Director, Office of Special Programs, United States General Accounting Office, Room 5216, 425 I Street NW., Washington, D.C. 20548.

Further information may be obtained from Patsy J. Stuart of the Regulatory Reports Review Staff, 202-376-5425.

NUCLEAR REGULATORY COMMISSION

Request for extension of approval of Form NRC-313R, "Application for Byproduct Material License—Use of Sealed Sources in Radiography" and 10 CFR 34.3, "Application for Specific Licenses." 10 CFR 34.3 provides that applications for specific licenses for use of sealed sources in radiography shall be filed on Form NRC-313R. The completed form is reviewed by technical staff of the NRC to determine that the contemplated use proposed by the applicant will meet NRC regulations. Respondents are companies wishing to utilize sealed sources containing byproduct material in the performance of various types of radiography. Respondent burden is estimated at 5 hours per response; 250 applications are filed annually. Thus, the estimated total respondent burden is 1250 hours annually.

Request for extension of approval of NRC Form-482, "Registration Certificate—Medical Use of Byproduct Material Under General License" and 10 CFR 35.31, "General License for Medical Use of Certain Quantities of Byproduct Material." 10 CFR 35.31 establishes a general license authorizing physicians to use certain quantities of byproduct material for specified diagnostic tests. Prior to using byproduct material under the general license the physician must file Form NRC-482 with the NRC and receive from the NRC a validated copy of Form NRC-482 with registration number assigned. Respondents are physicians who propose to use byproduct material under the general license of 10 CFR 35.31. Respondent burden is estimated at 5 minutes per response; 200 registration certificates are filed annually. Thus, the estimated total respondent burden is 17 hours annually.

NORMAN F. HEYL,
Regulatory Reports, Review Officer.

GENERAL SERVICES ADMINISTRATION

Office of Federal Management Policy

EXECUTIVE BRANCH POSITION ON COMMISSION ON GOVERNMENT PROCUREMENT

Recommendations A-12, A-13, and A-14

Notice is given that the executive branch has accepted Commission on Government Procurement (COGP) Recommendations A-12, A-13, and A-14.

The COGP recommendations are as follows:

A-12: "Reevaluate the place of procurement in each agency whose program goals require substantial reliance on procurement. Under the general oversight of the Office of Federal Procurement Policy, each agency should ensure that the business aspects of procurement and the multiple national objectives to be incorporated in procurement actions receive appropriate consideration at all levels in the organization."

A-13: "Clarify the role of the contracting officer as the focal point for making or obtaining a final decision on a procurement. Allow the contracting officer wide latitude for the exercise of business judgment in representing the Government's interest."

A-14: "Clarify the methods by which authority to make contracts and commit the Government is delegated to assure that such authority is exercised by qualified individuals and is clearly understood by both those within the agencies and by the agencies' suppliers of goods and services."

Implementation: The Office of Federal Management Policy, in conjunction with the Office of Federal Procurement Policy, will conduct a survey of selected departments and agencies by questionnaire. This survey will request a description of the purchasing and contracting functions at all levels in the organizations, and will be followed by personal interviews as necessary. Results of the survey will be used to ascertain the current organizational placement of the procurement function and the role of the contracting officer. The data will be evaluated and specific recommendations will be formulated and discussed with the particular agencies involved.

This notice is being published by direction of the Administrator for Federal Procurement Policy, Office of Management and Budget.

Dated at Washington, D.C. on November 24, 1975.

WILLIAM W. THYBONY,
Acting Associate Administrator.

[FR Doc.75-33334 Filed 12-10-75;8:45 am]

NATONAL COMMUNICATIONS SYSTEM

TELECOMMUNICATIONS: BIT ORIENTED DATA LINK CONTROL PROCEDURES

Proposed Federal Standard 1003

The Administrator of the General Services Administration (GSA) is responsible, under the provisions of the Federal Property and Administrative Services Act of 1949, as amended, for the Federal Standardization Program. On 14 August 1972, the National Communications System (NCS)[1] was designated by the Administrator, GSA, as the responsible agent for the development of telecommunication standards for NCS interoperability and the computer-communications interface. The Federal Telecommunication Standards Committee (FTSC) was established under the administration of NCS to accomplish this mission. Additionally, the Secretary of Commerce is authorized, under the provisions of Public Law 89-306 to develop and establish uniform Federal automatic data processing standards.

This proposed Federal standard is part of a series of joint Federal telecommunication standards and Federal Information Processing Standards (FIPS) falling within the area of mutual responsibility of the NCS and the National Bureau of Standards (NBS) as defined in FIPS PUB 23[2] and NCS Circular 175-1.[3]

The proposed Federal standard and the companion FIPS publication will adopt the content of the American National Standards Institute (ANSI) document X3S34/589, 15 August 1975, with the exceptions set forth in paragraph 2, "Applicable Documents." The ANSI document specifies the data communication control procedures, which define the means for exchanging data between business machines (e.g., computers, concentrators and terminals) over communication circuits. The advanced data communication control procedures described are synchronous, bit oriented (i.e., use bit patterns instead of ASCII characters for control), code independent (i.e., capable of handling any data code or pattern) and interactive (i.e., have relatively high efficiency in an interactive application). The proposed ANSI document was developed by an ANSI task group with Federal Government participation and has been recommended for processing as a Federal standard by the FTSC with the concurrence of the National Bureau of Standards in response to requirements specified by various Government agencies.

Prior to submission of the final endorsement of the proposed Federal standard and its companion FIPS publication to the Department of Commerce (DOC), the Office of Telecommunications Policy (OTP), Executive Office of the President, and GSA, it is essential that proper consideration is given to the needs and views of industry, the public, and state and local governments. The purpose of this notice is to solicit such views. Interested parties may submit their comments to the Office of the Manager, National Communications System, ATTN: NCS-TS, Washington, D.C. 20305. All comments should be submitted to NCS by 30 January 1976.

LEE M. PASCHALL,
Lieutenant General, USAF, Manager.

MAURICE W. ROCHE,
Director, Correspondence and Directives, OASD (Comptroller).

NATIONAL SCIENCE FOUNDATION

COMMITTEE MANAGEMENT

Notice of Determination Renewal of Advisory Panel for Metallurgy and Materials

The National Science Foundation (NSF) is renewing the Advisory Panel for Metallurgy and Materials in accordance with the Federal Advisory Committee Act (Pub. L. 92-463) and the Office of Management and Budget (OMB) Circular No. A-63, Revised.

On December 31, 1973, the Advisory Panel for Engineering Materials was established to provide advice and recommendations concerning the Engineering Materials Program. On February 18, 1975, the name of the panel was changed to the Advisory Panel for Metallurgy and Materials and the scope and membership were broadened to encompass advisory functions for the entire Metallurgy and Materials Section. A Notice of Revision was published in the FEDERAL REGISTER and an addendum to the charter was filed with the Director, NSF and with Congress.

After review of the panel's activities, I have determined that renewal of the Advisory Panel for Metallurgy and Materials is necessary and is in the public interest in connection with the performance of duties imposed upon the National Science Foundation by the National Science Foundation Act of 1950, as amended and other applicable laws.

H. GUYFORD STEVER,
Director.

DECEMBER 8, 1975.

NUCLEAR REGULATORY COMMISSION

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS SUBCOMMITTEE ON GENERAL ELECTRIC WATER REACTORS

Notice of Meeting

In accordance with the purposes of Sections 29 and 182b. of the Atomic Energy Act (42 U.S.C. 2039, 2232b.), the ACRS Subcommittee on General Electric Water Reactors will hold a meeting on December 29 and 30, 1975 in Room 1046, 1717 H Street NW., Washington, D.C. 20555. The purpose of this meeting is to review the status of investigations into the performance of Mark I, II, and III Containment Systems and of the development and review of the various versions of the General Electric Standard

V40239 DEC 11 75 XUM

Safety Analysis Reports (GESSAR).

The agenda for subject meeting shall be as follows: *Monday, December 29, 1975 8:30 a.m.* The Subcommittee will meet in closed Executive Session, with any of its consultants who may be present, to explore their preliminary opinions, based upon their independent reviews of the Mark I, II, and III Containment Systems and of the General Electric Standard Safety Analysis Reports. *9:00 a.m. until the conclusion of business on December 29, and 8:30 a.m. until the conclusion of business on December 30, 1975.* The Subcommittee will meet in open session to hear presentations by representatives of the General Electric Company, the NRC Staff, and their consultants, and to hold discussions with these groups pertinent to this review.

At the conclusion of the open session, the Subcommittee will caucus in a brief, closed session to determine whether the matters identified in the initial closed session have been adequately covered and whether the matters are ready for review by the full Committee. During the session Subcommittee members and consultants will discuss their final opinions and recommendations on these matters. Upon conclusion of this caucus, the Subcommittee will meet again in brief open session to announce its determination.

In addition to these closed deliberative sessions, it may be necessary for the Subcommittee to hold one or more closed sessions for the purpose of exploring with the NRC Staff and Applicant matters involving proprietary information.

I have determined, in accordance with Subsection 10(d) of Public Law 92–463, that it is necessary to conduct the above closed sessions to protect the free interchange of internal views in the final stages of the Subcommittee's deliberative process (5 U.S.C. 552(b)(5)) and to protect confidential proprietary information (5 U.S.C. 552(b)(4)). Separation of factual material from individuals' advice, opinions, and recommendations while closed Executive Sessions are in progress is considered impractical.

Practical considerations may dictate alterations in the above agenda or schedule. The Chairman of the Subcommittee is empowered to conduct the meeting in a manner that, in his judgment, will facilitate the orderly conduct of business, including provisions to carry over an incompleted open session from one day to the next.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda items may do so by providing a readily reproducible copy to the Subcommittee at the beginning of the meeting. Comments should be limited to safety related areas within the Committee's purview.

Persons desiring to mail written comments may do so by sending a readily reproducible copy thereof in time for consideration at this meeting. Comments postmarked no later than December 22, 1975 to Mr. J. C. McKinley, ACRS, NRC, Washington, D.C., will normally be received in time to be considered at this meeting.

Background information concerning items to be considered at this meeting can be found in documents on file and available for public inspection at the NRC Public Document Room, 1717 H St. NW., Washington, D.C. 20555.

(b) Those persons wishing to make an oral statement at the meeting should make a written request to do so, identifying the topics and desired presentation time so that appropriate arrangements can be made. The Committee will receive oral statements on topics relevant to the Committee's purview at an appropriate time chosen by the Chairman of the Subcommittee.

(c) Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call on December 24, 1975 to the Office of the Executive Director of the Committee (telephone 202/634–1371, Attn: Mr. J. C. McKinley) between 8:15 a.m. and 5:00 p.m., EST.

(d) Questions may be propounded only by members of the Subcommittee and its consultants.

(e) The use of still, motion picture, and television cameras, the physical installation and presence of which will not interfere with the conduct of the meeting, will be permitted both before and after the meeting and during any recess. The use of such equipment will not, however, be allowed while the meeting is in session.

(f) Persons with agreements or orders permitting access to proprietary information, may attend portions of ACRS meetings where this material is being discussed upon confirmation that such agreements are effective and relate to the material being discussed.

The Executive Director of the ACRS should be informed of such an agreement at least three working days prior to the meeting so that the agreement can be confirmed and a determination can be made regarding the applicability of the agreement to the material that will be discussed during the meeting. Minimum information provided should include information regarding the date of the agreement, the scope of material included in the agreement, the project or projects involved, and the names and titles of the persons signing the agreement. Additional information may be requested to identify the specific agreement involved. A copy of the executed agreement should be provided to Mr. J. C. McKinley, of the ACRS Office, prior to the beginning of the meeting.

(g) A copy of the transcript of the open portion of the meeting will be available for inspection on or after January 7, 1976 at the NRC Public Document Room, 1717 H St. NW., Washington, D.C. 20555.

Copies of the minutes of the meeting will be made available for inspection at the NRC Public Document Room, 1717 H St. NW., Washington, D.C. 20555 after April 1, 1976. Copies may be obtained upon payment of appropriate charges.

Dated: December 5, 1975.

SAMUEL J. CHILK,
Secretary of the Commission.

[FR Doc.75–33320 Filed 12–10–75;8:45 am]

COMMISSION SEAL

Pursuant to Section 201(a) of the Energy Reorganization Act of 1974, the Nuclear Regulatory Commission has adopted an official seal, the description of which is as follows:

An American bald eagle of brown and tan with claws and beak of yellow, behind a shield of red, white and blue, clutching a cluster of thirteen arrows in its left claw and a green olive branch in its right claw (similar to that of the Great Seal of the United States of America), positioned on a field of light blue with the words United States Nuclear Regulatory Commission in dark blue, and five gold stars outlined in dark blue encircling the eagle. The eagle represents the United States of America and its interests.

The Official Seal of the Nuclear Regulatory Commission is illustrated as follows:

The Secretary of the Commission is responsible for custody of the impression seals and of replica (plaque) seals.

(Sec. 201(a), Energy Reorganization Act of 1974, Pub. L. 93–438)

(1) NRC letterhead stationery.

(2) NRC award certificates and medals.

(3) Security credentials and employee identification cards.

(4) NRC documents. These documents include, without limitation, agreements with States, interagency or intergovernmental agreements, foreign patent applications, certifications, special reports to the President and Congress and, at the discretion of the Secretary of the Commission, other documents as he finds appropriate.

(5) Plaques. The design of the seal may be incorporated in plaques for display in NRC auditoriums, presentation rooms, lobbies, offices of senior officials, on the fronts of buildings occupied by NRC and in other appropriate locations at the discretion of the Secretary.

(6) The NRC flag (which incorporates the design of the seal).

(7) Official films prepared by or for the NRC, which the Director, Division of Public Affairs or his designee determines warrant such identification.

(8) Official NRC publications which represent the achievements or mission of NRC as a whole or which are sponsored by NRC and other Government departments or agencies.

(9) Such other uses as the Secretary of the Commission or his designee finds appropriate.

b. Any use of the seal or replicas other than as permitted by this section is prohibited.

c. Any person who uses the official seal in a manner other than as permitted by this section shall be subject to the provisions of 18 U.S.C. 1017, which provides penalties for the wrongful use of an official seal, and other provisions of law as applicable.

Dated at Washington, D.C. this 5th day of December 1975.

SAMUEL J. CHILK,
Secretary of the Commission.

[Docket No. 50–293]

BOSTON EDISON CO.

Proposed Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of amendment to Facility Operating Licenses No. DPR–35 issued to Boston Edison Company (the licensee) for operation of Unit 1 of the Pilgrim Nuclear Power Station (the facility), a boiling-water reactor located near Plymouth, Massachusetts.

The amendment would revise the Technical Specifications to (1) add requirements that would limit the period of time operation can be continued with immovable control rods that could have control rod drive mechanism collet housing failures and (2) require increased control rod surveillance when the possibility of a control rod drive mechanism collet housing failure exists.

Prior to issuance of the proposed license amendment, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act) and the Commission's rules and regulations.

By January 12, 1976, the licensee may file a request for a hearing and any person whose interest may be affected by this proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the issuance of the amendment to the subject facility operating license. Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of § 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and the petitioner's contentions with respect to the proposed licensing action. Such petitions must be filed in accordance with the provisions of this FEDERAL REGISTER notice and § 2.714, and must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, by the above date. A copy of the petition and/or request for a hearing should be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, and to Mr. Dale G. Stoodley, Counsel, Boston Edison Company, 800 Boylston Street, Boston, Massachusetts 02199, the attorney for the licensee.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or licensing board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

In the event that a hearing is held and a person is permitted to intervene, he becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he may present evidence and examine and cross-examine witnesses.

For further details with respect to this action, see the Commission's letter to the Boston Edison Company dated September 23, 1975, and the attached proposed Technical Specifications and the Safety Evaluation by the Commission's staff dated September 23, 1975, which are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Plymouth Public Library on North Street in Plymouth, Massachusetts 02360. The license amendment and the Safety Evaluation may be inspected at the above locations and a copy may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland, this 3rd day of December 1975.

For the Nuclear Regulatory Commission.

DENNIS L. ZIEMANN,
Chief, Operating Reactors Branch No. 2, Division of Reactor Licensing.

[FR Doc.75–33313 Filed 12–10–75;8:45 am]

[Docket Nos. 50–254 AND 60–265]

COMMONWEALTH EDISON CO. AND IOWA-ILLINOIS GAS AND ELECTRIC CO.

Proposed Issuance of Amendments to Facility Operating Licenses

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of amendments to Facility Operating License Nos. DPR–29 and DPR–30 issued to Commonwealth Edison Company (acting for itself and on behalf of the Iowa-Illinois Gas and Electric Company) for operation of the Quad-Cities Station Units 1 and 2 (the facilities) located in Rock Island County, Illinois.

These amendments would revise the Technical Specifications to (1) add requirements that would limit the period of time operation can be continued with immovable control rods that could have control rod drive mechanism collet housing failures and (2) require increased control rod surveillance when the possibility of a control rod drive mechanism collet housing failure exists.

Prior to issuance of the proposed license amendments, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act) and the Commission's rules and regulations.

By January 12, 1976, the licensee may file a request for a hearing and any person whose interest may be affected by this proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the issuance of these amendments to the subject facility operating licenses. Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of § 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and the petitioner's contentions with respect to the proposed licensing action. Such petitions must be filed in accordance with the provisions of this FEDERAL REGISTER notice and § 2.714, and must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, by the above date. A copy of the petition and/or request for a hearing should be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, and to Mr. John W. Rowe, Esquire, Isham, Lincoln and Beale, Counselors at Law, One First National Plaza, Chicago, Illinois 60670, the attorney for the licensee.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is re-

V40239 DEC 11 75 XUM

quested. Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or licensing board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

In the event that a hearing is held and a person is permitted to intervene, he becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he may present evidence and examine and cross-examine witnesses.

For further details with respect to these actions, see the Commission's letter to Commonwealth Edison Company dated September 22, 1975, and the attached proposed Technical Specifications and the Safety Evaluation by the Commission's staff dated September 22, 1975, and Commonwealth Edison Company's letter dated October 8, 1975, which are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Moline Public Library, 504—17th Street, Moline, Illinois 60625. These license amendments and the Safety Evaluation may be inspected at the above locations and a copy may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland, this 3rd day of December, 1975.

For the Nuclear Regulatory Commission.

DENNIS L. ZIEMANN,
Chief, Operating Reactors Branch #2, Division of Reactor Licensing.

[Docket No. 70-1308]

GENERAL ELECTRIC CO.

Reissuance and Amendment of Materials License, Morris Operation Fuel Storage Facility

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commssion) has reissued Materials License No. SNM-1265 (the license) issued to General Electric Company (the licensee) for operation of the Morris Operation Fuel Storage Facility. Incorporated in the license are all previous license amendments 1 through 19 issued by the Commission. In addition, the license has been amended in accordance with the licensee's application for amendment, dated February 28, 1975, and the Commission's review thereof. The license is effective as of the date of its issuance.

The license, as amended, permits modification to the Fuel Storage Facility to increase the fuel storage capacity by the installation of new storage baskets and supporting grids.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter 1, which are set forth in the Safety Evaluation Notice of Consideration of Proposed Modification was published in the FEDERAL REGISTER on August 1, 1975 (40 FR 32386). No request for a hearing or petition for leave to intervene was filed following notice of the proposed action.

For further details with respect to this action, see (1) the application for amendment dated February 28, 1975. (2) Materials License No. SNM-1265 dated December 3, 1975, (3) The Commission's related Safety Evaluation, and (4) the Commission's Negative Declaration dated December 3, 1975, which is being published concurrently with this notice, and associated Environmental Impact Appraisal. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Morris Public Library, 604 Liberty Street, Morris, Illinois 60451.

A copy of items (2), (3), and (4) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Fuel Cycle and Material Safety.

Dated at Bethesda, Maryland, this third day of December, 1975.

For the Nuclear Regulatory Commission.

JAMES R. MILLER,
Chief, Fuel Cycle Licensing Branch 2, Division of Fuel Cycle and Material Safety.

[Docket No. 70-1308]

GENERAL ELECTRIC CO. (MORRIS OPERATION FUEL STORAGE FACILITY)

Negative Declaration Regarding Amendment of Materials License

The Nuclear Regulatory Commission (the Commission) has considered an amendment to Materials License No. SNM-1265 for the General Electric Company's Morris Operation Fuel Storage Facility located in Grundy County near Morris, Illinois. The amendment proposes modification to the Fuel Storage Facility to increase the fuel storage capacity by the installation of new storage baskets and supporting grids in accordance with the licensee's proposal dated February 28, 1975.

The U.S. Nuclear Regulatory Commission, Division of Fuel Cycle and Material Safety, has prepared an environmental impact appraisal for the proposed amendment to SNM-1265 for the Morris Operation Fuel Storage Facility. On the basis of this appraisal, the Commission has concluded that an environmental impact statement for this particular action is not warranted because there will be no significant environmental impact attributable to the proposed action. The environmental impact appraisal is available for public inspection at the Commission's Public Document Room at 1717 H Street NW., Washington, D.C., and at the Morris Public Library, 604 Liberty Street, Morris, Illinois.

Dated at Bethesda, Maryland, this third day of December, 1975.

For the Nuclear Regulatory Commission.

RICHARD B. CHITWOOD,
Chief, Fuel Cycle Environmental Projects Branch, Division of Fuel Cycle and Material Safety.

[Docket No. 50-298]

NEBRASKA PUBLIC POWER DISTRICT

Proposed Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of amendment to Facility Operating License No. DPR-46 issued to Nebraska Public Power District (the licensee) for operation of the Cooper Nuclear Station (the facility), a boiling-water reactor located in Nemaha County, Nebraska.

The amendment would revise the Technical Specifications to (1) add requirements that would limit the period of time operation can be continued with immovable control rods that could have control rod drive mechanism collet housing failures and (2) require increased control rod surveillance when the possibility of a control rod drive mechanism collet housing failure exists.

Prior to issuance of the proposed license amendment, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act) and the Commission's rules and regulations.

By January 12, 1976, the licensee may file a request for a hearing and any person whoes interest may be affected by this proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the issuance of the amendment to the subject facility operating license. Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of Section 2.714 of 10 CFR Part 2 of the Commissions regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and the petitioner's contentions with respect to the proposed licensing action. Such petitions must be filed in accordance with the provisions of this FEDERAL REGISTER notice and Section 2.714, and must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, by the above date. A copy of the petition and/or request for a hearing should be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, and to Mr. Gene Watson, Attorney, Barlow, Watson & Johnson, P.O. Box 81686, Lincoln, Nebraska 68501 and Mr. Arthur C. Gehr, Attorney, Snell & Wilmer, 400 Security Building, Phoenix, Arizona 85004, attorneys for the licensee.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or licensing board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

In the event that a hearing is held and a person is permitted to intervene, he becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he may present evidence and examine and cross-examine witnesses.

For further details with respect to this action, see the Commissions letter to Nebraska Public Power District dated September 22, 1975, and the attached proposed Technical Specifications and the Safety Evaluation by the Commissions staff dated September 22, 1975, which are available for public inspection at the Commissions Public Document Room, 1717 H Street NW., Washington, D.C. and at the Auburn Public Library, 1118-15th Street, Auburn, Nebraska 68305. The license amendment and the Safety Evaluation may be inspected at the above locations and a copy may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland, this 4th day of December, 1975.

For the Nuclear Regulatory Commission.

DENNIS L. ZIEMANN,
Chief, Operating Reactors Branch #2, Division of Reactor Licensing.

[Docket No. 50-263]

NORTHERN STATES POWER CO.

Proposed Issuance of Amendment to Provisional Operating License

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of amendment to Provisional Operating License No. DPR-22 issued to the Northern States Power Company (the licensee) for operation of the Monticello Nuclear Generating Plant (the facility), a boiling-water reactor located in Wright County, Minnesota.

The amendment would revise the Technical Specifications to (1) add requirements that would limit the period of time operation can be continued with immovable control rods that would have control rod drive mechanism collet housing failures and (2) require increased control rod surveillance when the possibility of a control rod drive mechanism collet housing failure exists.

Prior to issuance of the proposed license amendment, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act) and the Commission's rules and regulations.

By January 12, 1976, the licensee may file a request for a hearing and any person whose interest may be affected by this proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the issuance of the amendment to the subject facility operating license. Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of § 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and the petitioner's contentions with respect to the proposed licensing action. Such petitions must be filed in accordance with the provisions of this FEDERAL REGISTER notice and § 2.714, and must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, by the above date. A copy of the petition and/or request for a hearing should be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, and to Gerald Charnoff, Esquire of Shaw, Pittman, Potts and Trowbridge, 910-17th Street NW., Washington, D.C. 20006, the attorney for the licensee.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or licensing board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

In the event that a hearing is held and a person is permitted to intervene, he becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he may present evidence and examine and cross-examine witnesses.

For further details with respect to this action, see the Commission's letter to the Northern States Power Company dated September 24, 1975, and the attached proposed Technical Specifications and the Safety Evaluation by the Commission's staff dated September 24, 1975, and the Northern States Power Company's letter dated October 14, 1975, which are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at The Environmental Conservation Library, Minneapolis Public Library, 300 Nicollet Mall, Minneapolis, Minnesota 55401. The license amendment and the Safety Evaluation may be inspected at the above locations, and a copy may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland, this 4th day of December, 1975.

For the Nuclear Regulatory Commission.

DENNIS L. ZIEMANN,
Chief, Operating Reactors Branch #2, Division of Reactor Licensing.

[Construction Permit Nos. CPPR-77, CPPR-78]

VIRGINIA ELECTRIC AND POWER CO. (NORTH ANNA POWER STATION, UNITS 1 AND 2)

Order

DECEMBER 5, 1975.

Oral argument on the appeals taken by the Virginia Electric and Power Company (VEPCO) and the North Anna Environmental Coalition (Coalition) from the September 10, 1975 initial decision of the Licensing Board in this show cause proceeding[1] will be heard at *9:45 a.m.* on *Thursday, January 29, 1976* in the Nuclear Regulatory Commission's Public Hearing Room, 5th floor, East-West Towers, 4350 East West Highway, Bethesda, Maryland.

Giving due regard to the similarities and differences in the positions taken by the various parties to the appeals, the Board has determined that the following is the most reasonable order of presentation and allocation of time among those parties:

VEPCO—Two hours (including rebuttal)
Coalition—One hour (including rebuttal)
Commonwealth of Virginia—30 minutes
NRC Staff—One hour.

In order to obviate unnecessary repetition, the parties taking a common position on a particular issue presented by

[1] LBP-75-54, NRCI-75/9 498.

V40239 DEC 11 75 XUM

the appeals are encouraged to make an endeavor to reach agreement among themselves to have that position advanced by one counsel, rather than each counsel independently. To this end, a party may, if it so desires, agree to relinquish part of its allotted time to one of the other parties.

In preparing for argument, all counsel should bear in mind that the Board will be generally familiar with the initial decision under appeal, the record below and the arguments set forth in the briefs of counsel.

It is so ordered.

For the Atomic Safety and Licensing appeal board.

MARGARET E. DU FLO,
Secretary to the Appeal Board.

[FR Doc.75-33319 Filed 12-10-75;8:45 am]

NATIONAL TRANSPORTATION SAFETY BOARD

[N-AR 75-36]

SAFETY RECOMMENDATIONS AND RESPONSES

Availability and Receipt

Safety Recommendations. Investigation of a series of multiple-vehicle collisions near Corona, California, last February 28 has prompted the National Transportation Safety Board to issue seven Class II (priority followup) recommendations. The collisions occurred in fog and involved 84 vehicles; 23 persons were injured. Five of these recommendations, Nos. H-75-32 through 36, were issued December 2 to the National Highway Traffic Safety Administration. The Safety Board recommended that NHTSA (1) sample motor vehicle accident reports from States to determine the percentage of fatal and injury-producing accidents which have occurred under reduced visibility conditions; (2) review its multidisciplinary accident investigation files to identify the factors involved in reduced visibility conditions; (3) conduct a formal survey of driver educators to determine what is and what should be taught about driving under reduced visibility conditions and issue such guidelines for driver education courses; (4) revise FMVSS 108 to require that all new vehicles be equipped with a set of brake and turn lights mounted high enough above the pavement so a driver could see the lights of at least the two vehicles directly ahead; and (5) (a) survey those police agencies that employ convoy or escort procedures, (b) select from the procedures those that have proven to be most effective, (c) analyze the procedures and develop recommendations to assure maximum effectiveness of patrol procedures, and (d) compile and issue an operations manual that can be implemented by the States through Highway Safety Program Standard No. 15, "Police Traffic Services." Two recommendations, Nos. H-75-37 and 38, were issued by separate letter of December 2 to California's Business and Transportation Agency. The Board requested the Agency to (1) continue to work on a fog warning system to inform motorists of fog ahead and to provide an appropriate speed limit, and (2) conduct an engineering study in conjunction with the California Highway Patrol to determine the most feasible locations for the installation of such systems.

Responses to Safety Recommendations. Three letters were received last week from the United States Coast Guard, responding to the following Safety Board recommendations:

69-M-40 through 43, issued in the Board's 1969 "Study of Recreational Boat Accidents, Boating Safety Programs, and Preventive Recommendations." The USCG response, dated November 21, 1975, indicates that regulations governing fuel systems and electrical systems have been drafted, as has a level flotation regulation. Planned effective date for these regulations is August 1978. With specific reference to 69-M-43, USCG states that the first phase of the collision accident problem analysis has not revealed that visibility from the helm is a major contributor to boating accidents. Operator stress is presently being studied, according to USCG, and the research phase of this project will continue into FY 1976.

72-M-17, issued in the Board's "Analysis of the Safety of Transportation of Hazardous Materials on the Navigable Waters of the United States" (Report No. NTSB-MSS-72-2), wherein the Board recommended that the Coast Guard revise regulations concerning qualifications of tankermen and licensed officers who handle extremely hazardous materials to require special qualifications and endorsements for such specific materials. USCG's letter of November 24, 1975, states that regulation proposals addressing this recommendation have been developed, and that the substance of such proposals was presented at the last meeting of the Towing Industry Advisory Committee, September 15-17, 1975. This group is expected to comment by January 1, 1976. USCG will evaluate these comments and publish a Notice of Proposed Rulemaking within the next 6 months.

71-M-20, issued in Board study entitled "The Effectiveness of Investigations of Recreational Boating Accidents" (Report No. NTSB-MSS-71-1). The Coast Guard and State officials investigating boating accidents were asked to accord high priority to developing information useful in formulating preventive measures. The response of November 25, 1975, sums up USCG's efforts at compliance: A boating accident seminar was held at Wylie Laboratories in Huntsville, Alabama, May 19-23, 1975, stressing need for collecting boating accident information and discussing methodology of investigation; the International Association of Police Chief's Boating Accident Investigation Manual has been approved and is being printed for distribution; the Coast Guard Boating Accident Investigator's Manual is in complete draft form and is being routed for clearance; a special addendum sheet to the Recreational Boating Simplified Narrative (CG 4885 A) was promulgated in Commandant Notice 5912, July 24, 1975; and a study of the coding of boating accident information and the placing of such information in an Automated Data Processing system has been completed.

Also received last week was a letter from the Stroudsburg Gas Company of Stroudsburg, Pennsylvania, responsive to Board recommendations *P-75-12 and 13* (40 FR 50575). The letter, dated November 28, 1975, indicates that Company employees have had five training programs since June 17, 1975, featuring leak investigation proceedures from the initial report of a leak until it is repaired or elminated as one. The Company also states that training programs will be held from time to time to improve leak investigation techniques and to implement new procedures and equipment.

The two recommendation letters are available to the general public; single copies may be obtained without charge. A $4.00 user-service charge will be made for a copy of each recommendation response letter, in addition to a charge of 10¢ per page for reproduction. All requests must be in writing, identified by recommendation number and date of publication of this notice in the FEDERAL REGISTER. Address inquiries to: Publications Unit, National Transportation Safety Board, Washington, D.C. 20594.

(Sec. 307 of the Independent Safety Board Act of 1974 (Pub. L. 93-633, 88 Stat. 2172 (49 U.S.C. 1906))).

MARGARET L. FISHER,
Federal Register Liaison Officer.

DECEMBER 8, 1975.

NATIONAL ADVISORY COMMITTEE ON OCEANS AND ATMOSPHERE

MEETING

Addendum for Previous Notice

DECEMBER 8, 1975.

The agenda for the meeting previously announced for December 18 and 19, 1975, in the FEDERAL REGISTER of November 18, 1975, has been revised as follows:

Thursday, December 18, beginning at 9:00 a.m.

Briefing by the Environmental Protection Agency on their air pollution control program.

Reports on NACOA work in progress on the Sea Grant Program, weather and air safety, energy from the sea, weather and climate modification, coastal zone and OCS matters.

Afternoon, beginning at about 2:30 p.m.

Continuation of reports on NACOA work in progress.

Friday, December 19, beginning at 9:00 a.m.

Briefings on:

Issues and status of marine transportation—Maritime Administration.

Federal mariculture programs and progress—NOAA.

Recent progress in disaster warning capabilities—NOAA.

Continuation of reports on NACOA work in progress.

Plans for future NACOA meetings.

Adjournment at approximately 1:30 p.m.

Additional information concerning this meeting may be obtained through the Committee's Executive Director, Dr. Douglas L. Brooks, whose mailing address is: National Advisory Committee on Oceans and Atmosphere, Department of Commerce Building, Room 5225, Washington, D.C. 20230. The telephone number is (202) 967-3343.

DOUGLAS L. BROOKS,
Executive Director.

SECURITIES AND EXCHANGE COMMISSION

[Rel. No. 19288; 70-5772]

Alabama Power Co. et al.

FIRST MORTGAGE BONDS FOR SINKING FUND PURPOSES

Proposal To Issue

Notice is hereby given that Alabama Power Company ("Alabama"), Gulf Power Company ("Gulf"), Georgia Power Company ("Georgia"), and Mississippi Power Company ("Mississippi"), all of which are public-utility subsidiaries of The Southern Company, a registered holding company, have filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating Sections 6(a) and 7 of the Act and Rule 50(a)(5) promulgated thereunder as applicable to the following proposed transactions. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transactions.

Alabama, Georgia, Gulf and Mississippi propose to issue their respective First Mortgage Bonds ("Sinking Fund Bonds") and to surrender such Sinking Fund Bonds to the trustees under their respective Indentures for the purpose of satisfying the sinking fund (improvement fund, in the case of Alabama) requirements thereunder for 1976. The amounts and series of Sinking Fund Bonds proposed to be issued as follows:

Name of company	Amount (in thousands)	Series
Alabama	$12,484	3½ percent series due 1985.
Georgia	18,874	2⅞ percent series due 1980.
Gulf	1,873	3¼ percent series due 1984.
Mississippi	1,988	2¾ percent series due 1980.

The Sinking Fund Bonds are to be issued on the basis of unfunded net property additions, thus making available for construction purposes cash which would otherwise be needed to satisfy the sinking fund requirements or to purchase bonds to be used for such purpose. It is stated that the delivery of the Sinking Fund Bonds is exempt from the competitive bidding requirements of rule 50 by reason of clause (a)(5) thereof inasmuch as such Bonds will not constitute obligations of the companies for the payment of money.

The fees, commissions, and expenses incurred or to be incurred in connection with the proposed transactions will aggregate $7,600, of which total fees for legal counsel will be $1,200. The Alabama Public Service Commission, the Georgia Public Service Commission, and the Florida Public Service Commission have jurisdiction over the issuance of the Sinking Fund Bonds by Alabama, Georgia, and Gulf, respectively. No other State commissions and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than December 30, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the declarants at the above-stated addresses, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc.75-33361 Filed 12-10-75;8:45 am]

[File No. 500-1]

CANADIAN JAVELIN, LTD.

Suspension of Trading

DECEMBER 4, 1975.

The common stock of Canadian Javelin, Ltd. being traded on the American Stock Exchange pursuant to provisions of the Securities Exchange Act of 1934 and all other securities of Canadian Javelin, Ltd. being traded otherwise than on a national securities exchange; and

It appearing to the Securities and Exchange Commission that the summary suspension of trading in such securities on such exchange and otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

Therefore, pursuant to section 12(k) of the Securities Exchange Act of 1934, trading in such securities on the above mentioned exchange and otherwise than on a national securities exchange is suspended, for the period from December 5, 1975 through December 14, 1975.

By the Commission.

[Release No. 19289; 70-5656]

THE COLUMBIA GAS SYSTEM, INC. ET AL.

Financing

DECEMBER 5, 1975.

Notice is hereby given that The Columbia Gas System, Inc. ("Columbia"), a registered holding company, and its above-named wholly-owned subsidiary companies (hereinafter referred to as "Columbia of W. Va.", "Columbia of Ky.", "Columbia of Va.", "Columbia of Ohio", "Inland", "Columbia of Pa.", "Columbia of N.Y.", "Columbia of Md.", "Hyrocarbon", "Columbia Transmission", "Columbia LNG", "Development U.S.", "Development Canada" and "Coal Gasification") have filed a post-effective amendment to an application-declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating Sections 6(b), 9(a), 10, 12(b), and 12(f) of the Act and Rules 43 and 45 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the amendment, which is summarized below, for a complete statement of the proposed transactions.

On May 9, 1975, the Commission issued an order (HCAR No. 18978) approving Columbia's plan for intrasystem financing. Among the transactions approved in the order was the sale by Columbia Transmission to Columbia of installment notes in an amount not to exceed $35,000,000. Columbia and Columbia Transmission now propose that the authorized amount of these installment notes be increased to $80,000,000. It is stated that the proposed increase reflects a $45,000,000 increase in Columbia Transmission's gas purchase advances and $35,000,000 for refunds to its customers pursuant to a rate case settlement agreement before the Federal Power Commission. The rate refund is to be made from a portion of the contingent revenues previously collected from September 1973 to present. However, such funds collected through that period were added to Columbia Transmission's general funds and used to satisfy

V40239 DEC 11 75 XUM

demands thereon, necessitating an increase in the amount of installment notes it is proposed to issue and sell to Columbia.

The order of May 9, 1975 and a supplemental order issued September 19, 1975 (HCAR No. 19180) contained reservations of jurisdiction, pending completion of the record, over the proposed sale by Columbia of New York to Columbia of installment notes in an amount not to exceed $800,000. The record has now been completed with respect to this transaction and Columbia of New York now proposes to sell and Columbia proposes to acquire, not later than March 31, 1976, unsecured installment notes in an amount not to exceed $406,000. The terms and provisions of the installment notes and the use of the proceeds thereof are as stated in the order of May 9, 1975. The sale of the notes has been approved by the New York Public Service Commission.

Due notice of the filing of said application-declaration, insofar as it applies to the issuance and sale of installment notes by Columbia of New York to Columbia, has been given in the manner prescribed by Rule 23 promulgated under the Act (HCAR No. 18929), and no hearing has been requested of or ordered by the Commission. Upon the basis of the facts in the record, it is hereby found, with respect to the above-described transaction, that the applicable provisions of the Act and rules promulgated thereunder are satisfied and that no public fundings are necessary; and that it is appropriate in the public interest and in the interest of investors and consumers that the amended application-declaration in respect of said transaction be granted and permitted to become effective:

It is ordered that the jurisdiction reserved in the supplemental order of September 19, 1975 as to portions of the record regarding the issue and sale of installment notes by Columbia of New York which were incomplete at that time be, and the same hereby is, released and that the proposed transaction may be consummated, without further order, in accordance with Rule 24.

Notice is further given that any interested person may, not later than December 30, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by the filing which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicants-declarants at the above-stated address; and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as amended or as it may be further amended, may be granted and permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20 (a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices or orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS, *Secretary.*

[FR Doc.75-33363 Filed 12-10-75;8:45 am]

[Release No. 19290; 70-5773]

THE COLUMBIA GAS SYSTEM, INC. ET AL.

Proposed Open Account Advances to Subsidiary Companies by Parent Company in Connection With Intrasystem Prepayment of Promissory Notes

DECEMBER 5, 1975.

Notice is hereby given that The Columbia Gas System, Inc. ("Columbia"), a registered holding company, and its wholly-owned subsidiary companies listed above, have filed an application-declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating Sections 6(a), 6(b), 9, 10 and 12(b) of the Act and Rules 42(b)(2), 45 and 50(a)(3), promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the application-declaration, which is summarized below, for a complete statement of the proposed transactions.

It is stated that during the winter heating season Columbia's distribution subsidiary companies generate substantial amounts of cash in excess of current requirements. During the same period, however, the transmission subsidiary companies generate lesser amounts of cash and have generally larger construction expenditures, requiring Columbia to advance funds to such subsidiary companies. In recent years, however, the Commission has authorized open account advances by Columbia to subsidiary companies and certain related transactions which are designed to alleviate this situation. The present filing requests authorization to continue such transactions during the calendar year 1976.

It is proposed that the subsidiary companies listed below will prepay from time to time prior to the end of 1976, with excess cash in aggregate amounts not to exceed the amounts set forth below, a portion of their outstanding installments promissory notes ("Notes") held by Columbia. The following amounts represent the estimated aggregate maximum excess funds that such companies are expected to accumulate at any one time during the year 1975:

Columbia Gas Transmission Corp	$175,000,000
Columbia Gas of Pennsylvania, Inc	20,000,000
Columbia Gas of New York, Inc	5,000,000
Columbia Gas of Maryland, Inc	2,000,000
Columbia Gas of Kentucky, Inc	6,000,000
Columbia Gas of Virginia, Inc	3,000,000
Columbia of West Virginia, Inc	10,000,000
Columbia Gas of Ohio, Inc	55,000,000
Columbia Gulf Transmission Co	65,000,000
Columbia Hydrocarbon Corp	4,100,000
The Inland Gas Co., Inc	1,900,000
Columbia LNG Corp	35,000,000
Columbia Gas Development Corp	31,500,000
Total	413,500,000

The Notes ("Indebtedness") prepaid by the individual companies will be those bearing the highest interest rate or rates outstanding at the time of each prepayment. Interest on such Indebtedness will cease upon prepayment and recommence upon reissuance. As any of such companies require funds for construction and other corporate purposes after prepayment, it is proposed that advances be made to them on open account by Columbia, provided that at no time will the amount of such advances to any subsidiary exceed the amount of Indebtedness theretofore prepaid by it, less any current maturities applicable to prepaid Notes which would have matured subsequent to the date of prepayment.

The open account advances to any subsidiary company will bear interest commencing on the date of the advances, at the same rate or rates as borne by the equivalent principal amounts of Indebtedness previously prepaid by it during 1976, but in reverse order to that of the prepayments, i.e., beginning from the lowest rate payable on the Indebtedness previously prepaid to the highest rate. Interest on the open account advances will become due on June 30, 1976, and December 31, 1976, and/or on the date such advances are repaid by the issuance of debt. It is further proposed that advances on open account to individual subsidiary companies will be increased or decreased from time to time in accordance with variations in the cash flow o fthe individual subsidiary companies. The proposed advances will not be in excess of the Indebtedness prepaid theretofore. At such time as the advances to any subsidiary company equal the aggregate amount of the Indebtedness prepaid by it, or in any event not later than December 31, 1976, such prepaid Indebtedness will be reinstated in repayment of the outstanding open account advances.

Financing of construction or gas storage programs of any operating subsidiary company pursuant to Commission authorization will not be consummated until such time as advances have been made in amount equal to the amount of Indebtedness prepaid. Any subsidiary company which during 1976 has borrowed on open account from Columbia an amount smaller than the amount of Indebtedness theretofore prepaid by it, will, on December 31, 1976, reinstate its Indebtedness to Columbia in an amount sufficient to discharge its open account borrowings, and the balance of its prepaid Indebtedness will be considered to have been permanently prepaid. Such permanent prepayment would be applied against Indebtedness bearing the highest interest rates and would be consummated only with respect to Indebtedness bearing interest at a rate equal to or in excess of the rate applicable to borrowings by subsidiary companies from Columbia as of December 31, 1976. In the event that a permanent prepayment by any subsidiary company would be indicated with respect to Notes bearing an interest rate less than the rate applicable to debt purchased by Columbia from subsidiary companies at December 31, 1976, such Notes will be reissued by the subsidiary company at or before the end of 1976.

It is stated that the proposed transactions are designed to achieve the following: (1) flexibility to prepay at the earliest possible date inventory loans with commercial banks and other short-term borrowings, (2) defer outside financing until aggregate system funds approach a minimum balance, (3) facilitate the internal financing of emergency requirements, and (4) allow subsidiaries, during any period in which they have excess cash, to temporarily prepay Notes owed Columbia, thereby decreasing their own net corporate interest expense.

Expenses to be incurred by Columbia and its subsidiary companies in connection with the proposed transactions are estimated at $4,500, including $2,000 for services, at cost, provided by Columbia Gas System Service Corporation.

It is stated that the Public Service Commission of West Virginia has authorized the prepayment and reissuance of prepaid Notes by Columbia Gas of West Virginia, Inc., that the Public Service Commission of New York has authorized the reissuance of prepaid Notes by Columbia Gas of New York, Inc., that the Public Service Commission of Kentucky has authorized the issuance of prepaid Notes by Columbia Gas of Kentucky, Inc., and that the State Corporation Commission of Virginia has authorized the issuance of prepaid Notes by Columbia Gas of Virginia, Inc. It is stated that no other State or Federal commission, other than this Commission has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than December 29, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application-declaration which he desires to controvert; or he may request that he be notified should the Commission order a hearing in respect thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicants-declarants at the above-stated addresses, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as filed or as it may be amended, may be granted and permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division Of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS, *Secretary.*

[Rel. No. 19285; 70-5771]

GENERAL PUBLIC UTILITIES CORP.

Proposed Issue and Sale of Short-Term Notes to Banks

DECEMBER 5, 1975.

Notice is hereby given that General Public Utilities Corporation ("GPU"), a registered holding company, has filed an application with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating Section 6(b) thereof as applicable to the proposed transaction. All interested persons are referred to the application, summarized below, for a complete statement of the proposed transaction.

By orders dated June 29, 1970, November 4, 1970, August 23, 1971, December 27, 1973, June 4, 1974, June 13, 1974, December 24, 1975 and February 21, 1975 (HCAR Nos. 16670, 16892, 17243, 17829, 18433, 18457, 18730 and 18824), the Commission authorized GPU until December 31, 1975, (a) to issue and sell from time to time its unsecured promissory notes maturing not more than nine months after issue ("short-term notes") in an aggregate principal amount outstanding at any one time of up to $135,000,000 to a group of commercial banks pursuant to a credit agreement and (b) to issue and sell short-term notes in an aggregate principal amount of up to $50,000,000 to various commercial banks pursuant to informal lines of credit, provided that the aggregate principal amount of all of GPU's short-term notes outstanding at any one time shall not exceed $175,000,000.

GPU now requests that, for the period commencing on January 1, 1976 and ending on December 31, 1976, it be permitted from time to time to issue or renew its short-term notes to various commercial banks pursuant only to informal lines of credit, provided that the aggregate principal amount of such unsecured promissory notes outstanding at any one time shall not exceed $175,000,000. Each such note will bear interest at a rate not exceeding the "prime rate" which may be the floating rate, of each lending bank for commercial borrowing at the date of issue of such note, will be prepayable at any time without premium and will not be issued as part of a public offering. GPU proposes to use the proceeds of the short-term borrowing for investment in its operating subsidiaries.

Although no commitments or agreements for the proposed borrowings have been made, GPU expects that, to the extent its cash needs require, borrowings will be effected from among 15 designated banks. It is proposed that the maximum short-term credit made available by the banks will total $205,000,000, which exceeds by $30,000,000 the maximum amount for which authority is being requested. It is stated that the purpose of this excess amount of available credit is to provide flexibility with one or more particular banks (but without exceeding such authorized total from all banks) since some banks have indicated from time to time that it is not always convenient for them to renew outstanding notes at the time GPU requests them to do so.

It is anticipated that the banks from which borrowings will be made will require compensating balances at levels generally approximating 10% of the line of credit or 20% of the amounts actually borrowed, whichever is higher. Assuming compensating balances will equal 20% of the aggregate amounts borrowed and a prime of 7¼%, the effective cost of borrowing will be 9.06%.

It is stated that GPU's expenses in connection with the proposed transaction will be approximately $9,000, including legal fees of $6,500. It is also stated that no state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than De-

V40239 DEC 11 75 XUM

cember 30, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the applicants at the above-stated addresses, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application, as filed or as it may be amended, may be granted as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[File No. 500-1]

GENERICS CORP. OF AMERICA

Suspension of Trading

DECEMBER 5, 1975.

The common stock of Generics Corporation of America being traded on the American Stock Exchange pursuant to provisions of the Securities Exchange Act of 1934, the 6% convertible subordinated debentures due July 1983 and all other securities of Generics Corporation of America being traded otherwise than on a national securities exchange; and

It appearing to the Securities and Exchange Commission that the summary suspension of trading in such securities on such exchange and otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

Therefore, pursuant to section 12(k) of the Securities Exchange Act of 1934, trading in such securities on the above mentioned exchange and otherwise than on a national securities exchange is suspended, for the period from December 8, 1975 through midnight (EST) on December 17, 1975.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[Rel. No. 19287; 70-5770]

JERSEY CENTRAL POWER & LIGHT CO.

Proposed Issue and Sale of Short-Term Notes to Banks

DECEMBER 5, 1975.

Notice is hereby given that Jersey Central Power & Light Company ("Jersey Central"), an electric utility subsidiary company of General Public Utilities Corporation ("GPU"), a registered holding company, has filed an application with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating Section 6(b) thereof as applicable to the proposed transaction. All interested persons are referred to the application, summarized below, for a complete statement of the proposed transaction.

By order dated October 17, 1974 (HCAR No. 18610), the Commission authorized Jersey Central, for the period ending December 31, 1975, to issue and sell to 30 commercial banks, as evidence of short-term borrowing therefrom, its unsecured promissory notes, maturing in nine months or less ("short-term notes") provided that the aggregate principal amount of such notes outstanding at any one time would not exceed $120,000,000. Jersey Central now requests (1) authority to increase the aggregate principal amount of its short-term borrowings to $125,000,000 and (2) an extension of such authority to December 31, 1976.

The short-term notes will bear interest at the lending bank's prime interest rate for commercial borrowing at the date of issue of the notes, will be prepayable at any time without premium, and will not be issued as part of a public offering. Although no commitments or agreements for the proposed borrowings have been made, Jersey Central anticipates that, to the extent its cash needs require, borrowings will be effected from time to time from among 37 designated commercial banks. It is also proposed that the maximum short-term credit made available by the banks will total $150 million, which exceeds by $25 million the maximum amount for which authority is being requested. It is stated that the purpose of this excess amount of available credit is to provide flexibility with one or more particular banks (but without exceeding such authorized total amount for all banks) since some banks have indicated from time to time that it is not always convenient for them to renew outstanding notes at any time Jersey Central requests them to do so.

It is anticipated that the banks, from which borrowings will be made, will require compensating balances at levels generally approximately 10% of the line of credit or 20% of the amounts actually borrowed, whichever is higher. Assuming compensating balances will equal 20% of the aggregate amounts borrowed and a prime rate of 7¼%, the effective cost of borrowing would be 9.06%.

Jersey Central proposes to use the proceeds of the short-term loans for its short-term working capital requirements, including repayment of other short-term borrowings, and for construction expenditures. Jersey Central states that it now has short-term notes outstanding in an aggregate principal amount of $15,200,000. The cost of Jersey Central's 1976 construction program is approximately $117,801,000.

It is stated that Jersey Central will incur approximately $8,000 in expenses in connection with the proposed transactions, including legal fees of $5,000. It is also stated that no state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than December 30, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application, as filed or as it may be amended, may be granted as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advise as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc.75-33368 Filed 12-10-75;8:45 am]

[Rel. No. 19283; 70-5775]

METROPOLITAN EDISON CO.

Proposed Capital Contributions by Holding Company to Subsidiary

DECEMBER 5, 1975.

Notice is hereby give that Metropolitan Edison Company ("Met-Ed"), an electric utility subsidiary company of General Public Utilities Corporation, a registered holding company, has filed a declaration with this Commission, pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating Section 12(d) of the Act and Rule 45 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transaction.

Met-Ed requests that it be authorized to make, from time to time prior to December 31, 1976, cash capital contributions to its subsidiary, York Haven Power Company ("YHP"), of up to $500,000. Such cash capital contributions will be credited by YHP to its capital surplus account. These funds will be utilized by YHP for purposes of (i) acquiring from International Paper Company ("IPC") certain property, easements and related water rights comprising Project No. 2095 (the license for which under the Federal Power Act is now held by IPC), (ii) modifying such property in order to comply with the terms and conditions of the order, dated September 23, 1975, of the Federal Power Commission ("FPC"), and (iii) financing its business as a public utility.

The FPC order of September 23, 1975, authorized the amendment of YHP's license for Project No. 1888 to include the Project No. 2095 properties to be purchased from IPC pursuant to an Agreement of Sale, dated November 23, 1971, with IPC. Under a power supply amendment, dated April 30, 1974, which has been filed with and accepted by the FPC as an initial rate schedule, Met-Ed and YHP have agreed that Met-Ed shall purchase the total power and energy from Project No. 1888 on a rate based upon YHP's costs and expenses in generating and transmitting such power and energy plus an additional amount representing a rate of return on the net investment in Project No. 1888.

By order dated April 12, 1974 (HCAR No. 18374), Met-Ed was authorized to transfer to YHP substantially all the tangible and intangible project property comprising Met-Ed's York Haven hydroelectric project, as revised, licensed as Project No. 1888, and the license, as amended, for said project. The transfer reserved and excluded certain rights and property necessary for the construction and operation of the Three Mile Island nuclear generating station, in exchange for all the capital stock of YHP.

Met-Ed states that it must make cash capital contributions to YHP since YHP's internal cash generation under the power supply agreement has not been sufficient to provide the necessary funds in order to consummate the purchase of the IPC properties comprising Project No. 2095 as well as carry out certain modifications to the properties as required by the FPC order, dated September 23, 1975.

The fees and expenses to be incurred by Met-Ed in connection with the proposed transactions are estimated at $4,500, including legal fees of $2,250. The filing states that no state commission and no federal commission, other than this Commission, has jurisdiction with respect to the proposed transactions, except that the FPC has jurisdiction with respect to the amendment to the license for Project No. 1888 to include the properties consisting of Project No. 2095.

Notice is further given that any interested person may, not later than December 30, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc.75-33369 Filed 12-10-75;8:45 am]

[Rel. No. 19284; 70-5581]

METROPOLITAN EDISON CO.

Proposed Issue and Sale of Short-Term Notes to Banks

DECEMBER 5, 1975.

Notice is hereby given that Metropolitan Edison Company ("Met-Ed"), an electric utility subsidiary company of General Public Utilities Corporation, a registered holding company, has filed a post-effective amendment to its application previously filed in this matter with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating Section 6(b) of the Act as applicable to the proposed transaction. All interested persons are referred to the application, as amended by the post-effective amendment, summarized below, for a complete statement of the proposed transaction.

By Order dated December 24, 1974 (HCAR No. 18732), the Commission authorized Met-Ed, for the period January 1, 1975 to December 31, 1975, to issue or renew its unsecured promissory notes of a maturity of nine months or less evidencing short-term borrowings ("short-term notes") provided that the aggregate principal amount of such notes to be outstanding at any one time did not exceed the lesser of (A) $70,000,000 or (B) 10% of the sum of (i) the principal amount of Met-Ed's outstanding first mortgage bonds and debentures, (ii) the par value of Met-Ed's outstanding preferred stock, (iii) the stated value of Met-Ed's outstanding common stock, and (iv) the capital surplus of Met-Ed. The notes bear interest at a rate not exceeding the prime rate, which can be the floating rate of the lending bank for commercial borrowing at the date of issue of such note, are prepayable at any time without premium, and are not issued as a part of a public offering.

Met-Ed now requests an extension of such authority to December 31, 1976, and proposes to revise the list of banks from which it may make such borrowings.

Met-Ed proposes to revise the list of banks by adjusting the maximum short-term credit made available by three of the 36 designated banks. The aggregate maximum short-term credit made available by the banks will continue to be $90,000,000, which exceeds by $20,000,000 the maximum amount for which authority is being requested. It is stated that the purpose of this excess amount of available credit is to provide flexibility with one or more particular banks (but without exceeding the authorized total amount for all banks) since some banks have indicated that it is not always convenient for them to renew outstanding notes at the time Met-Ed requests them to do so.

Met-Ed anticipates that the banks will require it to maintain compensating balances equal to approximately 10% of the line of credit or 20% of the aggregate amounts borrowed. Assuming compensating balances equal 20% of the aggregate amounts borrowed, and a prime rate of 7¼%, the effective cost of borrowing would be 9.06%.

Met-Ed proposes to use the proceeds of the short-term loans to provide funds for its short-term working capital requirements, including repayment of other short-term borowings, and to provide a temporary source of funds for construction expenditures. Met-Ed states that at present it has no short-term notes outstanding. The cost of Met-Ed's 1976 construction program is estimated to be approximately $69,693,000.

It is stated that Met-Ed's expenses in connection with the proposed transaction will be approximately $6,500, including legal fees of $6,000. It is also stated that no state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than December 30, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application, as amended by such post-effective amendment, which he desires to controvert; or he may request that he be notified if the Commission should order a hearing

V 40 239 DEC 11 75 XUM

thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application, as amended by said post-effective amendment or as it may be further amended, may be granted as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc.75-33370 Filed 12-10-75;8:45 am]

[Rel. No. 19286; 70-5582]

PENNSYLVANIA ELECTRIC CO.

Issue and Sale of Short-Term Notes to Banks

DECEMBER 5, 1975.

Notice is hereby given that Pennsylvania Electric Company ("Penelec"), an electric utility subsidiary company of General Public Utilities Corporation, ("GPU") a registered holding company, has filed with this Commission a post-effective amendment to its application previously filed in this matter pursuant to the Public Utility Holding Company Act of 1935 ("Act") designating Section 6(b) thereof as applicable to the following proposed transaction. All interested persons are referred to the application as amended by the post-effective amendment, summarized below, for a complete statement of the proposed transaction.

By Order, dated December 23, 1974 (HCAR No. 18727), and Supplemental Orders dated March 20, 1975 (HCAR No. 18877) and June 24, 1975 (HCAR No. 19059), the Commission authorized Penelec, for the period January 1, 1975 to December 31, 1975, to issue or renew its unsecured promissory notes of a maturity of nine months or less evidencing short-term bank borrowings ("short-term notes"), provided that the aggregate principal amount of such notes to be outstanding at any one time did not exceed the lesser of (A) $88,000,000 or (B) 10% of the sum of (i) the principal amount of Penelec's outstanding first mortgage bonds and debentures, (ii) the par values of Penelec's outstanding preferred and common stock, and (ii) the capital surplus of Penelec. The notes are to bear interest at a rate not exceeding the prime rate, which can be the floating rate of the lending bank for commercial borrowing at the date of issue of such note, are to be prepayable at any time without premium, and are not to be issued as a part of a public offering. Penelec now requests (a) an extension of such authority to December 31, 1976 and (b) authority to increase its short-term borrowings up to a maximum aggregate amount of $98,000,000.

Although no commitments or agreements for the proposed borrowings have been made, Penelec anticipates that, to the extent of its cash needs, borrowings will be effected from time to time for among 49 designated commercial banks. It is also proposed that the short-term credit made available by the banks will total $130,000,000, which exceeds by $32,000,000 the maximum amount for which authority is being requested. It is stated that the purpose of this excess amount of available credit is to provide flexibility with one or more particular banks (but without exceeding such authorized total amount for all banks) since some banks have indicated from time to time that it is not always convenient for them to renew outstanding notes at the time Penelec requests them to do so.

Penelec anticipates that the banks will require it to maintain compensating balances equal to 10% of the line of credit or 20% of the amounts actually borrowed, whichever is higher. Assuming compensating balances equal to 20% of the aggregate amounts borrowed and a prime rate of 7¼%, the effective cost of borrowing would be 9.06%.

Penelec proposes to use the proceeds of the short-term loans to provide funds for its short-term working capital requirements, including repayment of other short-term borrowings, and to provide a temporary source of funds for construction expenditures. Penelec states that it now has no unsecured notes outstanding. The cost of Penelec's 1976 construction program is expected to be approximately $13,012,000.

It is stated that Penelec's expenses in connection with the proposed transaction will be approximately $6,500, including legel fees of approximately $6,000. It is also stated that no state commission, no federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than December 30, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application as amended by said post-effective amendment which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application, as amended by said post-effective amendment or as it may be further amended, may be granted as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[File No. 500-1]

TRANSJERSEY BANCORP

Suspension of Trading

DECEMBER 3, 1975.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock of Transjersey Bancorp being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

Therefore, pursuant to Section 12(k) of the Securities Exchange Act of 1934, trading in such securities otherwise than on a national securities exchange is suspended, for the period from December 4, 1975 through December 13, 1975.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[Rel. No. 9074; 812-3870]

UNION BANK AND NAFCU SERVICES CORP.

Application

DECEMBER 5, 1975.

Notice is hereby given that NAFCU Services Corporation (NAFCU) and Union Bank (the "Bank") (collectively referred to as "Applicants"), have filed an application pursuant to Section 6(c) of the Investment Company Act of 1940 ("Act") for an order exempting the Common Trust Fund of Union Bank for Credit Union Trusts (the "Fund") from all the provisions of the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

NAFCU, a District of Columbia corporation, was organized in May 1975 for the purpose of providing various administrative, financial and data processing services to credit unions. All of its outstanding shares are owned by the National Association of Federal Credit Unions, a California corporation.

Applicants have proposed the establishment of the Fund in order to permit credit unions to invest more efficiently in securities authorized by law for federal credit unions through the collective investment and reinvestment in a trust portfolio of securities which are exempt securities under Section 3(a)(2) of the Securities Act of 1933 (the "1933 Act"). The corpus of the Fund will consist of monies contributed by trusts ("Participating Trusts"), established by individual credit unions with the Bank as trustee. It is anticipated that the Fund, because of its size and ability to diversify investments, will provide a greater yield and liquidity to participating credit unions than could be obtained through individual credit union investments.

The Plan of Common Trust ("the Plan") provides that the Fund shall be open to credit unions organized under the Federal Credit Union Act, credit unions organized under the laws of the District of Columbia, or any state, territory or possession of the United States; and credit unions organized and operating under the jurisdiction of the United States Department of Defense. Applicants have applied for a ruling from the National Credit Union Administration, which supervises and administers federal credit unions, that, under the Federal Credit Union Act, federal credit unions may invest their funds in the Fund. If any state chartered credit union desires to participate in the Fund, approval of such participation by the applicable state agency responsible for administering such credit union will be sought.

The Comptroller of the Currency has reviewed the Plan and has found the Plan to be in compliance with Section 9.18 of the Regulations of the Comptroller of the Currency relating to collective investment funds.

No sales charge or load will be assessed against a Participating Trust for assets invested in the Fund. Contributions to or withdrawal from the Fund may be made at any time. Income and gains realized on investments of the Fund will not be distributed separately at fixed intervals but will, in effect, be paid pro rata to a participating trust only upon the withdrawal of its participation.

The Bank will supply investment management, safe keeping of assets, and bookkeeping services to the Fund. For these services the Bank will charge the Fund a fee of .00175 of the asset value of the Fund per year. The Bank will have ful discretionary powers with respect to investment and reinvestment of the assets of the Fund and may determine through a Trust Investment Committee the portfolio of securities to be acquired with the assets of the Fund.

Applicants anticipate that the purchases by the Bank of securities for the Fund will be executed through entities making markets in securities or by direct purchases upon the original issuance of such securities. No securities will be purchased on margin nor will there be any short sales. Customary commissions with respect to market purchases will be paid. The Bank in investing and reinvest the corpus of the Fund will seek to obtain the best execution. Investments of the Fund will be kept separate and apart from all other property belonging to the custody of the Bank. Each credit union establishing a Participating Trust and the Comptroller of the Currency will be provided with a yearly audited financial report on the Fund.

The Bank will be subject to the restrictions against self-dealing contained in Section 9.12(a) of Regulation 9 of the Comptroller of the Currency Regulation 9, which states that "Unless lawfully authorized by the instrument creating the relationship, or by court order or by local law, funds held by a national bank as fiduciary shall not be invested in stock or obligations of, or property acquired from, the bank of its directors, officers, or employees, or individuals with whom there exists such a connection, or organizations in which there exists such an interest, as might affect the exercise of the best judgment of the bank in acquiring the property, or in stock or obligations of, or property acquired from, affiliates of the bank or their directors, officers, or employees." Counsel for Applicants states that neither the instrument creating the relationship, court order, or local law authorizes the Bank in its fiduciary capacity as Trustee of Fund to engage in the kind of self-dealing described in Section 9.12(a) of Regulation 9. Applicant's counsel states that it is his opinion, therefore, that such self-dealing is prohibited by Section 9.12(a) of Regulation 9 which the Bank has agreed to comply with pursuant to Section 1.5 of the Plan.

Pursuant to the Plan and to a letter agreement dated September 16, 1975, the Bank has retained NAFUC to provide technical advice and operation assistance to the Bank in operating the Fund. Such services will include but will not be limited to (i) technical advice concerning credit unions in general; (ii) technical assistance with respect to special problems involving participating credit unions, such as the handling of overdrafts; (iii) the preparation and dissemination of information concerning the mechanics of transferring money in and out of the Fund; (iv) conferences and dissemination of educational materials concerning the use of the Fund; and (v) the necessary liaison and conferences with federal and state agencies, including credit union supervisory authorities, relating to the operation of the Fund. It is anticipated that except for day-to-day money transfers and reporting obligations, NAFUC Services Corporation will be responsible for all communications with participating credit unions. For these services the Bank will pay NAFUC an annual fee equivalent to .00075 of that portion of the asset value of the Fund that is in excess of the portion essential for the Bank to aggregate an annual fee of $95,000 pursuant to its fee arrangement with the Fund.

Applicants submit that it is appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act for the Commission to enter an order exempting the Fund from all the provisions of the Act for the following reasons: (1) Participation in the Fund will be offered only to credit unions; (2) Participating credit unions would be subject to continuing reporting provisions, examination requirements and other regulations of federal and state agencies which limit investments by such credit unions to those government securities designated in the applicable enabling legislation; (3) The operation of the Fund and the Participating Trusts will be supervised and examined by the Comptroller of the Currency to assure compliance with Section 9 of the Regulations of the Comptroller of the Currency pertaining to fiduciary accounts and collective investment funds; (4) The Fund will involve organizations (credit unions) which are exempted by Section 3(c)(4) of the Act from regulation under the Act and the securities (government securities and government agency securities) in which the Fund will invest are exempt from the Securities Act of 1933 by Section 3(a)(2) of that Act; (5) The Fund will operate to carry out the congressional policy of providing "a further market for securities of the United States" (Preamble to the Federal Credit Union Act, Act of June 26, 1934, 48 Stat. 1216, 12 U.S.C. 1751 et seq); and (6) An additional layer of regulation will provide no additional protection and would cause only unnecessary burdens and expenses and duplication of effort contrary to the interests of the members of credit unions and the general public.

Section 6(c) of the Act provides that the Commission, by order upon application, may conditionally or unconditionally exempt any person or transaction from any provision of the Act or of any rule or regulation thereunder, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than December 26, 1975, at 5:30 p.m., submit to the Commission in writing, a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Appli-

V40239 DEC 11 75 XUM

cants at the addresses stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0–5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following December 26, 1975, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[Release No. 34—11898; File No. SR-Amex-75-14]

AMERICAN STOCK EXCHANGE, INC.

Self-Regulatory Organizations

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94–29, 16 (June 4, 1975), notice is hereby given that on November 28, 1975, the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

The American Stock Exchange, Inc. (the "Amex") proposes to amend Rule 576 and the Commentary thereto in order that it may improve the proxy solicitation procedures which have been established for member organizations under that rule.

STATEMENT OF BASIS AND PURPOSE

The basis and purpose of the foregoing proposed rule change is as follows:

In general, the purposes of the proposed amendments to Rule 576 are to (a) expand the scope of this rule to require member organizations to transmit proxy material to shareholders who are beneficial owners of "street name" securities and who reside outside the United States and (b) improve and clarify the proxy solicitation procedures by revising the sample letters suggested for use by member organizations to (i) urge beneficial owners to instruct their brokers how they wish their shares to be voted and (ii) advise beneficial owners that their instructions will be followed by the member organization if received by the last business day before the shareholders' meeting.

Rule 576 presently provides that whenever a person soliciting proxies furnishes a member organization with copies of the proxy solicitation material and agrees to make reimbursement, the member organization is required to transmit such material to each beneficial owner of securities held by it in "street name", provided the owner resides within the United States. To provide foreign shareholders with the opportunity to participate in the corporate voting process, the Amex proposes to amend rule 576 to require proxy material to be transmitted to all beneficial shareholders, regardless of country of domicile.

As a guide to member organizations performing the notification duties specified in rule 576, commentary .20 thereto currently contains sample letters for use by member organizations in soliciting their customers' instructions relative to the manner in which their shares should be voted. The proposed amendments to commentary .20 would do the following:

First, member organizations would be permitted to adapt the transmittal letter format to suit their own needs, provided it contained all of the required information and instructions.

Second, the sample transmittal letters would be revised so as to urge beneficial owners to instruct their brokers as to how they wish their shares to be voted and to indicate that such instructions will be followed if received by the member organization no later than the last business day prior to the stockholders' meeting, notwithstanding the fact that the member organization may have already cast a vote on a discretionary basis. These changes are designed to alert beneficial owners to the importance of having their views represented at shareholders' meetings and to provide a reasonable "cut-off" time prior to the meeting so that instructions may be processed and voted accordingly.

Lastly, minor technical changes have been made in the text of commentary .20 to rule 576 as indicated in section 1. above to eliminate certain existing ambiguities.

The proposed elimination of commentary .70 to rule 576 is designed to conform the commentary to the text of the rule. The provisions of commentary .70 currently state that the rule is not applicable to beneficial owners located outside the United States.

The balance of the changes to the commentary to rule 576 reflect the renumbering necessitated by the elimination of commentary .70.

The proposed amendments to rule 576 described herein are designed to conform to the provisions of section 6(b)(5) of the Securities Exchange Act of 1934, as amended, which becomes effective on December 1, 1975 and which provides, in pertinent part, that exchange rules must be designed to protect investors and the public interest. The proposed Amex rule amendments if approved prior to that date, will be consistent with that section when it becomes effective.

The proposed amendments, if approved, will enhance the ability of public investors, regardless of country of domicile, to have their views represented at stockholders' meetings.

No comments were solicited or received from members or participants on the proposed rule change.

The proposed amendments were submitted to the Securities and Exchange Commission earlier in the year under then existing SEC rule 17a–8, and the staff of the Commission offered comments with respect thereto. The SEC staff suggested that the phrase in the sample transmittal letter "prior to the last business day" was somewhat ambiguous and recommended that this phrase be revised to "by the last business day". The Amex Board of Governors approved this revision on July 10, 1975.

The Amex has determined that the amendments to rule 576 will not impose a burden on competition.

Within 35 days of the date of publication of this notice in the FEDERAL REGISTER, or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the above-mentioned self-regulatory organization consents, the Commission will:

(A) by order approve such proposed rule change, or

(B) institute proceedings to determine whether the proposed rule change should be disapproved.

Interested persons are invited to submit written data views and arguments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the public Reference Room, 1100 L Street, NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted by January 12, 1975.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

DECEMBER 3, 1975.

[Release No. 11903]

STREET NAME STUDY

Transmittal to Congress of Preliminary Report

The Securities and Exchange Commission today announced that on December 4, 1975, pursuant to section 12(m) of the Securities Exchange Act of 1934 (the "Act"), the Commission transmitted to Congress the preliminary report of the "Street Name Study."

Added to the Act by the 1975 Amendments, section 12(m) authorizes and directs the Commission to undertake a study and investigation of the practice of recording the ownership of securities in the records of the issuer in other than the name of the beneficial owner of such securities and to determine (1) whether such practice is consistent with the purposes of the Act with particular reference to sections 12(g), 13, 14, 15(d), 16, and 17A, and (2) whether steps can be taken to facilitate communications between issuers and the beneficial owners of their securities while at the same time retaining the benefits of such practice. The Commission is directed to report to Congress its preliminary findings by December 4, 1975, and its final conclusions and recommendations by June 4, 1976.

The preliminary report is divided into four principal sections. First, it describes the historical factors which gave rise to the practice of registering securities in other than the name of the beneficial owner and summarizes available information concerning the extent of the practice today. Second, it describes the effect of the practice on the purposes of the Act, including the issuer-shareholder communications process, the clearing and settlement process and other considerations. Third, it sets forth possible alternatives to the current practice. Finally, it describes the direction the study will take in the next six months.

Copies of the preliminary report are available to the public from the Commission's Office of Public Information, 500 North Capitol Street, Washington, D.C. 20549.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

DECEMBER 5, 1975.

[Release 34–11897; File No. SR–NASD–75–7]

NATIONAL ASSOCIATION OF SECURITIES DEALERS, INC.

Self-Regulatory Organizations

Pursuant to Section 19(B)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94–29, 15 (June 4, 1975) notice is hereby given on December 3, 1975, the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

NASD's STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

The Board of Governors, pursuant to its obligation to prevent fraudulent and manipulative acts and practices and to promote just and equitable principles of trade, has determined that no person may be involved in any way with a private securities transaction outside the regular course or scope of his association or employment, without prior notice to the member with whom he is associated.

TEXT OF PROPOSED RULE CHANGE

The following is the full text of the proposed amendments to the policy statement of the Board of Governors of the National Association of Securities Dealers entitled "Fair Dealing with Customers" appearing after Article III, Section 2 of the Rules of Fair Practice of the National Association of Securities Dealers, Inc.

Item 4 subsection (e), which reads as follows, shall be eliminated:

PRIVATE TRANSACTIONS

(e) Transactions by registered representatives which are concealed from their employers, or securities transactions outside registered representatives' regular employment, even if disclosed to state law.

The following is the full text of the proposed interpretation and explanation of the Board of Governors of Article III, Sections 1, 27 and 28 of the Association's Rules of Fair Practice, which shall appear after Section 27 of Article III of the Association's Rules of Fair Practice.

INTERPRETATION BY THE BOARD OF GOVERNORS

PRIVATE SECURITIES TRANSACTIONS

Introduction

The Board of Governors, under its obligation to "prevent fraudulent and manipulative acts, [and] practices and to promote just and equitable principles of trade," believes it should again emphasize to members their continuing responsibility to exercise appropriate supervision over associated personnel, and in particular to emphasize to such personnel their responsibilities of good faith to the member and its customers. For purposes of this interpretation, private securities transactions shall include securities transactions which involve a limited number of purchases or sales (as contrasted, for example, with transactions involving public offerings registered with the SEC) and other investment transactions involving associated personnel which may mislead customers or participants into believing the transactions are sponsored by the member.

Depending upon all the facts and circumstances, private securities transactions effected outside the usual or normal course or scope of employment and nowhere reflected on broker dealer books and records may expose the participants to charges of serious violations of federal securities laws as well as industry rules and regulations, and to civil liability. In some instances, severe sanctions have been imposed on registered and associated personnel for engaging in private securities transactions effected outside the scope of their association and nowhere reflected on broker/dealer books and records.

Persons associated with a member should also be aware that their involvement in private securities transactions outside the scope of their association with a member may raise serious questions regarding their need to register as broker/dealers and/or investment advisers under state and federal securities laws. In addition, effecting private securities transactions without disclosure to the member, deprives the member of an ability to supervise the securities transactions of persons associated with it, thereby making it difficult for the member to exercise its obligation of good faith in its dealings with its customers.

Accordingly, the Board of Governors has determined that no person may be involved in any way with a private securities transaction outside the regular course or scope of his association or employment, without prior notice to the member with whom he is associated. To insure compliance with this determination, the member may at its option request duplicate copies of all documents and statements related to such transactions. It shall be the duty of any person associated with a member to promptly comply with such a request.

Personal securities transactions with another member of the Association, which transactions are properly recorded on the books of the executing member and which are subject to the notification requirements of Article III, Section 28 of the Rules of Fair Practice, are not considered to be private securities transactions for the purposes of this interpretation.

The following Interpretation of Article III, Sections 1, 27 and 28 of the Association's Rules of Fair Practice is adopted by the Board of Governors of the Association pursuant to the provisions of Article VII, Section 3(a) of the Association's By-Laws and Article I, Section 3 of the Rules of Fair Practice.

INTERPRETATION

It shall be deemed conduct inconsistent with just and equitable principles of trade for any person associated with a member to engage in a private securities transaction outside the regular course of scope of his association or employment with a member, for himself or with or for any other person without prior written notification to the member. In order for that member to exercise supervision over such transactions, it may request duplicate copies of all confirmations and other documents or other information related to such transactions from the person notifying the member and it shall be deemed conduct inconsistent with just and equitable principles of trade for that person to fail to promptly comply with such request.

V 40 239 DEC 11 75 XUM

PURPOSE OF PROPOSED RULE CHANGE

It is the purpose of the Board of Governors in adopting an interpretation with regard to the private securities transactions of associated personnel to emphasize to members their continuing responsibility to exercise appropriate supervision over their associated personnel. Private securities transactions or other investment transactions involving associated personnel and effected outside the usual or normal course or scope of employment, and nowhere reflected on the books of the broker/dealer may mislead customers of the firm or participants in the investment transaction into believing that the transaction is sponsored by the member. In some instances in the past, serious violations of the federal securities laws as well as industry rules and regulations have resulted and civil liability has been imposed on registered and associated personnel for engaging in private securities transactions effected outside the scope of their association and nowhere reflected on the broker/dealer's books and records.

The purpose of this interpretation is to notify persons associated with a member and involved in private securities transaction outside the scope of their association with the member, of the possibility of their being required to register as broker/dealers or investment advisors under state and federal securities laws. The interpretation also notifies and reinforces the obligation of a member to supervise the securities transactions of persons associated with it as well as its obligation to develop and maintain an ability to supervise such transactions and insure satisfaction of its requirement of good faith in dealing with its customers.

Accordingly, the interpretation of the Board of Governors will require an associated person to give prior notice to the member of his involvement in any way with any private securities transaction or other investment transaction outside the regular course or scope of his association or employment that might result in customers or participants being led to believe the transaction is being sponsored by the member. To insure compliance with this determination, the member may, at its option, request duplicate copies of all documents and statements relating to such transaction.

Personal securities transactions with another member of the Association, when the transactions are properly recorded on the books of the executing member and which are subject to the notification requirements of Article III, Section 28 of the Rules of Fair Practice, are not considered to be private securities transactions for the purposes of this interpretation.

BASIS UNDER THE ACT FOR PROPOSED RULE CHANGE

Section 15A(b) of the Securities Exchange Act of 1934 provides that an association of brokers and dealers shall not be registered as a national securities association unless the Commission determines that (6) the rules of the association are designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, and in general to protect investors and the public interest. Further, the rules of the association must (7) provide that its members and persons associated with its members shall be appropriately disciplined for violation of any provisions of the act or the rules and regulations thereunder, or the rules of the Association, by the imposition of appropriate penalties.

The Board of Governors of the Association, pursuant to the provisions of Article VII, Section 3(a) of the Association's By-Laws and Article I, Section 3 of the Rules of Fair Practice of the Association adopted the above interpretation in acceptance of this responsibility imposed by the Act.

COMMENTS RECEIVED FROM MEMBERS, PARTICIPANTS OR OTHERS ON THE PROPOSED RULE CHANGE

Twenty comment letters were received from the membership on the proposed interpretation of the Board of Governors. Three of the letters expressed and unqualified support for the proposed amendments and explanatory material. The vast majority of responses, however, recognized a need for the supervision of "private transactions", but believed the language and/or the scope of the interpretation and/or the explanatory material should be modified. There were no unqualified objections to the concept of supervision of private transactions, but three qualified responses opposed the interpretation on the grounds that it would be an administrative "nightmare" if the interpretation were applied to insurance companies, and that it was not clear what the term "securities" encompassed for the purposes of the interpretation. The suggestions were considered and changes in the interpretation were adopted by the Board of Governors. Copies of all comment letters are attached as Exhibit 2.

BURDEN ON COMPETITION

This interpretation of the Board of Governors of the Association is an enunciation of the acceptance of the responsibility imposed by statute on the Association to prevent fraudulent and manipulative acts and practices and to protect investors and the public interest. For the purposes of complying with the requirements of the Act, it is felt that there is no burden placed on competition as the result of requiring persons associated with a member to report private securities transactions and other investment transactions engaged in outside the regular course or scope of his association or employment with a member to that member. It is felt that this requirement is necessary in order for the member to exercise supervision over such transactions and thereby make it easier for the member to exercise its obligation of good faith in its dealings with its customers. Inasmuch as any regulatory proposal is a burden on competition because it restricts activity, the decision to allow the Association to burden competition that far was considered and approved by Congress. Consequently, it is felt that if any burden on competition is imposed by the proposed interpretation of the Board of Governors, it is necessary and is in furtherance of the purposes of the Act.

Within 35 days of the date of publication of this notice in the FEDERAL REGISTER, or within such longer period (i) as the Commission may designate up to 90 days of such date it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the above mentioned self-regulatory organization consents, the Commission will:

(a) By order approve such proposed rule change, or

(b) Institute proceedings to determine whether the proposed rule change should be disapproved.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street NW. Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above mentioned self regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before January 12, 1976.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

DEPARTMENT OF LABOR

Wage and Hour Division

FULLTIME STUDENTS AT INSTITUTIONS OF HIGHER EDUCATION

Certificates Authorizing Employment at Subminimum Wages

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938, as amended, the regulation on employment of full-time students at subminimum wages (29 CFR 519), and Administrative Order No. 621 (36 FR 12819), the institutions of higher education listed in this notice have been granted authority to employ their full-time students outside of the individual student's regularly scheduled hours of instruction at hourly rates not less than 85 percent of the applicable statutory minimum rate specified under section 6 of the Act.

The regulation provides for the authority to be effective on the date a properly completed application is forwarded to the Wage and Hour Division provided applicable conditions of the regulations are met. After review by the Division, the authority may be continued in effect for up to one year from the date the application was forwarded to the Division. The expiration date of the authority granted to a particular institution of higher education listed in this notice occurs between December 20, 1975 and June 19, 1976, inclusive.

The terms and conditions of the regulation further limit the authority to employ full-time students at subminimum wages to not more than 20 hours per week when school is in session, prohibit subminimum wage employment in unrelated trades or businesses such as apartment houses, stores, or other businesses not primarily catering to the students of the institution, and prohibit the hiring of full-time students at subminimum wages for work in a unit or units of the campus where abnormal labor conditions, such as a strike or lockout exist. The authority does not excuse noncompliance with higher standards applicable to full-time students under any other Federal law, State law, local ordinance, or union or other agreement.

The authority has been granted to each institution of higher education upon the representations of the institution which, among other things, were that employment of full-time students at subminimum wages is necessary to prevent curtailment of opportunities for employment, the hiring of full-time students at subminimum wages will not create a substantial probability of reducing the full-time employment opportunities of persons other than those employed under the authority, and such authority will not result in a reduction of the wage rate paid to a current employeee. The authority may be annulled or withdrawn in the manner provided in Part 528 of Title 29 of the Code of Federal Regulations. Any person aggrieved by the granting of the authority to any of the institutions listed may seek a review or reconsideration thereof on or before January 26, 1976.

Signed at Washington, D.C. this 5th day of December, 1975.

DONALD T. CRUMBACK,
Authorized Representative of the Administrator.

CLIFTEX CORP.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On November 21, 1975, the Department of Labor received a petition filed under Section 221(a) of the Trade Act of 1974 ("the Act") by the Amalgamated Clothing Workers of America on behalf of the workers and former workers of Cliftex Corporation, New Bedford, Massachusetts (TA-W-340).

Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with men's sportcoats and suits produced by Cliftex Corporation or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than December 18, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., N.W., Washington, D.C. 20210.

Signed at Washington, D.C. this 21st day of November 1975.

MARVIN M. FOOKS,
Acting Director, Office of Trade Adjustment Assistance.

[TA-W-169]

CRESCENT KNITTING MILLS

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-169; investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on September 19, 1975 in response to a worker petition received on that date which was filed by the International Ladies' Garment Workers' Union (AFL-CIO) on behalf of workers and former workers producing men's and ladies' sweaters at Crescent Knitting Mills, Philadelphia, Pennsylvania.

The notice of investigation was published in the Federal Register (40 FR 44639) on September 29, 1975. No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Crescent Knitting Mills, its customers, the U.S. International Trade Commission, U.S. Department of Commerce, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) that a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separate, or are threatened to become totally or partially separated,

(2) that sales or production, or both, of such firm or subdivision have decreased absolutely, and

(3) that increases of imports of articles like or directly competitive with articles produced by such workers' firm or an appropriate subdivision thereof contributed importantly to such total or partial separation, or threat thereof, and to such decline in sales or production.

For purposes of paragraph (3), the term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Significant Total or Partial Separations

Employment of production workers at Crescent declined 16 percent in 1974 from 1973 and declined 55 percent in the first nine months of 1975 compared to the first nine months of 1974. Average weekly hours for production workers at Crescent declined six percent in 1974 and 12 percent in the first nine months of 1975 compared to the same period in 1974.

Sales or Production, or Both, Have Decreased Absolutely

Eighty percent of the sweaters produced at Crescent during 1973 and 1974 were men's sweaters. Production declined 15 percent between 1973 and 1974 and declined more than 62 percent in the first nine months of 1975 compared to the same period in 1974.

Increased Imports Contributed Importantly

Domestic production of knit sweaters has been adversely affected by both the economic recession and increased import competition. With the exception of one year during the 1970-1974 period, imports of men's and boys' sweaters increased in both absolute and relative terms. Imports in the first six months of 1975 were 60 percent greater than during the same period in 1974. Imports relative to domestic production were 24 percent in 1970, 33 percent in 1972, and 39 percent in 1974.

Major U.S. retailers have significantly increased their purchases of imported sweaters relative to purchases of domestic sweaters in the first six months of 1975. Firms such as Crescent which produce on a contractual basis have been particularly affected by increased imports in that their customers, most of whom also manufacture, are in many cases able to absorb their own sales declines by reducing purchases from their contractors.

Conclusion

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with knit sweaters produced by Crescent Knitting Mills, Inc., Philadelphia, Pennsylvania contributed importantly to the total or partial separation of the workers of that firm. Section 223(b)(2) of the Trade Act of 1974 provides that a certification of eligibility to apply for worker adjustment assistance may not apply to any worker last separated from the firm or subdivision more than six months before April 3, 1975, the effective date of the new program. In accordance with the provision of the Act, I make the following certification:

All hourly, piecework, and salaried employees of Crescent Knitting Mills, Philadelphia, Pennsylvania who became totally or partially separated from employment on or after October 3, 1974 are eligible to apply for adjustment assistance under Title II, Chapter 2, of the Trade Act of 1974.

Signed at Washington, D.C. this 21st day of November 1975.

GLORIA G. PRATT,
Director, Office of Foreign Economic Policy.

[FR Doc.75-33558 Filed 12-10-75;8:45 am]

[TA-W-171]

LONDON KNITTING MILLS

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-171; investigation regarding certification of eligibility to apply for worker adjustment assistance as Prescribed in Section 222 of the Act.

The investigation was initiated on September 19, 1975 in response to a worker petition received on that date which was filed by the International Ladies' Garment Workers' Union (AFL-CIO) on behalf of workers and former workers producing men's and ladies' sweaters at London Knitting Mills, Philadelphia, Pennsylvania.

The notice of investigation was published in the Federal Register (40 FR 44640) on September 29, 1975. No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of London Knitting Mills, its customers, the U.S. International Trade Commission, U.S. Department of Commerce, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Secton 222 of the Trade Act of 1974 must be met:

(1) that a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated,

(2) that sales or production, or both, of such firm or subdivision have decreased absolutely, and

(3) that increases of imports of articles like or directly competitive with articles produced by such workers' firm or an appropriate subdivision thereof contributed importantly to such total or partial separation, or threat thereof, and to such decline in sales or production.

For purposes of paragraph (3), the term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Significant Total or Partial Separations

Employment of production workers at London declined 12 percent in 1974 compared to 1973, and declined 33 percent in the first eight months of 1975 compared to the same period in 1974. Average weekly hours for production workers declined eight percent in 1974 and 24 percent in the first eight months of 1975 compared to the same period in 1974.

Sales or Production, or Both, Have Decreased Absolutely

London Knitting Mills produced only men's and boys' sweaters during 1973-1975. Sales of men's and boys' sweaters by London increased four percent between 1973 and 1974. Sales then declined 53 percent in the first eight months of 1975 compared to the first eight months of 1974.

Increased Imports Contributed Importantly

Domestic production of knit sweaters has been adversely affected by both the economic recession and increased import competition. With the exception of one year during the 1970-1974 period, imports of men's and boys' sweaters increased in both absolute and relative terms. Imports in the first six months of 1975 were 60 percent greater than during the same period in 1974. Imports relative to domestic production were 24 percent in 1970, 33 percent in 1972, and 39 percent in 1974.

Major U.S. retailers have significantly increased their purchases of imported sweaters relative to purchases of domestic sweaters in the first six months of 1975. A major customer of London indicated that its purchases from London have declined sharply in 1975 because many of its own customers at the retail level have switched increasingly to imported sweaters.

Conclusion

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with knit sweaters produced by London Knitting Mills, Inc., Philadelphia, Pennsylvania contributed importantly to the total or partial separation of the workers of that firm. Section 223(b)(2) of the Trade Act of 1974 provides that a certification of eligibility to apply for worker adjustment assistance may not apply to any worker last separated from the firm or subdivision more than six months before April 3, 1975, the effective date of the new program. In accordance with the provisions of the Act, I make the following certification:

All hourly, piecework, and salaried employees of London Knitting Mills, Philadelphia, Pennsylvania who became totally or partially separated from employment on or after October 3, 1974 are eligible to apply for adjustment assistance under Title II, Chapter 2, of the Trade Act of 1974.

Signed at Washington, D.C. this 20th day of November 1975.

GLORIA G. PRATT,
Director, Office of Foreign Economic Policy.

Office of the Secretary

[TA-W-143]

LEBOW BROTHERS, INC.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-143; investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on September 16, 1975 in response to a worker petition received on September 12, 1975 which was filed by workers formerly producing men's coats at the E. Monument Street plant, Baltimore, Maryland, and workers formerly producing men's suits, sportcoats and slacks at the E. Oliver Street plant, Baltimore, Maryland.

The notice of investigation was published in the FEDERAL REGISTER (40 FR 44209) on September 25, 1975. No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Lebow Brothers, its customers, the U.S. Department of Commerce, the International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated,

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely, and

(3) That increases of imports of articles like or directly competitive with articles produced by such workers' firm or an appropriate subdivision thereof contributed importantly to such total or partial separation, or threat thereof, and to such decline in sales or production.

For purposes of paragraph (3), the term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Significant Total or Partial Separations

The average number of production workers and average weekly hours worked at the E. Monument St. plant declined 6.2 percent and 8.6 percent, respectively, in the first half of 1974 as compared to the like period in 1973. Workers at the E. Monument St. plant were terminated in October 1974. Average employment and weekly hours worked at the E. Oliver St. plant declined 35.5 percent and 17.4 percent, respectively, in the first half of 1975 as compared to the like period in 1974.

Sales or Production, or Both, Have Decreased Absolutely

Sales and production of men's suits and sportcoats declined 29.1 percent and 45.9 percent in the first half of 1975 as compared to the like period in 1974. While sales of men's slacks increased 39.2 percent, the combined production of men's suit pants and slacks declined 37.5 percent in the first half of 1975 as compared to the like period in 1974.

Increased Imports Contributed Importantly

Imports of men's and boys' suits have increased relative to domestic consumption and production in each year from 1971 to 1973. In the first 7 months of 1975, the number of imports of men's and boys' suits increased 131 percent compared to the first 7 months of 1974.

Imports of men's and boys' sportcoats increased absolutely from 1972 to 1973 and relatively from 1973 to 1974. The ratios of imports to domestic production and consumption increased from 17.1 percent and 14.6 percent respectively in 1972 to 22.3 percent and 18.2 percent respectively in 1974.

Imports of men's and boys' tailored trousers decreased their relative share of domestic production and consumption from 25.7 percent and 20.5 percent in 1972 to 19.7 percent and 16.4 percent in 1974. In the first seven months of 1975 imports of men's and boys' tailored trousers increased 29 percent compared to the first seven months of 1974.

A survey of major apparel distributors including large retail chain stores indicates that the ratio of import purchases to domestic purchases of men's and boys' suits and sportcoats increased from 10.0 percent in 1973 to 12.0 percent in 1974, then declined slightly in the first seven months of 1975 compared to the like period in 1974. The ratio of import purchases to domestic purchases of men's and boys' slacks and pants increased from 13.0 percent in 1973 to 17.0 percent in 1974. Import purchases increased 33 percent in the first half of 1975 compared to the same period in 1974.

The evidence developed by the Department's investigation indicates that Lebow's sales have declined at a time when major customers have indicated that they are buying imported lower-priced leisure suits which are increasingly attractive to the younger generation and price conscious consumers.

The company transferred all its production of men's suit and sportcoats from its E. Monument Street plant to its other facility at E. Oliver Street in Baltimore, Maryland, because it could not compete at a profitable level with imports.

Conclusion

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with men's suits, sportcoats and slacks produced at the E. Monument Street and E. Oliver Street plants in Baltimore, Maryland contributed importantly to the total or partial separation of the workers at those plants.

In accordance with the provisions of the Act, I make the following certification:

All hourly, piecework, and salaried workers engaged in employment related to the production of men's suits, sportcoats and slacks at the Baltimore, Maryland plants on E. Monument Street and E. Oliver Street of Lebow Brothers, Inc., who became totally or partially separated from employment on or after October 3, 1974 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 28th day of November 1975.

GLORIA G. PRATT,
Director, Office of Foreign Economic Policy.

V40239 DEC 11 75 XUM

MODE KNITTING MILLS, INC.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA–W–160; investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on September 19, 1975 in response to a worker petition received on that date which was filed by the International Ladies' Garment Workers' Union (AFL–CIO) on behalf of workers and former workers producing men's and ladies' sweaters at Mode Knitting Mills, Inc., Philadelphia, Pennsylvania.

The notice of investigation was published in the FEDERAL REGISTER (40 FR 44640) on September 29, 1975. No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Mode Knitting Mills, Inc., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated,

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely, and

(3) That increases of imports of articles like or directly competitive with articles produced by such workers' firm or an appropriate subdivision thereof contributed importantly to such total or partial separations, or threat thereof, and to such decline in sales or production.

For purposes of paragraph (3), the term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

Employment of production workers at Mode declined 14 percent in 1974 from 1973 levels, and declined 23 percent in the first nine months of 1975 compared to the same period in 1974. Average weekly hours for production workers declined six percent in the first nine months of 1975 compared to the first nine months in 1974.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Production of sweaters by Mode, after increasing four percent in 1974 from 1973, declined 16 percent in the first nine months of 1975 compared to the first nine months of 1974. Mode produces sweaters on a contractual basis, using its customers' own material and specifications.

INCREASED IMPORTS CONTRIBUTED IMPORTANTLY

Domestic production of knit sweaters has been adversely affected by both the economic recession and increased import competition. With the exception of one year during the 1970–1974 period, imports of men's and boys' sweaters increased in both absolute and relative terms. Imports of women's, misses', girls', and infants' sweaters increased absolutely in each year during 1970–1974 and increased 15 percent in the first seven months of 1975 compared to the same period in 1974. The ratio of imports of such sweaters to domestic production increased from 93.7 percent in 1973 to 97.3 percent in 1974.

Major U.S. retailers have significantly increased their purchases of imported sweaters relative to purchases of domestic sweaters in the first six months of 1975. Major customers of Mode indicate that their purchases from Mode have declined because their own sales have declined at the retail level due to increased import competition. Firms which produce under contract such as Mode have been particularly hard hit by imports in that their customers, many of whom also manufacture, often attempt to maintain their own production at stable levels during periods of declining sales by reducing purchases from their contractors.

CONCLUSIONS

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with knit sweaters produced by Mode Knitting Mills, Inc., Philadelphia, Pennsylvania contributed importantly to the total or partial separation of the workers of that firm. Section 223(b)(2) of the Trade Act of 1974 provides that a certification of eligibility to apply for worker adjustment assistance may not apply to any worker last separated from the firm or subdivision more than six months before April 3, 1975, the effective date of the new program. In accordance with the provisions of the Act, I make the following certification:

All hourly, piecework, and salaried employees of Mode Knitting Mills, Inc., Philadelphia, Pennsylvania who became totally or partially separated from employment on or after October 3, 1974 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 24th day of November 1975.

GLORIA G. PRATT,
Director, Office of Foreign Economic Policy.

INTERSTATE COMMERCE COMMISSION

[Notice No. 98]

MOTOR CARRIER, BROKER, WATER CARRIER, AND FREIGHT FORWARDER APPLICATIONS

DECEMBER 5, 1975.

The following applications are governed by Special Rule 1100.247[1] of the Commission's general rules of practice (49 CFR, as amended), published in the FEDERAL REGISTER issue of April 20, 1966, effective May 20, 1966. These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after date of notice of filing of the application is published in the FEDERAL REGISTER. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonbale compliance with the requirements of the rules may be rejected. The original and one (1) copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) of the Commission's rules of practice further provides that each applicant shall, if protests to its application have been filed, and within 60 days of the date of this publication, notify the Commission application under procedures ordered by the Commission will result in dismissal of the application.

Further processing steps (whether modified procedure, oral hearing, or other procedures) will be determined generally in accordance with the Commission's general policy statement concerning motor carrier licensing procedures, published in the FEDERAL REGISTER issue of May 3, 1966. This assignment will be by Commission order which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the FEDERAL REGISTER of a notice that the proceeding has been assigned for oral hearing.

Evidence respecting how equipment is expected to be returned to an origin point, as well as other data relating to operational feasibility (including the need for dead-head operations), must be presented as part of an applicant's initial evidentiary presentation (either at oral hearing or in its opening verified statement under the modified procedure) with respect to all applications filed on or after December 1, 1973.

If an applicant states in its initial evidentiary presentation that empty or partially empty vehicle movements will result upon a grant of its application, applicant will be expected (1) to specify the extent of such empty operations, by mileages and the number of vehicles, that would be incurred, and (2) to designate where such empty vehicle operations will be conducted.

Each applicant (except as otherwise specifically noted) states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

No. MC 200 (Sub-No. 277), filed November 10, 1975. Applicant: RISS INTERNATIONAL CORPORATION, 903 Grand Avenue, Kansas City, Mo. 64106. Applicant's representative: Ivan E. Moody, 12th Floor, Temple Bldg., 903 Grand Avenue, Kansas City, Mo. 64106. Authority sought to operate a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals* (except in bulk), (1) from Buffalo and Geneseo, N.Y., to Crosby, Laredo, and Odessa, Tex., and (2) from Crosby, Tex., to Buffalo and Geneseo, N.Y.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Buffalo, N.Y., or Kansas City, Mo.

No. MC 409 (Sub-No. 58), filed November 10, 1975. Applicant: SCHROETLIN TANK LINE, INC., P.O. Box 511, Sutton, Nebr. 68979. Applicant's representative: Bradford E. Kistler, P.O. Box 82028, Lincoln, Nebr. 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid fertilizer solutions*, in bulk, in tank vehicles, from the terminal site of Agrico Chemical Company, located at or near Falls City, Nebr., to points in Iowa, Missouri, and Kansas.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Omaha, Nebr.

No. MC 1263 (Sub-No. 20), filed November 10, 1975. Applicant: McCARTY TRUCK LINE, INC., 17th and Harris, Trenton, Mo. 64683. Applicant's representative: Frank W. Taylor, Jr., Suite 600, 1221 Baltimore Ave., Kansas City, Mo. 64105. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment), serving the construction site and plant of the Iatan Power Plant, located at or near Iatan, Mo., as an off-route point in connection with applicant's regular route operation to and from Kansas City, Mo.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Kansas City, Mo.

No. MC 5623 (Sub-No. 27), filed November 12, 1975. Applicant: ARROW TRUCKING CO., a Corporation, P.O. Box 7280, Tulsa, Okla. 74105. Applicant's representative: J. G. Dail, Jr., 1111 E Street, NW., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, from Liberty County, Tex., to points in Arkansas, Colorado, Kansas, Illinois, Louisiana, Mississippi, Missouri, Montana, Nebraska, New Mexico, Oklahome, Texas, Utah, and Wyoming, restricted to shipments originating at the plant site and warehouse facilities of National Pipe and Tube Company.

NOTE.—If a hearing is deemed necessary, applicant does not state a location.

No. MC 20992 (Sub-No. 36), filed November 6, 1975. Applicant: DOTSETH TRUCK LINE, INC., Knapp, Wis. 54749. Applicant's representative: Patrick E. Quinn, P.O. Box 82028, Lincoln, Nebr. 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, from the facilities of Nucor Steel Division of Nucor Corporation at or near Norfolk, Nebr., to points in Illinois, Indiana, Minnesota, North Dakota, South Dakota, and Wisconsin, restricted to the transportation of traffic originating at the facilities of Nucor Steel Division of Nucor Corporation at or near Norfolk, Nebr., and destined to the above named destinations.

NOTE.—See 13 other similar application filings in this notice. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr.

No. MC 26825 (Sub-No. 13), filed November 6, 1975. Applicant: ANDREWS VAN LINES, INC., Seventh and Park Avenue, P.O. Box 79, Norfolk, Nebr. 68701. Applicant's representative: Patrick E. Quinn, P.O. Box 82028, Lincoln, Nebr. 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, from the facilities of Nucor Steel Division of Nucor Corporation, at or near Norfolk, Nebr., to points in California, Colorado, Idaho, Illinois, Indiana, Michigan, Minnesota, Missouri, Montana, North Dakota, Ohio, Oregon, South Dakota, Utah, Washington, Wisconsin, and Wyoming restricted to the transportation of traffic originating at the facilities of Nucor Steel Division of Nucor Corporation, at or near Norfolk, Nebr., and destined to the above named destinations.

NOTE.—See 13 other similar applications filings in this notice. If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr.

No. MC 28339 (Sub-No. 9), filed November 7, 1975. Applicant: BREMERTON-TACOMA STAGES, INC., 1936 Westlake Avenue, Seattle, Wash. 98101. Applicant's representative: Lawrence E. Lindeman, 1032 Pennsylvania Bldg., Pennsylvania Ave. and 13th St., NW., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, in special and charter operations, beginning and ending at points in Callam and Jefferson Counties, Wash., and extending to points in the United States, except Hawaii.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Port Angeles or Seattle, Wash.

No. MC 47010 (Sub-No. 8), filed November 14, 1975. Applicant: BERRY TRANSPORT, INC., 5315 NW. St. Helens Road, Portland, Oreg. 97210. Applicant's representative: Brian S. Stern, Wilson Plaza Bldg. No. 327, 2425 Wilson Blvd., Arlington, Va. 22201. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Canned goods, cans, can ends, cannery supplies, and machinery*, between Hammond and Astoria, Oreg., on the one hand, and, on the other, Vancouver, Wash.; (2) *canned goods, cans, can ends, tinplate, cannery supplies, and machinery*, between Salem and Portland, Oreg., on the one hand, and, on the other, Toppenish and Yakima, Wash.; and (3) *cans, can ends, cannery supplies, and machinery*, between Hammond, Oreg. and Toppenish, Wash., (1) (2), and (3) under a continuing contract or contracts with Del Monte Corporation.

NOTE.—Applicant holds common carrier authority in MC 133276 Sub 9, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Portland, Oreg. or Seattle, Wash.

No. MC 52953 (Sub-No. 46), filed November 6, 1975. Applicant: ET & WNC TRANSPORTATION COMPANY, a Corporation, 132 Legion Street, P.O. Box 1516, Johnson City, Tenn. 37601. Applicant's representative: H. M. Cook, P.O. Box 1516, Johnson City, Tenn. 37601. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, in tank vehicles, and commodities the transportation of which require the use of special equipment), serving the plantsite and warehouse facilities of Arkansas Eastman Company, Independence County, Ark., as an off-route point in connection with applicant's regular route authority.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 59367 (Sub-No. 102), filed November 10, 1975. Applicant: DECKER TRUCK LINE, INC., P.O. Box 915, Fort

[1] Copies of Special Rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

NOTE.—The purpose of this republication is to include the additional destination point of the State of Idaho. If a hearing is deemed necessary, applicant requests it be held at Boise, Idaho or Salt Lake City, Utah.

No. MC 117068 (Sub-No. 55), filed November 10, 1975. Applicant: MIDWEST SPECIALIZED TRANSPORTATION, INC., P.O. Box 6418, Rochester, Minn. 55901. Applicant's representative: Paul F. Sullivan, 711 Washington Bldg., Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, from the facilities of Nucor Steel Division of Nucor Corporation at or near Norfolk, Nebr., to points in Illinois, Indiana, Michigan, Minnesota, Ohio and Wisconsin, restricted to the transportation of traffic originating at the facilities of Nucor Steel Division of Nucor Corporation at or near Norfolk, Nebr. and destined to the above named destination points.

NOTE.—See 13 other similar application filing in this notice. If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr.

No. MC 117664 (Sub-No. 11), filed November 11, 1975. Applicant: DENTON TRUCKING, INC., P.O. Box 33, Denton, Md. 21629. Applicant's representative: Chester A. Zyblut, 366 Executive Building, 1030 Fifteenth St. NW., Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Treated and untreated piling*, on special equipment, from Bridgeville, Del., Baltimore and Hollywood, Md., and Warsaw, Va., to points in Delaware, Maryland, Pennsylvania, New York, New Jersey, Connecticut, and the District of Columbia.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 118142 (Sub-No. 108), filed November 10, 1975. Applicant: M. BRUENGER & CO., INC., 6250 North Broadway, Wichita, Kans. 67219. Applicant's representative: Lester C. Arvin, 814 Century Plaza Bldg., Wichita, Kans. 67202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Electric storage batteries, and electric batteries spent, and materials and supplies* used in the manufacturing or distribution of electric storage batteries and advertising materials (except in bulk), (1) from Indianapolis, and Frankfort, Ind.; Owensboro, Ky.; Rayton, Mo., and Dallas and Tyler, Tex., to Salina, Kans.; and (2) from Salina, Kans., to points in Arizona, Colorado, Indiana, Kentucky, Minnesota, Missouri, Nebraska, North Dakota, Oklahoma, South Dakota, and Texas.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Wichita, Kans., or Kansas City, Mo.

No. MC 118535 (Sub-No. 70), filed November 10, 1975. Applicant: TIONA TRUCK LINE, INC., 111 South Prospect, Butler, Mo. 64730. Applicant's representative: Wilburn L. Williamson, 280 National Foundation Life Bldg., 3535 Northwest 58th, Oklahoma City, Okla. 73112. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lead oxide*, in bulk, in tank vehicles, from Terrell, Tex., to Kansas City and St. Louis, Mo.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo.

No. MC 118959 (Sub-No. 128), filed November 12, 1975. Applicant: JERRY LIPPS, INC., 130 South Frederick St., Cape Girardeau, Mo. 63701. Applicant's representative: William P. Jackson, Jr., 3426 North Washington Boulevard, Arlington, Va. 22201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Paints and stains*, from the plantsite of Olympic Stains, Inc., located at Louisville, Ky., to points in the United States, in and east of Montana, Wyoming, Colorado, and New Mexico.

NOTE.—Applicant holds contract carrier authority in MC 125664, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at Louisville, Ky.

No. MC 118959 (Sub-No. 129), filed November 12, 1975. Applicant: JERRY LIPPS, INC., 130 South Frederick St., Cape Girardeau, Mo. 63701. Applicant's representative: William P. Jackson, Jr., 3426 North Washington Boulevard, Arlington, Va. 22201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Electrical junction boxes, troughing, wire ways, conduit and pipe, fasteners, accessories thereto, and materials and supplies* used in the distribution and installation thereof, from the facilities of Queen Products Company, Inc., located at or near Louisville, Ky., to points in the United States (except Alaska and Hawaii); and (2) *materials and supplies* used in the manufacture, distribution and installation of electrical junction boxes, troughing, wire ways, conduit and pipe, fasteners, and accessories thereto, from points in the United States (except Alaska and Hawaii), to the facilities of Queen Products Company, Inc., located at or near Louisville, Ky.

NOTE.—Applicant holds contract carrier authority in MC 125664, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at Louisville, Ky.

No. MC 119229 (Sub-No. 8), filed November 13, 1975. Applicant: ORLANDO TRUCKING, INC., P.O. Box 132, 10 Glory Rd., R.D. No. 3, Lebanon, N.J. 08833. Applicant's representative: Bert Collins, Suite 6193—5 World Trade Center, New York, N.Y. 10048. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as are used in the manufacture, sale, display, or modification of mattresses and upholstered furniture, and in connection therewith *equipment, materials, and supplies*, used in the conduct of such business (except commodities in bulk), between New York, N.Y., on the one hand, and, on the other, points in Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, and the District of Columbia, restricted to service to be performed under contract with Eclipse Sleep Products, Inc.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at New York, N.Y.

No. MC 120761 (Sub-No. 4), filed October 23, 1975. Applicant: NEWMAN BROS. TRUCKING COMPANY, a Corporation, 6559 Midway Road, Fort Worth, Tex. 76118. Applicant's representative: R. E. Newman (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Pipe*, when moving as oilfield equipment; (2) *oilfield equipment*, other than pipe, and (3) *pipe, trenching machines, tractors, drag lines, back fillers, caterpillars, road building machinery, batch bins, ditching machinery, bull dozers, heavy mixers, finishing machinery, power hoists, cranes, heavy machinery, pile driving rigs, paving machines and equipment, graders, construction equipment, boilers, scrapers, irrigation and drainage machinery, road maintainers, electric motors, pumps, transformers, circuit breakers, turbines, bridge construction equipment, shovels, planes, lathes, air compressors, rotaries, prefabricated houses, bulk station storage tanks, heavy tanks, pump machinery, erection machinery and equipment, refinery machinery and equipment, boats and prefabricated steel girders, threshing machines, sawmill machinery, telephone and telegraph poles, creosote and other pilings, heavy furnaces or ovens, pipe (including iron, steel, concrete, composition or corrugated), punches, presses, iron and steel girders, beams, columns, posts, channels and trusses, generators and dynamos, iron and steel castings, sheets, and plates, industrial hammers, industrial machinery, including laundry, ice making, air conditioning, baker, bottling, gin, crushing, dredging, mill, brewery, textile, water plant and wire covering, twisting or laving, derricks, hoists, steam or internal combustion engines, rollers, power shovels, safes, vaults, bank doors,*

V 40239 DEC 11 75 XUM

and gasoline, fuel oil and other storage tanks, when said commodities are not moving as oilfield equipment, between points in Texas.

NOTE.—Applicant seeks by this application to convert its Certificate of Registration in MC 120761 (Sub-No. 1), to a Certificate of Public Convenience and Necessity. If a hearing is deemed necessary, applicant requests it be held at Dallas or Houston, Tex.

No. MC 123389 (Sub-No. 25), filed Nov. 7, 1975. Applicant: CROUSE CARTAGE COMPANY, a Corporation, P.O. Box 151, Carroll, Iowa 51401. Applicant's representative: James E. Ballenthin, 630 Osborn Building, St. Paul, Minn. 55102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, from the facilities of Nucor Steel Division of Nucor Corporation, at or near Norfolk, Nebr., to points in Illinois, Indiana, Iowa, Minnesota, Missouri, and Wisconsin, restricted to the transportation of traffic originating at the facilities of Nucor Steel Division of Nucor Corporation, at or near Norfolk, Nebr., and destined to the above named destinations.

NOTE.—See 13 other similar application filings in this notice. If a hearing is deemed necessary, applicant requests it to be held at Omaha, Nebr.

No. MC 123407 (Sub-No. 272), filed November 3, 1975. Applicant: SAWYER TRANSPORT, INC., South Haven Square, U.S. Highway 6, Valparaiso, Ind. 46383. Applicant's representative: Stephen H. Loeb (same address as applicant). [Notice No. 928]

ASSIGNMENT OF HEARINGS

DECEMBER 8, 1975.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after the date of this publication.

MC 133189 Sub 8, Vant Transfer, Inc., now assigned January 15, 1976 at St. Paul, Minnesota; has been postponed indefinitely.

MC 61592 Sub 361, Jenkins Truck Line, Inc., application dismissed. W-78 Sub 12, The Valley Line Company, W-104 Sub 28 Union Mechling Corp. and W-377 Sub 15, Dixie Carriers, Inc., now being assigned February 9, 1976, at the Offices of the Interstate Commerce Commission, Washington, D.C.

[Rule 19; Ex Parte No. 241; 12th Rev. Exemption No. 10]

ATCHISON, TOPEKA AND SANTA FE RAILWAY CO., ET AL.

Exemption Under Provision of Mandatory Car Service Rules

It appearing, That the railroads named herein own numerous 40-ft. plain boxcars; that under present conditions, there is virtually no demand for these cars on the lines of the car owners; that return of these cars to the car owners would result in their being stored idle on these lines; that such cars can be used by other carriers for transporting traffic offered for shipments to points remote from the car owners; and that compliance with Car Service Rules 1 and 2 prevents such use of plain boxcars owned by the railroads listed herein, resulting in unnecessary loss of utilization of such cars.

It is ordered, That pursuant to the authority vested in me by Car Service Rule 19, plain boxcars described in the Official Railway Equipment Register, I.C.C. R.E.R. No. 397, issued by W. J. Trezise, or successive issues thereof, as having mechanical designation "XM", with inside length 44 ft. 6 in. or less, regardless of door width and bearing reporting marks assigned to the railroads named below, shall be exempt from the provisions of Car Service Rules 1(a), 2(a), and 2(b).

The Atchison, Topeka and Santa Fe Railway Company, Reporting Marks: ATSF.
Atlanta and Saint Andrews Bay Railway Company, Reporting Marks: ASAB.
The Baltimore and Ohio Railroad Company, Reporting Marks: BO.
Bangor and Aroostook Railroad Company, Reporting Marks: BAR.
Bessemer and Lake Erie Railroad Company, Reporting Marks: BLE.
•Burlington Northern Inc., Reporting Marks: BN–CBQ–GN–NP–SPS.
The Central Railroad Company of New Jersey Robert D. Timpany, Trustee, Reporting Marks: CNJ.
The Chesapeake and Ohio Railway Company, Reporting Marks: CO.
•Chicago and North Western Transportation Company, Reporting Marks: CGW–CMO–CNW–FDDM–MSTL.
•Chicago, Milwaukee, St. Paul and Pacific Railroad Company, Reporting Marks: MILW.
•Chicago, Rock Island and Pacific Railroad Company, Reporting Marks: RI–ROCK.
Chicago, West Pullman & Southern Railroad Company, Reporting Marks: CWP.
The Denver and Rio Grande Western Railroad Company, Reporting Marks: DRGW.
•Erie Lackawanna Railway Company, Reporting Marks: DL&W–EL–ERIE.
•Louisville, New Albany & Corydon Railroad Company, Reporting Marks: LNAC.
Missouri-Kansas-Texas Railroad Company, Reporting Marks: MKT.
•Missouri Pacific Railroad Company, Reporting Marks: CKI–MI–MP–TP.
Penn Central Transportation Company, Robert W. Blanchette, Richard C. Bond and John H. McArthur, Trustees, Reporting Marks: NH–NYC–PAE–PC–PAE–PRR.
•St. Louis-San Francisco Railway Company, Reporting Marks: SLSF.
Soo Line Railroad Company, Reporting Marks: SOO.

V 40 N 239 DEC 11 75 XUM

•Southern Railway System, Reporting Marks: CG–NS–SA–SOU.
Union Pacific Railroad Company, Reporting Marks: UP.
Western Maryland Railway Company, Reporting Marks: WM.

Effective 11:59 p.m., November 20, 1975, and continuing in effect until further order of this Commission.

Issued at Washington, D.C., November 20, 1975.

INTERSTATE COMMERCE COMMISSION,
[SEAL] R. D. PFAHLER, *Agent.*

[FR Doc.75–33417 Filed 12–10–75;8:45 am]

[Exception No. 6 to Service Order No. 1221]

CHICAGO, MILWAUKEE, ST. PAUL AND PACIFIC RAILROAD CO. ET AL.

Exemption

NOVEMBER, 21, 1975.

It appearing, That the Chicago, Milwaukee, St. Paul and Pacific Railroad Company (MILW), Missouri Pacific Railroad Company (MP), and Southern Railway Company (SOU), have mutually agreed to the use of each other's *empty plain* cars having mechanical designations XM, FM-less than 200,000 lbs., GA, GB, GD, GH, GS, and GT, and bearing reporting marks owned by the aforementioned roads.

It is ordered, That pursuant to the authority vested in me by Section (a), Paragraph (1), Part (vii) of Service Order No. 1221, all *empty plain* cars described in the Official Railway Equipment Register, I.C.C. R.E.R. No. 397, issued by W. J. Trezise, or successive issues thereof as having mechanical designations XM, FM-less than 200,000 lbs, GA, GB, GD, GH, GS, and GT, and bearing the following reporting marks, are exempt from Section (a), Paragraph (1), Part (iii) of Service Order No. 1221 while on the lines of any of the above named railroads.

Chicago, Milwaukee, St. Paul and Pacific Railroad Company, Reporting Marks: MILW.
Missouri Pacific Railroad Company. Reporting Marks: MP, C&EI, MI, and T&P.
Southern Railway Company, Reporting Marks: SOU, AEC, CG, GF, NS, and SA.

Effective November 20, 1975.

Issued at Washington, D.C., November 20, 1975.

[SEAL] R. D. PFAHLER,
Chairman, Railroad Service Board.

[Notice No. 136]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

DECEMBER 11, 1975.

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to Sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before December 31, 1975. Pursuant to Section 17 (8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC–FC–75810. By order of December 2, 1975, the Motor Carrier Board, on reconsideration, approved the transfer to Bulk Transport Service, Inc., Andover, Mass., of the operating rights in Certificates No. MC–31600 Sub-Nos. 471, 489, 524, 543, 550, 575, 588, 619, and 642 issued to P. B. Mutrie Motor Transportation, Inc., Waltham, Mass., authorizing the transportation of cement, from Thomaston, Maine, to points in Massachusetts (except Wilmington), New Hampshire, Rhode Island, and Vermont; from Wilmington, Mass., to points in New Hampshire and Rhode Island; from Worcester, Mass., to points in Massachusetts, Rhode Island, those in Hartford, Middlesex, New Haven, New London, Tolland, and Windham Counties, Conn., and those in Hillsboro, Merrimack, Rockingham, Sullivan, and Cheshire Counties, N.H., and from Wilmington, Mass., to points in Vermont; cement in bulk, in tank or hopper-type vehicles, from Wilmington, Mass., to points in Massachusetts; from Boston, Mass., to points in Massachusetts, Rhode Island, New Hamphire, and points in Tolland, Windham, and New London Counties, Conn., and York, Oxford, Cumberland, and Androscoggin Counties, Maine; between points in Connecticut; between points in Maine; between points in Massachusetts; between points in New York; between points in New Hampshire; between points in Rhode Island; between points in Vermont, and between Newark, N.J., and points within 15 miles thereof, on the one hand, and, on the other, points in New Jersey (the preceding eight paragraphs are restricted to shipments having an immediately prior movement by rail); cement, in bulk, from Wilmington, Mass., to East Haddam, Conn.; and dry cement, in bulk, from points in Massachusetts to points in Connecticut, Massachusetts, New Hampshire and Rhode Island (on traffic having an immediately prior movement by rail), and from the facility of the Atlantic Cement Company, Inc., located near Portland (Middlesex County), Conn., to points in New York, New Jersey, Pennsylvania, Connecticut, Rhode Island, Massachusetts, Vermont, and New Hampshire, Kenneth B. Williams, 84 State Street, Boston, Mass. 02109 Attorney for applicants.

No. MC–FC–75894. By order of August 18, 1975 Motor Carrier Board, on reconsideration, approved the transfer to Wyandotte Trucking Corporation, Wyandotte, Mich., of the operating rights in Certificate No. MC–106603 (Sub-No. 71) issued October 26, 1965, to Direct Transit Lines, Inc., Grand Rapids, Mich., authorizing the transportation of dry chemicals, in bulk, in tank, hopper, or dump vehicles, from the plant sites of Wyandotte Chemicals Corporation, at Wyandotte, Mich., to points in Delaware, Indiana, Iowa, Kentucky, Maryland, Minnesota, New Jersey, New York, Ohio (commodity restrictions), Pennsylvania, Tennessee (except points in that part of Tennessee on and east of U.S. Highway 27), Virginia, West Virginia, Wisconsin, Missouri, and Illinois (except points in those parts of Missouri and Illinois within the St. Louis, Mo.-East St. Louis, Ill., Commercial Zone, as defined by the Commission). The above grant of authority is restricted against the transportation of fertilizer to points in Indiana and service to the plant sites of Jones & Laughlin Steel Corporation at Putnum County, Ill., and Certain-Teed Products Corporation at Avery, Ohio. Rex Eames, 900 Guardian Building, Detroit, Mich., 48226 Attorney for applicants.

No. MC–FC–76182. By order entered December 4, 1975 the Motor Carrier Board approved the transfer to Wilbur Fideler, doing business as Fideler's Trucking, Delmont, South Dakota, of the operating rights set forth in Certificate No. MC–102570, issued September 11, 1974, to Norbert R. Peters, Delmont, S. Dak., authorizing the transportation of livestock, poultry feed, fertilizer, and building materials as described in Appendix IV to the report in *Descriptions in Motor Carrier Certificates,* 61 M.C.C. 209, from, to, and between specified points in Iowa and South Dakota. Don A. Bierle, 322 Walnut St., Yankton, S. Dak. 57078, attorney for applicants.

No. MC–FC–76214. By order entered December 4, 1975 the Motor Carrier Board approved the transfer to Tiger Transport, Inc., Sayerville, N.J., of the operating rights set forth in Certificate No. MC–138418 (Sub-No. 4), issued July 24, 1974, to Standard Container Transport Corporation, and acquired by United Specialized Hauling, Inc., East Orange, N.J., pursuant to No. MC–FC–75887, authorizing the transportation of various specified commodities, from, to, and between points in New Jersey, New York, Pennsylvania, and Connecticut, Joseph R. Siegelbaum, 744 Broad St., Newark, N.J., attorney for applicants.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Notice No. 140]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

DECEMBER 8, 1975.

The following are notices of filing of applications for temporary authority under Section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the FEDERAL REGISTER publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the FEDERAL REGISTER. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the I.C.C. Field Office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 730 (Sub-No. 385TA), filed November 28, 1975. Applicant: PACIFIC INTERMOUNTAIN EXPRESS CO., 1417 Clay St., Oakland, Calif. 94612. Applicant's representative: R. N. Cooledge (same address as applicant). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Chemicals,* in bulk, from the facilities of Nalco Chemical Company, at or near Sugar Land, Tex., to points in the United States (except Alaska and Hawaii), for 180 days. Supporting shipper: Nalco Chemical Company, Inc., 2901 Butterfield Road, Oak Brook, Ill. 60521. Send protests to: A. J. Rodriguez, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 450 Golden Gate Ave., Box 36004, San Francisco, Calif. 94102.

No. MC 21455 (Sub-No. 40 TA), filed November 24, 1975. Applicant: GENE MITCHELL CO., West Liberty, Iowa 52776. Applicant's representative: Kenneth F. Dudley, 611 Church St., P.O. Box 279, Ottumwa, Iowa 52501. Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Processed potato products,* in packages and containers, from East Grand Forks, Minn., to Albion, N.Y.; Atlanta, Ga.; Baltimore, Md.; Bedford Heights, Ohio; Brooklyn, N.Y.; Buena Park, Calif.; Buffalo, N.Y.; Chicago, Ill.; Columbus, Ohio; Dallas, Tex.; Denver, Colo.; Detroit, Mich.; Kansas City, Kans.; Los Angeles, Calif.; Milwaukee, Wis.; Oklahoma City, Okla.; Omaha, Nebr.; Pendleton, Oreg.; Pittsburgh, Pa.; Portland, Oreg.; Richmond, Va.; St. Louis, Mo.; San Francisco, Calif.; and Seattle, Wash., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: King of Spuds, Inc., P.O. Box 191, East Grand Forks, Minn. 56721. Send protests to: Herbert W. Allen, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 875 Federal Bldg., Des Moines, Iowa 50309.

No. MC 22254 (Sub-No. 83 TA), filed November 20, 1975. Applicant: TRANS-AMERICAN VAN SERVICE, INC., P.O. Box 12608, Fort Worth, Tex. 76116. Applicant's representative: Theodore A. Coulter (same address as applicant). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Sailboats,* from the plantsite and facilities of Snark Products, Inc., 5816 Ward Court, Virginia Beach, Va., to points in the United States (except Alaska and Hawaii), for 180 days. Supporting shipper: Snark Products, Inc., 1 Riverside Plaza, North Bergen, N.J. 07047. Send protests to: H. C. Morrison, Sr., District Supervisor, Room 9A27 Federal Bldg., 819 Taylor St., Fort Worth, Tex. 67102.

No. MC 25798 (Sub-No. 279 TA), filed November 24, 1975. Applicant: CLAY HYDER TRUCKING LINES, INC., P.O. Box 1186, Auburndale, Fla. 33823. Applicant's representative: Tony G. Russell (same address as applicant). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Wine,* in glass containers, from Sonoma, Calif., to Tulsa, Okla.; Springfield, Mo.; Nashville and Knoxville, Tenn.; Atlanta and Savannah, Ga.; Jacksonville, Miami and Orlando, Fla.; and Lexington, Ky., for 180 days. Supporting shipper: Sebastiani Vineyards, 389 Fourth St., East, Sonoma, Calif. 95476. Send protests to: Joseph B. Teichert, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Monterey Bldg., Suite 101, 8410 N.W. 53rd Terrace, Miami, Fla. 33166.

No. MC 52709 (Sub-No. 335 TA), filed November 20, 1975. Applicant: RINGSBY TRUCK LINES, INC., 5773 South Prince St., Littleton, Colo. 80120. Applicant's representative: Robert P. Tyler (same address as applicant). Authority sought to operate as a *common carrier,* by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment), between Las Vegas, Nev., and Junction U.S. Highway 40 and U.S. Highway alternate 50 near Wendover, Utah; from Las Vegas, Nev., over U.S. Highway 93 to junction U.S. Highway alternate 50, thence over U.S. Highway alternate 50 to junction of U.S. Highway 40 near Wendover, Utah, and return over the same route as alternate routes for operating convenience only, serving no intermediate points. Applicant intends to join its existing authority with MC 52709 Sub-Nos. 67 and 70, for 180 days. Send protests to: Roger L. Buchanan, District Supervisor, Interstate Commerce Commission, 1961 Stout St., 2022 Federal Bldg., Denver, Colo. 80202.

No. MC 96444 (Sub-No. 1TA), filed November 24, 1975. Applicant: KENNETH HUSTEAD, doing business as HUSTEAD TRUCK LINE, Box 3, Baring, Mo. 63531. Applicant's representative: Marshall D. Becker, 530 Univac Bldg., Omaha, Nebr. 68106. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: R–Anell Homes, Inc., P.O. Box 236, Highway 16, Denver, N.C. 28037. Send protests to: J. H. Gray, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 345 West Wayne St., Room 204, Fort Wayne, Ind. 46802. The purpose of this republication is to change sub number 862 in lieu of 361 which was previously published in error.

No. MC 109584 (Sub-No. 162 TA), filed November 24, 1975. Applicant: ARIZONA-PACIFIC TANK LINES, 5773 South Prince St., Littleton, Colo. 80120. Applicant's representative: Don Bryce (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry sugar*, in bulk, in tank vehicles, From points in Butte and San Joaquin Counties, Calif., to Richmond, Utah, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Holly Sugar Corporation, 1650 Borel Place, San Mateo, Calif. Send protests to: Roger L. Buchanan, District Supervisor, Interstate Commerce Commission, 1961 Stout St., 2022 Federal Bldg., Denver, Colo. 80202.

No. MC 115162 (Sub-No. 314 TA), filed November 26, 1975. Applicant: POOLE TRUCK LINE, INC., P.O. Drawer 500, Evergreen, Ala. 36401. Applicant's representative: Robert E. Tate (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Pre-cast concrete*, from the plantsite of Underwood Builders Supply Company, at Mobile, Ala., to points in Florida on and west of U.S. Highway 231 and points on U.S. Highway 90 between Gulfport, Miss., and the Alabama-Mississippi State Line, including Gulfport, Miss., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Underwood Builders Supply Company, Mobile, Ala. Send protests to: Clifford W. White, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 1616, 2121 Bldg., Birmingham, Ala. 35203.

No. MC 118142 (Sub-No. 110 TA), filed November 21, 1975. Applicant: M. BRUENGER & CO., INC., 6250 North Broadway, Wichita, Kans. 67219. Applicant's representative: Lester C. Arvin, 814 Century Plaza Bldg., Wichita, Kans. 67202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen ice cream* (except in bulk), moving in temperature controlled equipment. from Hutchinson, Kans., to points in Georgia, Illinois, Indiana, Michigan, Mississippi and Pennsylvania, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: International Dairy Queen, Inc., 5701 Green Valley Drive, Minneapolis, Minn. 55437. Send protests to: M. E. Taylor, District Supervisor, Interstate Commerce Commission, 501 Petroleum Bldg., Wichita, Kans. 67202.

No. MC 124078 (Sub-No. 667 TA) (Correction), filed November 13, 1975, published in the FEDERAL REGISTER issue of November 28, 1975, and republished as corrected this issue. Applicant: SCHWERMAN TRUCKING COMPANY, 611 South 28th St., Milwaukee, Wis. 53215. Applicant's representative: James R. Ziperski (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Inedible animal oils and fats*, in bulk, in tank vehicles, from Cincinnati and Cleveland, Ohio, to Fayetteville and Greensboro, N.C., for 180 days. Supporting shipper: Carolina By-Products Company Inc., P.O. Box 20687, Greensboro, N.C. Send protests to: John E. Ryden, Interstate Commerce Commission, Bureau of Operations, 135 West Wells St., Room 807, Milwaukee, Wis. 53203. The purpose of this republication is to change sub number 667 in lieu of 662 which was previously published in error.

No. MC 124813 (Sub-No. 138 TA), filed November 20, 1975. Applicant: UMTHUN TRUCKING CO., 910 South Jackson St., Eagle Grove, Iowa 50533. Applicant's representative: William L. Fairbank, 1980 Financial Center, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Soybean meal*, in bulk, in pneumatic trailers, from Des Moines, Iowa, to points in Carroll County, Mo., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Meat Makers Mart, R. R. #2, Bosworth, Mo. 64623. Send protests to: Herbert W. Allen, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 875 Federal Bldg., Des Moines, Iowa 50309.

No. MC 125433 (Sub-No. 63TA), filed November 21, 1975. Applicant: F–B TRUCK LINE COMPANY, 1945 South Redwood Road, Salt Lake City, Utah 84104. Applicant's representative: Alan R. Wilson (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, from the facilities of Nucor Steel Division of Nucor Corporation, at or near Norfolk, Nebr., to points in California, Idaho, Nevada, Oregon, Utah, Washington, Colorado, Montana and Wyoming, restricted to traffic orginating at the steel mill facilities of the Nucor Steel Division of Nucor Corporation, at or near Norfolk, Nebr., and destined to the named destinations, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shippers: Nucor Steel Division of Nucor Corporation, P.O. Box 59, Norfolk, Nebr. 68701. Send protests to: Lyle D. Helfer, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 5301 Federal Bldg., 125 South State St., Salt Lake City, Utah 84138.

No. MC 133106 (Sub-No. 53TA), filed November 25, 1975. Applicant: NATIONAL CARRIERS, INC., P.O. Box 1358, Liberal, Kans. 67901. Appplicant's representative: Frederick J. Coffman, P.O. Box 81849, Lincoln, Nebr. 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cans, oily waste cans, lab cans, safety cabinets, oil and gasoline containers*, from the facility of Eagle Manufacturing Company, at Wellsburg, W. Va., to points in California, Idaho, Montana, Nevada, North Dakota, Oregon, South Dakota, Utah, Washington and Wyoming, for 180 days. Supporting shipper: Eagle Manufacturing Company, Wellsburg, W. Va. 26070. Send protests to: M. E. Taylor, District Supervisor, Interstate Commerce Commission, 501 Petroleum Bldg., Wichita, Kans. 67202.

No. MC 133937 (Sub-No. 15 TA), filed November 24, 1975. Applicant: CAROLINA CARTAGE COMPANY, INC., P.O. Box 1075, Greenville, S.C. 29602. Applicant's representative: Henry P. Willimon (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, requiring delivery at destination within 48 hours (except articles of unusual value, household goods as defined by the Commission, Classes A and B explosives, commodities requiring special equipment, commodities in bulk, motor vehicles), restricted to traffic having a prior or subsequent movement by air, or substituted for air service, further restricted to traffic moving only in aircraft-type containers, between Charlotte, N.C., and Atlanta, Ga., on the one hand, and, on the other, Dallas, Tex.; Los Angeles and San Francisco, Calif.; and Chicago, Ill., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shippers: There are approximately 10 statements attached to the application, which may be examined at the Interstate Commerce Commission or copies thereof which may be examined at the field office named below. Send protests to: E. E. Strotheid, District Supervisor, Interstate Commerce Commission, Room 302, 1400 Pickens St. Columbia, S.C. 39201.

No. MC 134323 (Sub-No. 78 TA), filed November 25, 1975. Applicant: JAY LINES, INC., 720 North Grant St., Amarillo, Tex. 79105. Applicant's representative: Gailyn Larsen, 521 South 14th, Lincoln, Nebr. 68501. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat by-products and articles distributed by meat packinghouses*, from the plantsites

and storage facilities of MBPXL Corporation, at or near Rockport, Mo., to points in Texas, under a continuing contract with MBPXL Corporation, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: MBPXL Corporation, P.O. Box 2519, Wichita, Kans. 67202.

No. MC 134449 (Sub-No. 9TA), filed November 26, 1975. Applicant: LESTER V. MOZNIK, 3753 Grandview Highway, Burnaby, British Columbia, Canada. Applicant's representative: Michael D. Duppenthaler, 607 Third Ave., Seattle, Wash. 98104. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Pretzles*, from Visalia, Calif., via the United States-Canadian International Border at or near Blaine, Lynden or Sumas, Wash.; Eastport, Idaho; or Sweetgrass, Mont., to Vancouver, British Columbia, Calgary or Edmonton, Alberta, Canada, under a continuing contract with California Pretzel Co., for 180 days. Supporting shipper: California Pretzel Co., 930 98th Ave., Oakland, Calif. Send protests to: L. D. Boone, Transportation Specialist, Bureau of Operations, Interstate Commerce Commission, 858 Federal Bldg., 915 Second Ave., Seattle, Wash. 98174.

No. MC 134734 (Sub-No. 26TA), filed November 25, 1975. Applicant: NATIONAL TRANSPORTATION, INC., 14031 "L" Street, P.O. Box 37465, Omaha, Nebr. 68137. Applicant's representative: Frederick J. Coffman, 521 South 14th Street, P.O. Box 81849, Lincoln, Nebr. 68501. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Sauces*, from the plantsite and warehouse facilities of Kikkoman Foods Inc. at or near Walworth, Wis., to points in California, Oregon and Washington, under a continuing contract with Kikkoman Foods, Inc., for 180 days. Supporting shipper: Kikkoman Foods, Inc., Max Gay, Traffic Supervisor, Walworth, Wis. 53184. Send protests to: Carroll Russell, District Supervisor, Suite 620 Union Pacific Plaza, 110 North 14th St., Omaha, Nebr. 68102.

No. MC 135894 (Sub-No. 1TA), filed November 19, 1975. Applicant: RODGER COOPER, doing business as O. R. COOPER & SON, R.R. #1, P.O. Box 3291, Champaign, Ill. 61802. Applicant's representative: Robert T. Lawley, 300 Reisch Bldg., Springfield, Ill. 62701. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Plastic bottles*, for the account of National Polymer Products, Inc., from Champaign, Ill., to Cincinnati, Ohio, under a continuing contract with National Polymer Products, Inc., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: National Polymer Products, Inc., R.R. #1, Box 3463, Champaign, Ill. 61802. Send protests to: Patricia A. Roscoe, Transportation Assistant, Interstate Commerce Commission, Everett McKinley Dirksen Bldg., 219 S. Dearborn St., Room 1086, Chicago, Ill. 60604.

No. MC 138954 (Sub-No. 4 TA), filed November 24, 1975. Applicant: G. L. CREECH, doing business as TRUCK SERVICE HAULING AND RENTAL, P.O. Box 15891, Baton Rouge, La. 79815. Applicant's representative: James B. Thompson, III, 666 South Foster Drive, Baton Rouge, La. 70806. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Steel reinforcing rods*, from Baton Rouge, La., to Mobile County, Ala., under a continuing contract with Armco Steel Corporation, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Armco Steel Corporation, P.O. Box 7706, Houston, Tex. Send protests to: Ray C. Armstrong, Jr., District Supervisor, 9038 Federal Bldg., 701 Loyola Ave., New Orleans, La. 70113.

No. MC 139261 (Sub-No. 4TA), filed November 21, 1975. Applicant: BUCKEYE EXPRESS, INC., Willis Day Industrial Park, Perrysburg, Ohio 43551. Applicant's representative: James Robert Evans, 145 W. Wisconsin Ave., Neenah, Wis. 54956. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise* as is dealt in by wholesale, retail, chain grocery and food business houses, from points in Florida, Illinois, Indiana, Iowa, Kentucky, Maryland, Michigan, Minnesota, Missouri, New Jersey, New York, Pennsylvania and Wisconsin, to Maumee, Ohio under contract to Seaway Food Town, Inc. & Affiliates (Balduf Bakeries & Valley Farms Foods, Inc.), Maumee, Ohio, under a continuing contract with Seaway Food Town, Inc., & Affiliates (Balduf Bakeries & Valley Farms Foods, Inc.), for 180 days. Supporting shipper: Seaway Food Town, Inc., & Affiliates (Balduf Bakeries & Valley Farms, Inc.), 1020 Ford St., Maumee, Ohio 43506. Send protests to: Keith D. Werner, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 313 Federal Office Bldg., 234 Summit St., Toledo, Ohio 43604.

No. MC 140950 (Sub-No. 1TA), filed November 25, 1975. Applicant: BROOKVILLE TRANSPORT, LIMITED, P.O. Box 2332, Station C, St. John, New Brunswick, Canada. Applicant's representative: Peter L. Murray, 30 Exchange Street, Portland, Maine 04111. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Limestone and limestone products*, including ground and agricultural lime stone, in bulk and in bags, from ports of entry on the United States-Canadian International Boundary at or near Fort Kent, Fort Fairfield, Mars Hill, Houlton and Calais, Maine, to points in Maine, under a continuing contract with Brookville Manufacturing Company, Limited, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Brookville Manufacturing Company, Limited, Brookville, St. John, New Brunswick, Canada. Send protests to: Donald G. Weiler, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 307, 76 Pearl St., Portland, Oreg. 04111.

No. MC 141501 (Sub-No. 1TA), filed November 26, 1975. Applicant: RICHARD PLANK, Route 4, Salem, Mo. 65560. Applicant's representative: George F. Hellmuth, 315 North 9th St., St. Louis, Mo. 63101. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Charcoal*, in bulk, in dump vehicle, from the plantsite of Roaring Springs Charcoal Factory, located 6 miles east of Missouri Highway 19, following a route along state Highway A and County CC, Shannon County, Mo., to Memphis, Tenn., under a continuing contract with Roaring Springs Corporation, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Roaring Springs Corporation, 315 North 9th St., St. Louis, Mo. 63101. Send protests to: J. P. Werthmann, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 1465, 210 N. 12th St., St. Louis, Mo. 63101.

No. MC 141538TA filed, November 19, 1975. Applicant: GEORGE BROS., INC., P.O. Box 492, Sutton, Nebr. 68979. Applicant's representative: Arlyn L. Westergren, 530 Univac Bldg., 7100 West Center Road, Omaha, Nebr. 68106. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Grain bins, metal buildings, grain handling equipment and materials and equipment* used in the erection of grain bins and metal buildings, from the plantsite and facilities of Hymark Industries, Inc., at or near Henderson, Nebr., to points in Arkansas, Colorado, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Minnesota, Mississippi, Missouri, Montana, North Carolina, New Mexico, North Dakota, Ohio, Oklahoma, Oregon, South Carolina, South Dakota, Tennessee, Texas, Washington, Wisconsin, Wyoming; and (2) *augers, and grain handling equipment*, from Clay Center, Kans., to the facilities of Hymark Industries at or near Henderson, Nebr., under a continuing contract with Hymark Industries, Inc., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Robert Mueller, President, Hymark Industries, Inc., Henderson, Nebr. 68371. Send protests to: Max H. Johnston, District Supervisor, 285 Federal Bldg., & U.S. Courthouse, 100 Centennial Mall North, Lincoln, Nebr. 68508.

MOTOR CARRIER APPLICATIONS SEEKING AUTHORITY TO TRANSPORT FREIGHT, HAVING A PRIOR OR SUBSEQUENT MOVEMENT BY MARITIME CARRIER, BETWEEN POINTS IN A COMMERCIAL ZONE OF A PORT CITY

Any motor carrier having an application pending before this Commission seeking the transportation of freight, having a prior or subsequent movement by a water carrier not subject to Part III of the Interstate Commerce Act, between points in a commercial zone of a port city is requested to inform this Commission's Office of Proceedings by letter of the identity of such application proceeding on or before January 9, 1976. The purpose of this notice is to ensure that applications of the type described above may be treated consistently and expeditiously.

By the Commission.

Dated: December 8, 1975.

ADVISORY OPINIONS

V40239 DEC 11 75 XUM

FEDERAL ELECTION COMMISSION

[Notice 1975–88]

Advisory Opinions

The Federal Election Commission announces the publication today of four Advisory Opinions, 1975–46, 1975–69, 1975–82 and 1975–88. The Commission's opinions are in response to questions raised by individuals holding Federal office, candidates for Federal office and political committees, with respect to whether any specific transaction or activity by such individual, candidate, or political committee would constitute a violation of the Federal Election Campaign Act of 1971, as amended, of Chapter 95 or 96 of Title 26 United States Code, or of sections 608, 610, 611, 613, 614, 615, 616, or 617 of Title 18 United States Code.

The Commission points out that these advisory opinions should be regarded as interim rulings which are subject to modification by future Commission regulations of general applicability. In the event that a holding in either opinion is altered by the Commission's regulations the persons to whom the opinions were issued will be notified.

ADVISORY OPINION 1975–46

FEE FOR THE TELEVISED APPEARANCE OF A MEMBER OF CONNGRESS

This advisory opinion is rendered under 2 U.S.C. § 437f in response to a request for an advisory opinion which was submitted by Rufus Myers, Administrative Assistant to Representative Barbara Jordan which was published as AOR 1975–46 in the September 3, 1975, FEDERAL REGISTER (40 FR 40677). Interested parties were given an opportunity to submit written comments relating to the request, but none were received.

The request generally asks whether the mnoey received by a Member of Congress for occasional televised commentary is to be treated as an honorarium, and thus be limited by the provisions of section 616 of Title 18, United States Code. Specifically, the facts of the request are that Representative Barbara Jordan has an oral contract with CBS to videotape editorial comment once a month for presentation on the CBS Morning News Show. In consideration for such services, Representative Jordan receives $150 for each taping. Mr. Myers asks whether this consideration is merely a salary for services for which a fee is traditionally required, and thus should not be subject to the limitations on honorariums in 18 U.S.C. 616.

It is provided in 18 U.S.C. 616 that:

Whoever, while an elected or appointed officer or employee of any branch of the Federal Government—

(1) accepts any honorarium of more than $1,000 • • • for any appearance, speech or article; or

(2) accepts honorariums • • • aggregating more than $15,000 in any calendar year;

shall be fined not less than $1,000 nor more than $5,000.

This provision clearly limits honoraria accepted for any appearance, speech, or article. The question then arises as to whether, for purposes of this section, money received for occasional televised commentary should be treated as identical to an honorarium accepted for an appearance or speech. In this case the Commission concludes that the word "honorarium" should be read narrowly to reflect only the obvious intent of the statute, and should not be interpreted as meaning a "stipend."

Accordingly, before a determination can be made as to whether the consideration which Representative Jordan receives for her television commentary constitutes an honorarium and thereby is subject to all applicable limitations on honorariums, it is necessary to distinguish between an "honorarium" and a "stipend." For purposes of 18 U.S.C. § 616, money received by an officer or employee of the Federal government is considered an "honorarium", regardless of whether it is offered gratuitously or as a fee, if it is accepted as consideration for an appearance, speech, or article. In addition, such money must be accepted as a payment for a single event or transaction and under circumstances which do not imply a continuing compensatory relationship between the parties for similar services. On the other hand, an officer or employee of the Federal government is considered to accept a "stipend" for purposes of 18 U.S.C. § 616, if the money is accepted in the form of fixed or regular compensation intended as consideration for the rendering of services, e.g., a salary.

After applying the appropriate rules of statutory construction and the Commission's policy distinction between an honorarium and a stipend, it is the opinion of the Commission that the consideration which Representative Jordan receives for her television commentary does not constitute an honorarium. The payment received fails to qualify as an honorarium because commentators appearing on the mass media customarily have received fixed and regular compensation; and even though Representative Jordan has only an oral contract with CBS which may be terminated at will by either party, this oral agreement is sufficient to show that the parties contemplate the possibility of a regular and continuing relationship for similar services. Clearly, the $150 which Representative Jordan receives for each taping represents a stipend as it is in the form of fixed or regular compensation which is intended as consideration for the rendering of services.

It should be emphasized that this opinion is not to be construde as Commission endorsement of the practice of some Members of Congress of receiving a stipend or salary from other than the Federal Government. Rather, this opinion simply represents a finding by the Commission that such stipends are not governed by the provisions of 18 U.S.C. 616.

It should be noted that the Commission will presume that the $150 which Representative Jordan receives for each taping is not a "contribution" as provided in 2 U.S.C. 431(e) and 434, or 18 U.S.C. 591(e), 608, 610, and 611, in the absence of evidence being presented to the Commission which shows that the C.B.S. Morning News, or any of its advertisers, paid the stated sum, "for the purpose of influencing the nomination for election, or election" of Representative Jordan to Federal office.

This advisory opinion is issued only on an interim basis pending the promulgation by the Commission of rules and regulations or policy statements of general applicability.

ADVISORY OPINION—1975–69

RETIRED LOANS—EFFECT WITH RESPECT TO CONTRIBUTION LIMITATIONS; EXISTENCE OF A WRITTEN INSTRUMENT OF OBLIGATION

This advisory opinion is rendered under 2 U.S.C. 437f, in response to a request for an advisory opinion submitted by Congressman Alvin Baldus and published in the September 22, 1975, FEDERAL REGISTER (40 FR 43664). Interested parties were given an opportunity to submit written comments pertaining to the request, but none were received.

The requesting party seeks an advisory opinion indicating whether if a loan is made to a political committee, and then repaid, it would be considered a contribution. Sections 431(e)(1) and 591(e)(1) of Titles 2 and 18, respectively, United States Code, define a contribution as, among other things, a loan. The Commissions' opinion is that when a loan creates a legally enforceable obligation to repay, a contribution remains outstanding only to the extent that the principal remains unpaid. While outstanding, a loan is a contribution which counts against the individual's $1,000 and $25,000 contribution limitations. Once it is retired, however, the loan (a contribution by definition) is extinguished and no longer counts against these limitations.

The existence of a written instrument of obligation would have no effect on the foregoing interpretation. However, such an instrument could be determinative of the question whether the transaction was in fact a loan, rather than a gift, and therefore ceased to be a "contribution" when repaid to the lender.

This advisory opinion is issued on an interim basis only pending promulgation by the Commission of rules or regulations or policy statements of general applicability.

NOTE.—Commissioner Thomson voted against adoption of the foregoing opinion. His dissenting views are published as follows:

DISSENTING VIEWS OF COMMISSIONER THOMSON

In AO 1975–69, the Commission has ignored the clear language of the statute and ruled that a loan is a contribution only to the extent that the principal remains unpaid.

The definition of the term contribution in 18 U.S.C. 591(e) states:

"Contribution"—(1) means a gift, subscription, loan, advance, or deposit

of money or anything of value (except a loan of money by a national or State bank made in accordance with the applicable banking laws and regulations and in the ordinary course of business, *which shall be considered a loan by each endorser or guarantor, in that proportion of the unpaid balance thereof that each endorser or guarantor bears to the total number of endorsers or guarantors*), made for the purpose of influencing the nomination for election, or election, of any person to Federal office . . . (emphasis added)

Thus, a loan made by a national or State bank is considered a contribution by any endorser or guarantor of such loan only to the extent of the unpaid balance. In addition, under 18 U.S.C. 608(a)(4), a loan or advance by a candidate or his family is subject to limitation only to the extent of the balance of such loan or advance outstanding and unpaid. While specific exemptions are made in each of these cases, there is no exception of this nature made for any other type of loan. Congress clearly intended that loans made by other than the candidate and his family or national or State banks would be considered contributions even after they were repaid. Otherwise, a specific exemption would have been made. Thus, the Commission has made the exemption the rule.

Dated: December 3, 1975.

VERNON THOMSON,
Commissioner.

ADVISORY OPINION 1975–82

FUNDRAISING IN 1976 TO RETIRE 1974 CAMPAIGN DEBT

This advisory opinion is issued pursuant to 2 U.S.C. 437f. The Request was published in the November 4, 1975, FEDERAL REGISTER (40 FR 51354). Interested persons were invited to submit written comments. No comments were received.

The request was submitted by Congressman Fred Richmond and pertains to the retirement of a 1974 campaign debt. Congressman Richmond indicates that his committee will conduct fundraising activities during the early months of 1976 to retire a pre-1975 campaign deficit. The Congressman inquires as to whether such fundraising activities would be charged against his 1976 reelection campaign fund limitations.

The Commission has issued a policy statement and several advisory opinions on pre-1975 campaign debts. (40 FR 32952 and particularly Advisory Opinions 1975–5 and 1975–6, 40 FR 31316.) In these opinions and statement, the Commission ruled that "election," as used in 18 U.S.C. 608(b) means any election occurring after January 1, 1975. Contributions made for the sole purpose of retiring campaign debts incurred incident to an election held before January 1, 1975, are not subject to the limits in 18 U.S.C. 608(b), as amended in 1974 and effective January 1, 1975. The expenditure of such contributions is, accordingly, not subject to the limits in 18 U.S.C. 608(c).

However, in order to assure that no abuses developed and to assure compliance with the Federal Election Campaign Act of 1971, as amended, the Commission required, among other things, that contributions to retire pre-1975 campaign debts be received by the debtor (candidate, former candidate, or political committee) no later than December 31, 1975, in order to avoid the possibility that such contributions would be counted toward individual contribution limits under the 1974 Act. In addition, the Commission indicated its expectation that contributions in excess of the amount needed to retire the debt would be returned to the donors.

In light of Congressman Richmond's request, the Commission has reviewed its policy on the retirement of pre-1975 campaign debts. Although the Commission had anticipated that candidates or former candidates would act quickly to extinguish past campaign debts, the Commission notes that there are still numerous outstanding debts from pre-1975 campaigns. The Commission recognizes the responsibility and obligation of candidates and committees to repay past campaign debts.

The Commission, has accordingly determined to modify its policy on the retirement of past campaign debts. Expenditures made after December 31, 1975, to raise or solicit contributions to retire pre-1975 campaign debts will not be subject to the expenditure limitations in 18 U.S.C. 608(c). The solicitation or other fundraising activities must be held separately from solicitations or activities for a 1976 election. All solicitations or requests for contributions must include clear notice that the funds are being solicited to retire a pre-1975 campaign debt.

Contributors giving in excess of $100 must expressly earmark the contribution (as by notation on a check) for initial use to retire pre-1975 debts. If the contributions are so restricted, they will not be subject to the contribution limits of 18 U.S.C. 608(b). The Commission notes, however, that the candidate and "immediate family" limits of 18 U.S.C. 608(a) were in effect for 1974 elections and are not waived or modified by this opinion.

Contributions and expenditures made in connection with an effort to retire pre-1975 debts must be reported separately from any 1976 campaign effort. Under 2 U.S.C. 434(b)(12) the committee which incurred and carries the 1974 debt must continuously report until the debt is extinguished. Contributions and expenditures related to retiring a 1974 debt must be received into and expended out of an account that is separate from any account used for the 1976 election. No transfers may be made bewteen accounts until all pre-1975 debts have been extinguished, and then only as provided in the following paragraph.

If excess funds remain after liquidation of the pre-1975 debts, they may be used in any manner consistent with 2 U.S.C. 439a. Moreover, if the donors give specific written authorization, excess funds remaining after the repayment of the 1974 debt may be turned over to the 1976 principal campaign committee. A turnover of excess funds is subject to the limits of 18 U.S.C. 608(b) as applicable to those donors to whom the excess is attributed. The principal campaign committee will be required to report the receipt of excess funds as contributions from the original donors to whom the excess is attributed and not simply as a transfer from the 1974 debt account or committee. The donors of the excess shall be those persons whose contributions were last received before the excess became evident and who expressly authorized the use of their contributions in connection with a 1976 election.

The Commission notes that this opinion, modifies the holding in AO 1975–52 (40 FR 52794, November 12, 1975), AO 1975–57 (40 FR 51611, November 5, 1975), AO 1975–64 (40 FR 52795, November 12, 1975), AO 1975–68 (40 FR 55601, November 28, 1975) as well as AO's 1975–5 and 1975–6 (40 FR 31316, July 25, 1975).

This advisory opinion is issued on an interim basis pending final promulgation by the Commission of rules and regulations or policy statements of general applicability.

ADVISORY OPINION 1975–88

USE AND REPORTING OF EXCESS FUNDS RAISED TO PAY 1974 CAMPAIGN DEBTS

This advisory opinion is issued under 2 U.S.C. 437f in response to a request on behalf of the Dodd for Congress Committee. This request was published as AOR 1975–88 on November 4, 1975 in the FEDERAL REGISTER (40 FR 51356). Interested persons were invited to submit written comments within 10 days of publication. No comments were received.

This request asks clarification of AO 1975–6 (40 FR 31316, July 25, 1975) as it relates to a later Policy Statement and an Interim Guideline (40 FR 32950 and 32952, August 5, 1975) issued by the Commission and published in the FEDERAL REGISTER. These publications deal with the treatment to be accorded past campaign debts as they relate to the disclosure provisions of the Act and to the limitations on corntributions and expenditures contained in Title 18.

In AO 1975–6, the Commission ruled that debts from a 1974 campaign could be liquidated from funds solicited in 1975 without application of the limitations on contributions or expenditures contained in 18 U.S.C. 608(b) and (c). It further indicated that any amounts raised in excess of the amount needed to retire the debt should be returned to the donor. The Interim Guideline and Policy Statement do not address the issue of what should be done with excess funds after payment of debts. The Dodd for Congress Committee has a surplus of funds after retiring debts from a 1974 campaign. It asks how these funds may be used and reported and, if they must be returned to the donors, what procedure must be followed.

In Advisory Opinion 1975–82, (40 FR 55596) the Commission modified its position stated in AO 1975–6 and the Policy Statement and Interim Guideline, supra,

V40239 DEC 11 75 XUM

with respect to the use of excess funds raised to retire 1974 debts. The Commission stated that such funds may be returned to the donor. Further, contributions which are authorized in writing for such purpose, may be transferred to a 1976 election campaign subject to the disclosure requirements of 2 U.S.C. 432 and 434, and the limitations of 18 U.S.C. 608(b). Lastly, under the provisions of 2 U.S.C. 439a, an incumbent Congressman may use excess funds to defray any ordinary and necessary expenses incurred in connection with his duties as a holder of Federal office, contribute to an organization described in 26 U.S.C. 170(c), or for any other lawful purpose.

In light of that opinion, the Dodd Committee may dispose of the excess funds as above-stated. Should the Dodd Committee decide to return the excess to the donors, the contributions last received should be the first returned on the assumption that the first contributions received are the first expended and that, therefore, residual funds represent the last contributions received. The Dodd Committee does not have to pro-rate the contributions received if it decides to return them, although it may do so.

This opinion is issued on an interim basis pending final promulgation by the Commission of rules and regulations or policy statements of general applicability.

Dated: December 3, 1975.

THOMAS B. CURTIS,
Chairman for the
Federal Election Commission.

STATE VOCATIONAL EDUCATION PROGRAMS

Administrative Regulations

V40239 DEC 11 75 XUM

Title 45—Public Welfare

CHAPTER I—OFFICE OF EDUCATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 102—STATE VOCATIONAL EDUCATION PROGRAMS

Administrative Regulations

A notice of proposed rulemaking was published on August 6, 1975, at 40 FR 33047, inviting public comments on regulations of the Secretary of Health, Education, and Welfare. The purpose of the proposed amendments was to conform the regulations promulgated pursuant to the Vocational Education Act of 1963, as amended (20 U.S.C. 1241 through 1393(f)), to existing Departmental policy and of insuring effective coordination of vocational education programs conducted under the Vocational Education Act with program activities provided under the Comprehensive Employment and Training Act (CETA), Pub. L. 93–203, (29 U.S.C. 801 *et seq.*) and the regulations issued thereunder by the Department of Labor (29 CFR Part 94).

1. *Summary of amendments to regulations.* Since there is considerable overlap in both CETA and vocational education target populations, the State's annual program plan required under the Vocational Education Act and the General Education Provisions Act shall provide for cooperative arrangements between the State board and the State Manpower Services Council established under the authority of section 107 of CETA. Section 102.40 has been amended to assure that the State Manpower Services Council will be provided an opportunity to comment on the provisions of the annual program plan which relate to manpower services prior to the public hearings mandated by § 102.31(e)(3), or at the public hearing.

Three other CETA related changes have been made. First, § 102.3 has been expanded to include, the definition of "Prime Sponsor," which is the governmental unit responsible for carrying out comprehensive manpower programs. Secondly, § 102.40(e) has been broadened in order to provide coordination with CETA prime sponsor manpower planners in the development of vocational education programs. Thirdly, § 102.51(a)(3) has been amended to indicate the repeal of the Manpower Development and Training Act of 1962 and to clarify the exclusionary language of this provision. Although an implication might be read into section 122(a)(3) of the Act that trainees under CETA and the Trade Expansion Act must be excluded from vocational programs, Congressional intention was precisely the opposite (109 Cong. Rec. 13476, 1963 (remarks of Representatives Perkins and Goodell)). The purpose for writing this exclusionary language was to prevent an overlapping in the actual availability of funds between vocational education and such other programs. Persons receiving training allowances under CETA and the Trade Expansion Act, therefore, are eligible for vocational education programs as long as funds authorized pursuant to such legislation supplement vocational funds rather than duplicate vocational funds.

Section 102.4 of the regulations has been revised to allow for related instruction to apprentices who are employed to learn trade skills. A list of assurances to be incorporated into the annual program plan is enumerated in § 102.4. These provisions should be read in conjunction with the Department of Labor's regulations on Apprenticeship (29 CFR Part 29).

Section 102.59(b) has been amended to require that the recommendations of the State advisory council be considered by the State board in developing the annual program plan for the ensuing year and that a response in writing to each recommendation be included in the annual program plan. All States now subscribe to this policy since this provision is identical to the addition of § 102.159 made in 37 FR 2822, but inadvertently omitted in the notice of proposed rulemaking published in the FEDERAL REGISTER on July 24, 1974 at 39 FR 27086 and the final regulations published February 25, 1975 at 40 FR 8076.

Finally, § 102.60(a)(2) has been modified in order that local educational agencies provide an assurance in their local application that any Federal funds received under Title VII of the Elementary and Secondary Education Act of 1965 (Bilingual Education) will be so used that expenditures for program purposes will supplement each other and not amount to a duplication of effort. This requirement is consistent with section 122(a)(4)(c) of the Vocational Education Act, as added by section 841(a)(5)(A) of Pub. L. 93–380 which requires that funding to the States for the purpose of vocational education programs for students of limited English-speaking ability be carried out in coordination with bilingual education programs under Title VII of the Elementary and Secondary Education Act of 1965, and bilingual adult education programs under section 306(a)(1) of the Adult Education Act.

2. *Comments.* The comments set forth in the following paragraphs represent the suggestions, questions, criticisms and objections which were submitted in writing in response to the proposed regulations. Most of the comments received were in support of the revisions. After the summary of each comment, a response is set forth stating the changes which have been made in the regulations or the reasons why no change is deemed necessary or appropriate.

Comment. Several commenters stated that the phrase ". . . the annual program plan shall set forth an assurance that the State Manpower Services Council will be provided with an opportunity to comment on the development of the annual program plan provisions which relate to manpower services . . ." might lead to misinterpretation. The basis for this view is that an opportunity for comment on the "development" of the annual program plan could, arguably, encompass involvement in the actual development of the plan.

Response. In accordance with section 123(a) of the Vocational Education Act, the State board, as the sole agency for administration of the annual program plan, has the responsibility for the development of the annual program plan. The Office of Education has no intention of eroding this statutory mandate by permitting the State Manpower Services Council to usurp the function of developing the plan. On the contrary, § 102.40(b–1) provides the State Manpower Services Council an opportunity to comment on the provisions of the plan which relate to manpower services. The rationale for this amendment stems from the need to eliminate conflict, duplication and overlapping between manpower services.

In an effort to mesh manpower programs to better meet the overall needs of the State, Congress authorized the establishment of State Manpower Services Councils (Section 107 of Pub. L. 93–203) as a mechanism to provide more effective coordination of manpower efforts. In addition to reviewing plans of prime sponsors, these Councils make recommendations to State agencies providing manpower services in order to improve the effectiveness of such programs.

Since vocational education is an important instrument of manpower policy, an effective manpower program in the State would benefit from cooperative arrangements between the State board and the State Manpower Services Council. The State board, therefore, should provide the opportunity to the State Manpower Services Council for comment on the annual program plan.

In order to eliminate any confusion as to what was intended, i.e., comment on those segments of the plan relating to manpower services, the words "the development of" have been deleted from the final regulations. This should create a clearer interpretation of the role to be performed by the State Manpower Services Council as it relates to the functions of the State board.

Comment. Many commenters also pointed out that cooperative linkages between CETA and the Vocational Education Act could be strengthened by the adoption of a provision in the CETA regulations which would require the State board for vocational education to be provided with an opportunity to comment on the provisions of the comprehensive manpower plan of prime sponsors relating to vocational training.

Response. Although cooperation is a two-way proposition in the sense that the State board for vocational education should be provided the same opportunities that are proposed for the State Manpower Services Councils, the U.S. Office of Education is not authorized to promulgate regulations for the Department of Labor. The staffs of both the Manpower Administration, Department of Labor and the Bureau of Occupational and Adult Education in the U.S. Office of Education, however, have been working together to clarify existing ambiguities and avoid conflict in areas in which CETA and vocational education programs interface. Furthermore, copies of all comments received which deal with proposed changes in CETA regulations have been forwarded to the Department of Labor for its consideration.

Comment. One commenter has suggested that the State Manpower Services Council should be cognizant of the vocational education planning process and should be provided with the entire annual program plan for review. The comment states that it is inappropriate for the State board to unilaterally determine those elements of the annual program plan that will be of interest to the State Manpower Services Council. Such a policy could lead to an overly selective and narrow interpretation of "manpower-relatedness" that would be detrimental to the goal of program coordination. In support of this position, the commenter argues that under CETA, the State Manpower Services Council is mandated a responsibility for overall State manpower planning and manpower program coordination.

Response. There is a serious question as to the legal basis for this argument since there appears to be no provision in the CETA legislation for the State Manpower Services Council to be a vehicle for planning manpower programs or making program decisions. The basic responsibility of the State Manpower Services Council is comprehensive coordination of manpower activities. In the pursuit of this objective, the State board must provide an opportunity to the State Manpower Services Council to review those provisions of the annual program plan relating to manpower services. Although discretion as to which elements of the plan are appropriate for review is vested in the State board, it is highly unlikely that the State board would be overly selective in this matter. Therefore, no change has been made in the regulations.

Comment. A commenter suggested that a requirement for the State Manpower Services Council to comment prior to the public hearing be incorporated into the regulations.

Response. The proposed amendment, as set forth in § 102.40(b–1), provided for an opportunity for the State Manpower Services Council to comment "at the public hearing or prior to the public hearing mandated by § 102.31(c)(3)." The State boards are encouraged to make the plans available for review by the State Manpower Services Council prior to the hearing, but such an arrangement is not imperative. Accordingly, no change in the regulations is deemed necessary.

Comment. A commenter recommended that § 102.40(c) be revised to require coordination with both CETA prime sponsors and with "program agents" in balance of State areas.

Response. The term "prime sponsors" in the proposed amendment to § 102.40(c) includes either grantees which have entered into a grant with the Department of Labor to provide comprehensive manpower services under Title I of the Comprehensive Employment and Training Act or subgrantees which have areas of substantial unemployment under Title II of CETA. Prime sponsors and program agents which are included in the comprehensive manpower plan, as well as prime sponsors and program agents in balance of State areas which are not included in the comprehensive manpower plan are organizations concerned with manpower needs of which § 102.40(c) directs its attention. Thus, no change is necessary.

Comment. A commenter recommended that § 102.40(c) be modified in order that the State board be required to provide cooperative arrangements with prime sponsors.

Response. Since the State Manpower Services Council has the statutory responsibility for reviewing the plans of each prime sponsor and making recommendations to the prime sponsors for more effective coordination, cooperative arrangements between the State board and the State Manpower Services Council indirectly impacts on all prime sponsors. Therefore, there is no necessity for imposing an additional and onerous mandate on the State board.

Comment. A commenter questioned the necessity of an express assurance which would provide the State Manpower Services Council an opportunity to comment on provisions of the annual program plan which relate to manpower services. The regulations now provide that "members of the public", which term includes the members of the State Manpower Services Council, may appear at the public hearings on the annual program plan to express their concerns. Furthermore, membership of the State advisory council on vocational education assures input from manpower administrators in the review of the annual program plans. The cooperative arrangements set forth in § 102.40(b–1) therefore, amount to a duplication of effort.

Response. As set forth above, an effective manpower program in the State would benefit from cooperative arrangements between the State board and the State Manpower Services Council. In order to accomplish this objective, § 102.40(b–1) allows the State Manpower Services Council to review the annual program plan at the public hearing, or prior to it. Since the State Manpower Services Council is the focal point for the coordination of the State's manpower efforts, the State boards are encouraged to submit the annual program plan to the State Manpower Services Councils prior to the public hearing.

Comment. A commenter suggested that the State Manpower Services Council be required to testify at the public hearing on the annual program plan, mandated by § 102.31(e)(3). This would enable the State Manpower Services Council to comply with their obligations set forth in section 107 of the Comprehensive Employment and Training Act.

Response. Since many State boards will opt for a review prior to the public hearing, no useful purpose would be served by requiring testimony on the part of the State Manpower Services Council. Additionally, the proposed language set forth in § 102.40(b–1) purposely provides for flexibility in this area of cooperative arrangement. Therefore, no change has been made.

Comment. A commenter questioned whether the reference to State Manpower Services Councils in § 102.40(b–1) should be construed to mean staff members or appointed members.

Response. The reference to the State Manpower Services Councils in this section encompasses both staff and appointed members.

Comment. Some commenters objected to the proposed requirement in § 102.159(b) that the recommendations of the State advisory council be considered by the State board in developing the annual program plan for the ensuing year and that a response in writing to each recommendation be included in the annual program plan. The basis of these objections are reflected in the following comments:

(1) The State advisory council on vocational education is advisory in nature and thus the State board may reject their suggestions without any explanation.

(2) Compelling the State board to respond to the State advisory council on vocational education is making the State board subservient to the State advisory council on vocational education.

(3) Such a requirement would place the State advisory council on vocational education in the role of policy-making.

(4) The use of the word "shall" tends to place the advisory council in an administrative role.

Response. As set forth in the preamble to these proposed revisions in 40 FR 33048 (August 6, 1975), the amendments to § 102.159(b) are identical to the additions to the State Vocational Education Programs amendments which were inadvertently omitted in the notice of proposed rulemaking published in the FEDERAL REGISTER on July 24, 1974, at 39 FR 27086 and the final regulations published in the FEDERAL REGISTER on February 25, 1975, at 40 FR 8076.

The changes were made in the regulations in 1972 at the request of Congress since many State boards were ignoring the recommendations of the Councils. Since that time, all States have implemented a policy of requiring the recommendations of the advisory councils to be considered by the State boards in developing the annual program plan and responding to each recommendation in the annual program plan.

Congress mandated the existence of these councils in Pub. L. 90–576 in order to advise State boards on the development of the State plan and to submit to the State board an annual evaluation report. The existence of the State advisory councils was considered vital by Congress since they would provide the State board and the Federal Government with objective judgments and recommendations concerning vocational programs within the States. (1972 U.S. Code Cong. and Adm. News p. 2540).

Unless these recommendations are considered by the State board, the mis-

V 40 239 DEC 11 75 XUM

sion of the State advisory council on vocational education would be seriously eroded. These amendments do not imply that the State board must accept and implement every recommendation of the council, rather it requires the State board to set forth their reasons for accepting or rejecting the recommendation. Formalization of the response of the State board and requiring the response to be in the annual program plan will cause no hardship on the State board and will assure a flow of communication in those States where there is no established procedure.

Comment. A commenter suggested that the proposed amendment to § 102.60(a)(2) be modified in order to ensure that the content of the local application of the local education agency be formulated in conjunction with local CETA prime sponsors.

Response. The express purpose of revising § 102.60(a)(2) is to assure that funds received by local education agencies under Title VII of the Elementary and Secondary Education Act of 1965 (Bilingual Education) will be used to supplement any Part B funds expended for bilingual vocational programs. Section 122(a)(4)(c) of the Vocational Education Act of 1963, as amended by section 841(a)(5)(A) of Pub. L. 93-380, requires that funding to the States for the purpose of vocational education programs for students of limited English-speaking ability be carried out in coordination with bilingual education programs under Title VII of the Elementary and Secondary Education Act.

Although the suggested modification has no relevance to the substance of § 102.60(a)(2), subparagraphs (5) and (6) of this section require the local education agencies to set forth in their local application information indicating the manpower needs of students in the area. Therefore, local education agencies frequently work in conjunction with local CETA prime sponsors to determine exactly what the local manpower needs may be. No change has been made.

Comment. A commenter suggested several substantive changes be made to the classifications of registered and non-registered apprentices in § 102.4(e-1). This commenter stated that the proposed classifications might give unscrupulous employers an opportunity to exploit young persons by hiring them at a minimum rate and releasing them with practically no saleable training whatsoever. In addition, this commenter recommended the deletion of the word "or" in § 102.4(e-1)(4)(iii) since it might establish a dichotomy between technical and mechanical skills.

Response. The definitions of "registered" and "non-registered" apprentices set forth in § 102.4(e-1)(5) were reviewed, revised and approved by staff members of the Bureau of Apprenticeship and Training, U.S. Department of Labor. Furthermore, to ensure standards of acceptable quality, a cross-reference to the Department of Labor Apprenticeship Program Regulations (29 CFR Part 29) is provided for in § 102.4(e-1)(6). The recommendation to delete the word "or" in § 102.4(e-1)(4)(iii) has been accepted. Therefore, the skilled trade must involve manual, mechanical, technical skills and knowledge.

3. Other changes. Certain other minor and technical changes were made in order to correct omissions and typographical errors printed in the proposed regulations. Some of these oversights were pointed out in the written comments.

4. Effective date. Pursuant to section 431(d) of the General Education Provisions Act, as amended, (20 U.S.C. 1232(d)) these regulations have been transmitted to the Congress concurrently with the publication in the FEDERAL REGISTER. That section provides that regulations subject thereto shall become effective on the forty-fifth day following the date of such transmission, subject to the provisions therein concerning Congressional action and adjournment.

(Catalog of Federal Domestic Assistance Nos. 13.493-395, 13.498-503; Vocational Education—Basic Grants to States, Consumer and Homemaking, Cooperative Education, Research, Special Needs, State Advisory Councils, Work Study and Innovation)

Dated: November 3, 1975.

T. H. BELL,
U.S. Commissioner of Education.

Approved: December 5, 1975.

DAVID MATHEWS,
Secretary of Health, Education, and Welfare.

1. Section 102.3 is amended as follows:

§ 102.3 Definitions.

• • • • • •

"Prime Sponsor" means a unit of government, combinations of units of government, or a rural Concentrated Employment Program grantee (as set forth in 29 CFR § 95.3), which has entered into a grant with the Department of Labor to provide comprehensive manpower services under Title I of the Comprehensive Employment and Training Act.

• • • • • •

2. Section 102.4 is amended by adding the following paragraph at the end of paragraph (e).

§ 102.4 Vocational instruction.

• • • • • •

(e-1) *Apprenticeship programs.* The annual program plan may provide for related instruction for apprentices who are employed to learn skilled trades. If such programs of instruction are offered, the annual program plan must set forth the following assurances:

(1) The vocational training is supplemental to the on-the-job training experience of the apprentice.

(2) The worker involved in the apprenticeable occupation must be at least 16 years of age, except where a higher minimum age standard is otherwise fixed by law.

(3) The apprentice training agreement must specify a given length of planned work experience training through employment on the job which is supplemented by related instruction.

(4) The skilled trade must possess all of the following characteristics:

(i) It is customarily learned in a practical way through training and work on the job;

(ii) It is clearly identified and commonly recognized throughout an industry; and

(iii) It involves manual, mechanical, technical skills and knowledge.

(5) Apprentices will be classified as follows:

(i) *Registered.* (*a*) Where the program or the apprentice, or both are registered under the apprenticeship law of the State in which the apprentice is employed;

(*b*) Where the program or the apprentice, or both, are registered by a State apprenticeship agency operating under powers vested in it by legally responsible State authority; and

(*c*) Where the program of the apprentice, or both, are registered by the Bureau of Apprenticeship and Training, U.S. Department of Labor, under "standards" or "fundamentals" approved by the Federal Committee on Apprenticeship. Such registration or recognition exists only where neither conditions in paragraph (e-1)(5)(i)(*a*) nor paragraph (e-1)(5)(i)(*b*) of this section exist.

(ii) *Non-registered.* Where the program or the apprentice, or both, is not registered under any of the three conditions in paragraphs (e-1)(5)(i)(*a*), (*b*), and (*c*) of this section, but a non-certifiable apprenticeship program is conducted under an implied or written agreement between the apprentice and an individual employer, a group of employers, employer-employee committees, or a governmental agency.

(6) The standards of apprenticeship programs must adhere to the requirements outlined in 29 CFR Part 29 (Department of Labor Apprenticeship Programs).

(29 U.S.C. 50)

• • • • • •

3. Section 102.40 is amended by adding the following paragraph at the end of paragraph (b) and by inserting the words "and prime sponsors" between the words "organizations" and "Copies" in paragraph (c).

§ 102.40 Cooperative arrangements.

• • • • • •

(b-1) *With State Manpower Services Council.* The annual program plan shall provide for cooperative arrangements with the State Manpower Services Council created under the authority of section 107 of the Comprehensive Employment and Training Act (Pub. L. 93-203). In order to facilitate coordination of manpower activities within the State, the annual program plan shall set forth an assurance that the State Manpower Services Council will be provided with an opportunity to comment on the annual program plan provisions which relate to manpower services at the public hearing or prior to the public hearing mandated by § 102.31(e)(3).

• • • • • •

4. Section 102.51(a)(3) is revised to read as follows:

§ 102.51 Allocation of funds to part B purposes.

(a) • • •

(3) Persons who have already entered the labor market and who need training or retraining to achieve stability or advancement in employment. Persons receiving training allowances under the Comprehensive Employment and Training Act (29 U.S.C. 801 et seq.) or the Trade Expansion Act of 1962 (19 U.S.C. 1801-1991) are eligible as long as funds authorized pursuant to such legislation supplement vocational education funds rather than duplicate vocational education funds.

5. Section 102.60, paragraph (a)(2), is revised to read as follows:

§ 102.60 Content of local applications.

• • • • • •

(a) • • •

(2) A justification of the amount of Federal and State funds requested, and information on the amounts and sources of other funds available for the programs, services and activities. The local educational agency must also provide an assurance that any Federal funds received under Title VII of the Elementary and Secondary Education Act of 1965 (Bilingual Education) will be so used that expenditures for program purposes will supplement each other and not amount to a duplication of effort.

• • • • • •

6. Section 102.159, paragraph (b), is revised to read as follows:

§ 102.159 Annual evaluation report.

• • • • • •

(b) The annual evaluation report of the State advisory council may be accompanied by such comments of the State board as it deems appropriate. The recommendations of the State advisory council shall be considered by the State board in developing the State plan for the ensuing year. Response in writing to each recommendation shall accompany the State plan and may include among other matters, the results of evaluations by the State board of programs, services, and activities which support, supplement, or differ with the evaluation results of the State advisory council.

FEDERAL SUPPLEMENTAL BENEFITS (EMERGENCY UNEMPLOYMENT COMPENSATION)

V40239 DEC 11 75 XUM

Title 20—Employees' Benefits

CHAPTER V—EMPLOYMENT AND TRAINING ADMINISTRATION

PART 618—FEDERAL SUPPLEMENTAL BENEFITS (EMERGENCY UNEMPLOYMENT COMPENSATION)

Revision of Regulations

On February 6, 1975, a document was published in the FEDERAL REGISTER (40 FR 5498) establishing a new Part 618 in Chapter V of Title 20 of the Code of Federal Regulations. Corrections to that document were published on February 25, 1975 (40 FR 8075). Part 618 implements the Federal Supplemental Benefit Program established under the "Emergency Unemployment Compensation Act of 1974" (Public Law 93–572, 88 Stat. 1869). The Act created a new, temporary unemployment compensation program, financed from Federal funds to furnish additional weeks of Federal Supplemental Benefits (FSB) to individuals covered by established unemployment compensation programs who are unemployed and unable to obtain work.

Although Part 618 was made effective upon publication in the FEDERAL REGISTER, comments were solicited through March 14, 1975. No comments on Part 618 were received.

Subsequent to the publication of Part 618, amendments to Public Law 93–572 were enacted in section 701(a) of Title VII of the "Tax Reduction Act of 1975" (Public Law 94–12; 89 Stat. 26, 65), and in Title I of the "Emergency Compensation and Special Unemployment Assistance Extension Act of 1975" (the Extension Act) (Public Law 94–45; 89 Stat. 236).

Part 618 has been reviewed in the light of the statutory changes in the Tax Reduction Act and Extension Act, and has been further reviewed. As a result of that review Part 618 has been substantially revised and includes the following significant changes:

1. Technical and clarifying changes are made throughout Part 618, including the addition of paragraph headings.

2. In § 618.1 the purpose of Part 618 is clarified, and two rules of construction have been added to preclude strict interpretation of the Act and Part 618, and to provide assurance of uniform interpretation of the Act and Part 618 in all States insofar as is possible. Another provision has been added for monitoring the application of the Act and securing uniformity.

3. A new § 618.2(1)(2) is added, defining "additional eligibility period" so as to accord with the amendment in section 101(d)(3) of the extension Act. This period is one in which an eligible individual who qualified for extended benefits or FSB during a Federal Supplemental Benefit Period continues to be eligible for FSB for up to 13 weeks after the end of the benefit period.

4. In § 618.2(r) the definitions of "week of partial unemployment" and "week of part-total unemployment" are amended by deleting from the definitions the clauses which require that a claimant's earnings be less than the earnings allowance prescribed by the applicable State law plus the claimant's weekly amount of FSB. These changes clarify the application of varying State law provisions on the calculation of rights to partial benefits.

5. Section 618.5 is revised to clarify the Federal and State unemployment compensation programs under which a potential FSB claimant must have exhausted all rights to benefits in order to qualify as an "exhaustee" for purposes of FSB.

6. Section 618.7 is revised so as to accord with amendments in sections 101(b), 101(f) and 106 of the Extension Act, and the provision of the Tax Reduction Act. Duration of FSB entitlement remains at 26 weeks throughout 1975, and thereafter would be 26 weeks during a 6-per centum period and 13 weeks during a 5-per centum period. The maximum amount of FSB payable to an individual is to be reduced by the amount of Special Unemployment Assistance paid to the individual in the 65 weeks preceding the first week in which the individual is eligible for FSB.

7. New §§ 618.9(b), 618.9(c), and 618.9(e) are added. Paragraph (b) provides for determinations of claims for weekly payments of FSB. Paragraph (c) contains the provisions on redetermination of entitlement to FSB which are moved from § 619.10(a). Paragraph (e) requires prompt payment of FSB.

8. Section 618.10 is revised to limit it to appeals and hearings on FSB claims, and to clarify its application. The provision on reconsideration in paragraph (a) is deleted and is now covered by § 618.9(c) and 618.9(f).

9. A new § 618.10(c) is added to provide expressly that the Secretary's "Standard for Appeals Promptness—Unemployment Compensation" (20 CFR Part 650) shall apply to FSB appeals, and to apply State law on advancement of unemployment compensation claims on judicial calendars to FSB claims.

10. New paragraphs (a), (b), (e), (f), and (g) are added to § 618.13; former paragraphs (a), (b), and (c) are relettered as (c), (d), and (h). The new paragraphs are added to state expressly the effect on entitlement to FSB of entitlement to or receipt of compensation, assistance, or allowances with respect to unemployment under other laws. They provide that compensation to which an individual is entitled under the Hawaii Agricultural Unemployment Compensation Law will be deducted from FSB entitlement; entitlement to unemployment compensation under the Railroad Unemployment Insurance Act will make an individual ineligible for FSB; receipt of compensation under unemployment compensation law of the Virgin Islands or Canada will make an individual ineligible for FSB; and entitlement to assistance or an allowance with respect to unemployment under the Trade Act of 1974 (19 U.S.C. 2271 *et seq.*, 29 CFR Part 91), the Disaster Relief Act of 1974 (42 U.S.C. 5177), or the Public Works and Economic Development Act of 1965, as amended (42 U.S.C. 3243(d)), will not make an individual ineligible for FSB.

11. A new § 618.14 is added, providing for the denial of FSB to individuals who refuse to participate in or apply for occupational training, where the State determines that there is a need for such training and such training is available and satisfies the requirements set forth in the section. This new section implements the amendment in section 103(a) of the Extension Act.

12. The section on overpayments and penalties for fraud, renumbered as § 618.15, is amended to provide for the recovery of debts due the United States from FSB payable to an individual, and to provide that FSB payable to an individual may not be used in any manner for the payment of a debt of the individual to any State or any other entity or person.

13. A new § 618.16 is added, prohibiting waiver or assignment of rights to FSB, and any legal process against FSB except as provided in § 618.15; and to prohibit discrimination against FSB claimants in regard to employment, and obstruction of an individual's attempt to claim or receive FSB. These "inviolate rights to FSB" are substantially the same as the inviolate rights to State unemployment compensation which are requirements for State unemployment compensation laws under section 303(a) of the Social Security Act (42 U.S.C. 503(a)), and section 3304(a) of the Internal Revenue Code of 1954 (26 U.S.C. 3304(a)).

14. A new paragraph (a) is added to § 618.17, formerly § 618.15, requiring State agencies to keep records under the Act, and paragraph (b) is amended to limit disclosure under the Act where such disclosure would conflict with the Freedom of Information Act (5 U.S.C. 552) or the Privacy Act of 1974 (5 U.S.C. 552(a)), or regulations of the Department of Labor promulgated thereunder.

15. Section 618.19, formerly § 618.17, is revised to provide for new "on" and "off" indicators for Federal Supplemental Benefit Periods after 1975, in accordance with the amendments in section 101(a) of the Extension Act.

16. A new § 618.20 is added, to prescribe when "5–per centum" and "6–per centum" periods begin and end. These changes implement amendments in sections 101(a) and 101(d) of the Extension Act.

17. Section 618.21, formerly § 618.18, is amended to provide that Assistant Regional Directors for Employment and Training are to be notified when "on" and "off" indicators are determined.

18. A new § 618.23 is added, providing for public inspection and copying of Agreements under the Act.

Accordingly, 20 CFR Part 618 is revised as set forth below.

Since the Extension Act was enacted on June 30, 1975, and some of the amendments to the Act became effective on that date or on July 1, 1975, it is essential to publish the revised Part 618 as quickly as possible. For this reason, I, as Secretary of Labor, find that it is contrary to the public interest to publish the revised Part 618 as a proposal with opportunity for comment, and further determine that 20 CFR 2.7 shall not apply to this document. For the same reason I find that it is necessary that the revised Part 618 shall become effective on December 11, 1975. Therefore, Part 618 as revised in this document shall take effect on December 11, 1975.

Although revised Part 618 is being published in final form and is made effective as stated above, it is the policy of the Department of Labor to solicit and consider comments on the regulations it issues. Therefore, comments will be received, just as though this document was a proposal, until January 12, 1976, after which time the comments received will be evaluated, and, if warranted, Part 618 will be appropriately amended. Meanwhile, in the interest of making revised Part 618 effective as stated above, it shall be in force upon publication in the FEDERAL REGISTER and shall remain in force until further revised.

Interested persons are invited to submit written data, views, or arguments on revised Part 618, to the U.S. Department of Labor, Employment and Training Administration, Room 7000, Patrick Henry Building, 601 "D" Street NW., Washington, D.C. 20213, on or before January 12, 1976. All material received in response to this invitation will be available for public inspection during normal business hours at that address.

Effective date: 20 CFR Part 618 is revised effective December 11, 1975.

Signed at Washington, D.C., this 8th day of December 1975.

JOHN T. DUNLOP,
Secretary of Labor.

Part 618 of Title 20, Code of Federal Regulations, is revised to read as follows:

Sec.
618.1 Purpose; rules of construction.
618.2 Definitions.
618.3 Effective period of the program.
618.4 Eligibility requirements for Federal Supplemental Benefits.
618.5 Definition of "exhaustee."
618.6 Federal Supplemental Benefits: weekly amount.
618.7 Federal Supplemental Benefits: maximum amount.
618.8 Claims for Federal Supplemental Benefits.
618.9 Determinations of entitlement; notices to individual.
618.10 Appeal and hearing.
618.11 Provisions of State law applicable to claims.
618.12 The applicable State for an individual.
618.13 Restrictions on entitlement.
618.14 Required training for FSB claimants.
618.15 Overpayments; penalties for fraud.
618.16 Inviolate rights to FSB.
618.17 Record keeping; disclosure of information.
618.18 Federal Supplemental Benefit Period.
618.19 Determination of "on" and "off" indicators.
618.20 Per centum periods in a Federal Supplemental Benefit Period.
618.21 Announcement of the beginning and ending of Federal Supplemental Benefit Periods and per centum periods.
618.22 Payments to States.
618.23 Public access to Agreements.
618.24 Information, reports, and studies.

AUTHORITY: Pub. L. 93–572 (88 Stat. 1869); sec. 701(a), Pub. L. 94–12 (89 Stat. 26, 65); part A, title I, Pub. L. 94–45 (89 Stat. 236); title II, Pub. L. 91–373 (84 Stat. 695, 708); (5 U.S.C. 553).

§ 618.1 Purpose; rules of construction.

(a) *Purpose.* The "Emergency Unemployment Compensation Act of 1974" created a program of further extended unemployment compensation for individuals who have exhausted their rights to regular, additional, and extended unemployment compensation under permanent unemployment compensation programs. The benefits provided under the Act are hereafter referred to as Federal Supplemental Benefits, or FSB. The regulations in this Part are issued to implement the Act as it has been amended.

(b) *First Rule of construction.* The Act and the implementing regulations in this Part shall be construed liberally so as to carry out the purposes of the Act.

(c) *Second rule of construction.* The Act and the implementing regulations in this Part shall be construed so as to assure insofar as possible the uniform interpretation and application of the Act throughout the United States.

(d) *Effectuating purpose and rules of construction.* (1) In order to effectuate the provisions of this section each State agency shall forward to the United States Department of Labor, not later than 10 days after issuance, a copy of each judicial or administrative decision ruling on an individual's entitlement to FSB. On request of the Department, a State agency shall forward to the Department a copy of any determination or redetermination ruling on an individual's entitlement to FSB.

(2) If the Department believes a determination, redetermination, or decision is inconsistent with the Secretary's interpretation of the Act, the Department may at any time notify the State agency of the Department's view. Thereafter the State agency shall appeal if possible, shall not follow such determination, redetermination, or decision as a precedent; and in any subsequent proceedings which involve such determination, redetermination, or decision, or wherein such determination, redetermination, or decision is cited as precedent or otherwise relied upon, the State agency shall inform the hearing officer or court of the Department's view and shall make all reasonable efforts, including appeal or other proceedings in any appropriate forum, to obtain modification, limitation, or overruling of the determination, redetermination, or decision.

(3) A State agency may request reconsideration of a notice that a determination, redetermination, or decision is inconsistent with the Act, and shall be given opportunity to present views and argument if desired. If a determination, redetermination, or decision setting a precedent becomes final, which the Department believes to be inconsistent with the Act, the Secretary will decide whether the Agreement with the State shall be terminated.

(4) Concurrence of the Department in a determination, redetermination, or decision shall not be presumed from the absence of a notice pursuant to this paragraph.

§ 618.2 Definitions.

For the purposes of the Act and this Part:

(a) "Act" means the "Emergency Unemployment Compensation Act of 1974" (Public Law 93–572; 88 Stat. 1869, approved December 31, 1974), as amended by title VII of the Tax Reduction Act of 1975 (Public Law 94–12; 89 Stat. 26, 65), and title I of the Emergency Compensation and Special Unemployment Assistance Extension Act of 1975 (Public Law 94–45; 89 Stat. 236).

(b) "Agreement" means the agreement entered into pursuant to the Act between a State and the Secretary of Labor of the United States, under which the State agency of the State agrees to make payments of Federal Supplemental Benefits in accordance with the Act and the regulations and procedures thereunder prescribed by the Secretary.

(c) "Applicable State law" means the State law of the State which is the applicable State for an individual.

(d) "Base period" means, with respect to an individual, the base period as determined under the applicable State law for the individual's benefit year.

(e) "Benefit year" means the benefit year as defined in the applicable State law.

(f) "Extended benefit period" shall have the meaning assigned to the term by section 203 of the Federal-State Extended Unemployment Compensation Act of 1970, as amended (title II, Public Law 91–373; 84 Stat. 695, 708).

(g) "Compensation" means cash benefits (including dependents' allowances) payable to individuals with respect to their unemployment, and includes regular, additional, and extended compensation, as defined in this section.

(h) "Regular compensation" means compensation payable to an individual under any State law, and, when so payable, includes compensation payable pursuant to 5 U.S.C. chapter 85, but not including extended compensation or additional compensation.

(i) "Additional compensation" means compensation totally financed by a State and payable under a State law by reason of conditions of high unemployment or by reason of other special factors and, when so payable, includes compensation payable pursuant to 5 U.S.C. chapter 85.

(j) "Extended compensation" means compensation payable to an individual for weeks of unemployment in an extended benefit period, under those provisions of a State law which satisfy the requirements of the Federal-State Extended Unemployment Compensation Act of 1970, as amended, (title II, Public Law 91–373; 84 Stat. 695, 708), with respect to the payment of extended compensation, and, when so payable, includes additional compensation and compensation payable pursuant to 5 U.S.C. chapter 85.

(k) "Federal Supplemental Benefits" means the compensation payable under the Act to individuals eligible thereunder for the payments, and which is referred to as FSB.

(l) (1) "Period of eligibility" means, in the case of any individual, the weeks in

V40239 DEC 11 75 XUM

the individual's benefit year which begin in an extended benefit period, a Federal Supplemental Benefit Period, or an additional eligibility period, and, if the benefit year ends within the extended benefit period, any weeks thereafter which begin in the extended benefit period, the Federal Supplemental Benefit Period, or the additional eligibility period.

(2) "Additional eligibility period" means, with respect to an individual, the thirteen-week period following the week in which a Federal Supplemental Benefit Period ends in a State, or such shorter period of weeks as exist between the end of the Federal Supplemental Benefit Period and the beginning of a new Federal Supplemental Benefit Period in the State, if either FSB or extended compensation was payable to the individual in the State for the week in which the Federal Supplemental Benefit Period ended. FSB or extended compensation shall be deemed to be payable to an individual for the week in which the Federal Supplemental Benefit Period ended if FSB or extended compensation is paid to the individual with respect to that week or if, as of the beginning of that week, there is any amount of a balance in the Federal Supplemental Benefit Account established for the individual pursuant to § 618.7 or in the Extended Compensation Account established for the individual pursuant to any State law in accord with section 202(b)(1) of the Federal-State Extended Unemployment Compensation Act of 1970 and § 615.5(b) of this chapter.

(m) "Secretary" means the Secretary of Labor of the United States.

(n) "State" means the States of the United States, the District of Columbia, and the Commonwealth of Puerto Rico.

(o) "State agency" means the agency of the State which administers the applicable State law.

(p) "State law" means the unemployment compensation law of a State, approved by the Secretary under section 3304 of the Internal Revenue Code of 1954 (26 U.S.C. 3304).

(q) "Week" means, for purposes of eligibility for and payment of FSB, a week as defined in the applicable State law, and, for purposes of computations of Federal Supplemental Benefit "on" and "off" indicators, the beginning and ending of a Federal Supplemental Benefit Period, and the beginning and ending of 5-per centum and 6-per centum periods, a calendar week.

(r) "Week of unemployment" means any week during which an individual is totally, part-totally, or partially unemployed. A week of total unemployment is a week in which an individual performs no work and earns no wages or has less than full-time work and earns not more than the earnings allowance prescribed in the applicable State law. A week of part-total unemployment is a week of otherwise total unemployment during which an individual has odd jobs or subsidiary work with earnings in excess of the earnings allowance prescribed in the applicable State law. A week of partial unemployment is a week during which an individual works less than regular, full-time hours for the individual's regular employer, because of lack of work, and earns more than the earnings allowance prescribed in the applicable State law.

§ 618.3 Effective period of the program.

(a) *Beginning date.* FSB shall first become payable under the Act and this Part with respect to the first week which begins after whichever of the following is the latest:

(1) December 31, 1974, or

(2) The week in which the State enters into an Agreement under the Act, or

(3) The date of enactment of the Act.

(b) *Ending date.* FSB shall not be payable to any individual with respect to any week of unemployment that ends after March 31, 1977.

(c) *Agreement as precondition.* Notwithstanding any other provision of the Act or this Part, FSB shall be payable solely through a State agency and only pursuant to an Agreement, and with respect to weeks in which an Agreement is in effect.

§ 618.4 Eligibility requirements for Federal Supplemental Benefits.

An individual is entitled to FSB for a week of unemployment which begins in the individual's period of eligibility, if, with respect to such week, the individual is an exhaustee as defined in § 618.5, files a timely claim for FSB, and satisfies the pertinent requirements of the applicable State law as provided in the Act and this Part.

§ 618.5 Definition of "exhaustee."

(a) *Definition.* An individual is an exhaustee with respect to a week of unemployment if the individual:

(1) Has exhausted all rights to regular compensation, as prescribed in § 615.4 (b) and (c) of this chapter, under the applicable State law;

(2) Has exhausted all rights to extended compensation; that is, the individual has received, prior to that week, all the extended compensation available under the applicable State law in the individual's most recent eligibility period, or the individual is not entitled to extended compensation because of the ending of the individual's eligibility period for extended compensation under the applicable State law prior to the beginning of that week; and

(3) Has no right to compensation, including regular, additional, and extended compensation, with respect to that week under the applicable State law or the State law of any other State; and has no right to unemployment compensation under 5 U.S.C. chapter 85 or the Railroad Unemployment Insurance Act or any other Federal unemployment compensation law; and

(4) Is not receiving compensation with respect to that week under the unemployment compensation law of the Virgin Islands or Canada.

(b) *Adjustment of week.* If it is subsequently determined as the result of a redetermination or appeal that an individual is an exhaustee as of a different week than was previously determined, the individual's rights to FSB shall be adjusted so as to accord with such redetermination or decision.

§ 618.6 Federal Supplemental Benefits: weekly amount.

(a) *Total unemployment.* The weekly amount of FSB payable to an individual for a week of total unemployment shall be equal to the amount of regular compensation payable to the individual for a week of total unemployment during the individual's current benefit year, or if the individual has no current benefit year, during the most recent benefit year. If the individual had more than one weekly amount of regular compensation for total unemployment during the benefit year, the weekly amount of FSB for total unemployment shall be the weekly amount payable under the applicable State law with respect to extended compensation in accordance with the Federal-State Extended Unemployment Compensation Act of 1970, as amended.

(b) *Partial and part-total unemployment.* The weekly amount of FSB payable for a week of partial or part-total unemployment shall be determined under the provisions of the applicable State law which apply to regular compensation, computed on the basis of the weekly amount of FSB payable for a week of total unemployment as determined pursuant to paragraph (a) of this section.

§ 618.7 Federal Supplemental Benefits: maximum amount.

(a) *Individual Account.* A Federal Supplemental Benefit Account shall be established for each individual determined to be eligible for FSB, in the sum of the maximum amount potentially payable to the individual as computed in accordance with paragraph (b) of this section. The amount established in the Federal Supplemental Benefit Amount of any individual shall be subject to the limitations on the maximum amount payable to the individual as provided in paragraph (c) of this section.

(b) *Computation of maximum amount potentially payable.* (1) The amount established in the Federal Supplemental Benefit Account of an individual, as the maximum amount potentially payable to the individual during the individual's period of eligibility, shall be equal to the lesser of—

(i) 100 per centum of the total amount of regular compensation payable to the individual during the individual's applicable benefit year; or

(ii) Twenty-six times the individual's weekly amount of FSB payable for a week of total unemployment, as determined pursuant to § 618.6(a); and minus the sum of any reduction under paragraph (b)(2) of this section.

(2) The reduction referred to in paragraph (b)(1) of this section shall be the sum of the amounts of Special Unemployment Assistance paid to the individual pursuant to title II of the Emergency Jobs and Unemployment Assistance Act of 1974 and Part 619 of this chapter for any week of unemployment which begins in the 65-week period preceding the first week of unemployment with respect to which FSB is payable to the individual under the Act and this Part. The reduction made in accordance with this paragraph shall not operate to reduce to less than zero the maximum amount potentially payable as computed in accordance with paragraph (b)(1) of this section, or so as to affect any amount of FSB paid or payable to the individual for any week of unemployment which began prior to July 1, 1975.

(c) *Maximum amount payable.* Notwithstanding the maximum amount potentially payable to an individual as established in the individual's Federal Supplemental Benefit Account, the maximum amount of FSB payable to the individual:

(1) With respect to weeks of unemployment in the individual's period of eligibility (as defined in section 105(2) of the Emergency Unemployment Compensation Act of 1974) that begin prior to January 4, 1976, shall be the maximum amount potentially payable to the individual as computed under paragraph (b) of this section; and

(2) With respect to weeks of unemployment in the individual's period of eligibility (as defined in § 618.2(1)) that begin during a 6-per centum period which begins on or after January 4, 1976, shall not exceed the lesser of—

(i) The maximum amount computed under paragraph (b) of this section; or

(ii) The amount of the balance in the individual's Federal Supplemental Benefit Account, as of the beginning of the 6-per centum period; and

(3) With respect to weeks of unemployment in the individual's period of eligibility (as defined in § 618.2(1)) that begin during a 5-per centum period which begins on or after January 4, 1976, shall not exceed the lesser of—

(i) 50 per centum of the maximum amount computed under paragraph (b) of this section; or

(ii) The amount of the balance in the individual's Federal Supplemental Benefit Account, as of the beginning of the 5-per centum period.

(4) Any amount in an individual's Federal Supplemental Benefit Account which is not paid to the individual with respect to weeks of unemployment which begin during a 5-per centum or 6-per centum period in a Federal Supplemental Benefit Period, shall remain available and payable to the individual with respect to weeks of unemployment that begin during any succeeding 5-per centum or 6-per centum period which occurs in the same or a subsequent Federal Supplemental Benefit Period, or any applicable additional eligibility period, within the individual's period of eligibility (as defined in § 618.2(1)), subject to the limitations on the maximum amount payable to the individual as provided in this paragraph (c).

(d) *Adjustment of Account.* If it is subsequently determined as the result of a redetermination or appeal that an individual was entitled to more or less of regular, additional, or extended compensation under the State law of any State, or to more or less of unemployment compensation under 5 U.S.C. chapter 85, the individual's status as an exhaustee shall be redetermined as of the new date of the individual's exhaustion, and an appropriate change shall be made in the individual's Federal Supplemental Benefit Account. The appropriate change in the individual's account shall be computed in accordance with this section and, insofar as applicable, § 618.6.

§ 618.8 Claims for Federal Supplemental Benefits.

(a) *Initial claims.* An initial claim for FSB shall be filed by an individual with respect to the individual's applicable State and according to the applicable State law on a form prescribed by the Secretary, which shall be furnished to the individual by the State agency.

(b) *Weekly claims.* Claims for payments of FSB for weeks of unemployment shall be filed with respect to the individual's applicable State at the times and in the manner as claims for regular compensation are filed under the applicable State law, and on forms prescribed by the Secretary which shall be furnished to the individual by the State agency.

(c) *Secretary's standard.* The procedures for reporting and filing claims for FSB shall be consistent with this Part and the Secretary's "Standard for Claim Filing, Claimant Reporting, Job Finding and Employment Services" (*Employment Security Manual*, Part V, sections 5000 et seq.).

§ 618.9 Determinations of entitlement; notices to individual.

(a) *Determination of initial claim.* The State agency shall promptly, upon the filing of an initial claim for FSB, determine whether the individual is eligible and whether a disqualification applies, and, if the individual is found to be eligible, the weekly and maximum amounts of FSB payable to the individual.

(b) *Determinations of weekly claims.* The State agency shall promptly, upon the filing of a claim for a payment of FSB with respect to a week of unemployment, determine whether the individual is entitled to a payment of FSB with respect to such week, and, if entitled, the amount of FSB to which the individual is entitled.

(c) *Redetermination.* The provisions of the applicable State law concerning the right to request, or authority to undertake, reconsideration of a determination pertaining to regular compensation under the applicable State law shall apply to determinations pertaining to FSB.

(d) *Notices to individual.* The State agency shall give notice in writing to the individual of any determination or redetermination of an initial claim and determinations and redeterminations of all weekly claims with respect to weeks of unemployment, and each notice of determination or redetermination shall include such information regarding the determination or redetermination and notice of right to reconsideration or appeal, or both, as is furnished with written notices of determinations and written notices of redeterminations with respect to claims for regular compensation.

(e) *Promptness.* Full payment of FSB when due shall be made with the greatest promptness that is administratively feasible.

(f) *Secretary's standard.* The procedures for making determinations and redeterminations and furnishing written notices of determinations, redeterminations, and rights of appeal to individuals claiming FSB shall be consistent with the Secretary's "Standard for Claim Determinations—Separation Information" (*Employment Security Manual*, Part V, sections 6010 *et seq.*).

§ 618.10 Appeal and hearing.

(a) *Applicable State law.* The provisions of the applicable State law concerning the right of appeal and fair hearing from a determination or redetermination of entitlement to regular compensation shall apply to determinations and redeterminations of eligibility for or entitlement to FSB.

(b) *Rights of appeal and fair hearing.* The provisions on right of appeal and opportunity for a fair hearing with respect to claims for FSB shall be consistent with this Part and with sections 303(a)(1) and 303(a)(3) of the Social Security Act (42 U.S.C. 503(a)(1) and 503(a)(3)).

(c) *Promptness on appeals.* (1) Decisions on appeals under the FSB program shall accord with the Secretary's "Standard for Appeals Promptness—Unemployment Compensation" in Part 650 of this chapter.

(2) Any provision of an applicable State law for advancement or priority of unemployment compensation cases on judicial calendars, or otherwise intended to provide for the prompt payment of unemployment compensation when due, shall apply to proceedings involving entitlement to FSB.

§ 618.11 Provisions of State law applicable to claims.

(a) *Particular provisions applicable.* Except where the result would be inconsistent with the provisions of the Act or this Part and the procedures thereunder prescribed by the Secretary, the terms and conditions of the applicable State law which apply to claims for, and the payment of, regular compensation shall

V 40 I 239 DEC 11 75 XUM

apply to claims for, and the payment of, FSB. The provisions of the applicable State law which shall apply to claims for, and the payment of, FSB include, but are not limited to:

(1) Claim filing and reporting;

(2) Information to individuals, as appropriate;

(3) Notices to individuals and employers, as appropriate, including notice to each individual of each determination and redetermination of eligibility for or entitlement to FSB;

(4) Determinations and redeterminations;

(5) Ability to work, availability for work, and search for work; and

(6) Disqualifications.

(b) *IBPP.* The Interstate Benefit Payment Plan shall apply, where appropriate, to individuals filing claims for FSB.

(c) *Wage combining.* The Interstate Arrangement for Combining Employment and Wages (20 CFR Part 616) shall apply, where appropriate, to individuals filing claims for FSB: *Provided*, That, the "Paying State" shall be the applicable State as prescribed in § 618.12.

(d) *Procedural requirements.* The provisions of the applicable State law which apply hereunder to claims for, and the payment of FSB shall be applied consistently with the requirements of Title III of the Social Security Act and the Federal Unemployment Tax Act which are pertinent in the case of regular and extended compensation, including but not limited to those standards and requirements specifically referred to in the provisions of this Part.

§ 618.12 The applicable State for an individual.

(a) *Applicable State.* The applicable State for an individual is the State with respect to which the individual is an "exhaustee" as defined in § 618.5 (a) and (b).

(b) *Limitation.* FSB is payable to an individual only by an applicable State as determined pursuant to paragraph (a) of this section.

§ 618.13 Restrictions on entitlement.

(a) *Hawaiian law or RRUI.* (1) An individual who is entitled with respect to a week to both FSB and unemployment compensation under the Hawaii Agricultural Unemployment Compensation Law, shall be entitled to a payment of FSB in the amount, if any, by which the FSB amount exceeds the amount to which the individual is entitled under the Hawaii Agricultural Unemployment Compensation Law.

(2) An individual who is entitled with respect to a week to unemployment compensation under the Railroad Unemployment Insurance Act shall not be entitled to a payment of FSB with respect to that week.

(b) *Virgin Islands or Canadian law.* An individual who receives compensation with respect to a week of unemployment under the unemployment compensation law of the Virgin Islands or Canada shall not be entitled to a payment of FSB with respect to that week.

(c) *MDTA allowance.* An individual who is entitled with respect to a week to both FSB and a training allowance under section 203 of the Manpower Development and Training Act of 1962, as amended (42 U.S.C. 2583), shall be treated the same as the individual would be treated if entitled to both regular compensation and such an allowance.

(d) *CETA allowance.* An individual entitled to the payment with respect to a week of unemployment of a basic weekly allowance under section 111(a) of the Comprehensive Employment and Training Act of 1973 (29 U.S.C. 821) shall not, by reason of entitlement to a payment under that Act, be ineligible for a payment of FSB to which the individual otherwise is entitled.

(e) *Trade readjustment allowance.* (1) An individual who is entitled, with respect to a week of unemployment which begins before April 3, 1975, to both FSB and a trade readjustment allowance under Chapter 3 of Title III of the Trade Expansion Act of 1962 shall be treated the same as the individual would be treated if entitled to both regular compensation and such an allowance.

(2) An individual who is entitled, with respect to a week of unemployment which begins on or after April 3, 1975, to a trade readjustment allowance under Chapter 2 of Title II of the Trade Act of 1974 (19 U.S.C. 2271–2322 and 20 CFR Part 91), shall not, by reason of entitlement to a trade readjustment allowance, be ineligible for a payment of FSB to which the individual otherwise is entitled with respect to that week.

(f) *Disaster Unemployment Assistance.* An individual who is entitled to a payment of Disaster Unemployment Assistance with respect to a week of unemployment under section 407 of the Disaster Relief Act of 1974 (42 U.S.C. 5177 and 20 CFR Part 625), shall not, by reason of entitlement to Disaster Unemployment Assistance, be ineligible for a payment of FSB to which the individual otherwise is entitled with respect to that week.

(g) *PWEDA assistance.* An individual who is entitled to a payment of _____ assistance with respect to a week of unemployment under section 903(d) of the Public Works and Economic Development Act of 1965, as amended (42 U.S.C. 3242(d)), shall not, by reason of entitlement to assistance under that Act, be ineligible for a payment of FSB to which the individual otherwise is entitled with respect to that week.

(h) *Disqualification.* If the week of unemployment for which an individual claims FSB is a week to which a disqualification for compensation applies under the applicable State law, or would apply but for the fact that the individual has no right to compensation, the individual shall not be entitled to a payment of FSB for that week.

§ 618.14 Required training for FSB claimants.

(a) *Statutory provision.* Section 102 (g) of the Act provides that FSB shall not be payable for any week to an individual who is not a participant in a training program approved by the Secretary if—

(1) The State determines that there is a need for upgrading or broadening the individual's occupational skills, and a program which is approved by the Secretary for such upgrading or broadening is available within a reasonable distance and without charge to the individual for tuition or fees; and

(2) The individual is not an applicant to participate in such a program.

(b) *Training programs.* For purposes of section 102(g) of the Act a training program is a program of instruction in vocational skills and related subjects to improve an individual's employability.

(c) *Approval of training.* For purposes of section 102(g) of the Act a training program shall be deemed approved by the Secretary if (1) such program is established pursuant to the Comprehensive Employment and Training Act of 1973, as amended (29 U.S.C. 801 *et seq.*), or (2) it is determined by the head of a State agency that such program meets each of the following criteria:

(i) The training program is reasonably calculated to improve the employability of individuals participating in such training program;

(ii) The training institution has suitable facilities, equipment, and qualified personnel; and

(iii) The training program is, with respect to an individual claiming FSB, appropriate training within the meaning of paragraph (d) of this section.

The head of a State agency shall not disapprove training which otherwise meets the criteria stated in this paragraph solely because the training institution is located outside the State or because all or some portion of the training program is conducted outside the State.

(d) *Appropriate training.* Training which is appropriate for an individual determined to be in need of training is training conducted in a training program described in paragraph (b) of this section which:

(1) Will provide the individual with additional occupational skills and knowledge, or upgrade or broaden the individual's existing skills, relevant to employment opportunities which reasonably may be expected to be or to become available in the area in which the individual resides;

(2) Is available without cost to the individual for tuition or fees; and

(3) Is conducted at a facility located within reasonable commuting distance from the individual's residence.

(e) *Determination of need for training.* The determination of whether there is a need for upgrading or broadening an individual's skills shall be made promptly following the filing of an initial claim for FSB by the individual. In making such determination a State agency shall consider whether the individual's prospects for obtaining suitable employment will be improved, with respect to employment opportunities which are or reasonably may be expected soon to become available in the area in which the individual resides, if the individual is provided with additional occupational skills or knowledge or if the individual's existing skills are upgraded or broadened. The State agency also shall consider the following factors:

(1) The length of the individual's unemployment;

(2) The length of the individual's immediate past employment in a regular occupation;

(3) The individual's skill level;

(4) The individual's attachment to an employer or industry;

(5) The anticipated duration of the individual's unemployment;

(6) The individual's education and prior training; and

(7) Special skills possessed by the individual.

(f) *Application for training.* An individual determined to be in need of training under paragraph (e) of this section shall file with the State agency of the State in which the individual is filing claims for FSB an application for participation in a training program approved pursuant to paragraph (c) of this section.

(g) *Participation in training.* (1) An individual determined to be in need of training under paragraph (e) of this section shall enroll in and participate in a training program which has been approved under paragraph (c) of this section, if such program is available, as soon as reasonably practicable.

(2) Participation in a training program requires that the individual be in full attendance in the training program except for excused absences for good cause, and that the individual make satisfactory progress throughout the training program.

(h) *Disqualification.* (1) An individual shall be disqualified to receive payments of FSB commencing with the week in which the individual:

(i) Fails or refuses without good cause to file an application for training pursuant to paragraph (f) of this section, or to accept a suitable training opportunity, or refuses to apply for training to which he is referred by the Employment Service, or

(ii) Fails or refuses without good cause to report for or to participate in a training program pursuant to paragraph (g) of this section after having been accepted by a training institution, as manifested by failure or refusal to attend the training program, absenteeism without good cause which jeopardizes the individual's ability to succesfully complete the training program, failure without good cause to make satisfactory progress during any portion of the training program, discontinuance of training before completion, or any other action or omission found inconsistent with diligent participation in the training program.

(2) A disqualification imposed under paragraph (h)(1) of this section shall end with the week in which the individual:

(i) If disqualified under paragraph (h)(1)(i) of this section, commences participation in a training program approved under paragraph (c) of this section; or

(ii) If disqualified under paragraph (h)(1)(ii) of this section, commences or resumes participation in the training program under conditions affording a reasonable prospect of successfully completing the training program, or applies for and commences participation in a different or subsequent training program which has been approved under paragraph (c) of this section; or

(iii) Obtains employment reasonably expected to be of indefinite duration.

(i) *Determinations.* Determinations under paragraphs (b), (c), (d), (e), and (h) of this section shall be made by the State agency of the applicable State for the individual.

(j) *Procedural requirements.* (1) The provisions of paragraphs (c), (d), and (f) of § 618.9 shall apply to determinations and redeterminations made pursuant to this section.

(2) The provisions of § 618.10 shall apply to appeals and hearings with respect to determinations and redeterminations made purusant to this section.

(k) *Construction.* The provisions of paragraphs (a) through (h) of this section shall be interpreted and applied consistently with General Administration Letter No. 9–75 (U.S. Department of Labor, Manpower Administration, October 19, 1975) (40 FR 49541).

§ 618.15 Overpayments; penalties for fraud.

(a) *Finding and repayment.* If the State agency of the applicable State or a court of competent jurisdiction finds, after a determination and opportunity for a fair hearing thereon, that an individual has received a payment of FSB to which the individual was not entitled under the Act and this Part, whether or not the payment was due to the individual's fault or misrepresentation, the individual shall be liable to repay to the applicable State the total sum of the payment to which the individual was not entitled, and the State agency shall take all reasonable measures authorized under any State law or Federal law to recover for the account of the United States the total sum of the payment to which the individual was not entitled.

(b) *Recovery by offset.* (1) The State agency shall recover, insofar as is possible, the amount of any overpayment which is not repaid by the individual, by deductions from any FSB payable to the individual under the Act and this Part, or from any compensation payable to the individual under any Federal unemployment compensation law administered by the State agency, or from any assistance or allowance payable to the individual with respect to unemployment under any other Federal law administered by the State agency, subject to the limitations in § 619.13(a)(3)(ii) of this chapter in regard to recovery from any Special Unemployment Assistance payable to the individual.

(2) A State agency shall also recover, insofar as is possible, the amount of any overpayment of FSB made to an individual by another State, by deductions from any FSB payable by the State agency to the individual under the Act and this Part, or from any compensation payable to the individual under any Federal unemployment compensation law administered by the State agency, or from any assistance or allowance payable to the individual with respect to unemployment under any other Federal law administered by the State agency, subject to the limitations in § 619.13(a)(3)(ii) of this chapter in regard to recovery from any Special Unemployment Assistance payable to the individual.

(c) *UCFE and UCX claimants.* In addition, the provisions of 5 U.S.C. 8507 shall be applicable in the event of fraudulent overpayments of FSB to former Federal employees and ex-servicemen and ex-servicewomen.

(d) *Debts due the United States.* FSB payable to an individual shall be applied by the State agency for the recovery by offset of any debt due to the United States from the individual, but shall not be applied or used by the State agency in any manner for the payment of any debt of the individual to any State or any other entity or person.

(e) *Recovered overpayments.* Overpayments recovered in any manner shall be credited or returned, as the case may be, to the appropriate account of the United States.

(f) *Application of State law.* Any provision of the applicable State law providing for waiver of recovery of overpayments of compensation shall not be applicable to FSB. However, provisions of the applicable State law relating to disqualification for fraudulently claiming or receiving a payment of compensation shall apply to claims for and payments of FSB.

(g) *Final decision.* Recovery of any overpayment of FSB shall not be enforced by a State agency until the determination establishing the overpayment has become final or the decision after opportunity for a fair hearing has become final.

(h) *Procedural requirements.*

(1) The provisions of paragraphs (c), (d), and (f) of § 618.9 shall apply to determinations and redeterminations made pursuant to this section.

(2) The provisions of § 618.10 shall apply to appeals and hearings with respect to determinations and redeterminations made pursuant to this section.

(i) *Fraud detection and prevention.* Provisions in the procedures of each State with respect to detection and prevention of fraudulent overpayments of FSB shall be, as a minimum, commensurate with the procedures adopted by the State with respect to regular compensation which are consistent with the Secretary's "Standard for Fraud and Overpayment Detection" (*Employment Security Manual*, Part V, sections 7510 et seq.).

§ 618.16 Inviolate rights to FSB.

(a) *Waiver of rights void.* Any agreement by an individual purporting to waive, release, or commute any right of the individual to FSB shall be void.

(b) *Assignment of rights void.* Any purported assignment, pledge, or en-

and this Part, or from any compensation payable to the individual under any Federal unemployment compensation law administered by the State agency, or from any assistance or allowance payable to the individual with respect to unemployment under any other Federal law administered by the State agency, subject to the limitations in § 619.13(a)(3)(ii) of this chapter in regard to recovery from any Special Unemployment Assistance payable to the individual.

(c) *UCFE and UCX claimants.* In addition, the provisions of 5 U.S.C. 8507 shall be applicable in the event of fraudulent overpayments of FSB to former Federal employees and ex-servicemen and ex-servicewomen.

(d) *Debts due the United States.* FSB payable to an individual shall be applied by the State agency for the recovery by offset of any debt due to the United States from the individual, but shall not be applied or used by the State agency in any manner for the payment of any debt of the individual to any State or any other entity or person.

(e) *Recovered overpayments.* Overpayments recovered in any manner shall be credited or returned, as the case may be, to the appropriate account of the United States.

(f) *Application of State law.* Any provision of the applicable State law providing for waiver of recovery of overpayments of compensation shall not be applicable to FSB. However, provisions of the applicable State law relating to disqualification for fraudulently claiming or receiving a payment of compensation shall apply to claims for and payments of FSB.

(g) *Final decision.* Recovery of any overpayment of FSB shall not be enforced by a State agency until the determination establishing the overpayment has become final or the decision after opportunity for a fair hearing has become final.

(h) *Procedural requirements.*

(1) The provisions of paragraphs (c), (d), and (f) of § 618.9 shall apply to determinations and redeterminations made pursuant to this section.

(2) The provisions of § 618.10 shall apply to appeals and hearings with respect to determinations and redeterminations made pursuant to this section.

(i) *Fraud detection and prevention.* Provisions in the procedures of each State with respect to detection and prevention of fraudulent overpayments of FSB shall be, as a minimum, commensurate with the procedures adopted by the State with respect to regular compensation which are consistent with the Secretary's "Standard for Fraud and Overpayment Detection" (*Employment Security Manual*, Part V, sections 7510 et seq.).

§ 618.16 Inviolate rights to FSB.

(a) *Waiver of rights void.* Any agreement by an individual purporting to waive, release, or commute any right of the individual to FSB shall be void.

(b) *Assignment of rights void.* Any purported assignment, pledge, or en-

V 40239 DEC 11 75 XUM

cumbrance of any right of an individual to FSB shall be void.

(c) *Legal process prohibited.* Except as provided in § 618.15 or by applicable statute of the United States or regulation of the U.S. Department of Labor, any right of an individual to FSB shall be exempt from levy, execution, attachment, garnishment, order for the payment of attorney fees, or any other remedy whatsoever provided for the collection of debt, and such remedies shall be precluded absolutely. This prohibition shall apply to sums payable to an individual and to sums paid to the individual.

(d) *Discrimination prohibited.* No person shall discriminate against any individual in regard to hiring or tenure of work or any term or condition of employment on account of seeking, claiming, or receiving any right to FSB.

(e) *Obstruction prohibited.* No person shall in any manner obstruct or impede, or attempt to obstruct or impede, any individual in seeking, claiming, or receiving any right to FSB.

§ 618.17 Record keeping; disclosure of information.

(a) *Record keeping.* Each State agency will make and maintain records pertaining to the administration of the Act as the Secretary requires, and will make all such records available for inspection, examination, and audit by such Federal officials or employees as the Secretary may designate or as may be required by law.

(b) *Disclosure of Information.* Information in records made and maintained by a State agency in administering the Act shall be kept confidential, and information in such records may be disclosed only in the same manner and to the same extent as information with respect to regular compensation and the entitlement of individuals thereto may be disclosed under the applicable State law. This provision on the confidentiality of information obtained in the administration of the Act shall not apply, however, to the U.S. Department of Labor, or in the case of information, reports and studies requested pursuant to § 618.24, or where the result would be inconsistent with the Freedom of Information Act (5 U.S.C. 552), the Privacy Act of 1974 (5 U.S.C. 552a) or regulations of the U.S. Department of Labor promulgated thereunder.

§ 618.18 Federal Supplemental Benefit Period.

(a) *Beginning date.* A Federal Supplemental Benefit Period shall begin in a State on the first day of the third calendar week following the week for which there is a Federal Supplemental Benefit "on" indicator in the State, but in no event shall a Federal Supplemental Benefit Period commence with a week beginning before January 5, 1975.

(b) *Ending date.* Except as provided in paragraphs (c) and (d) of this section, a Federal Supplemental Benefit Period in a State shall end on the last day of the third calendar week after the first week for which there is a Federal Supplemental Benefit "off" indicator in that State.

(c) *Duration.* A Federal Supplemental Benefit Period which becomes effective in any State shall continue for not less than 26 consecutive weeks, but in no event shall FSB be paid for any week which is not within the effective period of the Federal Supplemental Benefit Program as specified in § 618.3.

(d) *Federal Supplemental Benefit Periods beginning before 1976.* No Federal Supplemental Benefit Period which began in any State prior to January 1, 1976, shall end prior to that date, notwithstanding any other provision of this Part.

(e) *Final termination of Federal Supplemental Benefit Periods.* No Federal Supplemental Benefit Period shall continue in effect in any State beyond the last week of unemployment for any individual that ends on or before March 31, 1977, notwithstanding any other provision of this Part. Any Federal Supplemental Benefit Period which is in effect in any State in the last week of unemployment for any individual that ends on or before March 31, 1977, shall terminate at the end of that week.

(f) *Additional eligibility periods for individuals.* (1) There shall be an additional eligibility period (as defined in § 618.2(1)(2)) for any individual who qualifies, following the week in which a Federal Supplemental Benefit Period ends in a State.

(2) No additional eligibility period shall begin or continue in effect for any individual in any State with respect to any week of unemployment that ends after March 31, 1977, notwithstanding any other provision of this Part. Any additional eligibility period which is in effect for any individual in any State in the last week of unemployment that ends on or before March 31, 1977, shall terminate at the end of that week.

§ 618.19 Determination of "on" and "off" indicators.

(a) *"On" indicator.* There is a Federal Supplemental Benefit "on" indicator in a State for a week if the Secretary determines with respect to that State that: (1) There is a State or National "on" indicator for the week as determined under subsection (d) or (e) of section 203 of the Federal-State Extended Unemployment Compensation Act of 1970, as amended; and

(2) In the case of a week applicable to the beginning of a Federal Supplemental Benefit Period as of any week which begins on or after January 1, 1976, the rate of insured unemployment in the State for the period consisting of such week and the immediately preceding twelve weeks equaled or exceeded 5 per centum, as determined by the State agency of the State in accordance with the Act and this Part.

(b) *"Off" indicator.* With respect to the ending of a Federal Supplemental Benefit Period as of the end of any week which begins on or after January 1, 1976, there is a Federal Supplemental Benefit "off" indicator in a State for a week if the Secretary determines with respect to that State that the rate of insured unemployment in the State (as determined by the State agency of the State in accordance with the Act and this Part) for the period consisting of such week and the immediately preceding twelve weeks is less than 5 per centum.

(c) *Computation of rate of insured unemployment.* The rate of insured unemployment, for the purposes of "on" and "off" indicators and 5-per centum and 6-per centum periods, shall be computed in accordance with § 615.14 of this chapter.

§ 618.20 Per centum periods in Federal Supplemental Benefit Periods and additional eligibility periods.

(a) *Per centum periods.* (1) Commencing with weeks beginning on and after January 4, 1976, a Federal Supplemental Benefit Period in a State shall consist of either a "5-per centum period" or a "6-per centum period" or of 5-per centum and 6-per centum periods in alternating order.

(2) The provisions of this section which apply to the beginning, ending, and continuation of per centum periods in a Federal Supplemental Benefit Period, shall apply to the additional eligibility periods of individuals which immediately succeed a Federal Supplemental Benefit Period, as if the additional eligibility periods were within the Federal Supplemental Benefit Period, except that no per centum period applicable to an additional eligibility period shall remain in effect beyond the end of the additional eligibility period.

(b) *5-per centum period.* (1) A 5-per centum period shall begin in a Federal Supplemental Benefit Period in a State on the first day of the third calendar week immediately following a period of thirteen consecutive calendar weeks, during which the rate of insured unemployment in the State averaged less than 6 per centum.

(2) A 5-per centum period shall not begin prior to (i) January 4, 1976, or (ii) the first day of the fourteenth consecutive calendar week after the last week in a preceding 5-per centum period in the same Federal Supplemental Benefit Period.

(3) A 5-per centum period shall end on the last day of the second calendar week immediately following a period of thirteen consecutive calendar weeks, during which the rate of insured unemployment in the State averaged not less than 6-per centum: *Provided*, That, a 5-per centum period which begins in a Federal Supplemental Benefit Period shall remain in effect until a 6-per centum period begins in the same Federal Supplement Benefit Period; and, in the absence of a subsequent 6-per centum period in the same Federal Supplemental Benefit Period, the 5-per centum period shall remain in effect until the end of the Federal Supplemental Benefit Period even though a decrease in the rate of insured unemployment might otherwise trigger an earlier end to the 5-per centum period.

(c) *6-per centum period.* (1) A 6-per centum period shall begin in a Federal Supplemental Benefit Period in a State on the first day of the third calendar week immediately following a period of thirteen consecutive calendar weeks, during which the rate of insured unemployment in the State averaged not less than 6 per centum.

(2) A 6-per centum period shall not begin prior to January 4, 1976.

(3) A 6-per centum period shall end on the last day of the second calendar week immediately following a period of thirteen consecutive calendar weeks, during which the rate of insured unemployment in the State averaged less than 6 per centum: *Provided*, That, a 6-per centum period which begins immediately following a 5-per centum period in the same Federal Supplemental Benefit Period shall continue in effect for not less than thirteen consecutive calendar weeks, even though a decrease in the rate of insured unemployment might otherwise trigger an earlier end to the 6-per centum period, but a 6-per centum period shall not remain in effect beyond the end of the Federal Supplemental Benefit Period.

(d) *Determinations of per centum periods.* Determinations of the beginning and ending of 5-per centum and 6-per centum periods in a State shall be made by the head of the State agency in accordance with this Part.

§ 618.21 Announcement of the beginning and ending of Federal Supplemental Benefit Periods and per centum periods.

(a) *Publication in* FEDERAL REGISTER. (1) Whenever the Secretary determines that there is an "on" indicator in any State, the Secretary shall cause to be published in the FEDERAL REGISTER notice of the determination, and shall include in such notice the week for which there was an "on" indicator, the week when a Federal Supplemental Benefit Period will commence and information regarding the scope of the Federal Supplemental Benefit Program.

(2) Whenever the Secretary determines that there is an "off" indicator in any State, the Secretary shall cause to be published in the FEDERAL REGISTER notice of the determination, and shall include in such notice the week for which there was an "off" indicator, and the week when the Federal Supplemental Benefit Period will end.

(b) *Notifications.* The Secretary shall also cause to be notified the appropriate news media, the head of the State agency concerned, and the Assistant Regional Directors for Employment and Training, of the determination of an "on" or "off" indicator and of its effect.

(c) *Publicity in State.* Whenever the head of a State agency is notified of the Secretary's determination that a Federal Supplemental Benefit "on" or "off" indicator will begin or end a Federal Supplemental Benefit Period in the State, the head of the State agency shall promptly announce the Secretary's determination and the beginning or ending date of the Federal Supplemental Benefit Period through appropriate news media in the State. In the case of a Federal Supplemental Benefit Period that is about to begin, the announcement shall also describe clearly the unemployed individuals who may be eligible for FSB during the period; and in the case of a Federal Supplemental Benefit Period that is about to end, the announcement shall also describe clearly the individuals whose entitlement to FSB will be terminated, and the individuals whose entitlement to FSB will continue during their additional eligibility periods.

(d) *Notices to claimants.* (1) Whenever there has been a determination that a Federal Supplemental Benefit Period will begin in a State, the State agency shall provide prompt written notice of potential entitlement to FSB to each individual who is an exhaustee as prescribed in § 618.5.

(2) The State agency shall provide the same notice promptly to each individual who becomes an exhaustee, as prescribed in § 618.5, during a Federal Supplemental Benefit Period.

(3) Whenever there has been a determination that a Federal Supplemental Benefit Period will end in a State, the State agency shall provide written notice to each individual who is currently filing claims for FSB for the forthcoming end of the Federal Supplemental Benefit Period and its effect on the individual's entitlement to FSB. Notices to individuals who will have an additional eligibility period following the Federal Supplemental Benefit Period shall include notice of their potential entitlement to FSB during the additional eligibility period.

(e) *Publicity and notices of per centum periods.* (1) Whenever a State agency determines, pursuant to § 618.20, that a 6-per centum period will begin or end in the State, the head of the State agency shall promptly announce that determination through appropriate news media in the State and shall promptly notify the Secretary of such determination. Such announcement shall also describe clearly the effect on the entitlement of individuals to FSB during the ensuing 6-per centum or 5-per centum period.

(2) Whenever there has been a determination that a 6-per centum period will begin or end in a State, the State agency shall provide prompt written notice to each individual for whom there has been established a Federal Supplemental Benefit Account in that State of the beginning or ending of such period and its effect on the individual's entitlement to FSB.

§ 618.22 Payments to States.

(a) *Federal Supplemental Benefits.* The Secretary shall from time to time certify to the Secretary of the Treasury for payment to each State which has entered into an Agreement, either in advance or by way of reimbursement as the Secretary decides in each instance, such amounts as are deemed necessary by the Secretary to make payments of FSB in accordance with the Act and this regulation and the procedures thereunder prescribed by the Secretary; except that the amounts certified shall not include sums for which the State is entitled to reimbursement under the provisions of any Federal law other than the Act. The Secretary of the Treasury, prior to audit or settlement by the General Accounting Office, shall make payments to the State in accordance with the certifications, by transfers from the extended unemployment compensation account in the Unemployment Trust Fund to the account of the State in the Fund.

(b) *Costs of administration.* With the amount certified by the Secretary for payment to each State, pursuant to title III of the Social Security Act, for the purpose of assisting the State in the administration of the State law, there shall be included such amount as the Secretary determines to be necessary for the proper and efficient administration of the Act by the State. Sections 303(a)(8) and 303(a)(9) of the Social Security Act (42 U.S.C. 503(a)(8), 503(a)(9)) shall apply to amounts paid to a State for costs of administration of the Act.

§ 618.23 Public access to Agreements.

The State agency will make available to any individual or organization a true copy of the Agreement with that agency for inspection and copying. Copies of an Agreement may be furnished on request to any individual or organization upon payment of the same charges, if any, as apply to the furnishing of copies of other records of the State agency.

§ 618.24 Information, reports and studies.

State agencies shall furnish to the Secretary such information and reports and make such studies as the Secretary decides are necessary or appropriate for carrying out the purposes of the Act.

THIS HANDY REFERENCE IS A "MUST" ON YOUR BOOKSHELF!

1975/1976 EDITION

Whatever happened to the Director of Liquidation? (page 693)

Which agencies have programs concerning American Indians? (page 817)

What is SPARS? (page 762)

The answers to these and many more intriguing questions concerning the Federal Government can be found in the *U.S. Government Manual.*

This official guidebook provides useful information about a wide variety of programs and activities within the three branches of Government, including:

- Agency programs, functions, key officials, and a "Sources of Information" section
- Federal regional government system
- A historical reference to Federal agencies and functions
- Bicentennial activities and programs

This handbook is an excellent reference tool for teachers, students, librarians, businessmen, lawyers, and citizens interested in current information about the U.S. Government.

For information on obtaining extra copies, please call 202–523–5240. To obtain advance information from recorded highlights of selected documents to appear in the next issue, dial 202–523–5022.

federal register

Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

Title 3—The President

Executive Order 11890 • December 10, 1975

Amending Executive Order No. 10422,[1] as Amended, Prescribing Procedures for Making Available to the Secretary General of the United Nations Certain Information Concerning United States Citizens Employed or Being Considered for Employment on the Secretariat of the United Nations

By virtue of the authority vested in me by the Constitution, statutes, and treaties of the United States, including the Charter of the United Nations, and as President of the United States, it is hereby ordered as follows:

SECTION 1. Paragraphs 1, 2 and 3 of Part I of Executive Order No. 10422 of January 9, 1953, as amended, are hereby amended to read as follows:

"1. Whenever the Secretary of State receives, from the Secretary General of the United Nations, the name of and other necessary identifying data concerning each United States citizen employed or being considered for employment by the United Nations, the Secretary of State shall, consistent with the Privacy Act of 1974 (5 U.S.C. 552a) and other applicable law, cause an investigation to be conducted as provided in paragraph 2 of this Part, or forward the information received from the Secretary General to the Civil Service Commission, which shall conduct an investigation, consistent with the Privacy Act of 1974 (5 U.S.C. 552a) and other applicable law, as provided in paragraphs 3 and 4 of this Part.

"2. With respect to all applicants for short term appointments which will not exceed six months and which are not appointments to United Nations Secretariat professional posts or posts subject to geographical distribution, the Secretary of State shall cause an investigation to be conducted, which investigation shall be limited to a search of the files of the Department of State. If the investigation reveals any derogatory information within the meaning of the standard set forth in Part II of this order, the information received from the Secretary General of the United Nations shall be forwarded to the United States Civil Service Commission, which shall conduct an investigation.

"3(a) Whenever the Civil Service Commission receives the information forwarded by the Secretary General to the Secretary of State, the Civil Service Commission shall conduct a National Agency Check. Each

[1] 18 FR 239; 3 CFR, 1949–1953 Comp., p. 921.

V40 240 DEC 12 75 XUM

National Agency Check shall include reference to the following: (1) Federal Bureau of Investigation files; (2) Civil Service Commission files; (3) Military Intelligence files as appropriate; and (4) files of any other appropriate Government investigative or intelligence agency.

(b) If the investigation conducted by the Civil Service Commission reveals that a favorable National Agency Check was previously completed, and the investigation conducted by the Civil Service Commission has not disclosed any derogatory information within the meaning of the standard set forth in Part II of this order, completion of a new National Agency Check is not required if: (1) the applicant is or was previously employed by the same or another international organization without an immediately prior break in such service exceeding one year; (2) the applicant is or was a United States Government civilian or military employee, or a United States Government contract employee, without an immediately prior break in such employment exceeding one year; or (3) the applicant is transferred or detailed from an agency of the United States Government pursuant to the provisions of sections 3343, 3581, 3582, 3583, or 3584 of Title 5 of the United States Code.".

SEC. 2. Paragraph 2(f) of Part II of Executive Order No. 10422 of January 9, 1953, as amended, is hereby amended to read as follows:

"(f) Knowing membership with the specific intent of furthering the aims of, or adherence to and active participation in, any foreign or domestic organization, association, movement, group or combination of persons, which unlawfully advocates or practices the commission of acts of force or violence to prevent others from exercising their rights under the Constitution or laws of the United States, or of any State, or which seeks to overthrow the Government of the United States or any State or subdivision thereof by unlawful means.".

Gerald R. Ford

THE WHITE HOUSE,

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Lemon Reg. 17]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

This regulation fixes the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period Dec. 14–20, 1975. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 910. The quantity of lemons so fixed was arrived at after consideration of the total available supply of lemons, the quantity of lemons currently available for market, the fresh market demand for lemons, lemon prices, and the relationship of season average returns to the parity price for lemons.

§ 910.317 Lemon Regulation 17.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the quantity of lemons that may be marketed during the ensuing week stems from the production and marketing situation confronting the lemon industry.

(i) The committee has submitted its recommendation with respect to the quantity of lemons it deems advisable to be handled during the ensuing week. Such recommendation resulted from consideration of the factors enumerated in the order. The committee further reports the demand for lemons is only fair this week with an easing trend on all sizes and grades. Average f.o.b. price was $7.98 per carton the week ended December 6, 1975, compared to $9.03 per carton the previous week. Track and rolling supplies at 170 cars were up 35 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantity of lemons which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this seciton will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on December 9, 1975.

(b) *Order.* (1) The quantity of lemons grown in California and Arizona which may be handled during the period December 14, 1975, through December 20, 1975, is hereby fixed at 175,000 cartons.

(2) As used in this section, "handled", and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: December 11, 1975.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.75-33775 Filed 12-11-75;11:22 am]

CHAPTER XIV—COMMODITY CREDIT CORPORATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

PART 1464—TOBACCO

Subpart A—Tobacco Loan Program

1975—CROP—CIGAR TOBACCO, LOAN RATE SCHEDULES

On October 30, 1975, there was published in the FEDERAL REGISTER (40 FR 50543) a notice of proposed rulemaking setting forth the proposed price support grade loan rate schedules for 1975-crop

V40240 DEC 12 75 XUM

cigar tobacco. Interested parties were given the opportunity to submit, not later than December 1, 1975, data, views and recommendations pertaining to the grade loan rates.

No unfavorable comments have been received. The revision of 7 CFR 1464.22–27 containing the proposed loan rates are adopted without change as set forth below. The material previously appearing under the section numbers shown below remains applicable to the crop to which each refers.

(Secs. 4 and 5, 62 Stat. 1070, as amended (15 U.S.C. 714b, 714c); secs. 101, 106, 401, 403, 63 Stat. 1051, as amended, 1054, 74 Stat. 8 (7 U.S.C. 1441, 1445, 1421, 1423))

Effective date: December 12, 1975.

Signed at Washington, D.C. on December 8, 1975.

KENNETH E. FRICK,
Executive Vice President,
Commodity Credit Corporation.

§ 1464.22 1975 Crop—Ohio Filler Tobacco, Types 42–44, Loan Schedule.[1]

Title 12—Banks and Banking

CHAPTER III—FEDERAL DEPOSIT INSURANCE CORPORATION

SUBCHAPTER B—REGULATIONS AND STATEMENTS OF GENERAL POLICY

PART 329—INTEREST ON DEPOSITS

Individual Retirement Accounts

1. The Board of Directors of the Federal Deposit Insurance Corporation ("FDIC") and the Board of Governors of the Federal Reserve System have considered the desirability of amending the regulations of their respective agencies to better harmonize them with certain provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") (Pub. L. 93-406). The amendments relate to those provisions of ERISA dealing with Individual Retirement Accounts ("IRA's") permitted by virtue of ERISA's amendments to the Internal Revenue Code (the "Code"), principally 408 thereof.

Under section 408 of the Code, individuals who are not otherwise participating in existing pension plans may receive favored tax treatment in the form of deductions and deferred taxes when they establish IRA's until the individual establishes the plan receives a discretionary distribution at age 59½ or a mandatory distribution at age 70½. (Distributions prior to age 59½ or after age 70½ will incur substantial tax penalties.) Since time deposits of banks are a permissible investment vehicle for IRA's, it is clear that to the extent that such obligations have not matured by either the discretionary or mandatory distribution ages, the penalties for premature withdrawal in § 329.4(d) of the FDIC's regulations (12 CFR 329.4(d)) may work a hardship on the account holder.

On June 27, 1975 the FDIC requested public comment on the penalty question as well as a number of other issues related to the treatment of IRA's. (See 40 FR 28099–28100.) A similar request for public comment was made by the Board of Governors of the Federal Reserve System.

After evaluating all comments received and after consulting with the Board of Governors of the Federal Reserve System and the Federal Home Loan Bank Board, the Board of Directors of the FDIC has decided to amend its regulations respecting withdrawal of time deposits prior to maturity. The amendment will provide an exception from the withdrawal penalties in § 329.4(d) of the FDIC's regulations (12 CFR 329.4(d)) as to IRA's qualified under the Code upon an IRA holder's reaching age 59½ or thereafter, or upon his or her disability.[1]

In addition, the $1,000 minimum amount requirements for four and six-year time deposits will be removed as to qualified IRA's. It is anticipated that in most cases, IRA deposits will be in long-term four and six-year time deposits to earn the higher interest rates payable on these obligations. Removal of the minimum amount requirement will allow funds to be initially deposited in four and six-year time deposits where the contribution to the IRA is less than $1,000.

The following amendments apply to existing IRA deposits as well as to those established subsequent to the effective date thereof.

2. 12 CFR 329.4(d) is amended by adding the following sentence at the end thereof:

§ 329.4 Payment of time deposits before maturity.

* * * * *

(d) *Penalty on payment of time deposits before maturity.* * * * The prohibitions contained in this paragraph (d) shall not apply to a time deposit consisting of funds contributed to an Individual Retirement Account established pursuant to 26 U.S.C. 408 where the individual for whose benefit the account is maintained is 59½ years of age or older, or has become disabled within the meaning of 26 U.S.C. 72(m)(7).

* * * * *

3. 12 CFR 329.6(b)(2) is amended by adding a new footnote 13a[a] thereto as follows:

[1] The Code also permits distribution on the death of an IRA holder. This is covered by separate amendments to § 329.4(d) permitting withdrawal without penalty on the death of the owner of all or part of a time deposit.

§ 329.6 Maximum rates of interest payable on time and savings deposits by insured nonmember banks other than insured nonmember mutual savings banks.[12]

(b) *Deposits of less than $100,000* * * *

(2) *Deposits of $1,000 or more with maturities of four years or more.*[13a] * * *

4. 12 CFR 329.7(b)(4) is amended by adding a new footnote 14b thereto as follows:

§ 329.7 Maximum rates of interest or dividends payable on deposits by insured nonmember mutual savings banks.[14]

* * * * *

(b) *Maximum rates payable.* * * *

(4) *Time deposits of $1,000 or more with maturities of four years or more.*[14b] * * *

(Sec. 9, 64 Stat. 881, (12 U.S.C. 1819); sec. 18, 64 Stat. 891, 80 Stat. 824, (12 U.S.C. 1828 (g)))

3. Since these amendments relax restrictions imposed by prior regulations, the requirements of sections 553(b) and 553(d) of Title 5 of the United States Code and §§ 302.1, 302.2 and 302.5 of the rules and regulations of the Federal Deposit Insurance Corporation with respect to notice, public participation and deferred effective date were not followed in connection with their promulgation.

4. *Effective date.* These amendments are effective immediately.

By order of the Board of Directors, December 5, 1975.

FEDERAL DEPOSIT INSURANCE CORPORATION,
[SEAL] ALAN R. MILLER,
Executive Secretary.

CHAPTER V—FEDERAL HOME LOAN BANK BOARD

[No. 75-1098]

INSURANCE AGENCIES—USURPATION OF CORPORATE OPPORTUNITY

DECEMBER 8, 1975.

SUMMARY

The following summary of the regulatory amendments adopted by this Resolution is provided for the reader's convenience and is subject to the full description in the preamble and the provisions in said amendments as set forth below.

[12] * * *

[13a] The $1,000 minimum denomination requirement does not apply to time deposits consisting of funds contributed to an Individual Retirement Account established pursuant to 26 U.S.C. 408.

[14] * * *

[14a] * * *

[14b] The $1,000 minimum denomination requirement does not apply to time deposits consisting of funds contributed to an Individual Retirement Account established pursuant to 26 U.S.C. 408.

I. PROPOSED AMENDMENTS

A. Post-11/16/67 referrals of Federal association-related insurance business to insurance agency owned by officer, director or controlling person thereof would be deemed to be usurpation of association's corporate opportunity, unless:

1. Referral made during period after 11/6/67 reasonably necessary for investigating feasibility of association's own service corporation insurance agency,

2. With regard to pre-12/31/75 referrals, association given chance to acquire the affiliated insurance agency and disinterested majority of the association's board of directors (or majority of its members voting with new proxies, if disinterested majority is not possible) vote to reject such acquisition for sound business reasons,

3. State statute or regulation precludes Federal association service corporations from engaging in the insurance business,

4. Association's application rejected by State authorities, or

5. State authorities pursue an established and well-known policy of refusing to accept or process such applications.

B. Relief required—usurpation of corporate opportunity would entitle the association to all profits of the affiliated agency attributable to association referrals or renewals of referrals during period of usurpation.

C. Prospective prohibition—referrals to affiliated agency prohibited after 12/31/75, even if acquisition opportunity declined by board of directors or members.

D. Owner of affiliated agency would include any officer, director or controlling person of Federal association individually owning 5%, or collectively owning 10%, of the agency.

II. CHANGES REFLECTED IN FINAL AMENDMENTS

A. Earliest date for finding of usurpation changed to May 20, 1971, plus up to 18 months for determination as to feasibility of association's own insurance subsidiary and preparing and filing applications for permission to engage in insurance business; exceptions to usurpation finding, in addition to those listed in I.A., above, if:

1. Applications for permission to engage in the insurance business are on file with State agencies and/or the Board;

2. Less than 18 months have passed after change by State authorities of negative policy regarding applications, or change in State law which prohibited Federal association service corporations from engaging in insurance business; or

3. Clear showing is made of lack of economic justification.

B. Prospective prohibition changed to 1977 annual meeting.

C. Relief required—association not entitled to profits:

1. Derived from renewals of referred business made for reasons other than the original referral

2. Exceeding the profits actually accruing to the affiliated persons

V40240 DEC 12 75 XUM

3. Received by an association officer in lieu of compensation from the association

D. Definitions—1. "Owner" of affiliated agency includes an officer, director or controlling person of a Federal association owning 10 percent, and a group owning 25 percent, of the agency.

2. "Referral" excludes mere inclusion of affiliated agency name on list of approved insurance brokers or agents offered to association members

3. "Profits" means any remuneration received, or to be received, by officers, directors or controlling persons of the association, except for salaries or commissions based upon, and reasonably related to, services actually performed respecting the insurance agency.

E. Ruling restructured and clarified, and statement of policy regarding State-chartered insured institutions moved to Insurance Regulations.

The Federal Home Loan Bank Board, by Resolution No. 75-590, dated June 30, 1975, proposed to amend Part 555 of the rules and regulations for the Federal Savings and Loan System (12 CFR Part 555) by adding a new Board Ruling, set out at § 555.17, to clarify the authority of a Federal savings and loan association, acting through a service corporation, or a wholly-owned subsidiary thereof, to engage in the insurance brokerage business, the circumstances under which management of a Federal association would be deemed to have usurped a corporate opportunity by operating an insurance agency for their own benefit, and the relief required in the event of a finding of usurpation of such corporate opportunity. Notice of such proposed rulemaking was duly published in the FEDERAL REGISTER on July 8, 1975 (40 FR 28641-43), with an invitation for interested persons to submit written comments by August 18, 1975.

Comment letters received by the Board, a number of which presented cogent and persuasive reasons for modifying portions of the proposal, prompted further research by the Board's staff into the evolution of the service corporation concept, the working of the Board's application procedures, and the equities arising from long-accepted industry practices in this area. On the basis of its consideration of all relevant material, therefore, the Board hereby adopts a new § 555.17 as proposed, with modifications and conforming amendments as described herein.

Under the proposed Ruling, the Board selected November 19, 1967, the date of its issuance of a Statement of Policy allowing for the first time a Federal association to apply to the Board for a service corporation insurance agency, as the earliest date that usurpation of this corporate opportunity could arise. Upon reconsideration, the Board believes that November 19, 1967 should not be used as the triggering date for corporate opportunity, for a number of reasons. Most importantly, as of November, 1967, and continuing for a substantial period thereafter, there was widespread uncertainty within the savings and loan industry as to the types of business which were appropriate and permissible activities for wholly owned service corporations. Further, the service corporation concept then was still understood by most of the industry to be centered on a type of entity shared by a number of associations, not a wholly-owned company which could be formed to operate or acquire an insurance agency. Also, the promptness of Board processing and approval of applications for insurance company service corporations, encompassing as it did new and difficult questions such as valuation of affiliated agencies, differed widely for given applications. After consideration of the small number of such applications which were received, the unresolved issues arising out of the processing procedure, and the length of time required to process such applications in some cases, the Board believes that May 20, 1971, the date when insurance brokerage was added to the list of pre-approved activities for wholly-owned service corporations, is the fair and appropriate date to be used as the earliest time when usurpation of corporate opportunity of Federal associations respecting insurance agencies may be reasonably considered to have occurred. The final Ruling therefore denotes May 20, 1971, plus up to 18 months for examining the feasibility of acquiring or establishing such an activity and preparing and filing applications with State authorities for permission to engage in the insurance business by means of a service corporation or a wholly owned subsidiary thereof (and with the Board respecting the acquisition of an insurance agency from association insiders after December 14, 1973), as the earliest time that usurpation of such opportunity may be deemed to have occurred.

The proposed Ruling described several instances where usurpation of an association's opportunity to engage in the insurance business would not be deemed to have taken place, even though an affiliated agency existed to which referrals were made: (1) If a disinterested majority of the association's board of directors (or members, if disinterested directors were not in the majority) voted for sound business reasons to reject the opportunity; (2) if a State statute or regulation precluded Federal association service corporations or subsidiaries thereof from engaging in insurance activities; (3) if the association's application had been rejected; or (4) if State authorities pursued an established and well-known policy of not accepting or processing such applications (proposed § 555.17 (h) and (i)). These exceptions are retained in the final Ruling at § 555.17(d)(2)-(5), and two others are added: no usurpation of corporate opportunity may be deemed to arise (1) while the association's service corporation application is pending before the proper authorities (§ 555.17(d)(1)(ii)) or (2) if it is clearly established that there was no economic justification for the association to engage in the insurance business (§ 555.17(d)(6)).

Under paragraph (1) of the proposed Ruling, Federal associations would have been prohibited from referring insurance business to affiliated insurance agencies after December 31, 1975, except in certain circumstances; the final amendment adopts the prospective prohibition as a new regulation, § 545.27, and changes the effective date to the association's 1977 annual meeting.

Section 555.17(f)(1) of the final Ruling retains the substance of proposed § 555.17(k), stating that usurpation of an insurance opportunity by management entitles the association to the profits attributable to association referrals (and renewals of such referrals) to the affiliated insurance agency during the period of usurpation. However, four new limitations are placed on the right to recovery under § 555.17(f) and (g)(2). Profits from renewals which can be shown to be made for a reason other than original placement, such as a previous customer relationship or more advantageous premium terms, are not reclaimable, nor are profits received by an officer of the association if it can be clearly shown that such receipts were in lieu of compensation from the association, to the extent that such compensation is reasonable. Section 555.17(g)(2) defines "referral" to exclude mere inclusion of the affiliated agency's name on a list of approved insurers provided to association customers as a convenience, so that recovery would be denied in the case of profits from association business orgiginating in that manner. Finally, recovery is limited to profits from association referrals received by affiliated persons, e.g., based on their pro rata ownership of the affiliated insurance agency during the period of usurpation. "Profits" is defined to mean dividends, commissions or comparable forms of remuneration received, or to be received, by officers, directors or controlling persons of the association, but excludes salaries or commissions based upon, and reasonably related to, services actually performed respecting the insurance agency.

The final Ruling at § 555.17(g)(1) raises the level of ownership of an insurance company sufficient to constitute usurpation of the association's corporate opportunity from 5 percent to 10 percent for one person and from 10 percent to 25 percent for more than one person.

Paragraph (n) of the proposed Ruling contained a statement of the Board's position on the remedy appropriate to a finding of usurpation of corporate opportunity to engage in the insurance business by State-chartered insured institutions; the substance of this language has been transferred to a new paragraph (b) in § 571.9 of the regulations for Insurance of accounts.

Accordingly, the Board hereby amends Parts 545 and 555 of the rules and regulations of the Federal Savings and Loan System by adding new §§ 545.27 and 555.17 thereto, and Part 571 of the rules and regulations for Insurance of Accounts by adding new paragraph (b) to § 571.9 thereof, as set forth below, effective January 20, 1976.

PART 545—OPERATIONS

1. A new § 545.27 is added to Part 545, to read as follows:

§ 545.27 Referral of insurance business.

(a) After its 1977 annual meeting, no Federal association shall refer any insurance business to any insurance agency owned by officers or directors of said association, or by persons having the power to direct its management, unless:

(1) A specific State statute or regulation precludes a service corporation of a Federal association, or a wholly-owned subsidiary of the service corporation, from engaging in the insurance business;

(2) The Federal association, after filing any necessary applications and making a bona fide attempt to obtain any necessary approvals (with or without instituting legal proceedings against State officials to compel such approvals) has been denied permission by the appropriate State licensing or regulatory authorities for its service corporation, or a wholly-owned subsidiary thereof, to engage in the insurance business;

(3) The State licensing or regulatory authorities whose approval is required to engage in the insurance business follow an established and well-known policy of refusing to accept or approve applications from Federal association service corporations, or wholly-owned subsidiaries thereof, for permission to engage in the insurance business (an association need not demonstrate existence of such a policy by instituting legal proceedings against such authorities to compel such approval);

(4) Such referral takes place within a period of time, not in excess of 18 months after the change in State law, regulation or policy referred to in paragraphs (a)(1) and (3) of this section, for the association to have investigated the feasibility and desirability of acquiring or establishing its own service corporation insurance business; or

(5) An application for permission to establish or acquire a service corporation insurance business is on file with the appropriate State agencies and/or the Board.

(b) For purposes of this section, the term "owned" is defined as set forth at § 555.17(g)(1) of this subchapter, and the term "referral" is defined as set forth in § 555.17(g)(2) of this subchapter.

PART 555—BOARD RULINGS

2. A new § 555.17 is added to Part 555, to read as follows:

§ 555.17 Insurance Agencies—Usurpation of Corporate Opportunity.

(a) *History of authority to engage in insurance business.* (1) The Home Owners' Loan Act of 1933 (HOLA) does not authorize a Federal savings and loan association to directly operate an insurance business.

(2) On September 2, 1964, Congress amended section 5(c) of HOLA to permit Federal associations to invest in service corporations. This amendment was intended to enable Federal associations to invest in business entities to "• • • supplement and facilitate the services of the savings and loan associations" (remarks of Congressman Widnall on August 13, 1964, at Cong. Rec. 19332-33). The scope of such services was not delineated.

(3) In order to implement the new statutory service corporation authority, the Board, on September 8, 1965, added a new § 545.9-1 to the rules and regulations for the Federal Savings and Loan System, which provided for investment in "general service corporations". Under paragraph (a) of § 545.9-1, Board approval was not required for such investment if substantially all of the business of the corporation was limited to certain preapproved activities. Under § 545.9-1(b), associations desiring to invest in corporations engaging in other activities were required to apply to the Board for prior approval of the specific activity in question. Operation of an insurance business was not listed as a pre-approved activity under paragraph (a), and the Board gave no indication at that time that the conduct of such a business might be favorably considered as a permissible activity under paragraph (b).

(4) On November 8, 1967, the Board indicated that a service corporation might engage in insurance activities by adopting a Statement of Policy (then codified as § 556.3 of the Federal regulations) which provided that—

• • • In addition to those activities which a Federal association is authorized to perform, the Board will consider for approval applications in which the service corporation, or a subsidiary, has authority to act as an insurance agent • • • primarily for the benefit of the service corporation members. • • •

During 1968 and 1969, the Board received from Federal associations a small number of applications seeking Board permission to acquire or establish insurance agencies by means of service corporations.

(5) On June 25, 1970, the Board rescinded its November 8, 1967 Statement of Policy and incorporated its substance into an amended version of § 545.9-1. While the operation of an insurance business was not added to the expanded list therein of pre-approved service corporation activities, operation of such a business was mentioned as an approvable activity in amended paragraph (b) providing for investment in wholly-owned service corporations as follows:

The activities of such corporation, performed directly or through one or more wholly-owned subsidiaries, consist solely of one or more of the activities specified in subdivisions (i) through (xi) of paragraph (a)(4) of this section, and such other activities, including acting as insurance agent or broker, • • • as the Board may approve upon application therefor by such corporation or otherwise. • • •

(6) On May 20, 1971, a further amendment by the Board to § 545.9-1 added as follows certain insurance activities to the list of service corporation activities which were pre-approved by the Board for "b"-type service corporations:

• • • Serving as insurance broker or agent, primarily dealing in policies for savings and loan associations, their borrowers and accountholders, which provide protection such as homeowners', fire, theft, automobile, life, health, and accident, but excluding title insurance and private mortgage insurance.

(7) Section 545.9-1 was further amended by the Board on December 14, 1973, to require pre-approval for investment in a service corporation if the purpose of the investment was to acquire, from an officer or director of an association owning stock in the corporation, a going business for an amount exceeding the fair market value of its tangible net assets. Due to difficulties in ascertaining value, the practical effect of the 1973 amendment is to require prior Board approval of virtually all transactions whereby a director or officer of a Federal association would receive substantial consideration from a sale to his association's service corporation of any business, including an insurance agency, in which he has a beneficial interest.

(8) On February 6, 1974, the Board adopted the following Statement of Policy, which reflected a distillation and codification of the existing general law respecting corporate opportunity and application of such existing law, with regard to "Corporate Opportunity in Insured Institutions" (§ 571.9 of the Board's insurance regulations), and which was intended as a warning to insured institutions as to the applicability to them of said existing law:

Directors and officers of an insured institution, and other persons having the power to direct the management of the institution, stand in a fiduciary relationship to the institution and its accountholders or shareholders. Out of this relationship arises, among other things, the duty of protecting the interests of the institutions. It is a breach of this duty for such a person to take advantage of a business opportunity for his own or another person's personal profit or benefit when the opportunity is within the corporate powers of the institution or a service corporation of the institution and when the opportunity is of present or potential practical advantage to the institution. If such a person so appropriates such an opportunity, the institution or service corporation may claim the benefit of the transaction or business and such person exposes himself to liability in this regard. In determining whether an opportunity is of present or potential practical advantage to an institution, the • • • [Board] will consider, among other things, the financial, managerial, and technical resources of the institution and its service corporation, and the reasonable ability of the institution directly or through a service corporation to acquire such resources.

(b) *Findings.* The Board hereby finds that (1) since issuance of the Board's November 16, 1967, Statement of Policy, operation of an insurance business has been a permissible activity for a service corporation (or its wholly-owned subsidiary) of a Federal association in those States where operation of such an agency or brokerage business was lawful under State law and where approval to operate the enterprise, if required, could have been obtained from the appropriate

V 40240 DEC 12 75 XUM

State licensing and regulatory authorities, (2) prior to May 20, 1971, Federal associations could not engage in the insurance business, by means of a service corporation, or a wholly owned subsidiary thereof, without filing an application with the Board for permission to engage in such business and receiving Board approval of such applications, (3) since May 20, 1971, when the Board amended § 545.9–1 to add certain insurance activities to the list of pre-approved service corporation activities, Federal associations have been on notice that continued referral of insurance business of members of the association to an insurance agency owned by officers or directors of said association, or by other persons having the power to direct the management of the association, in lieu of such association establishing or acquiring its own insurance subsidiary by means of a service corporation, might constitute usurpation of a corporate opportunity belonging to the association, and (4) subject to the exceptions set forth in paragraph (d) of this section, the Board deems May 20, 1971, the fair and appropriate date to be used as the starting point for determining the period during which such corporate opportunity may have been usurped.

(c) *Ruling.* Subject to the exceptions in paragraph (d) of this section, as limited by paragraph (e) of this section and § 545.27 of this subchapter, referral of insurance business of an association's members to an insurance agency owned by one or more officers or directors of the association or by a person or persons having the power to direct the management of the association has constituted and continues to constitute usurpation of the association's corporate opportunity to engage in the insurance business.

(d) *Exceptions.* No corporate opportunity for a Federal association to enter the insurance business shall be deemed to exist or to have existed if:

(1) The referral described in paragraph (c) of this section took place (i) before May 20, 1971, or a reasonable period of time thereafter, not to exceed 18 months, for the association to have investigated the feasibility and desirability of establishing or acquiring its own service corporation insurance business and to have prepared and filed applications with appropriate State agencies and/or the Board for permission to establish or acquire a service corporation insurance business, or (ii) while applications for permission to engage in the insurance business were on file with the appropriate State agencies and/or the Board;

(2) A specific State statute or regulation is in operation, or for such period of time as such a statute or regulation was in operation, which precludes a service corporation of a Federal association, or a wholly-owned subsidiary of the service corporation, from engaging in the insurance business; this exception includes a reasonable period of time (not in excess of 18 months) after the change of any such statute or regulation for the association to have investigated the feasibility and desirability of acquiring or establishing its own service corporation insurance business and to have prepared and filed applications with respect thereto;

(3) The Federal association, after filing any necessary applications and making a bona fide attempt to obtain any necessary approvals (such attempt need not involve instituting legal proceedings against State officials to compel such approvals), is denied or has been denied permission by the appropriate State licensing or regulatory authorities for its service corporation, or a wholly-owned subsidiary thereof, to engage in the insurance business;

(4) The State licensing or regulatory authorities whose prior approval is required to engage in the insurance business follow or did follow an established and well-known policy of refusing to accept or process applications from Federal association service corporations, or wholly-owned subsidiaries thereof, for permission to engage in the insurance business (an association need not demonstrate existence of such a policy by instituting legal proceedings against such authorities to compel such approval); this exception includes a reasonable period of time (not in excess of 18 months) after the change of such policy and commencement of acceptance and processing of such applications for the association to have investigated the feasibility and desirability of acquiring or establishing its own service corporation insurance business and to have prepared and filed applications with respect thereto;

(5) A disinterested and independent majority of the Federal association's board of directors, after receiving a full and fair presentation of the matter, rejects or has rejected the opportunity to engage in the insurance business through aequisition or de novo, as a matter of sound business judgment, taking into consideration such factors as the financial resources of the association to establish or acquire an insurance agency, the risks involved in entering the insurance business, and the projected profitability of the insurance agency: where, because of involvement in the existing affiliated insurance agency by members of the board of directors of the Federal association, no decision by a majority of disinterested and independent directors has been possible, the matter is submitted or was submitted to the vote of the association's members at a special or annual meeting (As of January 20, 1976, no existing proxies may be used at such members' meeting and any new proxy solicitation must be accompanied by proxy solicitation material which makes full, fair, and accurate disclosure of all relevant material and information respecting the corporate opportunity to enter the insurance business); or

(6) Lack of economic justification for the association to engage in the insurance business by either acquiring an existing affiliated insurance agency, or establishing or purchasing another insurance agency, is clearly established.

(e) *Limitation to certain exceptions.* (1) Notwithstanding the provisions of paragraphs (d) (1) (ii), (2), (4), and (5) of this section, the exceptions provided thereunder do not apply to any period of time, following 18 months after May 20, 1971, during which the condition or actions delineated in said paragraphs do not exist or have not occurred or been instituted.

(2) It shall not be a defense to the charge of usurpation of corporate opportunity that the existing affiliated insurance agency which could have been acquired by the association engages in business of a nature which is impermissible as an activity of a service corporation under § 545.9–1 of this chapter. In such a case, a determination must have been made whether: (i) the portion of the business of the existing affiliated insurance agency related to referrals from members of the association could have been acquired by the association; or (ii) it was feasible and desirable for the association, by means of a service corporation, or a wholly-owned subsidiary thereof, to establish or acquire its own insurance agency.

(f) *Relief required.* (1) Usurpation of a corporate opportunity of a Federal association to engage in the insurance business by officers or directors of the association, or by other persons having the power to direct the management of the association, entities such association to the resulting profits of the affiliated insurance agency during the period of such usurpation, where such profits are attributable to (i) referrals by the association of the business of association borrowers to said agency during such period and (ii) renewals of such referrals made during such period, unless it can be shown that such renewals were made for a reason other than maintaining the original placement. The association is not entitled to the profits for referrals (or renewals thereof) made prior to the period of usurpation of corporate opportunity, or for referrals (or renewals thereof) made after such opportunity ceased to exist.

(2) Notwithstanding the rule set forth in paragraph (f) (1) of this section, an association whose corporate opportunity is deemed to have been usurped under this section shall not be entitled to recover insurance agency profits:

(i) Which exceed the profits actually accruing to the association's officers, directors, or controlling persons, (e.g., their pro rata share of such profits based on their partial ownership of the insurance agency) during the period of such usurpation; or

(ii) From a person who was an officer of the association during the period of such usurpation, if it is clearly shown that his receipt of such profits was in lieu of a portion of what otherwise would have constituted his compensation as officer: *Provided*, That profits found to exceed an amount which could reasonably be regarded to have been in lieu of compensation, based on compensation of persons in comparable positions, shall be recoverable by the association.

(g) *Definitions.* (1) The terms "owned" and "ownership" as used in this Ruling with respect to an insurance agency include, in addition to ownership by a person: (i) Ownership by such person's spouse, minor child, or other relative by blood or marriage having the same home as such person; (ii) ownership through a broker or other nominee or agent; or (iii) ownership by a company controlled by such person. However, such terms do not include ownership by one such person of less than 10 percent of the insurance agency, or ownership by more than one such person of less than 25 percent of such agency.

(2) The term "referral" as used in this Ruling means the practice of directing the business of association members to an affiliated insurance agency and does not include the practice of offering association members, without specific recommendation, a list of approved insurance agencies, including the affiliated agency, *Provided* That such list shall not be designed or given in a manner calculated to cause the members to select the affiliated agency over the other agencies included on the list.

(3) The term "profits" as used in this Ruling means any form of remuneration received, or to be received, by officers, directors or controlling persons of the association, except for salaries, fees, or commissions based upon, and reasonably related to, services actually performed respecting the insurance agency.

PART 571—STATEMENT OF POLICY

3. Section 571.9 of Part 571 is amended by redesignating the text thereof as paragraph (a) and adding a new paragraph (b) thereto, to read as follows:

§ 571.9 Corporate opportunity in insured institutions.

* * * * *

(b) The Board believes that usurpation of an insured institution's corporate opportunity to engage in the insurance business, to the extent that such a usurpation is found to exist under State law, is violative of §§ 571.7 and 571.9(a) of this subchapter, is inconsistent with sound and economical home financing, and also constitutes an unsafe and unsound practice. In such a case, the Board believes that the insured institution is entitled to profits attributable to the usurpation of the corporate opportunity as provided under paragraph (f) of § 555.17 of this chapter.

(Sec. 5, 48 Stat. 132, as amended; 12 U.S.C. 1464; Secs. 402, 403, 407, 48 Stat. 1256, 1257, 1260, as amended; 12 U.S.C. 1725, 1726, 1730; Reorg. Plan No. 3 of 1947, 12 F.R. 4981; 3 CFR, 1943–48 Comp., p. 1071, 1947 Supp.)

Dated: December 8, 1975.

By the Federal Home Loan Bank Board.

[SEAL] J. J. FINN,
Secretary.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 75–CE–32–AD, Amdt. 39–2458]

PART 39—AIRWORTHINESS DIRECTIVES

Beech Model 200 Airplanes

There have been reports of fuel transfer system malfunctions on Beech Model 200 airplanes caused by a concurrent failure in the motive flow auxiliary fuel transfer system in the "On" position and an inoperative float valve in the nacelle tank. This condition, if not corrected, could result in restricted fuel supply to the engine and eventual engine power interruption. Since this condition is likely to exist or develop in other airplanes of the same type, an Airworthiness Directive (AD) is being issued, applicable to Beech Model 200 airplanes, requiring inspection of the fuel vent float valve assembly for proper installation and operation and the correction thereof where necessary.

Since a situation exists which requires expeditious adoption of the amendment, notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than thirty (30) days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator 14 CFR 11.89 (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new AD.

BEECH. Applies to Model 200 (BB–2 through BB–71) airplanes.

Compliance: Required as indicated, unless already accomplished.

To prevent malfunction of the fuel transfer system, within the next 50 hours' time in service after the effective date of this AD, accomplish the following:

(A) Inspect the P/N 100–920067–1 fuel vent float valve for opening and operation in accordance with the criteria set forth in Beechcraft Service Instruction No. 0772–295 or later FAA-approved revision. (P/N 101–320035–1 baffle, if installed, must be removed to perform this inspection.)

(B) Replace any fuel vent float valve assembly that does not meet the criteria set forth in Beechcraft Service Instruction No. 0772–295 or later FAA-approved revision with new P/N 100–920067–1 fuel vent float valve assembly.

(C) Any equivalent method of compliance with this AD must be approved by the Chief, Engineering and Manufacturing Branch, FAA, Central Region.

This amendment becomes effective December 19, 1975.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, (49 U.S.C. 1354(a), 1421, 1423); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Kansas City, Mo., on December 5, 1975.

GEORGE R. LA CAILLE,
Acting Director,
Central Region.

[Airworthiness Docket No. 75–SW–64, Amdt. 39–2457]

PART 39—AIRWORTHINESS DIRECTIVES

Bell Models 204B, 205A–1, and 212 Helicopters

A proposal to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive imposing a periodic inspection, sealing, and refinishing of main rotor blades to prevent possible cracks due to corrosion on Bell Models 204B, 205A–1, and 212 helicopters was published in 40 FR 46320.

Interested persons have been afforded an opportunity to participate in the making of this amendment. Only one comment was received. An operator stated that stripping and painting would be difficult and unwarranted for certain operators and might result in additional damage to the blade. Bell Helicopter Company revised their service bulletins to require partial stripping and refinishing only if repair or rework is accomplished. The FAA agrees with this change to relax the initial requirements and the adopted rule requires compliance with the revised service bulletins.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

BELL. Applies to Bell Models 204B, 205A–1, and 212 helicopters certificated in all categories.

(a) Compliance required as follows:

(1) For main rotor blades having 12 or more months' installed time on a helicopter, on the effective date of this AD, conduct inspections within 90 days' time unless already accomplished.

(2) For main rotor blades having less than 12 months' installed time on a helicopter on the effective date of this AD, conduct inspections prior to attaining 15 months' installed time on a helicopter.

(3) Conduct repetitive inspections at intervals not to exceed 12 months' installed time from the last inspection.

(b) To detect possible cracks and corrosion and to prevent further corrosion in the main rotor blade inboard portion, accomplish the following:

(1) Remove the main rotor blades from the helicopter and prepare the blades for inspection as noted in Bell Helicopter Company Service Bulletin No. 205–75–5, revision A, dated October 22, 1975, or later approved revisions, Part III, paragraph A.

(2) Inspect the blades as noted in Service Bulletin No. 205–75–5, revision A, or later approved revisions, Part III, paragraph A. Blades with cracks or adhesive voids exceeding the limits specified in Service Bulletin No. 205–75–5, revision A, Part III, paragraph A, may not be returned to service.

(3) Repair discrepant blades as specified in Service Bulletin No. 205–75–5, revision A, or later approved revisions, Part III, paragraph A. Refinish discrepant blades as specified in Part III, paragraph B.

(4) Install blades on the helicopter in accordance with the applicable model maintenance and overhaul information manual and balance and track the blades.

(c) Equivalent means of compliance with paragraph (b) of this AD may be approved

V 40 240 DEC 12 75 XUM

by the Chief, Engineering and Manufacturing Branch, Flight Standards Division, Southwest Region, Federal Aviation Administration, Fort Worth, Texas. Bell Service Bulletins No. 204–75–1, revision A, dated October 22, 1975, No. 212–75–6, revision A, dated October 22, 1975, or later FAA-DER approved revisions to these bulletins are approved as equivalent means of compliance with paragraph (b).

(d) Upon request of the operator, an FAA maintenance inspector, subject to prior approval of the Chief, Engineering and Manufacturing Branch, Flight Standards Division, FAA, Southwest Region, may adjust the repetitive inspection intervals specified in this AD to permit compliance at an established inspection period of the operator if the request contains substantiating data to justify the increase for that operator.

(e) The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1). All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to Service Manager, Bell Helicopter Company, P.O. Box 482, Fort Worth, Texas 76101. These documents may also be examined at the Office of the Regional Counsel, Southwest Region, FAA, 4400 Blue Mound Road, Fort Worth, Texas, and at FAA headquarters, 800 Independence Avenue, S.W., Washington, D.C. A historical file on this AD which includes the incorporated material in full is maintained by the FAA at its headquarters in Washington, D.C., and at the Office of the Regional Counsel, Southwest Region, FAA, 4400 Blue Mound Road, Fort Worth, Texas.

This amendment becomes effective January 19, 1976.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Fort Worth, Texas, on December 3, 1975.

NOTE: The incorporation by reference provisions in this document were approved by the Director of the Federal Register on June 19, 1967.

HENRY L. NEWMAN,
Director,
Southwest Region.

[FR Doc.75–33443 Filed 12–11–75;8:45 am]

[Airworthiness Docket No. 75–SW–69; Amdt. 39–2451]

PART 39—AIRWORTHINESS DIRECTIVES

Bell Models 204B, 205A–1 and 212 Helicopters

A proposal to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive requiring compliance with Bell Helicopter Company Service Bulletin No. 204–75–2, No. 205–75–6, and No. 212–75–7 for Bell Models 204B, 205A–1, and 212, respectively, was published in 40 FR 48519. Compliance with these bulletins will improve identification of the emergency exit handle and the main sliding door handle.

Interested persons were afforded an opportunity to participate in the making of the amendment. No comments were received.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

BELL. Applies to Bell Models 204B, 205A–1, and 212 helicopters certificated in all categories.

Compliance required within 100 hours' time in service after the effective date of this AD unless already accomplished and, thereafter, at intervals not to exceed 300 hours' time in service from the last inspection.

To deter unauthorized access to the emergency exit operating handle and to improve identification of the emergency exit handle and the main sliding door handle, accomplish the following:

(a) Inspect the helicopter main passenger doors and the four emergency exits for proper and legible placards and for proper exit handle covers, both inside and outside the helicopter, in accordance with the figures in Bell Helicopter Company Service Bulletins noted in paragraph (c).

(b) If proper and legible placards and proper exit handle covers are not installed, install the placards and handle covers as specified in Bell Helicopter Company Service Bulletins noted in paragraph (c).

(c) The following Bell Helicopter Company service bulletins, or later approved revisions thereto, apply to the noted helicopter models.

(1) Bell Helicopter Company Service Bulletin No. 204–75–2 dated September 16, 1975, for Model 204B.

(2) Bell Helicopter Company Service Bulletin No. 205–75–6, Revision A, dated August 22, 1975, for Model 205A–1.

(3) Bell Helicopter Company Service Bulletin No. 212–75–7, Revision A, dated August 22, 1975, for Model 212.

(d) Equivalent means of compliance with this AD may be approved by the Chief, Engineering and Manufacturing Branch, Flight Standards Division, Federal Aviation Administration, Southwest Region, Fort Worth, Texas.

(e) Upon request of the operator, an FAA maintenance inspector, subject to prior approval of the Chief, Engineering and Manufacturing Branch, Flight Standards Division, Federal Aviation Administration, Southwest Region, may adjust the repetitive inspection intervals specified in this AD to permit compliance at an established inspection period of the operator if the request contains substantiating data to justify the increase for that operator.

(f) The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1). All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to Service Manager, Bell Helicopter Company, P.O. Box 482, Fort Worth, Texas 76101. These documents may also be examined at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, 4400 Blue Mound Road, Fort Worth, Texas, and at FAA headquarters, 800 Independence Avenue, SW., Washington, D.C. A historical file on this AD which includes the incorporated material in full is maintained by the FAA at its headquarters in Washington, D.C., and at the Office of Regional Counsel, Southwest Region, Federal Aviation Administration, 4400 Blue Mound Road, Fort Worth, Texas.

This amendment becomes effective January 19, 1976.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Fort Worth, Tex., on November 28, 1975.

NOTE: The incorporation by reference provisions in this document were approved by the Director of the Federal Register on June 19, 1967.

A. H. THURBURN,
Acting Director,
Southwest Region.

[FR Doc.75–33445 Filed 12–11–75;8:45 am]

[Airworthiness Docket No. 74–WE–45–AD; Amdt. 39–2459]

PART 39—AIRWORTHINESS DIRECTIVES

Lockheed Aircraft Service Company Model 209 Digital Flight Data Recorder

Amendment 39–2169 (40 FR 16297), AD 75–08–17, requires the installation of four identical vibration isolators under the ARINC ½ ATR rack supporting the Model 209 Digital Flight Data Recorder in accordance with Lockheed Aircraft Service Company Drawing No. 10077J 500, Revision F, dated March 14, 1975, or later FAA-approved revisions, and permits equivalent vibration isolators and/or installations if approved by the Chief, Aircraft Engineering Division, FAA Western Region. This AD applies to the Model 209 Digital Flight Data Recorder installed in all civil aircraft, certificated in all categories.

After issuing Amendment No. 39–2169, Boeing Commercial Airplane Company requested a six-month extension of the compliance time on Boeing 727 and 737 airplanes, due to unusual installation problems. The FAA has considered this request and determined that the requested extension of compliance time is warranted. Therefore, the AD is being amended to extend the compliance time for these airplanes.

Since this situation requires immediate striction and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than 30 days.

Since this situation requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good causes exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations, Amendment 39–2169 (40 FR 16297), AD 75–08–17, is amended as follows:

Compliance required on or before January 1, 1976, unless already accomplished, except for Boeing 727 and 737 airplanes for which compliance is required on or before June 30, 1976, unless already accomplished.

This amendment becomes effective December 19, 1975.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, (49 U.S.C. 1354(a), 1421, 1423)); sec. 6(c), Department of Transportation Act, (49 U.S.C. 1655(c))

Issued in Los Angeles, Calif., on December 5, 1975.

ROBERT H. STANTON,
Director,
FAA Western Region.

[Docket No. 75–EA–51, Amdt. 39–2441]

PART 39—AIRWORTHINESS DIRECTIVES

Martin Aircraft

On page 41143 of the FEDERAL REGISTER for September 5, 1975, the Federal Aviation Administration published a proposed amendment applicable to Martin 404 type aircraft.

Interested parties were given 30 days after publication in which to submit written data or views. No objections to the proposed regulations have been received. The body of the amendment has been editorially changed by renumbering and indenting paragraphs.

In view of the foregoing and pursuant to the authority delegated to me by the Administrator, 14 CFR 11.89 (31 FR 13697) § 39.13 of the Federal Aviation Regulations is amended hereby and the airworthiness directive adopted as published.

This amendment is effective December 19, 1975.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958 (49 U.S.C. 1421, 1423); secs. 6(c), Department of Transportation Act, (49 U.S.C. 1655(c)))

Issued in Jamaica, N.Y., on December 4, 1975.

DUANE W. FREER,
Director,
Eastern Region.

MARTIN. Applies to all Martin 404 Aircraft Certificated in all categories.

Compliance required as indicated.

(a) Affects the wing spar chord splice joints at wing station 187.

(1) Within the next three months after the effective date of this AD, unless accomplished within five years preceding the effective date, remove the left and right outer wings and visually inspect the wing spar splice joints at wing station 187 for corrosion.

(2) Repeat the inspection specified in paragraph (1) at intervals not to exceed 10,000 hours' time in service or five years, whichever comes first, for left wings, and 12,000 hours' time in service or six years, whichever comes first, for right wings.

(b) For airplanes that have an FAA approved alteration installed at the wing spar chord splice joints at WS 187 for corrosion control, in lieu of the foregoing accomplish the following:

(1) Externally inspect the left and right wing panels at wing station 187 within the next 10,000 hours' time in service or five years, whichever comes first, by:

(i) Stripping all sealant from the joint and performing a complete dye-check of the alteration and spars.

(ii) Removing two bolts from each splice and inspecting the bolts visually and the holes by borescope for corrosion. If corrosion is evident, remove both wing panels and inspect the wing structure.

(2) After another 10,000 hours' time in service or five years, whichever comes first, remove both wings at wing station 187 and accomplish complete corrosion inspection of the wing structure.

(c) Repair corroded parts in accordance with an FAA approved repair or replace with an unused part of the same part number or an equivalent part approved by the Chief, Engineering and Manufacturing Branch, FAA, Eastern Region.

(d) Upon submission of substantiating data by an owner or operator through an FAA Maintenance Inspector, the Chief, Engineering and Manufacturing Branch, FAA, Eastern Region, may adjust the inspection interval specified in this AD.

[FR Doc.75–33444 Filed 12–11–75;8:45 am]

[Docket No. 15239, Amdt. 39–2460]

PART 39—AIRWORTHINESS DIRECTIVES

Morane Saulnier (Socata) MS892.A–150, MS893–A, and MS894–A Airplanes

There have been bent elevator bellcrank levers found on certain Morane Saulnier airplanes that could result in a lack of pitch up control. Since this condition is likely to exist or develop in other airplanes of the same type design, an airworthiness directive is being issued to require repetitive inspections and replacement as necessary of the elevator bellcranks on Morane Saulnier (Socata) MS892.A–150, MS893–A, and MS894–A airplanes.

Since this situation requires the immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

(Sec. 313(a), 601, 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act, (49 U.S.C. 1655(c))

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

MORANE SAULNIER (SOCATA). Applies to MS892.A–150, MS893–A, and MS894–A airplanes, serial numbers 1873 and below, certificated in all categories.

Compliance is required as indicated, unless already accomplished.

To detect a distorted or bent elevator bellcrank and prevent loss of pitch-up control, accomplish the following:

(a) Within the next 10 hours' time in service after the effective date of this AD, and thereafter at intervals not to exceed 100 hours' time in service from the last inspection, visually inspect the elevators bellcrank (pitch control crank lever) in accordance with Socata Service Bulletin No. 89 Gr 27.07, dated June 1971, or an FAA-approved equivalent.

(b) If a bent or distorted elevator bellcrank is found as a result of an inspection required by paragraph (a) of this AD, before further flight, replace the elevator bellcrank, No. 880–27.0.261.0. with a reinforced elevator bellcrank, No. 880–27.0.371.0, in accordance with the "Description" paragraph of Socata Service Bulletin No. 92 Gr:27–08, dated October 1971, or an FAA-approved equivalent.

(c) The inspections required by paragraph (a) of this AD may be discontinued after installation of a reinforced bellcrank, No. 880–27.0.371.0, in accordance with the Socata Service Bulletin No. 92 Gr:27–08, dated October 1971, or an FAA-approved equivalent.

This amendment becomes effective December 29, 1975.

Issued in Washington, D.C., on December 5, 1975.

J. A. FERRARESE,
Acting Director,
Flight Standards Service.

[FR Doc.75–33448 Filed 12–11–75;8:45 am]

[Airspace Docket No. 75–CE–10]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone and Transition Area

On page 44576 of the FEDERAL REGISTER dated September 29, 1975, the Federal Aviation Administration published a notice of proposed rulemaking which would amend §§ 71.171 and 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the control zone and transition area at Columbus, Nebraska.

Interested persons were given 30 days to submit written comments, suggestions or objections regarding the proposed amendments.

No objections have been received and the proposed amendments are hereby adopted without change and are set forth below.

These amendments shall be effective 0901 G.m.t., January 29, 1976.

(Sec. 307(a), Federal Aviation Act of 1958, (49 U.S.C. 1348), sec. 6(c), Department of Transportation Act, (49 U.S.C. 1655(c)))

Issued in Kansas City, Mo., on November 19, 1975.

C. R. MELUGIN, Jr.,
Director,
Central Region.

In § 71.171 (40 FR 353), the following control zone is amended to read:

COLUMBUS, NEBRASKA

Within a 5-mile radius of the Columbus Municipal Airport (latitude 41°26'49" N., longitude 97°20'31" W.); and within 3½ miles west and 4 miles east of the Columbus VOR 324° radial, extending to 10.5 miles northwest of the VOR, and within 3.5 miles each side of the Columbus VOR 152° radial, extending to 10.5 miles southeast of the VOR. This control zone shall be effective during the times established by a Notice to Airmen and continuously published in the Airman's Information Manual.

In § 71.181 (40 FR 441), the following transition area is amended to read:

V40240 DEC 12 75 XUM

COLUMBUS, NEBRASKA

That airspace extending upward from 700 feet above the surface within a 6-mile radius of the Columbus, Nebraska Airport, and within 3.5 miles each side of the Columbus VOR 152° radial, extending from the 6-mile radius to 11.5 miles southeast of the VOR, and within 3½ miles west and 4 miles east of the Columbus VOR 324° radial, extending from the 6-mile radius to 11½ miles northwest of the VOR.

[FR Doc.75-33446 Filed 12-11-75;8:45 am]

[Airspace Docket No. 75-CE-11]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

On pages 44576 and 44577 of the FEDERAL REGISTER dated September 29, 1975, the Federal Aviation Administration published a Notice of Proposed Rule Making which would amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to designate a transition area at Maquoketa, Iowa.

Interested persons were given 30 days to submit written comments, suggestions or objections regarding the proposed amendment.

No objections have been received and the proposed amendment is hereby adopted without change and is set forth below.

This amendment shall be effective 0901 G.m.t., January 29, 1976.

(Sec. 307(a), Federal Aviation Act of 1958, (49 U.S.C. 1348), sec. 6(c), Department of Transportation Act, (49 U.S.C. 1655(c)))

Issued in Kansas City, Mo., on November 19, 1975.

C. R. MELUGIN, JR.,
Director,
Central Region.

In § 71.181 (40 FR 441), the following transition area is added:

MAQUOKETA, IOWA

That airspace extending upward from 700' above the surface within a 7-mile radius of the Maquoketa Airport (latitude 42°03'00" N., 90°46'00" W.); and that airspace three miles each side of the 343° bearing from the Maquoketa NDB (latitude 42°03'05" N., longitude 90°44'27" W.); extending from the 7-mile radius area to 8.5 miles northwest of the NDB.

[FR Doc.75-33447 Filed 12-11-75;8:45 am]

Title 17—Commodity and Securities Exchanges

CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-11654]

PART 240—GENERAL RULES AND REGULATIONS, SECURITIES EXCHANGE ACT OF 1934

PART 241—INTERPRETATIVE RELEASES RELATING TO THE SECURITIES EXCHANGE ACT OF 1934 AND GENERAL RULES AND REGULATIONS THEREUNDER

Brokers and Dealers Effecting Transactions in Municipal Securities

Adoption of a financial responsibility program pertaining to transactions in municipal securities, including the adoption of certain amendments, temporary amendments and interpretations to the uniform net capital rule (Rule 15c3-1) [17 CFR 240.15c3-1], the customer protection rule (Rule 15c3-3) [17 CFR 240.15c3-3] and other related financial responsibility and reporting rules.

The Securities and Exchange Commission today announced the adoption of certain amendments, temporary amendments and interpretations of Rule 15c3-1 [17 CFR 240.15c3-1] and Rule 15c3-3 [17 CFR 240.15c3-3], as well as of related financial responsibility and reporting rules under the Securities Exchange Act of 1934. The amendments are intended to modify temporarily and, some instances, permanently the impact of such rules on brokers and dealers effecting transactions in municipal securities.

The Commission believes that the temporary amendments are necessary and appropriate in the public interest and for the protection of investors in light of comments received from the public, and will afford the Commission the opportunity to consider and develop appropriate financial responsibility and reporting standards while providing protection to investors.

Introduction. Prior to the Securities Acts Amendments of 1975,[1] (the "1975 Amendments") municipal securities were included within the definition of "exempted securities" as defined in section 3(a)(12) of the Securities Exchange Act of 1934 (the "Act"). The 1975 Amendments embodied a congressional conclusion that the protection of investors requires the regulation of brokers and dealers who effect transactions in municipal securities. "The [Senate Banking, Housing and Urban Affairs] Committee has concluded the time has come to revise the Exchange Act to subject municipal securities professionals to essentially the same regulatory scheme that applies to other securities activities."[2]

Implementing this conclusion, the 1975 Amendments, *inter alia*, excised municipal securities from the class of exempted securities for purposes of section 15(c)(3) of the Act, effective December 1, 1975. Moreover, the 1975 Amendments amended section 15(c)(3) to require the Commission to establish minimum financial responsibility requirements for all brokers and dealers no later than September 1, 1975. While thus subjecting brokers and dealers who effect transactions in municipal securities to Commission financial responsibility regulation, Congress, nonetheless, remained cognizant that the often unique structure of the municipal securities industry might somehow indicate financial responsibility rules different from those applicable to other members of the securities industry. In particular, Congress cautioned that "it may not be appropriate to apply the existing net capital rules to firms that are solely brokers in municipal securities, whose only customers are professional securities dealers and banks. The limited risks inherent in this form of business may justify less stringent rules without danger to the public."[3]

The 1975 Amendments became law on June 4, 1975. At that time the Commission was completing development of a uniform net capital rule subsequently adopted pursuant to section 15(c)(3) on June 26, 1975, effective September 1, 1975.[4] Thus it is contemplated that Rule 15c3-1 [17 CFR 240.15c3-1] as amended (the "Rule"), would be in place by the time municipal securities brokers and dealers become subject to section 15(c)(3) on December 1, 1975. Accordingly, the Commission, directed to establish minimum financial responsibility standards for brokers and dealers effecting transactions in municipal securities consistent with the protection of investors, and cognizant of the unique features of this industry, included a request for comments in the release adopting the Rule.[5] The Commission reiterated this request in Securities Exchange Act Release No. 11561 (July 30, 1975), [40 FR 33747 (Aug. 11, 1975)] soliciting public comment concerning any special problems which Rule 15c3-1 would pose to the municipal securities industry. When certain members of the public requested additional time in which to present their views and supporting data on these matters, the Commission extended the public comment period until October 15, 1975.[6]

In response to these releases, the Commission received a number of thoughtful comment letters. Salient among the numerous issues they raised were minimum net capital requirements under Rule 15c3-1 (a) and (f) [17 CFR 240.-15c3-1(a), (f)], the appropriate haircuts for municipal notes, the treatment of undue concentrations in municipal securities, and the fact that municipal securities trading markets are structurally different from the markets on which the Rule's nonmarketability provisions were premised. More generally, the Commission became aware of the need to prescribe emergency temporary relief from a number of the Rule's provisions. This is necessary both to enable

[3] S. Rep. No. 75, 94th Cong., 1st Sess. 43 (1974).

[4] Securities Exchange Act Release No. 11497 (June 26, 1975); 40 FR 29795 (July 16, 1975). However, Rule 15c3-1(g)(1), 17 CFR 240.15c3-1(g)(1) provides that computations of aggregate indebtedness and net capital for purposes of Rule 15c3-1(a), 17 CFR 240.15c3-1(a) may until January 1, 1976, be made pursuant to the capital rule to which a broker or dealer was subject prior to September 1, 1975. This effectively postponed the effective date of all provisions except Rule 15c3-1(a), 17 CFR 240.15c3-1(a) (minimum net capital requirements) and Appendix D, 17 CFR 240.15c3-1d (satisfactory subordination agreements) until January 1, 1976.

[5] Securities Exchange Act Release No. 11497 (June 26, 1975), 40 FR 29795 (July 16, 1975).

[6] Securities Exchange Act Release No. 11656 (Sept. 16, 1975), 40 FR 43743 (Sept. 23, 1975).

brokers and dealers effecting transactions in municipal securities and those firms newly subject to Commission regulation to make a smooth transition to the requirements of Rule 15c3-1 [17 CFR 240.15c3-1] and to allow the Commission to consider and develop appropriate permanent capital standards for brokers and dealers effecting transactions in municipal securities.

The Commission is aware that some brokers and dealers effecting municipal securities transactions may experience initial difficulty in understanding net capital requirements as set forth in Rule 15c3-1 [17 CFR 240.15c3-1]. The Commission points out that the Rule affords to these brokers and dealers the same opportunities afforded to all registered brokers and dealers. Specifically, while the minimum net capital requirements set forth in Rule 15c3-1(a) [17 CFR 240.15c3-1(a)] generally provide for net capital of not less than $25,000, only $5,000 net capital is required of brokers and dealers who (1) carry no customer accounts, (2) do not hold customers' funds or securities and do not owe funds or securities to customers, and (3) restrict their business to certain specific activities.[7] These activities include acting as an introducing broker on a fully disclosed basis, participating as a broker or dealer in underwritings on a "best efforts" or "all or none" basis, and (promptly) forwarding subscriptions to the issuer, underwriter or other distributor of the securities where payment is made through the broker or dealer in the form of checks, notes or other evidences of indebtedness made payable solely to the distributor of the securities. Permitted activities also include occasional transactions for the broker's or dealer's investment account, as well as engaging, while acting as an introducing broker on a fully disclosed basis, in riskless principal transactions, and effecting (but not clearing) broker transactions on a national securities exchange for the account of another member of the exchange. The Commission believes that many newly registered and newly regulated brokers and dealers may wish to consider operating as a "$5,000 broker or dealer" in accordance with the provisions of Rule 15c3-1(a)(2) [17 CFR 240.15c3-1(a)(2)].

Rules adopted pursuant to sections 15(c)(2), 15(c)(3) and 17(a) of the Act establish a comprehensive financial responsibility and reporting program for brokers and dealers. Municipal securities bank dealers similarly operate under regulatory programs maintained by the bank regulatory authorities. Brokers and dealers effecting transactions solely in municipal securities have not been subject to either a Commission program or a bank regulatory program in this area, even though they may hold substantial quantities of customer funds and securities. Upon registration with the Commission, they may join other brokers and dealers within the ambit of the Securities Investors Protection Act of 1970.[8] These considerations, among others, underlie the 1975 amendments to sections 15(c)(2), 15(c)(3) and 17(a) of the Act, which sections now apply to all brokers and dealers, including those effecting transactions solely in municipal securities.

In addition, section 15B(b)(2) of the Act grants rulemaking authority to the Municipal Securities Rulemaking Board. The Commission will work with the Board in the development of a sound regulatory program for all brokers and dealers effecting transactions in municipal securities. Until a coordinated program can be formulated and implemented, the Commission believes that the public interest and the protection of investors require that these brokers and dealers become subject to certain of its existing rules, and that certain amendments and interpretations to these rules be adopted. Accordingly, the Commission publishes amendments and interpretations designed to establish a brief period of transition and adjustment during which these brokers and dealers can prepare to come into compliance with these rules.

The Commission hereby solicits comments from all interested persons and self-regulatory organizations and, in particular, the Municipal Securities Rulemaking Board, concerning the shaping of a comprehensive, permanent financial responsibility and reporting program for brokers and dealers effecting transactions in municipal securities. The Commission also notes that the offices of the Commission and the self-regulatory organizations stand ready to assist all brokers and dealers in developing programs designed to allow them to come into compliance with the financial responsibility and reporting rules.

Assistance for New Registrants. Brokers and dealers facing financial responsibility regulation for the first time should note that the National Association of Securities Dealers ("NASD") maintains fourteen offices throughout the country, that there are the offices of the exchanges, and that the Commission maintains a network of Regional and Branch offices, which, if contacted, may be able to assist these brokers and dealers in marshalling their capital and restructuring their operations in order to comply with Rule 15c3-1 [17 CFR 240.15c3-1] and related rules. In any event, the offices of the NASD and the exchanges, as well as the Commission's offices whose locations and phone numbers are set out in the footnote,[9] stand ready to assist brokers or dealers unfamiliar with financial responsibility regulation.

Miami Branch Office, Dupont Plaza Center, 300 Biscayne Boulevard Way, Suite 701, Miami, Florida 33131, 305/350-5765.
Cleveland Branch Office, Federal Office Building, 1240 East Ninth Street, Room 899, Cleveland, Ohio 44199, 216/522-4060.
St. Louis Branch Office, 210 North 12th Street, Room 1452, St. Louis, Missouri 63101, 314/425-5555.
Houston Branch Office, Federal Office and Courts Bldg., 515 Rusk Avenue, Room 7615, Houston, Texas 77002, 713/226-4966.
Salt Lake Branch Office, Federal Reserve Bank Bldg., 120 South State Street, Salt Lake City, Utah 84111, 801/524-5796.
San Francisco Branch Office, 450 Golden Gate Avenue, Box 36042, San Francisco, California 94102, 415/556-5264.
Washington Regional Office, Ballston Centre Tower 3, 4015 Wilson Boulevard, Arlington, Virginia 22203, 703/557-8201.

Local District Offices of the NASD, as well as the offices of the other self-regulators, are also available for consultation with their member organizations.

Brokers and dealers engaging in municipal securities transactions who are in doubt as to their ability to comply with Rule 15c3-1 [17 CFR § 240.15c3-1] are urged especially to consult with these offices. The staff may be able to assist such firms in the formulation and implementation of plans designed to insure compliance with the Rule.

AMENDMENTS AND TEMPORARY AMENDMENTS TO RULE 15c3-1 TEMPORARY AMENDMENT TO AND INTERPRETATION OF RULE 15c3-1(g)—TIMING OF IMPLEMENTATION OF THE RULE

Brokers and Dealers Effecting Transactions in Municipal Securities. Rule 15c3-1(g)(1) [17 CFR 240.15c3-1(g)(1)] provides that the minimum net capital requirements of paragraph (a) [17 CFR 240.15c3-1(a)] (as well as the provisions governing satisfactory subordination

[7] Municipal securities brokers and dealers registered under section 15B(a) of the Act, unlike those registered under section 15(b) of the Act, are not required to become members of SIPC. *See* section 3(a)(2) of the Securities Investor Protection Act of 1970, 15 U.S.C. section 78ccc(a)(2) (1970). Thus, registered municipal securities dealers which are banks (or separately identifiable departments or divisions of banks), as well as exclusively intrastate municipal securities brokers and dealers using the jurisdictional means, both of which register under section 15B(a), need not join SIPC.

[8] Rule 15c3-1(a)(2)(i)-(vi), 17 CFR 240.-15c3-1(a)(2)(i)-(vi).

V40240 DEC 12 75 XUM

agreements in Appendix D [17 CFR 240.-15c3–1d]) become effective on September 1, 1975. This subparagraph also provides that until January 1, 1976, brokers and dealers may continue to compute aggregate indebtedness and net capital in accordance with the respective capital rules to which the broker or dealer was subject prior to September 1, 1975. The net effect of these provisions is to allow brokers and dealers to make their capital computations in accordance with the rule under which they had been operating, for purposes of determining compliance with the Rule. These provisions were intended to provide a period during which brokers and dealers subject to former Rule 15c3–1 or the capital rule of an exchange could familiarize themselves with the computational modifications required by the uniform net capital rule. However, section 3(a)(12) of the Act provides that as of December 1, 1975 municipal securities lose their former status as "exempted securities." While the computational provisions of the uniform net capital rule do not become effective until January 1, 1976, firms still computing aggregate indebtedness and net capital under one of the former net capital rules would face unworkable conditions for the month of December 1975, to the extent that they engaged in municipal securities transactions. Such brokers and dealers thereby would be deprived of much of their familiarization period, contrary to the Commission policy as embodied in Rule 15c3–1(g)(1) [17 CFR 240.15c3–1(g)(1)].

The Commission is of the view that all brokers and dealers subject to former Rule 15c3–1 should be afforded an equal opportunity to prepare to implement the uniform net capital rule, regardless of the nature of their business. Accordingly, the Commission amends Rule 15c3–1(g)(1) [17 CFR § 240.15c3–1(g)(1)] to provide that municipal securities shall be deemed to be exempted securities for purposes of computing aggregate indebtedness and net capital computations pursuant to former Rule 15c3–1.

Commission Action. Pursuant to sections 15(c)(3) and 23(a) of the Securities Exchange Act of 1934, the Commission amends § 240.15c3–1(g)(1) in Part 240 of Chapter II of Title 17 of the Code of Federal Regulations to read as follows:

• • • • •

(g)(1) On September 1, 1975 the provisions of paragraph (a) of this section and Appendix D (17 CFR 240.15c3–1) shall be applicable to all brokers or dealers subject to the provisions of this section; provided, however, that until no later than January 1, 1976 the computation of aggregate indebtedness and net capital may continue to be computed pursuant to the respective capital rules to which the broker or dealer was subject prior to September 1, 1975. Provided further, that for purposes of such computaitons, municipal securities shall be deemed to be exempted securities.

The Commission expects that the seven national securities exchanges which now maintain net capital rules will, in accordance with the policy underlying this amendment to Rule 15c3–1(g)(1) [17 CFR 240.15c3–1(g)(1)], take a similar position concerning their own capital rules.

Brokers and Dealers Effecting Transactions Solely in Municipal Securities. The interface between Rule 15c3–1(g)(1) [17 CFR 240.15c3–1(g)(1)] and section 3(a)(12) of the Act detailed above poses different problems in the case of brokers and dealers effecting transactions solely in municipal securities, who must register with the Commission on or before December 1, 1975, pursuant to sections 15(a)(1) and 15B(a) of the Act. While the Commission, by temporary rules, has exempted these brokers and dealers from registration requirements until June 1, 1976, these temporary rules condition such exemption upon compliance with all other applicable provisions of the Act and rules thereunder,[10] including Rule 15c3–1 [17 CFR 240.15c3–1]. Unless the Commission modifies Rule 15c3–1(g) [17 CFR 240.15c3–1(g)], these brokers and dealers would have to calculate aggregate indebtedness and net capital during December pursuant to former Rule 15c3–1 [17 CFR 240.-15c3–1]. Accordingly, during December these brokers and dealers would be required to take as much as a 30% haircut on all municipal securities held long or short in their proprietary or other accounts, pursuant to former Rule 15c3–1(c)(2)(iii)(d), as opposed to a maximum of 5% under the uniform rule, which would come into effect on January 1, 1976. Such a result would be unintended. Moreover, those newly registered brokers and dealers wishing to compute net capital under the alternative method provided by paragraph (f) of the uniform rule would be unable to do so until January 1, 1976; during December their only option would be former Rule 15c3–1.

The Commission is of the view that the protection of investors requires that newly registered brokers and dealers effecting transactions solely in municipal securities be afforded a period of transition and adjustment to the new experience of net capital regulation. To this end, the Commission has found it necessary and appropriate to amend paragraph (g) of the uniform net capital rule to provide, in a new subparagraph (g)(3), that for the month of December, 1975, brokers and dealers effecting transactions solely in municipal securities, on written notice to the Commission and their Examining Authority, may elect to operate under all provisions of the uniform net capital rule, as amended by this release. In particular, the Commission notes that new Rule 15c3–1(g)(3) [17 CFR 240.15c3–1(g)(3)] would allow brokers and dealers effecting transactions solely in municipal securities to operate under the alternative net capital requirement of Rule 15c3–1(f) [17 CFR § 240.15c3–1(f)] beginning in December, 1975.

Commission Action. Pursuant to sections 15(c)(3) and 23(a) of the Securities Exchange Act of 1934, the Securities and Exchange Commission adds a new paragraph (g)(3) to § 240.15c3–1 in Part 240 of Chapter II of Title 17 of the Code of Federal Regulations reading as follows:

• • • • •

(g) • • •

(3) In lieu of the provisions of paragraph (g)(1) of this section, a broker or dealer effecting transactions solely in municipal securities who is either registered with the Commission or temporarily exempt from such registration pursuant to § 240.15a–1(T) or § 240.15Ba2–3(T) may elect, on written notice to the Commission and such broker's or dealer's Examining Authority, if any, to operate after November 30, 1975, under this § 240.14c3–1, as amended.

TEMPORARY AMENDMENT TO RULE 15c3–1(c)(1)(i)—EXCLUSION OF OVERNIGHT BANK LOANS FROM AGGREGATE INDEBTEDNESS

In many cases, a purchasing dealer of municipal securities will fail to take delivery of the securities on settlement date because of delays in issuing instructions to the clearing bank or broker. Delivery, when made, often occurs too late in the day to allow the purchasing dealer to accomplish same day redelivery to a purchaser to whom he has resold the securities. In such circumstances, in order to pay for the securities delivered to him, the dealer must borrow against the securities failed to deliver on an overnight basis.

A fail to receive offset by a fail to deliver is excluded from aggregate indebtedness (AI) pursuant to Rule 15c3–1(c)(1)(iii) [17 CFR 240.15c3–1(c)(1)(iii)]. However, once the securities are received (and not redelivered on the same day) and the dealer borrows against them, his position is long in fail to deliver and short in bank loan. Since these securities are not carried long in the proprietary or other accounts of the broker or dealer, the indebtedness they secure must be included in AI pursuant to Rule 15c3–1(c)(1)(i) [17 CFR 240.-15c3–1(c)(1)(i)].

The list of exclusions from AI presently contained in Rule 15c3–1(c)(1) [17 CFR 240.15c3–1(c)(1)] is the result of years of study and careful consideration. Former Rule 15c3–1(c)(1) had contained fewer exclusions, and during the development of the uniform Rule much attention was devoted to the subject of further exclusions from AI. Numerous public comments urged that the list of exclusions include overnight bank loans, as well as many other items, and were carefully weighed.

Under the existing rules of the major national securities exchanges[11] there is a charge to capital for indebtedness collateralized by exempted securities, which would include overnight loans collateralized by municipal securities. The incorporation into the Rule of a similar charge to capital, generally, and as regards municipal securities, was weighed and found to be reasonable with respect to existing brokers and dealers and did not reflect a significant increase in capital requirements. Impact studies directed to the overall effect of the Rule specifically considered the subject of overnight bank loans. These studies reflected the contemplated effect of all proposed amendments to the net capital rule upon existing registered brokers and dealers, but did not reflect the contemplated effect on brokers or dealers effecting transactions solely in municipal securities. On the basis of impact studies and comments, several new and significant items were excluded from AI, including deferred tax liabilities, credit balances in the accounts of general partners, subordinated liabilities not the subject of a satisfactory subordination agreement, liabilities representing the amounts on deposit in Special Reserve Bank Accounts, credit balances representing amounts payable for money market instruments outstanding as long as three days, and fails to receive offset by matching fails to deliver. However, the Commission determined that exclusion of overnight bank loans would eliminate one of the important indicia of a broker's or dealer's liquidity. The uniform rule as adopted appears to represent a more rational test and, in some ways, notably the alternative method of computation, represents a substantial reduction in capital requirements.

A different situation is presented by those firms dealing solely in municipals, which will be required to register for the first time pursuant to the 1975 Amendments. The Commission has received public comment to the effect that overnight bank loans are so prevalent a practice in the municipal securities industry that inclusion of this item in AI would be disruptive to newly registered brokers and dealers effecting transactions solely in municipal securities. These firms largely did not participate in the comment process which preceded adoption of the uniform rule, nor did they have the benefit of time which would have permitted an orderly transition to the new rule. The Commission is of the view that the public's compelling interest in the stability of the securities markets requires that brokers and dealers effecting transactions solely in municipal securities be given a period of transition and adjustment to net capital regulation.

Therefore, in order to allow an orderly transition for these firms, the Commission is adopting a temporary amendment to the Rule. While the Commission thus finds it necessary and appropriate to permit temporarily this exclusion from AI, the effect of allowing only some members of the securities industry to take overnight bank loans without capital consequences mandates that this temporary relief be of a short duration. Accordingly, in order to permit these firms to make an orderly transition to net capital standards, the Commission amends Rule 15c3–1(c)(1)(i) [17 CFR 240.15c3–1(c)(1)(i)] to allow brokers and dealers effecting transactions solely in municipal securities to exclude overnight bank loans outstanding not more than one business day from AI for a period of four months beginning December 1, 1975 and ending on April 1, 1976.

If the clearance and settlement procedures in the municipals industry are improved, inclusion of the indebtedness in AI incurred pursuant to this longstanding practice of the municipals industry would be sharply reduced for all registrants.

Commission Action. Pursuant to sections 15(c)(3) and 23(a) of the Securities Exchange Act of 1934, the Securities and Exchange Commission amends § 240.15c3–1(c)(1)(i) in Part 240 of Chapter II of Title 17 of the Code of Federal Regulations to read as follows:

• • • • •

(c) • • •

(1) • • •

(i) Indebtedness adequately collateralized by securities which are carried long by the broker or dealer and which have not been sold or by securities which collateralize a secured demand note pursuant to Appendix (D) to this § 240.-15c3–1d; indebtedness adequately collateralized by spot commodities which are carried long by the broker or dealer and which have not been sold; or, until April 1, 1976, indebtedness adequately collateralized by municipal securities outstanding for not more than one business day and offset by municipal securities failed to deliver of the same issue and quantity, where such indebtedness is incurred by a broker or dealer effecting transactions solely in municipal securities who is either registered with the Commission or temporarily exempt from such registration pursuant to § 240.15a–1(T) or § 240.15Ba2–3(T);

• • • • •

TEMPORARY AMENDMENTS TO RULE 15c3–1(c)(2)(iv)(C)—RECEIVABLES ARISING FROM UNDERWRITING SYNDICATES AND JOINT ACCOUNTS

Most municipal securities underwriting syndicates and joint accounts operate on a much more protracted timetable than their corporate securities counterparts. Public comments indicate that in a municipal note underwriting, the closing occurs typically ten days to six weeks following commencement of the offering; the closing in municipal bond underwritings may take place two weeks to two months after the offering commences. Underwriting profits generally may be distributed anywhere between six and eighteen weeks after the closing, and good faith deposits are retained by the syndicate or account manager until profits are distributed.

Rule 15c3–1 [17 CFR 240.15c3–1] presently does not account for these established practices of the municipal securities industry. Good faith deposits outstanding more than eleven business days are deducted from net worth pursuant to Rule 15c3–1(c)(2)(iv)(C) [17 CFR 240.15c3–1(c)(2)(iv)(C)]. Receivables from municipal underwriting syndicates and joint underwriting accounts are, when all securities are sold, deductible from net worth as "other unsecured receivables" under Rule 15c3–1(c)(2)(iv)(E) [17 CFR 240.15c3–1(c)(2)(iv)(E)]. The Commission is of the view that the duration and conduct of public offerings of municipal securities may be an appropriate matter for consideration by the Municipal Securities Rulemaking Board. Until the Board is able to act, the Commission will adopt on a temporary basis certain suggestions received from the public. Thus, Rule 15c3–1(c)(2)(iv)(C) [17 CFR 240.15c3–1(c)(2)(vi)(C)] is amended to allow inclusion in net capital of receivables arising from municipal securities underwriting syndicates and joint underwriting accounts outstanding ninety days or less from settlement of the underwriting with the issuer until June 1, 1976. Furthermore, Rule 15c3–1(c)(2)(iv)(C) [17 CFR 240.15c3–1(c)(2)(iv)(C)] is amended to allow inclusion in net capital of good faith deposits arising in connection with a municipals underwriting and outstanding ninety days or less from settlement of the underwriting with the issuer, until June 1, 1976.

Commission Action. Pursuant to sections 15(c)(3) and 23(a) of the Securities Exchange Act of 1934, the Securities and Exchange Commission amends § 240.15c3–1(c)(2)(iv)(C) in Part 240 of Chapter II of Title 17 of the Code of Federal Regulations to read as follows:

• • • • •

(c) • • •

(2) • • •

(iv) • • •

(C) Interest receivable, floor brokerage receivable, commissions receivable from other brokers or dealers (other than syndicate profits which shall be treated as required in paragraph (c)(2)(iv)(E) of this section), mutual fund concessions receivable and management fees receivable from registered investment companies, all of which receivables are outstanding longer than thirty (30) days from the day they arise; dividends receivable outstanding longer than thirty (30) days from the payable date; good faith deposits arising in connection with an underwriting, outstanding longer than eleven (11) business days from the settlement of the underwriting with the issuer; and, until June 1, 1976, receivables due from participation in municipal securities underwriting syndicates and municipal securities joint underwriting accounts which are outstanding longer than ninety (90) days from settlement of the underwriting with the issuer, and good faith deposits arising in connection with an underwriting of municipal securities, outstanding longer than ninety (90) days from settlement of the underwriting with the issuer;

• • • • •

AMENDMENTS TO RULE 15c3–1(c)(2)(B)—HAIRCUTS ON MUNICIPAL NOTES

Rule 15c3–1(c)(2)(vi)(B) [17 CFR 240.15c3–1(c)(2)(vi)(B)] provides that

[10] 17 C.F.R. 240.15a–1(T)(b) (1975); 17 C.F.R. 240.15Ba2–3(T)(b) (1975). These temporary rules, which expire on June 1, 1976, were adopted in Securities Exchange Act Release No. 11742 (Oct. 15, 1975), 40 FR 49772 (Oct. 24, 1975).

[11] See Joint Regulatory Report, (New York Stock Exchange; American Stock Exchange; National Association of Securities Dealers) (3½% charge to capital).

V 40 240 DEC 12 75 XUM

certain specified percentage deductions from market value ("haircuts") shall be taken on all municipal securities in the proprietary or other accounts of a broker or dealer. Numerous comments received from the public stressed that the haircuts on municipal notes (defined as municipal securities with maturities from date of issue of one year or slightly longer, which are issued at par value and pay interest at maturity or are issued at a discount) are unduly high. The public pointed out that the market behavior of municipal notes is closely similar to that of money market instruments such as commercial paper, certificates of deposit, and bankers' acceptances, all of which receive much lower haircuts pursuant to Rule 15c3-1(c)(2)(vi)(E) [17 CFR 240.15c3-1(c)(2)(vi)(E)]. Inasmuch as securities haircuts are intended as protection against downside market risk, the Commission is of the view that some adjustments to the haircuts on muinicipal notes are necessary and appropriate. The haircuts on municipal notes, as amended, are set out below.

Comments from the public also maintained that the haircuts on municipal bonds are unnecessarily high. However, unlike the case of municipal notes, the Commission received no data challenging the validity of statistical compilations upon which the municipal bond haircuts were originally based.[12] Therefore, the Commission is presently not in a position to reduce the haircuts on municipal bonds. The Commission remains receptive to public comment and study on this question, however, and would welcome further public input pursuant to its request for comments set forth later in this release.

Commission Action. Pursuant to sections 15(c)(3) and 23(a) of the Securities Exchange Act of 1934, the Securities and Exchange Commission amends § 240.15c3-1(c)(2)(vi)(B) in Part 240 of Chapter II of Title 17 of the Code of Federal Regulations to read as follows:

* * * * *

(c) * * *
(2) * * *
(vi) * * *

(B)(*1*) In the case of any municipal security which has a scheduled maturity at date of issue of 455 days or less and which is issued at par value and pays interest at maturity, or which is issued at a discount, and which is not traded flat or in default as to principal or interest, the applicable percentages of the market value on the greater of the long or short position in each of the categories specified below are:

(*i*) Less than 30 days to maturity—0%;

(*ii*) 30 days but less than 91 days to maturity—⅛ of 1%;

(*iii*) 91 days but less than 181 days to maturity—¼ of 1%;

(*iv*) 181 days but less than 271 days to maturity—⅜ of 1%;

(*v*) 271 days but less than 366 days to maturity—½ of 1%;

(*vi*) 366 days but less than 456 days to maturity—¾ of 1%.

(2) In the case of any municipal security, other than those specified in subdivision (B)(*1*), which is not traded flat or in default as to principal or interest, the applicable percentages of the market value on the greater of the long or short position in each of the categories specified below are:

(*i*) less than 1 year to maturity—1%;

(*ii*) 1 year but less than 2 years to maturity—2%;

(*iii*) 2 years but less than 5 years to maturity—3%;

(*iv*) 5 years or more to maturity 5%.

TEMPORARY AMENDMENTS TO RULE 15c3-1(c)(2)(vi)(M), (f)(3)(iii) — UNDUE CONCENTRATIONS

Rule 15c3-1(c)(2)(vi)(M) [17 CFR 240.15c3-1(c)(2)(vi)(M)] essentially provides that, for purposes of computing net capital, an additional deduction from net worth equal to one-half the appropriate haircut shall be taken against all positions of a broker or dealer in the securities of an issuer of a single class or series with a value exceeding 10% of tentative net capital. The provision does not apply to exempted securities, positions held eleven business days or less, positions in equity securities not exceeding the greater of 500 shares or $10,000 in market value, or debt securities positions not exceeding $25,000 in market value. A similar provision, Rule 15c3-1(f)(3)(iii) [17 CFR 240.15c3-1(f)(3)(iii)], applies to computations under the alternative net capital requirement.

Numerous public comments contended that these provisions, if applicable to positions in municipal securities, would have an inappropriately severe impact upon firms dealing largely or solely in municipal securities. These commentators contended that the market risks attending municipal securities are a function of interest rate fluctuations and thus impact more or less equally on all municipals of similar maturity and quality, regardless of their issuers. It is argued that these facts would render inappropriate provisions designed as downside protection against radical changes in the fortunes of single corporate issuers.

A second line of argument pursued in the comments was that present practices in the municipal industry require that municipal firms from time to time take positions, usually in respect of underwritings, which exceed the quantity and time parameters of the undue concentration provisions. These provisions, it was contended, penalize regular and historically safe practices of the municipal industry.

The Commission is not convinced that the municipal securities industry should be exempt from all adjustments in respect of undue concentrations. This industry, like any other, possesses established practices and norms. At some point the degree of concentration in a municipal dealer's accounts exceeds that norm which, *arguendo*, might itself exceed what is appropriate for the protection of investors and the stability of the securities markets. The Commission intends to establish undue concentration requirements for the municipal securities industry consistent with these public policies. However, the Commission is of the view that the present undue concentration provisions of the Rule may be inappropriate for the municipal securities industry as it currently conducts itself. The Commission is willing to provide a transitional period wherein the Commission, with the public's assistance, can explore this matter with a view towards determining in what respects the municipal securities marketplace is endemically incapable of conforming its positioning practices to those current elsewhere in the securities industry. Towards this end, the Commission later in this release invites public comment and impact studies concerning this question. Meanwhile, the Commission amends Rule 15c3-1(c)(2)(vi)(M) [17 CFR 240.15c3-1(c)(2)(vi)(*M*)] and Rule 15c3-1(f)(3)(iii) [17 CFR 240.15c3-1(f)(3)(iii)] to provide an exemption of six months' duration for positions in municipal securities.

Commission Action. Pursuant to sections 15(c)(3) and 23(a) of the Securities Exchange Act of 1934, the Securities and Exchange Commission amends § 240.15c3-1(c)(2)(vi)(M) and § 240.15c3-1(f)(3)(iii) in Part 240 of Chapter II of Title 17 of the Code of Federal Regulations by adding at the end thereof:

* * * * *

Provided further, That until June 1, 1976, this paragraph shall not apply to municipal securities.

TEMPORARY AMENDMENT TO RULE 15c3-1(c)(2)(ix)—AGED FAILS TO DELIVER

Rule 15c3-1(c)(2)(ix) [17 CFR 240.15c3-1(c)(2)(ix)] requires that appropriate haircuts be applied to securities failed to deliver outstanding fifteen business days or longer (eleven business days or longer after January 1, 1977). Comments received from municipal securities professionals indicate that the industry does not yet possess settlement or depository facilities which would expedite the clearance and settlement of municipal transactions to the levels contemplated in this provision of the Rule. The industry apparently has no structured system of transfer agents comparable to that existing for corporate securities. Delays occur in exchanging registered bonds for bearer bonds and in transferring registered bonds. Furthermore, municipals markets are not sufficiently liquid to allow an immediate buy-in at a reasonable price or borrowing of securities to cover fails to deliver. Brokers and dealers often have no alternative but to await delivery of fails.

The Commission recognizes that while the development of reliable and efficient

[12] *E.g.*, Letter from the National Association of Securities Dealers, Inc. to the Commission, March 5, 1973, at 7 & Attachment C; Letter from the Securities Industry Association to the Commission, March 6, 1973, at 9 & Exhibit B.

clearance and settlement systems is essential,"[13] it is inappropriate to establish, during their period of transition to financial regulation, a standard for municipals brokers and dealers which may be unrealistic. Accordingly, the Commission amends Rule 15c3-1(c)(2)(ix) [17 CFR 240.15c3-1(c)(2)(ix)] to provide that, for the period expiring June 1, 1976, municipal securities failed to deliver shall not be subjected to haircuts until the fail is outstanding twenty-five business days or longer.

Commission Action. Pursuant to sections 15(c)(3) and 23(a) of the Securities Exchange Act of 1934, the Securities and Exchange Commission amends § 240.15c3-1(c)(2)(ix) in Part 240 of Chapter II of Title 17 of the Code of Federal Regulations to read as follows:

* * * * *

(c) * * *
(2) * * *

(ix) Deducting from the contract value of each failed to deliver contract which is outstanding 11 business days or longer the percentages of the market value of the underlying security which would be required by application of the deduction required by paragraph (c)(2)(vi) or where appropriate, paragraph (f) of this section *Provided*, that such deduction shall be increased by any excess of the contract price of the fail to deliver over the market value of the underlying security or reduced by any excess of the market value of the fail but not to exceed the amount of such deduction. Provided, however, that until January 1, 1977 the deduction provided for herein shall be applied only to those fail to deliver contracts which are outstanding 15 business days or longer. Provided further, that until June 1, 1976 the deduction set forth herein shall be applied only to those fail to deliver contracts in municipal securities which are outstanding 25 business days or longer.

TEMPORARY AMENDMENT TO RULE 15c3-1(c)(2)(xiii)—INDEBTEDNESS COLLATERALIZED BY EXEMPTED SECURITIES

Rule 15c3-1(c)(2)(xiii) [17 CFR 240.15c3-1(c)(2)(xiii)] provides that a broker or dealer, in lieu of including indebtedness secured by exempted securities in AI, may deduct 4% of such indebtedness from net worth, provided that the exempted securities are not carried long by the broker or dealer, and that the indebtedness does not represent contra securities failed to deliver. Since municipal securities lose their exempted status on December 1, 1975, this provision would no longer be available to a broker or dealer collateralizing its indebtedness with municipal securities.

Several comments received from the public averred that, because of the relatively inefficient clearance and settlement mechanisms existing with respect to municipal securities, the unavailability of the paragraph (c)(2)(xiii) [17 CFR 240.15c3-1(c)(2)(xiii)] option would work an undue hardship. If a broker or dealer carrying municipal securities failed to receive sold them to another broker or dealer, the fail to receive, so long as it were offset by a long position or a fail to deliver, would be excludable from AI pursuant to Rule 15c3-1(c)(1)(iii) [17 CFR 240.15c3-1(c)(1)(iii)]. However, once the securities were received and redelivered, draft against payment with immediate credit from a bank, the liability on the draft would be includable in AI. On the other hand, if the securities involved were exempted securities, the option afforded by paragraph (c)(2)(xiii) [17 CFR 240.15c3-1(c)(2)(xiii)] would be available for the liability on the draft. Commentators observed that transactions in municipal securities do not clear and settle efficiently, very often leaving brokers or dealers effecting municipal transactions in the predicament described above.

As noted earlier,[14] the Commission is of the view that the employment of efficient mechanisms for the clearance and settlement of municipal securities is essential. The Commission has also determined that it is necessary and appropriate to provide interim transitional relief with respect to subparagraph (c)(2)(xiii) [17 CFR 240.15c3-1(c)(2)(xiii)] until the municipals industry improves these procedures. It may well be appropriate after further public comment to continue this treatment permanently. Accordingly, the Commission amends Rule 15c3-1(c)(2)(xiii) [17 CFR 240.15c3-1(c)(2)(xiii)] to allow brokers and dealers to deduct from net worth, until June 1, 1976, 4% of their indebtedness collateralized by municipal securities.

Commission Action. Pursuant to sections 15(c)(3) and 23(a) of the Securities Exchange Act of 1934, the Securities and Exchange Commission amends § 240.15c3-1(c)(2)(xiii) in Part 240 of Chapter II of Title 17 of the Code of Federal Regulations to read as follows:

* * * * *

(c) * * *
(2) * * *

(xiii) Deducting, at the option of the broker or dealer, in lieu of including such amounts in aggregate indebtedness, 4 percent of the amount of any indebtedness secured by exempted securities or municipal securities not carried long in the proprietary or other accounts of the broker or dealer or representing exempted securities failed to deliver. Provided, with respect to indebtedness collateralized by municipal securities that, such option shall be available until June 1, 1976.

AMENDMENTS TO RULE 15c3-1(c)(6) AND (7) RULE 15c3-3(a)(1)—DEFINITIONS OF "CUSTOMER" AND "NON-CUSTOMER"

These amendments reflect the congressional decision to regulate dealer banks effecting transactions in municipal securities by extending to them the same definitional treatment accorded by Rule 15c3-1 [17 CFR 240.15c3-1] to other dealers. Accordingly, for purposes of the Rule, all registered municipal securities dealers would be treated as "non-customers." The term "municipal securities dealer" is intended to carry its statutory meaning as set forth in section 3(a)(30) of the Act. An important consequence of these amendments is that municipal securities transactions with registered dealer banks are no longer customer transactions for purposes of the Rule's "fail" provisions.

A parallel amendment to Rule 15c3-3(a)(1) [17 CFR 240.15c3-3(a)(1)], that rule's definition of "customer," will result in the exclusion of debits and credits arising out of transactions with registered municipal securities dealer banks from the Formula for the Determination of Reserve Requirements For Brokers and Dealers contained in Exhibit A to Rule 15c3-3 [17 CFR 240.15c3-3a], since only "customer debits" and "customer credits" are includable in the Reserve Formula.

Commission Action. Pursuant to sections 15(c)(3) and 23(a) of the Securities Exchange Act of 1934, the Securities and Exchange Commission amends § 240.15c3-1(c)(6), (7) in Part 240 of Chapter II of Title 17 of the Code of Federal Regulations to read as follows:

* * * * *

(c) * * *

(6) The term "customer" shall mean any person from whom, or on whose behalf, a broker or dealer has received, acquired or holds funds or securities for the account of such person, but shall not include a broker or dealer or a registered municipal securities dealer, or a general, special or limited partner or director or officer of the broker or dealer, or any person to the extent that such person has a claim for property or funds which by contract, agreement, or understanding, or by operation of law, is part of the capital of the broker or dealer. Provided, however, that the term "customer" shall also include a broker or dealer, but only insofar as such broker or dealer maintains a special omnibus account carried with another broker or dealer in compliance with 12 CFR 220.4(b) of Regulation T under the Securities Exchange Act of 1934.

(7) The term "non-customer" means a broker or dealer, registered municipal securities dealer, general partner, lim-

[13] Section 15(c)(6) of the Act authorizes the Commission to make rules, *inter alia*, with respect to the time and method of clearance and settlement of all securities except, *inter alia*, municipal securities. Section 15B(b)(2)(C) of the Act requires that the rules of the Municipal Securities Rulemaking Board, at a minimum, shall "be designed to * * * foster cooperation and coordination with persons engaged in regulating, clearing, [and] settling * * * transactions in municipal securities * * *" Section 17A(a) directs the Commission to establish a national system for the clearance and settlement of transactions in all securities except exempted securities, but not excepting municipal securities. Section 17A(b)(3)(F) requires that the rules of a clearing agency registered with the Commission shall be designed, at a minimum, to "promote the prompt and accurate clearance and settlement of securities transactions."

[14] *See* text accompanying note 13 *supra*.

V 40 240 DEC 12 75 XUM

ited partner, officer, director and persons to the extent their claims are subordinated to the claims of creditors of the broker or dealer.

* * * * *

Commission Action. Pursuant to sections 15(c)(3) and 23(a) of the Securities Exchange Act of 1934, the Securities and Exchange Commission amends § 240.15c3–3(a)(1) in Part 240 of Chapter II of Title 17 of the Code of Federal Regulations to read as follows:

* * * * *

(a) * * *

(1) The term "customer" shall mean any person from whom or on whose behalf a broker or dealer has received or acquired or holds funds or securities for the account of such person, but shall not include a broker or dealer, or a registered municipal securities dealer, or a general, special or limited partner or director or officer of a broker or dealer, or any person to the extent that such person has a claim for property or funds which by contract, agreement or understanding, or by operation of law, is part of the capital of the broker or dealer or is subordinated to the claims of creditors of the broker or dealer: *Provided, however,* That the term "customer" shall also include a broker or dealer but only insofar as such broker or dealer maintains a special omnibus account carried with another broker or dealer in compliance with Section 4(b) of Regulation T under the Securities Exchange Act of 1934 (12 CFR Part 220).

* * * * *

AMENDMENT TO RULE 15c3–1(c)—DEFINITION OF "MUNICIPAL SECURITIES"

This amendment will clarify the numerous references to "municipal securities" added to Rule 15c3–1 [17 CFR 240.15c3–1] by this release. A new subparagraph, Rule 15c3–1(c)(14) [17 CFR 240.15c3–1(c)(14)], provides that this term shall carry the meaning given to it by section 3(a)(29) of the Act.

Commission Action. Pursuant to sections 15(c)(3) and 23(a) of the Securities Exchange Act of 1934, the Securities and Exchange Commission adds a new paragraph (c)(14) to § 240.15c3–1 in Part 240 of Chapter II of Title 17 of the Code of Federal Regulations reading as follows:

* * * * *

(c) * * *

(14) The term "municipal securities" shall mean those securities included within the definition of "municipal securities" in section 3(a)(29) of the Securities Exchange Act of 1934.

TEMPORARY AMENDMENT TO RULE 15c3–1(f)(1)—ALTERNATIVE NET CAPITAL REQUIREMENT

The Senate Committee on Banking, Housing and Urban Affairs, while reporting favorably upon the bill which became the Securities Acts Amendments of 1975, declared, as quoted earlier in this release,[15] that "it may not be appropriate to apply the existing net capital rules to firms that are solely brokers in municipal securities, whose only customers are professional securities dealers and banks. The limited risks inherent in this form of business may justify less stringent rules without danger to the public." The Commission's analysis of comments received from the public tends to confirm this congressional judgment. These municipal securities brokers appear to restrict their business to the execution of agency transactions for other brokers, dealers, and bank municipal securities dealers, all of whom are themselves required to register with the Commission pursuant to sections 15 and 15B of the Act. These municipal securities brokers engage in no transactions with the investing public and do not invest for their own accounts. All their transactions are cleared through a bank or clearing service. In light of these facts, the Commission arrives at a conclusion similar to that of Congress, namely, that it may be unnecessary for the protection of investors to subject this special type of municipal securities broker to the same capital requirements applicable to other brokers and dealers. The Commission has determined that a minimum net capital requirement of $25,000 will provide a sufficient capital cushion to municipal securities brokers conducting their business in the restricted fashion described above.

Furthermore, the Commission is of the view that the alternative net capital requirement may be more suitable for this special class of brokers effecting transactions solely in municipal securities. While the Commission tends to regard new Rule 15c3–1(f)(1)(ii) [17 CFR 240.15c3–1(f)(1)(ii)] as the most appropriate response to the considerations raised by Congress and the public, it hereby solicits further public comment, especially by way of impact study, concerning the appropriate capital requirements for these municipal securities brokers. Accordingly, the Commission adopts Rules 15c3–1(f)(1)(ii) [17 CFR 240.15c3–1(f)(1)(ii)] as a temporary amendment, expiring June 1, 1976. Since these restricted municipal securities brokers deal only with entities not within the Rule 15c3–3(a)(1) [17 CFR 240.15c3(a)(1)] definition of "customer," as amended hereinabove, requirements under Rule 15c3–1(f)(1)(ii) [17 CFR 240.15c3–1(f)(1)(ii)] based on the Reserve Formula are not likely to increase significantly their minimum net capital requirements. However, the $25,000 requirement must be computed in accordance with all provisions of paragraph (f) [17 CFR 240.15c3–1(f)], including those incorporating certain of the adjustments to net capital required by subparagraph (c)(2) [17 CFR 240.15c3–1(c)(2)] of the Rule.

Commission Action. Pursuant to sections 15(c)(3) and 23(a) of the Securities Exchange Act of 1934, the Securities and Exchange Commission redesignates § 240.15c3–1(f)(1) in Part 240 of Chapter II of Title 17 of the Code of Federal Regulations as § 240.15c3–1(f)(1)(i), and adopts a new § 240.15c3–1(f)(1)(ii) in Part 240 of Chapter II of Title 17 of the Code of Federal Regulations reading as follows:

* * * * *

(f) * * *

(1) * * *

(ii) In the case of a municipal securities broker, as defined in section 3(a)(31) of the Securities Exchange Act of 1934, who is not exempt from the provisions of § 240.15c3–3 under the Securities Exchange Act of 1934 pursuant to paragraph (k)(1) or (k)(2)(i), and who effects transactions only on a payment versus delivery basis with other brokers or dealers or municipal securities brokers or municipal securities dealers, and who does not hold funds or securities for, or owe money to, customers and does not otherwise carry accounts of, or for, customers, in order to qualify to operate under this paragraph (f) such municipal securities broker shall at all times, until June 1, 1976 maintain net capital equal to the greater of $25,000 or 4 percent of aggregate debit items computed in accordance with Exhibit A to Rule 15c3–3, § 240.15c3–3a. *Provided,* That in order to qualify to operate under this paragraph (f), such municipal securities broker shall notify the Examining Authority for such broker or dealer and the Regional Office of the Commission in which the broker or dealer has its principal place of business, in writing, of its election to operate under this provision. Once a municipal securities broker has determined to operate pursuant to this paragraph (f), he shall continue to do so unless a change in such election is approved upon application to the Commission.

INTERPRETATIONS WITH RESPECT TO THE NET CAPITAL REQUIREMENTS OF BROKERS AND DEALERS EFFECTING TRANSACTIONS IN MUNICIPAL SECURITIES

The Commission has determined to publish the following interpretations concerning the net capital requirements for brokers and dealers effecting transactions in municipal securities.

Rule 15c3–1(a)(1)—800 Percentum Requirement for New Registrants. Rule 15c3–1(a)(1) [17 CFR § 240.15c3–1(a)(1)] provides in part that no broker or dealer shall permit its aggregate indebtedness to exceed 800% of its net capital for twelve months following its commencing business as a broker or dealer. The Commission interprets this provision not to apply to brokers and dealers engaged solely in a municipal securities business for 12 months prior to their registration with the Commission.

Rule 15c3–1(c)(2)(iv)(C)—Profits Receivable From Underwriting Syndicates and Joint Underwriting Accounts. In connection with the Commission's amendments to Rule 15c3–1(c)(2)(iv)(C) [17 CFR 240.15c3–1(c)(2)(iv)(C)] concerning receivables from municipal securities underwriting syndicates and joint underwriting accounts, it is the Commission's position that such receivables shall be conservatively accrued, with adequate provision made for losses and other expenses.

Rule 15c3–1(c)(2)(iv)(B)—Free Shipments. Many comments from the public contended that the present limits on free shipments without capital charges, contained in Rule 15c3–1(c)(2)(iv)(B) [17 CFR 240.15c3–1(c)(2)(iv)(B)] were far less than what is considered to be a routine free shipment of municipal securities. These commentators apparently were unaware of a previous staff position, reaffirmed here, that a shipment by mail of securities to a bank which serves as the seller's agent for the collection of proceeds is not a "free shipment" for purposes of the Rule.

Rule 15c3–1(c)(2)(vi)(K)—Securities With a Limited Market. In view of the confusion evidenced in many public comments addressed to this provision, the Commission wishes to clarify that Rule 15c3–1(c)(2)(vi)(K) [17 CFR 240.15c3–1(c)(2)(vi)(K)] operates, in the case of securities with a limited market, to magnify the haircut prescribed in Rule 15c3–1(c)(2)(vi)(J) [17 CFR 240.15c3–1(c)(2)(vi)(J) for "all other securities," and does not apply to securities, including munipical securities, receiving haircuts pursuant to Rule 15c3–1(c)(2)(vi)(A)–(I) [17 CFR 240.15c3–1(c)(2)(vi)(A)–(I)]. It should be noted that Rule 15c3–1(c)(2)(vi)(L) [17 CFR 240.15c3–1(c)(2)(vi)(L)] applies to a given security only if Rule 15c3–1(c)(2)(vi)(K) [17 CFR 240.15c3–1(c)(2)(vi)(K)] applies, and therefore also does not apply beyond "all other securities" treated in Rule 15c3–1(c)(2)(iv)(J)[17 CFR 240.15c3–1(c)(2)(iv)(J)].

Rule 15c3–1(c)(2)(vii)—Nonmarketable Securities. Rule 15c3–1(c)(2)(vii) [17 CFR 240.15c3–1(c)(2)(vii)] provides that, for purposes of computing net capital, a 100% deduction from net worth shall be taken against the carrying value of securities in the proprietary or other accounts of a broker or dealer for which there is no ready market. In turn, Rule 15c3–1(c)(11)(i) [17 CFR 240.15c3–1(c)(11)(i)] provides in part that a ready market is deemed to exist when there exists a recognized established market comprising independent bona fide offers to buy and sell, so that a price reasonably related to the last sale, or current bid and offer quotations, can be determined almost instantaneously. Pursuant to Rule 15c3–1(c)(11)(ii) [17 CFR 240.15c3–1(c)(11)(ii)], a ready market is also deemed to exist when securities have been accepted as collateral for a loan which the broker or dealer demonstrates to its Examining Authority is adequately secured.

The application of these provisions to the municipal securities industry was the subject of much public comment. It was pointed out that municipals, which generally are issued at a denomination of at least $1,000, provide a lesser number of trading units than corporate equities. The problem, the comments noted, is further complicated by the existence of a great number of different issues often involving relatively few trading units, which are issued by thousands of small municipalities, school districts, and the like. Unlike the bid-ask market in corporate bonds, the municipals market is a so-called "work-out" market, containing too many issues with too many different maturities for a continuous two-sided market to be maintained.

Furthermore, present pricing practices in the municipals markets are complex and time consuming, involving a matrix system of credit ratings and time to maturity, evaluated by individual traders in light of general market conditions. This system often does not result in the "almost instantaneous" quotation or continuous market contemplated in the Rule. In short, the present structure of the municipals marketplace does not resemble the corporate securities markets on which the marketability provisions of the Rule were premised.

In this release, the Commission requests public comments and an impact study concerning the question of what constitutes a ready market for municipal securities, so that appropriate marketability criteria for municipal securities can be built into the Rule. In the interim, pending the forthcoming development of such criteria, the Commission by interpretation suspends Rule 15c3–1(c)(2)(vii) [17 CFR 240.15c3–1(c)(2)(vii)] as applied to municipal securities not traded flat or in default as to principal or interest.

INTERPRETATIONS WITH RESPECT TO OTHER RULES ESTABLISHING A FINANCIAL RESPONSIBILITY AND REPORTING PROGRAM FOR BROKERS AND DEALERS EFFECTING TRANSACTIONS IN MUNICIPAL SECURITIES

The Commission has determined to publish the following interpretations concerning the financial responsibility and reporting requirements for brokers and dealers effecting transactions in municipal securities.

Rule 15c2–1—Hypothecation of Customers' Securities. Rule 15c2–1 [17 CFR 240.15c2–1] defines the term "fraudulent, deceptive, or manipulative act or practice" as used in section 15(c)(2) of the Act to include a broker's or dealer's hypothecation of securities carried for the account of customers, as defined, under circumstances permitting (1) the commingling of securities carried for the account of different customers without consent, (2) the commingling of securities carried for the account of customers with noncustomer securities held by the broker or dealer pursuant to a lien, or (3) the hypothecation of customer securities to secure loans exceeding the aggregate indebtedness of all customers in respect of securities carried for their accounts.[16] The Commission deems it necessary and appropriate to suspend this rule in order to afford brokers and dealers effecting transactions solely in municipal securities a brief transitional period during which they can make necessary adjustments to their hypothecation practices. Accordingly, the Commission by interpretation suspends Rule 15c2–1 [17 CFR 240.15c2–1], as applied to brokers and dealers effecting transactions solely in municipal securities, until January 15, 1976.

Rule 15c3–2—Customers' Free Credit Balances. Rule 15c3–2 [17 CFR 240.15c3–2] stipulates that a broker or dealer may not use, in the operation of his business, free credit balances arising out of customer accounts until such broker or dealer, in general, has developed adequate procedures for informing his customers of his intent to do so. The procedures established must ensure that whenever, at least every three months, the broker or dealer sends a customer a statement of his account, he shall include therewith written notice that (a) the customer's free credit balance is not segregated and may be used in the broker's or dealer's operations, and (b) that the free credit balance is payable on demand.

The Commission recognizes that procedures such as these presently do not exist in the municipal securities industry and, therefore, a brief transitional period may be appropriate during which time brokers and dealers effecting transactions solely in municipal securities can study and implement Rule 15c3–2 [17 CFR 240.15c3–2]. Accordingly, the Commission suspends Rule 15c3–2 [17 CFR 240.15c3–2], as applied to brokers and dealers effecting transactions solely in municipal securities, until January 15, 1976.

Rule 15c3–3(d)—Requirement to Reduce Securities to Possession or Control. Rule 15c3–3(d) [17 CFR 240.15c3–3(d)] requires brokers and dealers to determine, not later than the close of the next business day, the quantities of customers' fully paid and excess margin securities in their possession or control as of the preceding business day. A similar determination is required with respect to these fully paid and excess margin securities not in the broker's or dealer's possession or control. With respect to those fully paid securities or excess margin securities determined not to be in his possession or control, Rule 15c3–3(d) [17 CFR 240.15c3–3(d)] requires that the broker or dealer rectify the situation by taking prompt steps to secure possession or control of such securities, to the extent they are in certain specified noncontrol locations. Brokers and dealers currently subject to the rule have achieved compliance either by taking appropriate steps to reduce securities to their possession or control, or by obtaining extensions pursuant to Rule 15c3–3(n) [17 CFR 240.15c3–3(n)].

Commentators have asserted that clearance and settlement mechanisms in municipal securities are inefficient and impede the reduction to possession or control of fully paid and excess margin municipal securities, particularly where a "buy-in" is required. Therefore, the Commission finds it necessary and appropriate to provide brokers and dealers effecting transactions solely in municipal securities with a transitional period dur-

[15] *See* note 4 *supra* and accompanying text.

[16] A related provision, Rule 8c–1 [17 CFR 240.8c–1], applies only to hypothecation of listed securities. Rule 8c–1 is under review in light of the 1975 Act's amendments to section 8 of the Act.

V40240 DEC 12 75 XUM

ing which these brokers and dealers can adjust their practices in order to comply with this provision. Accordingly, the Commission suspends Rule 15c3–3(d) [17 CFR 240.15c3–3(d)], as applied to brokers and dealers effecting transactions solely in municipal securities, until January 15, 1976. The Commission believes that it may be appropriate for the Municipal Securities Rulemaking Board to consider possible solutions to this problem, particularly insofar as buy-in requirements are involved.

Rule 15c3–3(m)—Requirement to Complete Orders on Behalf of Customers. Another consequence of the present structure of the municipals marketplace is the great difficulty experienced in attempting to execute timely "buy-in" pursuant to the provisions of Rule 15c3–3(m) [17 CFR 240.15c3–3(m)]. The Commission had previously suspended by interpretation this provision as applied to municipal securities,[17] and the Commission reaffirms that determination and hereby takes the position that this suspension should continue until suitable buy-in requirements for municipal securities can be devised. The Commission believes that it may be appropriate for the Municipal Securities Rulemaking Board to consider possible solutions to this problem.

Rule 17a–3—Books and Records to be Maintained by Brokers and Dealers. Rule 17a–3 [17 CFR 240.17a–3] essentially requires that registered brokers and dealers shall make and keep current certain specific books and records relating to their business. The Commission is aware that the present bookkeeping and recordkeeping systems of brokers and dealers effecting transactions solely in municipal securities may presently constitute records which are not as comprehensive as those required in Rule 17a–3 [17 CFR 240.17a–3]. Furthermore, the Commission recognizes that those brokers and dealers may be largely unfamiliar with the requirements of this rule and, to the extent that their systems would have to be modified, they might experience great difficulty in digesting and implementing all of the rule's provisions by December 1, 1975. Therefore, the Commission finds it necessary and appropriate to provide a brief transitional period during which brokers and dealers effecting transactions solely in municipal securities can both educate themselves concerning the requirements of Rule 17a–3 [17 CFR 240.17a–3], and make those adjustments in their bookkeeping and recordkeeping systems dictated by the rule's provisions.

Accordingly, the Commission encourages all brokers and dealers effecting transactions solely in municipal securities to contact the local NASD district office or the appropriate Commission regional office, in regard to any questions or problems concerning Rule 17a–3 [17 CFR 240.17a–3]. The NASD or the Commission will be available to assist these brokers and dealers in complying with Rule 17a–3 [17 CFR 240.17a–3]. In addition, for the period beginning December 1, 1975 and expiring January 15, 1976, Rule 17a–3 [17 CFR 240.17a–3] is interpreted to require brokers and dealers effecting transactions solely in municipal securities to make and keep current books and records sufficient to demonstrate their financial condition, to reflect the receipt and delivery of all funds and securities, and to reflect all customer activity.

During this transitional period, the Commission intends to consult and coordinate with the Municipal Securities Rulemaking Board concerning appropriate books and records requirements for brokers and dealers engaging in transactions in municipal securities.

Rule 17a–4—Preservation of Books and Records. Rule 17a–4 [17 CFR 240.17a–4] requires the preservation for specified lengths of time of the books and records maintained pursuant to Rule 17a–3 [17 CFR 240.17a–3], as well as other documents enumerated in Rule 17a–4(b), (c) and (d) [17 CFR 240.17a–4(b), (c), (d)]. For the reasons underlying the Commission's interpretation of Rule 17a–3 [17 CFR 240.17a–3], *supra*, the Commission interprets Rule 17a–4 [17 CFR 240.17a–4], until January 15, 1976, to require brokers and dealers effecting transactions solely in municipal securities to preserve in an easily accessible place those books and records maintained pursuant to Rule 17a–3 [17 CFR 240.17a–3] as interpreted herein and such other business records required to be preserved by Rule 17a–4 [17 CFR 240.17a–4].[18]

Rule 17a–5(a)—Annual Report on Form X–17A–5. Rule 17a–5(a)(2)(i)(a) [17 CFR 240.17a–5(a)(2)(i)(a)] requires brokers and dealers to file a report of financial condition on Form X–17A–5 [17 CFR 249.617] between one and five months after their registration becomes effective.[19]

The Commission recognizes that brokers and dealers effecting transactions solely in municipal securities have been operating under established fiscal years. The Commission believes it necessary and appropriate, during the period of transition and adjustment to regulation, to avoid the disruptions which might result from the application of this provision. Accordingly, with respect to those brokers and dealers effecting transactions solely in municipal securities, the Commission suspends Rule 17a–5(a)(2)(i)(a) [17 CFR 240.17a–5(a)(2)(i)(a)]. The Commission notes, however, that these brokers and dealers remain subject to all other provisions of Rule 17a–5 [17 CFR 240.17a–5], including those requiring that a certified audit be filed during calendar year 1976.

Rule 17a–5 (m) and (n)—Statements to be Furnished Customers. These provisions of Rule 17a–5 require brokers and dealers, with certain exceptions, to furnish their customers at specified intervals with data relating to their financial condition, including an unconsolidated balance sheet, a statement of the firm's net capital, and unaudited financial statements. The Commission believes it appropriate that brokers and dealers effecting transactions solely in municipal securities should be afforded a brief transitional period in which to implement these provisions. Accordingly, the Commission by interpretation suspends Rule 17a–5 (m) and (n) [17 CFR 240.17a–5 (m) and (n)] as applied to brokers and dealers effecting transactions solely in municipal securities, until June 1, 1976. However, those firms to whom this interpretation applies shall transmit statements required by Rule 17a–5(n) [17 CFR 240.17a–5(n)] to customers as of a date not later than July 1, 1976.

Rule 17a–10—Report of Income and Expenses. Rule 17a–10 [17 CFR 240.17a–10] requires brokers and dealers to file a report of each calendar year's income and expenses, as well as related information, on Form X–17A–10 [17 CFR 249.618], not later than 180 days after the close of each calendar year.

Since brokers and dealers effecting transactions solely in municipal securities are not required by statute to register with the Commission until relatively late in calendar year 1975, their 1975 filing would not add significant data for calendar year 1975. The burden imposed upon these new registrants by the requirements of Rule 17a–10 [17 CFR 240.17a–10] is, in the opinion of the Commission, inappropriate in light of the limited furtherance of this rule's purposes which would be derived from such filings. Accordingly, the Commission, by interpretation, suspends Rule 17a–10 [17 CFR 240.17a–10] as applied to brokers and dealers effecting transactions solely in municipal securities until January 15, 1976. The Commission notes that this interpretation dispenses with the necessity of a Form X–17A–10 [17 CFR 249.618] filing with respect to calendar year 1975.

Rule 17a–11(c)—Supplemental Financial Reporting Requirements. Rule 17a–11 [17 CFR 240.17a–11] requires brokers or dealers in violation of the net capital rule to which they are subject to file, at specified times and intervals, a telegraphic notice and subsequent follow-up reports containing certain financial and operational data. Rule 17a–11(c) [17 CFR 240.17a–11(c)] further requires brokers or dealers whose books and records do not conform to the standards of Rule 17a–3 [17 CFR 240.17a–3] to transmit to the Commission telegraphic notice of such fact and to take corrective measures within forty-eight hours after tranmittal of such notice.

[17] Securities Exchange Act Release No. 10093 (Apr. 10, 1973), 38 FR 12103 (May 9, 1973).

[18] The Commission calls attention to the proposed amendments to Rules 17a–4, 17a–5, 17a–10, and 17a–20 [17 CFR 240.17a–4, –5, –10, –20] reflecting the proposed adoption of the Focus Report, a program to streamline the financial and operational reporting of brokers and dealers. See Securities Exchange Act Release No. 11748 (Oct. 16, 1975), 40 FR 51060 (Nov. 3, 1975).

[19] Proposals to amend Rule 17a–5 [17 CFR 240.17a–5], in connection with the projected adoption of the Focus Report, would eliminate this requirement. *See* note 18 *supra*.

Rule 17a–11 [17 CFR 240.17a–11] lies at the core of the Commission's program for receiving "early warning" of a broker's or dealer's financial difficulties. The important public policy underlying this rule mandates only limited transitional modifications for new registrants. Accordingly, as applied to those brokers and dealers effecting transactions solely in municipal securities, the Commission interprets Rule 17a–11(c) [17 CFR 240.17a–11(c)] to apply, until January 15, 1976, to violations by such brokers and dealers of Rule 17a–3 [17 CFR 240.17a–3] as interpreted hereinabove. In all other respects, however, such brokers and dealers remain subject to Rule 17a–11 [17 CFR 240.17a–11].

Rule 17a–13—Quarterly Security Counts. Rule 17a–13 [17 CFR 240.17a–13] requires all brokers and dealers, with certain limited exceptions, physically to count all securities held in possession, to account for all securities in the broker's or dealer's control but not in his possession, and to account for all securities which are not in the broker's or dealer's possession or control. Other provisions of the rule specify when and how the results of this security count must be recorded on the books and records of the broker or dealer. The rule requires that such security counts be made at least once every fiscal or calendar quarter.

The Commission is aware that the municipal securities industry has never been required by regulation to make frequent security counts. Brokers and dealers effecting transactions solely in municipal securitis will require a brief transitional period in which to adjust to the procedures required by Rule 17a–13 [17 CFR 240.17a–13]. Accordingly, the Commission by interpretation suspends Rule 17a–13 [17 CFR 240.17a–13], as applied to brokers and dealers effecting transactions solely in municipal securities, until January 15, 1976. The Commission notes that this will delay the first such count under Rule 17a–13 [17 CFR 240.17a–13] to the first fiscal or calendar quarter of 1976.

Effective Date. The Commission finds, in accordance with the provisions of the Administrative Procedure Act, 5 U.S.C. 553(b)(3)(B), (d)(3) (1970), that notice and public comment procedure respecting these amendments and temporary amendments to Rule 15c3–1 [17 CFR 240.15c3–1] and Rule 15c3–3 [17 CFR 240.15c3–3] would be impractical and contrary to the public interest, and finds further that the public interest requires that these amendments and temporary amendments become effective less than 30 days from the publication of this release, on December 1, 1975. These findings are based on the Commission's determination that the maintenance of orderly markets in municipal securities requires immediate publication and an effective date of these amendments and temporary amendments of December 1, 1975.

Statutory Basis and Competitive Considerations. These amendments and temporary amendments to Rule 15c3–1 [17 CFR 240.15c3–1] and Rule 15c3–3 [17 CFR 240.15c3–3] are adopted pursuant to the Securities Exchange Act of 1934, and particularly sections 10(b), 15(c)(3), 17(a) and 23(a) thereof. The Commission has determined that these amendments and temporary amendments impose no burden on competition not necessary or appropriate in furtherance of the purposes of the Act, and that the amendments and temporary amendments are necessary and appropriate to implement the provisions of the Act, and particularly section 15(c)(3) thereof, to provide for the orderly assumption by the Commission of financial responsibility regulation of all brokers and dealers.

Solicitation of Public Comment. Although the Commission finds, pursuant to the Administrative Procedure Act, that the public interest requires that these amendments and temporary amendments be adopted, effective December 1, 1975, without notice and further public comment, the Commission welcomes the views of the public on these amendments, temporary amendments, and interpretations expressed *in writing* prior to their effective date and, thereafter, until February 29, 1976 in order to assist the Commission in its task of initiating regulation of brokers and dealers effecting transactions in municipal securities particularly with respect to their financial responsibility.

Moreover, the Commission again solicits public comment from interested persons concerning the appropriate capital requirements for brokers and dealers effecting transactions in municipal securities. In particular, the Commission requests public comments, including impact studies and other appropriate statistical compilations, concerning those areas treated by the temporary amendments adopted herein, which will enable the Commission to consider and develop appropriate capital standards for brokers and dealers engaging in municipal securities transactions. In this regard, the Commission emphasizes the importance of public comment and impact studies germane to the issues of what constitutes an undue concentration of municipal securities for purposes of subparagraphs (c)(2)(vi)(M) [17 CFR 240.15c3–1(c)(2)(vi)(M)] and (f)(3)(iii) [17 CFR 240.15c3–1(f)(3)(iii)] of the Rule, the contours of a ready market in municipal securities, for purposes of subparagraphs (c)(2)(vii) [17 CFR 240.15c3–1(c)(2)(vii)], (c)(5) [17 CFR 240.15c3–1(c)(5)] and (c)(11) [17 CFR 240.15c3–1(c)(11)] of the Rule, and the appropriate haircuts on municipal bonds under subparagraph (c)(2)(vi)(B)(2) [17 CFR 240.15c3–1(c)(2)(vi)(B)(2)] of the Rule.

The Commission further invites the comments of all interested persons and self-regulatory organizations, including the Municipal Securities Rulemaking Board, concerning the appropriate financial responsibility and reporting requirements for brokers and dealers effecting transactions in municipal securities.

Interested persons are invited to submit their views to George A. Fitzsimmons, Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549, no later than February 29, 1976. Reference should be made to File No. S7–603. All comments received will be subject to public inspection.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS, *Secretary.*

NOVEMBER 20, 1975.

[FR Doc.75–33553 Filed 12–11–75;8:45 am]

[Release No. IA–487]

PART 275—RULES AND REGULATIONS, INVESTMENT ADVISERS ACT OF 1940

Application for Registration of Investment Advisers and Withdrawal From Registration, Technical Rule Changes

The Securities and Exchange Commission has amended Rule 203–1 (17 CFR 275.203–1) under the Investment Advisers Act of 1940 (15 U.S.C. 80b–1 et seq.) ("Act") to delete an unnecessary statutory reference to former section 203(f) (15 U.S.C. 80b–3(f)),[1] and has amended Rule 203–2 (17 CFR 275.203–2) under the Act to correct certain references to former section 203(l) (15 U.S.C. 80b–3(l)) of the Act.

Rule 203–1(a) under the Act provides:

> An application for registration of an investment adviser filed pursuant to section 203(c) or 203(f) of the Act shall be filed on Form ADV in accordance with the instructions contained therein.

Former section 203(f), now section 203(g) (15 U.S.C. 80b–3(g)), in effect permits a successor to a registered investment adviser to continue its investment advisory business if it files an application for registration within thirty days of the succession.[2] However, an application for registration, whether by a successor or otherwise, is filed pursuant to the provisions of section 203(c) (15 U.S.C. 80b–3(c)). Therefore, a reference to section 203(g) in paragraph (a) of Rule 203–1 is unnecessary.

The Securities Acts Amendments of 1975 (Pub. L. 94–29) contained amendments to the Act which, among other things, redesignated former section 203(l) as section 203(h) (15 U.S.C. 80b–3(h)). Therefore, the references in paragraphs (a) and (b) of Rule 203–2 to section 203(l) should be changed to section 203(h) to reflect the redesignation.

[1] Pursuant to the Investment Company Amendments Act of 1970 (Pub. L. 91–547) section 203(f) was redesignated 203(h) and was subsequently redesignated 203(g) by the Securities Acts Amendments of 1975.

[2] Section 203(g) provides: "Any successor to the business of an investment adviser registered under this section shall be deemed likewise registered hereunder, if within thirty days from its succession to such business it shall file an application for registration under this section, unless and until the Commission, pursuant to subsection (d) of this section, shall deny registration to or revoke or suspend the registration of such successor."

V40240 DEC 12 75 XUM

Section 211 (15 U.S.C. 80b–11) of the Act confers authority upon the Commission to make, issue, amend, and rescind such rules, regulations, and orders as are necessary or appropriate to the exercise of its functions and powers under the Act.

Accordingly, paragraph (a) of § 275.203–1 and paragraphs (a) and (b) of § 275.203–2 are hereby amended to read as follows:

§ 275.203–1 Application for registration of investment adviser.

(a) An application for registration of an investment adviser filed pursuant to section 203(c) of the Act shall be filed on Form ADV in accordance with the instructions contained therein.

• • • • • •

§ 275.203–2 Withdrawal from registration.

(a) Notice of withdrawal from registration as an investment adviser pursuant to section 203(h) shall be filed on Form ADV–W in accordance with the instructions contained therein.

(b) Except as hereinafter provided, a notice to withdraw from registration filed by an investment adviser pursuant to section 203(h) shall become effective on the 60th day after the filing thereof with the Commission or within such shorter period of time as the Commission may determine. If, prior to the effective date of a notice of withdrawal from registration, the Commission has instituted a proceeding pursuant to section 203(e) to suspend or revoke registration, or a proceeding pursuant to section 203(h) to impose terms or conditions upon withdrawal, the notice of withdrawal shall not become effective except at such time and upon such terms and conditions as the Commission deems necessary or appropriate in the public interest or for the protection of investors.

• • • • • •

The Commission finds that, since the amendments are technical in nature and do not involve substantive changes, notice and opportunity for public comments and publication thirty days prior to effectiveness, ordinarily required by section 553, Title 5 of the United States Code, are unnecessary. Accordingly, the amendments shall become effective immediately.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

NOVEMBER 20, 1975.

[FR Doc.75–33552 Filed 12–11–75;8:45 am]

Title 19—Customs Duties

CHAPTER I—UNITED STATES CUSTOMS SERVICE, DEPARTMENT OF THE TREASURY

[T.D. 75–307]

PART 141—ENTRY OF MERCHANDISE

Completion of Entry Papers

On September 4, 1974, a notice of proposed rulemaking was published in the FEDERAL REGISTER (39 FR 32035), which proposed to amend § 141.61(f)(1) of the Customs Regulations (19 CFR 141.61(f)(1)), to specify where on the entry forms the invoice summary information described in that section should be placed.

After reviewing the comments received in regard to the proposed amendment, it was decided that certain changes should be made in order to provide a degree of flexibility and to allow as much space as possible for the placement of the required information. Accordingly, the wording of § 141.61(f)(1) of the proposed amendment has been changed to specify that the summary value information shall be shown "following" the entry data relating to each invoice rather than "among" the entry data, and the words, "the lower part of", have been deleted from the last sentence. In addition, the amendment now provides the option of attaching a separate worksheet to the entry document in lieu of placing the information on the Customs entry documents.

Inasmuch as the only entry forms referred to in § 141.61(f)(1) are Customs Forms 7501 and 7502, and they are the only entry forms on which the invoice summary data is to be shown, the reference to "other entry forms" in the last sentence of the proposed amendment is unnecessary. Accordingly, the phrase "and in the same location on any other entry forms on which such information is required to be shown pursuant to this paragraph" has been deleted. Furthermore, the word "should" in the last sentence has been changed to "shall" in order to conform to the language used throughout the Customs Regulations.

Accordingly, the proposed amendment, modified to include these changes, is adopted as set forth below.

Effective date. This amendment shall become effective January 12, 1976.

LEONARD LEHMAN,
Acting Commissioner of Customs.

Approved: December 4, 1975.

DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

Paragraph (f)(1) of § 141.61 is amended to read as follows:

§ 141.61 Completion of entry papers.

• • • • •

(f) *Value of each invoice*—(1) *Dutiable, taxable, or conditionally free merchandise.* For each invoice of dutiable, taxable, or conditionally free merchandise covered by the entry, there shall be shown following the entry data relating to such invoice the gross amount of such invoice, the deduction of the aggregate amount of any nondutiable charges included in such amount, the further deduction of the aggregate of any deductions from invoice values to make entered values, and the addition of the aggregate of any dutiable charges not included in the gross amount of the invoice and of any other additions to invoice values to make entered values, so that the final amount in the summary computation represents the aggregate of the entered values of all the merchandise on each invoice covered by the entry. All of the foregoing information shall be placed either in column (2) (across columns (2a) and (2b)) on Customs Forms 7501 and 7502, or, in the alternative, on a separate worksheet immediately attached to the entry document.

(R.S. 251, as amended, secs. 481, 484, 624, 46 Stat. 719, 722, as amended, 759 (19 U.S.C. 66, 1481, 1484, 1624))

[FR Doc.75–33458 Filed 12–11–75;8:45 am]

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER D—DRUGS FOR HUMAN USE

TOBRAMYCIN AND TOBRAMYCIN SULFATE INJECTION

The Commissioner of Food and Drugs has evaluated data submitted in accordance with regulations promulgated under section 507 of the Federal Food, Drug, and Cosmetic Act, regarding approval of the antibiotic drug tobramycin, effective December 12, 1975.

The Commissioner concludes that data supplied by the manufacturer about this antibiotic drug are adequate to establish its safety and efficacy when used as directed in the labeling, and that the regulations should be amended to provide for its certification.

Therefore, under the Federal Food, Drug and Cosmetic Act (sec. 507, 59 Stat. 463, as amended (21 U.S.C. 357)) and under authority delegated to the Commissioner (21 CFR 2.120), Parts 430, 436, and 444 in Subchapter D of Chapter I of Title 21 of the Code of Federal Regulations is amended to provide for the certification of the antibiotic drug products tobramycin and tobramycin sulfate injection:

PART 430—ANTIBIOTIC DRUGS: GENERAL

1. Part 430 is amended:

a. In § 430.4 by adding new paragraph (a)(42), to read as follows:

§ 430.4 Definitions of antibiotic substances.

(a) • • •

(42) *Tobramycin.* A specific one of the antibiotic substances produced by the growth of *Streptomyces tenebrarius*, and the same substance produced by any other means, is tobramycin.

b. In § 430.5 by adding new paragraphs (a)(58) and (b)(58) to read as follows:

§ 430.5 Definitions of master and working standards.

(a) • • •

(58) *Tobramycin.* The term "tobramycin master standard" means a specific lot of tobramycin designed by the Commissioner as the standard of comparison in determining the potency of the tobramycin working standard.

(b) • • •

(58) *Tobramycin.* The term "tobramycin working standard" means a specific lot of a homogeneous preparation of tobramycin.

c. In § 430.6 by adding new paragraph (b)(60) to read as follows:

§ 430.6 Definitions of the terms "unit" and "microgram" as applied to antibiotic substances.

• • • • • •

(b) • • •

(60) *Tobramycin.* The term "microgram" applied to tobramycin means the tobramycin activity (potency) contained in 1.126 micrograms of the tobramycin master standard.

PART 436—TESTS AND METHODS OF ASSAY OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

2. Part 436 is amended:

a. In § 436.33(b) by alphabetically inserting two new items into the table, as follows:

§ 436.33 Safety test.

• • • • •

(b) • • •

Antibiotic drug	Test dose: Diluent (diluent number as listed in sec. 436.31)	Test dose: Concentration in units or milligrams of activity per milliliter	Test dose: Volume in milliliters to be administered to each mouse	Route of administration as described in paragraph (c) of this section
•	•	•	•	•
Tobramycin	4	1 mg	.5	Intravenous.
Tobramycin sulfate	4	do	.5	Do.
•	•	•	•	•

b. In § 436.106(a) and (b) by alphabetically inserting a new item into the tables, as follows:

§ 436.106 Microbiological turbidimetric assay.

• • • • •

(a) • • •

Antibiotic	Working standard stock solutions: Drying conditions (method number as listed in sec. 436.200)	Working standard stock solutions: Initial solvent	Working standard stock solutions: Diluent (solution number as listed in sec. 436.101(a))	Working standard stock solutions: Final concentration, units or milligrams per milliliter	Working standard stock solutions: Storage time under refrigeration	Standard response line concentrations: Diluent (solution number as listed in sec. 436.101(a))	Standard response line concentrations: Final concentrations, units or micrograms of antibiotic activity per milliliter
•	•	•	•	•	•	•	•
Tobramycin	Not dried		Distilled water.	1 mg	2 weeks	Distilled water.	2.00, 2.236, 2.5, 2.795, 3.125 µg.
•	•	•	•	•	•	•	•

(b) • • •

Antibiotic	Test organism	Medium (nutrient broth)	Suggested volume of standardized inoculum to be added to each 100 ml of medium (nutrient broth)	Incubation temperature
•	•	•	•	•
Tobramycin	A	3	0.15	37
•	•	•	•	•

c. In § 436.213 by alphabetically inserting a new item in the table as follows:

§ 436.213 Nonaqueous titrations.

• • • • • • •

(c) • • •

Antibiotic	Weight in milligrams of sample	Solvent
•	•	•
Tobramycin-base titration	20	50 ml glacial acetic acid.
•	•	•

e. By adding new § 436.318 to Subpart F to read as follows:

§ 436.318 Continuous flow thin layer chromatography identity test.

(a) *Equipment*—(1) *Chromatography tank.* A rectangular tank, approximately 23 centimeters long, 23 centimeters high, and 9 centimeters wide equipped with a glass solvent trough in the bottom.

(2) *Plates.* Use a 20 x 20 centimeter thin-layer chromatography plate coated with Silica Gel G or equivalent to a thickness of 250 micrometers.

(3) *Cover.* A stainless steel cover with a slot, measuring 21 x 0.6 centimeters, cut in the front edge.

(4) *Supporting platform.* A platform that can be placed in the bottom of the chromatography tank so that the solvent trough is elevated about 3.75 centimeters.

(b) *Reagents*—(1) *Developing solvent.* Mix chloroform, redistilled methanol and concentrated ammonium hydroxide in volumetric proportions of 25:60:30, respectively.

(2) *Spray solution.* Dissolve 1 gram of ninhydrin in 100 milliliters of *n*-butanol and add 1 milliliter of pyridine.

(c) *Preparation of spotting solutions.* Prepare solutions of the sample and working standard, each containing 6 milligrams of antibiotic to be tested per milliliter in distilled water.

(d) *Procedure.* Prepare a plate as follows: On a line 2 centimeters from the base of the silica gel plate, and at intervals of 1 centimeter, spot 3 microliters each of the standard solution and the sample solution. In addition, prepare one spot composed of 3 microliters of the sample solution and 3 microliters of the standard solution. Place the supporting platform in the bottom of the tank and place the solvent trough on it, near the front of the tank. Place a piece of Whatman #3 MM filter paper or equivalent, measuring 20x3 centimeters and folded in half, lengthwise, over the front edge of the tank to form a cushion and drying wick for the plate. Place the plate in the solvent trough with the coated side toward the front of the tank and leaning against the filter paper at the top. Pour the developing solvent into the trough and bottom of the tank. Cover the tank. The plate should extend approximately 1 centimeter beyond the top of the tank and through the slot in the cover. Seal all the openings in the tank with masking tape, except where the plate leans against the filter paper. Remove the plate from the tank after 5.5 hours. Allow the plate to air dry and then heat it for 15 minutes at 110° C in an oven. Remove the plate from the oven and immediately spray it with the spray solution. The compound appears as a pink spot.

(e) *Evaluation.* The sample and standard should have traveled the same distance from the origin, and the standard and sample combined should appear as a single spot that has traveled the same distance as the sample and standard individually.

V40240 DEC 12 75 XUM

PART 444—OLIGOSACCHARIDE ANTIBIOTIC DRUGS

3. Part 444 is amended:

a. By adding new §§ 444.80 and 444.280 to Subparts A and C respectively, to read as follows:

§ 444.80 Tobramycin.

(a) *Requirements for certification*—(1) *Standards of identity, strength, quality, and purity.* Tobramycin is 0-3-amino-3-deoxy-α-D-glucopyranosyl-(1-4)-0-[2, 6-diamino-2,3,6-trideoxy-α-D-ribo - hexopyranosyl - (1-6)]-2-deoxy-L-streptamine. It is so purified and dried that:

(i) Its potency is not less than 900 micrograms of tobramycin per milligram on an anhydrous basis.

(ii) It passes the safety test.

(iii) Its moisture content is not more than 8 percent.

(iv) Its pH in an aqueous solution containing 100 milligrams per milliliter is not less than 9 and not more than 11.

(v) It gives a positive identity test for tobramycin.

(vi) Its residue on ignition is not more than 1.0 percent.

(vii) Its heavy metals content is not more than 30 parts per million.

(2) *Labeling.* It shall be labeled in accordance with the requirements of § 432.5 of this chapter.

$$\text{Micrograms tobramycin per milligram} = \frac{(A-B)\times(\text{normality of perchloric acid reagent})\times 93.4\times 100\times 1{,}000}{\text{Weight of sample in milligrams}\times(100-m)}$$

where:

A = Milliliters of perchloric acid reagent used in titrating the sample;
B = Milliliters of perchloric acid reagent used in titrating the blank;
m = Percent moisture of the sample.

(2) *Safety.* Proceed as directed in § 436.33 of this chapter.

(3) *Moisture.* Proceed as directed in § 436.201 of this chapter.

(4) *pH.* Proceed as directed in § 436.202 of this chapter, using an aqueous solution containing 100 milligrams per milliliter.

(5) *Identity.* Proceed as directed in § 436.318 of this chapter.

(6) *Residue on ignition.* Proceed as directed in § 436.207(a) of this chapter.

(7) *Heavy metals.* Proceed as directed in § 436.208 of this chapter.

§ 444.280 Tobramycin sulfate injection.

(a) *Requirements for certification*—(1) *Standards of identity, strength, quality, and purity.* Tobramycin sulfate injection is tobramycin solubilized with sulfuric acid in an aqueous solution containing one or more suitable buffers, chelating agents, and preservatives. Each milliliter contains tobramycin sulfate equivalent to either 10 milligrams or 40 milligrams of tobramycin. Its potency is satisfactory if it contains not less than 90 percent and not more than 120 percent of the number of milligrams of tobramycin that it is represented to contain. It is sterile. It is nonpyrogenic. It passes the safety test. Its pH is not less than 3.0 and not more than 6.5. The tobramycin used conforms to the standards prescribed by § 444.80(a)(1).

(2) *Labeling.* It shall be labeled in accordance with the requirements of § 432.5 of this chapter.

(3) *Requests for certification; samples.* In addition to complying with the requirements of § 431.1 of this chapter, each such request shall contain:

(i) Results of tests and assays on the batch for potency, safety, moisture, pH, identity, residue on ignition, and heavy metals.

(ii) Samples required: 10 packages, each containing approximately 500 milligrams.

(b) *Tests and methods of assay*—(1) *Potency.* Use either of the following methods; however, the results obtained from the microbiological turbidimetric assay shall be conclusive:

(i) *Microbiological turbidimetric assay.* Proceed as directed in § 436.106 of this chapter, preparing the sample for assay as follows: Dissolve an accurately weighed sample in sufficient distilled water to obtain a stock solution of convenient concentration. Further dilute an aliquot of the stock solution with distilled water to the reference concentration of 2.5 micrograms of tobramycin per milliliter (estimated).

(ii) *Nonaqueous titration.* Proceed as directed in § 436.213 of this chapter, using the titration procedure described in paragraph (e)(2) of that section. Calculate the tobramycin content as follows:

$$\text{Micrograms tobramycin per milligram} = \frac{(A-B)\times(\text{normality of perchloric acid reagent})\times 93.4\times 100\times 1{,}000}{\text{Weight of sample in milligrams}\times(100-m)}$$

where:

A = Milliliters of perchloric acid reagent used in titrating the sample;
B = Milliliters of perchloric acid reagent used in titrating the blank;
m = Percent moisture of the sample.

(2) *Safety.* Proceed as directed in § 436.33 of this chapter.

(3) *Moisture.* Proceed as directed in § 436.201 of this chapter.

(4) *pH.* Proceed as directed in § 436.202 of this chapter, using the undiluted solution.

(5) *Identity.* Proceed as directed in § 436.318 of this chapter.

(6) *Residue on ignition.* Proceed as directed in § 436.207(a) of this chapter.

(7) *Heavy metals.* Proceed as directed in § 436.208 of this chapter.

Because the prerequisite conditions for certifying the subject antibiotic have been complied with and because the matter is noncontroversial, public notice and delayed effective date procedures are unnecessary for this promulgation.

Effective date. This regulation shall be effective December 12, 1975.

(Sec. 507, 59 Stat. 463, as amended (21 U.S.C. 357))

Dated: December 5, 1975.

MARY A. MCENIRY,
Assistant to the Director for Regulatory Affairs; Bureau of Drugs.

SUBCHAPTER E—ANIMAL DRUGS, FEEDS, AND RELATED PRODUCTS

[Docket No. 75N-0217]

PART 558—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEEDS

Carbadox, Pyrantel Tartrate; Correction

In FR Doc. 75-26165 appearing at page 45164 in the FEDERAL REGISTER of October 1, 1975, the stated concentration of pyrantel tartrate in §§ 558.115(e) and 558.485(d)(2) (21 CFR 558.115(e) and 558.485(d)(2)) is corrected to read as set forth below.

1. In § 558.115, paragraph (e)(1) is corrected to read as follows:

§ 558.115 Carbadox.

• • • • • •

(e) *Special considerations.* (1) The manufacture of finished feeds processed from feed supplements does not require compliance with the provisions of section 512(m) of the act when they contain:

(i) Up to 0.055 percent (500 grams/ton) carbadox and used as provided in paragraph (f)(1) or (2) of this section.

(ii) Up to 0.055 percent (500 grams/ton) carbadox in combination with up to 0.106 percent (960 grams/ton) pyrantel tartrate and used as provided in paragraph (f)(3) of this section.

• • • • • •

2. In § 558.485, paragraph (d)(2) is corrected to read as follows:

§ 558.485 Pyrantel tartrate.

• • • • • •

(d) • • •

(2) The manufacture of finished feeds processed from feed supplements does not require compliance with the provisions of section 512(m) of the act when they contain:

(i) Up to 0.106 percent (960 grams/ton) pyrantel tartrate and used as provided in paragraph (e)(1) or (2) of this section.

(ii) Up to 0.106 percent (960 grams/ton) pyrantel tartrate in combination with up to 0.055 percent (500 grams/ton) carbadox and used as provided in paragraph (e)(4) of this section.

• • • • • •

Dated: December 4, 1975.

Title 23—Highways

CHAPTER I—FEDERAL HIGHWAY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

PART 450—PLANNING ASSISTANCE AND STANDARDS

Urban Transportation Planning; Amendment

On September 17, 1975, documents were published in the FEDERAL REGISTER (40 FR 42976, 42979) adding a new Part 450, Subparts A and C, to Title 23 CFR. The definition of the term "Governor" in §§ 450.104 and 450.304 inadvertently omitted the Governor of Puerto Rico. Under 23 U.S.C. 101(a) Puerto Rico is included within the definition of "State" and as a result is subject to the urban transportation planning requirements of Title 23, U.S.C. as implemented by Part 450, Subpart A and the transportation improvement requirements under Part 450, Subpart C. Accordingly, the definition of "Governor" in 23 CFR 450.104 and 450.304 is amended to read as follows:

"Governor" means the Governor of any one of the fifty states, or Puerto Rico, and includes the Mayor of the District of Columbia.

This amendment is effective on December 12, 1975.

Issued on December 5, 1975.

NORBERT T. TIEMANN,
Federal Highway Administrator.
ROBERT E. PATRICELLI,
Urban Mass Transportation Administrator.

[FR Doc.75-33436 Filed 12-11-75;8:45 am]

PART 630—PRECONSTRUCTION PROCEDURES

Federal-Aid Programs Approval and Authorization

● **Purpose.** The purpose of this document is to issue final regulations to prescribe policies and procedures for preparation and submission of programs for utilization of all classes of highway construction funds provided under the provisions of title 23 U.S.C. and Federal highway acts and to set forth procedures establishing the Federal Highway Administration (FHWA) authorization to proceed with work as the point of obligation of Federal funds. ●

In the November 4, 1974, edition of the FEDERAL REGISTER (39 FR 38911), the FHWA published a notice of proposed rulemaking. In addition to comments received as a result of that notice many comments were received through the Advisory Commission on Intergovernmental Relations.

Review of the docket for comments indicated that there were three main areas of concern with respect to the proposed regulation. These included the need for an annual program, loss of flexibility as a result of the elimination of Stage I program, and the requirement for joint approval of urban system projects by the Urban Mass Transportation Administration (UMTA) and the FHWA.

A number of commentors felt that the preparation of an annual program would be time consuming to prepare, review, and approve and alleged that it would not be meaningful since it would disregard (a) the fact that the Federal-aid funds are but a part of the whole, (b) the obligational authority limitation and other variations in Federal-aid financing, and (c) the fluctuations in State financing, and (d) the inability to meet deadlines in the development and approval of the plans, specifications and estimates and other documents. Other commentors supported the concept of an annual program and felt that it would reduce the amount of paperwork and serve as another useful tool in determining the funding of transportation goals and objectives.

These final regulations continue the annual program concept. Clearly, the FHWA has a mission to implement national goals and priorities articulated by Congress, and programing is the last stage in the Federal-aid process during which proposals can be evaluated in the context of the whole. The Federal-aid program for each State should reflect a blend of local, State, and national goals.

Programing represents the merging of plans and priorities with available funding. Since Federal-aid funds are apportioned annually and State budgets are generally prepared annually, the development of an annual program best suits these conditions.

The FHWA evaluation of a State's annual program will include a judgment of the extent to which national goals are being addressed, and permit a review of the overall program to maximize impact on solution of transportation problems while not becoming preoccupied with the relative priority of individual projects. In a particular year, an individual State program may, for a number of reasons, reflect considerable imbalance in Federal-aid legislation. However, over a period of years the State program for the various funding categories should reflect progress in the areas of national emphasis.

These programming procedures should simplify the programming in process and reduce "red tape." The individual State and the FHWA Division Administrator will be able to mutually agree on formats and, within a broad time frame, the schedule for submission of the annual Federal programs, thus, the Federal programs can be tailored to the existing programming procedures of the individual State and the needs of the FHWA Division office. Hopefully, the programs developed by a State for internal use can be used to the maximum extent possible as the basis for the Federal programs, thus, satisfying both Federal and State needs and permitting the elimination of duplication and unnecessary paperwork.

These regulations give the States the flexibility to supplement or revise annual programs as necessary at any time. If a State does not request authorization to proceed with Federal funding of a programmed project by the end of a program period, the project will automatically be dropped from the program. Thus, program changes will need to be made only to add new projects or to supplement information on projects already in a program.

The next major issue raised was with respect to the elimination of Stage I and II programs. Massachusetts was one of several States concerned with the possible loss of flexibility as a result of the elimination of Stage I programming for preliminary engineering (PE) and Right-of-Way (ROW) acquisition. In consideration of the comments received, the regulation has been revised and now permits authorization of work without obligation of funds through the location stage of a project. This modification and the opportunity the States will have under these programming procedures to request authorization of partial phases of work, in addition to existing procedures permitting advance construction projects, pursuant to 23 U.S.C. 115, and advance acquisition or right-of-way, pursuant to 23 U.S.C. 108(c), should provide sufficient flexibility to the States to continue to administer a viable Federal-aid program.

V40I240 DEC 12 75 XUM

Another concern expressed by the State of Massachusetts and other States involved the obligation of funds for PE and ROW projects presently authorized in Stage I. As a result, the regulation has been revised to permit previously authorized Stage I PE and ROW projects to continue without immediate obligation of Federal funds. Only when additional authorizations are requested for work beyond the location stage will Federal funds also have to be obligated to cover previous authorizations. If a State feels that this method of obligating previously authorized Stage I work will cause a hardship, the State may submit its own conversion schedule for FHWA consideration. The transition to new programming procedures has been further simplified by deleting from the regulation the provision that approved and authorized Stage I projects be included as items in the annual program for the year in which the funds are to be obligated.

The requirements for approval of program (§ 630.112) have been revised substantially. As revised, when a Metropolitan Planning Organization submits an urban system funded nonhighway mass transit project which is in its Transportation Improvement Program annual element (23 CFR Part 450, Subpart C) and the project is not included by the State in a statewide annual program, UMTA concurrence will be required for all urban system funded projects in the urbanized area affected. With the exception of such cases, FHWA acts only on programs or portions of programs for highway projects and UMTA will act only on portions of the urban system program involving nonhighway mass transit projects.

Except for the three major issues discussed above, most of the revisions made to the proposed regulations were editorial changes or minor clarifying revisions rather than substantive revisions. Other revisions which are of interest are discussed in the following commentary.

Definitions of "program period," "allocation," "preliminary engineering," and "project" were added. The proposed definition of "Federal-aid program" was amended to clarify that it is an annual program.

Proposed § 630.103(b) has been revised (see § 630.106(b) of the final regulation) to require an annual program rather than a "detailed program" to be consistent with the definition of "Federal-aid program."

The examples of national goals and objectives in § 630.103(d) of the proposed regulations have been eliminated in the final regulations (§ 630.106(c)) since national goals and objectives are presently described in sufficient detail in title 23.

Section 630.103(e) of the proposed rule has been deleted and incorporated in the definition of a "project" in § 630.104.

Proposed § 630.104 has been expanded (§ 630.108) to include items related to program development which were previously contained in the general requirements of proposed § 630.105.

The provisions in § 630.104(e) permitting programs to be revised is now found in § 630.112(e).

Proposed § 630.104(c) has been substantially revised (§ 630.108 (c) and (d)) to explain clearly the parts of an annual program and to require identification of the classes of funds.

A new § 630.108 (e), (f), and (g) has been added with (1) instructions as to the information to be included in Parts I and II of an annual program, (2) the programing of bond issue projects, advance right-of-way and advance construction projects, and (3) the programing of projects in Alaska funded under 23 U.S.C. 118(b).

Revision has been made to proposed § 630.105(c) to clarify that projects funded with urban system funds shall be selected in accordance with provisions defined in the Transportation Improvement Regulations (23 CFR Part 450, Subpart C). It is possible to have a project on the urban system funded by other than urban system funds which may be selected by other than the appropriate local officials. Specifically, the State may select projects on State routes which are on an urban system for utilization of safety funds and nonhighway public mass transit projects may be initiated by transit officials.

The programing requirements applicable to urbanized areas (§ 630.110(d)) expand the proposed regulation (§ 630.105(d)) to include specific information on exemptions from the 23 U.S.C. 134 planning process and to add for emphasis, the requirement of 23 U.S.C. 134 (a) that responsible local officials of the urban area in which a project is to be located be consulted and their views considered with respect to the corridor, location, and design of the project.

Section 630.110(f) of the regulations (§ 630.105(f) of the proposed regulation) addresses categories of work which may include several locations of activity in one project. Revision has been made to clarify the intent that qualifying work may be combined in a single areawide project per category, but not all categories combined into one areawide project.

One comment pointed out that with regard to the authorization to proceed (§ 630.107 of the proposed regulations; § 630.114 of the final regulations) the regulations failed to mention Federal requirements which must be satisfied prior to authorization of the various phases of work, and further, the regulations lacked instructions on how to submit data concerning fulfillment of the requirements. Section 630.114 now includes a statement that all prerequisite requirements must be satisfied prior to the State requesting authorization to proceed on a phase of work. Instructions on procedures to satisfy prerequisite requirements are not covered in this regulation as these may be found in the appropriate implementing regulations for the specific phase of work. Another comment stated that certification acceptance does not require an official letter of authorization, but could be handled in the program stage. While it is true that authorization to proceed may be given concurrent with program approval, it is not automatic but requires a specific request. This is in accord with the certification acceptance regulations (23 CFR Part 640).

Section 630.114(b) was added to emphasize that urban system funded nonhighway mass transit projects are not authorized by FHWA. Authorization to proceed is an UMTA delegated action pursuant to 23 CFR Part 810.

Section 630.114(c) was added to clarify that the initial authorization to proceed is not automatic with program approval. While not automatic, if prerequisite requirements have been satisfied, a State may request and receive authorization to proceed concurrent with program approval action.

Section 630.114(d) was added to clarify project changes at the authorization request stage. When an authorization is requested for a project phase or work and the project has been materially changed in length or termini from that approved in the annual program, the authorization request shall include a request for program revision.

Section 630.114(e) was added to clarify authorization of portions of a phase of work. One comment expressed concern over exceeding the estimated cost of an authorization and having expenditures cited. Authorization to proceed under this regulation will be similar to current practices. Authorizations will be given for a phase or a portion of a phase of work and an estimated amount of money will be obligated in accordance with § 630.114(f). Should additional funding be required to finish the authorized work, the project agreement may be modified to reflect the increase subject to the availability of funds. No additional authorizations are required by virtue of differences between estimated and actual costs.

In § 630.114(f) (§ 630.106(b) of the proposed regulation), additional information has been added to note the exceptions to contract obligation at time of authorization. These are advance construction projects, bond issue projects, portions of the PE and ROW phases through the project location stage, and special cases. The meaning of "full Federal participation" was questioned in one comment. This means that Federal participation shall be to the full pro rata percentage for the class of funds being utilized (i.e., Interstate—90 percent, primary and secondary—70 percent, etc.).

A new § 630.116 relating to transition with existing programs has been added to the final regulations. In order to provide an orderly transition to full compliance for these outstanding actions, a transition period is provided from the date of issuance of this regulation until October 1, 1976. During this period, the State Highway Department shall phase out the program procedures of superseded PPM 21–1 and institute requirements of this regulation which shall become fully implemented by October 1, 1976.

This regulation will supersede FHWA PPM 21–1.

In consideration of the foregoing and under the authority of 23 U.S.C. 105, 106, 118, 134 and 315, and the delegation of authority by the Secretary of Transportation at 49 CFR 1.48(b), Chapter I of title 23 of the Code of Federal Regulations is hereby amended by adding a new Part 630, Subpart A, as set forth below.

Effective date. A transition period shall exist from November 14, 1975, the date of issuance of this regulation, until October 1, 1976. The State highway agency shall, during this period, phase out the programing procedures of superseded PPM 21–1 and institute the requirements of this regulation. This regulation shall become fully implemented by October 1, 1976.

Issued on: November 14, 1975.

J. R. COUPAL, JR.,
Deputy Administrator.

Subpart A—Federal-Aid Programs Approval and Authorization

See.

630.102 Purpose.
630.104 Definitions.
630.106 Policy.
630.108 Program submissions.
630.110 General requirements.
630.112 Approval of annual programs.
630.114 Authorization to proceed.
630.116 Transition with existing annual programs.

AUTHORITY: 23 U.S.C. 105, 106, 118, 134 and 135; delegation of authority in 49 CFR 1.48(b).

Subpart A—Federal-Aid Programs Approval and Authorization

§ 630.102 Purpose.

The purpose of this regulation is to prescribe policies and procedures for preparation and submission of programs for utilization of all classes of highway construction funds provided under the provisions of title 23, United States Code (U.S.C.), and Federal Highway Acts, and procedures establishing the Federal Highway Administration's (FHWA) authorization to proceed with work as the point of obligation of Federal funds.

§ 630.104 Definitions.

(a) Except as otherwise provided, terms defined in 23 U.S.C. 101(a) are used in this Subpart as so defined.

(b) As used herein: "Allocation" means an administrative distribution of funds among the States.

(c) "Federal-aid Program(s)" means an annual listing of projects proposed by a State highway agency for utilization of apportioned and allocated Federal funds.

(d) "Preliminary Engineering" means work necessary to produce construction plans, specifications, and estimates to the degree of completeness required for undertaking construction thereunder, including locating, surveying, designing and related work.

(e) "Program Period" means a period of 12 consecutive months beginning not later than October 1.

(f) "Project" means an undertaking for highway construction, which may encompass phases of work including preliminary engineering (PE), right-of-way (ROW) and actual construction, individually or any combination thereof, or any other work or activity to carry out the provisions of title 23, U.S.C. and Federal-Aid Highway Acts.

§ 630.106 Policy.

(a) Development of a transportation facility involves a continuing sequence of events spanning several years. It is necessary that transportation programs be prepared to reflect the continuous nature of the project development process starting with determination of a transportation need and followed by location, design, acquisition of ROW and construction or implementation of individual physical or operational improvements.

(b) The State highway agency of any State desiring to avail itself of Federal-aid funds authorized by Federal highway legislation shall submit annually to the Federal Highway Administrator programs of proposed projects for the utilization of the unobligated balance of funds apportioned or allocated to it.

(c) In developing the Federal-aid programs, each State highway agency shall consider national goals, objectives, and emphasis areas as set forth in title 23, U.S.C. or promulgated by the Federal Highway Administrator.

§ 630.108 Program submissions.

(a) The State highway agency shall prepare and submit to the Federal Highway Administrator the Federal-aid programs. The programs shall be submitted, separately or in any combination, as soon as practical after the apportionments or allocations of the Federal-aid funds have been made for a fiscal year. All programs shall be submitted by October 1 of each year at times agreed upon by the State and the Federal Highway Administrator.

(1) For rural areas and urban areas of less than 50,000 population, the State highway agency shall develop a separate program for each class of apportioned and allocated funds. Projects jointly financed with a combination of Federal-aid highway funds should be included in each program for the classes of funds involved.

(2) For urbanized areas, the State highway agency is encouraged to develop a single statewide urbanized areas program containing all proposed Federal-aid projects located within the urbanized areas, regardless of class of funds.

(b) A Federal-aid program shall include only those projects that provide for phases of work which the State highway agency expects to request authorization to proceed with during the program period.

(c) A program shall consist of two parts:

(1) Part I shall contain projects which have not received any previous authorizations. These projects shall include phase(s) of work (i.e., PE, ROW or actual construction or both) that are expected to receive initial authorization during the program period.

(2) Part II shall contain projects, which include phase(s) of work previously approved and authorized, in which additional phase(s) of work are being added that are expected to receive initial authorization during the program period. A phase of work may be added to an existing project only when the termini of the work covered by the phase are the same as the project termini. When not, the additional phase shall be programed in Part I as a new project.

(3) Additional authorizations for work within previously approved and initially authorized phase(s) of work, do not require additional program action.

(d) A program submission shall identify the classes of funds involved with the classes of funds appropriate to the Federal-aid system designations. The program shall be submitted in a form agreed upon by the State and Federal Highway Administrator. For convenient reference and identification, projects in Part I shall be assigned an item number. Projects in Part II shall be identified by the program item number initially assigned. A jointly financed project shall be assigned a single item number used to identify the project in each program for the various classes of funds involved.

(e) The State shall furnish the Federal Highway Administrator all information requested to support program approval action, which may include any or all of the following:

(1) For Part I projects:

(i) The item number;

(ii) A map or maps showing the location of the projects;

(iii) A description of project termini, including city or county location;

(iv) A description of the phase(s) of work;

(v) The project length;

(vi) The estimated total cost of the phase(s) of work and the Federal funds share and if it is anticipated that authorization of less than the total cost of a phase of work will be requested during the program period, the amount of the lesser authorization.

(vii) The comments and statements pertaining to the A–95 clearinghouse review pursuant to 23 CFR Part 420, Subpart C,

(viii) Any additional data as may be necessary to meet specific program requirements, e.g., information on highway and railroad grade crossing protection pursuant to 23 U.S.C. 109(e), and airport coordination pursuant to 23 U.S.C. 318;

(2) Part II projects:

(i) The item number;

(ii) The project number;

(iii) A description of the added phase(s) of work;

(iv) The estimated total cost of the added phase(s) of work, the Federal funds share and the amount of authorization anticipated to be requested during the program period, and;

(v) That information needed to satisfy requirements as in paragraphs (e)(1)(vii) and (viii) of this section for the added phase(s) of work and not furnished in previous program submissions.

(f) Bond Issue projects, under 23 U.S.C. 122, Advance Acquisition of ROW, under 23 U.S.C. 108 and Advance Construction projects, under 23 U.S.C. 115

V 40 240 DEC 12 75 XUM

shall be supported and programed as required by 23 CFR Part 140, Subpart F; 23 CFR Part 712, Subpart G; and 23 CFR Part 630, Subpart G; and shall be generally consistent with this regulation unless the implementing regulation specifically provides otherwise.

(g) Projects in the State of Alaska funded under 23 U.S.C. 104 shall be programed consistent with this regulation. These funds may be transferred from one system category to another without restraint so long as the projects on which the funds are to be authorized provide for the construction of access and development roads on a Federal-aid system that will serve resource development, recreational, residential, commercial, industrial or other like purpose.

(h) Projects involving other special procedures or special fund authorizations, shall be supported and programed as required by the implementing regulation issued to cover such funds and shall be generally consistent with this regulation unless the implementing regulation specifically provides otherwise.

§ 630.110 General requirements.

(a) The Federal-aid program shall consist of projects located upon an approved Federal-aid system except that projects for determining the acceptable location of Federal-aid routes; projects which are legislatively mandated for off-system Federal-aid work such as those under 23 U.S.C. 151, 219 and 405, and non-highway projects under 23 U.S.C. 142 and 103(e)(4) may also be included in the program.

(b) Projects for inclusion in the secondary Federal-aid program (23 U.S.C. 104(b)(2)) shall be selected by the State highway agency and the appropriate local officials in cooperation with each other, except where all public roads and highways are under the control and supervision of the State highway agency. An acceptable evidence of cooperation may be as follows:

(1) A procedure contained in an approved State Certification Acceptance Plan under 23 CFR Part 640 or Action Plan under 23 CFR Part 795; or

(2) A statement from the State highway agency accompanying the program submission, certifying selection by local officials and the State in cooperation with each other.

(c) Projects for utilization of urban system funds shall be selected by appropriate local officials with the concurrence of the State highway agency.

(1) Projects developed in accordance with the planning process pursuant to 23 U.S.C. 134 and included in the Transportation Improvement Program's annual element (23 CFR 450.312) meet the requirement for local officials selection. Inclusion of the projects in a Federal-aid program signifies State highway agency concurrence.

(2) In areas where the Section 134 planning process is not required, selection by local officials may be evidenced by:

(i) A procedure contained in an approved State Certification Acceptance Plan under 23 CFR Part 640 or Action Plan under 23 CFR Part 795, or

(ii) A statement from the State highway agency accompanying the program submission certifying selection by local officials.

(d) Projects in urbanized areas shall:

(1) Be based on a planning process pursuant to 23 U.S.C. 134 and 23 CFR Part 450, Subpart A. Certain types of safety projects may be exempted from this process as permitted by 23 CFR Part 655, Subpart E.

(2) Be selected from the annual element of the Transportation Improvement Program consistent with 23 CFR Part 450, Subpart C.

(3) Be constructed only after the responsible public officials of jurisdictions in which the project is located have been consulted and their views considered with respect to the corridor, the location and the design of the project.

(e) Program(s) of projects to be administered under Certification Acceptance shall indicate experimental features and any known or proposed exceptions to approved standards or procedures under 23 CFR Part 640.

(f) Categories of work such as, but not limited to, spot safety improvements, traffic engineering improvements, billboard removal or other minor items involving work at a number of separate locations, may be included as a single areawide project per category in the appropriate program(s). The size of projects shall be kept reasonable to permit timely completion of work involved.

§ 630.112 Approval of annual programs.

(a) The Federal Highway Administrator will notify the State highway agency in writing of the action taken on each program submission, indicating approval in whole or in part and any qualifications or conditions determined necessary.

(b) Program approval will indicate Federal agreement with the State's selection of projects, which shall then become eligible for apportioned or allocated Federal funds upon authorization to proceed.

(c) Program approval shall not constitute an obligation of funds, nor shall it establish a date of eligibility for Federal funding.

(d) The Federal Highway Administrator will notify the appropriate A-95 clearinghouse(s) of the action taken on projects in accordance with 23 CFR Part 420, Subpart C.

(e) Approved programs may be modified as necessary. Program modifications shall be consistent with procedures established in this regulation for its development.

(f) Federal-aid programs will be approved by the Federal Highway Administrator except as follows:

(1) Programs for projects funded with Federal-aid urban system funds pursuant to 23 U.S.C. 104(b)(6) shall be approved by:

(i) the Federal Highway Administrator with respect to highway projects;

(ii) the Urban Mass Transportation Administrator with respect to nonhighway public mass transit projects; and

(iii) the Federal Highway Administrator and Urban Mass Transit Administrator jointly with respect to both highway and nonhighway public mass transit projects for an urbanized area when the program or applicable portion does not include all Federal-aid urban system nonhighway public mass transit projects contained in the annual element of the Transportation Improvement Program for the urbanized area.

(2) Programs for nonhighway public mass transit projects funded with interstate substitution funds pursuant to 23 U.S.C. 103(e)(4) shall be approved by the Urban Mass Transit Administrator.

(g) In any case where the State does not concur in a nonhighway public mass transit project, a statement describing the reasons for the nonconcurrence shall accompany the Federal-aid program submission.

(h) If a phase(s) of a programed project has not received initial Federal authorization by the end of the program period, the phase(s) of work will automatically be dropped from the program and must be reprogramed when the work is anticipated to be authorized.

§ 630.114 Authorization to proceed.

(a) Authorization to proceed with the work on any phase of a highway project, including those under Certification Acceptance (23 CFR Part 640), shall be issued by the Federal Highway Administrator in response to a request from the State highway agency. Such a request shall be submitted only after appropriate prerequisite requirements pursuant to Title 23, U.S.C., and implementing regulations have been satisfied. Prerequisite requirements are dependent upon the character of work to be authorized.

(b) Authorizations to proceed subsequent to program approval for nonhighway public mass transit projects will be issued by the Urban Mass Transit Administrator under 23 CFR Part 810 or 23 CFR Part 476, Subpart D.

(c) The initial authorization to proceed for a phase of work shall be based on an approved project providing for that phase of work and contained in an approved program for the current program period, except as may be permitted in § 630.108. Authorization to proceed with work may be given concurrent with or subsequent to program approval.

(d) When an authorization is for a project phase of work and the project has been materially changed in length or termini from that approved in the annual program, the authorization request shall include a request for program revision.

(e) Authorization to proceed may be given for a complete phase or phases of work, or a portion of a phase of work. Within phases of work the division of work for partial authorization shall be at logical break points as agreed to by the State and the Federal Highway Administrator, based on the task accomplishment, not on a period of time. Tasks shall be expected to become directly attributable to the development of specific physical construction projects. In all cases, Federal funds shall not participate in costs incurred prior to the date of authorization to proceed.

(f) Authorization to proceed with work shall be deemed a contractual obligation of the Federal Government under 23 U.S.C. 106 and shall require that appropriate funds be available for full Federal participation for the cost of work authorized except as follows:

(1) Advance construction projects under 23 U.S.C. 115;

(2) Bond issue projects under 23 U.S.C. 122;

(3) The preliminary studies portion of the preliminary engineering and right-of-way phases (including hardship acquisition and protective buying) through the location stage (23 CFR Part 795) when a State highway agency requests authorization without obligation of funds. The written notice to a State approving their request will contain the following statement: "Authorization to proceed shall not constitute any commitment of Federal funds nor shall it be construed as creating in any manner any obligation on the part of the Federal Government to provide Federal funds for the undertaking." When a project has received an authorization as permitted above, subsequent authorizations beyond the location stage shall not be given until appropriate available funds have been obligated to cover the previous authorization. Costs incurred after the initial authorization are eligible for Federal reimbursement; and

(4) In special cases where the Federal Highway Administrator determines it to be in the best interests of the Federal-Aid highway program.

(g) A State highway agency's request for authorization shall be by letter or other form mutually acceptable to the State and Federal Highway Administrator. FHWA authorizations will not be issued until all requirements are met relative to the specific work to be authorized.

§ 630.116 Transition with existing annual programs.

A transition period shall exist from the date of issuance of this regulation until October 1, 1976. The State highway agency shall, during this period, phase out the programing procedures of superseded PPM 21-1[1] and institute the requirements of this regulation. This regulation shall become fully implemented by October 1, 1976.

[FR Doc.75-33554 Filed 12-11-75;8:45 am]

[1] See § 1.32(b)(5)(i).

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-807]

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

● **Purpose. The purpose of this notice is to list those communities wherein the sale of flood insurance is authorized under the National Flood Insurance Program (42 U.S.C. 4001-4128).** ●

Insurance policies can be obtained from any licensed property insurance agent or broker serving the eligible community, or from the National Flood Insurers Association servicing company for the state (addresses are published at 39 FR 26186-93). A list of servicing companies is also available from the Federal Insurance Administration (FIA), HUD, 451 Seventh Street, SW., Washington, D.C. 20410.

The Flood Disaster Protection Act of 1973 requires the purchase of flood insurance as a condition of receiving any form of Federal or Federally related financial assistance for acquisition or construction purposes in a flood plain area having special hazards within any community identified by the Secretary of Housing and Urban Development.

The requirement applies to all identified special flood hazard areas within the United States, and no such financial assistance can legally be provided for acquisition or construction in these areas unless the community has entered the program. Accordingly, for communities listed under this part no such restriction exists, although insurance, if required, must be purchased.

The Federal Insurance Administrator finds that delayed effective dates would be contrary to the public interest. The Administrator also finds that notice and public procedure under 5 U.S.C. 553 (b) are impracticable and unnecessary.

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence new entries to the table. In each entry, a complete chronology of effective dates appears for each listed community. The date that appears in the fourth column of the table is provided in order to designate the effective date of the authorization of the sale of flood insurance in the area under the emergency or the regular flood insurance program. These dates serve notice only for the purposes of granting relief, and not for the application of sanctions, within the meaning of 5 U.S.C. 551. The entry reads as follows:

V40240 DEC 12 75 XUM

§ 1914.4 List of eligible communities.

State	County	Location	Effective date of authorization of sale of flood insurance for area	Hazard area identified	State map repository	Local map repository

Title 29—Labor

CHAPTER XVII—OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION, DEPARTMENT OF LABOR

PART 1953—CHANGES FOR STATE PLANS FOR THE DEVELOPMENT AND ENFORCEMENT OF STATE STANDARDS

Oregon State Standards

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations prescribes procedures under section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) (hereinafter called the Act) by which the Assistant Regional Director for Occupational Safety and Health (hereinafter called Assistant Regional Director) under a delegation of authority from the Assistant Secretary of Labor for Occupational Safety and Health (hereinafter called the Assistant Secretary) (29 CFR 1953.4) will review and approve standards promulgated pursuant to a State plan which has been approved in accordance with section 18(c) of the Act and 29 CFR Part 1902. On December 28, 1972, notice was published in the FEDERAL REGISTER (37 FR 28628) of the approval of the Oregon plan and the adoption of Subpart D to Part 1952 containing the decision. The notice of Approval of Revised Developmental Schedule was further published on April 1, 1974, in the FEDERAL REGISTER (39 FR 11881).

The Oregon plan provides for the adoption of State standards which are at least as effective as comparable Federal standards promulgated under section 6 of the Act.

Section 1952.108 of Subpart D sets forth the State's schedule for the adoption of at least as effective State standards. By letter dated July 28, 1975 from M. Keith Wilson, Chairman, Workmen's Compensation Board to James W. Lake, Assistant Regional Director, and incorporated as part of the plan, the State submitted proof documents concerning Subpart H of Part 1910, Title 29, Code of Federal Regulations. These standards, which are contained in Oregon Administrative Rules Chapter 437, section 22–050 through 22–059 and section 22–018(A)(c) and Oregon Administrative Rules Chapter 837, Sections 11–005 through 11–030 were promulgated by the State after an Order Adopting Rules was published in the Department of the State's Administrative Rules Bulletins Vol. XIV, No. 12, dated December 15, 1974; Vol. XIV, No. 13, dated January 1, 1975; and Vol. XV, No. 1, dated July 1, 1975. No request for public hearing was received.

2. *Decision.* Having reviewed the State submission in comparison with the Federal standards, it has been determined that the State standards are at least as effective as the comparable Federal standards and are hereby approved. The detailed standards comparison is available at the locations specified below.

3. *Location of supplement for inspection and copying.* A copy of the standards supplement, along with the approved plan, may be inspected and copied during normal business hours at the following locations: Office of the Assistant Regional Director, Occupational Safety and Health Administration, Room 6048, 909 First Avenue, Federal Office Building, Seattle, Washington 98174; Workmen's Compensation Board, Labor and Industries Building, Room 204, Salem, Oregon 97310; and the Technical Data Center, Room N3620, 200 Constitution Avenue NW., Washington, D.C. 20210.

4. *Public participation.* Under 29 CFR 1953.2(c) the Assistant Secretary may prescribe alternative procedures to expedite the review process or for other good cause which may be consistent with applicable laws. The Assistant Secretary finds that good cause exists for not publishing the supplement to the Oregon plan as a proposed change and making the Assistant Regional Director's approval effective upon publication for the following reason.

The standards were adopted in accordance with the procedural requirements of State law which provide for public comment and therefore further opportunity for public participation would be repetitious.

This decision is effective December 12, 1975.

(Sec. 18, Pub. L. 91–596, 84 Stat. 1608 (29 U.S.C. 667))

Signed at Seattle, Washington this third day of November, 1975.

JOHN A. GRANCHI,
Acting Assistant Regional Director.

[FR Doc.75-33591 Filed 12-11-75;8:45 am]

Title 38—Pensions, Bonuses, and Veterans' Relief

CHAPTER I—VETERANS ADMINISTRATION

PART 17—MEDICAL

Extensions of Community Nursing Home Care Beyond 6 Months

The Administrator of Veterans Affairs amends Part 17 of Title 38, Code of Federal Regulations, to authorize Directors of health care facilities to approve extensions of community nursing home care at the expense of the United States beyond 6 months.

Section 620(a) provides that nursing home care at the expense of the United States for more than 6 months in the aggregate in connection with any one transfer may not be furnished except in the case of the veteran whose hospitalization was primarily for a service-connected disability or where in the judgment of the Administrator a longer period is warranted in the case of any other veteran.

The authority given to the Administrator by law for extensions was previously delegated in § 17.51a to the Chief Medical Director, his deputy, Associate Deputy Chief Medical Director for Operations or the Director, Field Operations. The delegation to Directors of health care facilities, who will exercise this authority only within the terms of this section, will provide for more expeditious action on these requests since direct knowledge regarding each case would be more readily available to those officials.

Compliance with the provisions of § 1.12 of this chapter, as to notice of proposed regulatory development and delayed effective date is unnecessary in this instance and would serve no useful purpose because the change consists of internal practice and procedure.

Section 17.51a is revised to read as follows:

§ 17.51a Extensions of community nursing home care beyond 6 months.

Directors of health care facilities may authorize, for any veteran whose hospitalization was not primarily for service-connected disability, an extension of nursing care in a public or private nursing home care facility at Veterans Administration expense beyond 6 months for circumstances of an unusual nature such as when a medical and economic need continues to exist, additional time is required to complete other arrangements for care, or when readmission to a hospital is not deemed professionally advisable despite terminal deterioration of the veteran's medical condition.

Effective date. This VA Regulation is effective October 31, 1975.

Approved: December 5, 1975.

[SEAL] R. L. ROUDEBUSH,
Administrator.

[FR Doc.75-33542 Filed 12-11-75;8:45 am]

Title 41—Public Contracts and Property Management

CHAPTER 50—PUBLIC CONTRACTS, DEPARTMENT OF LABOR

PART 50–201—GENERAL REGULATIONS

Public Utility, Regular Dealer in Uranium Concentrates, Uranium Hexafluoride or Enriched Uranium, Walsh-Healey Public Contracts Act

On June 20, 1975, there was published in the FEDERAL REGISTER (40 FR 26405) a notice of proposed rulemaking to exempt contracts with public utilities from the manufacturer and regular dealer requirements of Section 1(a) of the Walsh-Healey Public Contracts Act to permit Government agencies, including the TVA to procure uranium concentrates, uranium hexafluoride and enriched uranium from public utilities.

Interested parties were given the opportunity to submit, not later than July 21, 1975, data, views, and recommendations concerning the proposed exemption. No unfavorable comments have been received, but one comment was received from the TVA pointing out an error in the formula for uranium concentrates.

Accordingly, the proposed exemption is hereby adopted without change, except for the correction of the uranium formula, and the justification for this exemption set out in the proposal is hereby adopted as my finding.

I find that the justification for this exemption is as follows:

1. Under current Energy Resources Development Administration regulations, enrichment customers, such as TVA, may include 10 percent foreign uranium in feed material supplied ERDA for enrichment in 1977, 15 percent in 1978, and an increasing percentage each following year until all restrictions on use of foreign materials are removed in 1984.

2. Recent efforts by TVA to procure domestic uranium presumably from firms meeting the requirements of regular dealer or manufacturer by negotiation or invitations to bid have not been satisfactory in meeting TVA's domestic uranium requirements.

3. Some public utilities whose nuclear programs have been curtailed or cancelled have indicated that they will be selling their supplies of uranium in the near future. Both foreign and domestic buyers are competing for these supplies. Because public utilities may not be considered to be manufacturers or regular dealers in uranium within the meaning of the Public Contracts Act, this additional needed source of domestic uranium would not be available to TVA without an exemption from the manufacturer or regular dealer requirements of the Act.

Accordingly, § 50–201.604 is amended by adding a new paragraph (e) reading as follows:

§ 50–201.604 Partial administrative exemptions.

* * * * *

(e) Contracts with a public utility for the procurement of uranium concentrates (U_3O_8), uranium hexafluoride (UF_6), or enriched uranium are exempt from the requirement of Section 1(a) of the Act and § 50–201.1 that the contractor be a manufacturer or regular dealer in the materials, supplies, articles, or equipment to be manufactured or used in the performance of the contract. For purposes of this exemption, a public utility is defined to be an enterprise engaged in the transmission and sale of electric power and energy and whose rates therefor are regulated under State, local, or Federal laws governing operations of public utility enterprises.

As this amendment grants an exemption, it shall be effective December 12, 1975.

Signed at Washington, D.C., on this 5th day of December 1975.

ROBERT C. CHASE,
Deputy Assistant Secretary for Employment Standards.

[FR Doc.75-33590 Filed 12-11-75;8:45 am]

PART 50–201—GENERAL REGULATIONS

Regular Dealer for Used Automatic Data Processing Equipment, Walsh-Healey Public Contracts Act

On June 13, 1975, there was published in the FEDERAL REGISTER (40 FR 25219) a notice of proposed rulemaking setting forth the definition of a regular dealer for used automatic data processing equipment. Interested parties were given the opportunity to submit, not later than July 14, 1975, data, views, or arguments regarding this proposal.

No unfavorable comments have been received and the proposed definition of regular dealer is hereby adopted without change.

The proposed findings justifying the change as published in the proposal are hereby adopted as my finding and are as follows:

V40240 DEC 12 75 XUM

1. The market place for automatic data processing equipment is unique in that the Government's requirements may be satisfied through the use of new equipment provided by manufacturers or through the use of used equipment made available through a system of used ADPE suppliers.

2. Original equipment manufacturers supply equipment without differentiating between new, used, or recycled equipment with a uniform price applying to all categories.

3. Suppliers of used equipment acquired by the General Services Administration during FY 74 yielded a savings of 9.75 million dollars from the original equipment manufacturers' price of 30.03 million dollars. Comparable savings have been achieved when other agencies have obtained services from the suppliers of used computer equipment.

4. Regular dealers as defined in 41 CFR 50–201.101(b) and the Federal Procurement Regulations, 41 CFR 1–12.603–2, do not exist for automatic data processing equipment. There are no known sources of supply who stock or warehouse automatic data processing equipment for future sale as is customary in many industries. Even manufacturers do not stock or warehouse automatic data processing equipment. Rather, their general practice is to build to order. Some suppliers do own quantities of equipment which have been on lease. This equipment may be warehoused on a temporary basis after a lease has expired until a new user is found for the equipment. No supplier, however, maintains an inventory of this commodity in anticipation of future sales.

5. Approximately 75 percent of the equipment obtained for use by Federal agencies from this used computer marketplace is leased since the method of acquisition is controlled by the type of funds available to the user community, i.e., fiscal year monies. In the remaining cases where purchase funds are available, outright purchase is the preferred method of acquisition.

6. The third party marketplace is almost exclusively a brokerage type of operation where the dealers in this industry will locate computer systems which no longer satisfy the initial user's needs and then find new users who have a need for a comparable data processing capability. These firms generally do not operate on a commission or percentage of sale basis but rather are free agents operating in a highly competitive marketplace. This industry provides an essential service to the United States Government as evidenced by the amount of dollars saved. Their service is unique since their network is able to bring about the exchange of used equipment obtained from numerous individual owners who would not otherwise be in a position to offer their products at a savings to the Government.

As this amendment relieves the restriction, it shall be effective December 12, 1975.

Accordingly, § 50–201.101 is amended by adding a new paragraph (b)(10) as follows:

§ 50–201.101 Manufacturer or regular dealer.

. . . . . .

(b) . . .

(10) A regular dealer in used automatic data processing equipment may be a person who owns or controls previously owned or used items, materials, supplies, articles, or equipment of the general character described in the specifications and required under the contract and who offers such items for sale to the public in the usual course of business and whose principal business is the purchase and sale of such items, materials, supplies, articles, or equipment.

. . . . . .

Signed at Washington, D.C. on this 5th day of December, 1975.

ROBERT C. CHASE,
Deputy Assistant Secretary for Employment Standards.

[FR Doc.75–33589 Filed 12–11–75;8:45 am]

Title 49—Transportation

CHAPTER V—NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 25; Notice 20]

PART 575—CONSUMER INFORMATION REGULATIONS

Uniform Tire Quality Grading Standards; Response to Petitions for Reconsideration

The NHTSA has received nine petitions for reconsideration of 49 CFR 575.104, *Uniform Tire Quality Grading Standards*, which was published in Notice 17 (40 FR 23073; May 28, 1975) and amended by Notice 18 (40 FR 28071; July 3, 1975).

On August 14, 1975, the United States Court of Appeals for the Sixth Circuit granted a motion to stay the enforcement and postpone the effective dates of the regulation, pending review of its validity in "B. F. Goodrich Co. v. Department of Transportation" (No. 75–1566). In view of the stay, the NHTSA considers that it would be inappropriate to take action at this time with respect to the issues raised in the petitions for reconsideration. The agency will respond in detail to these petitions after the stay is lifted.

(Sec. 103, 112, 119, 201, 203; Pub. L. 89–563, 80 Stat. 718 (15 U.S.C. 1392, 1401, 1407, 1421, 1423); delegation of authority at 49 CFR 1.51)

Issued on December 3, 1975.

JAMES B. GREGORY,
Administrator.

[FR Doc.75–33544 Filed 12–11–75;8:45 am]

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

PART 113—STANDARD REQUIREMENTS

Miscellaneous Amendments

● **Purpose. To Amend the test procedures used to evaluate Anthrax Spore Vaccine.** ●

On June 17, 1975, a notice of proposed amendments to Part 113 was published in the FEDERAL REGISTER at 40 FR 25599. On September 5, 1975, an extension of time to submit written data, views, or arguments was published in the FEDERAL REGISTER at 40 FR 41139.

The purity test in the present Standard Requirements for Anthrax Spore Vaccine includes an alternate choice of medium. Neither has been found acceptable for detection of all possible bacterial contaminants. These amendments would add the requirement that the vaccine be tested with both mediums.

The safety test in the present Standard Requirement for Anthrax Spore Vaccine is not sufficiently critical to assure safety of every serial unless deaths in guinea pigs in the potency test necessitates the use of sheep or goats. These amendments would change the safety requirement to the use of sheep or goats as the initial test.

These amendments would also change the potency test to a two-stage test to provide additional testing in event vaccinated guinea pigs are lost for reasons other than lack of potency in the vaccine.

Comments received from the producers of the vaccine included suggestions to relax the severity of the proposed potency test.

After due consideration of all relevant matters, including the proposal set forth in the aforesaid notice of rulemaking, and the suggestions received from the comments, and pursuant to the authority contained in the Virus-Serum-Toxin Act of March 4, 1913 (21 U.S.C. 151–158), the amendments of Part 113, Subchapter E, Chapter I, Title 9 of the Code of Federal Regulations, as contained in the aforesaid notice are hereby adopted and are set forth herein subject to the following noted modifications:

The conditions of the proposed test for potency have been changed to relax the requirements while retaining the desirable features of the two-stage test. The prechallenge period has been changed from "14 to 21 days" to "14 to 15 days" to eliminate unnecessary variable results.

The designated injection site in paragraph (c)(2)(i) has been reworded to make it less restrictive and an editorial change has been made in paragraph (c)(2)(ii).

Section 113.66 is amended by revising paragraphs (a)(2)(i), (b), and (c) to read:

§ 113.66 Anthrax Spore Vaccine—Non-encapsulated.

. . . . . .

(a) . . .

(2) . . .

(i) One ml shall be inoculated into one tube of thioglycollate broth and one tube of nutrient broth, incubated at 35 to 37° C for seven days and examined for microorganisms other than *Bacillus anthracis*. If micro-organisms other than *Bacillus anthracis* are detected, the serial or subserial is unsatisfactory.

. . . . . .

(b) *Safety test.* Bulk or final container samples of completed product shall be tested for safety. Each of two healthy young sheep or goats shall be injected subcutaneously with two cattle doses and observed for 14 days. If either sheep or goat shows evidence of persistent or progressive edema which does not subside in 4 or 5 days, or does not survive the observation period, the serial or subserial is unsatisfactory.

(c) *Potency tests.* The spore count provided in paragraph (c)(1) of this section shall be conducted on each serial and each subserial. The two-stage vaccination challenge test provided in paragraph (c)(2) of this section shall be conducted on each serial.

(1) *Spore count.* Final container samples of completed product shall be diluted in tenfold steps. Each dilution that may be significant shall be plated in triplicate on nutrient or tryptose agar, inverted, and incubated at 35 to 37° C for 24 to 28 hours. The plates showing proper dispersion of colonies shall be counted and averaged. If the spore count average is less than 2,000,000 spores per cattle dose, the serial or subserial is unsatisfactory.

(2) Bulk or final container samples of completed product shall be tested for potency in healthy guinea pigs weighing 400 to 500 grams each.

(i) Twelve guinea pigs (vaccinates), shall be injected subcutaneously on the abdomen with ½ of a cattle dose and observed for 14 to 15 days. If at least 10 of the vaccinates do not survive the prechallenge observation period, the test is inconclusive and may be repeated.

(ii) *Bacillus anthracis* challenge material, available upon request from Veterinary Services, shall be used to challenge each of the surviving vaccinates and each of six nonvaccinated guinea pigs (controls). Each guinea pig shall be injected with approximately 4500 LD_{50} of the challenge material and observed for 10 days. The challenge dose shall be determined by statistical analysis of results of titrations of the challenge material.

(iii) If at least 5 of the 6 controls do not die within the 10 day post-challenge observation period, the test is invalid and may be repeated. If the test is valid, the results of the potency test shall be evaluated according to the following table:

Stage	Number of vaccinates	Cumulative: Deaths for satisfactory test	Cumulative: Deaths for unsatisfactory test
1	10 to 12	1 or less	3 or more.
2	20 to 24	2 or less	3 or more.

(iv) The second stage shall be required only when exactly two animals die in the first stage. The second stage shall be conducted in a manner identical to the first stage.

(37 Stat. 832–833; 21 U.S.C. 151–158).

Effective date: These amendments take effect January 13, 1976.

Done at Washington, DC, this 8th day of December 1975.

PIERRE A. CHALOUX,
Acting Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service.

CHAPTER III—ANIMAL AND PLANT HEALTH INSPECTION SERVICE (MEAT AND POULTRY PRODUCTS INSPECTION), DEPARTMENT OF AGRICULTURE

SUBCHAPTER A—MANDATORY MEAT INSPECTION

PART 331—SPECIAL PROVISIONS FOR DESIGNATED STATES AND TERRITORIES; AND FOR DESIGNATION OF ESTABLISHMENTS WHICH ENDANGER PUBLIC HEALTH AND FOR SUCH DESIGNATED ESTABLISHMENTS

SUBCHAPTER C—MANDATORY POULTRY PRODUCTS INSPECTION

PART 381—POULTRY PRODUCTS INSPECTION REGULATIONS

Designation of Massachusetts Under Federal Meat and Poultry Products Inspection Acts for Special Purposes

● **Purpose. The purpose of this document is to notify the public that the Secretary of Agriculture hereby designates the State of Massachusetts under section 205 of the Federal Meat Inspection Act and section 11(e) of the Poultry Products Inspection Act.** ●

Statement of considerations. Sections 202, 203, and 204 of the Federal Meat Inspection Act (21 U.S.C. 642, 643, 644) provide for recordkeeping, access, and related requirements; registration requirements; and regulation of transactions involving dead, dying, disabled, or diseased livestock of specified kinds, or parts of the carcasses of such animals that died otherwise than by slaughter, with respect to operators engaged in specified classes of business in or for "commerce" as defined in the Act. Similar provisions with respect to poultry and poultry products are contained in section 11 of the Poultry Products Inspection Act (21 U.S.C. 460). Section 205 of the Federal Meat Inspection Act and section 11(e) of the Poultry Products Inspection Act (21 U.S.C. 645, 460(e)) authorize the Secretary of Agriculture to exercise the authorities under the aforesaid sections with respect to persons, firms, and corporations engaged in the specified kinds of business but not in or for "commerce" in any State or organized Territory when he determines, after consultation with an appropriate advisory committee, that the State or Territory does not have at least equal authority under its laws or is not exercising such authority in a manner to effectuate the purposes of the Acts.

Officials of the State of Massachusetts have advised this Department that effective January 12, 1976, the State of Massachusetts will no longer be in a position to continue administering authorities under the aforesaid sections with respect to persons, firms, and corporations engaged in the specified kinds of business but not in or for "commerce."

The Secretary heretofore determined that the State of Massachusetts had developed and activated requirements at least equal to the requirements under sections 202, 203, and 204 of the Federal Meat Inspection Act and section 11 (b) and (c) of the Poultry Products Inspection Act. However, such sections contemplate continuous ongoing programs, and in view of the termination date now applicable to the Massachusetts programs, the Secretary, after consultation with the appropriate advisory committee, has now determined that Massachusetts is not exercising, in a manner ot effectuate the purposes of said Acts, with respect to intrastate businesses, authorities at least equal to those under sections 202, 203, and 204 of the Federal Meat Inspection Act and section 11 (b) and (c) of the Poultry Products Inspection Act, including the Secretary or his representative being afforded access to such places of business and the facilities, inventories, and records thereof. Therefore, Massachusetts is hereby designated under section 205 of the Federal Meat Inspection Act and section 11(e) of the Poultry Products Inspection Act for the exercise of the specified authorities with respect to intrastate businesses, and hereafter sections 202, 203, and 204 of the Federal Meat Inspection Act and section 11 (b) and (c) of the Poultry Products Inspection Act shall apply as hereinafter provided, to persons, firms, and corporations engaged in the kinds of business specified in said sections, but not in or for commerce, to the same extent and in the same manner as if they were engaged in such business in or for commerce and the transactions involved were in commerce.

Accordingly, the table in § 331.6 of the meat inspection regulations (9 CFR 331.6) is amended as follows:

1. In the "State" column; "Massachusetts" is added immediately below "Kentucky" in all three places.

2. In the "Effective date of designation" column, "January 12, 1976" is added on the line with "Massachusetts" in all three places.

V40240 DEC 12 75 XUM

(Secs. 21 and 205, 34 Stat. 1260, as amended, 81 Stat. 584 (21 U.S.C. 621, 645); 37 FR 28464, 28477)

Further, the table in § 381.224 of the poultry products inspection regulations (9 CFR 381.224) is amended as follows:

1. In the "State" column, "Massachusetts" is added immediately below "Kentucky" in both places.

2. In the "Effective date" column, "January 12, 1976" is added on the line with "Massachusetts" in both places.

(Secs. 11(e) and 14, 71 Stat. 441, as amended, 82 Stat. 791 (21 U.S.C. 460(e), 463); 37 FR 28464, 28477)

These amendments of the regulations are necessary to reflect the determinations of the Secretary of Agriculture under section 205 of the Federal Meat Inspection Act and section 11(e) of the Poultry Products Inspection Act, and to effectuate the purposes of the Acts by affording representatives of the Secretary of Agriculture access to places of business engaged in intrastate activities and otherwise facilitate the enforcement of the Acts. It does not appear that public participation in this rule making proceeding would make additional relevant information available to the Secretary. Therefore, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that such public procedure is impracticable and unnecessary and good cause is found for making these amendments effective less than 30 days after publication in the FEDERAL REGISTER.

These amendments and the notice given hereby shall become effective December 13, 1975.

Done at Washington, D.C., on December 10, 1975.

HARRY C. MUSSMAN,
Acting Administrator, Animal and Plant Health Inspection Service.

[FR Doc.75-33755 Filed 12-11-75;9:29 am]

PART 331—SPECIAL PROVISIONS FOR DESIGNATED STATES AND TERRITORIES; AND FOR DESIGNATION OF ESTABLISHMENTS WHICH ENDANGERED PUBLIC HEALTH AND FOR SUCH DESIGNATED ESTABLISHMENTS

PART 381—POULTRY PRODUCTS INSPECTION REGULATIONS

Designation of the State of Massachusetts

● **Purpose. The purpose of this document is to notify the public that the Secretary of Agriculture hereby designates the State of Massachusetts under section 301 (c)(3) of the Federal Meat Inspection Act and section 5(c)(3) of the Poultry Products Inspection Act.** ●

Statement of considerations. A representative of the Governor of the State of Massachusetts has advised this Department that the State of Massachusetts is no longer in a position to continue administering the State meat inspection program after January 11, 1976, and has requested the Department to assume the responsibility for carrying out the provisions of titles I and IV of the Federal Meat Inspection Act, with respect to establishments within the State at which cattle, sheep, swine, goats, or equines are slaughtered or their carcasses, or parts or products thereof, are prepared for use as human food, solely for distribution within such State, and with respect to intrastate operations and transactions concerning meat products and other articles and animals subject to the Federal Meat Inspection Act, and persons, firms, and corporations engaged therein.

Also, a representative of the Governor of the State of Massachusetts has advised this Department that the State of Massachusetts is no longer in a position to continue administering the State poultry inspection program after January 11, 1976, and has requested the Department to assume the responsibility for carrying out the provisions of sections 1–4, 6–10, and 12–22 of the Poultry Products Inspection Act with respect to establishments within the State at which poultry are slaughtered or poultry products are processed for use as human food, solely for distribution within such State, and with respect to intrastate operations and transactions concerning products and other articles and animals subject to the Poultry Products Inspection Act, and persons, firms, and corporations engaged therein.

The Secretary heretofore determined that the State of Massachusetts had developed and activated requirements at least equal to the requirements under titles I and IV of the Federal Meat Inspection Act and sections 1–4, 6–10, and 12–22 of the Poultry Products Inspection Act. However, such titles and sections contemplate continuous, ongoing programs, and in view of the termination date now applicable to the Massachusetts programs, it is hereby determined that Massachusetts is not effectively enforcing requirements at least equal to those imposed under titles I and IV of the Federal Meat Inspection Act and sections 1–4, 6–10, and 12–22 of the Poultry Products Inspection Act. Therefore, notice is hereby given that the Secretary of Agriculture designates said State under section 301(c)(3) of the Federal Meat Inspection Act and section 5(c)(3) of the Poultry Products Inspection Act.

On January 12, 1976, the provisions of titles I and IV of the Federal Meat Inspection Act shall apply to intrastate operations and transactions in said State and to persons, firms, and corporations engaged therein, to the same extent and in the same manner as if such operations and transactions were conducted in or for "commerce," within the meaning of the Federal Meat Inspection Act, and any establishment in the State of Massachusetts which conducts any slaughtering or preparation of carcasses or parts or products thereof of cattle, sheep, swine, goats, horses, mules, or other equines, must have Federal inspection or cease its operations, unless it qualifies for an exemption under section 23(a) or 301(c) of the Federal Meat Inspection Act.

Also, on January 12, 1976, the provisions of sections 1–4, 6–10, and 12–22 of the Poultry Products Inspection Act shall apply to intrastate operations and transactions in said State and to persons, firms, and corporations engaged therein, to the same extent and in the same manner as if such operations and transactions were conducted in or for "commerce," within the meaning of the Poultry Products Inspection Act, and any establishment in the State of Massachusetts which conducts any slaughtering or processing of poultry or poultry products must have Federal inspection or cease its operations, unless it qualifies for an exemption under section 15 or 5(c)(2) of the Poultry Products Inspection Act.

Therefore, the operator of each such establishment who desires to continue any such operations after January 11, 1976, should immediately communicate with the Regional Director for Meat and Poultry Inspection, as listed below, for information concerning the requirements and exemptions under the Acts and application for inspection and survey of the establishment:

Dr. M. J. Hatter, Director, Northeastern Region, Meat and Poultry Inspection Program, Seventh Floor, 1421 Cherry Street, Philadelphia, Pennsylvania 19102 (Telephone: 215/597-4219).

Accordingly, the table in § 331.2 of the federal meat inspection regulations (9 CFR 331.2) is amended as follows:

1. In the "State" column, "Massachusetts" is added immediately below "Kentucky."

2. In the "Effective date of application of Federal provisions" column, "January 12, 1976" is added on the line with "Massachusetts."

(Secs. 21 and 301(c), 34 Stat. 1260, as amended; (21 U.S.C. 621, 661(c)); 37 F.R. 28464, 28477)

Further, the table in § 381.221 of the poultry products inspection regulations (9 CFR 381.221) is amended as follows:

1. In the "State" column, "Massachusetts" is added immediately below "Maine."

2. In the "Effective date of application of Federal provisions" column, "January 12, 1976" is added on the line with "Massachusetts."

(Secs. 5(c) and 14, 71 Stat. 441, as amended (21 U.S.C. 454(c), 463); 37 FR 28464, 28477)

These amendments of the federal meat inspection regulations and the poultry products inspection regulations are necessary to reflect the determination of the Secretary of Agriculture under section 301(c) of the Federal Meat Inspection Act and section 5(c) of the Poultry Products Inspection Act. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Secretary. Therefore, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that such public procedure is impracticable and unnecessary.

The amendments and the notice given hereby shall become effective December 13, 1975.

Done at Washington, D.C., on December 10, 1975.

HARRY C. MUSSMAN,
Acting Administrator, Animal and Plant Health Inspection Service.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Stabilization and Conservation Service

[7 CFR Part 724]

OTHER TOBACCO

Proposed Determinations on Marketing Quotas for the 1976–77, 1977–78 and 1978–79 Marketing Years

Pursuant to and in accordance with the Agricultural Adjustment Act of 1938, as amended (7 U.S.C. 1281 *et seq.*, hereinafter referred to as the "Act"), the Secretary is preparing (1) with respect to fire-cured (type 21), fire-cured (types 22–24), and dark air-cured tobacco, to proclaim national marketing quotas for the 1976–77, 1977–78, and 1978–79 marketing years and to conduct, within 30 days after the proclamation of such national marketing quotas, referendums of farmers engaged in the 1975 production of each of such kinds of tobacco to determine whether they favor or oppose marketing quotas for such years; and (2) with respect to fire-cured (type 21), fire-cured (types 22–24), dark air-cured, Virginia sun-cured, cigar-binder (types 51 and 52, and cigar filler and binder (types 42–44 and 53–55) tobacco, to determine and announce the amounts of the national marketing quotas for each of such kinds of tobacco for the 1976–77 marketing year; to convert such marketing quotas into national acreage allotments and announce the allotments; to apportion such allotments, less reserves of not to exceed 1 per centum of each respectively, through the local committees among old farms and to apportion the reserves for use in (a) establishing acreage allotments for new farms and (b) making corrections and adjusting inequities in old farm allotments.

Sec. 312(a) of the Act (7 U.S.C. 1312 (a)) requires the Secretary to proclaim marketing quotas, not later than February 1, 1976, for fire-cured and dark air-cured tobacco for the three marketing years beginning October 1, 1976, because the 1975–76 marketing year is the last year of the three consecutive years for which marketing quotas previously proclaimed will be in effect.

Quotas were previously proclaimed, referendums conducted, and quotas approved by growers as follows: fire-cured and dark air-cured for the 1973–74, 1974–75, and 1975–76 marketing years (38 F.R. 9219); Virginia sun-cured for the 1974–75, 1975–76, and 1976–77 marketing years (39 F.R. 23985); and cigar binder (types 51 and 52) and cigar-filler and binder (types 42–44 and 53–55) for the 1975–76, 1976–77, and 1977–78 marketing years (40 F.R. 14737).

Section 301(b)(15) of the Act (7 U.S.C. 1301(b)(15)) defines "tobacco" as each one of the kinds of tobacco listed below comprising the types specified as classified in Service and Regulatory Announcement Numbered 118 (Part 30 of this title) of the former Bureau of Agricultural Economics of the Department:

Flue-cured tobacco, comprising types 11, 12, 13, and 14;
Fire-cured tobacco, comprising type 21;
Fire-cured tobacco, comprising types 22, 23, and 24;
Dark air-cured tobacco, comprising types 35 and 36;
Virginia sun-cured tobacco, comprising type 37;
Burley tobacco, comprising type 31;
Maryland tobacco, comprising type 32;
Cigar-filler and cigar-binder tobacco, comprising types 42, 43, 44, 45, 46, 51, 52, 53, 54, and 55; and
Cigar-filler tobacco, comprising type 41.

Section 301(b)(15) also provides that any one or more of the types comprising any such kind of tobacco shall be treated as a "kind of tobacco" for the purpose of the Act if the Secretary finds that there is a difference in supply and demand conditions as among such types of tobacco which results in a difference in the adjustments needed in the marketings thereof in order to maintain supplies in line with demand. Pursuant to this authority, the Secretary has determined (15 F.R. 8214) that type 46 tobacco shall be treated as a separate kind of tobacco for purposes of marketing quotas and price supports. Pursuant to such authority, the Secretary has also determined (22 F.R. 367) that cigar-binder (types 51 and 52) tobacco, beginning with the 1957–58 marketing year, shall be treated as a separate kind of tobacco for purposes of marketing quotas and price supports. Type 45 tobacco is no longer grown. No further action under this section is contemplated at this time.

Section 312(b) of the Act (7 U.S.C. 1312(b)) provides that the Secretary shall determine and announce, not later than the first day of February 1976 with respect to kinds other than flue-cured tobacco, the amount of the national marketing quota which will be in effect for the 1976–77 marketing year in terms of the total quantity of tobacco which may be marketed which will make available during such marketing year a supply of each kind of tobacco equal to the reserve supply level. Section 312(b) provides further that the amount of the 1976–77 national marketing quota so announced may, not later than March 1, 1976, be increased by not more than 20 per centum if the Secretary determines that such increase is necessary in order to meet market demands or to avoid undue restrictions of marketings in adjusting the total supply to the reserve supply level.

Section 301(b) of the Act (7 U.S.C. 1301(b)) defines the "total supply" of any kind of tobacco (except type 46) for any marketing year as the carry-over at the beginning of the marketing year (on January 1 of such marketing year in the case of Maryland tobacco) plus the estimated production in the United States during the calendar year in which such marketing year begins. "Reserve supply level" is defined as the normal supply plus 5 per centum thereof. "Normal supply" is defined as a normal year's domestic consumption and exports, plus 175 per centum of a normal year's domestic consumption and 65 per centum of a normal year's exports. A "normal year's domestic consumption" is defined as the yearly average quantity produced in the United States and consumed in the United States during the 10 marketing years immediately preceding the marketing year in which such consumption is determined, adjusted for current trends in such consumption. A "normal year's exports" is defined as the yearly average quantity produced in the United States which was exported from the United States during the 10 marketing years immediately preceding the marketing year in which such exports are determined, adjusted for current trends in such exports.

Section 312(c) of the Act (7 U.S.C. 1312(c)) requires that within 30 days after a national marketing quota is proclaimed under section 312(a) of the Act for a kind of tobacco, the Secretary shall conduct a referendum of farmers engaged in the production of the crop of such kind of tobacco harvested immediately prior to the holding of the referendum to determine whether such farmers are in favor of or opposed to quotas for the next three succeeding marketing years. If more than one-third of the farmers voting in a referendum for a kind of tobacco oppose the quotas, such results shall be proclaimed by the Secretary and the national marketing quotas so proclaimed shall not be in effect but such results shall in no way affect or limit the subsequent proclamation and submission to a referendum, as otherwise provided in section 312, of a national marketing quota.

Section 313(g) of the Act (7 U.S.C. 1313(g)) authorizes the Secretary to convert the national marketing quota into a national acreage allotment on the basis of the national average yield for the five years immediately preceding the year in which the national marketing quota is proclaimed and to apportion the national acreage allotment (less a reserve of not

V 40 240 DEC 12 75 XUM

to exceed 1 per centum thereof for new farms and for making corrections and adjusting inequities in old farm allotments) among old farms.

The subjects and issues involved in making the determinations described in this notice are:

1. The amount of the reserve supply level for fire-cured (type 21), fire-cures (types 22–24), dark air-cured, Virginia sun-cured, cigar binder (types 51 and 52) and cigar filler and binder (types 42–44 and 53–55) tobacco.
2. The amount of the national marketing quota for each of these kinds of tobacco for the 1976–77 marketing year.
3. The national factors for apportioning national acreage allotments to old farms.
4. The amounts of the national acreage allotments to be reserved for new farms and for making corrections and adjusting inequities in old farm allotments.
5. The date(s) or period(s) of the two referendums on quotas for the 1976–77, 1977–78, and 1978–79 marketing years for fire-cured and dark air-cured tobacco, and whether either or both of the referendums should be conducted at polling places rather than by mail ballot (31 F.R. 12011).

Consideration will be given to data, views and recommendations pertaining to the proposed determinations covered by this notice which are submitted in writing to the Director, Tobacco and Peanut Division, Agricultural Stabilization and Conservation Service, United States Department of Agriculture, Washington, D.C. 20250. All written submissions made pursuant to the notice will be made available for public inspection from 8:15 a.m. to 5:45 p.m., Monday through Friday, in Room 3744-South Building, 14th and Independence Avenue SW., Washington, D.C. All submissions must, in order to be sure of consideration, be received no later than January 12, 1976.

Signed at Washington, D.C. on: December 9, 1975.

E. J. PERSON,
Acting Administrator Agricultural Stabilization and Conservation Service.

[FR Doc.75-33598 Filed 12-11-75;8:45 am]

[7 CFR Part 726]

BURLEY TOBACCO

Proposed Determinations on Marketing Quotas for the 1976–77 Marketing Year

Pursuant to the Agricultural Adjustment Act of 1938, as amended (7 U.S.C. 1281 et seq., hereinafter referred to as the "Act"), the Secretary is preparing to determine and announce the amount of the national marketing quota, the national reserve and the national factor for burley tobacco for the 1976–77 marketing year.

Section 319(b) of the Act (7 U.S.C. 1319(b)) provides that the national marketing quota for the 1976–77 marketing year shall be determined and announced not later than February 1, 1976. ing quotas on a poundC3s$eg__bt3s-$5 Burley tobacco farmers approved marketing quotas on a poundage basis for the 1974–75, 1975–76 and 1976–77 marketing years (39 FR 23985).

Section 319(c) provides that the national marketing quota shall be the amount produced in the United States which the Secretary estimates will be utilized in the United States and will be exported during such marketing year, adjusted upward or downward in such amount as the Secretary, in his discretion, determines is desirable for the purpose of maintaining an adequate supply or for effecting an orderly reduction of supplies to the reserve supply level. Any such downward adjustment shall not exceed 5 per centum of such estimated utilization and exports. For each marketing year for which marketing quotas are in effect under this section, the Secretary in his discretion may establish a reserve (hereinafter referred to as the "national reserve") from the national marketing quota in an amount not in excess of 1 per centum of the national marketing quota to be available for making corrections and adjusting inequities in farm marketing quotas, and for establishing marketing quotas for new farms (that is, farms for which farm marketing quotas are not otherwise established.) A reserve of 2,800,000 pounds was established for the 1975–76 marketing year (40 FR 4633).

Section 301(b) of the Act (7 U.S.C. 1301(b)) defines "Total supply" of burley tobacco as the carry-over at the beginning of the marketing year (October 1) plus the estimated production in the United States during the calendar year in which the marketing year begins. The total supply for the 1975–76 marketing year is 1,731 million pounds, composed of carry-over of 1,094 million pounds and estimated production of 637 million pounds.

Section 301(b) of the Act defines "Reserve supply level" as normal supply plus 5 percent. "Normal supply" is defined as a normal year's domestic consumption and exports, plus 175 percent of a normal year's domestic consumption and 65 percent of a normal year's exports as an allowance for a normal carry-over. A "Normal year's domestic consumption" is defined as the yearly average quantity produced in the United States and consumed in the United States during the ten marketing years immediately preceding the marketing year in which such consumption is determined, adjusted for current trends in such consumption. A "Normal year's exports" is defined as the yearly average quantity produced in the United States which was exported from the United States during the ten marketing years immediately preceding the marketing year in which such exports are determined, adjusted for current trends in such exports. The reserve supply level used in determining the national marketing quota for the 1975–76 marketing year was 1,701 million pounds, calculated from a normal year's domestic consumption of 538 million pounds and a normal year's exports of 85 million pounds (40 F.R. 4633). The proposed reserve supply level for use in determining the national marketing quota for the 1976–77 marketing year is 1,646 million pounds, calculated from a normal year's domestic consumption of 525 million pounds and a normal year's exports of 75 million pounds.

The amount of burley tobacco produced in the United States and estimated to have been (1) utilized in the United States during the 1974–75 marketing year was 519 million pounds and (2) exported during the 1974–75 marketing year was 68 million pounds, farm-sales weight basis. The amount of the national marketing quota for the 1975–76 marketing year is 670 million pounds based upon estimated utilization in the United States of 555 million and estimated exports of 95 million pounds, with an upward adjustment of 20 million pounds (40 F.R. 4633). For the 1976–77 marketing year, utilization in the United States is estimated to be about 555 million pounds and exports are estimated to be about 75 million pounds. The total supply for the 1975–76 marketing year is 86 million pounds greater than the proposed reserve supply level, but the amount of the downward adjustment, if any, desirable for an orderly reduction in the total supply is still being considered.

Section 319(e) of the Act provides, in part, that each farm marketing quota shall be determined by multiplying the previous year's farm marketing quota by a national factor obtained by dividing the national marketing quota determined under subsection 319(c) (less the national reserve) by the sum of the farm marketing quotas for the immediately preceding year for all farms for which burley tobacco marketing quotas will be determined: *Provided*, That such national factor shall not be less than 95 per centum.

Section 319(i) of the Act provides, in part, that if the Secretary, in his discretion, determines it is desirable to encourage additional marketings of any grades of burley tobacco during any marketing year to insure traditional market patterns to meet the normal demands of export and domestic markets, he may authorize the marketing of such grades without the payment of penalty or deduction from subsequent quotas to the extent of 5 per centum of the farm marketing quota for the farm on which the tobacco was produced and such marketings shall be eligible for price support.

Section 319(h) of the Act provides that effective with the marketing year beginning October 1, 1976, no marketing quota, other than a new farm marketing quota, shall be established for a farm on which no burley tobacco was planted or considered planted in any of the five years immediately preceding the year for which farm marketing quotas are being established.

The subjects and issues involved in the proposed determinations with respect to burley tobacco for the 1976–77 marketing year are:

1. The amount of the national marketing quota.
2. The amount of the reserve supply level.

3. The amount of the national reserve.
4. Whether the Secretary should implement the provision in section 319(i) of the Act to encourage additional marketings of any grades to insure traditional market patterns.

The national factor is not considered an issue in these determinations because it results from a mathematical computation under section 319(e) of the Act.

Consideration will be given to data, views and recommendations pertaining to the proposed determinations, rules and regulations covered by this notice which are submitted in writing to the Director, Tobacco and Peanut Division, Agricultural Stabilization and Conservation Service, United States Department of Agriculture, Washington, D.C. 20250. All written submissions will be made available for public inspection from 8:15 a.m. to 4:45 p.m., Monday through Friday, in room 3744-South Building, 14th and Independence Avenue SW., Washington, D.C. All submissions must, in order to be sure of consideration, be received not later than January 12, 1976.

Signed at Washington, D.C. on: December 9, 1975.

E. J. PERSON,
Acting Administrator Agricultural Stabilization and Conservation Service.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 39]

[Docket No. 75-NW-41-AD]

BOEING MODEL 747 SERIES AIRPLANES

Proposed Airworthiness Directives

The Federal Aviation Administration is considering amending Part 39 of the Federal Aviation Regulations by adding an airworthiness directive applicable to Boeing Model 747 series airplanes. There have been several reported instances of cracks developing in the trailing edge flap tracks that could result in loss of the trailing edge flap assembly. Three cracks had been reported prior to 1975. Eight cracks were reported during 1975. The increase in frequency and size of reported cracks has prompted the agency to require inspection and replacement of the tracks if necessary. Since this condition is likely to exist or develop in other airplanes of the same type design, the proposed airworthiness directive would require inspection of the trailing edge flap track.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the docket number and be submitted in duplicate to the Department of Transportation, Federal Aviation Administration, Northwest Region, Office of Regional Counsel, Attention: Airworthiness Rules Docket, 9010 East Marginal Way South, Seattle, Washington 98108. All communications received on or before January 15, 1976, will be considered by the Administrator before taking action upon the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

In consideration of the foregoing, it is proposed to amend § 39.13 of the Federal Aviation Regulations by adding the following new airworthiness directive:

BOEING: Applies to all Model 747 series airplanes certificated in all categories. Compliance required as indicated.

To prevent failures of flap tracks accomplish the following:

Within the next 300 flights after the effective date of this AD, unless accomplished within the last 900 flights and at intervals thereafter not to exceed 1200 flights visually inspect the following trailing edge flap tracks for cracks emanating from all fastener holes (no disassembly necessary):

Track position numbers 1 and 8, part numbers 65B06012-4, 65B06011-7 and 65B060-13. Track position numbers 2 and 7, part numbers 65B06006-3, 65B06005-5, and -9. Track position numbers 3 and 6, part numbers 65B07791-7, -8, 65B07789-23, -24, -27, and -28. Track position numbers 4 and 5, part numbers 65B07790-13, -14, -15, -16, -17, -18, 65B16624 all dash numbers.

If cracks are found, replace the flap track before further flight.

This amendment is proposed under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Seattle, Wash., December 5, 1975.

C. B. WALK, JR.,
Director,
Northwest Region.

[FR Doc.75-33449 Filed 12-11-75;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 75-AL-12]

CONTROLLED AIRSPACE

Proposed Alteration and Designation

The Federal Aviation Administration (FAA) is considering an amendment to Part 71 of the Federal Aviation Regulations that would (1) add a west extension to the Nome, Alaska, control zone (2) realign the east extension of the Nome, Alaska, control zone (3) reconfigure the lateral limits of the 700-foot Nome, Alaska, transition area.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Alaskan Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 632 Sixth Avenue, Anchorage, Alaska 99501. All communications received on or before January 12, 1976, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, AGC-24, 800 Independence Avenue, S.W., Washington, D.C. 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

As part of this proposal relates to the navigable airspace outside the United States, this notice is submitted in consonance with the ICAO International Standards and Recommended Practices.

Applicability of International Standards and Recommended Practices by the Air Traffic Service, FAA, in areas outside domestic airspace of the United States is governed by Article 12 of and Annex 11 to the Convention on International Civil Aviation, which pertain to the establishment of air navigation facilities and services necessary to promoting the safe, orderly, and expeditious flow of civil air traffic. Their purpose is to insure that civil flying on international air routes is carried out under uniform con-

V40I240 DEC 12 75 XUM

ditions designed to improve the safety and efficiency of air operations.

The International Standards and Recommended Practices in Annex 11 apply in those parts of the airspace under the jurisdiction of a contracting state, derived from ICAO, wherein air traffic services are provided and also whenever a contracting state accepts the responsibility of providing air traffic services over high seas or in airspace of undetermined sovereignty. A contracting state accepting such responsibility may apply the International Standards and Recommended Practices to civil aircraft in a manner consistent with that adopted for airspace under its domestic jurisdiction.

In accordance with Article 3 of the Convention on International Civil Aviation, Chicago, 1944, state aircraft are exempt from the provisions of Annex 11 and its Standards and Recommended Practices. As a contracting state, the United States agreed by Article 3(d) that its state aircraft will be operated in international airspace with due regard for the safety of civil aircraft.

Since this action involved, in part, the designation of navigable airspace outside the United States, the Administrator has consulted with the Secretary of State and the Secretary of Defense in accordance with the provisions of Executive Order 10854.

The proposed amendment would amend the Nome, Alaska, control zone by (1) adding a west extension, 17 miles west of the Nome localizer and 3 miles north and 3 miles south of the west course of the Nome localizer, (2) reducing the east control zone extension width to within 3 miles north and 4 miles south of the Nome VOR 107° T (090° M) and 287° T (270° M) radials. It would also amend the Nome, Alaska, transition area, by changing the configuration of the lateral limits of that airspace extending upward from 700-foot above the surface, to within 4.5 miles north and 9.5 miles south of the Nome VOR 107° T (090° M) and 287° T (270° M) radials extending from 18.5 miles east to 32 miles west of the Nome VOR. The relocation of Fort Davis NDB and 5° change in the Nome NDB runway 27 instrument approach procedure required an alternation of sufficient dimension to encompass the airspace to be protected, and the existing Nome, Alaska, terminal airspace structure needed to be readjusted to accommodate prescribed instrument approach procedures.

This amendment is proposed under the authority of sections 307(a) and 1110 of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1510), Executive Order 10854 (24 FR 9565) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on December 5, 1975.

WILLIAM E. BROADWATER,
Chief, Airspace and Air Traffic Rules Division.

Proposed Implementation

Correction

In FR Doc. 75-32192 appearing at page 55679 in the issue of Monday, December 1, 1975, the fourth line of § 510.7(a) on page 55680 should be corrected to read "tion provided in 5 U.S.C. 552(b), the Chair-".

notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF STATE

[Public Notice CM-51129]

ADVISORY COMMITTEE ON THE LAW OF THE SEA

Partially Closed Meeting

In accordance with section 10(d) of the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given that the Advisory Committee on the Law of the Sea will meet in closed session on Friday, January 23 and in both open and closed sessions on Saturday, January 24, 1976. The open session of the meeting will convene on Saturday at 2 p.m. in Room 1107, U.S. Department of State, 21st and C Street, NW., Washington, D.C.

The purpose of the closed meeting is to discuss specific conference issues and formal planning and policy preparations for the U.S. Delegation to the 1976 New York Session of the Third United Nations Conference on the Law of the Sea. During these closed sessions, documents classified under the provisions of Executive Order 11652 will be discussed.

These documents, which contain new substantive proposals as well as revisions of earlier policy statements, relate to the issues which the United States will be negotiating at the Conference. The documents are exempt under 5 U.S.C. 552 (b)(1), and are required to be withheld from disclosure in the public interest.

The issues cover such subjects as freedom of navigation on the high seas and in international straits, the establishment of a deep seabeds mining regime, the breadth of the continental margin, the juridical content of the economic zone, and other related topics involving U.S. national security matters. Premature disclosure of the contents of these documents could adversely affect our foreign relations interests and jeopardize the chances of obtaining a timely and satisfactory Law of the Sea Treaty.

The open session of the Advisory Committee meeting will discuss all principal agenda issues to be considered during the Third United Nations Conference on the Law of the Sea, including those issues stated above, but will not examine the classified items discussed during the closed session.

The Advisory Committee on the Law of the Sea represents a broad cross-section of industries, professions, academic disciplines and other public groups. As such, it will comprehensively review the proposals which will come before the Conference.

At the open session, beginning at 2 p.m. on January 24, the general public attending may participate in the discussion subject to instructions of the Chairman.

As entrance to the State Department is controlled, members of the public who wish to attend the open session should contact Mr. Peter Bernhardt by January 21 and provide their name and affiliation to facilitate their attendance. Mr. Bernhardt's telephone number is (area code 202) 632-9616.

Dated: November 20, 1975.

OTHO E. ESKIN,
Staff Director, MSC Interagency Task Force on the Law of the Sea.

[Public Notice CM-5/130]

SHIPPING COORDINATING COMMITTEE; SUBCOMMITTEE ON SAFETY OF LIFE AT SEA

Meeting

The working group on ship design and equipment of the Subcommittee on Safety of Life at Sea, a subcommittee of the Shipping Coordinating Committee, will hold open meetings at 9 on Monday, January 5, 1976 and at 10 on Tuesday, January 6, 1976 in Rooms 8236 and 8238 of the Department of Transportation, 400 Seventh Street, SW., Washington, D.C.

The purpose of the meetings is to prepare position documents for the Fifteenth Session of the Subcommittee on Ship Design and Equipment of the Intergovernmental Maritime Consultative Organization (IMCO), to be held in London in April 1976. The working group will discuss the following topics on the 5th of January:

Definitions for mobile offshore units;
Relevance of SOLAS 1974 (International Convention for Safety of Life at Sea, 1974) requirements and other appropriate requirements for mobile offshore units;
Contents and scope of regulations for mobile offshore units.

On the 6th of January the working group will discuss the above topics as necessary and the following topics in addition:

Draft requirements for segregated ballast tankers less than 150 meters in length;
Code for novel craft;
Shipborne barges and barge carriers;
Safety measures for special purpose ships;
Training and research vessels;
Mobile offshore units;
Offshore supply vessels including pipelaying vessels.

Requests for further information on the meeting should be directed to Captain D. J. Linde, United States Coast Guard. He may be reached by telephone on (area code 202) 426-2167.

The Chairman will entertain comments from the public as time permits.

RICHARD K. BANK,
Chairman,
Shipping Coordinating Committee.

DECEMBER 8, 1975.

Customs Service

OXYGEN SENSING PROBES FROM CANADA

Termination of Countervailing Duty Investigation

On June 30, 1975, a "Notice of Tentative Termination of Countervailing Duty Investigation" was published in the FEDERAL REGISTER (40 FR 27500) with respect to oxygen sensing probes from Canada.

The notice stated that on the basis of an investigation conducted pursuant to § 159.47(c), Customs Regulations (19 CFR 159.47(c)), a tentative decision had been made to terminate the investigation as to whether any bounty or grant is being paid or bestowed, directly or indirectly, within the meaning of section 303, Tariff Act of 1930, as amended (19 U.S.C. 1303) upon the manufacture, production, or exportation of oxygen sensing probes from Canada.

The notice stated further that before a final decision would be made to terminate the investigation, consideration would be given to any relevant data, views or arguments submitted in writing 30 days from the date of the notice with respect to the tentative decision.

No written submissions having been received, it is hereby announced that the investigation is terminated on the basis that there have been no imports of oxygen sensing probes during the recent past and that production of this item will be discontinued. Should imports of oxygen sensing probes from Canada resume at any time, the Treasury Department will reopen its investigation as to the existence of bounties or grants under section 303 of the Tariff Act of 1930, as amended (19 U.S.C. 1303).

This notice is published pursuant to section 303(a) of the Tariff Act of 1930, as amended (19 U.S.C. 1303(a)).

VERNON D. ACREE,
Commissioner of Customs.

Approved: November 26, 1975.

DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

V40240 DEC 12 75 D XUM

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

OUTER CONTINENTAL SHELF OFFSHORE, GULF OF MEXICO

Availability of Final Environmental Impact Statement Regarding Proposed Oil and Gas Lease Sale

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a final environmental impact statement relating to a proposed Outer Continental Shelf general oil and gas lease sale of 135 tracts of submerged lands on the Outer Continental Shelf offshore Texas, Mississippi, Louisiana, Alabama, and Florida.

Single copies of the final environmental statement can be obtained from the Manager, New Orleans Outer Continental Shelf Office, Bureau of Land Management, 1001 Howard Avenue, New Orleans, Louisiana 70113, and from the Office of Public Affairs, Bureau of Land Management (130), Washington, D.C. 20240.

Copies of the final environmental statement will also be available for public review in the main libraries in various coastal communities in the sale area.

CURT BERKLUND,
Director, Bureau of Land Management.

Approved:

STANLEY D. DOREMUS,
Deputy Assistant Secretary of the Interior.

[FR Doc.75-33391 Filed 12-11-75;8:45 am]

Geological Survey

DISPOSAL OF PRODUCED WATER

Lessees and Operators of Federal and Indian Oil and Gas Leases

On August 15, 1975, the Geological Survey published in the FEDERAL REGISTER (Vol. 40, No. 93, pp. 34425-34427), a proposed notice which prescribed the requirements applying to the disposal of water produced from wells on Federal and Indiaan oil and gas leases and those on fee and State leases committed to federally approved cooperative agreements.

Written and oral comments, suggestions, and objections received by the Geological Survey have been carefully considered in the preparation of the final Notice to Lessees and Operators, NTL-2B. All written comments are on file with the Geological Survey. Certain of these comments have been incorporated or essentially satisfied and the Geological Survey has made other changes on its own motion. The principal changes are discussed below:

Definition. The approval authority of the Geological Survey is better defined.

Disposal requirements and application. Provides that approval must be obtained regardless of the physical location of the disposal facility. Also warns that applications for approval of existing facilities filed after July 1, 1977, may not be approved in time to prevent the shut-in facility for noncompliance. Adds authority for the District Engineer to require modification of facilities prior to October 1, 1977, when warranted. Changes data requirements for applications from general to specific under each category. Provides that previous applications not meeting the requirements of this Notice must be refiled or supplemented and for the filing of a single application for multiple facilities.

Disposal in subsurface. Adds injection wells in pressure maintenance projects; a specific project description; quantity, source, and analysis data for produced water; indigenous water data; a bond log in some cases; a contingency plan in the event of a system failure; and, a general provision that injection may be approved in zones containing unusable water even though it is of better quality than the produced water.

Disposal in line pits. Adds a map requirement; data about quantity and source of produced water; and, a contingency plan in the event of a system failure.

Disposal in unlined pits. Deletes the reference to total pounds of dissolved solids. Adds a provision for disposing of water where the indigenous water is not unsable even though it is of better quality than the produced water; analysis data for produced water; a map requirement; indigenous water data; State permits granted as a result of public hearings; and a fencing requirement. The Notice also provides that pits will be located away from drainage and clarifies the submittal of data regarding percolation rate.

Temporary use of surface pits. Adds a provision that fluids contained in such pits may not be drained on the surface of the land at clean-up without prior approval and a fencing requirement.

Disposal facilities for new wells. Provides for 90 days temporary use instead of 30 and for 60 days in which to correct the disposal method unless District Engineer determines a danger to the environment.

Unavoidable delay. Provides for a six-month extension in arctic and subarctic areas.

Reports. Provides that no annual water analysis will be required when the volume is less than five barrels per day; for the submittal of the latest monitoring report in lieu of annual reports where a NPDES permit is in effect; and, for single annual report for multiple facilities which have been approved by a single application.

Compliance. Adds Safe Drinking Water Act regulations to this provision.

NOTE: It is hereby certified that the economic impacts of Notice to Lessees and Operators, NTL-2B, have been carefully evaluated in accordance with OMB Circular A-107.

W. H. RADLINSKI,
Acting Director.

[NTL-2B]

DISPOSAL OF PRODUCED WATER

NOTICE TO LESSEES AND OPERATORS OF FEDERAL AND INDIAN OIL AND GAS LEASES

This notice supersedes NTL-2 and 2A and is issued pursuant to the authority prescribed in 30 CFR 221.4 and 221.32. Lessees and operators of onshore Federal and Indian oil and gas leases or fee and State leases committed to federally supervised unitized or communitized areas shall comply with the following requirements for the handling, storing, or disposing of water produced from oil and gas wells on such leases.

As used in this notice, the term "District Engineer" means the District Engineer, U.S. Geological Survey. However, in the State of Alaska, the requirements of this Notice will be administered by the Area Oil and Gas Supervisor.

I. Disposal requirements and applications for approval of disposal methods. By October 1, 1977, all produced water from the above said leases must be disposed of by (1) injection into the subsurface; (2) lined pits; or, (3) by other acceptable methods. All such disposal method must be approved in writing by the District Engineer regardless of the physical location of the disposal facility. Any method of disposal which has not been approved as of October 1, 1977, will be considered as an incident of noncompliance and will be grounds for issuing a shut-in order until an acceptable manner for disposing of said water is provided and approved by the District Engineer. Lessees and operators are encouraged to file applications in this regard as promptly as possible and are forewarned that applications for approval of existing disposal facilities which are filed after July 1, 1977, may not be timely approved.

No additional approval is required for facilities previously approved by the Geological Survey which involve the disposal of produced water into the subsurface or in lined surface pits. Likewise, no further approval is necessary for existing injection facilities utilized for pressure maintenance or secondary recovery operations.

Lesees and operators who are presently disposing of water in unlined surface pits must timely file applications with the District Engineer for approval of present or proposed disposal methods. Likewise, lessees and operators who are presently disposing of produced water in the subsurface or in lined surface pits without approval of the Geological Survey must also file applications for approval thereof by the District Engineer.

The District Engineer may require modification of any disposal facility prior to October 1, 1977, whenever it is determined that continued use of such facility is endangering the fresh water in the area or is otherwise adversely affecting the environment.

Any application to dispose of produced water must specify the proposed method of disposal and provide the information necessary to justify the method. Required information which must be included in applications for approval of produced water disposal in the subsurface, in lined pits, or in unlined pits is set forth in sections II, III, and IV, respectively, of this notice. Additional information may be required by the District Engineer in individual cases. Previous applications filed in response to NTL-2 and NTL-2A which do not met the data requirements of this Notice must be supplemented or resubmitted.

A single application may be submitted for several leases or facilities: *Provided*, That (1) the leases or facilities are located in the same field; (2) the produced water is from the same formation or is of similar quality; (3) the volume and source of the water is shown separately for each disposal facility; and, (4) the method of disposal is the same in every case.

II. *Disposal in the subsurface.* If approval is requested for subsurface water injection in connection with secondary recovery operations or for disposal purposes, the lessee or operator must furnish information which includes:

1. The designated name and number of the proposed disposal well and its location in feet and direction from the nearest section lines of an estabiished survey. The applicable Federal or Indian oil and gas lease number or other permit and/or the ownership of the surface and minerals if other than Federal or Indian.

2. The daily quantity and sources of the produced water and a water analysis which includes total dissolved solids, pH, and the concentrations of chlorides and sulfates.

3. The injection formation and interval.

4. The quality of the fluids in the injection interval, i.e., total dissolved solids.

5. The depth and areal extent of all usable water (i.e., less than 10,000 ppm total dissolved solids) aquifers in the area.

6. The size, weight, grade and casing points of all casing strings, the size hole drilled to accommodate each string, the amount and type of cement, including additives used in cementing each string, and the top of the cement behind each casing string. In addition, bond logs may be required in certain instances.

7. The total and plugged back depth of the well.

8. The present or proposed method of completing the well for injection including the type and size of tubing and packer to be utilized, the setting depth of the packer, anticipated injection pressure, and information concerning any corrosion inhibitor fluid which is to be placed in the tubing-casing annulus.

9. Plans for monitoring the system to assure that injection is confined to the injection interval and measures to be taken should it be necessary to shut-in the disposal system.

In order to be approved, subsurface disposal must be confined (1) to formations which contain water of similar or poorer quality than the injected water or (2) to formations that contain water of such poor quality as to eliminate any practical use thereof.

In general, it will be required that subsurface disposal be accomplished through tubing utilizing a packer which is designed to hold pressure from above and below. The packer should be set at a depth where the casing is protected by competent cement but normally not more than 50 feet above the injection interval. Other procedures or methods of subsurface disposal may be approved by the District Engineer when justified by the lessee or operator.

III. *Disposal in lined pits.* Where approval is requested for surface disposal in a lined pit, the lessee or operator must supply information which includes:

1. A topographic map of suitable scale which shows the size and location of pit.

2. The daily quantity, sources of the produced water, and a water analysis which includes the concentrations of chlorides, sulfates, and other constituents which are toxic to animal, plant, or aquatic life.

3. The evaporation rate for the area compensated for annual rainfall.

4. The method for periodic disposal of precipitated solids.

5. The type of material to be used for lining the pit and the method of installation.

6. The method to be employed for the detection of leaks and plans for corrective action should a leak occur in the liner.

The material used in lining pits must be imperivious, weather-resistant, and not subject to deterioration when contacted by hydrocarbons, aqueous acids, alkalies, fungi, or other substances likely to be contained in the produced water. Lined pits constructed after the issuance of this Notice must have an underlying gravel-filled sump and lateral system or other suitable devices for the detection of leaks. The District Engineer shall be provided an opportunity to inspect the leak detection system prior to the installation of the pit liner.

IV. *Disposal in unlined pits.* Surface disposal into unlined pits will not be considered for approval by the District Engineer unless the lessee or operator can show by application that such disposal meets any one or more of the following criteria:

1. The water to be disposed of has an annual weighted average concentration of not more than 5,000 ppm of total dissolved solids: *Provided*, That such water does not contain objectionable levels of any constituent toxic to animal, plant, or aquatic life.

2. That all, or a substantial part, of the produced water is being used for beneficial purposes. For example, produced water used for purposes such as irrigation and livestock or wildlife watering shall be considered as being beneficially used.

3. The water to be disposed of is not of poorer quality than the surface or subsurface waters in the area which reasonably might be affected by such disposal or the surface and subsurface waters are of such poor quality as to eliminate any practical use thereof.

4. The volume of water to be disposed of per facility does not exceed five barrels per day on a monthly basis.

5. The specific method of disposal has been granted a surface discharge permit under the National Pollutant Discharge Elimination System (NPDES).

Applications for approval of unlined surface pits pursuant to exception Nos. 1, 2, 3, or 4, above, must include:

1. The daily quantity and sources of the produced water and for exception Nos. 1 through 3, a water analysis which includes total dissolved solids, pH, and the concentrations of chlorides and sulfates.

2. A topographic map of suitable scale which shows the size and location of the pit.

3. The evaporation rate for the area compensated for annual rainfall.

4. The estimated percolation rate based on the soil characteristics under and adjacent to the pit.

5. The depth and areal extent of all usable water (i.e., less than 10,000 ppm total dissolved solids) aquifers in the area.

Where beneficial use is the basis for the application, the justification submitted must contain written confirmation from the user(s) and the water analysis must also include the oil and grease content, temperature, and the concentration of other constituents which are toxic to animal, plant, or aquatic life.

If the application is made on the basis that surface and subsurface fresh waters will not be affected by disposal in an unlined pit, the justification must also include:

1. Analyses of all surface and subsurface waters in the area which might reasonably be affected by the proposed disposal.

2. Maps or plats showing the location of surface waters, fresh water wells, and existing water disposal facilities within two miles of the proposed disposal facility.

3. Reasonable geologic and hydrologic evidence showing that the proposed disposal method will not adversely impact on existing water quality or major uses of such waters; the depth of the shallowest fresh water aquifer in the area and the presence of any impermeable barrier(s).

4. A copy of any State order or other authorization granted as a result of a public hearing which is pertinent to the District Engineer's consideration of the application.

If the application is for disposal pursuant to an NPDES permit, only a topographic map showing the size and location of the pit together with a copy of the approved permit and the most recent "Discharge Monitoring Report" will be required.

V. *General requirements for permanent surface pits.* Lined and unlined pits approved for water disposal shall:

1. Have adequate storage capacity to safely contain all produced water even in those months when evaporation rates are at a minimum.

2. Be constructed, maintained, and operated to prevent unauthorized surface discharges of water. Unless surface discharge is authorized, no siphon, except between pits, will be permitted.

3. Be fenced to prevent livestock or wildlife entry to the pit, when required by the District Engineer.

4. Be kept reasonably free from surface accumulations of liquid hydrocarbons by use of approved skimmer pits, settling tanks, or other suitable equipment.

5. Be located away from the established drainage patterns in the area and be constructed so as to prevent the entrance of surface water.

VI. *Temporary use of surface pits.* Unlined surface pits may be used for handling or storage of fluids used in drilling, redrilling, reworking, deepening, or plugging of a well provided that such facilities are promptly and properly emptied and restored upon completion of the operations. Mud or other fluids contained in such pits shall not be disposed of by cutting the pit walls without the prior authorization of the District Engineer. Until finally restored, unattended pits must be fenced to prevent access by livestock and wildlife. Unless otherwise specified by the District Engineer, unlined pits may be used for well evaluation purposes for a period of 30 days.

Unlined pits may also be retained as temporary containment pits for use only in an emergency provided such pits have been approved by the District Engineer. Any emergency use of such pits shall be reported to the District Engineer as soon as possible and the pit shall be emptied and the liquids disposed of in an approved manner within 48 hours following its use, unless such time is extended by the District Engineer.

VII. *Disposal facilities for new wells.* With the approval of the District Engineer, produced water from wells completed after the issuance date of this Notice may be temporarily disposed of into unlined pits for a period up to 90 days. During the period so authorized, an application for approval of the permanent disposal method, along with the required water analysis and other information, must be submitted to the District Engineer. Failure to timely file an application within the time allowed will be considered an incident of noncompliance and will be grounds for issuing a shut-in order until the application is submitted. With the approval of the District Engineer, the disposal method may be continued pending his final determination. Once the District Engineer has determined the proper method of disposal, the lessee or operator will have until October 1, 1977, or 60 days following receipt of the District Engineer's determination, whichever is the longer, in which to make any changes necessary to bring the disposal method into compliance. However, if the disposal method then employed is endangering the fresh water in the area or otherwise constitutes a hazard to the quality of the environment, the District Engineer will direct prompt compliance with the requirements of this Notice.

VIII. *Unavoidable delay.* A single extension of time not to exceed three months (six months in arctic and subarctic areas) may be granted by the District Engineer where the lessee or operator conclusively shows by

V40240 DEC 12 75 XUM

application that, despite the exercise of due care and diligence, he has been unable to timely comply with the requirements of the notice: *Provided*, That such delay will not adversely affect the environment.

IX. *Reports.* All unauthorized discharges or spills from disposal facilities must be reported to the District Engineer in accordance with the provisions of NTL–3.

Beginning October 1, 1976, and thereafter on an annual basis, lessees and operators must submit a report for each facility which includes the total volume disposed of during the reporting period and a current water analysis which provides the same type of information required for approval of the original application: *Provided however*, That:

1. Where disposal is approved pursuant to section IV (4), no annual water analysis will be required.

2. Where disposal is approved pursuant to a NPDES permit, a copy of the required discharge monitoring report may be submitted in lieu of the above annual report.

3. Where a single application was approved for several leases and/or facilities, a composite annual report covering all such leases and facilities may be submitted.

X. *Compliance.* Compliance with this notice does not relieve a lessee or operator of the responsibility for complying with more stringent applicable Federal or State water quality laws and regulations, including those which are subsequently promulgated pursuant to the Safe Drinking Water Act (Pub. L. 93–523), or with other written orders of the Geological Survey.

Bureau of Reclamation

NARROWS UNIT, COLORADO

Public Hearing on Draft Environmental Statement

Pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a draft environmental statement for the Narrows Unit, Colorado. This statement (INT DES 75–59, dated December 8, 1975) was made available to the public on December 10, 1975.

The draft environmental statement deals with the construction and operation of a multipurpose dam and reservoir, relocation of railroads, a State highway, the Union Pacific Railroad, and various utility lines. It also discusses the inundation of approximately 7,000 acres of irrigated agricultural land, the townsites of Weldona, Goodrich, and Orchard, and the relocation of the residents and facilities of these towns.
